WEEKLY GAZETTE.

County Official Paper.

SATURDAY, NOVEMBER 12, 1881

HALF a million dollars worth of property was destroyed at Hoboken the other night, because the Mayor and the fire department happened to be involved in a quarrel. When the alarm was turned in all the fire engines were found to have been put out of gear, and the Chief Engineer refused to let them go to the fire until the Mayor agreed to certain concessions for the department. In this way an hour was wasted, and when at length the engines went to the fire it had become uncontrollable. This is a striking illustration of the effects of politics upon a fire department.

It will be remembered that a very ridiculous story was afloat in England shortly after President Arthur's inauguration which credited that gentleman with being an out-and-out Fenian and bosom friend of all the leading Land Leaguers in New York. If this impression is still extant in the old country it will receive deeper impress when the fact is made known that General Robert B. Lynch has been given a position in the War Department at Washington. This man was one of the Fenians captured at the battle of Ridgeway and was confined for a long time in the British "Bastille" at Kingston, Ontario.

THE English House of Commons is waking up to the duties of the hour. It is getting vigorous in speech as well as action. The other day Bright denounced the fair traders as lunatics and rogues; Lord Salisbury taunted the Liberals with having eaten dirt in vain; Sir William Vernon Harcourt intimated that my Lord Salisbury didn't understand the decencies of public discussion; Lord Randolph Churchill styled Gladstone "an incendiary, who had touched the lowest depths of political cowardice and intrigue;" Mr. Broadbent retorted that Lord Churchill was a miserable, contemptible young man, and Lord Wolverton said that he wasn't worthy to black Mr. Gladstone's boots. This vigorous use of the Queen's English reminds one of the California Legislature when Sir Samuel Braunhart, Lord Michael O'Kane and other sand-lotters were to the fore.

THE decision of the Kern County Judge, given in another column, has a deep significance to the people of Anaheim, in that it upholds the doctrine of appropriation as opposed to riparian rights. All the decisions of late tend in that direction. It is a monstrous pity that the Supreme Court cannot be induced to give a square decision as between those opposing principles. Whenever a case is presented to them, involving the questions of appropriation and riparian ownership, they seize upon some little technicality and give the decision upon that, without touching upon the main question. It is true, a direct decision upon the question whether the English riparian doctrine or the Spanish principle of appropriation should take precedence in California, would put a stop to an enormous amount of litigation, and be to the detriment of those to whom litigation is the bread of life, but it would remove a disturbing influence from a large section of country and make the road clear for thousands of people to work out their plans.

THE peculiar mining of Mr. Henry Jope, briefly indicated by a Leadville telegram as swindling, yielded him \$18,000 before his system was exposed. Most of the ore taken out of the Leadville mines is sold to the reduction companies, who extract the ore by means of improved machinery. The price is determined by taking a barrow load of fair samples from various parts of the lot, running it through the mill, and submitting the powder to two assays—one in the interest of the seller, and the other an employee of the buyer. Jope took a hundred tons of very low grade ore to a reduction factory, was present at the assaying, and managed to drop some pulverized silver into the sample powder. The assay was thus made to fix \$18,000 as the worth of the ore, and he was paid that amount. Jope made haste to attempt the same swindle in another establishment, but in this case he was suspected, watched through peep-holes, and caught dropping the silver from the bowl of a pipe which he had been pretending to smoke. He had planned to clear \$100,000 by his swindle and then quit Leadville.

THE Edinburgh "Scotsman" of October 8th had a long notice of the screw-ship "Orient" which had just arrived in the Thames with fresh meat from Australia. The Orient made the journey from Adelaide to the Thames in thirty-nine days. She is fitted up with new dry-air refrigerators, the patent of Mr. Seale Haslam and has for the first time taken fresh meat to England by the aid of this ingenious invention. The principle on which the Haslam refrigerator manufactures cold air is that of surface cooling, in lieu of the older system of jet cooling. Water and air having entered the machine, the air is compressed at about 45 pounds to the square inch, heated to about 280 degrees, then passed through the refrigerator and expanded; upon which the volume of cold air, which may even be produced at so low a range as from 30 to 60 degrees below zero, discharges itself continuously into the closed chambers in which meat or other perishable articles are stored. Its chief feature is the production of a preservative dry air. Another point is that the same degree of cold can be obtained with water taken in at 50 degrees as with water taken at 90 degrees—a matter of obvious importance in ships which have to pass through the tropics. With an engine of 70-horse power, it is stated that a cargo space holding 250 tons of fresh meat can be kept in a continually frozen state throughout the long voyage from Sydney to England, a distance of 13,500 miles. The space chartered by the Australian Frozen Meat Company is sufficient for 150 tons, and that was just the quantity actually aboard, consisting of 3171 carcasses of sheep, 70 quarters of beef, and other miscellaneous kinds of fresh meat and provisions, as tongues, ox-tails, poultry, etc. The whole of this was taken aboard at Melbourne, having been killed and frozen ashore. "It is said," remarks the Scotsman, "that the hottest sun that ever shone down from a tropical sky would still leave the meat rooms of the Orient cold as the air of a bright, hard frosty day in the coldest Winter of these latitudes." That paper admits that the economical aspects of the system remain to be determined, though it believes the mere fact that sheep may be bought in Sydney at from eightpence to a shilling a stone of eight pounds, can hardly leave a doubt of the profitable character of the transaction. The excellent appearance of the meat is due, in its opinion, in great part to the system of enveloping it in cotton bags, which not only prevents unsightly bruises, but that tendency of the carcasses to stick together, which is still more injurious. This fact alone, it is expected, will do much to remove the prejudices of buyers.

A GERMAN paper, comparing Germany with France, observes that the former nation is superior to the latter in political and military power, and that the latter surpasses the former in culture and material prosperity. This, it says, is chiefly attributable to the fact that the population of France is almost stationary, while that of Germany is rapidly increasing. France, which is, moreover, richer in natural resources than Germany, is thus easier able to provide for the wants of its people. Germany, naturally a poor country, cannot increase her productions so as to keep pace with the increase of her population. According to the latest census the population of Germany was 45,194,000; it has increased by 459,000 a year from 1871 to 1875, and since 1875 by 493,600 a year. During the past five years the increase has amounted to more than 4,000,000 persons, which is more than the total population of the grand duchies of Baden and Hesse and the province of Alsace-Lorraine. It is as if Germany had annexed the population of these countries without annexing the countries themselves. Such an increase of population adds to the strength of the empire, but it also imposes a heavy burden upon Germany for the maintenance of her numerous children.

THE Attorney-General MacVeagh or District Attorney Corkhill is responsible for a flagrant failure of justice in the Star Route cases. The suits have been dismissed because the accused were proceeded against without securing their indictment by the Grand Jury. Judge Cox, in rendering his decision, said, after discussing principally the question as to the infancy of the crime charged, the conclusion arrived at was: "The crime was infamous and the accused should have been proceeded against by indictment." He therefore sustained the motion expunging the information from the files of the Court, and ordered the discharge of defendants.

THE Attorney-General MacVeagh or District Attorney Corkhill is responsible for a flagrant failure of justice in the Star Route cases. The suits have been dismissed because the accused were proceeded against without securing their indictment by the Grand Jury. Judge Cox, in rendering his decision, said, after discussing principally the question as to the infancy of the crime charged, the conclusion arrived at was: "The crime was infamous and the accused should have been proceeded against by indictment." He therefore sustained the motion expunging the information from the files of the Court, and ordered the discharge of defendants.

Thanksgiving Day.

WASHINGTON, November 7th.—The President has issued the following proclamation: It has long been a pious custom of our people with the closing of the year to look back upon the blessings brought to them in the changing course of the seasons, and to return thanks to the All-Giving Giver from whom they flow; and although at this period, when the falling leaf admonishes us that the time of our mortal duty is at hand, our nation still lies in the shadow of a great bereavement, and the mourning which has filled our hearts finds sorrowful expression toward the God before whom we but lately bowed in grief and supplication, yet the countless benefits which have been showered upon us during the past twelve months call for our fervent gratitude, and makes it fitting that we should rejoice with thankfulness that the Lord, in His infinite mercy, has most signally favored our country and its people. Peace without and prosperity within have been vouchsafed to us; no pestilence has visited our shores. The abundant privileges of freedom, which our fathers left us in their wisdom, are still our increasing heritage, and in parts of our vast domain, some affliction has visited our brethren in their forest homes, yet even this calamity has been tempered and in a manner sanctified by the generous compassion for the sufferers which has been called forth throughout our land. For all these things it is most that the voice of the nation should go up to God in devout homage. Wherefore, I, Chester A. Arthur, President of the United States, do recommend that all people observe Thursday, the twenty-fourth day of November instant, as a day of national thanksgiving and prayer, by ceasing so far as may be, from their secular labors, and meeting in their several places of worship, there to join in ascribing honor and praise to Almighty God, whose goodness has been so manifested in our history and in our lives, and offering earnest prayers that His benedictions may continue to us and to our children.

In witness whereof, etc.

CHESTER A. ARTHUR.

By the President: JAS. G. BLAINE, Secretary of State.

An Acknowledgment.

EDITOR GAZETTE:—Dear Sir: The article in your paper tendered me from the Anaheim Board of Water Commissioners, in regard to the deed I have given for the reservoir, is a matter to which I express myself as follows: I have done it in a free and good will—particularly to the Anaheim pioneer settlers, who always have been friendly to me in all my domestic troubles, and I acted by care of my highly honored and respected lawyer, Andrew Glassell from Los Angeles. Thanks to all of you.

Respectfully, DANIEL KRAEMER.

PACIFIC COAST NEWS.

R. H. Frank, a brakeman, was killed near Benicia by the cars.

Frederick Aumann, a German aged 39 years, hanged himself in San Francisco on Monday.

Jesse Snyder, who was injured by the explosion of the gas works at the Baldwin Hotel, San Francisco, died on Monday.

News has been received from Bellevue, Nevada, to the effect that Ed. Hyer was shot and instantly killed by Barnes Buchanan a few days ago.

Advices from Dayton, W. T., state that smallpox continues to rage there. There are now forty-seven cases, but two-thirds of the patients are convalescing. Three deaths are reported.

John Eccles, of Columbia county, Washington Territory, raised 575 pounds of turnips from a piece of ground containing one square rod, being at the rate of forty-six tons per acre.

The Phoenix, A. T., Herald says Colonel Thomas Andrews rode an Indian pony the other day, from Gibraltar City to Casa Grande, a distance of twenty miles in seventy-five minutes.

Sunday, a party of hunters went out from Fort Steele, Wyoming, and by mistake they used a can of arsenic for cooking; they supposing it to be baking powder. The arsenic was employed in preserving hides. Four of the party have died, and the others are dangerously sick.

At San Jose on Tuesday afternoon two sons of Sheriff Williams, Amos, aged six, and George, aged two years, were in an outbuilding playing, and while there Amos found a breach-loading shotgun and took it up. In fooling with the hammer an accidental discharge took place, blowing off the top of little George's head and causing instant death.

The Directors of the Marysville Savings Bank on Tuesday passed the following resolution: "In view of the continued depreciation of real estate held by this bank as security and the difficulty of finding safe investments, we deem it expedient, in justice to our depositors to discontinue business and proceed at once to collect the assets and liquidate the indebtedness of the bank." The Directors state that in taking the above action they have been influenced solely by a desire to protect depositors, believing that the assets are sufficient to pay all their claims. They propose to declare a dividend in liquidation at an early day, and thereafter as often as a sufficient amount shall have been collected. There has been no run on the bank and the announcement has caused no excitement.

REXWOOD CITY, November 6.—About 1 o'clock to-day a terrible accident occurred in the creek leading from this place to the bay, by which George W. Green, Sheriff of San Mateo county, and a young man named Vandewater, a resident of Halfmoon Bay, were drowned. The Sheriff, accompanied by his wife, two small children, a servant girl and a valet, were taking a pleasure trip in a small sailboat. In some manner the boat was accidentally capsized, precipitating the occupants into the water. Mrs. Green, with the two children and the servant, managed to cling to the bottom of the boat, and after drifting around some time, were rescued by Lon Cook, who was hunting ducks. Green was a good swimmer, but in rescuing his family, being heavily clothed, became exhausted and sank.

ELECTION NEWS.

NEW YORK, Nov. 10.—The World's Legislative Guide and 27th State Directory, Democratic, 47; Republican, 61, and claims the election of the State officers by a majority ranging from 2,000 to 20,000. The 7,000 majority over the majority of 6,700, and gives the Democrats two majorities in the Senate and four in the Assembly. The Sun says that neither party has elected its entire State ticket as far as the present election is concerned. Each claims to have carried the State by 2,000 majority. The official count will be necessary to determine the result.

In Connecticut, the Republicans are estimated to have 7 majority in the Senate and 61 in the Assembly.

Returns from New Jersey give the Republicans five majorities in the Senate and a tie in the House.

Republicans claim a majority of 7,000 in Pennsylvania but the Democrats do not concede it.

In Maryland, according to present estimates, the Democrats have a majority of 6 in the Senate and 15 in the Assembly.

In Virginia the returns indicate the election of Cameron, and the Readjusters will have a good working majority in the Legislature. The Readjusters claim the State by 15,000 majority.

Returns so far indicate that the Democrats have carried Mississippi by 20,000 to 30,000.

Late returns insure the election of the Republican State ticket in Wisconsin by about 6,000 majority.

Returns indicate a Republican majority in Minnesota of 20,000.

It is claimed that the Republican candidates in Nebraska are elected by 20,000.

—Gen. Stoneman has declined to serve on the Board of Directors of the Horticultural Society. The resignation of Gen. Shields was also accepted at the meeting last Saturday, and S. K. Sewell and Col. J. Banbury were elected Directors to fill the vacancies.

—Articles of incorporation have been filed with the Secretary of State for the incorporation of the "Maggie" placer mining company, for the purpose of bringing the waters of Elizabeth Lake to the Castaic placer mining claim.

BERLIN, November 7th.—Bismarck has been for a number of days at Wiesbaden, where he died. The ceremony was attended by great popular enthusiasm.

REDUCTION IN PRICES

At The

DRY GOODS PALACE,

OUR NEW STOCK

ARRIVED ON THURSDAY.

AND IS

Now Ready for Inspection.

As our purchases will hereafter be exclusively for cash, we can only sell exclusively for cash, and the result will be that our patrons will receive bargains such as they never dreamed of before.

It is common for advertisers to make such claims as this, without the slightest intention of fulfilling them, but we pledge ourselves to carry out to the letter everything that we promise.

All Persons having accounts with us will please settle them forthwith.

GOODMAN & RIMPAU,

Center Street, - ANAHEIM.

Hippolyte Cahen,

Selling Out. Notice.

Being satisfied that the credit business is detrimental both to the merchant and consumer, I have positively resolved to stop it after the 1st day of September, 1881, and confine myself to a strictly cash basis. For this purpose I will sell goods at the lowest market rates possible, for Cash or Produce, and feel assured that it will be for the benefit of all parties.

Thanking my customers for their liberal patronage in the past, I would respectfully solicit a continuance of the same in the future.

All persons knowing themselves to be indebted to me will please come forward and make a settlement at their earliest convenience.

Groceries at lowest market rates.

Center Street, Anaheim, Cal.

WEEKLY GAZETTE

SATURDAY, NOVEMBER 12, 1881

Kleinigkeiten.

—Edwin Goodall will apply to the Supervisors at their December meeting for authority to construct a wharf at Newport Bay.

—Rev. W. B. Hill of Los Angeles has received the appointment of Moral Instructor at the State Prison, vice Cummings, dismissed.

—Mr. G. F. McCallan of Los Angeles was in town on Thursday. He intends to return in a few weeks and pass some days with us.

—The new ditch is being excavated as rapidly as upwards of one hundred and fifty men can do it. It is probable that it will be completed in two months.

—The shares of those stockholders in the Anaheim Water Company who fail to pay their assessments on or before next Wednesday will be advertised for sale next Saturday.

—The janitor of the school-house suggests that visitors should remove their quids from their mouth before entering the building, and thus be enabled to refrain from expectorating tobacco juice all over the floor.

—The Supreme Court, in the appeal of Hunt, who was convicted in the Superior Court of this county of murder and sentenced to imprisonment for life, has affirmed the judgment of the Court below.

—Mr. L. E. Fish has returned from the Northern part of the State, having met with great success in introducing his patent gas machine. There are now five places in the State where these machines are being manufactured.

—We understand that the oil company of which Hon. Chas. Felton is President, has within a short time past, shipped 2000 barrels of crude petroleum from the San Fernando district to Guaymas, Sonora, Mexico.

—The Union Brass Band have ordered uniforms for the members, and they expect to do them in about two weeks. The band is highly prosperous, and it proposes to adopt every improvement which may keep up its efficiency.

—An unmistakable sign of reviving prosperity is the lease of the Anaheim Hotel by Mr. Ance Gwin. The hotel has been closed for nearly two years. It will be opened for business as soon as the furniture can be put in place and the house thoroughly cleaned.

—Messrs. Taylor & McCoy, of Westminster, sustained quite a loss a few days ago by the burning of their dryer, in which three tons of grapes were being converted into raisins. The building was partially destroyed, and one hundred trays were burned.

—Mr. A. J. Sanders, of Orange, who has been constructing the bulk head, and sand gate on the Anaheim Water Co.'s new ditch, says that Anaheim will have as good a ditch as there is in the State. The soil on the route traversed is in the main compact and hard, making the less by seepage very slight.

—The number of applicants for wharf franchises at Wilmington continues to increase. The list up to date is here given: Walter S. Maxwell, E. N. McDonald, G. F. McCallan, Charles H. Simpkins, A. H. Denker, Daniel Ullman, Perry & Woodworth, Manuel Dominguez, T. E. Rowan, Phineas Banning.

—This office is indebted to Mr. F. Upson of Centralia for a basketful of yellow Belleflower apples, which for size and flavor were unsurpassed. Mr. Upson has one of the choicest orchards in the district. As he desires to remove to another piece of property which he owns, his Centralia farm is on the market for a purchaser.

—The Arizona Star of a recent date says: "Mr. Fred Rimpau arrived from Sonora yesterday, and while there he visited Magdalena, Ures, Cucurpa and other places. He will return in about fifteen days, accompanied by San Francisco parties, for the purpose of selling the San Pedro mine, in Ures district, of which he owns a half interest. The sale is to be for \$15,000. Mr. Rimpau has interests in several mines in Sonora."

—Mr. E. J. Pellegrin, who for some years past has been foreman of the GAZETTE office, is laid up with an acute attack of rheumatism, which, his physician says, is partly due to the effects of type metal. He has therefore decided to abandon the printing trade. Mr. Pellegrin was the most faithful and efficient workman which this office ever had. We hope for his speedy return to good health, and his future prosperity.

—Among the resolutions adopted at the session of the Teachers' Institute in Los Angeles last week were the following:

Resolved, That in the untimely removal by death of our fellow teacher, Miss Belle Turner, we mourn the loss of an earnest and able member of our profession, and that we cherish the memory of her gentleness and goodness, while we emulate her example of energy and faithfulness in our work.

Resolved, That, in the opinion of this Institute, any teacher who drinks to intoxication should have his certificate revoked by the County Board of Education.

Resolved, That we believe a majority of the teachers in this county cherish a sense of their dependence upon God for the wise and successful prosecution of their work, and recommend that these sentiments be practiced by opening the future sessions of the Institute with prayer.

—A gentleman living in Orange county, Florida, writes that he has seen the GAZETTE pamphlet, descriptive of Anaheim, and it has impressed him favorably with this place. We make the following extracts from his letter:

Please give me the prices of some improved and unimproved land. A small place will answer. I have four children, and am anxious to secure them a home where we can make a living at home, and I will work forward to Anaheim as the place. Can I rent a house in Anaheim for a short time until I can build? Have you the finer varieties of oranges there? Would it be of any importance for me to bring the different varieties of our fruit, as guavas, pine apple, banana, mandarin, etc.?

The price of land varies greatly. It is useless to quote prices of improved land unless the improvements are minutely specified. First-class unimproved land can be had around Anaheim for from \$25 to \$50 per acre. That is the price at present, but values are going up. The perfection of our irrigating system and the increased immigration is certain to enhance the value of land.

There are several houses to rent at the present time. It may be different when our correspondent reaches here. There is a good hotel, however, where every accommodation can be had at a small cost.

All the finer varieties of oranges are grown here. Guavas, pine apples and bananas can be had from any nurseryman, but they are not grown for profit in this State. It would not be advisable for our correspondent to encumber himself by bringing along any of the plants named; the best way is to come here, study the country, and send back to Florida for anything which may be lacking and which that State can supply. But he will likely find every thing necessary.

—Among the list of awards made at the Agricultural Fair, we find the following:

G. R. Hinde, Anaheim, best hill of white corn, \$2; best peck of tomatoes, \$1; best 3 melons of any variety, \$1; best green flesh musk melons, \$1; best half peck of garden peas, \$1; best and greatest variety of peas, \$1; best green figs, \$2; best display of seedling fruit, \$5; best display of fruit by producer, \$5; best 25 pounds dried apples, cup; do dried peaches, butter knife; do 10 pounds dried figs, napkin ring; best two bushels of peanuts, diploma; display of raisins, \$10.

R. H. Gilman, Anaheim, best display of tropical fruits, \$10.
L. Parker, Anaheim, best dozen ears sweet corn, \$1; best half peck white beans, \$1; 32 varieties of table grapes, \$3; best variety of raisin grapes, \$5.

—As the result of a correspondence between Postal Agent McKinnick and Postmaster Higgins, in regard to the mail service between Los Angeles and this place, the former writes that the Railroad Company refuse to run a special mail train, and that the present unsatisfactory service will continue unless the people, by petition, induce the railroad authorities to make the asked-for change. Their contract with the government is merely to carry the mails to and from Santa Ana, within a specified time, and the government cannot compel them to change the time of arrival and departure.

—Mr. Hinde, the vegetarian, has got away with the beef-eaters who competed with him in displaying fruits at the two county fairs. This fact does not prove that his peculiar system of dietetics is the best, but it demonstrates that he has intelligence and muscle enough, notwithstanding his starvation diet, to raise better fruit than those who hold his manner of living in the highest contempt. The query might be made whether, if he lived more generously, he would not rise to higher horticultural heights than he can ever attain on raw fruit and uncooked vegetables.

—It is said that the vein of coal which the miners in the Santa Clara coal mine have been following up, suddenly pinched out a week or so ago, and since that time they have been sinking a shaft in search of the lost vein. This is an unfortunate circumstance, as it is an indication of what may happen at any time, even if the lost vein be found, and gives little encouragement to the owners of the mine (the railroad company) to continue the liberal expenditure which has characterized the prospecting of the mine heretofore.

—Mr. L. F. Lewis, of the City Stables, had the ill fortune to lose a valuable horse on last Saturday. The animal was loose in the corral in the rear of the stables and fell into a disused well, the existence of which had been forgotten. A large force of volunteers set to work with shovels to rescue the horse, but it died before it could be reached. The body was removed with considerable difficulty, so lightly was it wedged into the well. It was a promising young horse, and was valued by the owner at \$200.

—Mr. J. E. Preston, whose letters from Westminster have appeared weekly in the GAZETTE for a couple of years past, has removed to Los Angeles. We think it due to him to publicly acknowledge our appreciation of his kindness in acting as our correspondent. He has assisted us in many ways, and we hope to be able to reciprocate his favors. We will endeavor to secure a Westminster correspondent next week.

—The lighters and all the other property of the Anaheim Lighter Company have been purchased by Mr. B. Dreyfus and Messrs. A. Guy Smith & Co., thus checking-mating the little game of the railroad company. The purchasers have not yet agreed upon a plan of action, nor is the transfer fully consummated. We presume the public will be placed in possession of the details in due time.

—Owing to the non-arrival of a necessary piece of pipe, the new steam pump on the Town Water Works could not be started up until yesterday afternoon, when some water was pumped into the tank. Mr. Eicher will complete the job to-day and turn over the pump to the town authorities in complete working order.

SPECIAL MENTION.

Mrs. Wallace and sister, of the Millinery Parlor in Main building, have received their winter stock of millinery, to which they call attention. Ladies will find much that is new and tasty in this latest invoice.

A Tustin windmill in very excellent condition is offered for sale by Mr. Theo. Reiser. It is a decided bargain. Everybody who has the necessary facilities should acquire it. There is profit and pleasure in the business. Mr. A. L. Taylor of Westminster will furnish carp as to the proper care of the fish.

Buy your grape cuttings at home, and then you will be sure and get them free from any injurious pest. Information concerning the cuttings offered for sale to-day given at this office.

The Garden Grove Store proposes to share with its customers the benefits of the purchases made at a low figure in San Francisco recently. The stock is the largest and best ever imported by Mr. Howe.

This is the time of year when heating stoves ought to be in demand, and a chance to secure a bargain in one is offered to-day.

The Union Brass Band will give a ball on the evening of Thanksgiving Day. This organization is one which our people ought to foster, and they should meet with a hearty response on the rare occasions when they perform for the public as beneficiaries. On the present occasion they will perform many new and popular airs, and leave nothing undone to insure to their guests a happy finale to the festivities of Thanksgiving Day.

The lot on the corner of Los Angeles and Center streets is offered for lease. It is the best corner in the town for business purposes.

Board of Supervisors.

Matter of Florence road No. 2; road declared a public highway.

Matter of road known as the extension of the McFadden and Ritchey road; said road declared a public highway.

J. C. Leighton appointed Constable for Soladad Township, vice John Howe, resigned.

J. M. Griffith, Treasurer of the Garfield Obsequies fund, files his report showing a balance, which he is requested to donate to the Orphan's Home.

The Treasurer is hereby authorized to transfer from the Interest and Sinking fund of 1881 to the Current Expense fund \$111.50, and in the future this fund will be discontinued.

Matter of the petition of John G. Downey asking compensation for land taken for the Lexington and Gallatin road. Prayer of petitioner denied.

Matter of petition of F. Upson et al. for road in Centralia. Petition and bond filed. C. T. Wright, O. P. Robbin and C. J. Hickox appointed viewers.

Supervisor Egan offered a resolution for the refunding of the outstanding indebtedness of the county—\$136,000—by the issue of 20 years bonds of \$1000 each, bearing interest at six per cent. per annum, said bonds to be sold at not less than par and accrued interest at the date of sale. Adopted.

The various petitions for wharf franchises are being considered by the Board.

—The Herald of last Sunday had the following: Another ineffectual attempt was made about noon yesterday to capture Moreno, the horse thief, who is wanted in Ventura county. Moreno was seen in Sonora by Deputy Sheriff Berry, at a place near Naud's warehouse, as he was coming from the Arroyo Seco. He hastened to the Sheriff's office and securing the aid of Deputies Huber and Barretto, the three started to capture the outlaw. A Mexican, who knew Berry, seeing him riding in the direction of the rear of the house in which he was, warned Moreno, who mounted his horse and rode off, Barretto firing one and Huber three shots at him without effect. Berry then came up and rode in pursuit of Moreno, firing five shots at him, three of which were returned by the fleeing robber, who, being better mounted than his pursuer, made good his escape. This is the fourth attempt that has been made to capture Moreno, in each of which sufficient powder and ball have been wasted to start a small ammunition store.

—Mr. D. D. Brunk gives the Mirror a very simple remedy for "scale leg" which is now troubling the poultry in many of the farms and ranches herabouts. It is simply bathing with kerosene and then thoroughly cleansing with strong soap suds. The most convenient method of application Mr. Brunk thinks to be this: Take a small pail, fill partly with water and pour in some kerosene, which will remain on top of the water. Then take your fowl and dip its legs into the pail. After two or three minutes wash thoroughly with soap suds, as this prevents any ill effects to the fowl from the kerosene. A number of other diseases are the direct result of "scale leg," and when the cure is so simple and easy so valuable it stands the poultryer in hand to be watchful for signs of disease and to be prompt in arresting it.

—Mr. J. H. Steinart was in town yesterday. As soon as the business matters entailed by the fire, which destroyed his store at Westminster, are settled, it is his intention to begin business again at that place.

—The members of the Greenback and Workingmen parties met in Los Angeles last week and resolved to have a mass meeting on the 17th inst. for the purpose of organizing a Central Anti-Monopoly Club. All in sympathy with the cause are invited.

—Grape crushing still continues at the establishment of Messrs. B. Dreyfus & Co., but it will soon close for the season. In a week or two we shall be able to announce the results of the year's vintage.
