## BOARD OF AUDIT MAKES FINAL REPORT.

A Document Which Will Be Read With  
Interest by Water Shareholders

ANAHEIM, March 2, 1901.  
To the Board of Directors of the Anaheim Union Water Co.—Gentlemen: In our attempt to comply with your request, as per motion passed by you at your meeting of Feb. 9, 1901, we have been met with a very unforeseen and perplexing state of affairs, as concerns the books, papers and vouchers of the Secretary's office.

All janitors' daily reports of delivery of water to consumers, prior to Jan. 1, 1900, have disappeared, as have also all stubs of water-rate receipts and stubs of assessment receipts, prior to Jan. 1, 1901, and cancelled certificates of stock for the transfers for the past year or more, thus rendering certain investigations which we desire to make to a certain extent impossible. A great portion of our time has been taken up with search for said papers, thus making our report less complete and satisfactory than we could desire. We have, however, compiled from the result of our investigations to date the following report, which we beg leave to present:

We have examined and checked up all vouchers and warrants from Jan. 1, 1901, to Feb. 1, 1901, and find them correct; also Treasurer's account, finding balance of same to correspond with ledger balance of the company, taking into consideration warrants issued, outstanding and unpaid.

A summary of said business from Jan. 1, 1901, to Feb. 9, 1901, is as follows:

1901.  
Jan. 1, balance on hand, \$10,974 00  
Treasurer's account, \$10,974 00  
Cash Secretary, 150-975 59  
Cash (consumers) deposited, 664 50  
Cash (construction) received, 100 00  
Cash repairs, 30 85  
Total, \$12,344 89  
Excess of payments over receipts, \$12,344 89  
Balance per his book, \$12,344 89  
Warrants outstanding and unpaid, \$12,344 89  
Total, \$12,344 89

In reviewing the report of the expert, E. W. Hahn, as submitted for the year ending Dec. 31, 1900, we take exception to same as being incorrect in many respects, as proved by our investigations thus far, which are incomplete and not satisfactory to ourselves. From the result of errors and corrections thus far discovered by us, we would offer a trial balance from the books of the company as follows:

See trial balance attached.  
A further intelligible report is impossible with our limited time.  
In conclusion, would say that we have investigated the amount claimed by the expert as due consumers, namely, \$243,444, and by correction of errors have reduced same as appears on general ledger to \$503,311.

A careful balance sheet as drawn from consumers' ledger shows the following results:

Due to consumers, \$1,125 35  
Due from consumers, 753 83  
Net balance due consumers, \$371 52

A comparison of our trial balance with that of the expert will show a difference in bills payable of \$50; the result of overpayment of note of Theo. Flotow, No. 24, which amount we have charged to W. H. Blennerhassett.

Our investigation thus far results in charges to account of W. H. Blennerhassett as follows:

To bills payable, Flotow, \$50 00  
To assessment, 1900, 10 00  
To assessment, 1899, W. F. Botsford, 1898, 10 00  
To assessment, 10 shares, W. F. Botsford, 1899, 25 00  
To assessment, stock sold Dec. 1899, 25 00  
To account of Wm. Crumley, 4 25  
To account of L. D. Blomstrom, 6 50  
To delinquent costs, 1898, 17 50  
To delinquent costs, 1900, 18 50  
Total, \$226 75

Our report is necessarily incomplete and unsatisfactory to us, and we beg further extension of time to complete our labors. Respectfully submitted,

ALEX. WRIGHT,  
E. R. AMERIGO,  
M. NEBELUNG,  
Board of Audit.

ANAHEIM, Cal., March 16, 1901.  
To the Board of Directors of the Anaheim Union Water company, Gentlemen: We beg leave to make the following additional report:

In compliance with your request, we

made a written demand on Mr. W. H. Blennerhassett, dated March 4th, 1901, to produce certain missing stubs and papers; his answer was that he could not produce them, that he had probably destroyed them, with the exception of the missing certificates of stock. We have, however, continued our investigations, the results being the discovery of a large number of errors and inaccuracies.

After the correction of said errors and the re-apportionment of several accounts, we offer the following balance sheet for December 31st, 1900. (See balance sheet attached.) And also the following statement of cash receipts and expenditures.

Balance Sheet.  
Delinquent stock purchased, \$204 00  
Real estate, 69,332 61

Attorneys, 500 00  
Litigation, unapportioned, 726 78  
Durkee joint management, 500 00  
Accounts payable, 3,631 23  
Roll, interest, etc., due Dec. 31, 1899, 2,188 66  
Bixby litigation, 100 00  
Fuller litigation, 50 00  
Jurupa litigation, 1,250 00  
Durkee litigation, 123 00  
Cash returned consumers, 52 95  
W. H. Blennerhassett, 2 25  
Total, \$56,516 87

Less accounts payable, Dec. 31, 1900, payroll, interest and salaries, etc., due and unpaid, 3,631 23  
Total, \$52,885 64

Cash Treasurer, Dec. 31, 1900, 10,974 09  
Cash Secretary, Dec. 31, 1900, 1 50  
Total, \$10,975 59

From the foregoing statement the following conclusions may be drawn:

Consumers for water, \$24,587 29  
Rents, 1,226 00  
Total, \$25,813 29  
Superintendent and janitors, 5,088 36  
Cleaning, 5,501 07  
Repairs, 1,642 29  
General expenses, 1,156 84  
Tools, 12,715 06  
Total, \$22,103 52

Interest paid, \$12,715 06  
Excess of interest, 1,845 81  
Total, \$12,715 06

Leaving this excess of interest, the cash on real estate, construction, litigation, etc., to be met by an assessment of \$19,960 and an increase of loans of \$4200.

The increase in amount of funds on hand and the amounts received from the sale of Treasury stock accounting for the balance.

As before stated, we have attempted to remedy some faulty bookkeeping by re-apportionment of certain accounts, for instance: the \$3000, as appears in the Expert's balance as Durkee Expense Credit, we have transferred to an account called the Durkee and "B." Ranch joint management to the debtor of which account we have transferred a

balance of \$3000.

Another instance is that of the Santa Ana Valley Irrigation company joint account. Expert report shows a credit balance of \$309.18. After proper apportionment by transferring certain amounts to an account called Litigation Account (unapportioned) said Santa Ana Valley Irrigation company joint account shows a credit balance of \$205.96, which is the true balance of excess of payment by the Santa Ana Valley Irrigation company as far as proper notice has been served upon this company, but we have been informed that a payment which has been made by them previous to Dec. 31st, 1900, of \$1000 on the Equity Right Way purchase and small payments amounting to \$22.50 will increase said balance as soon as proper vouchers have been furnished this company, and properly acted upon.

On investigation we find an agreement with the Union Trust company, San Francisco, for release of an annual payment of \$4000 and also an agreement with Daniel Durkee to the joint companies for rebate of 3 per cent of the 8 per cent interest on mortgage notes held by him, neither of which contracts have been duly acknowledged or recorded, and we call your attention to that fact. We find that by oversight of the joint committee proper advantage was not taken of said rebate on the Durkee matter, whereby the semi-annual payment, January 23rd, 1901, should have been reduced to \$350 for each company instead of the payment made, namely \$1400.

A further examination of Consumers' Ledger has resulted in the discovery of about 200 errors. Our final balance sheet from said Consumers' Ledger shows as follows Dec. 31, 1900:

Due consumers, \$1167 30  
Due from consumers, 845 43  
Total, \$201 87

Net balance due to consumers \$21 87.

There remained a small difference between this balance of Consumers' Ledger and balance of Consumers' Account in general ledger, which we have charged to Loss and Gain to reconcile the two accounts.

Our recent investigations have resulted in reducing the amount charged to Mr. Blennerhassett's account from \$286.75 to \$241.75.

One result of our investigations has been the discovery of two errors resulting in overpayment to the Santa Ana Valley Irrigation company of \$55.25 in settlement of joint repairs of division gate.

These errors are not chargeable to the ex-Secretary.

We have requested the Secretary to open a Supplies account, to which will be charged all purchases of cement and material and to which shall be credited all sales of cement, etc., and amounts used in construction and repairs.

We have given no statement of Loss and Gain, as we do not approve of the past practice of crediting assessments to Loss and Gain, which, in our opinion, renders the present Ledger balance technically erroneous.

We would call your attention to the lack of proper care and inspection of the joint accounts of the two companies, the vouchers and accounts rendered showing lack of necessary approval by joint Boards of Directors, and designation of purpose for which bills were incurred. (See agreement on file.)

Would say in conclusion, there are two matters which have come to our notice, and upon which we have been unable to render a decision, namely: Owing to a very lax system of payment of Directors up to within a few months, there appears to have been an overpayment to certain Directors in April, 1900, of \$9.00; to whom chargeable, is in our opinion an open question.

The other matter is a small discrepancy in collection of stock transfer fees by the Secretary. Respectfully submitted,

ALEX. WRIGHT,  
E. R. AMERIGO,  
M. NEBELUNG,  
Board of Audit.

## A Rare Treat.

A rare treat is in store for all who will attend the entertainment to be given by the Turner Sisterhood on Sunday, April 7th. In addition to the production of the comic opera "Die Witte Ton!" a select musical program will be rendered under the direction of Prof. Ludwig Thomas. The singing section of the Anaheim Turnverein will sing several choruses, Mr. James W. Rice of Tustin will play a cello solo and Prof. Balize of Santa Ana will play a mandolin solo. From present indications it appears that the hall will be crowded.

## Sugar Beets.

J. Gustafson, one of the successful beet-growers of Los Alamitos, was in town on Monday and reported the crop of beets growing nicely. He has planted 170 acres, has an excellent stand and is now engaged in thinning. Eight thousand acres of beets have been planted in his section, every acre of which looks well. Three thousand acres additional will be planted, making an area of 11,000 acres to supply the Los Alamitos sugar mill.

Relative to the building of the spur of the Salt Lake railway from Bixby to Santa Ana, Mr. Gustafson says Mr. Merrill B. Bixby has made the statement that the spur would be built and cars running in time to haul this season's beets to the factory.

## Union Services.

The Methodist will unite with the Christians at the Christian church on Sunday evening for union services. Singers of each church are requested to be present promptly at 7:30 for union church choir.

Rev. Pratt will preach on "The Value of an Education." Young people especially invited.

## Military Opening.

Mrs. Vinson will have an Easter display of stylish hats on Wednesday, April 3rd, in the Metz building, nearly opposite the postoffice, in Anaheim, Cal. The ladies are cordially invited to call and inspect the same.

You want your roof fixed, repaired or painted; see C. A. Streible, Anaheim. All work guaranteed. feb25-1

## ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

ANAHEIM, Cal., March 16, 1901.

To the Board of Directors of the Anaheim Union Water company, Gentlemen: We beg leave to make the following additional report:

In compliance with your request, we

## FARMERS' CLUB PICNIC AT SANTIAGO CANYON.

Thursday, April 18th, the Time-Fullerton Farmers' Club to be Invited to Join in the Festivities.

The Farmers' Club met at the residence of Mr. Korn on Monday afternoon.

Mr. Huntington submitted a communication from H. H. Holmes, Horticultural Commissioner of Corona, relative to the matter of a new method of daylight fumigation said to be successfully practiced by him. Mr. Holmes characterized the newspaper story concerning the matter as "an invention of the editor," and added that while he had practiced daylight fumigation, the most of his work is done at night. They have too much wind at Corona in day time, and there is but a small portion of the time in which fumigation can be practiced, as no work can be done when there is a breeze.

He had scorched some of the new and tender growth, but apprehended no bad results therefrom. He had fumigated in the middle of the day, when the sun was scorching hot. He left the tents on 40 minutes and used these cyanide fumigators had asked him why he did not do all his fumigating by daylight, but this was impossible on account of the wind.

Mr. Huntington corroborated the remarks of the Corona man, saying it was impossible to fumigate when the wind blows, and we have had breezes here every afternoon. The wind makes it impossible to properly apply the tents to the trees, and thus the men have to be laid off—sometimes for an hour, sometimes for three or four.

This breaks up their day, and they naturally object to so much waiting to that fact. We find that by oversight of the joint committee proper advantage was not taken of said rebate on the Durkee matter, whereby the semi-annual payment, January 23rd, 1901, should have been reduced to \$350 for each company instead of the payment made, namely \$1400.

A further examination of Consumers' Ledger has resulted in the discovery of about 200 errors. Our final balance sheet from said Consumers' Ledger shows as follows Dec. 31, 1900:

Due consumers, \$1167 30  
Due from consumers, 845 43  
Total, \$201 87

Net balance due to consumers \$21 87.

There remained a small difference between this balance of Consumers' Ledger and balance of Consumers' Account in general ledger, which we have charged to Loss and Gain to reconcile the two accounts.

Our recent investigations have resulted in reducing the amount charged to Mr. Blennerhassett's account from \$286.75 to \$241.75.

One result of our investigations has been the discovery of two errors resulting in overpayment to the Santa Ana Valley Irrigation company of \$55.25 in settlement of joint repairs of division gate.

These errors are not chargeable to the ex-Secretary.

We have requested the Secretary to open a Supplies account, to which will be charged all purchases of cement and material and to which shall be credited all sales of cement, etc., and amounts used in construction and repairs.

We have given no statement of Loss and Gain, as we do not approve of the past practice of crediting assessments to Loss and Gain, which, in our opinion, renders the present Ledger balance technically erroneous.

We would call your attention to the lack of proper care and inspection of the joint accounts of the two companies, the vouchers and accounts rendered showing lack of necessary approval by joint Boards of Directors, and designation of purpose for which bills were incurred. (See agreement on file.)

Would say in conclusion, there are two matters which have come to our notice, and upon which we have been unable to render a decision, namely: Owing to a very lax system of payment of Directors up to within a few months, there appears to have been an overpayment to certain Directors in April, 1900, of \$9.00; to whom chargeable, is in our opinion an open question.

The other matter is a small discrepancy in collection of stock transfer fees by the Secretary. Respectfully submitted,

ALEX. WRIGHT,  
E. R. AMERIGO,  
M. NEBELUNG,  
Board of Audit.

## WE HAVE A BUILDING BOOM.

Work Begins upon Hahn's Livery Stable. Mercersburg Residence and Other Structures.

Workmen are at work laying an asphaltum flooring for Hahn's new livery building on Los Angeles street. The Kuebler Bros. have the contract, and have had a force of men during the week laying off and leveling the ground preparatory to laying the cement, which will begin today. The floor space will be over 5000 feet, the building being 46x122. A shed annex 12x60 will be also constructed.

The brick and concrete foundation for the building has been laid by C. Schindler.

Contractors McWilliams and Dunn will begin to lay a force of carpenters upon the erection of the building next week.

Ground has been broken for Mercersburg residence, on Philadelphia street. Moacham of Orange has the contract.

Fritz Ruhman is erecting a building on Los Angeles street, north of Charney, which will be used by C. M. Albrecht as a boot and shoe shop. Henry Albrecht has the contract, and lumber is already on the ground.

The erection of the new \$12,000 high school building will add a conspicuous ornament to the architecture of the city.

The building of an office for the water company has been discussed during the week, and liberal offers will be made the company by citizens who will assist in the enterprise.

Mr. Barbocka's new brick block, as well as Mr. Speed's new block, which he now has under consideration, will also add to the appearance of Center street.

Anaheim is having a building boom of its own, along with the other progressive towns of Southern California.

## FARMERS' CLUB PICNIC AT SANTIAGO CANYON.

Thursday, April 18th, the Time-Fullerton Farmers' Club to be Invited to Join in the Festivities.

The Farmers' Club met at the residence of Mr. Korn on Monday afternoon.

Mr. Huntington submitted a communication from H. H. Holmes, Horticultural Commissioner of Corona, relative to the matter of a new method of daylight fumigation said to be successfully practiced by him. Mr. Holmes characterized the newspaper story concerning the matter as "an invention of the editor," and added that while he had practiced daylight fumigation, the most of his work is done at night. They have too much wind at Corona in day time, and there is but a small portion of the time in which fumigation can be practiced, as no work can be done when there is a breeze.

He had scorched some of the new and tender growth, but apprehended no bad results therefrom. He had fumigated in the middle of the day, when the sun was scorching hot. He left the tents on 40 minutes and used these cyanide fumigators had asked him why he did not do all his fumigating by daylight, but this was impossible on account of the wind.

Mr. Huntington corroborated the remarks of the Corona man, saying it was impossible to fumigate when the wind blows, and we have had breezes here every afternoon. The wind makes it impossible to properly apply the tents to the trees, and thus the men have to be laid off—sometimes for an hour, sometimes for three or four.

This breaks up their day, and they naturally object to so much waiting to that fact. We find that by oversight of the joint committee proper advantage was not taken of said rebate on the Durkee matter, whereby the semi-annual payment, January 23rd, 1901, should have been reduced to \$350 for each company instead of the payment made, namely \$1400.

A further examination of Consumers' Ledger has resulted in the discovery of about 200 errors. Our final balance sheet from said Consumers' Ledger shows as follows Dec. 31, 1900:

Due consumers, \$1167 30  
Due from consumers, 845 43  
Total, \$201 87

Net balance due to consumers \$21 87.

There remained a small difference between this balance of Consumers' Ledger and balance of Consumers' Account in general ledger, which we have charged to Loss and Gain to reconcile the two accounts.

Our recent investigations have resulted in reducing the amount charged to Mr. Blennerhassett's account from \$286.75 to \$241.75.

One result of our investigations has been the discovery of two errors resulting in overpayment to the Santa Ana Valley Irrigation company of \$55.25 in settlement of joint repairs of division gate.

These errors are not chargeable to the ex-Secretary.

We have requested the Secretary to open a Supplies account, to which will be charged all purchases of cement and material and to which shall be credited all sales of cement, etc., and amounts used in construction and repairs.

We have given no statement of Loss and Gain, as we do not approve of the past practice of crediting assessments to Loss and Gain, which, in our opinion, renders the present Ledger balance technically erroneous.

We would call your attention to the lack of proper care and inspection of the joint accounts of the two companies, the vouchers and accounts rendered showing lack of necessary approval by joint Boards of Directors, and designation of purpose for which bills were incurred. (See agreement on file.)

Would say in conclusion, there are two matters which have come to our notice, and upon which we have been unable to render a decision, namely: Owing to a very lax system of payment of Directors up to within a few months, there appears to have been an overpayment to certain Directors in April, 1900, of \$9.00; to whom chargeable, is in our opinion an open question.

The other matter is a small discrepancy in collection of stock transfer fees by the Secretary. Respectfully submitted,

ALEX. WRIGHT,  
E. R. AMERIGO,  
M. NEBELUNG,  
Board of Audit.

## WE HAVE A BUILDING BOOM.

Work Begins upon Hahn's Livery Stable. Mercersburg Residence and Other Structures.

Workmen are at work laying an asphaltum flooring for Hahn's new livery building on Los Angeles street. The Kuebler Bros. have the contract, and have had a force of men during the week laying off and leveling the ground preparatory to laying the cement, which will begin today. The floor space will be over 5000 feet, the building being 46x122. A shed annex 12x60 will be also constructed.

The brick and concrete foundation for the building has been laid by C. Schindler.

Contractors McWilliams and Dunn will begin to lay a force of carpenters upon the erection of the building next week.

Ground has been broken for Mercersburg residence, on Philadelphia street. Moacham of Orange has the contract.

Fritz Ruhman is erecting a building on Los Angeles street, north of Charney, which will be used by C. M. Albrecht as a boot and shoe shop. Henry Albrecht has the contract, and lumber is already on the ground.

The erection of the new \$12,000 high school building will add a conspicuous ornament to the architecture of the city.

The building of an office for the water company has been discussed during the week, and liberal offers will be made the company by citizens who will assist in the enterprise.

Mr. Barbocka's new brick block, as well as Mr. Speed's new block, which he now has under consideration, will also add to the appearance of Center street.

Anaheim is having a building boom of its own, along with the other progressive towns of Southern California.

## FIELD DAY EXERCISES FOR THIS CITY.

Orange County High School League Making Arrangements to Have Its Meet Here in May.

The City Fathers held a short session on Tuesday evening. There were present Trustees Helmsen, Dickel, Schneider and Weisel.

Mr. Athearn of the high school appeared before the board and asked for free lights for the public library. He said a very comfortable room is being fitted up in the Metz block, and it was the intention at some time in the future to turn the library over to the city.

The request was on motion of Dickel, seconded by Schneider, granted.

Mr. Athearn also said the Orange County High School League was arranging to hold its first field-day exercises some time in May, and so far as he knew were desirous of meeting in Anaheim. The league is composed of the Fullerton, Santa Ana and Anaheim high schools. The track events will embrace a mile run, half-mile run, broad jump, high jump, pole vaulting, putting the shot, throwing the hammer and other exercises, and each will be competed for by teams from the different schools. He suggested that if the Trustees would signify their willingness to give the league the use of one of the city streets for a meeting place, he would be glad to have the league hold its exercises here, the league would probably accept.
