

NO. 12

100

TUESDAY OCTOBER 21, 1871.

Tustin City.

This new town, which so long existed only on paper, has of late commenced growing rapidly and nearly every week we have new improvements to record. A good hotel 28 feet square and two stories high has been built by Mr. T. M. Rickett and will soon be ready for the public. Several dwellings are in progress of construction and the ground has already been staked off for the large stone building heretofore mentioned in the GAZETTE. The offer which Mr. Tustin made through our columns to donate lots and other aid to the society first building a church, has been accepted by the Methodist Episcopal church who have organized a society there and will build the church in the spring. Rev. Mr. Leiby preaches at the school house tomorrow, at 11 a. m. A church choir has also been organized.

New Firm.—The well known and popular Central Market has undergone a change of proprietors, Santos Moreno & Co. succeeding to the business of Peralta & Co. The new managers are courteous and obliging gentlemen and will continue to supply the public with the choicest of food in their line of business.

Sand Storm.—A most violent storm raged between Los Angeles and the San Gabriel River, on Tuesday last. We were out in it and speak from experience, much to our sorrow. It was far worse than any "Santa Ana" we have ever seen. Arriving in the vicinity of Anaheim the weather was found to be tranquil and moderately pleasant.

Personal.—Rev. Mr. Leiby, of the M. E. Church has chosen Tustin City as a home. He is now building a dwelling there and expects his family soon from San Bernardino.

Corn Measure.—A young man who has been figuring it up tells us that a space 7 feet long, 61 feet wide and 31 feet high will hold 100 bushels of corn in the ear.

A Steamer Bought.—We learn that B. L. Peel has bought the steamer Olympia for the opposition on our route.

The Bell Moved.—The fire alarm bell has been removed from its original location to the lot east of Enterprise Hall.

Narrow Gauge Railroad.—E. N. Robinson, Chief Engineer of the projected narrow gauge coast railroad, reports that an active survey of the route is in progress.—Star.

Over 1500 persons are reported burned to death by the recent prairie fires in Wisconsin.

So far as they have been examined the results of all the Chicago banks with stand the conflagration, and saved their contents.

New Paper.—We have received the initial number of a new paper, called "The Wine Dealer's Gazette" published monthly at San Francisco. Its object is the promotion of the wine and vineyard interest of this coast.

New Buttrick's. Plans have been drawn for a fine new building in Los Angeles which is to be erected for Mr. Perry, of Perry and Woodworth and Stephen Mott Esq., County Clerk. It will be located on Main street, adjoining the Farmers and Merchants bank on the east and will be 52 feet front by 90 feet deep, with a height of 50 feet to the top of the pediment. The lower story is for stores and in the second story a fine large billiard room 52x65 feet will be finished off; large enough for six tables. There will be two large plate glass show windows with solid panes of glass 7x9 feet in size. Altogether the plan is a beautiful one and bids fair to make the finest looking building in the city. E. F. Kysor is the architect.

A House Warning.—Mr. Bremmerman has authorized us to say that the roof of his new hotel building will be on by tonight, and he extends a cordial invitation to the public to meet him then and there and commemorate the occasion with a little good cheer.

New Pumping Apparatus. Mr. Luedke, the skillful and ingenious jeweller of this city, has shown us a model of a horse-power attachment for a pump, which promises to lift a great deal of water at a comparatively trifling expense. The model, which is on a scale of one to sixty, may be seen at Mr. L's store.

Market Report.

San Francisco Oct. 12th; Flour 5 00 to 8 00 per bbl, Bye 2 35 to 2 45 per cwt, Barley 1 90 to 2 05, Corn 2 15 to 2 25, Bayou beans 2 75 to 3 25, Castor beans 4 00 to 4 50, Mustard seed white 3 50 to 4 50, brown 6 00 to 7 00 dark brown 4 00 to 5 00, Potatoes 70c to 1 20 Sweet do 1 25 to 1 50, Butter 40 to 45, Eggs 50 to 52½ Lard 12½ Wool best 35 to 40.

Personal.—We had the pleasure of a call from Judge Evey on Wednesday last. He has just returned from San Francisco where he has been attending the meeting of the Grand Lodge F. and A. M.

We find an item in the San Diego Union concerning our former fellow citizen Ed Polhemus. Mr. P. has been shipping wool to San Francisco having gotten about 80 bales at the last shearing.

THE LOS ANGELES STAR.—It affords us pleasure to say a few words in praise of a good newspaper. The Star of Los Angeles has achieved a reputation throughout Southern California that places it ahead of all competitors. Being published in the morning and on Monday mornings as well as others and having always the latest telegraphic news, it is sure to be the first paper to tell us of any important event. We take pleasure in recommending this journal to public patronage.

New Telegraph Office.—Mr. Haines, the superintendent of the telegraph lines in the southern part of the State, has opened a new office at San Luis Rey.—Express.

MARINE.—Arrived at Anaheim Landing, 16th inst, Sch. Bobolink, Morse, 200,000 ft lumber to Dickon, Huntington & Co; also, Sch Letitia, Merrill, 170,000 ft lumber and 400 barrels lime and plaster, to Langenberger & Co.

Deeds Filed.—A. Robinson, Trustee, to Hugo Schenck; 40 acres in Anaheim extension for \$410.

Ole Bergson to Holmann & George, lease of two lots on Los Angeles street Anaheim, 5 years; \$15 per month.

New Census and Patent Laws.—We have received from Mann & Co., New York a neat bound volume, 120 pages entitled as above. It contains a complete census of the United States, by states and counties, also areas, etc. Besides this it contains the new Patent Laws with much other valuable information.

Hellman's Stationery Store.—Almost everybody knows Hellman already, but it will do no harm to say that he has one of the finest stocked stores in his line of business to be found anywhere. Revenue stamps always on hand. Next to Post Office, Los Angeles.

The Los Angeles News complains of sacrilegious wretches who practice target-shooting in the cemetery and deface tombstones by their shots. The News also, noticing the presence of Vincent Colyer in that city, compliments him in this way, "Those whom curiosity may inspire with a wish to behold a monster will find him at the Pico House."

Our readers will notice a familiar name in our Los Angeles advertisements, that of Chas R. Johnson who with Mr. DeCotis has opened a real estate and commission business. Mr. Johnson is the late well known and popular agent of the Anaheim Lighter Co. and we wish him success in his new undertaking.

Music Bath Chords.—Mr. Gray, the enterprising music publisher of San Francisco, keeps us supplied with the latest productions in the musical world. We notice by advertisement that all music will be sent post free, on receipt of the marked price.

Deed Filed.—Jacob Keller to R. Heilmann, lot in Anaheim; \$700.

New Business Office.—We invite attention to the card of Mr. Kohler. He has comfortably located himself in the office formerly occupied by Justice Davis, and will carefully and promptly attend to all business entrusted to his care.
