Buy a Willard

Perhaps you're too busy for battery details. All you want to know is that the battery you buy will give service.

What's the answer? Buy a Willard Threading Rubber Battery. The plates in it are insulated not merely separated.

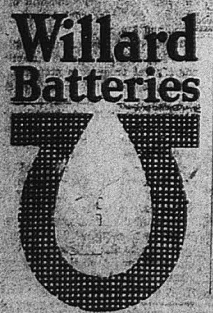

Threading Rubber Insulation doesn't warp, crack, check, puncture or carbonize. It outlasts the battery plates.

Get a line on the actual saving Willard Threading Rubber Insulation makes possible. Drive around.

"Now in Our Tenth Year of Business in Anaheim."

CITY AND COUNTY

On production in the Highland district is greater today by 3000 barrels than it was yesterday, the increase coming as the result of the bringing in of Chapman No. 2 by the Union Oil company late yesterday afternoon. The well had been drilling two years and had reached a depth of 1100 feet when "black gold" broke forth. It is one of deep wells of the district. Chapman No. 1 came in two years ago, a short time for No. 2. It was "spudded in" at the time No. 1 was considered the greatest gusher in the state.

It is thought that about fifty of the Orange county naval reservists under the leadership of Lieutenant Ben Blee and Ensign F. C. Westcott will leave Sunday morning to join the party taking advantage of the eagle boat cruise to Catalina island. These week end cruises have been arranged for the benefit and pleasure of the reservists, and have proven very popular. Sunday's trip will be made on Eagle boat 12 and 24, and will start promptly at 9 o'clock from San Pedro harbor.

Blackie boots as an Orange county crop in 1921 are destined to cut considerable figure. (The production of 40,000 bags of 1920 will be raised to 125,000 or 150,000. This is the hope of Charles E. Morris, buyer for the California Packing corporation.)

Mr. and Mrs. C. Weston, Lou E. Hott, Mr. and Mrs. Mallory were guests at the Valencia while in Anaheim on the program at the Fairlyland theatre.

—Autos for Mr. Call Heine 83—Adv.

The Louis Danz Music Company delivered two baby grand pianos this week to Santa Ana buyers. They are furnishing the pianos for the chautauque programs and also the Orange show.

—Entire luncheon at Fairlyland Inn. We make home-made candies. —Adv.
Vernor Campbell, bass singer of the Orpheus Four, who is with the Ellsboro-White-Chautauque, will be the guest of Mr. and Mrs. Robert Campbell over Sunday night.

—Automobiles are easily sold through a Herald Want Ad.

The American Legion has discontinued Friday night dances and will hereafter hold one dance a week at Pressell's hall on Tuesday evening.

—Entire luncheon at Fairlyland Inn. We make home-made candies. —Adv.

Mrs. A. Rains and daughter, Miss Vonk, will leave for a visit with relatives in Chino after spending some time with relatives at West Anaheim.

—Witman, Eyesight specialist. —Adv.

The Holland Electric Company has been awarded the contract for the electrical work on the Ross Brothers' bungalow court.

—For Real Bargains see:
Golden State Real Estate Co.,
139 S. Los Angeles St. —Adv.

Mrs. W. C. Brumling and Miss Elizabeth Mang will leave tomorrow for the Rebekah assembly at Oakland.

—Witman for good jewelry. —Adv.

Mr. and Mrs. L. W. Rains and family will motor to Chino tomorrow where they will be the guests of relatives.

—Mary E. Coons, Notary Public, 207 E. Center. Phone 214. —Adv.

Lanette Haynes, Martin of the Cindrella Slipper company was the guest at the Valencia while on business here.

—Delicious brick ice cream at Fitchies.

Mr. Witke transacted business in Los Angeles for the Danz Music Company yesterday.

If it's from Wiggins it's good. —Adv.

Lee Nichols has returned from a two-day trip to San Bernardino and Pomona.

V. O. Buckles of 1534 Bernhardt transacted business in Anaheim today.

Mrs. Max Salscheider of Anaheim is a patient in the Anaheim hospital.

Mrs. Ephraim Holstein of this city is a patient in the Anaheim sanitarium.

Mrs. A. A. Danillo of Long Beach is a patient at the Anaheim sanitarium.

Mrs. Theodore Roberts is a patient in the Anaheim sanitarium.

Walter Ross transacted business in Los Angeles yesterday.

Stallford Simms was a Los Angeles visitor yesterday.

CITY AND COUNTY

Marriage licenses issued today were Eric S. Brown, 26, and Kathryn Keller, 15, Los Angeles; Luther Coy Burton, 23, and Cora Benson Brown, 23, Santa Barbara; Bernard G. Johnson, 24, and Anna M. Gilson, 31, Los Angeles; Harold V. Smith, 21, and Henrietta Cox, 15, Los Angeles; Edward C. Young, 23, and Mae J. Sutton, 24, Los Angeles; George H. Blakely, 24, and Isabella Dorsett, 18, Christian.

Every scholar of the Christian church is urged to be present at the Bible school at 9:45 a. m. Sunday. Committees are to be appointed and arrangements completed for the picnic by the Benson school at Orange county park. A good time is planned.

The symphony concert which was to be held here on the 10th, has been postponed indefinitely on account of the Chautauque and the Orange show programs. The date will be announced later.

The store of Charles Borden of Seaside was entered last night. Twenty-three men's suits and a quantity of other merchandise was taken.

P. B. Johnson of Anaheim reported the theft of his 1914 Ford touring car last night to the sheriff's office. The license number is 445-375.

Home, Beards of Denver, Colo., was the guest at the Valencia while visiting in Orange county.

Opinions

By The People

Much publicity is being given to the growth, cause, and effect of this mysterious "ism" termed Bolshevism, which, as we understand it, is a form of government composed of the very worst element of human society, a government that respects nothing sacred that represents our present day civilization.

We are informed through the press that this Bolshevism is growing in our industrial centers, and one form of it is represented in the statement of large numbers of tenants in Chicago, New York and other densely populated cities, that they will pay NO RENT to the alleged rapacious landlords of those cities, until the various legislative bodies step in and compel the avaricious landlords to accept a reasonable rent for their property.

Be this as it may, it is evident that great numbers of the tenants are far from satisfied with conditions relating to renting.

No doubt there are owners of property who are responsible for much of the dissatisfaction existing, but it would be unreasonable on the part of tenants to expect to rent property, at pre-war figures, the cost of labor, materials, and operating or overhead expenses having increased 100 per cent in many instances.

It is evident that everyone who invests his money in any "legitimate enterprise" is entitled to a "reasonable profit" on his or her investment, but when an owner of property becomes a "victim" of Bolshevism, his property is taken from him and he is left a "victim" of Bolshevism, a "legitimized hold-up" and should be treated as such (by legal methods, of course).

To quote a case that caused me to write this protest, and which I may not have the full facts of.

A young man who had seen service in France, and had helped to make the world, and Anaheim, safe for democracy, was living, until last Sunday, with his wife and child in a "somewhat dilapidated" frame building on South Los Angeles street near the tracks, for which he was paying \$20 per month. The landlord informed him that he would have to vacate, as the building was to be destroyed. The tenant, therefore, moved.

This week there is an advertisement in a local paper informing the world that there is a house for rent, and stating that parties should call by a certain phone for particulars, and so on. Among others, I answered the advertisement, and was surprised.

When I was informed by the lady who answered the phone that the rent was \$35 per month for the same building that had been rented some weeks previously for \$20 per month, and from where the ex-Bulldog had been gotten out through a misstatement of facts, to use a mild expression. These are the facts, as I understand them, but the thought in my mind is, that it is the profiteer's type referred to in any nation, state or community who are responsible for much of the "so-called Bolshevism." L. W. W. I am, and other anti-American "isms," that every earnest thinking man or woman sincerely deplores.

Anaheim.

O. A. LOOMIS ASKS FOR ADJUSTMENT OF BUSINESS

Creditors of O. A. Loomis, who for some months has operated the Loomis Furniture Company in this city, are being asked by the Los Angeles Wholesale Board of Trade to submit their accounts to S. P. Chase, assistant secretary of that organization.

A letter to creditors from the Los Angeles Wholesale Board of Trade gives the following information regarding the Loomis Furniture Company.

"We are enclosing copy of assignment as made by Mr. Loomis to this association for the benefit of creditors. It will convey assets estimated by the debtor as follows:

Merchandise \$2500

Fixtures 200

Accounts Received 1150

Total \$3850

"According to statement submitted by debtor he is owing approximately \$2500. It will be noted from the statement that debtor apparently is in an insolvent condition, but as he expresses it, he believes that it will be better for him to liquidate his business at this time while there is an apparent surplus for him, rather than to wait until he might be in worse condition."

"We have sent our adjuster to take charge of the assets and he will prepare detailed inventory, the figures of which will be submitted later to creditors. An effort will be made to sell the stock in bulk providing an

amount can be realized which will be satisfactory to the larger creditors. In event that satisfactory offer is built in not received, creditors contemplate the operation of a retail sale. If you desire to be protected for recoveries under this assignment, please so indicate by affixing your signature to the copy of the agreement and send it to this office together with an itemized statement of your account. If your account is represented by note, a copy thereof with the interest figured up to date of assignment."

AUTO ELECTRIC TO OPEN FULLERTON BRANCH MONDAY

The Automotive Electric Co. stated today that they would open a branch of their establishment in Fullerton next Thursday, they having secured a room at 117 South Broadway.

An experienced battery and auto electric man will be in charge of this branch office, and the same excellent service that is rendered by the company here will be maintained at the branch house.

The American Legion has discontinued their Friday evening dances at Pressell's hall, but will give a much better dance on Tuesday nights on the best finished floor in the best hall in Orange county. We absolutely give the cleanest dance that can be given, no rough stuff tolerated. Come on Tuesday evening each week and enjoy yourself. Help the boys that deserve it and help them to build a club house and meeting place for themselves.

GRAHAM'S "TIGERS" WIN FROM "CUBS" JOHNSON TEAM

Graham's "Tigers" won from Johnson's "Cubs" in Dugan and Myre's bowling alley tournament last night, the winners getting two out of three sets. There are now three teams tied for first place in the Anaheim Elks' local league.

Notwithstanding Johnson made the highest individual average, 133, the "Tigers" added up a better total by nearly 100.

The individual averages and the totals are as follows:
Johnson's "Cubs": Moore 152; McCusker 164; Miller 155; Shaffer 135; Johnson 133; Total 227.

Graham's "Tigers": Wright 153; Laporte 154; James 150; Mitchell 151; Graham 176; Total 2363.

League Standing
Standing of the Southern California league of bowlers at the end of the fourth week is as follows:

	Won	Lost	Pct.
Long Beach	12	1	.917
Los Angeles No. 1	11	1	.917
Anaheim	8	4	.668
Pasadena	8	4	.668
Santa Monica No. 1	6	6	.500
Glendale	4	8	.316
Santa Monica No. 2	4	8	.316
Santa Monica No. 3	3	9	.250
Redondo	1	11	.087

Now that the Allies are in charge of German customs, we hope they will change that one of using verbs on the list of sentences.

OCEAN WAS TOO CHILLY GIRL DECIDES TO LIVE ON

LOS ANGELES, May 7.—After a year in apparent hiding Nina Duryea may now acknowledge that she is still alive, for yesterday Justice Hanby, upon motion of Dep. Dist. Atty. Hill, dismissed a charge of grand larceny against her.

The young woman was accused of stealing \$15 in cash, a dress and a suit from Mrs. Mattie Higgins, and about a year ago the case was set for hearing. The court, after waiting some time, received a note, saying that the defendant was going to end her life in the "cold, cold ocean." It was learned later that she had walked into the ocean with suicidal intent, but found the water too cold and decided to live. The complaining witness asked that the case be dismissed and the girl, through her attorney, also asked that action. After some consideration Justice Hanby complied.

MARY PICKFORD IS SUED FOR BIG SUM

LOS ANGELES, May 7.—Mary Pickford is defendant in a suit for \$13,375 damages, on file here today. David Kirkland Smith, the plaintiff, said he was employed under a contract for \$750 a week to direct a production, and that he was discharged without notice or explanation two weeks after he commenced work.

Do YOU Believe In Anaheim And Northern Orange County ???

Fill in your order here and send to The Herald Office

IF YOU BELIEVE IN ANAHEIM and Northern Orange County as a district—if you are proud of her natural resources and achievements and are willing to share your prosperity and good fortune with your friends "back east"—you can send them a gift that they will cherish from you.

Send them a copy of the Orange County Valencia Number of The Anaheim Daily Herald which will be off the press on or about May 1.

This big magazine edition will tell the story of Anaheim's progress and prosperity and the opportunities that Northern Orange County affords—tell it thoroughly, simply and truthfully.

The magazine
Wrapped and
Ready
To Mail

25c

This edition, in magazine form with beautifully colored Art Cover and handsome illustrations will be sold at 25c a copy, wrapped ready to mail. The postage will cost 3 cents.

The Herald has no way of telling the number of extra copies to print unless they are ordered in advance.

If you are proud of your city and this end of the county and want your friends to know about it, please order early—before April 30 by all means.

Send in your list of names together with 25 cents for each name if you wish The Herald to mail them.

ANAHEIM DAILY HERALD, Masonic Building, Anaheim.

Please enter my order for _____ Copies of the CALIFORNIA VALENCIA ORANGE SHOW NUMBER of the Herald.

Please mail them to the following addresses [or hold at your office until I call] and charge same to my subscription account.

FIERY, ITCHY SKIN
QUICKLY SOOTHED
BY THIS SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated, or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing soothes fiery skin eruptions so quickly, says a noted skin specialist. The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfiguring. Mentho-Sulphur always heals eczema right up.
*A small jar of Mentho-Sulphur may be had at any good drug store.
—Advertisement.

DEDICATION DAYS ARE ANNOUNCED BY ORANGE SHOW

The executive committee of the California Valencia Orange Show held a meeting on Tuesday and decided on the dedication of the dates of the show to the following groups:

Tuesday, May 17, public school children in charge of instructors.

Wednesday, May 18, social clubs (Boys and other ladies' clubs), Rotary, Kiwanis and other fraternal clubs.

Thursday, May 19, fraternal bodies of all kinds and affiliated bodies of united labor.

Friday, May 20, civic bodies and officials of municipalities.

Saturday, May 21, editors, publishers and members of the press.

Sunday, May 22, American Legion day.

The show office is sending notification to various local bodies, asking that they in turn send out invitations to their brother and sister organizations in Southern California so that a good turnout from all may be expected on the date mentioned in each case.

News Notes of the Oil Fields

The Union Oil Company of California has completed and is about ready to put Chapman No. 2 on the pump. Fishing jobs, mechanical troubles and hard digging prolonged the drilling of this well two years. Soon after Chapman No. 1, the gusher well that opened the field, was completed the Union spudded in and started drilling Chapman No. 2. An experiment was made with extra heavy standard tools, the idea that the big tool would pulverize the conglomerate and hole would be made rapidly. Several months were lost and little progress was made. Putting the rotary back the well was drilled to 4100 feet, and is now ready to produce. On account of the small amount of real oil show found, Chapman No. 2 is not expected to be a very big well, probably will not go over 200 barrels. Chapman No. 2 came in a few days ago, a 125 barrel well. Thompson-Goodwin No. 2 is in the oil sand at 3200. Towell No. 4 is drilling at 2850. Macfadden No. 2 is in the oil sand at 3225. On the Morse property No. 5 is drilling at 2175 in the shale and shell. Coyle & Bogue No. 1 is nearing completion, being in the oil sand at 4023. Coyle Nos. 2 and 4 are drilling at 3057 and 2925. Stern No. 1 is in the oil sand at 3420 and Stern No. 2 is about to commence drilling. Y. L. G. No. 1 failed to amount to anything as a producer at 2975 and is being redrilled and deepened.

The Standard Oil Company still maintains the lead taken several months ago in the deep drilling work. Its latest achievement is in the getting of Lotus-O'Bryan No. 1 to 1875, and Vexar No. 1 to 4800 feet. L. & O. No. 1, the above depth is in hard sand and not showing very strong indications of oil. Vexar No. 1, another test well at 4800, is in hard sand also and is not showing much encouragement. On the Kraemer No. 2 property No. 16 is building rig. No. 15 is drilling at 3500 in shrd sand, and No. 14 is 2100 in shale. No. 12 stands cemented at 1360.

With only 45 feet more to drill the Wonder Oil Company will be ready to bring in its Kraemer No. 1 at 4350. The well has been showing up very nicely and Superintendent Kraft is confident that his company will be repaid for their efforts. Great credit is due Contractor Kiek for the work-man like manner in which 120 well was drilled, and also the good time made. A location has been staked for well No. 2.

Drilling in the Blaby Hills' district has been going on very quietly during the past week, there being no developments to cause any particular excitement. The Birby Ranch Syndicate well has passed 3700 feet without striking any oil indications. The Long Beach Consolidated Oil Company is making hole in the shale at 2700 feet. At the National Exploration Company's Chino well casing trouble is holding the hole up at 1300 feet. However, good time is being made on the Olinda well, drilling is now at 1950 in the shale. The National Security Company shows 1600 feet of hole and the New York-California is drilling at 500, little hole being made on account of waiting on asing. The Orange County Petroleum Company reports 1500 feet in the blue shale.

Considerable progress and new activity characterized the week's development in the Whittier field. The Southern California Oil Company deserves particular mention in that it is making new hole at 1345. Whittier is showing new life by drilling the cement out of No. 6 and putting in

JIM CORBETT MAY REFEREE WORLD CHAMPIONSHIP

New York, May 7.—With the naming of the site and the date for the Dempsey-Carpenter "scrap," the next important detail is the selection of a referee.

The champion and the challenger will be allowed to decide upon the third man in the ring from a list of six prominent ring figures listed in the original agreement.

James J. Corbett, James Jeffries, Jerry Dougherty, Robert Edgren, Otto Fio and Bill Brown comprise the list of candidates.

"Recently it has been reported that this list is not binding and that Jim Coffroth might be named.

The choice of the principals is subject to the approval of Tex Rickard, promoter of the bout.

While Rickard has not opened his mouth on the question, it is understood that he favors Corbett. The former heavyweight champion is a very popular man, has a big name in the sport and his presence in the ring would be a step further in Rickard's plan to make the show the greatest in history.

Corbett is high in the esteem of Carpenter and Descamps but they may cause disfavor in the Dempsey camp.

The same may be said of Bob Edgren, former sport editor of the New York Evening World, who is a personal friend of the champion, which may cause him to be opposed in the French fold.

Bill Brennan perhaps is the least known of the sextet out of New York. He is a prominent referee with long experience in the ring. He is reported to be Governor Miller's choice for the chair of the new state boxing commission. The other candidates are well known, but are not so prominent.

"Any one of the officials suggested would be satisfactory to us," Jack Kearns, manager of the champion, said.

Descamps attitude is not known, but Victor Breyer, Rickard's Paris agent, recently called him to Descamps had suggested to him it would not be a bad idea to have a Frenchman for one of the judges.

Under the no-decision regulations which prevail in New Jersey much of the responsibility will be removed from the shoulders of the referee. Judgment in counting and accuracy of the eyes in detecting fouls will be the most important requisites.

You may not be able to serve mankind in a big way, but you can make the world brighter by bragging about people when occasion offers.

pipe to go ahead with drilling. No. 6 has been cemented at 2214, and No. 7, a new well, has started drilling.

The Shell Company's Hart No. 1 is at 3225, drilling in hard sand, and not showing any oil. This well is passing into the doubtful class.

The Bardeen Oil Company is now feeling confident of success. Drilling at 2170 the well is in sandy brown shale and is looking good.

The Union Oil Company met with some complex pipe and mechanical trouble at Gregg No. 1 that may result in the abandonment of the well at 3545. This well at no time has shown any oil indications worth consideration.

The Standard is making splendid progress drilling on the Bastanchur ranch. No. 1 is now 2400 feet, 700 feet being made during the past week. On the old Emery property the Standard has three wells drilling. No. 31 is at 4020, No. 37 at 4000, and No. 3 stands cemented at 3200. On the Murphy No. 78 is showing oil and gas at 3775. No. 84 is drilling at 2675, and No. 85 at 2955. No. 86 is a new well recently staked.

The Amalgamated Oil Company has suspended operations temporarily. McNally No. 1 after drilling to 4340. At the time drilling was suspended the formation was sand rock. Fishing on Butterworth No. 1 is now on at 3875.

The Wilshire's 5200 foot hole is standing idle this week. The 4 inch string of pipe reported to go in the hole last week has not been installed. It is understood now that the Wilshire people are interested in the Bandini Petroleum and that the Santa Fe Springs well is to stand until the water has been taken care of at the Bandini well. The Union Oil Company has two wells drilling on the Meyer property—No. 4 is drilling at 3550, and No. 5 at 2850.

For some months the Columbia Oil Company's Adobe No. 4 has been standing with a bad fishing job. Side-tracking is now at 3065, the bottom of the hole being at 3250. Adobe No. 5 is making good time, drilling at 2050 and this well is beginning to look like the real thing.

YORBA LINDA NEWS

The Masons and wives and their friends enjoyed a social time in the Ley hall Wednesday night. The time was passed with Professor Harrel putting on the moving picture, Charles Ray in the "Pinch Hitter," which was followed by a social hour with delicious refreshments being served by the committee in charge.

Dancing and cards were then enjoyed until the wee small hours. Delegations from Anaheim, Garden Grove, Fullerton and Olinda were present.

It is hoped that all of the ladies who are members of the Ladies' Club will be present at the coming meeting date. Important business will be attended to and a collection of jams and jellies for the soldiers at San Diego will be taken.

Everett Moore is now employed at the Forbes grocery and is well satisfied with the work and the town.

Mrs. Walter Smith is visiting with her parents at Pomena for a few days. Mr. Smith accompanied her and returned home on account of business.

Waiter Cheasley and Chuck Watkins, both oil drillers at Yorba Linda, suffered injuries this week while at work. Mr. Cheasley is at home with an arm out of joint and Mr. Watkins' injury has not yet been learned.

Mr. Cox of the restaurant made a business trip to Los Angeles this week.

Mr. and Mrs. James Glover were visitors with friends in Long Beach the first part of the week.

The Yorba Linda postoffice has now changed hands and Mr. West with Mrs. Harris as assistant will be in charge in the future.

Lake View boulevard is busy building. The Morris home is going up rapidly and Mr. Fassell is erecting another bungalow next door to the one just completed which has been leased for the year by A. J. Thees.

Homer Smith and family of Whittier have moved into the new home Mr. Barton just built next to the Friends church.

Mr. and Mrs. Lester Burnison were the guests for two days of friends and relatives in Los Angeles.

Mr. Haas, who was recently operated on at the Anaheim hospital, is doing nicely.

Mr. and Mrs. Wm. Fassell and children visited in Los Angeles one day this week.

Donald Miller has returned from Huntington Beach and has bought the house next to Frank Brasher. He is busy improving the place and intends to make it one of the prettiest places in the country.

Harry Rassmussen of Los Angeles is now taking the position as butcher at the Forbes grocery. Mr. Countryman, former butcher for Mr. Forbes, has returned to his home in Hollywood.

Mr. and Mrs. O. M. Elvedahl, Mr. and Mrs. J. E. Meyers and Leonard Nordskog of Los Angeles were recent visitors at the home of Mr. and Mrs. J. J. Alexander.

Mr. and Mrs. Harry Hohen motored to Long Beach for two days' visit with friends the fore part of the week.

Mr. and Mrs. G. Gudmundson, south of town, have returned from a week's vacation at Camp Baldy. Miss Anna Lavardson of Los Angeles, who looked after the home and children in their absence, has returned to her duties in Los Angeles.

Joe Armstrong has resigned at the packing house and is going to Venice where he will open a concession.

POWER EXPERT IN COUNTY MONDAY

(Farm Bureau Bulletin)

Chairman S. E. Saunby of the public utilities commission of the Orange County Farm Bureau announces that the railroad commission will have an engineer in the farm bureau office, Santa Ana, Monday, May 9, 10 a. m., and after to advise with farmers who use power regarding the proper rate schedule they should operate under this year and also to investigate cases where it is stated that the Edison company required the consumers to purchase stock to cover the cost of extensions. It is very important the consumers and prospective consumers should be fully and correctly informed on these matters.

In particular those who come to get advice regarding rate schedules should bring last year's bills to show the amount of power they use, together with the horsepower rating of their motor and a close estimate of the number of days per month that they operate, together with any other details which they think might be of value.

Every power user in the county who has a special problem to submit is urged to meet the commission representative next Monday. He will also address the El Dodena Farm Center at El Modena school Monday evening.

BUY IT IN ANAHEIM.

SMALL CHANGE IS INSIGNIFICANT IN U. S. COIN

WASHINGTON, May 6.—"Small change" in use in the United States now amounts to \$32,657,806, according to an official statement of the treasury department, or \$2.43 for each resident. This sum represents the total of all the pennies, nickles, dimes, quarters and half dollars which are being carried around in pocket-books, in breeches pocket and which are kept on hand by stores and banks to make change.

The treasury statement supplies the answer to the oft repeated speculative question as to how much one's fortune would be were he suddenly to become possessed of all the coins in the country under the value of one dollar. Exclusive of \$78,000,000 worth of silver dollars in circulation, which are not included in the small change total, the nation's entire stock of silver and copper coins could be packed in a box 20 feet deep and 60 feet square and delivered in your front yard any fine morning, along with the morning paper and the bottle of milk. The entire sum would be not a large fortune, as fortunes now are rated in the United States.

The small change total is a comparatively insignificant sum, if there is taken into consideration the entire amount of money in circulation in the United States. This totals \$6,083,500,689, of which \$4,763,479,499 is token money. Token money means gold and silver certificates, treasury notes and notes issued through the federal reserve banks, all of which are promises to pay issued by the agencies named. Were all the holders of these promises to request immediate payment, the government and bank tellers probably would have to suspend all other business for a month to count the bills offered.

Taken by volume, however, all the money in the United States makes a rather insignificant showing. It could all be gathered together in an ordinary office of 200 rooms or so. Any building of six stories with a five foot frontage and about the same depth would store all the token money, while four men, one at each corner, could easily guard it.

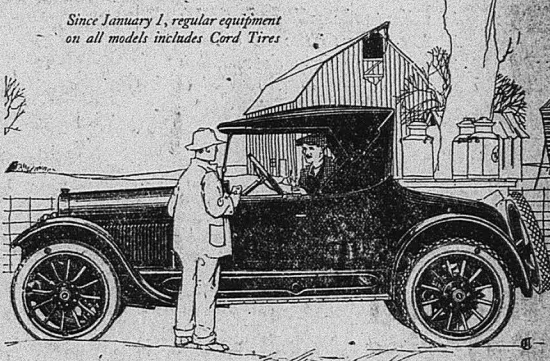

We have the estimate of the 1921 Buick entirely to you.

Ride in it and you will appreciate its rugged power, improved comfortable seating arrangement, the accessibility of its mechanism, the beautiful body lines. And draw your own conclusions.

Authorized Buick Service makes Buick travel doubly dependable.

Since January 1, regular equipment on all models includes Cord Tires

AMUSEMENTS IN ANAHEIM

Tonight
Fairland—Harry Carey in "The Freeze Out."
Grand—Doris Keane in "Romance."
Chautauqua number in tent opposite Herald office.

Sunday
Fairland—Pauline Frederick in "The Mistress of Shenstone."
Grand—Doris Keane in "The First Born."

MISS FORSYTHE
HONORS ANNIVERSARY
Miss Mildred Forsythe was the charming hostess last night at her home when she entertained a group of chums in honor of her eighteenth birthday.

Music and games were enjoyed throughout the evening. Just before the hostess served refreshments at which each member helped to blow out the candles on the birthday cake, Sam Walker presented her with a letter as a token of their friendship for her. A very touching little speech was given by Mr. Walker.

After Miss Forsythe had composed herself from the surprise the group asked for a speech and she then thanked them for the lovely gift.

CHOCOLATE SOCIAL MONDAY NIGHT

The Yeomen lodge has arranged for a good-time Monday night in the form of a chocolate social. Fifty cents a person will be charged as entrance and chocolate cakes, chocolate ice cream and chocolate pie booths will be in charge of the different committees.

A prize will be given for best waiting and for trotting. Jeffner's orchestra will furnish the music.

AUXILIARY MONDAY

7:30 P. M.
The Ladies' Auxiliary of the American Legion will hold a special meeting Monday night at 8 o'clock in the Pressell hall. The booth committee will have a report and other matters of importance will be brought up.

Every member or eligible member is cordially invited to attend and become one of the group.

THIRD ANNIVERSARY CELEBRATED TODAY

Master Darrell Faber was host this afternoon at a birthday party in honor of his third anniversary. Three of the neighbor playmates were the guests and the time was passed in games.

Mrs. Ernest, his grandmother, assisted by his mother, Mrs. Ethel Faber, had arranged many cut-out pictures for the kiddies to busy themselves with.

Late this afternoon refreshments will be served and a small birthday cake with the three candles will be cut. Master Darrell received birthday gifts from his little friends, which he immediately put to use.

MONTE CARLO WHIST CLUB GUESTS

Mrs. W. E. Alexander of North Helena street entertained in honor of the Monte Carlo Whist club Friday. Cards were the amusement, with Mrs. J. H. Garnett scoring high. The decorations used were pink roses and carnations and the service at the luncheon during the social hour was also in the same color scheme.

The members present were: Mesdames Ralph Maas, Wm. Jackson, Alfred Heyling, Grace Adkins, J. H. Garnett, B. H. Sidnam, W. B. Holland, W. M. Mahler, Miss Nina McClellan, Mrs. J. A. Claves, Mrs. D. Jessurum and Mrs. Frank Trotter.

ENTHUSIASTIC MEETING LAST NIGHT

A very enthusiastic and interesting meeting was held last night in the I. O. O. F. hall, when the Rebekahs met for the first session of the month. Initiation ceremonies were held with six candidates and was followed by a business meeting.

Reports from different committees were given. At the next meeting the noble grand is planning something interesting and hopes that, as many members as were present last night will attend.

A social hour and dance was enjoyed after the meeting last night.

The great need of the world just now is not an Association of Nations, but assimilation of nations.

EXECUTIVE BOARD TAKE NOTICE

The Anaheim Ebell auxiliary will have an executive board meeting Monday afternoon at 2 o'clock at the home of Mrs. J. A. Claves on North Lemon street.

This will be a very important meeting and every member is requested to be present.

With the establishment of posts of the American Legion in eighteen foreign countries, the service men's organization is fast becoming a world power, according to reports received at national headquarters.

Although these posts are thousands of miles from national headquarters, the various activities are little different from those of the domestic posts.

Headquarters of the Amarc Post, Coblenz, Germany, have been established in a hotel. The post has grown from fifteen to 600. Tokio-Yokohama Post in Japan, has increased from 40 to 83 members. The two cities are connected by rapid trolley services and meetings of the post are held alternately in Tokio and in Yokohama.

With the assistance of the Y. M. C. A. and prominent business men, Alan Seeger, Post of Mexico City, recently staged a smoker. On the same night Spencer Ely Post of Buenos Aires, Argentina, held a post dinner, which featured the same army songs used in any Minnesota post function.

Posts of the Legion are now located in the following foreign countries: Mexico, Venezuela, Panama, Argentine Republic, Belgium, England, Chile, China, Cuba, France, Germany, Guatemala, Japan, Poland, Samoa, Santo Domingo, Peru and Africa. Experience men in Auckland, New Zealand are also organizing a post.

HUNTINGTON BEACH

Mrs. H. T. Dunning entertained several ladies at luncheon Tuesday. The house had been beautifully decorated with spring flowers. The afternoon was pleasantly spent at bridge wafers. The building activity of Huntington Beach has just come into its own. For some time investors have been skeptical about putting their money into buildings, but recently there has been a big improvement.

There are at present three large business blocks under construction. Long Beach capitalists are erecting a large block in the First National bank block, just above the News office. This building will provide for three store rooms, and it has taken so well and was so badly needed that the rooms are already leased.

The Army and Navy store will occupy the new building being erected by Mrs. Hoge. Mrs. Gunther of Long Beach has blue prints out for a business block consisting of nine store rooms. It is understood that several of these have already been leased, but there are still a few which are obtainable. Huston, Jackson & Huston, Clapp & Co., and Mr. Gunther are leasing the property.

Several residences are under construction and at least two bungalow courts are being planned.

The rapid growth of the city is reflected in the building permits, which totaled for the month of April \$50,000 and for the first three days of this week \$7000. A year ago the building permits for the entire month of April amounted to only \$7000.

PROBATION WAS GIVEN DUNCAN

Jack Duncan of Tustin, arrested recently for driving an automobile while intoxicated, was put on a year's probation by Judge Williams Friday. The judge admonished Duncan to keep away from liquor. He was informed that sentence would not be pronounced at present, but if Duncan is rearrested he would be in all probability, be sent to the state penitentiary. Duncan was also informed that he must stay out of pool rooms. Duncan's lawyer, A. E. Koepsel, asked the judge to allow the defendant in the Tustin pool room, as it was Tustin's "social hall."

WILLOW, Cal., May 7.—This city is the host to the Northern California Editorial association today. The entertainment of the writers was in the hands of the local Chamber of Commerce. The convention was opened by Mayor Graves with an address of welcome. The visiting newspaper men will be given a banquet in honor by local men tonight. On Sunday the visitors were to be taken in tour of the country by local residents.

FAREWELL PARTY IS PLANNED TUESDAY FOR DR. AMACK

A farewell party has been arranged for Dr. Sus Amack, chiropractor who will begin a 90 day term in the county jail next Thursday. The farewell party will be held in Orange county park Tuesday evening, beginning at 7 o'clock.

Friends of Dr. Amack are invited to bring their hiking clothes and picnic lunches. Those who have no way to make the trip to the park will be provided means. Those who desire transportation will call Dr. Alice Hahn.

HEAVY RAINS MAY HAVE SOME EFFECT ON GAME SEASON

Unprecedentedly heavy rains for May have put a quietus on trout fishing over the second week end of the season—rather "dampened the ardor" of anglers, so to speak. By maintaining the flow of the streams, they will merely postpone the fun, and prove a good thing for the fish, provided the precipitation is not so long continued that it produces bad washing conditions.

An investigation into the effect of the late rain on quail and other game now breeding, is being made by the fish and game commission to be reported later.

ELLIOTT WILL BE RELEASED

Benjamin W. Elliot of Yorba Linda, who shot and killed Elliot W. Young, also of that city, in April, 1918, when a band attempted to force him to kiss the flag during one of the Liberty loan drives, will be released from the state prison in September, according to statements here today.

A civil suit against Elliot is now pending, but it is not known whether it will be pressed. Mrs. Young brought suit for \$35,000 for the killing of her husband. The damage suit was tried once but the jury failed to come to a verdict.

There is nothing in common between free love and the kind that prompts one to get married and pay rent.

JUDGMENT WAS AWARDED BOWERS

A. C. Bowers of Santa Ana received judgment for \$3200 damages from George Chesbrough of Los Angeles Friday in a civil suit before Superior Judge R. Y. Williams.

Bowers received the judgment for damages that he claims to have received some time ago when Chesbrough, driving on the county road at-

tempted to pass another machine, and collided with the Bowers car. The car was wrecked and Mr. and Mrs. Bowers were injured to some extent.

MILLIONS OF BIBLES
LONDON, May 7.—During 1920 there were distributed throughout the world 8,655,781 Bibles, which were printed in 333 languages, according to a report submitted at the annual meeting of the Bible Society here.

The FRANKLIN

With the Franklin there is less dead weight to move, less jolt and jar to overcome, less waste in the turning of gasoline into power.

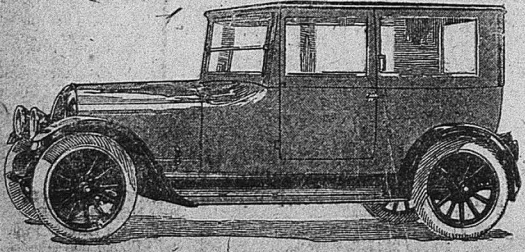

Light, flexible and direct air cooled, it gives its owners consistently these unequalled economy results:

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation
(National Averages)

More Than Extraordinary Performance

Some among our Hupmobile owners have told us that they bought their cars for their extraordinary performance.

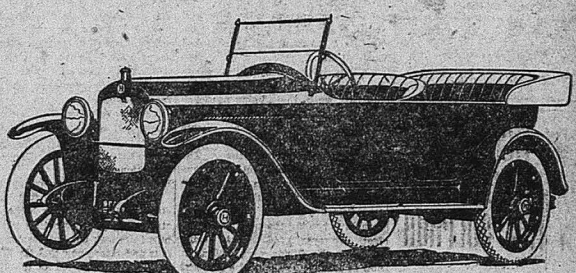

It is perfectly true that the Hupmobile does habitually outpoint cars that cost more, or have more cylinders.

But it does not stop there. It gives you, also, at least two other highly desirable qualities.

One of these is a very marked economy in tires, gasoline and oil.

The other is its unusually rare need for costly repairs.

Even if you should be mainly influenced by Hupmobile performance, you have those other comforting assurances of the unusual quality of the car.

burg, had the largest per cent of parents present and was awarded the Sonora record. The grade mothers for this room expect to give the class a party at the time the record is awarded.

The P. T. A. was entertained with songs and recitations by the fourth, fifth and sixth grade rooms and by selections from the new school orchestra.

CARE OF BATTERY
GIVES OLD COMFORT

Car owners are giving more thought to their battery's needs these days, according to Robt. V. Jensen, manager of the Prest-O-Lite station.

"It hasn't been so long ago that the average motorist seldom looked at his battery, or had it looked at to see if it needed a drink or anything. But times are changing.

"Motorists are coming to realize that their storage battery must be made to last as long as possible. This means the regular addition of distilled wa-

"This is a pretty good idea at first, because there may be some little thing wrong with the battery that the motorist himself might not discover. Our boys here always give batteries the once-over when they put in the distilled water."

SOIL AUGER NOW NECESSARY TOOL

(Farm Bureau Bulletin)
At a series of soil demonstrations held some time ago under the auspices of the Orange County Farm Bureau, Prof. J. W. Nelson, assistant state leader of farm advisers, claimed that probably only one farmer in 1000 knows when he has had enough water in his soil. He showed that the "willing point" and the "optimum" of a soil is a considerable variation in soils and that having either less than one or more than the other degree of saturation would be detrimental to the trees. He would have the farmer know from the condition of the soil and not by the wilting of the trees when to apply the water. The Farm Bureau of California stands ready to co-operate with the farmers in knowing satisfactory tests which will show the true conditions of the soil. Prof. Nelson showed that in orchards where some of the large trees yellowed and it was thought the trees were suffering from lack of water, the opposite state was true.

"We must master our own conditions," he said, "and not depend upon the other fellow. We have begun to make our own studies of conditions on our own farms and should co-operate to learn the best methods applicable for all our orchards." Prof. Nelson showed the great decline of soil fertility in the United States in the last 60 years. The virgin soil of western Kansas has decreased thirty per cent in nitrogen content and crops, and according to California he claimed the decline has begun, and that it is vital that we progress to prevent the country over reverting back to pasture land by improving the soil condition by use of cover crops and in some instances in the use of fertilizers.

"Dry years have been responsible for

most losses in the state recently, and he estimated crop decline \$2,000,000 from normal in 1920 from lack of moisture.

Figures compiled in agriculture states show that it costs sixty-five per cent from returns of normal crops to pay expenses of farming even in our best farming and fruit growing districts. It is doubtful whether the average farm gives more than sixty per cent of the returns it should give. The hopes of profit for the individual grower are now that pre-war conditions are returning in getting back part of this forty per cent wastage due to lack of understanding our own business.

There is no reason for pulling up trees 15 to 20 years of age when they should return a profit up to 25 years," he said. From a business point of view, there is too much capital invested in an orchard to have to replant it so often.

"As a culture method, he suggested one should practice deep cultivation with young trees, tending to send the roots down, then when the trees are ready to bear, gradually shallowing the cultivation so as to get the feeding roots to a depth of four feet. Rain fall charts show that one of the greatest needs of the San Joaquin Valley is the conservation of all water and application of some of it to the land during the summer months. Fruit buds on matured peach trees begin to form about August first, reaching full development not before the first of November. When the tree has had its full season's growth and matured its fruit, it is time to prepare for next year's crop by keeping the soil and sub soil properly supplied with water. Here again we need more individual tests and more individual knowledge. We need to understand our own business.

Whatever Ireland may be doing to John Bull, she isn't vamping the old boy.

NEAR EAST RELIEF WORK FOR FLOUR IS ON HERE

"Say it with flour," is the slogan of the newest Near East Relief campaign being launched in Southern California.

But personal solicitations, upon which former drives depended for success, will be eliminated and replaced by simplicity. A coin collection poster will soon appear in banks, grocery stores and other business places through the county.

"These posters, made of heavy cardboard and 28x32 inches in size, bear the slogan "Say it with flour." People are asked to drop their donations—pennies, nickels, dimes, quarters, dollars—into the slots thus designated on the coin poster.

June 4 the drive ends, so that the funds derived will apply upon the purchase of 500 tons of flour leaving San Pedro on the Dollar line steamer June 4 for Constantinople.

On May 21 an intensive drive will be launched by 15 Orange County Boy Scout troops under Elmer E. Heldt, Scout executive, to gather old clothes for shipment on the same steamer.

Scoutmasters J. E. McKim, O. H. Hunter and Morris Martinez of Anaheim will be active in the drive for old garments, it was announced today. The Scouts will distribute tags to every home in Anaheim. Those who have old clothes to donate will put their name on the tag. Then the donations will be brought to the local depository to be announced later.

Other Near East Relief activities include the recent loading of 500 tons of California beans from Colton and Riverside for shipment via New Orleans.

Los Angeles headquarters for the Near East Relief just received the following cablegram from Constantinople:

"Thousands in desperate need of food. Can use 50,000 tons (100,000 pounds). Satisfactory guarantee from new government assure supplies scrupulously and integrally respected. Secure all possible contributions California beans, rice, sugar, flour. Make Pacific coast shipment earliest possible moment."

Near East Relief now faces the necessity of feeding 110,000 orphans and more than one million adults in Armenia, it is stated by the field representative for Orange County.

MAXWELL SALES ROOM IS GLASSY

Perhaps one of the prettiest auto show rooms in the city is that of Turton & Lumadon, New Maxwell agents for northern Orange County.

The room, which includes desk room, is large enough to properly display three late Maxwell models. It is tastefully furnished with chairs and desks for the convenience of patrons. Maxwell sales last week were up to the standard of the past month, which is two sales each week.

OVER THIRTY THOUSAND HEROES WHO GAVE THEIR LIVES IN WORLD WAR REMAIN IN FRENCH CEMETERIES

More than thirty thousand bodies of American soldiers will lie forever in French soil. Four bits of French soil have been chosen as the final resting places for the bodies—four bits of France that "will remain forever American." The Remagne, Belleau, Flanders Field near Bony, and Surcoube on the outskirts of Paris, says a message from Paris.

A commission headed by Colonel C. C. Pierce, had arrived from the United States and approved the choice of the four permanent cemeteries. The commission, which is composed of W. M. Kendall, C. M. Moore, James Greenleaf and Major George Gibbs, architects and artists, are inspecting the sites with a view to recommendations for beautifying these fields to make them the most beautiful burying places in Europe.

The Remagne field will hold the majority of the bodies of men killed in the Argonne fighting—14,000 in all; the Belleau field on the hillside near Belleau Wood will contain 7,000 bodies; Surcoube will hold 4,300, including many bodies of wounded who died in Paris hospitals, while Flanders Field will contain 2,100.

At present the American Graves Registration Service is engaged in disinterring the bodies intended for shipment back to the United States. Up to the present 14,646 bodies have been disinterred and shipped. Nearly five thousand bodies are lying at the ports awaiting transport. By October all the bodies requested for shipment back home will have been shipped. Then the Graves Registration Service will begin the task of concentrating the remaining bodies in the four permanent fields.

This task will occupy nearly all of next year. The size of the task—and incidentally an idea of the debt of the allies to America—is more vividly shown by a map in the office of Major C. L. Sampson of the Graves Registration Department than could be told in words.

At every point where the body of an American soldier was buried was marked a red pin. The map which comprises all of France, Belgium and Luxembourg is literally studded with red pins—from the Pyrenees to the Argonne, from the Alpes-Maritimes to the English channel—the soil of France is sprinkled with American dead. Altogether there are 550 pins

on the map—meaning that at 550 different points there were buried American soldiers, sometimes a lonely grave, sometimes a dozen, sometimes hundreds. Many of the graves are hundreds of miles from the fighting lines. At these places wounded soldiers died in hospitals or soldiers on leave died and were buried on the spot. The line of American communications from the ports to the fighting lines can be traced across France by the row of red pins indicating burial places.

More than 400 Americans are engaged in various parts of France and Belgium in disinterring the bodies for shipment. By October about 45,000 bodies will have been shipped. The nearest of kin of 19,861 have specifically requested that the bodies remain in France. The others for which there is no specific request for shipment home will remain also.

When finally completed the permanent cemeteries will resemble the National Cemeteries in the United States—long, precise rows of grassy mounds with spotless walks between. At the head of each grave will be a stone marked with the name and organization of the soldier lying beneath.

The permanent fields are being designed as shrines for Americans in Europe for all time to come. Already hundreds of friends and relatives of the fallen are flocking to the graves. The American army will probably have a lower percentage of unidentified dead than any allied country. The Graves Registration Service expects eventually to identify all except a very few bodies.

The Memorial Day Committee of the American Legion is already preparing for the observance of Memorial Day. A wreath will be placed on every American grave in France.

ON VACATION

SACRAMENTO, May 7.—Members of the California Press association from all over the state will leave on the annual excursion of the association on May 15. State Treasurer Frank W. Richardson, president of the organization, announced today.

The excursion will include a three day stopover at Grand Canyon and the Petrified forest, Arizona.

"THE HOUSE OF SERVICE"

Why Not Get Rid of That Tired Feeling

—Chiropractic is the only science that strikes direct at the cause of incoordination. The dynamo may be in perfect running order, with sufficient power to keep the motor running and the turn of the motor may be mechanically perfect. But let there be a break in transmission of the current and the motor ceases to work. Is your motor slowing down? Nervous tingle? Tired feeling? Let me tell you why.

—Proof of the benefit of Chiropractic adjustments is the fact that my patients are the most enthusiastic supporters of the benefit received, and the greatest advertisers of its merits.
