A BATTERY TAKING POSITION.

Did you ever see a battery take position? It hasn't the thrill of a cavalry attack, nor the grimness of a bayonet charge moving slowly and determinedly on; but there is a peculiar excitement about it that makes old veterans rise in their saddles and cheer.

We have been fighting at the edge of the woods. Every cartridge box has been emptied once or more, and one-fourth of the brigade has melted away in dead and wounded and missing. Not a cheer is heard in the whole brigade. We know that we are being driven foot by foot, and that when we break back once more the line will go to pieces and the enemy will pour through the gap.

Here comes help!

Down the crowded highway gallops a battery, withdrawn from some other position to save ours. The field fence is scattered while you could count thirty, and the guns rush for the hill behind us. Six horses to a piece—three riders to each gun. Over dry ditches where a farmer would not drive a wagon, through clumps of bushes, over logs a foot thick, every horse on the gallop, every rider lashing his team and yelling—the sight behind us makes us forget the foe in front. The guns jump two feet high as the heavy wheels strike rock or log, but not a horse slackens his pace, not a cannoneer loses his seat. Six guns, six caissons, sixty horses, eighty men race for the brow of the hill as if he who reached it first would be knighted.

A moment ago the battery was a confused mob. We look again and the six guns are in position, the detached horses hurrying away, the ammunition chests open, and along our line runs the command, "Give them one more volley and fall back to support the guns." We have scarcely obeyed, when boom! boom! opens the battery, and jets of fire jump down and scorch the green trees under which we fought and despaired.

The shattered old brigade has a chance to breathe for the first time in three hours, as we form in line and lie down. What grim, cool fellows these cannoneers are! Every man is a perfect machine. Bullets splash dust into their faces, but they do not wince. Bullets sing over and around; they do not dodge. There goes one to the earth, shot through the head as he sponged his gun. That machinery loses just one beat, misses just one cog in the wheel, and then works away again as before.

Every gun is using short-fuse shell. The ground shakes and trembles, the rear vaults out all sounds from a line three miles long, and the shells go shrieking into the swamp to cut trees short off, to mow great gaps in the bushes, to hunt out and shatter and mangle men until their corpses cannot be recognized as human. You would think a tornado was howling through the forest, followed by billows of fire, and yet men live through it—aye, get set forward to capture the battery. We can hear their shouts as they form for the rush.

Now the shells are changed for grape and cannister, and the guns are fired so fast that all reports blend into one mighty roar. The shriek of a shell is the wickedest sound in war, but nothing makes the flesh crawl like the demoniac singing, purring, whistling grapeshot, and the serpent-like hiss of cannister. Men's legs and heads are torn from bodies and bodies cut in two. A round shot or shell takes two men out of the rank as it crashes through. Grape and cannister mow a swath, and pile the dead on top of each other.

Through the smoke we see a swarm of men. It is not a battle line, but a mob of men desperate enough to bathe their bayonets in the flame of the guns. The guns leap from the ground almost as they are depressed on the foe, and shrieks and screams and shouts blend into one awful and steady cry.

Twenty men out on the battery are down, and the firing is interrupted. The foe accept it as a sign of wavering and come rushing on. They are not ten feet away when the guns give them a last shot. That discharge picks living men off their feet and throws them into the swamp, a blackened, bloody mass.

Up now, as the enemy is among the guns! There is a silence of ten seconds, and then the flash and roar of more than 3,000 muskets, and a rush forward with bayonets. For what! Neither on the right nor left nor in front of us is a living foe. There are corpses around us which have been struck by three, four and even six bullets, and nowhere on this acre of ground is there a wounded man.

The wheels of the gun cannot move until the blockade of dead is removed. Men cannot pass from caisson to gun without climbing over windrows of dead. Every gun and wheel is smeared with blood; every foot of grass has its horrible stain.

Historians write of the glory of war. Burial parties saw murder where historians saw glory.—*Detroit Free Press.*

The Raisin Tariff.

WASHINGTON, January 28.—Randall's Tariff bill proposes a direct assault upon California's interest, which will be resisted "tooth and toe-nail" by her representatives in the House and Senate. He proposes to put "currants, Zante, or other grapes," on the free-list, which would have the practical effect under the operation of customs decisions of making Spanish raisins free of duty. Secretary Bayard simply asked for an equalization of duties between Zante currants and raisins. The former are now paying one cent per pound, and the latter two cents per pound. Both are equally dried grapes. Randall, however, proposes to admit Zante currants free of all duty. There is no likelihood of the passage of Randall's bill, should it get through the House, as the Senate cannot be expected to concur in the bill in time for it to become a law before the 4th of March. In the House to-day, Morrow of California presented a resolution from the Chamber of Commerce of San Francisco against the commercial treaty with Spain, providing for a reduction of the duty on raisins. Referred.

Some Tall Men.

The existence of whole nations of gigantic persons may well be questioned; but there can be no reasonable doubt of the reality of certain individuals, whose height has greatly exceeded that of men in general. The giant as a curiosity has been seen by nearly every American boy in the museum and in the circus. The stories of great giants of the past ages are more than interesting. The exact height of Og, the King of Bashan, has been frequently given, some supposing him to be more than twelve feet in height, while others think his stature did not exceed eleven feet. In like manner the giant Goliath, of the Bible, is generally computed to have been nine feet nine inches high; but commentators suppose that he might have been fully eleven feet.

The Emperor Maximinius was nine feet in height, and several other Romans of equal stature are said to have lived during the reign of Augustus. Accounts are contained in the philosophical transactions of the Royal Society, of human skeletons dug up in England, measuring eight and nine feet in length. These were probably the remains of Romans. Many fabulous and contradictory stories were told at one time of the Patagonians who, according to travelers, had been a race of giants. An English official once declared that he had measured the bones of the men in sepulchers in South America, between eleven and twelve feet high. Turner, the naturalist, declares that he once saw upon the coast of Brazil a race of gigantic savages, one of whom was twelve feet in height. The declaration of Turner is all the more credible, by the statement of M. Thevet of France, who, in his description of America, published in Paris in 1575, asserted that he saw and measured the skeleton of a South American which was eleven feet five inches in length. To these remarkable instances may be added a well-proportioned living man, whom Dienterbrock saw at Utrecht, measuring eight feet six inches. Dr. Bocatius, an ancient scholar, reports having seen a youth of nine feet, a man of ten feet, and a woman nine feet in height.

Walter Parsons, who acted as porter to King James I. of England, was seven feet six inches in stature. But the Chinese claim to have had men among them in the last century who were fifteen feet high. However, this report may have no more foundation than the chronological fables of the sons of China.

A Child-Wife Slays Her Husband.

NEW YORK, January 27.—An Elmira (N. Y.) dispatch says: John Vanwert, a farmer living near Stockdale Junction, (Pa.) a short time ago married a girl scarcely 15 years old. He had a bad temper, and at times was a terror to the neighborhood, and shortly after the wedding day exhibited his sullen and disagreeable nature to his child-wife. Yesterday he got in a rage and chased her around the house and farm, brandishing a big knife. Finally she drew a revolver she had found in the house, and as he made a rush for her, she stepped aside, avoided the blade and sent a bullet through his neck near the jugular vein. Vanwert staggered back, but renewed the attack, and made a second lunge at the woman. Again she evaded the thrust and, fired, the ball striking near the first. The man dropped to the ground and almost instantly died. The woman gave herself up to the authorities.

The Latest and Greatest Discovery

DR. J. DE PRATT'S HAMBURG FIGS,—A crystallized fruit cathartic. A discovery of the greatest interest to the Medical Profession. A boon to every household. A most delicious laxative or purgative prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints, habitual constipation, indigestion, dyspepsia and piles, they are a specific. To travelers by sea and land they will be found invaluable; they are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every Druggist throughout the world. Price, 25 cents a box. J. J. Mack & Co., Prop'rs, 9 and 11 Front Street, San Francisco, Cal.

A Serious Drought.

NEW YORK, January 28.—At a meeting of the Directors of the Northern Pacific Railroad Company yesterday, a letter from Vice-President Oakes was read, in which he stated that farmers along the line in Dakota west of the Missouri river, and for eighty miles east of the river, had lost nearly all their crops last year by drought and hail, and he had taken the responsibility of giving the public notice that the company would furnish seeds—wheat, oats and other grains—to such farmers as were destitute, to enable them to put in a crop the coming spring. The seed is to be a loan from the company, to be repaid, bushel for bushel, in the autumn. Mr. Oakes expresses the opinion that 100,000 bushels of wheat and 60,000 bushels of oats would be needed for seed, and he recommended that the board appropriate $100,000 for the purpose. His action was approved.

We do not sound a needless alarm when we tell you that the taint of scrofula is in your blood. Inherited or acquired, it is there, and Ayer's Sarsaparilla alone will effectually eradicate it.

The power of woman has just been strikingly exemplified at Mills, Iowa. A pastor who was starting a revival there had the happy idea of asking a lady to help him. The Hamilton county, Iowa, Supervisors have appropriated $300 for a tablet of polished brass to commemorate the heroism of citizens of that and Webster county, Iowa, who went to the rescue of the settlers at Spirit Lake in March, 1857, when Inkpadutah's Sioux band massacred forty-seven whites.

Two of the largest checks for money ever drawn in New York have been framed and hung up in the office of the Central Railroad. They are both Vanderbilt checks, and represent two generations. One is dated March 2, 1867, for $1,000,000, and signed by C. Vanderbilt. The other is dated November 23, 1885, for $6,000,000, and signed by W. H. Vanderbilt.

St. Louis has a ghost—not a mere human ghost, but a complete spectral equipage. A phantom buggy, with its occupant hidden by a front curtain, appears every evening, traverses some of the principal streets, and then mysteriously vanishes. Thousands of people assemble to watch for it, and extra police have been detailed to keep order. Some of the spectators are favored with a sight of the ghostly phenomenon, and others see nothing.

A New York lady, after living contentedly apart from her husband for twenty years, made up her mind lately that she would like to have him again. Accordingly she brought suit to annul the divorce he obtained in 1867. The Judge who granted the divorce, the lawyers and most of the witnesses are dead, the husband has married again and has a son, and on the whole the court thought it hardly worth while to disturb existing arrangements.

The Bucksport *Clipper's* nautical editor went to a New Year's ball. He says the ladies "hail pennants, burgees and pilot flags all over them, and a heavy cloud of light, good setting sails. A breeze sprung up," says the nautical man. "'First four right and left!' was the order. The inshore crafts hove up, struck a croppy sea and sailed back and forth, passing each other with their port tacks aboard. Then catching a flaw of wind, they bore away down, outside the lines with an eight-knot breeze, rounded to and came back before a ten knot souther." The old salt says he did not quite understand all the maneuvers, but he considered them an improvement on the old time fore and aft breakdown in an old barn.

The expenditures of Congress are again attracting the attention of reformers. That in one year the House of Representatives should use, at the public expense, four dozen copies of rules for progressive euchre, several hundred packs of cards, $697 worth of opera glasses, four $50 fans and miscellaneous articles beyond computation might be overlooked, but when the United States is asked to buy corset laces for its public servants, low matterings of discontent portend the coming storm, and the revelation that the Representatives used 138,550 clean towels during the year carries matters beyond the endurance of the great unwashed.

An artesian well, now being bored in St. Augustine, a dispatch to the New York *Tribune* says, upsets many preconceived opinions about Florida. The well, which is twelve inches in diameter, is the largest artesian well in the world, and by actual measurement flows at the rate of 7,000,000 gallons a day. The well is now 760 feet below the surface, and is being deepened every day. The old-fashioned idea that Florida was of coral formation has of late years been vigorously disputed. The boring of this well proves that an immense depth of coral underlies the State, as all samples of the material have been saved at every stage of depth. The deeper the well is drilled the higher the temperature of the water becomes. It is now about eighty degrees Fahrenheit.

Puck's Girdle.

There are now eight cables between North America and Europe. They average three thousand miles in length. In the world there are something like one hundred thousand miles of submarine telegraph line. South America is connected with Europe by a cable from Lisbon, Portugal, to Pernambuco, Brazil, a distance of 3,333 nautical miles. This is the longest cable.

Two cables connect Florida with the Island of Cuba, and one extends from Cuba to Aspinwall on the Isthmus and another to Rio Janeiro.

From Trinidad, the most southerly of the West Indies, a cable follows the coast line of Brazil, clear down to Montevideo, in Uruguay, touching at many ports.

There are sixteen cables crossing the North Sea and the Straits of Dover. Two cables connect England and Portugal, and one cable connects England and Spain.

Nearly a score of cables lie beneath the Mediterranean.

One cable extends the entire length of the Red Sea from Suez to Aden, thence under the Arabian Sea to Bombay, across India, under the Bay of Bengal to Penang and Singapore, under the Malay Peninsula, thence north under the Gulf of Siam and China Sea to Hongkong and China. This is known as the Indo route in the East, and extends to Yokohama and Yedde, Japan.

A cable under the sea of Japan connects Nagasaki with Vladivostok, one of the most remote points of Siberian Russia. From Singapore a cable touches Java and Sumatra and reaches Australia.

Even the Island of Tasmania, lying south of Australia, is connected with the rest of the world by cable, and so is New Zealand.

The great African cable, completed some years ago, extends from Aden, Arabia, to Natal, one of the extreme southern ports of Africa.

So, you see, the four corners of the earth have been brought pretty close together by the great cables which lie, some of them, nearly four miles beneath the surface of the ocean.

The only thing now necessary to complete the electric circuit of the world is to lay a cable under the Pacific Ocean, and a project is on foot to connect Japan and San Francisco via the Sandwich Islands.

ROBUST HEALTH

Is not always enjoyed by those who seem to possess it. The taint of corrupted blood may be secretly undermining the constitution. In time, the poison will certainly show its effects, and with all the more virulence the longer it has been allowed to permeate the system. Each pimple, sty boil, skin disorder and sense of unnatural lassitude, or languor, is one of Nature's warnings of the consequences of neglect.

Ayer's Sarsaparilla

Is the only remedy that can be relied upon, in all cases, to eradicate the taint of hereditary disease and the special corruptions of the blood. It is the only alterative that is sufficiently powerful to thoroughly cleanse the system of Scrofulous and Mercurial impurities and the pollution of Contagious Diseases. It also neutralizes the poisons left by Diphtheria and Scarlet Fever, and enables rapid recuperation from the enfeeblement and debility caused by these diseases.

Myriads of Cures

Achieved by AYER'S SARSAPARILLA, in the past forty years, are attested, and there is no blood disease, at all possible of cure, that will not yield to it. Whatever the ailments of this class, and wherever found, from the scurvy of the Arctic circle to the "veldt-sores" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggists' every where can cite numerous cases, within their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to

Trust Nothing Else

than AYER'S SARSAPARILLA. Numerous crude mixtures are offered to the public as "blood purifiers," which only allure the patient with the pretense of many cheap doses, and with which it is folly to experiment while disease is steadily becoming more deep-seated and difficult of cure. Some of these mixtures do much lasting harm. Bear in mind that the only medicine that can radically purify the vitiated blood is

Edwin Mellen plaintiff vs. Mrs. Stella Anne Mellen defendant.—Action brought in the Superior Court of the State of California, in and for the county of Los Angeles, and the Complaint filed in said county of Los Angeles in the office of the Clerk of said Superior Court.

The people of the State of California send greeting to Mrs. Stella Anne Mellen, wife of Edwin Mellen, carpenter, city and county of Los Angeles (her maiden name having been Stella Anne Farnsworth) defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service), after the service on you of this Summons, if served within this county; or, if served elsewhere, within thirty days or judgment by default will be taken against you according to the prayer of said complaint.

The said action is brought to obtain a decree of divorce from his wife, the defendant, on the ground of willful and causeless desertion by her of the plaintiff and for dissolution of the marriage between them, which was celebrated at Russell Village, county of Saint Lawrence and State of New York, on the 21st of September, 1869. Reference is had to Complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said Complaint as above required, the said plaintiff will take judgment of divorce and dissolution of the said marriage against you, and for custody of Almani Mellen, the minor child of the marriage.

GIVEN under my hand and the seal of the Superior Court of the State of California, (SEAL.) in and for the county of Los Angeles, this 22d day of December in the year of our Lord one thousand eight hundred and eighty-six.

THE DESTRUCTIVE QUAIL.

The Assembly Committee on Fish and Game had an interesting meeting last week After discussing the fish business at some length—in which Commissioner Dibble stated that three million five hundred thousand dollars ($3,500,000) worth of fish are shipped to China yearly for consumption, and asked the assistance of the Legislature to prevent the illegal catching of the same—the quail question came up in the shape of a bill by Mr. McDonnell of Sonoma. The measure is designed to take protection off quail, which are said to be destructive to vineyards. During the discussion, Mr. Young of San Diego stated that there was a revolution in his county against quail, which come down in swarms upon vineyards and destroy them. Owners of vineyards have persons employed to do nothing else than kill these birds, which he declared have become an intolerable nuisance in his county. He recited an instance where a swarm of these quail ate up the pasturage that cattle fed upon. His constituents demanded that a remedy be provided. During his campaign he heard the question of quail discussed in churches, at the postoffice, and at every place where people assembled. Mr. Coombs stated that in Napa county the quail do much damage to the grape.

PHYSICALLY the Czar of Russia is the strongest man in Europe. When he was Czarowitz he one day took a gold rouble in his hands, and by main strength twisted it into a corkscrew. Throwing the mutilated coin at the Prefect of Police, he said: "If you open one of my letters in the future, I will treat you as I have this coin." The incident was the outcome of an order on the part of the Czar that all letters should be opened by the police. A cotemporary comments upon this incident, and says there is a well-grounded suspicion that the Czar of late has been twisting corkscrews into corks with too great frequency.

ALDERMAN G. S. GROFF, of Wilkesbarre, Pa., has received intelligence that hisfamily has just become heirs to an estate in Holland valued at $76,000,000. In 1777 the great great-grandfather of the Alderman was exiled from Holland and his estate confiscated by the Government. He came to this country, and his descendants are now scattered over the Western States, except a few who are in New York. His Government has just passed a bill restoring the estate, with interest and improvements, to the family. The estate is said to be worth the above amount.

SOME years ago a Southern Illinois editor of an investigating turn of mind "interviewed" 100 tramps for the purpose of ascertaining their political weaknesses. He found 71 of them to be Democrats, 18 Republicans and 11 Greenbackers. He began last fall to take the political census of another hundred of these gentry, and has just completed it, the weather having been unpropitious of late for work of this sort. He now reports the total disappearance of the old parties. The entire 100 were labor reformers.

THE Government at Washington seems to be getting along quite well. The public debt statement shows a decrease of about $900,000 of the debt for the month of January. The receipts during January were $709,000, being about $400,000 more than the receipts for the same month last year. Expenditures for January, 1887, were $20,000,000, being $3,000,000 less than the expenditures for January, 1886.

TEXAS is preparing to fall into the prohibition ranks. The Legislature has voted to submit a prohibition constitutional amendment. On the same day that the Legislature so decided, a violent shock of earthquake was experienced in some parts of the State. There is probably no connection between the events, however.

AN English paper comments on $5 per acre rent as very low for a farm that was secured at that rate in Scotland. The same farm had previously rented for $9 an acre. Our American farmers would consider such rent enormous, yet the British farmers pay much more, as a rule, and find that sheep are the best agents for making the farms pay.

JUSTICE is administered differently in New York now than it was in the days when Tweed exclaimed to the Sheriff who arrested him: "What are you going to do about it?" The second of the boodle Aldermen has been found guilty on the first ballot.

A ST. LOUIS type founder says: "Here we are on the eve of 1888, which creates a triple demand for the figure 8. This triple use of figures in the annals of time will not occur again until 1911, 1999, 2000, 2022, 2111, 2122, 2202, 2212, 2222, etc."

PRESIDENT CLEVELAND has approved the act granting pensions to soldiers and sailors of the Mexican war. This will be good news to many deserving Vets.

THE latest from the Sweet Wine Bill is that there is a good prospect of its passage by both Houses of Congress.

At San Francisco on Wednesday morning at 10 o'clock a frightful tragedy took place at No. 119 Fifth street. Catherine Filters was shot and killed by her husband, who immediately afterwards sent a bullet crashing into his own brain. They had not been living together for some time past. The woman was shot in a beer saloon which she kept to support herself and her four children, the husband not having provided for them for some years past. Jealousy is supposed to have been the motive for the murder.

Chicago Fruit Market.

CHICAGO, January 29, 1887.

Oranges.—We are now getting a much better inquiry for California than we last reported, and good bright fruit is selling readily at fair prices, but until it is bright and entirely free from smut, it will have to be sold in competition with common Florida Russets and cheap Mediterranean fruit, with which the markets are overstocked. The best and brightest of the Florida fruit will be soon out of the way, and then the most serious competition that our best California fruit will have to contend with will be the large Mediterranean supply, for later on when that fruit gets riper and sweeter with its unusual high colour and low price, it will take a large portion of the trade. It is now being shipped from the seaboard on consignment to every interior town where a responsible house can be found to receive and dispose of it. We have, however, every confidence in our best California oranges selling at better prices than is generally predicted by the trade here and east of this market.

Our market quotations are to-day for:—

Raisins—London Layers, $1 40 to $1 50; Loose Muscatels, $1 20 to $1 30 per 20lb box.

Apricots—Evaporated, 25lb boxes, 25c to 26c; sundried in sacks 16c to 17c.

Peaches—Evaporated, peeled, 50lb boxes, 29c to 28c; unpeeled, 15c to 16c; sundried, in sacks, 12c to 12½c.

Plums—Pitted, 50lb boxes, 12½c to 13c.

Oranges—California Navel, $4.00 to $5.50; Mediterranean Sweet, $3.25 to $3.75; Seedling, $2.75 to $3.50; Seedling, ordinary, $1.75 to $2.25; Messinas, $1.50 to $2.00; Valencias, $3.50 to $4.50 per case—equal to two boxes.

Baseball Sport.

The game of baseball was played last Sunday afternoon as announced, with the exception that it came off on the grounds west of the railroad depot instead of in Fairview district. The Anaheim club did some good playing, as also did the contesting side, which was composed of railroad employes and others, despite the fact that the latter were out of practice. Quite a number of spectators were present, and considerable interest was manifested. Julius Hartung was umpire and Fred Hilmer was scorer. The game resulted in a victory for the Anaheim club by a score of 32 to 12.

The Fairview boys authorize the publication of a challenge to the Anaheim boys for a game of baseball at 2 o'clock on Washington's Birthday at the grounds in Fairview, the winning team to capture a bat, ball and mask.

Suggestive Statistics.

T. P. Hinde, a former resident of Anaheim, writes from England to Capt. Wrede that there is an excellent market in that country for pure California wines. He also sends some statistics of the French wine manufacture, compiled from the London *Times* which is here given:

—inclusive—	*Gallons.*
5-year period, 1872 to 1876.....	1,236,753,770
1877 to 1881.....	835,202,425
1882 to 1886.....	698,790,875

Or; only 160 millions in excess of one-half of the first of the three periods.

Sugar used—In 1885.....6031 tons
1886.....27,410 tons
—An excess of 21,379 tons.

Produced from dried raisins and dregs of the first and second pressings.....120,000,000 Gal

The Finance Committee of the U. S. Senate has reported a bill which provides that the tax laid on the various States during the war will be refunded, and that the tax charged to the account of the States that seceded shall be remitted during the war. California paid $254, 538 67 to the Federal Government, and if this bill becomes a law this sum will be returned to the State.

Information has reached Belvidere, Pa., of the formation of immense ice gorges in the Delaware river, near the Shawnee, above the Delaware water gap. Ice piled up to a height of fifty feet, and the water has been forced out of its natural channel and has overflowed the low land. Dwelling houses are nearly submerged. Should there be a sudden thaw, the destruction of property throughout the valley would be appalling.

The Conferees on the Sweet Wine bill had a meeting at Washington on Tuesday to consider the measure. It at once developed that Senator Harris was opposed to the sweet wine provision on the ground that it gave California sweet wine makers an advantage of 90 cents a gallon over Eastern sweet wine makers. Grape spirits cannot be distilled from the offal of the Eastern grape after the juice has been extracted, because of the light quantity of saccharine matter it carries. Sweet wine made in the East must be fortified with neutral spirits, and the internal tax would remain on these. Eastern men will agree to the sweet wine bill, if it is amended to permit the use of any kind of spirits to fortify wines. Otherwise they will oppose it. The conferees, after discussing the matter, adjourned without calling for a vote on the measure. Another meeting will be held in a few days.

CHICAGO, Feb. 2.—It is stated this evening by telegram to the new labor newspaper that August Spies was married by proxy to Nina Van Zandt last Saturday night in the office of Justice Englehardt in the town of Jefferson, a few miles from Chicago. Spies was represented in the marriage ceremony by his brother, Henry W. Spies, and among the witnesses were the parents of Miss Van Zandt. Justice Englehardt had given the parties interested his opinion that a marriage by proxy would be binding in law. The justice drew up a form of proxy which was signed by August Spies in the presence of four witnesses. By the document he gave full authority to his brother to represent him at the marriage ceremony. Miss Van Zandt's object, it is stated, in having a marriage by proxy performed, is to be able, as the wife of Spies, to visit him in the county jail. Justice Englehardt in an interview to night confirms the rumor that he performed the marriage ceremony for the anarchist Spies and Miss Nina Van Zandt. Miss Gretchen, Spies' sister, also admitted that the marriage had actually taken place.

Annexing Canada.

CHICAGO, January 31.—The News' Washington special says: In an interview yesterday Senator Ingalls declared himself, with characteristic emphasis, in favor of the annexation of Canada, and not only Canada, but the entire Central American States. Since his vigorous speech on the Fisheries Bill he has received a hundred letters a day, and they are still coming in in increasing number. He has received a good many from Canada, and they are all anonymous, vituperative, vindictive and insolent to the last degree. The letters received from this country have come from every State that could send mail so far as Washington since the debate, and all are congratulatory and enthusiastic.

Speaking of the attacks of the English and Canadian press on him, Ingalls said: "They are attempting to divert the issue from the gravity of the accusation to the insignificance of the accuser. We have been so submissive and so forbearing in the past that the world is coming to believe us a nation of cowards. There has been such a transfusion of the dry rot of Anglomania in our social system and nonsense about kindred blood that there has been a temporary aberration of intellect and a suspension of self-respect on the part of the American people, who forget that England is the only enemy we have on the face of the earth. It was time that America woke to the fact that the statesmanship of the nineteenth century requires the unification of this continent under one homogeneous government, from the frozen sea to the interoceanic canal, wherever it be built. That canal should be our southern boundary. My dream, and I believe the settled conviction of the American people, is a continental republic. That is manifest destiny; that is the inevitable tendency of the political forces of the American people. It is their only safety, and instead of wasting our power in petty intrigues with savages for a naval station in the Pacific sea, a wiser and more commanding policy would be to establish relations of international friendship with our Canadian neighbors on the north and our Spanish neighbors on the south, and not permit the machinations of Great Britain to foment disturbances that will defer such an alliance or render it impossible."

An Adverse Decision.

WASHINGTON, February 2.—The Secretary of the Interior has rendered his decision in the case of M. B. Harrison, acting in behalf of certain settlers, asking that suit be brought to secure title to lands for which a patent had previously been issued for the Rancho Lomas de Santiago, in Los Angeles county, (Cal.) on the 10th of December last. The decision says that in 1875 a similar application was made to the Department. Suit was brought in the United States Circuit Court of California, and the allegations in the case were the same as those now made to the Secretary of the Interior. It says that considering that the conduct of the land authorities was extraordinary and beyond comprehension, depriving the government of 2,000,000 acres of land, the fact that the court dismissed the bill in the case and concurred with the Commissioner of the Land Office in dismissing Harrison's present application, seems to make the entire matter *res ajudicata*. In concluding his letter to the Attorney-General, the Secretary of the Interior says: "However, should you differ from me as to the law of the case, and think that the public interests require that such suit be brought, any information in this Department will be promptly furnished you when called for."

Dougherty, the escaped lunatic, who has been wandering about in the neighborhood of San Luis Obispo heavily armed and keeping people there in constant fear of their lives appeared in that city on Sunday. His sudden appearance created great excitement. Constable Jewitt, with a companion, tried to capture Dougherty and ordered him to surrender. Jewett's companion fired a shot over the lunatic's head. This seemed to excite Dougherty and he covered Jewett with his gun and prepared to fire when the latter, to save himself, opened on Dougherty with his rifle, shooting him through the breast and thigh. Dougherty died in a few minutes. At the inquest the Coroner's jury rendered a verdict fully exonerating the constable.

—The pay car of the S. P. was disbursing coin on the Anaheim branch on Monday.

☞Extra copies of the GAZETTE can be purchased at the store of J. Helmsen.

—H. D. Polhemus has sold 33 acres of his home tract south of town to Mr. Langforth for $3500.

—Among the big sales made during the week was 320 acres west of town sold by Aug. Krug to F. J. J. Schmidt for $23,000.

—The usual Sunday afternoon services will be held in St. Michael's Episcopal Church to-morrow at three o'clock.

—A carved wood sign has been placed on Wille & Albrecht's cooper shop. The sign was made by David Wallis, and is an artistic piece of work.

—The death of Mrs. Hannah Fithian on last Saturday removes one of Anaheim's oldest citizens. Her funeral on Sunday was largely attended.

—A frame grocery store and its contents were demolished at Pasadena on Monday by cars that were backed off the railroad track of the San Gabriel Valley Railroad.

—Jacob Kreger has purchased a small piece of land near Sycamore street, bounding on Oefinger's place, and has erected a house thereon.

—Quite a large dwelling house is being built by P. H. Larsen on Claudina street. The resources of the lumber yard are being taxed by the demands made by builders.

—Rev. C. W. Harris, not finding adequate support for himself and family, has resigned his pastorate at Los Nietos and gone to carpentering at Los Angeles.

—Gunning & Hunt is a new firm of architects and builders who have gone into business here. They are now building a neat house on a lot on Philadelphia street which they purchased at the first auction sale.

—A dissipated woman named Jane Prescott disappeared from San Pedro a couple of weeks ago, and on Monday her body was found floating in the bay. It is supposed she walked off the wharf while in a drunken condition.

—D. W. Fish has on exhibition at Melrose & Knapp's office some beautiful specimens of oranges. It was the testimony of the hundreds of strangers who saw them on Thursday that they were equal to the best produced in Southern California.

—The celebrated Duff vineyard of 55 acres was sold this week to T. S. Raddock and G. W. Thompson for $13,000. As the Anaheim Minstrels remarked: Why is the Anaheim boom like a Santa Ana wind? Because it makes real estate change hands.

—To Robert E. McGregor, of the Los Angeles *Herald*, Anaheim is indebted for the full and fair reports of the excursions which appeared in that excellent paper. Mr. McGregor will find lots of latch-strings out whenever he visits this bailiwick.

—We have been informed that some persons have been stealing the GAZETTE from the business places of subscribers on the past few Saturdays in broad daylight without having yet been detected at the mischief.

☞The railroad company has furnished the agent at Anaheim with several assistants. One is stationed as operator, who also attends to the duties in other office work, and the others have charge of the handling of freight. The increased business at this point necessitated this important change.

—A social dance was given at Kroger's Hall on Thursday evening by the young folks of Anaheim and vicinity. Quite a number participated in the dance, and the devotees of terpsichore all enjoyed themselves to their hearts' content, dancing having been kept up until a late hour.

—The following from the St. Helena *Star* is referred to the Pasadena papers, in the hope that they will administer the deserved castigation:

R. F. Rammers, of this place, has received a letter from his brother, George, who is at Pasadena. The writer states that "the lack of rain in that section is causing much sickness; there are 150 cases of typhoid fever in Pasadena; carpenters' wages are going down; painting firms are failing and the bottom seems dropping out of the country."

—There came down with the excursion on Thursday a "soap gambler"—if we may so term it. He set up his stand in front of the Land Bureau's office, and commenced to sell small cakes of soap wrapped in blue paper, the purchasers having the choice of any packages in a box on the table. In the packages of soap were wrapped greenbacks in denominations of from $1 to $20. It is needless to say that he departed about as rich as he came, the old time-worn game having no charms for our clever people.

—The Los Angeles Cremation Society are getting ready for business. Two different cemetery companies are bidding for the crematory. It is not yet decided as to the location, but the matter will be settled in a few days. The furnace is now on the way from the East. Cremation, like all other innovations, will have its day of local opposition, but it will no doubt subside in time. To our mind the thought of being reduced to a handful of ashes is not near so repulsive as contemplating the gradual decay and putrefaction of the body.—*Outlook.*

—There were indications on Tuesday evening that a good rain would fall before the next morning. It commenced to drizzle only at about 9 o'clock, and the fall was hardly sufficient to lay the dust. The farmers—in fact, everybody—are on the lookout for the expected rain, and weather prophets are numerous at present, judging from the many different predictions that are being manufactured and circulated.

—Signboards have been placed at the junction of all the new streets which have been opened through the bonded vineyards by the syndicate. It would be a good idea for the Town Trustees to put up signboards on all the old streets, as it would no doubt be a great convenience to many who do not know the names of them, and to strangers as well.

—While Mr. and Mrs. Werder were driving into their yard on Monday, their horse shied and capsized the buggy, throwing the occupants to the ground. Mrs. Werder escaped injury, but her husband was badly hurt. His most painful injury was on his tongue, which was nearly cut in two by his teeth. His injuries were attended to by Dr. Bullard, who reports his patient as doing well.

—Fruit trees are already commencing to blossom in this vicinity. The early varieties of apricot, peach and plum trees are putting forth their robes of white and colored blossoms. Green gage trees are blossoming, as also are the trees which bear the small oval-shaped red plum, the name of which is unknown to us.

—Four carloads of oranges per week is the average shipment being made by Edwin T. Earl from the Anaheim depot since he commenced operations in this vicinity. The orchards are too remote and scattered from the depot to insure larger shipments in any one week. The fruit is being shipped partly in the Tiffany refrigerator cars.

—The marriage of Geo. C. Hagar of Orange and Miss Julia, daughter of John Hannas, took place in Los Angeles on Thursday. If Mr. and Mrs. Hagar will have all the happiness which we would bestow, had we the power, their future will be most enviable. They start out with the very kindest wishes of hundreds of friends here.

—The bill giving two additional Superior Judges to this county has passed both Houses, and is now in the hands of the Governor. The candidates for appointment to the newly-created offices are J. D. Bicknell, Thomas Brown, R. H. Chapman, A. Brousseau and A. W. Hutton.

—It is said that T. J. F. Boege has sold his orange crop (on the trees) to the Santa Ana Valley Fruit Company for $500. This is the small orchard on the home place near the depot, and the fruit is of the Seedling variety, but of excellent quality.

—A slight frost was noticeable yesterday morning, and also on the few previous days. If it will only prevail to such an extent as not to damage the orange crop or any vegetable growth, then all will be well.

—The opera of *Laila* will be given at Kroeger's Hall in about two weeks. Forty of the most handsome young ladies of Anaheim will participate in the opera, which promises to be unique and enjoyable.

—The ladies of Orangethorpe will give a sociable next Tuesday evening, February 8th, at the residence of Mr. Bancroft. The main feature of the evening will be music. An invitation is extended to all.

—Marshal Smythe made two arrests of strangers on Thursday for misdemeanors. The gamblers who came with the excursion were watched too closely to permit them to ply their vocation.

—A most beautiful specimen of moss and shell work is exhibited in the window of Miss Mossemann's millinery store. It is the handiwork of Mrs. Sponable.

—J. Kreiss, who purchased the bakery property of E. Stein, is making an improvement on the building in the way of erecting an addition to it in the rear of the west end portion.

The Boulon Troupe was here some years ago, and gave a meritorious performance. As a violinist Boulon has no superior. His Chinese impersonation is immense. A ladies' brass band is with the troupe.

—A team was at work last Saturday grading the new street through the Wilkens vineyard. It has been christened Elizabeth street.

—McDowell Camp, No. 2, Sons of Veterans, will give a ball at Santa Ana on the evening of the 16th instant. Admission, $1.

The Boulon-McGinley Troupe at Kroeger's Hall on Tuesday night. Reserved seats at Helmsen's. No extra charge.

No extra charge for reserved seats for the Boulon-McGinley performance on Tuesday.

Dan. Sorensen has taken a position in Northam & Nebelung's store as a clerk.

RALLY!

Important Meeting in Anaheim To-day.

The Depot Grounds Must Be Secured Without Delay.

Notes of Railroad Development in Southern California.

The citizens of Anaheim and all interested in the welfare of this section of country are requested to meet in force this afternoon at 2 o'clock in Kroger's Hall for the purpose of considering the railroad situation generally, and to devise ways and means to secure the depot grounds which are wanted by the railroad company. The exact location of these grounds are shown on a map in the office of Melrose & Knapp. They run across the east portion of the Boldt, Luedke and part of the Meese vineyards, the length being 1,800 feet and the width 300 feet. The proposed location of the depot is about the corner of Center and Orange streets. The site is a most eligible one, convenient for the whole town, and there is nothing in the way of securing the grounds except—money. It is principally to find out how to raise this money that the meeting is called to-day.

This is the critical point of Anaheim's career. Any laggardness now shown will work to the serious and irreparable disadvantage of this town and country. The continuance of the work of development begun by the Anaheim Syndicate hinges upon the speedy settlement of this railroad question, and if the enterprise and capital represented by that Syndicate be withdrawn, the effect upon the prosperity of this town will be little less than disastrous.

The *Express* says that a rumor has been prevalent that the recently commenced Los Angeles and San Bernardino railway was about to change hands and that the Southern Pacific Company would become possessed of the enterprise. With the advent in the city of Mr. Stephen T. Gage, the rumor was again hard pushed in railroad circles that the road had been or was about to be sold. Despite diligent inquiry nothing reliable could be made from it. It is a well known fact that the Southern Company would like to have a line to that city with branches thereabout, and that the obtaining of the right of way for their road by the L. A. & S. B. people, nipped a rapidly hatching scheme of the Southern folks in the bud. A leading stockholder in the new line could or would give no information regarding the alleged sale, but said his company had great expectations of the value of their road and that it would take considerable money to buy it.

At a conference between property owners and the officers of the S. B. and L. A. R. R. last week the location of the depot was agreed upon, two and one half miles north of Pomona. The route is definitely on the south line of the Loop place, due west along the old San Bernardino stage road to Mud Springs. The town around the new depot will be called Pomona Heights.

Long Beach Hotel and grounds in Los Angeles county have been purchased through trustees for some person unknown. It is surmised that the purchase was made in trust for the Atchison, Topeka and Santa Fe Railroad Company, and that the company will convert Long Beach into a magnificent resort for tourists. The Southern Pacific runs to Santa Monica and the Santa Fe will head the former company off with Long Beach. This rumor has, however, been denied.

The San Diego *Union* says that there are about forty teams at work at San Luis Rey grading northward to meet the Atchison extension from Santa Ana to San Diego.

SAN FRANCISCO, Feb. 2.—The Southern Pacific Company has arranged for cheap excursions from Los Angeles to San Francisco and Oakland. The object is to induce the large number of Eastern visitors now pouring into Los Angeles to come north and inspect the inducements held out to them here. Alameda and Santa Clara counties intend making a strong bid for this trade, and delegates from the Oakland Board of Trade will soon go to Los Angeles for the purpose of advising visitors to take a trip north before investing. Oakland people are highly incensed over the reports which have reached here that Los Angeles real-estate dealers are circulating statements that snow is five inches deep in Oakland. Real estate dealers in Oakland say that if they can only once tempt a few hundred of the wealthy thousands now flocking into Southern California up this way, they will soon succeed in stemming the current to Los Angeles and turn the tide toward the northern part of the State. The Southern Pacific Company will, it is stated, do all in their power to aid a movement in this direction, but the real-estate dealers here do not seem very sanguine of great success.

Town Trustees.

The Town Trustees held a special meeting on Tuesday, and introduced a resolution authorizing the President and Secretary to execute a deed to F. Teichmann for certain property bought by the Town for taxes.

At the regular meeting on Wednesday the resolution referred to was adopted.

The Treasurer reported $699.27 in the Treasury.

A bridge was ordered built across Adelaide street.

Certain amendments to ordinances were adopted. They are published in another column.

The salary of A. Schneider, engineer of the Water Works, was increased from $45 to $50.

Marshal Smythe reported that he had appointed H. C. Gade as his Deputy, which appointment was approved.

All Getting Wealthy.

[Los Angeles Express.]

The people of Anaheim, who have been very quiet for several years, are just now plunged into the vortex of a strong boom—that is, if a boom has a vortex. At all events they are building street railways, houses, and we know not what, and everybody is growing wealthy.

RAPID TRANSIT.

The Street Car Line Fairly Inaugurated.

Promptly upon the receipt of the iron for the street car line, Capt. Geo. C. Knox, the company's engineer, sent a large force of men from Los Angeles, under the superintendence of H. A. Robertson, and began work on the line with an energy which promises to complete the system within the next two weeks. The ceremony of driving the first spike took place on Monday afternoon in the presence of a large number of people. Theo. Rimpau, President of the Company, wielded the hammer, and drove the spike with a precision and ease which called forth loud expressions of admiration. Mr. Reiser baptized the spike with a libation of wine, but sufficient was reserved to allow everyone present to drink to the success of the enterprise.

Two of the cars were brought into requisition on Thursday, and used on the completed part of the road.

Meeting of the Water Company.

The annual meeting of stockholders in the A. U. W. Co. convened on Saturday last, and an unusually large amount of stock was represented. The Auditing Committee made an elaborate report upon the books of the Secretary and Treasurer, and in conclusion said: "We find that the books have been kept in a careful and business like manner." The report was received and accepted.

The proposed amendments to the by-laws were referred to a committee consisting of Messrs. Shanklin, Melrose, Holman, Theo. Rimpau and McDermont, with instructions to report recommendations in regard to the amendments at a meeting of stockholders to be held on Saturday, the 12th instant, at 2 o'clock. The same committee were authorized to consider a proposition to extend the area of the water district.

The election for directors resulted as follows: L. Schorn, 5383; Dr. Gardiner, 4964; R. H. Gilman, 4813; W. M. McFadden, 4371; John Hunter, 3337; E. Browning, 3078; F. A. Korn, 2986; A. McDermont, 2719; J. P. Zeyn, 2900; J. B. Pierce, 2363; L. Parker, 382. Messrs. Schorn, Korn, Gardiner, McFadden, Hunter, Gilman and Browning were declared elected. After a general discussion of the affairs of the company the meeting adjourned until next Saturday.

The committee above referred to met on Tuesday and after a session of several hours voted unanimously to recommend the following changes in the by laws:

Strike out Section I of Article I.

Amend Article VI to read:—

SECTION I. No water shall be used on land not owned by stockholders. Water sold to a stockholder out of his own land, and water purchased by one stockholder can not be given, or sold to, or be used by another stockholder.

SEC. 2. All water shall be sold in rods. Stockholders shall be entitled to buy such an amount of water per share, on each run, as the Board of Directors may deem just, and no stockholder shall be allowed to buy more water per share than another.

SEC. 3. By the signing of these by-laws each and every stockholder waives any and all rights which might accrue to him by virtue of the provisions of Section 552 of the Civil Code of the State of California, and any and all kindred laws.

SEC. 4. All water sold shall be sold by the measure or head of 100 inches under four inch pressure; i. e., four inches above the orifice.

New Time Schedule.

On and after the 8th instant the morning train will leave Anaheim at 6:40, arriving in Los Angeles at 7:30. This will make travelers "get up in the morning early."

On and after the same date Los Angeles will have two express trains to and from San Francisco. One, known as the Los Angeles Express, will leave San Francisco at 3:30 P. M. and arrive in Los Angeles at 11:40 A. M.; it will leave Los Angeles at 1:30 P. M., and arrive in San Francisco at 10:40 A. M.

The Atlantic Express will leave San Francisco at 9:30 A. M. and arrive in Los Angeles at 7:30 A. M. leaving for the East at 8 A. M.

The Pacific Express will arrive in Los Angeles at 7 P. M., leaving for the North at 7:30 P. M., and arriving in San Francisco at 4:40 P. M.

—Los Angeles *Times*: The unsuccessful issue of a fiend's attempt at one of the most heinous crimes ever recorded, became known to the authorities yesterday. The well-known school of the Sisters of Charity stands on Alameda street, at the corner of Macy. Though the building has a brick front a large proportion of the structure is frame, and of a very inflammable nature. Among the rooms in the back part of the house is a small one in which the men who are employed about the grounds get their meals. In this room a table stands about two feet from the window. Upon this table night before last, some one placed a large pile of twisted papers and set fire to them—with sixty unsuspecting children sleeping in the frame building overhead. The flames consumed the tablecloth and the curtain, charred the window-casing—and went out, how, a merciful heaven only knows. The attempt at murderous arson was not discovered till morning, and there is not the slightest clew to the identity of the fiend who could have fathered such a crime.

—Big Rabbit Drive on Friday, the 11th inst. Everybody is invited to meet at Browning's house at 10 o'clock.

THE AUCTION.

Result of the Second Excursion to Anaheim.

Five cars, well filled with people, comprised the excursion on Thursday, and the trip to and from the city was made without mishap. An excellent and abundant dinner was in waiting for the visitors at the pavilion, and a bevy of ladies superintended the giving out of the good things for the inner man. By the way, much of the success attending these excursions, and in fact every public occasion, is due to the handsome ladies of Anaheim. Their praise is sung far and wide, and in every newspaper report flattering mention is made of them. The Anaheim Band discoursed excellent music during the day.

Following is a list of the sales. The prices realized were satisfactory to the promoters:

Success at the Oil Fields.

Well No. 6, at the Puente, about nine miles northeast of Anaheim, is down about 700 feet. The *Times* says that at 8 o'clock Monday night the day shift had quit work and the night shift had just come on. The gas was burning brightly beside the well and the workmen were just about to lower the drill into the well, when there came a volcano of oil, 13 inches in diameter at the base and spouting 60 feet into the air. As soon as the men saw the dark mass burst bubbling over the edge of the well, their first thought was for the burning gas, and two of them rushed for the jet. The vast column of oil struck them and flung them down the hill as though they had been straws; caught the burning gas and leaped madly to the sky, a monument of flame. By great good fortune neither of the men were seriously hurt, though both were well shaken up and one was somewhat burned. A hose which is always kept in readiness was turned at once upon the pillar of fire, and the flames were finally extinguished—not, however, until the derrick, cables, hoisting apparatus, etc., were consumed and considerable casing destroyed. By the exertions of the men the engine was saved. The damage amounts to something over $2000.

The well has been capped. It is needless to say that Lacy and Rowland, the owners, are happy despite their loss.

The Anaheim oil wells, located on the same belt, are being vigorously bored, and this latest strike gives to the enterprising men great hope for a fortunate issue.

Amendment to Ordinance XII, Section 5, concerning offences and prescribing penalties therefor, in the town of Anaheim

The Trustees of the town of Anaheim do ordain as follows:

SECTION 5. That any person or persons who shall fire or discharge any pistol, gun or other description of fireworks of any kind in the town of Anaheim, except in defense of life and property, shall on conviction thereof be fined in a sum not exceeding $100 or imprisoned not exceeding 30 days for each offense; provided that nothing herein contained shall prohibit any sheriff, marshal, constable or police officer from the necessary use of such firearms in the discharge of his duty.

This ordinance shall take effect from and after its passage.

I hereby certify that the foregoing is a true, complete and correct copy of an amendment to Section 5, Act XII, and that said amendment was adopted by the Board of Trustees of the town of Anaheim, at a regular meeting of said board held February 2, 1887. M. NEBELUNG, Town Clerk.

ANAHEIM, Feb. 2, 1887.

Amendment to Ordinance VI, Section 10, regulating licences and prescribing the terms thereof in the town of Anaheim.

The Trustees of the town of Anaheim do ordain as follows:

SECTION 10. All persons procuring licenses must pay in addition to the amounts hereinbefore specified the sum of twenty-five (25) cents.

This ordinance shall take effect from and after its passage.

I hereby certify that the foregoing is a true, complete and correct copy of an amendment to Section 10, Ordinance No. VI, and that said amendment was adopted by the Board of Trustees of the town of Anaheim, at a regular meeting of said board held February 2, 1887. M. NEBELUNG, Town Clerk.

Notice of Tax Sale.

STATE OF CALIFORNIA, } ss.
COUNTY OF LOS ANGELES, }
TOWN OF ANAHEIM. }

Public notice is hereby given that default having been made in the payment of taxes due to the Town of Anaheim for the fiscal year 1886-87, upon the property hereinbefore described,

I, F. C. SMYTHE, as Tax Collector in and for the said Town of Anaheim, by virtue of the power and authority in me vested by law, unless the taxes delinquent, together with the costs and percentages, are paid, will on

MONDAY, THE 21ST DAY OF FEBRUARY A. D. 1887,

At the hour of 10 o'clock in the forenoon of that day, commence to sell the real estate upon which such taxes are a lien, at public auction for and on account of such delinquent taxes thereon, in front of the Town Hall in the Town of Anaheim, County of Los Angeles, State of California, and that I will continue such sale from day to day, (Sundays and legal holidays excepted), according to the adjournments, and between the hours of 10 o'clock, A. M. and 3 o'clock P. M. of each day of sale, and at the same place, until the whole property hereinbefore set forth, or so much thereof as may be necessary, shall be sold; and that I will sell the smallest quantity of each piece or parcel of property liable for such taxes that will be taken by any person for the amount in legal coin of the United States, of the taxes and costs remaining due and unpaid thereon, together with the sum of (50) fifty cents, provided by law for the certificate of sale in duplicate in each and every case,

CONDITIONS.

The real property will be sold subject to redemption within twelve months from the date of the sale; but, if not redeemed, conveyances absolute in form of the property sold will be executed to the purchasers thereof, as provided by law,

DOLLARS AND CENTS.

Public notice is hereby given that the figures appearing opposite, following and last after each description of property in the Real Estate portion, also the figures appearing opposite, following and last after each name in the Personal Property portion of this "Delinquent Tax List for 1886-87," of and for the town of Anaheim, were intended to and do represent, respectfully, in dollars or in cents, or in dollars and cents, as the case may be, the amount due for taxes and costs, in manner as follows, to-wit: When or where two figures thus appear therein, cents were intended to be and are represented; when or where more than two figures thus appear therein, cents were intended to be and are represented by the last two figures, or the two figures occupying and appearing at the right hand, and the figures occupying and appearing at the left hand of the said last two figures, and separated therefrom by a space, were intended to and do represent dollars, so that the amount due for taxes and costs in the respective cases aforesaid are thus expressed in dollars and cents.

NO PROPERTY IS EXEMPT.

No property is exempt from seizure and sale for personal property taxes; even the homestead and house utensils are subject thereto. The law is imperative. The Collector has no discretion, and delinquents must suffer if they fail to pay.

All the property hereinbefore described is in the town of Anaheim, county of Los Angeles, State of California.

Signed and dated at the said Town of Anaheim, California, this 29th day of January, A. D., 1887.

F. C. SMYTHE,
Tax Collector of the Town of Anaheim, county of Los Angeles, State of California.

Encounter With Robbers.

ALBUQUERQUE (N. M.), January 29.—Last Monday Detectives Franklin and Marsh, accompanied by four determined men, started with bloodhounds in pursuit of a gang of robbers who have been operating in this vicinity for the past six months. News reached here this morning that the robbers had been overtaken, and that a desperate encounter at close range had ensued and that the detectives and prisoners would arrive this evening on a special train. Great crowds of people gathered at the depot all day, their patience finally being rewarded at 6 o'clock this evening by the arrival of the special train. Your correspondent corralled one of the detectives, who relates the following story: "The robbers were tracked into Hell's Canyon, near Belen station, 80 miles south of here, and when the robbers discovered that they were surrounded they prepared for a fight. A bloody encounter at close range, with pistols, ensued. The robbers proved to be four in number and well armed. The detectives demanded their surrender, which was answered by a volley of shots from the robbers, and then a regular battle commenced. The detectives' party were too many for them, however, and they succeeded in killing one man, who proved to be a desperate character named Hardy Foster, and capturing two, the fourth robber making his escape. One of the captured robbers proved to be Charlie Ross, who murdered Marshal McGuire in this city in November and subsequently broke jail. The name of the other robber is Leslie Bois, a native of Weatherford, Tex. Both men are lodged in jail, which is surrounded by the Sheriff's party. Lynching is feared.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Heart Disease!!

Read the hospital reports, read the mortuary reports, read the medical publications, read the daily newspapers, and learn how wide spread is heart disease, how difficult of detection it is to most people, how many and how sudden are the deaths it causes. Then read Dr. Flint's Treatise on Heart Disease, and learn what it is, what causes it, what disease it gives rise to, what its symptoms are, and how it may be attacked. If you find that you have heart disease, ask your druggist for a bottle of Dr. Flint's Heart Remedy. The *treatise* may be had on application to J. J. MACK & Co., Nos. 9 and 11 Front street, S. F.

The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at A. A FREE TRADE ARGUMENT.

[San Bernardino Times.]

The strength of protection lies in the fact that it appeals to the selfish interests of so many. Every petty industry in the land that is authorized by law to rob the people is ready to fight for protection, and to submit to the robbery imposed upon it by other industries, if it be but allowed to steal its share of the plunder. A proposition to reduce the duty upon raisins, for instance, brings out a dozen or so people in Riverside in vigorous protest, and they appeal to Congress to protect them, and say:

"We, the undersigned, raisin growers of Riverside, California, learning with regret and alarm that the Secretary of State, Bayard, advocates a reduction of duty on foreign raisins and currants, amounting to one cent per pound, would respectfully but earnestly ask your influence at Washington, to prevent the passage of any measure tending towards such or any reduction."

In other words the Riverside raisin growers demand that Congress shall compel all the users of raisins and currants among the 60,000,000 people of the United States to pay a tax upon every pound of fruit they use in order that the profits of a dozen or so individuals may not be reduced.

The Riversiders are right in this, too, the raisin industry should be protected as long as other industries are. There is no just reason why the raisin grower should be compelled to pay an additional price on every article he uses, unless he be allowed in turn to cinch the people who use his products.

The wrong of protection is that all industries cannot be equally protected; if they could, then the object of protection would be at an end. Its sole aim is to build up one class of industry at the expense of another, to take the earnings of one man and give them to another, a system of injustice, robbery, that a free people should not tolerate. A more outrageous system never was devised, but its hidden methods, which are so tortuous that the greater part of men in the hurry of life cannot trace them to their legitimate outcome, serve to keep it alive, and the people who are daily robbed of their hard earnings by it are often the loudest in its advocacy.

Why should the people who use raisins be compelled to pay the growers of them more than they are worth, more than they could purchase them for if there was no protection? Why should the people of the United States be taxed by Congress in order that we may prosper in the business we have chosen? It is indirect taxation, not for governmental purposes, but for individual benefit. We boast of the freedom of our land, yet we have not even the liberty to spend the money we have earned, except in certain prescribed channels, without being punished for it by the payment of an extra amount in the form of custom duties, which are levied not for purposes of revenue, but to prevent us from spending the money we have earned except where Congress dictates or to fine us if we dare to purchase elsewhere. But so long as this infamous system is kept up so long should Southern California products be protected. So long as we are compelled to pay additional prices for every article we consume, so long should we have the right to compel others to pay us additional prices for what we grow; the consumer must suffer and the final burden fall upon the poor wretches who cannot be protected—the farmer, the laborer, the clerk, the professional man, the workers who have to bear the burden any way. Let them suffer, but let us be protected.

Oleomargarine vs. Butter.

The instrument to be used to determine whether butter is butter or oleomargarine is oleomargarine, is a glass tube half an inch in diameter and is six inches long, having degree marks on its circumference. With it is a tube an inch and a quarter in diameter. To make the test the tin tube is filled with water heated to a temperature of 180 degrees, and the glass tube is filled with the article to be inspected. If it is genuine butter the result will show the butter to melt to a liquid oil, and in the bottom of the tube a whitish curd of cheese will be deposited to the amount of about three-tenths as indicated by the scale marked on the tube, and the remainder of the contents will be pure oil. In the case of a test of butterine the result is quite different. The same process is gone through with, but the per cent. of deposit or curd will be very small, and tiny flakes adhere to the sides of the tube, and the greater portion of the tube's contents will be oil, quite different in appearance, as the butter oil is transparent and the butterine oil translucent. Armed with a little detective of this sort, the special examiner will have but little difficulty in discovering the violaters of the new law.—*Burlington Gazette.*

A new style of entertainment, termed "progressive lunch," has become popular in Chicago. It is conducted on the principle of progressive euchre. A number of small tables are provided, at which four are seated. At the end of each course lots are drawn, and two go from one table to the next, thus bringing about a continual change of partners, and allowing each person to see something of every one present.

A Chance for Health

Is afforded those fast sinking into a condition of hopeless debility. The means are at hand. In the form of a genial medicinal cordial, Hostetter's Stomach Bitters embodies the combined qualities of a blood fertilizer and depurent, a tonic and an alterative. While it promotes digestion and assimilation, and stimutates appetite, has the further effect of purifying the life current and strengthening the nervous system. As the blood grows richer and purer by its use, they who resort to this sterling medicinal agent, acquire not only vigor, but bodily substance. A healthful change in the secretions is effected by it, and that sure and rapid physical decay, which a chronic obstruction of the functions of the system produce, is arrested. The prime causes of disease being removed, health is speedily renovated and vigor restored.

WORKING CLASSES

ATTENTION! We are now prepared to furnish all classes with employment at home, the whole of the time, or for their spare moments. Business new, light and profitable. Persons of either sex easily earn from 50 cents to $5.00 per evening, and a proportional sum by devoting all their time to the business. Boys and girls earn nearly as much as men. That all who see this may send their address, and test the business, we make this offer. To such as are not well satisfied we will send one dollar to pay for the trouble of writing. Full particulars and outfit free. Address GEORGE STINSON & Co., Portland, Maine.

BOTTLES OF

Warner's SAFE Cure

Sold, to Dec. 27, 1886.

No Other Remedy in the World Can Produce Such a Record.

This wonderful success of "Warner's SAFE Cure" is due wholly to the real merit of the Remedy. For a long time it has been *REGARDED BY THE HIGHEST MEDICAL AUTHORITIES AS THE ONLY SPECIFIC FOR KIDNEY, LIVER AND URINARY DISEASES AND FEMALE COMPLAINTS.*

Thousands of people owe their life and health to "Warner's SAFE Cure" and we can produce *100,000 TESTIMONIALS* to that effect.

Read the following and note the large number of bottles distributed. We guarantee these figures to be correct, as our sales-books will prove.

Boston, - - 1,149,122.

CAPT. W. D. ROBINSON (U. S. Marine Insp., Buffalo, N. Y.), in 1885 was suffering with a *skin humor like leprosy.* Could not sleep; was in great *agony.* For two years tried everything, without benefit. Was pronounced *incurable.* "Twenty bottles of Warner's SAFE Cure *completely cured me,* and to-day I am strong and well." (Feb. 5, 1885.)

Providence, - - 171,929.

EX-GOV. T. G. ALVORD (Syracuse, N. Y.) in 1884 began *running down* with *General Debility,* accompanied with a sense of weight in the lower part of the body, with a feverish sensation and a general giving out of the whole organism. Was in *serious condition,* confined to his bed much of the time. After a thorough treatment with Warner's SAFE Cure he says: "I am *completely restored to health* by its means."

Portland, Me., - - 441,105.

MAJOR S. B. ABBOTT (Springfield, Mo.), in 1871 was afflicted with *lame back, Rheumatism and Kidney trouble.* Consulted the very best physicians in San Francisco, and visited all the mineral springs there. Took a health trip to the New England States, but for seven years *suffered constantly* from his malady, which had resulted in *Bright's disease.* After using a couple dozen bottles of Warner's SAFE Cure, and two of SAFE *Pills,* he wrote: "My back and kidneys are *without pain,* and, thank God, I owe it all to Warner's SAFE Remedies."

Bal. of New Eng., - 441,753.

MRS. J. T. RITCHEY (562 4th Ave., Louisville, Ky.) was a confirmed *invalid for eleven years,* just living, and hourly *expecting death.* Was confined to bed ten months each year. Was attended by the *best physicians.* Her left side was *paralyzed.* Could neither eat, sleep, nor enjoy life. The doctors said she was troubled with *female complaints;* but she was satisfied her kidneys were affected. Under the operation of Warner's SAFE Cure she passed a *large stone* or calculus, and in Nov., 1885, reported, "Am to-day *as well as when a girl.*"

Pennsylvania, - 1,824,218.

F. MAYER, (1020 N. 12th St., St. Louis, Mo.) afflicted with *tired feelings,* dizziness and pain across the back, and lost appetite. Was sallow and care-worn all the time. The doctors failing he began the use of Warner's SAFE Cure, and reports, "*I feel like a fighting cock.*"

Chicago, - - 2,808,693.

MR. R. BROWN (2221 Woodward Ave., Detroit, Mich.) injured his back from a *fall.* Was confined to his bed six weeks. The fall injured his *kidneys,* producing intense suffering. Warner's SAFE Cure *restored his kidneys* to their natural condition, and he writes, "I am now eighty years of age, *smart and active.*"

Detroit, - - 846,964.

MRS. THOS. SCHMIDT (Wife of the Vice-Consul of Denmark, 69 Wall St., New York) reported that her little son after an attack of *Diphtheritic Sore Throat* eight years ago, was afflicted with Bright's Disease in advanced form; by the advice of Gen'l. Christiansen, of Drexel, Morgan & Co., Bankers, New York, she prescribed Warner's SAFE Cure, with the consent of the physicians, and reports, "the physicians say that he will *be perfectly well.*"

Milwaukee, - - 458,894.

MISS Z. L. BOARDMAN (Quechee, Vt., in May, 1882, began to *bloat,* thence came *stomach trouble,* terrible *headaches,* and finally the doctor's opinion that it was *Bright's disease,* and *incurable.* Eventually she became nearly *blind,* pronounced by the doctors to be the *last stage* of Bright's disease. After having been under treatment by Warner's SAFE Cure for *one year,* she reported, "*I am as well as anyone.*"

Minnesota, - - 643,017.

HON. N. A. PLYMPTON (Worcester, Mass.), in May, 1880, was prostrated by *Gravel.* Under the operation of Warner's SAFE Cure alone he *passed a large stone,* and subsequently wrote, "I have had *no recurrence* of my trouble since Warner's SAFE Cure *cured me.*"

New York State, - 3,870,773. **Bal. N. W. States, - 1,767,149.**

Cleveland, - - 682,632.

EX-GOV. R. T. JACOB (Westport, Ky.) was prostrated with severe *Kidney trouble* and lost forty pounds of flesh. After a thorough treatment with Warner's SAFE Cure he reports, "I have *never enjoyed better health.*"

Cincinnati, - - 873,667.

GEN. H. D. WALLEN (144 Madison Ave., New York), *scarcely able to walk* two blocks without exhaustion, and, having lost flesh heavily, began the use of Warner's SAFE Cure and says: "I was *much benefited* by it."

Bal. Ohio, [State,] - 633,158.

COL. JOSEPH H. THORNTON (Cincinnati, O.) in 1885 reported that his daughter was very much prostrated; had *palpitation of the heart,* intense *pain in the head,* nervous disorder and *catarrh of the bladder.* She lost fifty-five pounds. Other remedies failing, they began the use of Warner's SAFE Cure, SAFE *Pills* and SAFE *Nervine,* and within three months she had gained fifty pounds in weight and was *restored to good health.* That was three years ago, and she is still in as *good* health as ever in her life. Col. Thornton, himself, was cured of *chronic diarrhœa* of eighteen years' standing, in 1881, by Warner's SAFE Cure.

Southern States, - 3,534,017

C. H. ALLEN (Leavenworth, Kan.), son Edwin, two years of age, afflicted with *extreme case of bright's disease,* and the doctors *gave him up.* By the advice of the doctor's wife, began the use of Warner's SAFE Cure, and after taking seven bottles he is *perfectly well* and has had no relapse.

MRS. (PROF.) E. J. WOLF (Gettysburg, Pa., Wife of the Ed. of the Lutheran *Quarterly*), began to decline with Pulmonary Consumption. (Over 50 per cent. of all cases of Consumption are caused by diseased kidneys.) *Despaired of living.* After a thorough course of treatment with Warner's SAFE Cure, she writes, "*I am perfectly well.*"

Bal. S. W. States, - 746,789.

EX-SENATOR B. K. BRUCE (South Carolina), after doctoring for years for what he supposed was *Malaria,* discovered he was afflicted with *Sugar Diabetes,* and having obtained no relief whatever from his physicians, he began the use of Warner's SAFE *Diabetes* Cure, and he says: "*My friends* are astonished at my improvement."

San Francisco, - 1,242,946.

J. Q. ELKINS (Elkinsville, N. C.) suffered for ten years from *Gravel,* which attacked him *every six months.* He lost 45 pounds in three months, and his strength was *nearly gone.* After thorough use of Warner's SAFE *Diabetes* Cure, he reports, "I am *as well as I ever was,* after using fourteen bottles."

S.S.S.

About twenty years ago I discovered a little sore on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians, but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.
