PATRONS' PRIZE SONG.

The prize of $25 offered by the National Grange of Patrons of Husbandry for a song adapted to the use of the Order, has been awarded to Mrs. M. F. Tucker, of Omro, Wis., for the following, which, it is announced, will be set to music soon:

'Tis ours to guard a sacred trust,
We shape a heaven born plan:
The noble purpose, wise and just,
To aid our fellow man.

CHORUS.

From Maine to California's slope
Resounds the reaper's song—
"We come to build the nation's hope,
To slay the giant Wrong"

Too long have avarice and greed,
With coffers running o'er,
Brought sorrow and distress and need
To Labor's humble door.

A royal road to place and power
Have rank and title been,
We herald the auspicious hour
When honest Worth may win.

Let every heart and hand unite
In the benignant plan—
The noble purpose, just and right,
To aid our fellow man.

Love and Revenge.

Once, in fact, a man lived here. He was of a majestic mien. He kept a store, and sold ready-made hens' eggs and got rich. He had a daughter, and she was ready maid, too. She was like her father's cane. She had a golden head. Her eyes were so bright that when she peeped through the mist of the future, she always started a rainbow for some furlongs ahead. She wore long furs, too, for she was cradled in the lap of luxury. She was sweeter than custard pies, eight barrels of sugar, and eleven pounds of gum drops mixed. She was so sweet that she ate ripe peaches for pickles, and so bright that she had to carry a sunshade in the house to keep from putting the rest of the family's eyes out and scorching the food. Ya gods, a female like that made of cast iron, scoured once a week, and put upon the umbrella stand, would be exqueeze-it. She had a lover. It was a man. He knew that her coffee had never been sweetened with the lessons of adversity, and he knew in his inmost soul that he was diluted with the milk of human kindness. Um! um! how this man did love that female. But the path of true love never did run smooth and he got stuck in a mud-puddle before he got half over it, as follows:

A robust man of crimson hue saw this female. To see was to gaze, and to gaze was to love. He swore an inward swear that she should be his, and he here, even though he had to take her father out clamming with him, and dump him overboard, and though he had to shoot his rival with a wine bottle loaded with grape-shot.

'Twas night. A real warm couple stood in the cold, pale, moonbeams. Their lips touched, and there was a sound like a cow hauling its hoof out of the mud. A female voice said:

"Alfred, dear Alf, remember at seven to-morrow night, precisely, or I will never forgive you." (She wanted to go to the circus).

He said: "Hattie, dear Hat, I will be here."

In the shade of a tree stood a man who was to knock the circus business endwise. As they parted he said, "Aha!" twice, and then dashed into the thickening gloom and darted after the rival cuss. He followed him to his home. He raised the window and stole his boots. He took those boots home and then and there he perpetrated a crime unparalleled in the annals of history. He deliberately took saddle-rock banana skin, and he half-soled and heeled those boots with that banana skin.

* * * * * * *

'Twas night. The golden stars were winking at each other (above you will see the stars). The moon was showing he, man to an admiring world. Grasshoppers had grasshopped for the last time that day. The bullfrogs were singing their evening hymns, and the cats were warbling their evening hymns, too. Nothing was working, save the emptings in the buckwheat cake jar.

A young female, dressed to kill, stood leaning against a door-post. She was wringing her hands and yelling, "Cruel, cruel work!" Far better had she been at her crochet work. The grease on her golden locks would have brought ten cents for soap fat. Only have stuck a wick into it, and she'd have been a candle. She was wicked enough without it. A shadow stole across her path. 'Twas a he shadow. It said, "Ahem!" She ahemed back, for she owned a patent hemmer. It advanced steadily, and exclaimed, "Why, Hattie!" She advanced with a cat-like tread, and ejaculated, "Why Doc!" (it was a dry Doc.) She spoke one minute—subject, the instability of man—then they both crooked elbows and glided into the thickening gloom. This makes three in the thickening gloom.

A form—a male form—approaching. It glides and shuffles along, tumbling over lamp-posts and mackerel barrels, Doc says to Hattie.

"See there; look! look!—alas how drunk!"

She shrank back, clutched the Doc's arm more, closely, and then exclaimed:

"Tis, 'taint, 'tis! my long lost Alfred!"

"Yes, and drunk as thunder!" cried Doc.

"'Twas night again. Alfred was being kicked off the stoop by Doc, and Miss Hattie's father, assisted by Miss Hattie. A few months after. Doc led his blushing bridesmaid to the blushing priest. Then he took her to her new home—a bran new house—with a tank of water in the top that held a thousand gallons.

Time rolled on without wheels. Months flew by without wings. Alf thought his legs had gin out. Three tumbles to the yard was his only gait, the only gait to the yard he owned. One day he sat upon the grass bemoaning his fate, when a goat—they call 'em billy-goats because they eat hand bills—sent by some fairy hand, approached and chewed all the bottoms of his boots off, and on rising he found himself restored to health. He swore to be revenged for those banana skins. He dressed himself in the disguise of his lost love's uncle. He visited them one cold blasty night. He was invited to make her house his home until morning. In the dead of night he arose. He drew forth a large auger, and he stood upon the table and bored through the wall overhead right into that awful tank of water. With one wild shriek, which was its last, the pent up waters rushed fourth and drowned the whole kit and caboodle of 'em. Not a vestige of the house remains.

Thinning out Grapes.

It is not too late to thin out grapes; indeed it is about as good a time as any, for now the character of the growth is determined. If there are to be weak branches or small uninviting clusters, they will now exhibit their quality. It is needless to say that these in a large crop of fruit should be removed, and not the best clusters and thriftiest branches. But some of the fine bunches must in general also be sacrificed where the crop is large. Better err on the safe side and have less fruit but better than run the risk of overtaxing the strength of the vine. This growing heavy crops is the great bane of our grapevines. It is not only the overstraining influence of the growth (throwing out of the normal, healthy condition,) but it puts the wood and fruit out of proportion. The original habit of the grape is less fruit than it is now made to bear. This results by lessening the wood and forcing the fruit; hence the many clusters in proportion to the foliage. These must be reduced. There should be less fruit even if the foliage is extended which latter it is found, is an advantage. Be merciless. Where there are three or four clusters to the spur, which is often the case, remove all but one, the nicest, unless the joints are wide apart, and the vine has age and thrift another may then occasionally be left. In this way only fine bunches are grown, for the force intended for the clusters removed, is now directed, in a great degree, to the remaining clusters, which will thrive to the fullest, by far exceeding their normal proportion. In a few years a native or a neglected cultivated vine may be changed almost to a new thing. Not only the size but the flavor is improved; the productiveness to a great extent. There will be better health and greater vigor; there will be beauty. We know nothing more ornamental than a well directed grapevine set so as to be favorably seen, with its large leaves glistening and their shape distinctly defined because large and not numerous, clusters scattered in due proportion, and *all* large and full berried, each bunch having a sort of interest by itself. Let the trellis with its vine extend well up, and well to the right and left with glimpses through it. Here is ornament, heightened by its use, most rich and prominent in autumn or late summer when the fruit is ripening and colored. But the clusters themselves must, in many sorts, be thinned, often half of the berries clipped out. Let it be done at one clipping—small, pointed scissors are best—and handle the bunch as little as possible, and be careful in particular not to bruise, in the least, the remaining berries, which when hurt will be sure to be lost. A close and thrifty-growing bunch, even if a good many of the berries have been removed, giving it a scattered appearance, anything but pleasant to look at, will surprise you by closing up its gaps and crowding the berries, necessitating sometimes a second thining, which is anything but desirable, and is usually neglected till the berries are wedged so that the the cluster becomes stiffened, deeming a second thinning not necessary. It is now almost impossible to thin out without hurt to the remaining berries. Therefore let the first thinning be the only one. To effect this, in close growing clusters, if very thrifty, remove half the berries or there-bout. We have had a great deal of painful experience in this respect, having to thin out three and even four times. Now once going through does the work, and pays well. It is as important to thin out the berries in close sorts as to lessen the number of bunches.—*Cult. & C. Gentleman.*

THE GROWTH OF THE "LITTLE CLOUD."

But a few months ago, amongst the daily telegrams might occasionally be found a notice of a new secret order called "Patrons of Husbandry." To those far away from the scene of its birth, who gave it a passing glance it was deemed but one of the many extravagances, apparently of a similar nature and so congenial to the American disposition which, after subserving some local purpose, either of political hatred or private spleen, would flicker out as suddenly as it had appeared; to those near by, who gave it the slightest thought, it was the subject of derision; and by all but those active participants in the workings of the Order, who knew the purity of its motives and realized the gravity and magnitude of its undertakings, it was pronounced quixotic in the extreme and unworthy of the slightest attention. Alternately laughed at or denounced by its neighboring journals, unnoticed by the press in distant sections, and treated with undisguised scorn by those against whom its efforts were directed, the little cloud on the political horizon, at first not bigger than a man's hand, silently, unostentatiously and drop by drop has gathered in strength and influence, until at the present time it hovers over the entire nation, surcharged with a people's wrath, and ready to deluge with the waters of a popular indignation the political venality and the political corruption, which have become synonyms with American statesmen and American statesmanship. Iowa, the natal State of the Order, numbers already its Granges by hundreds; throughout the entire South-west, in its ranks stand the bone and sinew of the country; on the Pacific coast the work has been inaugurated and though but a few weeks ago, west of the Sierras the "Patrons of Husbandry" were known only by name, now in almost every hamlet and town from Puget's Sound to the Monument can be found a Grange, ready to aid in the purification of the nation.

To the student of the past, it is interesting to note the exactness with which history repeats itself; it is surprising to observe the similarity existing between all revolutions of the past and present, caused by a revulsion of popular sentiment against the intrigues of their political masters. In all countries in which the government is from the people, the masses have proved themselves long-suffering and enduring. Even when under the dominion of unprincipled leaders, even when controlled by the decision of a corrupt ballot-box, there is a freedom in their subservience, there is a nobleness in their very degradation. The prejudices of child-hood, the teachings of early education, and the venerated memories of Jefferson and Jackson, of Clay and Webster throw over them a spell more potent than that with which Dacosa surrounded the Red-Cross Knight; and it is only when Time and the carelessness attendant upon success, has combined to prove that the injured beauty, for which they had so stoutly battled, was but a false and loathsome sorceress, it is only as the abyss of despotism and military anarchy gapes before them, that they rise in their might and resume the authority and the power which they have unworthily delegated.

The public records of the States during the past few years furnish unmistakable evidence of the venality and criminality with which the country has been mismanaged, and it is to restore the government to its pristine purity, it is to withdraw from the seats of honor men, disloyal to their fealty and false to their trust, it is to replace upon the eyes of Justice, that bandage, which assures impartiality, that the Order of "Patrons of Husbandry" has arisen; and it is, in order that no failure may endanger its ultimate success, that only those, known to be leal and true, are admitted into its secrets and are advised of its working plans. The eagerness with which the agricultural community have availed themselves of this mode of escape from the oppression under which they have for so long a time suffered, speaks volumes in itself. Farmers, as a general rule, are, and have been, disinclined to unite themselves with organizations at all secret in their workings, but the knowledge of the utter impossibility of contending against corruption and political vice in an open manner has impelled them to adopt, as their only means of defence, a mode of procedure, to which they are naturally and by education averse.

The order has been instituted to benefit a nation, it is based upon purity of government, and with it rightly directed, rests the power to accomplish great political good. We hope that caution and wisdom may preside over its councils, we trust that the self-guards, with which it has surrounded itself, may protect it from the insidious manœuvring of the political world, and we confidently believe that under its auspices the Great Republic, revivified and purified, has bloodlessly undergone the throes of a second birth, greater and more glorious than the first.

J. Q. A. STANLEY of Los Angeles announces himself to-day as a candidate for State Senator. We have formed a favorable opinion of Mr. STANLEY and would like, therefore, to speak a good word in his favor, but unfortunately, he has associated himself with bad company—he is an *independent*.

A CREDITABLE SELECTION.

One of the most important nominations—that of Assemblyman—made by the People's Convention has been given to our fellow-townsman, J. M. GUINN, he having been selected, after mature deliberation by that body, as the man best calculated to secure from our section a solid vote, and at the same time being most popular with the Republican portion of Los Angeles. As we have, since the mass meeting, held at Anaheim last Spring, advocated the nomination of A. L. BUSH for that position, we felt that it was due to the last-mentioned gentleman and to ourselves to make a rigid and thorough investigation in regard to the public opinion relative to the merits and qualifications possessed by these gentlemen, as possible Legislators. We find a most unexampled unanimity of feeling in favor of Mr. GUINN, even his personal enemies conceding the undoubted ability of the man, and admitting that the record of his legislative career would unquestionably be one, of which his constituents could justly be proud. We have had the honor of being numbered amongst his personal friends, and it is therefore with no slight degree of pleasure that we find it compatible with the duty which we owe to our patrons to endorse most heartily his nomination and to endeavor in our humble way to contribute to his success.

OUR FUTURE SUPERVISORS.

We learn from the Los Angeles *Star* of yesterday that the Board of Supervisors have ordered the election of an entire new Board, and that a proclamation to that effect will be issued at once. We understood some weeks since that it was the intention of two of the members of the present board to resign in order that there might no difficulty arise from the indiscretion committed by the framers of the New Code in bungling matters in their usual happy style. The two proposed outgoing members intended to retire from choice, Mr. BUSH is a candidate for the Assembly, and Mr. FORSMAN has, we have understood, been requested to resign. We suppose, therefore, from the wording of the local referred to that the entire Board has resigned, or will resign.

It is necessary that we should select some suitable person to represent our district. We would suggest the name of the Hon. EDWARD EVEY, as a gentleman eminently qualified to fill the position. We do not know that it would meet with the wishes of Mr. EVEY to be brought forward, but we believe that if the position were forced upon him by the people, he would sacrifice his personal wishes at the request of his friends and neighbors.

THE CULTIVATION OF TOBACCO.

The few experiments, that have been made from time to time in growing tobacco in this section, have uniformly been attended with remarkable success. In fact, we are told that the plant is perennial in this locality, and that it has been known to yearly reproduce itself for eight or ten years after the original planting, without any culture whatever. It is true that to prepare tobacco for the market requires a thorough knowledge, only to be acquired by experience, and a considerable amount of capital with which to commence operations. Besides it is difficult for an unknown place to contend against localities, widely known for their excellence in a particular branch of industry. These reasons are cogent objections, but it must be remembered that a large amount of inferior tobacco in its crude state is yearly consumed by sheep-men in washing their flocks, and this article could be supplied from a home market at a much less figure than the usual rates with large profit to the producer. It might be tried experimentally. We believe that it would prove a success.

A WALK-OVER.

Never, in the whole course of our experience, have we come in contact with an individual so universally the object of esteem as the candidate for Treasurer on the Democratic ticket, Thos. E. Rowan. Since the Republican party here deemed it unexpedient in the present campaign to make party nominations, and have thus allowed their adherents to make selections between the rival candidates, based upon their personal merits, there appears to be but one opinion, at least in this end of the county, in regard to the name of the coming Treasurer. In fact, our people are so thoroughly satisfied with Mr. ROWAN and his public services, that the inquiry—whether he has an opponent—is very seldom, if ever, heard. How perfect is the public record, possessed by that gentleman, can be correctly estimated by his universal popularity.

A NECESSITY.

It is an acknowledged fact that in deciding between two aspirants for an office that one should be chosen who by long experience in his official duties has acquired a perfect and thorough knowledge of what is required in order to perform good and faithful service to the people. In our friend, STEPHEN H. MOTT, are all the requisites to worthily fill the office of Recorder. He has had full charge of the Recorder and Auditors' offices under the supervision of the County Clerk for the last seven years. He is a gentleman of unquestioned probity and integrity and he has completely identified himself with the county by investing his means therein and in assisting its development and growth. Confined as he has been to his desk, he has not had an opportunity of extending his circle of acquaintance as his naturally genial nature would desire, and is in consequence comparatively unknown. It is a necessity, therefore, that his friends should trumpet his many virtues, and knowing that his innate modesty of manner prevents him from being properly appreciated, we cordially present his name to our readers as unquestionably the right man for County Recorder.

THEIR NUMERICAL STRENGTH.

We learn from the San Francisco *Call*, that the official report of the "Patrons of Husbandry" places the numerical strength of the organization at 4,240 Granges, or subordinate lodges. These are classified as follows: Iowa, 1,732; Illinois, 537; Indiana, 234; Missouri, 403; Minnesota, 287; Nebraska, 273; Wisconsin, 172; Mississippi, 149; South Carolina, 128; Vermont, 23; New York, 5; Pennsylvania, 4, and New Jersey, 3. In California and Oregon, a large number of Granges have also been organized, but at the time of the report, no official information had been received concerning them. The Order is reported as gaining ground daily in all the States mentioned, and as having obtained a footing in others not included in this report.

LATEST NEWS ITEMS.

(From the Express and Star.)

New York, Aug 5.—The members of the Grand Army of the Republic, at Hoboken, compelled the Germans to take down their flag flying over the Stars and Stripes, and reverse its position.

Senator Morton has addressed letters to his associates of the committee on elections, appointing a meeting of that committee, to consult on the proposed amendments to the constitution. It is proposed to change the mode of electing President and Vice-President.

London, Aug. 5.—The Queen prorogued parliament to-day, and made an address upon the condition of the kingdom which she says is generally satisfactory. The foreign relations are amicable. Her Majesty is engaged in giving effect to the treaty of Washington relating to British claims against the United States. Commercial negotiations with France have been successfully closed. The mission to Zanzibar effected treaties which will repress the slave trade of eastern Africa. Extradition treaties have been effected with Italy, Sweden, Denmark, Prussia, and other nations. Her Majesty thanks Parliament for the liberal provision make for her son, the Duke of Edinburg. Congratulates them on amendments to endowed schools act, which she hopes will extend the advantages of education to the middle classes.

Vienna, Aug. 6.—The International Patent Right Congress, in session to-day, resolved that the protection of inventors ought to be guaranteed by all nations.

London, Aug. 6.—Emigration from Russia to America is steadily increasing; 400 sailed to-day, on one steamer.

Chicago, Aug. 7.—There was a large fire on Indiana street last night, and a carriage factory and planing mill were destroyed. Loss $75,000.

Richmond, Aug. 7.—In the conservative Convention to-day, Gen. Charles Kemper was nominated for Governor, and Gen. Wilbers for Lieut.-Governor.

Columbus, O., Aug. 6.—The Democratic Convention nominated Wm. Allen for Governor.

San Francisco, Aug. 7.—Flour, extra, $5 57; wheat, $1 77½@1 82½; barley, $1 10@1 20; oats, $1 60@1 75; potatoes, 60c@1 00; rye, $1 80; corn, yellow, $1 27½.

Our latest dates give accounts of a great revolution in Frickna, Japan—Ten thousand farmers attacked the Government castle, and killed a number of officials. There are 150,000 men engaged in the insurrection. The alleged cause is because the Government demands money instead of produce as payment of taxes.

Washington, Aug 6.—The President to-day signed the postal treaty with Japan. San Francisco and Yokohama are to be offices of exchange. The postage will be 15 cents each ounce half letter, or less; 15 cents for each additional half ounce, to be reduced to 12 cents after the first of the year.

The President has appointed as Second Lieutenants in the army, Wm. Allen of Camp Apache, and J. C. Winters who served during the Modoc campaign.

Rome, Aug. 6.—A dreadful earthquake took place in the southern part of Italy on the night of the 29th ultimo, destroying tens of thousands of lives and millions of dollars worth of property. Very few particulars have as yet been received, although it is known to be one of the most dreadful calamities of modern times.

SUMMONS.

IN THE JUSTICE'S COURT OF ANAHEIM TOWNship, in the county of Los Angeles, State of California.

P. DAVIS & BRO., Plaintiffs }
ORLANDO GWINN, Defendant. } SUMMONS.

The People of the State of California send Greeting to Orlando Gwinn, Defendant.

You are hereby required to appear before me, at my office in Anaheim Township, county of Los Angeles, in an action brought against you by the above named plaintiffs, and answer the complaint in said action, on file in my office, within twenty days from the date hereof.

The said action is brought to recover of you the sum of $75 16-100 alleged to be due plaintiffs for merchandise, as will appear by their bills on file in my office. And you are hereby notified that if you fail to appear and answer said complaint, as above required, said plaintiffs will take judgment against you for the said amount of $75 16-100, together with costs.

To the Sheriff or any Constable of said Los Angeles county, greeting: Make legal service and due return hereof.

Given under my hand this seventh day of July, A. D. 1873.

J. W. CLARK,
Justice of the Peace of said Township.

P. Davis, one of the firm of P. Davis & Bro., appeared and made a motion for an order of publication of summons in the above entitled case.

Now it appearing from the return of the Constable that defendant is not to be found and it further appearing by the affidavit of P. Davis aforesaid that the plaintiffs have a cause of action against defendant, it is therefore ordered that serving of summons be made by publication of the summons

Ordered that the said summons be published in the Southern Californian, a paper published in the town of Anaheim, Los Angeles county, California, for the term of four weeks in succession at which time service will be complete.

SATURDAY ..... AUGUST 9, 1873

Kleinigkeiten,

Capt. C. E. Thom of Los Angeles was in town on Thursday and Friday.

The Anaheim public school will be re-opened on next Monday, August 11th.

See the announcement of L. E. Smith as a candidate for the office of Constable.

The dedication of the Presbyterian Church has been unavoidably postponed to August 17th.

L. F. Lewis arrived yesterday evening, from his home in Monitor, Alpine Co.

Services will be held at the Catholic Church on Sunday, August 24th.

The Legislative portion of the People's Ticket is becoming more and more popular every day.

Clark's candy is better than anything you can get in Los Angeles. He has all kinds and at all prices.

The Board of Supervisors have ordered an election for a new Board, and will issue a proclamation in a few days.

The Synagogue of the congregation of B'nai B'rith at Los Angeles, was consecrated yesterday afternoon.

A camp-meeting, under the auspices of the Methodist Episcopal Church, will be held at Compton, commencing on next Thursday.

Wm. R. Olden Esq. is one of the delegates to the Republican Judicial Convention, to be held at Sacramento on the 20th inst.

Theo. Reiser and wife, and Ben. Dreyfus have gone to the San Juan Hot Springs. There are now about twenty persons from Anaheim at that place.

Something very surprising will occur next week. At present, "yer reporter is too much surprised to commit himself further than by stating that it is connected with a bottle of hair-dye.

Mr. Ed. Miles has so far recovered from his accident as to be able to put in an appearance on the streets again, although sadly delapidated To be an object of such general interest is almost a temptation to go and do likewise.

Our friend, Guinn, is recognized as the right man in the right place. His sterling qualities of mind and heart command the respect, even of his enemies. We predict that he will lead the People's Ticket on election day.

The steamer which arrived yesterday, brought us some of the latest styles of job type. We can now print visiting cards, circulars, etc., etc., in the highest style of the printers' art, and at rates extremely low.

When Mr. Crowther, in his song on "County Division" hailed A. L. Bush as the "Great Redeemer," he evidently forgot that that gentleman bases his claims to election on the fact of his being unpledged to any man, party, or measure.

No greater tribute can be paid to the merits of Anaheim, as a health-resort and summer residence, than the fact that an old Californian like our friend Mr. A. Schmolz, who has visited and knows every section of the State, selects it as the only enjoyable spot, where in to pass a few weeks of recreation.

The announcements of Jas. D. Byrd and David Davis, as candidates for Constables of this Township, appear in our column of "political announcements" to-day. Messrs. Byrd and Davis have both filled the office, to which they now aspire, and during their terms invariably gave satisfaction. We believe them to be capable and efficient men, and, as such, we recommend them to the notice of the public.

We were pleased to receive a visit from H. M. Mitchell, candidate for Public Administrator, on Thursday Mr. Mitchell was one of the earliest acquaintances, made by us, on coming to Los Angeles county, and has impressed favorably ourself, as well as all his many friends by his eminent personal merit. As he has no opposition, he does not need the active support of his friends, but yet we we can not refrain from endorsing him, as a true gentleman and as an able, rising lawyer.

PATRONS OF HUSBANDRY.

The Fairview Grange—Its Officers and Members—The Organization of the Richland Grange—A Tribute of Respect — The Magic-like Growth of the Order in California.

On Wednesday at Fairview School-house, W. H. Baxter, of Napa county, Grand Deputy of the Patrons of Husbandry for California and Secretary of the State Grange, regularly organized the

FAIRVIEW GRANGE

And installed as its officers the following gentlemen and ladies: Edward Evey, W. M.; B.F.E. Kellogg, W. O.; David Evey, W. L.; Geo. Greeley, S.; Byron Clark, A. S.; C. Gridley, W. C.; D. W. C. Cowan, Treas.; John Taylor, Sec.; Erastus Johnson, G. K.; Miss Austin, Ceres; Miss Frances L. Evey, Pomona; Miss E. Kellogg, Flora; Miss M. Boswell, Ass't Stewardess. The Charter members are E. Evey, J. J. Hill, B. F. E. Kellogg, D. Evey, J. D. Taylor, B. Clark, B. Snodgrass, F. A. Gates, G. A. Greeley, And. Bittner, D. W. C. Cowan, J. Gwin, Rev. C. Gridley, H. C. Kellogg, W. M. Hill, W. M. Richter, Thos. Boswell, W. Newbeck, A. Henry, E. Johnson, Mesdames Evey, Kellogg, Clark, Gridley and Jeckie Snodgrass, and Misses R. A. Evey, Fannie Evey, Kellogg, Austin, Gwin and Boswell. The Grange is now in thorough order, and, although not prepared to initiate new members until the arrival of its charter from Washington, can receive and act upon applications for membership. The meetings will be held at present at the schoolhouse in Fairview, but it has been suggested, that for the greater convenience of all, Anaheim should be selected as the place where the regular monthly meeting shall be held.

THE RICHLAND GRANGE.

On Thursday the organization of the Orange Grange at Richland was completed by the installation of the following officers: Thos. Brown, W. M; A. Hickox, W. O.; S. McPherson, W. L.; E. W. Squires, W. C.; Patterson Bowers, S.; C. M. Marshall, A. S.; A. A. Talkington, Treas.; J. W. Anderson, Sec.; P. J. Shafer, G. K.; Mrs. Greig, Ceres; Mrs. Davenport, Pomona; Mrs. Marshall, Flora; Mrs. Hickox, Ass't Stewardess. This Grange numbers twenty members and hold its regular meetings at the Richland school-house. There is at the town of Santa Ana, a Grange in process of organization, but owing to the absence of several of the principal members, Mr. Baxter was unable to give it his attention. It will be placed in working order at an early period.

GRAND DEPUTY BAXTER,

To whom we were accorded the the honor of an introduction, is a resident of Napa county and is one of the early pioneers, having lived in California for twenty-three years. He is Master of the first Grange organized in this State—the Napa Grange, is Secretary of the State Grange, and has been selected by Grand National Deputy Garrison, of Iowa, to perfect the organization of the Patrons of Husbandry in California. The Order has been singularly fortunate in having secured the services of a gentleman, so eminently qualified as Mr. Baxter. United to that nameless charm of manner and expression, with which one so rarely meets and the possession of which enhances so greatly the influence exerted by the pioneers of a popular cause, he brings to his work a long experience in the inner California life, an intimate knowledge of the sentiments and feelings of the farming community and an earnestness of purpose to do good.

THE ORDER IN CALIFORNIA.

In a conversation with him, we were enabled to form a slight conception of the magic growth of the Order in this State. At the commencement of the present year the number of members west of the Sierras might almost be counted upon the fingers, and now there is scarcely a county in the State which has not within its limits one or more Granges in complete working order.

THE ORDER IN LOS ANGELES COUNTY.

Since Mr. Baxter's arrival, last week, he has devoted every moment to the organization of Granges, recently formed in this county. He tells us that he has already organized a Grange in the city of Los Angeles, one at Compton, one at La Dow and one at El Monte. He was at Gallatin yesterday, in pursuance of his work, and to-day will install the officers of the New River Grange. These, with the Granges here and at Richland, make the number in the county of Los Angeles eight, containing on their rolls the bone and sinew of the county. On his return to the northern portion of the State he will visit in Santa Barbara county, Carpenteria, Saticoy and Santa Barbara, at each of which places are Granges awaiting his arrival to commence work in earnest.

SPIRITUALISM.—On Thursday evening, Mrs. P. W. Stevens of Sacramento, gave a lecture on spiritualism. As it is her usual custom to have the audience select the subject, a committee was appointed for that purpose. The subject selected by them was "What is the necessity for spiritual manifestations?" Her answer to that conundrum was lengthy and satisfactory, and was delivered in a manner peculiarly her own.

THE CONCERT. — On Thursday night the Westminster Choir gave a concert at Enterprise Hall, for the purpose of raising funds to procure an organ. The audience was small, but select and appreciative. Of the singers, naught but praise can be said; and the readings of Mr. Poor elicited much mirth. The entertainment was repeated at Santa Ana last evening, with what success, we have not yet heard.

DEEDS FILED.—Almon Crum to Richard Heimann and Oscar George—Certain lots in town of Santa Ana. Consideration, $200.

A. L. Bush to A. Crum—Certain lots in town of Santa Ana. Consideration, $80.

Lydia Williams, executrix to Jas. E. Crane and wife—Fifty acres rancho Santiago de Santa Ana. Consideration, $600.

ON HAND. — *Peters' Musical Monthly*, No. 72, is to hand, and contains the following selections of new music: "Lost and Cast Away;" "My Love sleeps under the Daisies;" "Will he come Home to-night?" "My Dear Old Mother;" "Here the Postilion;" "Bertie's Schottische;" "An Instrumental Piece;" "The Reapers' Dance;" "Golden Hours."

You can secure the above pieces of new music by sending 30c. for No. 72 *Peters' Musical Monthly*; or the last eight numbers will be sent you, post paid, for $2. Address, J. L. Peters, 599 Broadway, New York.

At a mass meeting held in Hyde Park, a protest was made against giving the Duke of Edinburgh, a bridal pension.

The consecration of Bishop Mora at Los Angeles is described as a grand affair.

How It is Accomplished.

Anaheim is fast becoming an enterprising and prosperous town Following the example of Santa Barbara, its people are beginning to recognize this great and important fact, viz., that in order to build up a town rapidly and have it grow in prosperance we must support liberal- and encourage in every manner our local papers. It was alone in this way that Santa Barbara has been made to almost double its population and wealth in four years The enterprising people of that place, with willing hearts and liberal hands, went to work and subscribed for hundreds of copies of the *Press* and *Times*, and spread them broadcast through eastern cities and towns. The consequence was, the place was brought into notice, regarding particularly its climate and as a sanitarium, to such an extent that it was found necessary to build two large and commodious hotels in order to accommodate the visitors from abroad, to say nothing of hundreds who moved in and settled there permanently; business has increased wonderfully in the past three years, and property enhanced to double its value. Santa Barbara to-day is one of the prospering towns of California. The Anaheim people are taking a wise step, in imitating Santa Barbara. We see in a recent number of the *Southern Californian*, published at that place that one firm there has subscribed for one hundred copies of the paper to send east. It is a wise and politic move on the part of the citizens of that place. What are our liberal and enterprising people doing to encourage emigration to our town and valley, by making known the great advantages we possess in almost every branch of industry? Let them do as Santa Barbara has done; as Anaheim is now doing; take a lesson from them, and profit by the example.—*San Bernardino Guardian.*

Grandest Scheme Ever Known
FOURTH
GRAND GIFT CONCERT.
....For the Benefit of the....
Public Library of Kentucky.
12,000 Cash Gifts, $1,500,000.
Every Fifth Ticket Draws a Gift.
$250,000 FOR $50

The Fourth Grand Gift Concert, authorized by special act of the Legislature for the benefit of the Public Library of Kentucky, will take place in Public Library Hall, at Louisville, Ky.

Wednesday, December 3d, 1873.

Only sixty thousand tickets will be sold, and one half of these are reserved for the Eastern and Western trade, thus leaving only 30,000 for sale in the United States, where 100,000 were disposed of for the Third Concert. Agents will find this an excellent enterprise for parts, and have on their back the scheme with a fair explanation of the mode of drawing.

At the Concert, which will be the grandest musical display ever witnessed in this country, the unprecedented sum of

$1,500,000

Divided into 12,000 cash gifts, will be distributed by lot among the ticket holders.—The numbers of the tickets to be drawn from one wheel by blind children, and the gifts from another.

TOTAL 12,000 GIFTS, ALL CASH, amount		$1,500,000

The distribution will be positive whether all the tickets are sold or not, and the 12,000 gifts all paid in proportion to the tickets sold—all unsold tickets being destroyed, as at the first and Second Concerts, and not represented in the drawing.

PRICE OF TICKETS.

Whole tickets, $50.00; Halves, $25.00; Tenths, or each coupon, $5.00; Eleven Whole tickets for $500.00; 225 tickets for $1,000.00; 113 Whole tickets, $5,000.00; 57 Whole Tickets for $10,000.00. No discount on less than $500.00 or fifty Tickets at a time.

The unparalleled success of the Third Gift Concert, as well as the satisfaction given by the Fourth Concert, makes it only necessary to announce the Fourth to insure the prompt sale of every ticket. The Fourth Gift Concert will be conducted in all its details like the Third, and full particulars may be learned from circulars, which will be sent free from this office to all who apply for them.

Tickets now ready for sale, and all orders accompanied by the money promptly filled. Liberal terms allowed to those who buy to sell again.

Rheumatic Diseases. Persons engaged in Paints and Minerals, such as Painters, Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are liable to Paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS twice a week.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout the entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and drought, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative exerting a powerful influence upon these vaigus organs, is essentially necessary. There is no cathartic for this purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored, pasty matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Scrofula, or King's Evil, White Swellings, Tumors, Ulcerations of the Neck and Glands, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and inveterate cases.

Dr. Walker's California Vinegar Bitters are on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation the tubercular deposits are arrested, pure blood is formed, and a permanent cure is effected.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative and Antiseptic.

The Aperient and mild Laxative properties of DR. WALKER'S VINEGAR BITTERS are the best safeguard in cases of eruptive and pestilential fevers. Their balsamic, healing, and soothing properties protect the tissues of the alimentary canal. Their Sedative properties allay pain in the nervous system, stomach, and bowels, from inflammation, wind, colic, or nervousness.

Their Counter-Irritant influence exerts a powerful influence in equalizing the circulation, thereby relieving congestion, fever and inflammation. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, thereby relieving that class of diseases arising from obstructions or disorganization of the liver.

Diseases of the Digestive Organs producing inflammation, ulceration and derangement of the mucous surfaces of the stomach, bowels, kidneys, bladder, nervous diseases, headache, constipation, costiveness, indigestion, dyspepsia, biliousness, bilious fever, inflammation of the mucous membranes, worms, colic, inflammation of the kidneys, inflammation of the bladder, and all derangements of the internal viscera. Warranted to effect a positive cure. Purely Vegetable, containing no mercury, minerals, or deleterious drugs.

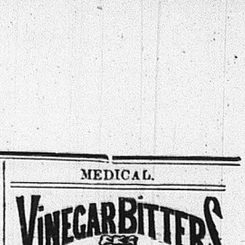
IF Observe the following symptoms resulting from diseases of the Digestive Organs:

Constipation, Inward Piles, Fullness of the Blood in the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Chest, Limbs, and sudden Flushes of Heat, Burning in the Flesh.

A few doses of **RADWAY'S PILLS** will free the system from all the above named disorders. Price, 25 cents per box. SOLD BY DRUGGISTS.

READY FOR USE—TRUE.—Send one letter-stamp to RADWAY & CO., No. 87 Maiden Lane, New York. Information worth thousands will be sent you.

MEDICAL.



Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Pin, Tape, and other Worms, lurking in the system of so many humans, are effectually destroyed and removed. Says a distinguished physiologist: There is scarcely an individual on the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of medicine, no vermifuge, no anthelmintics, will free the system from worms like these Bitters.

Mechanical Diseases. Persons engaged in Paints and Minerals, such as Painters, Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are liable to Paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS twice a week.

Tumor of 12 Years' Growth Cured by Radway's Resolvent
BEVERLY, Mass., July 16, 1869.
DR. RADWAY:—I have had Ovarian Tumor in the ovaries and bowels. All the Doctors said "there was no help for it." I tried every thing that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try it; but had no faith in it, because I had suffered for twelve years. I took six bottles of the Resolvent, and one box of Radway's Pills, and two bottles of your Ready Relief; and there is not a sign of tumor to be seen or felt, and I feel better, smarter, and happier than I have for twelve years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose.
HANNAH P. KNAPP.
