Slow Barcelona—Slower Madrid.

Barcelona is a great trading port, about on a level with Marseilles. It has grown very much within recent years. The Barcelonese consider themselves a model to all Spain in the matter of industry and in common sense, yet in this town, which is really a handsome place and rich, the road telegraph office is in the suburbs; there is only one branch office in town, and messages have to be sent from that by hand. The postoffice is well away from the port in a by-street. If you are there on business, you will find as likely as not that one clerk is in attendance out of an immense staff. He will probably be very polite, but he will put his hand to a pen or a bundle of letters as if he feared they would burn, and Barcelona is a model of smartness compared with Madrid.

One wonders what would happen to the dawdling officials one sees at these places if they were transported by some malignant fairy to St. Martin's-le-Grand. Madness would probably be their fate if they made an effort to meet the call. But then they would not. The hurry and drive would simply revolt their sense of what was due to a gentleman.—Pall Mall Magazine.

Mrs. Cleveland's Courtesy.

The following pretty story is told of Mrs. Grover Cleveland: At one of the public receptions given at the White House an old lady who was drawn up in the line that was pushing its way forward to shake hands with the president's wife dropped her handkerchief just before getting to Mrs. Cleveland. She was too old and rheumatic to stoop down and recover it, and those back of her in the line were too intent upon getting the one fleeting glimpse possible of the mistress of the White House to notice the old lady's loss, and the handkerchief was trampled upon roughly.

Just before the old lady reached her Mrs. Cleveland stepped out of her place and deftly picked up the handkerchief, tucked it in her dress and, taking her own fresh one, which was of the most delicate, dainty lace, smilingly handed it to the old lady with the sweet remark, "Please take mine, and when you get home send it back to me, will you?" And when the handkerchief came back to her Mrs. Cleveland returned that of the owner, freshly laundered, lying on the top of a beautiful box of rosebuds that came from the White House conservatory.

An Accommodating Neighbor.

Not long back Mr. X. moved into a new house, which had not before been occupied. The bell wires were rather stiff, and in consequence the bells gave no uncertain sound. This was particularly the case with the doorbell, whose clangor disturbed the whole house.

Mr. X. is a man of sensitive nerves. The tremendous jangle of the doorbell made him shudder, so he wrote in chalk above the handle of the doorpost, "Pull gently."

About 9 that evening there was a violent ringing. Somebody tugged at the bell as if he were going to pull it out by the roots. The noise was terrific. X. himself ran to the door in a rage and found his friend Z.

"What the dickens do you mean by ringing that way?" exclaimed X. indignantly. "Don't you see what's written there?"

"Yes," answered Z, "I do see—that's why I pulled so hard."

X. looked at the writing and saw, "Pull ungently." A passing wag had added the "un." X. has now muffled the bell.—London Telegraph.

Knowledge.

Yeast—That boy of Sharpley's is a bright boy, isn't he?

Crimsonbeak—Yes, but he'll know more when he forgets a lot that he thinks he knows now.—Yonkers Statesman.

Favorite Saloon.

Finest of Wines, Liquors & Cigars

Pool & Billiard Tables

Schindler's Building, Center St., Anaheim

LOS ANGELES BEER ON DRAUGHT.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Editorial Note and Comment

THE owners of fruit canneries throughout the state are seriously concerned over the strike at the local factories of the American Can company, as the walkout on Monday of 1500 employes of the company tied up the local output of fruit cans.

A number of the canneries have only a limited supply of cans on hand, and unless the business of making cans is resumed it is believed that several fruit canneries of Central California will be forced to shut down.

Two firms, the Coast Metal Works and the United Can company have conceded the demands of the unions and their employes about one hundred in all are at work.

Of the 1400 striking employes of the American Can company about 240 are women, 200 are boys and the remainder are men.

The union has referred the matter of arbitration to a conference committee.

A PRIVATE telegram from Belgrade, Servia, states that the army this week proclaimed Peter Karageorgevitch King of Servia. The troops immediately surrounded the Konack and forced their way into the royal palace, where they assassinated King Alexander and Queen Draga.

It is rumored that all of King Alexander's ministers also were murdered. This is stated to have occurred between the hours of 12 and 1 o'clock in the morning.

IT IS estimated that there will be a falling off of 50 per cent in the number of damage suits against the corporations in San Francisco, because of a recent change in the court procedure made by the superior judges, whereby the defeated party, in cases where the verdict does not exceed $300, is required to pay the costs of trial, immediately upon its conclusion.

It frequently happened under the old system, particularly in damage suits against the railroads, that whenever the defendant won the case, the judgment for costs could not be collected from the plaintiff, because he had no property.

Under the new order of things people, even with meritorious causes of action, will hesitate more than formerly, to venture into litigation. There can be no more speculation in damage suits without the risk of expense.

BIRDIE N. MCCARTHY, aged thirty-two, and a school teacher by profession, was last week granted damages of $22,500 against James Heryford, a wealthy cattleman of Central Oregon, because he failed marry her. Judge Bellinger of the United States court intimated that the verdict was excessive.

Birdie came to Oregon from Wayne, Michigan, and commenced teaching school at Lake View where Heryford lives. They met, fell in love, and arrangements were made for the wedding. So far, their story agrees. She went home to Michigan to prepare a trousseau, and claims she received a letter from Heryford in which he said he would not marry her.

Heryford's defense was that Birdie wanted to live half a year in Michigan after she was married, and to this he would not agree. On trial, the plaintiff exhibited a number of letters in which the defendant displayed his affection for her. The cattleman is reputed to be worth $250,000.

PRESIDENT ROOSEVELT has returned to Washington and cannot but feel flattered at the warmth of the tremendous ovation accorded him in the West and on the Pacific Coast while on his journey through them. That the president is a popular idol among us all, here in the West as well as on the Atlantic seaboard admits of no particle of doubt. The dispatches bring to us the ringing words of Senator Wilson who is himself held in very high esteem in the West and who accompanied the president during a portion of his journey which we have pleasure in reproducing,

"During my trip through the Western states," said Secretary Wilson, "I took occasion to investigate the political situation thoroughly. I had excellent opportunity to test the real feeling of the country, and the result of my personal investigation along these lines is the conclusion that the people of the West are overwhelmingly for Roosevelt.

"What are the reasons the western people give? They like the manly way in which he has handled public questions during his admiuistration. They like the attitude he takes in enforcing the law for and against the rich citizen and the poor citizen alike. The people are alarmed at the movements of great combinations of capital. President Roosevelt has enforced the law as he got the decision in favor of the government in the famous railroad merger case.

"The people are pleased that he stopped the great distress in so many families occasioned by the coal strike. They approve entirely of his policy of conserving the peace through the maintenance of a strong navy. They are heartily in accord with the 'open door' policy for the Orient. These are some of the reasons that the western people give you for being so enthusiastic for Roosevelt for their next president."

RECENTLY the war department announced the provisional apportionment of the states and territories of 50 per cent of the $2,000,000 appropriated by the act for arming and supplying the melitia to correspond with the regular army. Western states received the following apportionments:

California, $30,314; Colorado, $8,842; Idaho, $8,874; Montana, $4,021; Nevada, $1,133; Oregon, $11,135; Utah, $3,727; Washington, $7,509; Wyoming, $3,928; Arizona, $2,660; New Mexico, $6,417; Hawaii, $4,569. Ten thousand dollars was assigned arbitrarily to Puerto Rico and deducted from the appropriation of $2,000,000.

E. H. HARRIMAN has closed a contract with the United States Steel Corporation for 100,000 tons of steel rails, which it is understood, will be used by the Union Pacific and Southern Pacific.

The rails were purchased on the current year's price basis, $28 a ton. The contract represents an outlay of something like $2,800,000. This is the first order placed by the railroad for rails calling for delivery next year, but it is likely to be followed by others within the next few weeks.

The news that the books of the steel-rail mills are now open for business for 1904 will cause some surprise, as the general impression has prevailed that some time would elapse before the big combine would fix next year's prices for rails.

Close business associates of Harriman practically admitted that a large order for steel rails had been placed, or was about to be placed, with the United States Steel Corporation. The fact that the railroads are already in the field for equipment for next year and are satisfied with prevailing prices means considerable to the steel trade, as well as to the railroads. It shows that the railroad managements believe a continuance of the prosperity that the country is now enjoying is assured; that the crop outlook is satisfactory, and it will be safe for them to go ahead and prepare for their requirements for next year.

A DECISION of great importance to lawyers, divorce litigants and the the public generally was rendered by Judge Rhodes in the superior court of Santa Clara county. According to the decree of the court the new divorce law is declared void and ineffective, and is completely wiped out.

The case is question was the suit of Ignacio Munoz against Rosa Munoz, and the plaintiff was granted an absolute divorce upon the ground of desertion. This is in accordance with the old law, Judge Rhodes igoring the statute passed by the last legislature, by which the court is allowed to enter an interlocutory decree, and which requires the parties to wait an additional year for a final separation. In reudering judgment, Judge Rhodes intimated that he will, as soon as practicable, prepare an file and elaborate opinion in this case.

THE postoffice department has completed the work of adjusting the salaries of presidential postmasters on the basis of the business transacted during the last fiscal year. The results show that seventy-two postoffices in California have transacted such an increase of business as to justify a raise in salaries, while seven offices have had salaries reduced.

Fifty-nine postmasters get an increase of $100 each, seven get $200 each, three $300, one $400 and one $500. South Pasadena secured the largest increase of any postoffice in California, and Eastland was next. The total of increases was $9100 and of decreases $1000. This a good showing, when compared with other states.

June 4th and 5th, June 24th to 30th, July 15th and 16th and August 25th and 26th the Southern Pacific Co. will sell round-trip tickets to principal Eastern cities for a single 30-day first-class fare. Return limit 90 days from date of sale.

July 6th to 10th to Boston, Mass., 60-day round-trip, $93.50, account N. E. A.

July 7th to 16th to Saratoga Springs, N. J., account Mystic Shrine, $89-95. Return limit 60 days from date of sale. Call at Southern Pacific ticket office for details. ma29-4t

IMPENDING DESTRUCTION OF THE FORESTS

Inferior Woods to Replace Those of the White Oak and Other Species.

[CONTRIBUTED TO THE GAZETTE.]

WASHINGTON, D. C., June 4, 1903.

The rapid disappearance of the best American timbers has developed a new method of economy, which is, in brief, that inferior timbers shall be pressed into service and by proper seasoning and preserving be made to take the place of those more valuable.

The idea is the inevitable outcome of wasteful cutting, long continued, which has culled the forests of their best trees, so that industries requiring high-grade woods at a low cost are less and less able to obtain supplies at a price which they can afford to pay. White oak, for example, was for many years practically the only wood used for railroad ties. So abundant and cheap was this timber that it never occurred to the railroads it would not always continue to be abundant and cheap. Ties were laid without seasoning two days after they had been hewn, or were left to lie and decay in ditches of water before they were put in the track. But conditions have changed; white oak for ties, fence posts, piles and other common purposes can not be used to the same extent as formerly, and its place has largely been taken by inferior woods.

It is not enough that forestry on a large scale replace the present wasteful methods of cutting, since forestry can not make up immediately for what has been lost. It is essential, while administering wisely to forests which still remain, that the timbers cut be now placed to their highest use; that a good timber be put only to a high-grade purpose, and that a poor timber be substituted for a good timber whenever it will do the work required.

This kind of forest economy the Bureau of Forestry, having in mind the increasing demand for good timbers and the diminishing forest resources, has persistently urged and encouraged. By every available means it has attempted to find uses for woods not now regarded as merchantable and to substitute them for woods rarer but better known. The railroads especially, enormous consumers of wood, have been impressed with necessity for such a substitution. Lodgepole pine in the Nortwest has been laid as ties during the past year instead of bull pine. Shortleaf and loblolly ties will probably soon replace those of longleaf in Mississippi, Louisiana and Texas. Hemlock and tamarack may take the place of oak and pine in other parts of the country; and when oak is used at all for ties it will be the inferior species instead of the valuable white oak.

The substitution of low-grade for high-grade timbers depends on what can be done to increase the lasting powers of the substitutes; in other words, it depends on timber preservation. Special treatment must so prolong the life of the inferior timbers, and at a cost so small as to make the investment a good one.

In the first of a series of bulletins on problems in timber preservation just issued by the Bureau of Forestry as Bulletin 41, "Seasoning of Timber," by Hermann von Schrenk, the seasoning experiments, made largely in co-operation with railroad companies, although still in the preliminary stages, have already developed facts of very considerable importance.

The main advantages of seasoning timber are that seasoned timber lasts longer, since the water in green timber is necessary to the life of decay producing fungi; that it greatly increases the effectiveness of the preservative treatment; and that by reducing the weight of timber it causes a corresponding saving in freight.

In Europe, all railroad ties, bridge materials, telegraph poles, fence posts, etc., are commonly seasoned, the time of seasoning varying from several months to two years. In this country the tremendous development of the industries that require building lumber has pressed the lumber manufacturer so hard that he is forced to send out a poor product, which the consumer is willing to take in that condition rather than wait for thoroughly seasoned material. Properly seasoned material commands a high price and sometimes cannot be obtained at all.

One of the interesting facts brought out by Dr. Von Schrenk's study is that, as a rule, high-grade timbers like white oak and longleaf pine, being very much denser than timbers of low grade, are not so readily penetrated as the latter by the preservative fluid; and that is, therefore, much more economical to treat a low-grade, porous wood like beech, which ordinarily last only four or five years, than a high-grade timber. Beech so treated has outlasted oak several times. For a similar reason, "it would be a great waste," says Dr. Von Schrenk, "to attempt the treatment of white oak or longleaf pine, when better results will be obtained by using loblolly pine or red oak."

Dr. Von Schrenk's bulletin contains detailed accounts of different methods of seasoning, both open-air seasoning and by kiln drying; the results of seasoning tests in different parts of the country and with different timbers; tests with telephone poles, etc. The bulletin will be of special interest to railroad men who have followed the experiments with close attention.

Hot Weather Weakness

If you feel fagged out, listless and lacking in energy, you are perhaps suffering from the debilitating effects of summer weather. These symptoms indicate that a tonic is needed that will create a healthy appetite, make digestion perfect, regulate the bowels and impart natural activity to the liver. This, Herbine will do; it is a tonic, laxative and restorative. H. J. Freegard, prop. Grand View hotel, Cheney, Kan., writes: "I have used Herbine for the last 12 years, and nothing on earth can beat it. It was recommended to me by Dr. Newton, Newton, Kan." 50c at J. P. Hatsfeld's.

BUSINESS CONDITIONS GOOD

Monthly Report of R. G. Dun on the Business Interests of the Country.

Crop reports for past month show for most part satisfactory conditions. Hay and grain cutting is in progress. Hay crop will not be large enough to materially lower prices. The unusually large percentage of grain acreage to be threshed reduces amount to be cut for hay. The wheat output of this section will be the largest for many years past. Barley buyers are said to be anxious to contract for 90c a cental and growers hope to see dollar barley.

Sugar beets are in fair condition and will yield good crops. Army worms effected to some extent celery plants. It is estimated that acreage devoted to this vegetable for coming season will reach 2200 acres.

Bean planting still continues. The estimate of Ventura county's acreage still remains in dispute. In spite of claims of some bean experts it is not likely that planting will exceed in extent that of last year. Bean market is uneven. Pinks are scarce and firm limas keep the speculator guessing.

Citrus fruit market continues depressed, prices often disasterously low. About 10,000 carloads have gone forward, of which about 1700 have been lemons. Not more than 3000 carloads remain for shipment. The results to the growers have netted about ⅓ of last year's returns.

Marketing has been in strong hands, at close of season and the Exchange has equalized the distribution well. While too much fruit was held for late shipment, the main cause of the unfortunate season lies in fruit itself. An unusually cool summer caused sour oranges in March that should have been sweet in January. The fruit grew large and spongy with poorest keeping qualities. Only 10 per cent marked fancy stock this year as against 45 per cent last year. Growers are looking to recoup on Valencias.

Dried fruit market shows improvement in demand. Apricots are firmer in view of light crop prospects, estimated 50 per cent of normal. No prices have yet been named on futures, but it is probable better prices will rule for new goods.

Walnut crop is backward. It will mature about three weeks late. It is believed that blight has effected the yield about ⅓.

The prospects for big honey crop suffered the past month. In many sections cool, foggy weather has kept the bees from working.

Activity in oil fields is marked. Output fully maintained. Crude oil is commanding highest price in 4 year. Contracts are being made at 65 cents a barrel.

Locally business, both wholesale and retail, is at top notch. Real estate market is not so active but heavy demand for building materials continues. Banks are busy, good paper is freely offered and money is circulating well.

A factor to be counted in prosperity outlook for Southern California coming 12 months is that Arizona has in sight one of the best years in history of the territory.

Failures for month, 11; liabilities, $24,000; assets, $15,000.

Same month last year, 5 failures; liabilities, $13,000; assets, $6000.

THE BROWN WIND OF CONNAUGHT.

The brown wind of Connaught
Across the logland blown
(The brown wind of Connaught)
Turns my heart to a stone,
For it cries my name at twilight
And cries it at the noon—
"Oh, Mairgread Ban! Oh, Mairgread Ban!"
Just like a fairy tune.

The brown wind of Connaught,
When Dermot came to woo
(The brown wind of Connaught),
It heard his whispers, too,
And while my wheel goes whirring
It taps on my window pane
Till I open wide to the dead outside
And the sea salt misty rain.

The brown wind of Connaught
With women wailed one day
(The brown wind of Connaught)
For a wreck in Galway bay,
And many the dark faced fishers
That gathered their nets in fear,
But one sank straight to the ghostly gate,
And he was my Dermot dear.
—Shan Van Vocht.

ACTING AFRAID OF DOGS.

Is the Surest Way In the World to Provoke an Attack.

It is curious, to me wonderful, how well dogs understand people. They seem at a glance or very soon thereafter to decide in their minds whether or not it would be safe to assail one who enters their owner's premises, says Lippincott's Magazine. My own opinion is that every one of them, big or little, of high or low degree, would like to bite every stranger that he sees. Their love for their master makes them jealous or makes them pretend to be jealous of everybody who approaches them, and they debate momentarily whether or not a comer is afraid of them. If he is not, they either extend a friendly salute, which always is deceitful, or assume to be indifferent. If he is, they give him a bite more or less deep, then slink away from possible consequences.

For years and years I have followed the rule, when visiting a person residing out of town, unless I know positively that he keeps no dog of any size, to halt at the gate, raise a halloo and await not only my host's invitation, but his approach and his accompaniment into his house. I could not tell the number of times wherein I have been barked at furiously from the inside by dogs whose owners declared that in all their lives they had never done such a thing before to a man of genteel appearance.

The counsels and admonitions bestowed upon me might have excited some gratitude if they had not been wholly useless. I have been asked so many times that it makes me almost sick to have the question repeated, "Why don't you just go along without noticing such things, not being or at least pretending not to be afraid? Not one dog in 10,000 will try to bite a gentleman unless he is provoked or sees that he is being avoided."

SUPT. PORTER'S REPORT

Work Accomplished and Moneys Expended by Water Company in May

Superintendent's report for May, 1903.

To the board of directors of the A. U. W. Co.—Gentlemen. Following is my report for May, 1903:

Regular employes	$480.00
Cleaning Cajon canal	298.30
Cleaning North branch ditches, Fullerton and Placentia	135.50
Cleaning Anaheim branch ditch	104.87
Corking flumes 4, 7 and 8	12.50
Total cleaning	$551.17

REPAIRS.

Labor on dam at head of ditch	$34.00
Teaming gravel for repairs, Placentia	12.00
Repairing ditch on Placentia avenue	12.50
Repairing main canal, Robert Anderson fill	2.25

CONSTRUCTION.

Making reservoir and scraping on berm ditch east of Yorba barn	$110.00
Leveling and making road on south bank Cajon canal	25.50
Labor putting in storm water ways on north bank of new cement ditch, and putting in bulkheads in new sluice-way below section house	180.50
Cleaning ditch for cement work preparatory to putting in cement on main canal	37.00
Excavating baranca north of arch at fill 3	17.50
Putting in sluice box at west end of Damron cut—	
Labor, team work hauling water gravel, etc	92.90
Used 20 barrels cement at $2.85	57.00
Making cement chute and bulkhead below same on 3-gate above sheep camp—main canal	63.75
Used 18 barrels cement at $2.85	51.30
Building bridges over new cement ditch on main canal	15.00
Hauling lumber and tools and cleaning up after completing cement ditch	57.35
Putting in cement, excavating and straightening out ditch on main canal below Yorba barn	1052.00
Hauling water for same	36.25
Hauling cement	63.00
Hauling gravel	115.00
Construction of cement arch and connection with gate through fill below Crowther's tunnel—	
Teaming gravel, $24.50; teaming tools, $2 62; arch, $60.00	87.12
Used 15 barrels cement at $2.85	42.75
Teaming gravel to west end of Murphy's tunnel	3.50
Construction of 30 feet of arch 4 feet high and 38 inches wide, wings on box at ends—	
Labor and team work on same	73.50
Used 20 barrels cement at $2.85	57.00
Cost of arch and wings, bulkheads, sluice-box and double gate at fill 3—	
Labor and team work excavating	87.00
Teaming gravel and putting in gate and arch	355.00
Used 100 barrels cement at $2.85	285.60
Work done in April on May pay roll	$127.50
Time checks issued in March and not on March pay roll	11.37
Three nights watching ditch below zanjero's house by Barrios and paid for in May	6.00
Collected for domestic water	2.30
Collected for tobacco, cash	1.75

Amount of main canal cemented this year, 7552 feet.

Amount of cement used in same, 1,678½ barrels.

Amount used in arches and other repairs, 173 barrels.

Amount left on hand at Yorba, 50 barrels.

One hundred barrels cement used above was Gillingham and the remainder Colton cement.

A. L. PORTER, Superintendent.

Chief Engineer Pillsbury of the Pacific Electric company was in Orange the other day to meet the directors of the Santa Ana Valley Irrigation company for a trip of inspection to the company's property in the river canyon. He desired to make arrangements for right of way. Owing to a misunderstanding the directors failed to meet him. The Pacific Electric has made formal application for a right of way over the land of the company, and the road now building to Whittier will be extended through Olive and up the Santa Ana river to Riverside and Corona.

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,

F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Hall's Family Pills are the best.

Hay Buyers, Attention.

J. F. Conley of Orange has first-class baled Barley and Oat hay for sale, delivered. Raised in vicinity of Villa Park, Residence, West Palmyra ave.

Yungbluth & Kroeger have just received a nobby line of white vests.

HENRY KUCHEL, Editor and Proprietor

THURSDAY.....JUNE 18, 1903

A larger attendance than has ever been known at the distinctive summer session of any American university is promised by the advance applications for admission to the summer session of the University of California, which will begin Thursday, June 25, and end Wednesday, August 5th.

Albert Bushnell Hart, professor of history in Harvard, who is to teach in the summer session in the field of the diplomatic and constitutional history of the United States, has arrived in Southern California. Charles E. Bennett, professor of Latin in Cornell University, is expected in a few days. Other members of the faculty from Eastern universities who will soon arrive are Professors George H. Palmer of Harvard, for ethics; James R. Angell of Chicago, for psychology; Paul Monroe of Columbia, for educational methods; George R. Carpenter of Columbia and Robert Herrick of Chicago, for English; Charles Palache of Harvard, for mineralogy; Benjamin P. Bourland of Western Reserve University, for French. L ter in the season Mr. Gifford Pinchot of the United States department of agriculture will give a number of lectures on forestry.

Besides the more serious work of the summer session the university is planning a number of pleasant opportunities for the students in the way of evening lectures, excursions of points of interest, concerts, art exhibits and university meetings.

The department of civil engineering has been greatly strengthened by the appointment of Charles Derleth of the University of Colorado, as associate professor of structural engineering; Edward N. Prouty as assistant professor of railroad engineering; Samuel Fortier, an expert in the United States bureau of irrigation investigations, was appointed assistant professor of irrigation; George Roberts of the state college of Kentucky, university's inspector of commercial fertilizers; Carl C. Thomas head of department of naval architecture of New York University, department of electrical and mechanical engineering; Chun Seen Chan, was appointed assistant in Cantonese to meet a special need of the students of the college of commerce.

The coming of Professor Ostwald of Leipzig, Germany, perhaps the foremost of living chemists, to deliver the dedication address for the new Physiological Laboratory. built by Rudolph Spreckles for Dr. Jacques Loeb's department, is an event that will be regarded with much interest by the scientific world.

The beautiful new open-air Greek theatre, built for the university by William R. Hearst, will be dedicated in September with a three-day dramatic festival.

It is expected that within ten days complete plans will have been made for starting the first irrigation project under the national irrigation act, passed by congress more than a year ago. This project will be established in the Salt river valley, Ariz., where property owners have agreed to put their lands into a sort of pool and assess themselves for the payment of the necessary expenses under the act, if the government will establish irrigation works at the head of that valley.

The property owners there have between themselves organized the Salt River Valley Water Users' Association, and according to private telegrams received from Arizona, they had secured owners of 135,000 acres of land in 160-acre plots, to go into their agreement.

These property owners, however, will not feel safe in going into the matter until they have secured agreements from the owners of at least 150,000 acres of land in the Salt river valley, and in their telegrams to Washington they predict that they will have secured agreements from the owners of that amount of land by next Saturday evening.

When these agreements have been secured, the government will formally approve the plans, and the interior department will order the contracts let for the contruction of a dam at the head of Salt river valley. This dam and incidental work will cost in the vicinity of millions, and will be the first great irrigation work to be entered upon by the government.

The friends of this plan in Washington say that Dwight B. Heard of the Bartlett-Heard Cattle company, which owns 7000 acres of land on the south side of Salt river in Arizona, will be in Washington within a day or so to oppose the government plans for irrigating the lands of the Water Users' Association already referred to.

It is claimed that Heard wants the government to enter upon extensive irrigation plans, to embrace the lands of the great company. That matter will be gone over before Secretary of Interior Hitchcock during the present week.

Lobbyists representing the millionaire owners of transcontinental railway systems are now charged with responsibility for delay in the ratification of the Panama canal treaty by Colombia. The men are on the ground and with millions of dollars to spend.

Facts as to just what is being done were brought to the city recently by a well known railroad man who recently returned from Bogota.

The interests which have contributed to the fund to secure the votes of Colombia legislators are Morgan, Hill, Rockefeller, Gould, Harriman and others controlling the Union Pacific, Texas Pacific, Southern Pacific and nearly every other railroad in the country.

The lobbyists who formed the third house in Washington during the fight for the treaty in congress, reinforced by a number of Central American lawyers, politicians and revolutionists, are in Bogota and other cities in Colombia. It is said the vast railroad interests are willing to pay even more than the $10,000,000 offered by the United States if the treaty is rejected.

An emissary of the Colombia government is now on his way to Washington for a conference with the president, but it was said recently that unless the United States offers more money than that already agreed upon, the conference will come to naught.

The president, however, is determined that the canal shall be built, and he announced the other day to a friend: "If Colombia does not come to terms on June 22nd or a few days later, I shall reopen negotiations with Nicaragua."

Consequently the railroad's fight is not going to be ended when the contest between Uncle Sam and the greatest combination of private capital ever known closes with the defeat of the treaty with Colombia.

Professor Arnold V. Stubenrauch of the University of California has returned from Southern California, where he has been investigating the possibilities of introducing date culture in the desert regions. Accompanied by A. J. Peters, chief of the division of seed and plant introduction of the United States department of agriculture, after investigating several possible sites for the experiment station, it was finally decided to locate at Coachella, in Riverside county, and there from three to five acres will be set out to best variety of late ripening date palms. A special agent will be sent by the department to the Sahara and Arabia to superintend the selection of young stock.

Professor John C. Merriam of the University of California has returned from the recently discovered fossil beds in Idaho, from which he and his assistants dug ancient remains that will materially help science in clearing up mysteries concerning the appearance and habits of prehistoric animals. The exact results of the expedition are yet to be known, however, as the fossils are still incased in the rock and need to be chiselled out and classified.

A topographic map of a portion of the San Gabriel mountains, Southern California, has been issued by the United States geological survey. The area mapped out is known as the Rock Creek quadrangle. The country included is, with the exception of a small part of the Mojave desert, on the northern slope of the San Gabriel mountains within the San Gabriel timber reserve. About ten years ago an attempt to grow fruit was made by a colony of settlers who, after a few years, finding the water supply from the mountains insufficient for irrigation, abandoned their land. The southern drainage from the area covered by this map, is tributary to the San Gabriel river, whose waters are used to irrigate a large area in Los Angeles county.

Reports reached Washington this week that California Republicans are going to make another stab to have Col. John P. Irish removed as naval officer of the port of San Francisco, and to have some good straight Republican put in his place. Inquiry at the White House did not reveal whether any papers have been filed there lately, but it was admitted there might be developments in this case soon. It was also admitted that ex-Representative Woods, who was a candidate for the place last winter, has practically withdrawn, but no information was obtainable about any new candidate.

Electric Railway

A corps of surveyors is engaged in running a line from Long Beach to Newport Beach. It seems to be the intention of the Pacific Electric company to build a line down the beach from Long Beach via Pacific City to Newport at which latter point it will connect with the Santa Ana-Newport line. Men are said to be getting the right of way.

"Tis well no question for you to try to sell your own property. I leave you that privilege always. Yet, why not have me do some work for you. I have a good list too, true. I need yours, though, for each purchaser has his own idea of just what he wants and yours might fit the bill exactly. Give me a call.

W. C. EYMANN, Real Estate,
Three doors east P. O., Anaheim, Cal.

Estray Horses.

Came to my place, six miles west of Anaheim, on Saturday, May 30th, one small bay mare, pigeon-toed, and one two-year-old bay filly. Owner may have same by proving property and paying charges. W. J. COLE.
Anaheim, Cal., June 3, 1903.

REAL ESTATE TRANSFERS

For the Week Ending June 15

Furnished by the Orange County Title Company, Santa Ana.

Mary P Parker et al to H S Stright—A lot on North French street, Santa Ana; $10.

Fernando H Chaffee & Delia Chaffee to Alice E Weinschenk—N½ of nw¼ of nw¼ of section 7-3-10, 20 acres; $2000.

Adolph Rutz to Dora A Engel—Lot 6, block C, Goodwin's addition to town of Santa Ana; $600.

C Z Culver et al by Theo Lacy, sheriff, to J M Griffith Company—Lot 15, C Z Culver Home tract; $7.50.

Frank Ey & Caroline Ey to H Hayward—Lots 7, 8, 9, 10, block C, Lorelei tract, Anahim; $10.

Louis Edwards & Julia Edwards to W B Wetherbee—Lot 5, block B, Hall's addition to Santa Ana; $10.

Nellie R Baker to W E Baker—Lot 2, block 3, Fruit's addition to Santa Ana; $10.

W S Collins & Mary A Collins to Lyman M King—Lot 20, block 32, Newport Beach; $200.

Amelia Vanderlip to C K Worrell—Lot 7, block 2, Rouse and Lewis' subdivision; $10.

Charles Dufford & Addia E Dufford to Edwin Cox—Lot 3 and the southerly 27 feet of lot 2, block A, Fruit's addition to Santa Ana; $2000.

F P Torrence & Mary R Torrence to H S Gordon et al—Lot 4, block 2, Lyon's addition to Santa Ana; $10.

C K Worrell & Sarah L Worrell to L C Wise—12 acres in lot 2 of the Sepulveda tract; $10.

A J Harding & Junnie Harding to Sarah M Dearing—Lots 7 and 12, block A, McCoy's addition to Orange; $1850.

W S Collins & Mary A Collins to George P Taylor—Lots 1, 2, 3 and 4, block 35, Newport Beach; $10.

Joseph G Quick & Martha Quick to Nick Gonsels—Lot 11, block E, Hawkin's addition to Santa Ana; $10.

Julia A M Jones & E C Jones to Charles O Neff & Ella M Neff—Lot 4, block 3, Fruit's addition to town of Santa Ana; $700.

E W McCollum & Clara McCollum to Anna E Hershman—Lots 30, 31, 32, block C, Center tract; $10.

David Herrlinger et al to Conrad Wagner—Lot 42, block 29, Fullerton; $10

Conrad Wagner & Mary Wagner to Hermann Ludewig—Lot 42, block 29, Fullerton; $200.

The Stearns Ranchos Co to Anna G Westerman—Sw¼ of nw¼ of ne¼ of section 12-4-10, 10 acres; $10.

Security Savings Bank to Sardine A Stone—Se¼ of se¼ and e½ of sw¼ of se¼ of section 3, and south 70 acres of se¼ of section 4-4-11; $5000.

Albert Ackerman to Mrs Ida Fuhrberg—Lots 8, 9, 10, block D, subdivision of Vis. lot "D 3," Anaheim; $545.

Same to Andrew Fuhrberg—Lot 97, block G, Heiman & George tract, Anaheim; $75.

Ellen W Harrison to Elizabeth L Forgy—Lot 1, block 25, Newport Beach; $10.

A D Arkland et al Trustees to N H Leonard—Lot 5, block 18, town of Santa Ana; $10.

N H Leonard & Lucy A Leonard to F J Heil—Lot 5, block 18, town of Santa Ana; $10.

Thompson Sears et al to L E Morrill—Lots 3, 4, 5, 6, 7, 8, block N, Chilton tract addition to Sansa Ana; $10.

John D Griset to R H Mills—Lots 22 and 23, block 65, town of Santa Ana East; $10.

Joseph Dauser and Mathilde Dauser to Henry D Young et al—Lot 9, Anaheim Homestead tract; $1700.

B H Bancroft to S A Bedell—North 46.65 acres of the east 56.65 acres of the ne¼ of section 6-4-10; $10.

Ben Fallert and Magdalena Fallert to Mary Vetter—E½ of se¼ of nw¼ of section 16-6-10, 18 acres; $10.

Orange County Mutual Building and Loan association to Mary E Cushman—Lot 5, block 33, Newport Beach; $10.

Mrs Temple Mahoney to W C Bryant—Lots 31 and 32, block 76, Santa Ana East; $150.

Albert Michaeli and Josephine Michaeli to Birt Annin—Acreage lots 33 and 34, Fullerton; $10.

W S Collins and Mary A Collins to Robert Mitchell and wife—Lots 5 to 20, block 29, Newport Beach; $10.

Pierre Nicolas to Jacob Stern—Undivided ¼ interest in 40.88 acres in section 32-3-10; $4000.

Sarah Lucas to Grace B Weston—Lot 18, block B, Hawkin's addition to Santa Ana; $700.

Nancy J Davis to D W Head—E½ of sw¼ of ne¼ of section 19-5-10, 20 acres; $1

D W Head and Elizabeth J Head to Fred J Heil—SW¼ of ne¼ of section 19-5-10, 40 acres; $10.

J P Greeley and A Evelyn Greeley to G Meyer et al—E½ of the½ of ne¼ of section 17-4-10, 20 acres; $1700.

Alice Evelyn Greeley to John Greeley—1½ acres on north-east corner of Washington avenue and French street, Santa Ana; $10.

West Coast Land and Water Co to A H Nickell—Lots 13 and 15, block 10, Pacific City; $10.

Judson House and Anna House to A H Nickell—Lots 2 and 4, block 6, Pacific City; $10.

John Wolf to Peter Syre and wife—Lot 14, block B, Center tract, Anaheim; $450.

William M Smith and Hattie C Smith to Mary Reidy—Lots 1 and 3, Cullum's addition to Santa Ana; $10.

R N Sagg et al to Mary F Heathman—A lot on North-west street, Santa Ana; $10.

A SELF-DENYING OFFERING.

Some young girls at a summer resort were giving a vaudeville performance for a local charity. A young man who thought himself facetious tossed upon the stage after one of the "turns" a bouquet whose chief ingredient was a head of cabbage. The girl who received this offering of appreciation read the card that accompanied it, and advanced to the footlights.

"It gives me great pleasure," she said, "to know that Mr. Edward Morgan has enjoyed my performance. I hoped that the audience might like it, but I never expected for a moment that Mr. Morgan would so far lose his head as to throw it upon the stage.

Hay Presses

The "Rawhide," a newly patented full circle horse power hay press, simple and durable. As good as the best, at less than half the price. Makes small, neat and compact bales. Write for circular and guarantee as to work and durability. Price $125.
PACIFIC HAY PRESS CO.,
2913 Central Ave., Los Angeles, Cal.

"Rich publisher, that!" "Yes; he owns two racehorses and five authors!" —Atlanta Constitution.

Lost—Reward

Saturday morning, soon after leaving S. F. depot, a silver C. E. stickpin with Kings' Daughters badge bearing the letters "I. H. N." Suitable reward on return to this office.

Millinery for Sale

Mrs. L. J. DeVore, the well-known Santa Ana milliner, is going to retire from business and her entire stock of millinery will be sold at a great sacrifice. Any one wishing to get bargains in this line can do so by calling soon. The sale will continue for four weeks.
MRS. L. J. DEVORE,
1t 109 E. Fourth st., Santa Ana.

LOCAL JOTTINGS OF INTEREST

Inspection

The annual inspection of Company E of this city will be held the evening of Monday, June 22d. A regular army officer will conduct the same.

The public will be cordially welcomed by guardsmen at the armory on the evening in question. Turn out and see how the boys size up with an army officer overhauling them and their arms. Also show by your presence that you take an interest in the home company. An enjoyable evening is looked forward to.

Oratorical Contest.

The high school oratorical contest for the Starbuck and Finley gold medals was held in Bank hall, Fullerton, on Monday evening. The Fullerton and Santa Ana high schools taking part in the contest.

Miss Florence Goodwin of Fullerton won the Starbuck gold medal for the best oration. Lemuel A. Robinson of Santa Ana won the Finley gold medal for the best declamation. Miss Helen Keech of Santa Ana won the Finley gold medal for the best essay. The second Starbuck prize, a gold medal, was won by the Fullerton school. This medal has been won in turn by Anaheim and Santa Ana, and now belongs to Fullerton for the coming year. In order to retain it, the school must win it three consecutive times.

Judges of the contest were J. M. Morgan, principal of the Long Beach high school; Mr. Farrington, principal of the Downey high school, and W. C. Harris of Los Angeles. Judging was done on a system of credit marks.

Baseball

Oregon and the Young America nine of this city will cross bats on the home grounds on Sunday.

Olive defeated Loara, 15 to 5, Sunday last.

Olive came down some Sundays ago, like a wolf in the fold, and took the Young Americas into camp to the tune of 15 to 5.

VACATION

Schools will be out tomorrow for the summer vacation.

CURFEW

City trustees are enforcing the curfew ordinance, which has been permitted to remain a dead letter for lo these many years. Promptly at 9 o'clock each evening the whistle at the power house is blown, and kids under 18 are required to be at home.

The Gadsden Purchase

A correspondent asks the history of and reasons for the purchase of "a little strip of land about the size of a California county known as the Gadsden Purchase," which is now a part of Arizona and which the correspondent supposes of little value.

The Gadsen purchase included that portion of Arizona and New Mexico south of the Gila river. Its area was 45,535 square miles, or about three-tenths the size of California and about three-quarters of it is within the present boundaries of Arizona.

At the close or our war with Mexico that country ceded to the United States a territory including California, Arizona, north of the Gila river, part of New Mexico, etc. The treaty was dated February 2, 1848.

During the next five years there was much dispute between the two republics concerning the country south of the Gila. There were questions of boundary at issue. Mexico also had claims against the United States for Indian depredations, loosely estimated all the way from $15,000,000 to $30,000,000. So acute did the dispute become that Santa Ana, then the self proclaimed perpetual president of Mexico, marched an army into the territory, and preparations were made for a renewal of war between the two countries.

General James Gadsden was at that time United States Minister to Mexico, and largely by his exertions a treaty was concluded December 30, 1853, to settle all existing difficulties. By its terms Mexico ceded the so-called Gadsden purchase to the United States, relinquishing her claims for Indian depredations and agreed to give the United States the right of transit for troops, mails and merchandise across the isthmus of Tehuantepec, in consideration of the payment of $10,000,000 by the United States.

This bargain was so unpopular in Mexico that it was largely instrumental in driving Santa Ana from power and into exile, which happened shortly after.

As to the value of the territory to the United States, it may be noted that much of it, especially that part comprised in Arizona, is rich in mineral, agriculture and grazing resources. The portion belonging to New Mexico is less developed and not so much is known of its capabilities, although it unquestionably contains considerable possibilities. Some of the richest mining districts in Arizona are within the lines of the "Purchase." The Gila valley and many other sections are highly productive when irrigated, and great advancement has been made in that respect, with more projected. Throughout many parts of the "Purchase" the traces of irrigation works, cities, etc., indicate that the country was once densely settled and highly cultivated, and it is expected that history will in due time repeact itself.

The mineral products of Arizona are now worth upwards of $20,000,000 annually, and are steadily increasing. Just what proportion of the product comes from within the lines is not known, but it is very considerable. The largest city of Arizona, Tucson, is situated within those lines. So are the the celebrated Tombstone, Calabasas and other important mining districts.

On the whole it would seem that the United States made a very good bargain in the Gadsden purchase and one whose value will become more apparent from year to year.—San Jose Mercury.

An 18-foot canva- boat, complete with sails and oars. $10 of Frank Baum. *2t

Lost

An engraved gold watch pin between Anaheim and Anaheim Landing. Finder please leave at this office and get reward. je11

ANIMALS THAT COUNT.

Instances That Prove Their Possession of the Computing Faculty.

Several years ago there lived in Cincinnati a mule which was employed by a street railway company in hauling cars up a steep incline. This animal was hitched in front of the regular team and unhitched as soon as the car arrived at the top of the hill. It made a certain number of trips in the forenoon (I have forgotten the number, but will say 50 for the sake of convenience) and a like number in the afternoon, resting for an hour at noon. As soon as the mule completed its fiftieth trip it marched away to its stable without orders from its driver.

To show that it was not influenced by the sound of the factory whistles and bells the following remarkable action on the part of this animal is vouched for by the superintendent of the line, who gave me these data: On a certain occasion, during a musical festival, this mule was transferred to the night shift, and the very instant it completed its fiftieth trip it started for the stables. It took the combined efforts of several men to make it return to its duty. At night there were no bells or whistles to inform the creature that "quitting time" had come. It had counted the trips, and having finished its full quota of 50 it thought that the time for rest and food had arrived.

Some monkeys give unmistakable evidences of the possession by them of the computing faculty. In 1889 I made the acquaintance of a very intelligent chimpanzee which could count as high as three. That this was not a trick suggested by sensual impulses I had ample opportunity of satisfying myself. The owner of the animal would leave the room, no one being present but myself, and when I would call for two marbles or one marble or three marbles, as the case might be, the monkey would gravely hand over the required number. Romanes mentions an ape which could count three, the material used in his experiment being straws from the animal's cage. Wolff, Darwin, Forbes and Hartman also give instances of the computing faculty in apes and monkeys.—James Weir in Lippincott's Magazine.

DEWEY AS A DISCIPLINARIAN.

His Method of Subduing Some Refractory Sailors.

"I was with Commodore Dewey when he was the executive officer of the Colorado," said a financier, "and I remember one incident which shows the manner of man he is. We had a fine crew, some of them as powerful men as I ever saw. Four or five of them went ashore one day and came back fighting drunk.

"Three of them were men who would singly have been more than a match in strength for John L. Sullivan. The order was given to put them in irons, and it was found impossible to carry out the order, for the men were dangerous. Dewey was notified of the situation. He was writing a letter in his room at the time.

"He went to the place where these giants were and he told them to come out and submit to the irons. They did not stir. Then Dewey said quietly to an orderly, 'Bring me my revolvers,' and when he had his pistols he again called upon the men to come out, but they did not move. Then he said, 'I am going to count three. If you are not out here with your hands held up on the third count, you won't come out of that place alive.'

"He counted one, then he cocked the revolvers, and he counted two. We all expected to hear the report, for we knew that Dewey meant what he said. The men knew it too. They stepped out just in time to save their lives and held up their hands, and they had been partially sobered by their fright and the moral effect of Dewey's glance.

"One of them said afterward that when he saw Dewey's eyes he knew that he would either be a dead Jackie in a moment or he would have to yield, and when the irons were put upon him he was as sober as he ever was in his life. Dewey went back to his room and finished the letter he was writing."—Philadelphia Press.

A London "Pawner."

In London exists an institution called the pawner. She is usually a middle-aged widow and flourishes in those dismal localities where every other house is let out in furnished apartments. Many of the people living in these regions are poverty stricken women who have seen better days and dread to enter a pawnshop. The pawner calls once or twice a week upon her clients, and when she departs her satchel bulges with sundry articles which she is commissioned to pledge. She is paid a commission on the sum raised, and hence it is to her interest to haggle with the pawnshop keeper. As a rule, she gets 1 penny for every 2 shillings obtained. The business is a paying one. One pawner boasts a list of 200 customers, people who employ her to pawn articles of wearing apparel on a certain day and redeem it on Saturday. So busy is she that her two daughters assist her.

Women of Forty.

Balzac, famous as a literary and social lion, was once attacked in a Paris salon by a pretty little miss of 17, who demanded why it was that he liked women whom she would consider passe.

"Why, monsieur, even when they are as old as 40 you seem to enjoy their society!"

Balzac looked at her earnestly for a second and then laughed heartily. He went over to explain matters and remarked in a serious voice, as though weighing every word he said, "Perhaps the secret lies in the simple fact that the woman of 20 must be pleased, while the older woman of 40 tries to please, and the older woman's power consists, not as has been so often said in understanding and making the most of her own charms, but in comprehending and with happy tact calling out and making the most of the good qualities of the man whose favor she seeks."

A Curious Duel.

An apothecary having refused to give up his seat in a theater to an officer's lady, the officer felt himself insulted and sent him a challenge. The apothecary presented himself at the place of meeting at the appointed time. He said, however, that he was not accustomed to the use of firearms, but he would propose another way of settling the dispute. He then drew from his pocket a pill box, took from it two pills, and thus addressed his antagonist: "As a man of honor, you would surely wish to fight me only on equal terms. Here are two pills, one composed of the most deadly poison and the other perfectly harmless. We are on equal ground if we each swallow one. You shall take your choice, and I promise faithfully to take the one you leave." The officer laughed heartily at the strange proposal, and, shaking hands, they parted good friends.

Ynghinh & Krower have just received a nobby line of white vests.

ARITHMETIC 1700 B. C.

Sums Over Which Egyptian Children Puzzled Their Brains.

Probably the oldest copy book for home lessons in arithmetic was recently unearthed in Egypt. The papyrus, which was found in excellent condition, dates from the period about 1700 B. C.—that is, about 100 years before the time of Moses, or almost 3,600 years ago. It proves that the Egyptians had a thorough knowledge of elementary mathematics almost to the extent of our own. The papyrus has a long heading, "Direction how to attain the knowledge of all dark things," etc. Numerous examples show that their principal operations with entire units and fractions were made by means of addition and multiplication. Subtractions and divisions were not known in their present form, but correct results were obtained nevertheless.

Equations are also found in the papyrus. Among the examples given is this one: Ten measures of barley are to be divided among ten persons in such a manner that each subsequent person receives one-eighth of a measure less than the one before him. Another example given is: There are seven men, each one has seven cats, each cat has eaten seven mice, each mouse has eaten seven grains of barley. Each grain of barley would, if cultivated, have yielded seven measures of barley. How much barley has been lost in that way? The papyrus also contains calculations of area, the calculation of the area of a circle and its transformation into a square, and finally calculations of the cubic measurements of pyramids.—Philadelphia Record.

Shaking Hands.

Men shake hands with strangers of their own sex with far greater readiness than do women. Two men, on being presented to one another, will frequently extend the hand in a grasp of greeting, which gives opportunity to form a general idea of each other's make up, and know whether they are attracted or repulsed. Occasionally there is a man with sufficient good nature and courage to refuse another man's hand without causing offense. There are men who have been so impressed with the discoveries of bacteriology that they maintain handshaking to be the cause of dissemination of disease germs. The bare hand comes in contact with innumerable germs looking for pasturage on some vulnerable spot of our anatomy. A cut or abrasion on the hand leaves a door open for the admission of the enemy. Therefore it is with reason that men argue against promiscuous handshaking out of the home among the men men in business life. Science long ago frowned upon the practice of promiscuous kissing, which prevailed among women. Is the ungloved handshake also doomed? —New York Ledger.

The English Postoffice In 1677.

The postmasters were free from all public offices, from liability to quarter soldiers, and they received gazettes free of postage. "Wherewith they advantage themselves in their common trade of selling drink, and they have their single letters free to London."

The rates of postage in 1677 were comparatively low. A single letter —i. e., a letter consisting of one sheet of paper only—could be sent for any distance up to 80 miles for twopence, and and beyond 80 miles for threepence. A letter weighing an ounce cost eightpence for 80 miles and a shilling beyond.

The mails were dispatched from London about midnight on Tuesdays, Thursdays and Saturdays and were due to arrive in London early on Monday, Wednesday and Friday mornings. They were carried on horseback at the rate of five miles an hour, and they were liable to a detention of not more than half an hour at each postoffice (stage) on the road. England was divided into six runnings, or roads—viz, west, Bristol, Chester; north Yarmouth and Kent, starting from Plymouth, Bristol, Chester, Edinburgh, Yarmouth and Dover respectively.—Notes and Queries.

Go to E. W. McCollum for bicycles bicycle supplies and bicycle repairing. Our repair shop is in charge of one of the best bicycle men on the coast. Try us on repairs. Sporting goods of all kinds, baseball goods, lawn tennis goods, footballs, boxing gloves and ping-pong, the latest fad.

For Sale

About 50 good bee hives at 50 cents and up. Apply to R. FOSSER.

Inside of a Molecule.

The New South Wales government analyst, William M. Hamlet, delivered the presidential address in the section of chemistry at the recent meeting of the Australian Association For the Advancement of Science, the subject being "The Molecular Mechanism of an Electrolyte."

He defined an electrolyte as a body in solution or state of fusion, capable of being instanteously decomposed by a current of electricity, and he claimed that if the explanation he offered was adequate for the electrolyte it must hold good for the constitution of the matter in the universe, so that the treatise on the electrolyte has a most important scientific bearing. The method of investigating the action of one body upon any other, he reminded his audience, was brought to a high degree of accuracy by the immortal work of Sir Isaac Newton. He alluded to some observations of the late Professor Clifford, made over 20 years ago, this authority remarking, almost prophetically, "We can look forward to the time when the structure and motions in the inside of a molecule will be so well known that some future Kant or Laplace will be able to make an hypothesis about the history and formation of matter."—Nature.

The Cavalry Regiment.

The sabers clank'd, the men look'd young and healthy and strong; the electric tramping of so many horses on the hard road, and the gallant bearing, fine seat and bright faced appearance of a thousand and more handsome young American men, were so good to see. An hour later another troop went by, smaller in numbers, perhaps 300 men. They, too, look'd like serviceable men campaigners used to field and fight July 3—This forenoon, for more than an hour, again long strings of cavalry, several regiments, very fine men and horses, four or five abreast. I saw them in Fourteenth street, coming in town from north. Several hundred extra horses, some of the mares with colts, trotting along. (Appear'd to be a number of prisoners too). How inspiring always the cavalry regiments. Our men are generally well mounted, feel good, are young, gay in the saddle, their blankets in a roll behind them, their sabers clanking at their sides. This noise and movement and the tramp of many horses' hoofs has a curious effect upon one.—"The Wound Dresser," by Walt Whitman.

She Married Him Anyhow.

A convict at a French penal settlement who was undergoing a life sentence desired to marry a female convict, such marriages being of common occurrence. The governor of the colony offered no objection, but the priest proceeded to cross examine the prisoner. "Did you not marry in France?" He said, "Yes." "And your wife is dead?" "She is." "Have you any documents to show that she is dead?" "No." "Then I must decline to marry you. You must produce some proof that your wife is dead." There was a pause, and the bride prospective looked anxiously at the would be groom. Finally he said, "I can prove that my former wife is dead." "How?" "I was sent here for killing her." And the bride accepted him notwithstanding.—Denver Times.

The Difference.

Dr. Pellet—All you need is 25 cents' worth of soda bicarbonate, dissolved in water. You'll get it at the drug store—at the drug store, remember, not at the grocery.

Patient—But what difference does it make, doctor?

Dr. Pellet—It will make a heap of difference to you. If you go to the grocery, they'll give you so much that the dose'll kill you.—Boston Transcript.

Peculiar to the State.

"So far as I know," said the doctor in answer to a question, "the shortest word of four syllables is 'Ohioan.'"

"Well," observed the professor, removing his cigar from his mouth a moment, "it's the same way as regards the offices. The Ohioan always gets there with fewer letters than any body else."—Chicago Tribune.

Hard Requirement.

He—I'm about to get a good position under the city; nothing to do practically but sit still and look wise.

She—Oh, I do hope you'll be able to fill the place!—Cincinnati Enquirer.

Choice of Three Routes

EAST and WEST

'Sunset' Via EL PASO and New Orleans
'Ogden' Via SAN FRANCISCO and Portland
'Shasta'

The service on these trains is perfect. The time is the fastest. The scenery most beautiful.

The tourist car service appeals most directly to those who desire to travel at a high rate of speed, but prefer to economize a little on sleeping car accommodations.

The Southern Pacific runs personally conducted tourist excursions every day in the week at reduced rates to various points in the east, without change, via all routes. A conductor accompanies the train to destination, and is ever ready to attend to the wants of the traveler.

Notice to Creditors.

ESTATE OF MARGARETHA SOPHIA METZ, deceased

Notice is hereby given by the undersigned Napoleon Hart, who has been appointed executor of the last will and testament of said Margaretha Sophia Metz, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers within ten months from the first publication of this notice, to the said executor, at the law office of F. O. Daniel, on the second floor of the First National Bank Building, on the corner of Main and Fourth streets, in the City of Santa Ana, County of Orange, State of California, that being the place for the transaction of the business of said estate, or the same may be presented to the undersigned executor at his general place of business, in the City of Anaheim, California.

Dated this 21st day of May, 1903.

The first publication of this notice is made on the 21st day of May, 1903.

CALDWELL TO BE ORATOR WEST CHAIRMAN OF DAY

Brilliant Program Preparing for Coming Celebration of Nation's Holiday—Great Parade. Electric Illumination and Fireworks.

If the Mother Colony does not lay in the shade all previous efforts at celebrating the Glorious Fourth, then all the committees miss their guess. Monday evening's meeting was the most enthusiastic and largely attended of all. Singular how interest attaches to the nation's holiday as the time for the event draws nigh. The small boy on the street is practicing with the cracker, there is smell of powder in the air, and by the time the Fourth arrives will probably have blown off a finger or a leg or something else, just to make the day, so far as he is concerned at least, a never-to-be-forgotten thing of beauty and of joy.

Santa Ana some years ago, at a celebration of this great day, had a balloon ascension in which the more or less daring aeronaut, acting in conformity with the prearranged program, fell out of the basket and was killed. Anaheim will go the county seat one better than that. In a monster balloon to be provided for the occasion will be placed, side by side, Editors McPhee and Wallace of the Blade and Herald, Editors Chamberlain of the Bulletin and Sidlemon of the Peat, Goodlooker Tressler of the Fullerton News and Deacon Valjean of the Plain Dealer. The balloon will rise by inflation caused by the hot air emanating from the distinguished gentlemen in the car, and will be inexpensive as well as affording innocent amusement, even if the dark and deep-laid plot of the executive committee should fail to carry.

However, it is our duty to expose the plot. Being advertised as ostensibly an example in psychic force, as shown in the inflation of the balloon by natural hot air, the real purpose is for us to pull the guy ropes when the party of scientific gentlemen are up several thousand feet high and see what happens. But while many of them have been up higher than that and have fallen and lit upon their feet as if nothing happened, yet it is doubtful if the plot to turn column rules will be carried out, at least not until the afternoon. Then an automobile race will probably be arranged, and the editorial party be started for the hills where it is hoped they may meet a happy fate at the hands of Injins and scalping knives. These interesting events ought to draw a big crowd, especially of those who have it in for these chaps, who are not so bad after all as they are sometimes painted.

Senator Caldwell of Riverside will be orator of the day, and Judge West of Santa Ana chairman of the day. Neither one will have anything to do with killing off the newspapermen—in fact they may each have use for them later; the judge to sentence them for instance, and the senator to appear for them on the day appointed for the hearing.

Seriously, however, the day is to be a never-to-be-forgotten red-white-and-blue holiday.

Senator Caldwell is one of the eloquent orators of the south, and his friends are numbered hereabout as numerously as in his own ancestral home. Judge West will make the ideal president of the day.

Complete arrangements for the celebration are not yet completed, but it is certain that the time-honored civic and military parade will be the feature of the morning. Many floats have been promised, not only from this city, but from outside towns as well.

The electrical illumination of the city will be upon a more gorgeous scale than ever, and the fireworks will be by far the most elaborate ever produced in the county.

The exercises will be held under the trees at the Central schoolhouse grounds, and the sports of the afternoon will be in the vacant lot west of the school.

The military will form a conspicuous feature of the parade. Company L of Santa Ana on Monday accepted an invitation to parade here, and it is confidently expected that Company H of Talbert will also accept an invitation to be present.

A military camp will be pitched, and Company E of this city will serve rations. Military rules will prevail, and local guardsmen are preparing to give their visiting brethren the time of their lives.

Judge Howard and the Mother Colony filly have just passed the quarter pole in 27 flat—that is, we believe, away ahead of the world's record. Now the judge is taking a chew of tobacco, and the red-white-and-blue nag is making for the half like the wind—pronounced wynd.

Clear the track, everybody, and you fellows who have not yet contributed, chest up to the captain's office and do what lies in your power to make our glorious holiday a success. We must have a thousand dollars. With that amount, we believe the old nag will make the mile in less than a minute.

SUNDAY DINNERS

The Commercial hotel will make a specialty of serving Sunday dinners to home people for 35 cents. Everything first-class. Landlord Adams has thoroughly renovated the hotel, and is giving us the best hotel Anaheim has had in years. He needs the support of our home people. Take your Sunday dinners with him, and board with him if you can.

Mrs. Eichler of San Francisco, sister-in-law of Mrs. Konig of this city, is visiting with that lady, accompanied by her two daughters, Misses Henrietta and Adela Eichler. They will remain several weeks.

General Manager Wells of the Santa Fe, accompanied by Supt. Beamer, Mr. Sheppard and several other heads of departments, paid an official visit of inspection to points on their road in this vicinity a few days ago.

Drs. Bickford and Johnston of this city and Dr. Clark of Fullerton performed a surgical operation for the relief of strangulated hernia upon the four-year-old son of Mr. Dyckman of this city at the hospital yesterday afternoon. The lad underwent the operation successfully, and hopes are entertained for his speedy recovery.

Don't miss the Great Clothing Sale at Federman's Big Store.

FAMILY ROW AMONG RUSSIANS

Sons of John Rothe Have the Old Man on Queer Street When Officers Arrive and Arrest Them

John and Isaac Rothe were placed under arrest by Marshal Steadman on Sunday morning at their home near the cannery, where they were in the act of pummeling their father in the most approved fashion. The row was occasioned by one of the girls of the family who some time ago left home and was warned by officials to keep off the public streets. In the argument the two boys sided with their mother, who, it is said, upheld her daughter, placing the blame for her misfortune upon the negligence of the father in failing to provide her with a comfortable home. The senior Rothe was in a fair way of being severely thrashed, when neighbors responding to his calls for help, ran in and interfered. Subsequently the boys, who are grown, one being of age and the other a year or two younger, were arrested and placed in jail, where they remained during the day and well along in the evening, when their employer deposited $15 bail for each of them and they were liberated.

The case was to have been called on Monday morning, when the entire matter, it was said, would be given the public. But the boys failed to appear and their bond was declared forfeited.

Painful Accident

Syril Tipton, the eleven-year old son of W. S. Tipton, met with a painful accident on Monday which may cause the loss of the first joint of his right thumb. He was engaged in operating a chopping machine used in preparing food for poultry, when his thumb was caught in the cogwheels and severely bruised and lacerated. It was almost severed from the hand.

Mr. Tipton carried his boy to Dr. Johnson's office, where the injuries were attended to. The thumb was stitched back in its place and bandaged but it will not be known for several days whether or not amputation will be ultimately necessary.

HIGH SCHOOLS

An election has been called for next Monday, June 22d, to vote on the proposition of establishing a new high school for Orange, and notices to this effect have been posted. The district will include the grammar school districts of Orange, El Modena, Olive and Villa Park, and the sentiment seems unanimously in favor of the new district.

Petitions for the high school west of the river have also been placed in the hands of the superintendent of schools, and if they are in due legal form, the notices for an election will soon be posted.

J. B. Nichols, superintendent of schools, regards the outcome of the election favorable in both places and it is probable that the schools will be ready for work by next year.

Modjeska

Mme. Modjeska, the celebrated Polish actress, has so far recovered from an attack of bronchitis, with which she has been recently troubled in New York, as to leave the Hotel Manhattan and depart for Chicago, en route to her ranch in Southern California. Her husband, Count Bozenta, is with her.

Mme. Modjeska has let it be known that she probably will make her home in the Golden State for several years. She feels more at home here than anywhere else on her ranch, which she declares is one of the finest and best appointed in the West.

Modjeska's general health is far from good, and she will probably never undertake another long theatrical engagement, though she hopes to appear on the stage for about two months each season in the Pacific Coast cities.

TO VOTE BONDS

An election has been called in Pacific City school district for June 23rd, to vote bonds in the sum of $5000 for the purpose of building and furnishing a four-room school house. The voting place has been designated in the Pacific City pavilion.

DEDICATION OF THE NEW CATHOLIC CHURCH.

On Sunday, June 28th, the new St. Boniface church will be dedicated by the Rt. Rev. Thomas J. Conaty. The services will begin at 9:30 a. m. After the church has been blessed a solemn high mass will be sung. During mass the Bishop will preach.

At 2:30 in the afternoon a reception will be given to the Bishop at the old church building. An invitation is extended to all, irrespective of creed, to attend.

At 7:30 p. m. solemn vespers will be sung during which the Rev. Father Victor of Los Angeles will preach.

The various services will be of a very solemn and sacred character, as all who have ever attended at Catholic services know. Owing to limited space it has been found necessary to reserve a number of seats. Tickets for such seats may be obtained by applying to the priests of the church.

Death from Cancer

B. M. Green died at the hospital on Tuesday of cancer of the bowels. He was aged 73 and had lived here and at Fullerton for a number of years. The remains were interred on Wednesday afternoon under the auspices of the Independent Order of Foresters of which deceased had been a member.

Accidents

Joe Moreno was in from Yorba to have a broken arm set on Tuesday.

Frank Robinson of Clair was kicked in the face by a colt, the bridge of the nose being crushed and driven in and one eye badly damaged.

New Postoffice

Brick has been hauled to the site o the new postoffice building on the corner of Center and Lemon streets. Work upon the foundation will begin in a few days. The building will be ready for occupancy in August.

Card of Thanks

We wish to express our sincere thanks to the many friends who have so kindly assisted us at the fire and since. MR. AND MRS. C. I. EATON.

For Sale

Gentle horse, good driver, guaranteed to be sound and safe. Cheap for cash. Apply to City stables. 1t

UNCLE SAM DOING HIS PART

He is Protecting Forest Reserves and This Insures a Plenty of Water.

Walter Robinson, the redoubtable warrior of the Trabuca mountains, dropped into town on Saturday afternoon from the forest reserve up in the hilly fastnesses, just to see how the town was getting along. Walter is the government ranger on the Trabuca reserve, and gets a day or two off a month to have his horses shod. He uses four broncbos, and gets over sixty miles of territory in guarding the reserve from trespassers. When horse-shoeing time arrives he comes down from the mountains, and on Saturday took a run over this way to see how the pumping plants and other things were getting on.

Walter got frightened at the automobiles in the street, and while walking about town lost his way and wandered into this office.

"Say," he said to the newspaper man, "this town has made considerable progress since I was here chasing rainbows. But, say, these pumping plants take my eye. They are the finest thing I have seen in a long time.

"Uncle Sam is doing his part up in the forest reserves. The tree growth and undergrowth is denser at the present time than for many a year, and we are going to keep it that way. We have not had a bad forest fire in years, and the creeks have more water in them than for decades. This is what keeps up your pumping plants. You have 100 of them here? Well, that's wonderful. That is bound to bring in settlers. Why, I can notice how they have come in the past two or three years. You have made a wonderful growth, and the town itself is looking better than I ever saw it."

"The forest reserves and the irrigation of the arid west means millions to Southern California," went on this tanned philosopher of the Sierras, "and your immediate supply of water rests more largely upon maintaining the mountain forests and growth of grass and underbrush than many people imagine. Don't you know that? Read Roosevelt's speeches? Great, weren't they? Count on Trabuca as solid for Teddy.

"You may say I will be glad to see any of my friends up on the mountains But they must first get a permit to carry weapons for hunting from Dr. Bartlett of San Jacinto, the supervisor of the reserve. Game of all kinds is plentiful.

"What would I do to men found hunting on the reserve without a permit? Well, according to the rules I would have to take their weapons away from them. No, I cannot issue permits for carrying weapons.

"Plenty of water for irrigation is what will make the country grow. Uncle Sam is doing his part."

And as the evening shadows were beginning to fall, Walter set out for the hills. Having had his horses shod he has by this time resumed his duties as forest ranger. He has lived in the Trabuco for about thirty years, and has a wife and seven children to cheer and comfort him. One of them took a conspicuous part in the county high school oratorical contest at Fullerton last night.

"Say, I'm a bit proud of that boy," said she old man, his voice mellowing a bit. "Chip off'n the old block, eh?" inquired the scribe.

We have our eagle eye on the young man and shall say something pretty nice about him before many days.

For Walter Robinson and his entire menagerie are of the salt of the earth.

Supervisor a Detective

Supervisor Linebarger did a piece of good detective work the other day when in company of Deputy Sheriff James Crawford and Will Dunham he went to Los Angeles and recovered a horse stolen from him at Fullerton some days before. The supposed thief is Jack Banning who has worked in Fullerton at well-digging for the past two months.

Linebarger missed his horse and buggy Saturday morning and soon found that Banning was also missing, although he had not purchased a ticket at the depot. Linebarger went to Los Angeles Sunday with Crawford and Dunham, and they searched the city all day and evening. At midnight Sunday they found Banning in a tough joint and nabbed him. He denied having the horse, but when Linebarger stated he had a witness who would testify he saw Banning untie the horse and drive away Friday night he confessed and offered to tell where the horse and buggy were, provided Linebarger would not prosecute him, to which the Supervisor would not agree.

Finally the culprit was prevailed upon to tell where the rig was and Linebarger went to get it. He found that his horse, a valuable animal, had been driven nearly to death and was not able to be brought back. It is believed the rig was sold or given to a fast woman near Los Angeles. Banning was brought to Fullerton for prosecution.

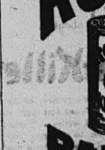

New Store

The new gents' furnishing goods and tailoring establishment of Yungbluth & Kroeger is one of the handsomest in the county. A new stock of goods is being received, and the firm continues to do a rushing business.

Have you listed your property with W. C. Eymann, three doors east of the postoffice, Anaheim. If not, why not?

THE OLD RELIABLE

ROYAL

BAKING POWDER

Absolutely Pure

THERE IS NO SUBSTITUTE

PURELY PERSONAL MENTION

Arthur McDermont is harvesting his hay of which he expects to have some 300 tons.

Mrs. J. B. Neff returned some days ago from a visit with relatives in San Francisco.

Mrs. Dr. Bullard of Los Angeles is visiting with relatives in this city, accompanied by her infant son.

Dr. Bullard came down from Los Angeles in his automobile on Saturday to spend a few days with relatives.

Fritz Ruhmann has purchased from Paul Wolfe the cottage and lot on Philadelphia street adjoining the Methodist church.

J. C. Sheppard commenced work Thursday on a cement canal for the Los Angeles County Farm that will be 980 feet long.

Mrs. Eleanor E. Q. Perry on Saturday was granted a divorce from Charles H. Perry, her husband, on the ground of desertion.

Pierre Nicholas has sold to Jacob Stern of Fullerton forty acres of land in the Rancho Los Coyotes. The consideration is $4000.

Petition for letters of administration in the estate of Dr. J. A. Crane, deceased, was filed by Richard Egan of Capistrano, representing the widow, Mrs. Mary Crane. The estate is valued at $8,500.

Adolfo Preciadi, a Mexican arrested near Tustin on a charge of insanity was examined in the superior court on Friday and found to be slightly demented, but not enough to be sent to the state hospital. The man was sent to his home in San Diego.

The passenger department of the Southern Pacific in San Francisco announced last week that since February 15th, 32,852 colonists have entered California by its lines. During the week ending June 7th, 1550 homeseekers traveled to California over the Southern Pacific.

Robert E. Geistlich, chief operator of the Associated Press for the coast division, with offices at San Francisco, was in Orange last week as the guest of Chas. W. Thayer. Mr. Geistlich made the trip from San Francisco to Los Angeles by wheel, also coming down from Los Angeles and returning by the same method.

Mrs. Mary Fiokus, wife of David Fiokus, a Delhi farmer, was examined Monday by a commission in lunacy and declared insane and committed to the state hospital at Highland by Superior Judge West. The unfortunate woman has been in an asylum twice before, but was thought by her friends to have entirely recovered her reason.

Mrs. Zeus entertained the Ladies' Euchre club at her home on Center street on Thursday afternoon at which a very pleasant time was spent by all present. After the refreshments were served the prizes were awarded the lucky winners. Mrs. Hatzfeld won the first prize, Mrs. Lewis the second and Mrs. Fred Rimpau the booby.

J. C. Joplin, who is in charge of the county exhibit for the St. Louis World's fair, has found on the ranch of Henry Hansen of Buena Park a sample of Australian Buchhorn which makes a useful and ornamental hedge. It's feature is that it prevents people from entering the orchard, being covered with thorns. The exhibit will be added to the display made by Orange county at the fair.

Paul Turk returned some days ago from Terre Haute, Ind., where he has been attending polytechnic school for the past nine months. Fred Lewis is expected home today. Stuart Cargill, who attended the same school, has accepted a position with the Vandalia railroad during the summer. The boys will all resume their studies after the summer vacation.

Mr. and Mrs. Alex. Gardiner of Orangethorpe-avenue gave a reception to relatives and friends on Wednesday evening last in honor of their son, Sandy Gardiner, who returned on that day from Missouri, where he is taking a course of mining in the Rolla school. All the members of the family were present, including Mrs. Shrode of Long Beach. Refreshments were served and an enjoyable evening was spent by all.

Dr. W. D. Babcock, the well-known Los Angeles oculist, was in town on Sunday accompanied by his wife, to spend a short visit with friends. The doctor is an enthusiastic admirer of the beautiful in nature, and came to select specimens of flora for his garden from a section where flowers are one of the features of the landscape. When he left for his home on the afternoon train he was loaded down with an armful of lovely white poppies which he had gathered earlier in the day.

Walter Melick, secretary of the State Board of Examiners, inspected the Sisters' Catholic Orphanage on Monday. He stated that he found the institution being conducted in a model manner. He reported that he found there were 123 half orphans, 21 whole orphans and 8 abandoned children in the institution, which is paid $6.25 per month for the first-named class, and $8.33 a month for the other two classes. The total paid by the State for keeping these children here is a little over $13,000 a year.

Willard R. Lowry of Alhambra and Maude McGahan of Long Beach arrived in Santa Ana some evenings ago and went to the Richelieu hotel. Taking the landlord into their confidence they asked that a minister of the gospel be summoned forthwith so that they might be married. Rev. Wotton was sent for but finding that the lady had been recently divorced, had conscientious scruples against marrying them. Another minister was then called and the ceremony was performed with due solemnity.

J. C. Joplin, superintendent of the exhibit of Orange county products planned for the St. Louis World's Fair, has begun collecting material. All fruits and grains will have to be taken from this year's crops, and accordingly as each variety comes into season, the commissioners plan to select choice samples and preserve them. Selected samples of oranges and early apricots have already been put up, as well as samples of the principal grains of the county, both in the sheaf and in bulk. The commissioners desire parties having fine fruit or other products to send them in.

Mrs. Fred Schmidt spent some days in Los Angeles last week.

A daughter was born Saturday to Mr. and Mrs. Burton Heald of Loara.

Jake Yager left on Wednesday for a six weeks mining trip to Kingman, Arizona.

Mrs. Mary J. Fyffe of Orange has filed suit for divorce from her husband, John J. Fyffe.

Mr. and Mrs. Lloyd of Los Angeles visited with Mr. and Mrs. J. K. Tuffree during the week.

Mrs. John Hart came down from Los Angeles on Sunday to visit for a few days with friends here.

Horace Green has been here from Long Beach during the week on a business and pleasure trip.

J. M. Chapman and family of Chicago visited with his brother, C. C. Chapman during the past week.

Ralph McFadden returned home from Stanford on Thursday to spend the summer vacation on the ranch.

Dr. Tyler is in San Francisco taking a post graduate course in medicine. The doctor will be absent five weeks.

Richard Hatch of La Habra has enlisted in the navy and expects to ship on the training vessel Alert the present month.

Charles B. King, representing the Crocker paper house of San Francisco, was in town on business the fore part of the week.

Mrs. C. Langenberger is in San Francisco on a visit to her son, Gus, who is employed in a wholesale carpet house in that city.

Walter Baker and Mrs. Nellie R. Schmidt, both of Santa Ana were married at the home of the bride in that city on Saturday last.

Mrs. F. M. Schrode and sons of Long Beach are the guests of Mrs. Schrode's parents, Mr. and Mrs. Alex Gardiner of Orangethorpe avenue.

M. T. McFadden, brother of Mrs. A. T. Pendleton who has been visiting here for some time past, returned last week to his home in Pittsburg, Pa.

German Evangelical Lutheran services will be held by Rev. J. Kogler on Sunday at 2:30 p. m. in the Episcopal church. Sunday school at 2 o'clock.

The Rev. C. C. Chapman will preach at the Christian church on Sunday morning; Rev. R. A. Hopper will fill the pulpit in the evening.

The engagement of Miss Anna Bayha and Horace Allen, Santa Fe agent at Arlington, was announced last week at a party given by Mr. and Mrs. J. H. Clabaugh.

Miss Celina Van der Berg and Gustaaf de Wageneer, well-known young people of the peatlands, were married last week at the home of the bride in Westminster.

Miss Ethel Chapman gave a birthday dinner at her home on the Santa Isabel rancho on Thursday evening last. After dinner a musical program was enjoyed by those present.

G. H. Wells has been elected school trustee of Garden Grove district to succeed Dr. H. W. Head, who has served continuously for the past twenty-four years in that capacity.

The president and directors of the Santa Ana steam laundry company were in Fullerton last week in regard to establishing a steam laundry in that town for northern Orange county.

Mr. and Mrs. Jacob Everhardy entertained a number of friends on Sunday at a tally-ho ride to Santiago canyon, where a picnic was enjoyed. A very pleasant time is reported by all.

Dr. W. H. Crowley and wife, who have been visiting with Mr. and Mrs. Grim for three weeks past, departed some days ago for their home in Chicago. Dr. Crowley is a brother of Mrs. Grim.

Mine Host Adams opened the Commercial hotel with a turkey dinner on Sunday, at which a numerous company of guests sat down with relish. Mr. Adams is a thorough going hotel keeper and is conducting a thoroughly first-class hostlery.

Mr. Pulley who recently arrived from Riverside and purchased a twenty acre tract at Garden Grove, was in town yesterday to purchase a gasoline engine. He has a well on his place 175 feet deep, and water comes to within ten feet of the surface.

West Brothers have bought 10 acres of land at the junction of Brea canyon and La Habra valley roads north of Fullerton. They will commence manufacturing brick as soon as necessary machinery can be installed. As soon as business warrants they will install modern brick-making machinery. They expect to make their first kiln of 100,000 brick.

Frank Dyer has retired from the barbering business and has taken a position as driver of one of the county sprinkling carts operated by his brother, Harry Dyer, road overseer. Frank still retains his rollicking laugh as when, calmly removing the lather out of his customer's eyes, he solemnly ejaculated "Next!" Don't fall off the water cart, Frankie.

BACCALAUREATE SERMON

Rev. Cory of Santa Ana Preabhes to High School Graduates at Christian Church-Reception-Commencement

The occasion of the baccalaureate service last Sunday evening brought together an audience of Anaheim's best citizens that filled the Christian church to overflowing. The interest manifested by the people of Anaheim in that which pertains to its educational institutions and affairs is an earnest of good things in store for Anaheim.

Ribbons of "true blue," the class color of the seniors marked the seats reserved for the class and the teachers.

Rev. Chapman, recently installed pastor of the Presbyterian church, was in charge of the service. Rev. Johnson of the Methodist church made the invocation. The choir under the able leadership of Mr. Grimshaw, rendered a beautiful anthem. Mr. Dickel in his usual pleasing manner sang an appropriate solo, "The Unseen Land."

The sermon by Rev. B. C. Cory of Santa Ana, was a scholarly and earnest address. The subject, "The Supreme Book," was appropriate to the occasion. Mr. Cory spoke of the text books in the various fields of knowledge and how that every decade made all the older books practically worthless because of the continued advance in all lines of physical and metaphysical science. He then contrasted the Supreme Book, or "The Book" as Sir Walter Scott termed it, with other books. Years and centuries roll by, but this book is ever new. This was accounted for by him by calling attention to the eternal truths of the Scriptures. Its ethical and moral teachings pertaining to justice and mercy and love and forgiveness, its teachings of the fatherhood of God and the brotherhood of man and the eternal life are true at all times make this book like no other book.

On Monday evening the pupils and teachers of the school tendered the senior class a reception at the Del Campo. The classes vied with each other in making the event a happy one. The energy and taste of the Sub Junior class was manifest in the elaborate and beautiful decorations; the refreshments, delicious and bountiful, reflected great credit upon the Juniors; while in the matter of entertainment the Middle class proved themselves more than equal to the occasion. The chief feature of the evening was progressive anagrams. Fred Rimpau won first prize, Eugene Bayha second and Mr. Spielman received the consolation.

The following fine program for commencement exercises is to be given on Friday evening, June 19th. A nominal charge of 15 and 25 cents will be made. This is to help defray expenses and give the people that care a chance to be sure of seats.

PROGRAM—PART I.

Violin Solo.....Aileen Northrup
Invocation.....Rev. Mr. Chapman
Salutatory.....Faith Roberts
Vocal Solo.....Louisa Paschall
Valedictory.....Otillie Stechert

PART II.

Address, "Success".....Rev. George W. White
Violin Solo.....Miss Northrup
Presentation of Class.....Chas. T. Taylor
Acceptance..Pres. of Board J W Duckworth
Awarding of Diplomas.
Violin Solo.....Miss Northrup

J. J. Bowen, one of the first settlers of Buena Park, has sold his home, and will move away.

Ira Chandler and sons of Santa Ana are opening a new furniture and carpet house in the Ruhman block on Los Angeles street.

Max Bayha, son of George Bayha of Yorba, has gone to New York to meet his bride-to-be on her arrival from Germany. After a tour of the East, Mr. and Mrs. Bayha will come to Yorba to reside.

Fred H. Houck of this city has been granted letters testamentary, without bonds, by Superior Judge West upon the estate of his mother, Mrs. Johanna Houck who recently died at her home in Oregon. H. W. Chynoweth is attorney for the estate.

Horace Allan of Arlington was united in wedlock yesterday morning to Miss Anna E. Bayha, daughter of Mr. and Mrs. J. P. Bayha of this city. Rev. F. W. Johnson of the Methodist church performed the ceremony. The newly-wedded couple will reside at Arlington, where the groom is agent for the Santa Fe.

THE TYRANT OF THE HOUSE.

While baby sleeps
We cannot jump or dance or sing.
Play jolly games or do a thing
To make a noise. The floor might creak
If we should walk. We scarcely speak
Or breathe while baby takes a nap
Lest we should wake the little chap.
A strict watch nurse always keeps
While baby sleeps!

When baby wakes,
But little gratitude he shows
When other people want to doze.
At night, when folks have gone to bed,
He rouses them all up instead
To wait on him. Ma lights the lamp
And warms milk for the little scamp.
Pa walks him up and down the floor,
Sometimes two hours and sometimes more.
And nurse comes running, in a stew,
To see what she for him can do,
And Will and Harry, at the row,
Call, "What's the matter with him now?"
And I'm waked up at all the clatter
To wonder what on earth's the matter.
Such uproar in the house he makes
When baby wakes!

So, if asleep or if awake,
The house exists but for his sake,
And such a tiny fellow he
To be boss of this family!
—Eva Lovett in Independent.

FRENCH HUMOR.

M. Franciaque Sarcey and His Grotesque Effigy In the Carnival.

It is often said that Frenchmen lack humor and dread ridicule, but M. Franciaque Sarcey has given an example of that humorous good sense which defies mockery. At carnival time in Paris it is customary to exhibit on the boulevards grotesque effigies of well known public men. A modest stranger called on M. Sarcey to tell him that his image was to figure in the procession.

"Very good," said M. Sarcey. "What can I do for you?"

"Well, if you would be so kind as to lend us some of your veritable garments, they would make the likeness all the stronger."

"No doubt," responded the critic blandly. "In that cupboard you will find several hats."

"Oh, the veritable hat will not do! You see, your head—I mean the head of the effigy—is enormous."

"Tres bien. Take a coat, then."

Dressed in the veritable coat, the Sarcey dummy was an immense success. It seemed so strange to literary Paris, however, for a man to aid and abet the caricature of himself that M. Sarcey has volunteered an explanation, which is a delicious bit of humor. "Lamartine," he remarks, "would not have consented to lend his coat for such a purpose. He was a poet with a sensitive soul. So was Victor Hugo. But what would you? We cannot all be Lamartines and Hugos. Why should we poor journalists, who have no feelings to speak of, deny ourselves to the populace when we can contribute to their harmless amusement? Besides, they may not always think it worth their while to notice us.

"An agreeable trifler came to me the other day and asked my permission for the use of my name in a burlesque. I gave it cheerfully. 'This may be the last time,' said he. 'What do you mean?' I asked. 'Well, you are going out of date, and next year you may not be worth a laugh!' '—Exchange.

Driven to Desperation

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, ulcers, wounds, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at J. P. Hatzfeld's drug store.

BURNS AND SCALDS.

Remedies That Should Be Used Before the Doctor Arrives.

A burn may result from excessive heat applied in any way—hot air or hot water, steam, flame or electricity—or even from extreme cold. The injury resulting from contact with hot water or steam is usually called a scald, but is practically the same in its results as a burn.

Surgeons speak of different degrees of a burn, according to the amount of tissue destroyed by it. Thus a burn of the first degree is one that simply reddens and irritates the skin; a burn of the second degree is one that causes actual inflammation of the skin with the formation of blisters, while a burn of the third degree destroys the skin and more or less of the flesh beneath it, or even chars and kills all the tissues, including the bone itself.

The effects of a burn depend partly upon its degree, but not entirely, for a burn even of the first degree may cause death if it involves a very large portion of the surface of the body. This it does by interfering with the necessary excretion of waste matter which is constantly taking place through the skin.

A curious effect of a severe burn in any part of the body is ulceration of the bowels following very intense congestion of the entire digestive canal. The bronchial tubes and the lungs are sometimes injured by the inhalation of steam or very hot air, but even apart from such an accident a person who has been burned about the chest or back is very liable to have an attack of bronchitis or pneumonia in consequence.

The first thing to be done in the case of a burn of any degree is to stop the pain. This should be done not only from the natural impulse to relieve suffering, but because the shock resulting from the injury may be so greatly increased by the agony as to cause the death of the patient, even when the burns in themselves would not do so.

Covering the part with any bland substance, such as olive oil, vaseline, sweet butter or flour paste, to keep out the air will often afford great relief, and in burns of the first degree nothing more may be needed. Carron oil, the name given to a mixture of equal quantities of linseed oil and limewater, was formerly and is still in many workshop the favorite application for a burn. Better still is bicarbonate of soda (cooking soda) or calcined magnesia, made into an ointment with vaseline or lard or dusted thickly over the skin.

Another application which is often exceedingly grateful is a solution of nitrate of potash (nitre). Hunters often make a paste of gunpowder for this purpose. One or other of these applications will usually suffice in mild cases, and in severe burns will help to reduce the pain for the time until the doctor comes. —Youth's Companion.

Hood's

Sarsaparilla is unquestionably the greatest blood and liver medicine known. It positively and permanently cures every humor, from Pimples to Scrofula. It is the Best.

Blood Medicine.

HARDPAN.

Hard Common Sense and Bottom Facts For Creamery Patrons.

In times of low prices for butter there is always more or less discontent among the patrons of creameries. This is natural enough. But the amazing thing about it is that not one in a hundred is willing to look at home for the reason of low profit or no profit at all. In many portions of the west the patrons lay the blame all to the proprietary creamery. They say they want a change to the co-operative system, and at it they go. But nowhere scarcely do we hear of any sharp analytical discussion on their own farm methods. No one gets up in these co-operative meetings and talks like this for instance: "Men and brethren, I have been studying up on the kind of cows we have and the amount of intelligence we are putting into this dairy business, and I tell you no man ought to expect anything but straight out loss if he does as we are doing.

"We are all the time looking at the creamery end of the business, instead of the farm end. If the creamery made our butter for nothing, and the railroads transported it to market free, then even we could not make a cent on such poor cows and poor returns as we get from them.

"The trouble all lies at our own farm end. We have been tackling a business that calls for No. 1 good sense and understanding, and No. 1 good cows to get any profit out of it, when the Lord knows we haven't either.

"How in the name of common sense can we expect the creamery to make any money out of such folly. We are doing nothing to educate ourselves, to better our judgment, and our cows are no better, if indeed they are as good, as they were years ago.

"We are taking hold of this question at the wrong end. Let us go vigorously to work to get, better and more correct ideas about cow management and do something at once to secure cows that more than pay their keeping in this time of low prices."

Such talk as that in a creamery meeting would be mightily in order everywhere, but thousands of cow owners are so blind they can't see it. Let us see for a moment just what such kind of dairy farming, with the everlasting "general purpose cow" amounts to.

During the past year the Strawberry Point creamery in Iowa made $15,866.42. Divide the dollars by the pounds and we find the patrons received net 11.9 cents a pound for their butter, and their skimmilk back. Call it 10 cents a pound for the sake of easy reckoning.

Now, suppose those Strawberry Point cows are just about what the average cow is in Iowa, producing only from 150 to 175 pounds of butter in a year. What sort of reward are those farmers who stick by that kind of a cow going to get for their year's work? Seventeen dollars and fifty cents worth of butter and the skimmilk and a calf in return for all the food and labor expended on such cows for a year.

The trouble at Strawberry Point and all over the country is this low average general purpose cow.

Farmers go into the business blinded by a lot of old, wornout notions that don't fit these days. If the trotting horse men insisted on going on to the track with a lot of draft bred horses and banking their money on such animals, they would be in a like fix. But the horsemen can't be led into such folly.

But the mischief is we cannot get these general purpose farmers to stop and think or read. They are still of the opinion that beefy cows and no reading or study will win money out of the dairy business. How much longer must they strike blindly right and left before they see where the truth lies. How different it is with the man who has accepted dairy truth for his guide and does business with a dairy cow yielding from 275 to 300 pounds of butter a year.—Hoard's Dairyman.

Tax on Babies

Extreme hot weather is a great tax upon the digestive power of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. 25c at J. P. Hatzfeld's.

BELIEVES IN WOMAN SUFFRAGE

Governor Garvin of Rhode Island has put himself on record as a believer in woman suffrage. In a recent address before the Rhode Island Woman Suffrage association he said: "I think woman suffrage will be adopted in Rhode Island and in other New England states. It has been tried in other states, and has worked well, and sooner or later it will prevail throughout the Union."

Cures When Doctors Fail

Mrs. Frank Chlasson, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle at J. P. Hatzfeld's.

Corner in Lemons

The Fruit Trust, it is said, has cornered the supply of lemons in the United States, and as a result prices have been increased over 100 per cent. The trust has placed the lemons in cold storage plants, and will not dispose of them except at its own figures.

"There is no such thing as a corner in lemons," said D. E. Evans of the D. E. Evans Fruit company of Chicago the other day. "The fact is about 250,000 boxes of lemons are on the water continually en route to this country and there are auctioned off in New York weekly from 50,000 to 65,000 boxes. These go to the highest bidders. In addition, California is constantly shipping East about 1800 carloads. The proposition of a trust controlling the lemon market is therefore absurd.

Startling Evidence

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland Bentorville Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefitted. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by J P. Hatzfeld, druggist. Trial bottles free, regular sizes 50c and $1.

FACTS ABOUT ANAHEIM.

Sketch of the Industries and Resources of this Most Beautiful Part of California.

The City of Anaheim, with a population of 2500, is situated in the northern part of Orange county, in Southern California, 12 miles from the ocean, 4½ miles from the foothills, and 148½ feet above sea level. It is 27 miles from Los Angeles, the second largest city in the State of California.

The climatic conditions are the most favorable for out-door life to be found in Southern California. The temperature is extremely uniform, seldom rising above 90 degrees in summer, or falling below 32 degrees in winter. The abundance of sunlight and the absence of sharp frosts and cold winds make it a place especially acceptable to those desiring to escape the severe climate of the east.

The country is very attractive. It is practically level, with just sufficient slope from the hills to afford adequate drainage. The roads are level, well graded, and well kept, affording excellent opportunities for cycling and driving. The soil is a rich sandy loam which never bakes, making it a very easy ground to work; thus lending itself readily to the cultivation of berries, nuts, oranges, etc.

The variety of products, and the possibility of procuring small tracts of land at low figures, and on easy terms, make our section of the county very attractive and advantageous for truck raising, or for farming on a small scale. The following are a few of the products: oranges, lemons, walnuts, grapes, peaches, apricots, sugar beets, berries and vegetables of all kinds.

Anaheim is the possessor of a Building and Loan Association, Water company, two railroads, fruit cannery and drier, large oil industry, ostrich farm, bank, several adequate commercial houses, two hotels and two newspapers. The city also owns its water and lighting plant.

FACTS ABOUT ORANGE CO.

The census bureau has issued a bulletin on agriculture in California which we quote from extensively in another part of this issue. One of the interesting features of the report is the paragraph giving the number of farms and acres of farming lands in the five Southern California counties. The pre-eminence of Orange county is apparent:

Counties.	No. farms.	Acres.
Los Angeles	6577	890,093
Orange	2988	569,436
Riverside	2240	427,097
San Bernardino	2350	219,132
San Diego	2598	889,419

But it is in the acreage of irrigated lands that Orange county takes easy precedence over the other counties of Southern California:

Counties.	Acres.
Los Angeles	85,644
Orange	41,549
Riverside	32,947
San Bernardino	37,977
San Diego	16,022

The area of Orange county is 780 square miles; that of Los Angeles, 3880; that of Riverside, 7008; that of San Bernardino, 20 055, and that of San Diego, 8400 square miles.

Orange county thus contains one-fifth the area of Los Angeles; yet its irrigated lands approach in area to one-half those of its neighbor to the north.

Riverside embraces nine times its area, yet it irrigates 9000 more acres. or a fourth more than the belauded county on the east.

San Bernardino is 25 times its size, yet its irrigated acres exceed those of this jumbo county by nearly 4000, approximately ten per cent.

San Diego is eleven times its size, yet it irrigates 25,000 acres more than the county on the south—300 per cent is the former's irrigated area as compared with that of the latter—almost the irrigated area of San Diego and Riverside combined.

Orange county possesses the finest system of irrigation, the most secure water rights, that exist in Southern California. That is what we have said many a time and oft. These figures prove it. It is the handsomest and most productive county that lies outdoors and is settling up faster than any other in the State.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay $500 in cash for any case of these diseases which he cannot cure.

It Stands Alone—The "Favorite Prescription" stands alone, as the one and only remedy for these distressingly common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in proposing, and binding themselves to forfeit, as we, the undersigned proprietors of that wonderful remedy hereby do, to pay the sum of $500 in legal money of the United States in any case of the above diseases in which after a fair and reasonable trial of our treatment, we fail to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee; no other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

Therefore, *insist* on having Dr. Pierce's Favorite Prescription and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to foist upon you some inferior substitute, under the plea that "it is just as good." Insist on having the article which has a record of a third of a century of cures and which is backed by those willing to forfeit $500 if they cannot cure you.

In cases attended by a leucorrheal drain a solution of Dr. Pierce's Lotion Tablets should be used conjointly with the use of the "Favorite Prescription." They are sold by all druggists, or sent post-paid to any address, on receipt of 25 cents in stamps. Send 21 cents in stamps for Dr. Pierce's Common Sense Medical Adviser. Address World's Dispensary, Buffalo, N. Y.

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Pellets cure biliousness.

WHAT AN EDITOR DOES FOR THE COMMUNITY.

Editors are said to be cynical. Is it any wonder? What profession meets with such constant and universal ingratitude? Through the life of what other man does this black sin so persistently drag its slimy form? No other avocation is so full of unselfishness and helps so many reputations. No other is given to so many expressions of kindness and sympathy and benevolence. The editor has a word of encouragement for every work enterprise and philanthropy, and words of approval for every public act, sending sunshine and happiness into thousands of lives.

That newspaper is never printed which has not something in it to help some one. Scientists, scholars, divines, politicians, tradesmen, statesmen, by the millions, owe their fame and prosperity to the editor. Nor does he help those only the world would call great. He is a friend to the friendless, and a constant benefactor to all classes. And his kindness stops not at the grave. His is the hand which pays the last tribute of affection, often to an enemy. And yet how rarely is he thanked! How few manifest any appreciation of what he does for them! His benevolence is accepted as a matter of course. How many repay him with the basest ingratitude! Is it any wonder that he is full of cynicism and even of bitterness when he thus continually encounters the coldness, and meanness, the emptiness of human nature? — Newman (Ga.) Chronicle.

That Throbbing Headache

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by J P. Hatzfeld, druggist.

WILL HANG IN DRESS SUIT.

Sheriff Coburn of Riverside county is in receipt of the following communication from the warden at San Quentin prison:

"Fred Fischer, the murderer from your county who is to be hanged here July 14, has personally appealed to me to write to you to have his dress suit sent to him, as he wishes to be hanged in it."

Fischer's request will be granted. He is said to continue to maintain an air of quiet unconcern and is considered by the officials as one of the most remarkable prisoners confined within that prison. His execution will be the first on record in California which has not taken place on a Friday.

Constipated Bowels

To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main street, Wichita, Kansas, writes: "I have used Herbine to regulate the liver and bowels for the past ten years, and found it a reliable remedy." 50c at J. P. Hatzfeld's.

City Marshal Maxwell of Santa Ana who some days ago brought a claim against the supervisors in the amount of $500 for services claimed to have been rendered in serving papers issued from township courts, had the same turned down by the board, and may bring suit against the county to recover. District Attorney Head advised the board that the law covering the case was contradictory and recommended laying the claim upon the table.

Worst of All Experiences

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years", she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was marvelous. I improved at once and now I am completely recovered." For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c. Its guaranteed by J P. Hatzfeld, druggist.

Santa Ana Steam Laundry Agency

I run a laundry wagon that will call for and deliver your laundry twice a week. Laundry coming in as late as 9 o'clock Thursday morning will be delivered to you Saturday at 5 o'clock.

E. W. McCollum.

LOOKING GLASSES.

Backed With Pure Silver Now Instead of With Mercury.

"How is a looking glass made?" was the question recently put by a writer to a large manufacturer of mirrors in New York.

"Well," replied the manufacturer, "most of the glass used in this trade is prepared for us at a molding factory, and we merely cut, bevel and silver it in our works. All the work are out in the same way—first with sand and water, then on an emery wheel and afterward put through several processes to bring back the polish.

"Great improvements have been made in this line of business in the last 16 years. Formerly it took two or three days from the time work was begun on a mirror before it could be finished. Nowadays we can get the glass in the morning and make it into a looking glass perfectly finished and ready for sale before night. We make all sizes, from the smallest hand glass of 2 by 4 inches to a mirror 10 by 20 feet, or even larger, and we have a capacity of turning out 3,000 feet a day.

"Not many years ago the backs of mirrors were coated with mercury. Now sheets of pure silver are used instead. The old looking glass reflected 60 or 65 per cent of the light that fell upon it; the modern mirror reflects nearly 95 per cent. The mercury looking glass was very liable to rub off. Heat and cold also affected it. The quicksilver would crack or melt, and thus the beauty of the glass would be spoiled. None of these dangers threatens the silvered mirror. Besides mirrors, those engaged in this line of business cut a great deal of beveled glass for doors and windows. In fine buildings this is largely taking the place of stained glass."—Washington Star.

Fat Wives.

The people in portions of Africa have many curious customs and superstitions, and among the former may be mentioned the fashion of having fat wives. Being introduced to a great chief's wife, Speke thus describes her: "I was struck with the extraordinary dimensions, yet pleasing beauty, of the immoderately fat fair one. She could not rise, and so large were her arms that the flesh between the joints hung down like large, loose, stuffed puddings. The chief, pointing to his wife, said: 'This is the product of our milk pots. From early youth we keep these pots to their mouths, as it is the fashion at court to have very fat wives.' The daughter of the king sat before me sucking at a milk pot, at which the father had kept her at work by holding the rod in his hand, for as fattening is the first duty of their fashionable feminine life it must be duly enforced by the rod if found necessary."

A STIRRING INTERVIEW.

The Adventure of a Yankee Lieutenant at Gibraltar In 1806.

Two noteworthy facts mark the battle of Lake Champlain and that of Lake Erie. They were the only squadron battles of the war of 1812, and the two victorious American commanders were very young. Perry was 28 and Macdonough 30.

When Macdonough was but 28 years of age, an adventure at Gibraltar, in 1806, described in Mr. Spears' "History of Our Navy," showed the character of the man. He was first lieutenant of the Yankee brig Siren, and one day while the captain was on shore at Gibraltar a Yankee merchantman came into the port and anchored near the Siren. A boat from a British frigate near by went directly to the merchantman and in a few minutes pulled away again, having one more man in it than when it left the frigate.

Macdonough noted the fact and sent Lieutenant Page to the merchantman, who returned with the information that the British had impressed one of the crew of the merchantman.

Macdonough ordered the Siren's gig away manned with armed men, and getting into it himself overtook the British boat alongside of the frigate and took out of it by force the impressed seaman and carried him to the Siren.

Later the captain of the British man-of-war came on board the Siren and in a great rage demanded to know how Macdonough had "dared to take a man from one of his majesty's boats."

"I will," said he, "haul my ship alongside the Siren and take the man by force."

"I suppose," answered Macdonough, "your ship can sink the Siren, but as long as she can swim I shall keep the man."

"You are a very young man and very indiscreet," said the bully. "Suppose I had been in the boat. What would you have done?"

"I would have taken the man or lost my life," replied Macdonough.

"What, sir, would you attempt to stop me if I were now to try to impress men from that brig?" thundered the captain.

"I would," answered the calm Macdonough, "and to convince yourself that I would you have only to make the attempt."

At that the British captain got into his boat, rowed away to his frigate and then turned and rowed toward the merchantman. Macdonough at once manned a boat with an armed crew and rowed out to protect the brig. The Englishman rowed around the merchantman without boarding her and then put back to his frigate. He had tried to impress the Yankee sailor not because he wished to add more to his crew, but to show his contempt for the little Yankee war ship.—Youth's Companion.

Santa Barbara Excursion Season 1903.

The Southern Pacific Company will sell special round-trip tickets to Santa Barbara and return as follows: Return limit 30 days from date of sale. The fare from Anaheim will be $3.25 with stop-over privileges in both directions at Ventura and Santa Paula only. Dates of sale June 12th and 13th, July 3rd and 4th, August 7th and 8th, September 4th and 5th. my14-ms4

BEER GOING TO SWITZERLAND

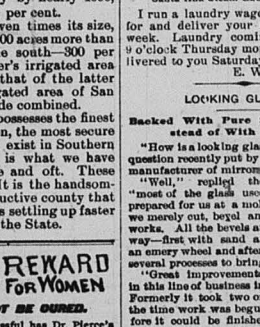

Christian Beer, the man about whom a wild fake story about "foul play" was sent from here sometime ago to the yellow journals, is on the way to Switzerland, and if any officers are looking for him they are keeping it strictly "quiet."

Several weeks ago Beer sold his place near Olive and deposited the proceeds, $5000, in the Orange bank. He and his wife came here and purchased a small house for about $1000, and he paid $50 down, agreeing to provide the balance later. Then he went and drew the $5000, and has not been seen since. He told his friend, H Eitshusen, that he was going to his former home, Switzerland, and that he is enroute is shown by letters received from him by Eitshusen.

Beer and his wife hold a mortgage on certain property in this county and he has forwarded to her by mail, the necessary papers so that she can draw the money. He failed to leave her any of the $5000, and there was considerable public indignation expressed about it at the time. Mrs. Beer will, it is understood, make her home in Los Angeles. Beer and his wife did not live happily together. Both had been previously married.

A Splendid Remedy

Neuralgic spasms, rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone, and being absorbed into the blood, its healing properties are conveyed to every part of the body and effect some wonderful cures. Mr. D. F. Moore, agent Illinois Central railway, Milan, Tenn., states: I have used Ballard's Snow Liniment for rheumatism, backache, etc., in my family. It is a splendid remedy. We could not do without it." 25c, 50c and $1.00 a J. P. Hatzfeld's.

Mrs. Fred Unrath,
President Country Club, Benton Harbor, Mich.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the ordeal of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.

WINE OF CARDUI

TABLE TALK OVER THE COFFEE.

The talk that evening began with the fad of the "Vegetarians" and their beliefs. It soon developed that the beautiful Miss Schuyler thought herself a "Vegetarian." "But," said Dr. Smith, "what do you eat?" "All kinds of vegetables and fruit," said she, "then I drink milk, have eggs for breakfast, besides at other meals I eat butter, pudding, cheese and cake, and tell every one they ought to do as I do, I feel so much better." The doctor looked astonished. "And you call that vegetarian? My dear young woman don't you know that butter, eggs and milk are *animal* foods? Then, too, it is a mistake to urge others to follow you. What is good for *you* may not be good for others. The Esquimo of the Arctic regions couldn't support life on a vegetable diet. Some animal food is necessary to keep heat in his body. On the other hand, besides the individual peculiarities and the climate, the conditions under which each person lives, would make it a mistake for you to recommend to everybody to follow your example." "At the same time," continued the doctor, "I have come to the conclusion that fully one-half of the chronic complaints which embitter life are due to stomach disorders which could just as well be avoided." "Now, Dr. Smith," interrupted Miss Schuyler, "I know you're going to tell us all just what to do and that when our stomach begins to trouble us and we have dyspepsia or what not, we are all to march in line, one after the other, into your office and have our stomach pumped out. No thank you, I tried that when I had dyspepsia, heart palpitations and dizzy spells so bad I thought I'd go mad, and then when I struck the pump treatment I thought I'd go madder! But fortunately just about that time I saw something in the paper which made me stop and think. I said, if hundreds of others can be cured by such simple treatment as taking Dr. Pierce's Golden Medical Discovery three times a day, I think I'll try. I did try, and in two months I was sound and well again—without those horrid stomach pumps, and then best of all, I wrote to Dr. R. V. Pierce, at Buffalo, N. Y., and asked his advice in my case, and he told me how to care for myself, how to exercise, diet, etc., and that didn't cost me a cent. Then I bought his book, the "Common Sense Medical Adviser," and now I know just exactly how to live to be a hundred in the shade."

"I can't dispute your statement, for it is undoubtedly true," said the doctor. "I have seen many cases in my practice of dyspepsia and other diseases of the stomach cured by that 'Discovery' of Dr. Pierce. It seems to assist in the digestion and assimilation of the food in the stomach, and not only that but it builds up the general health by enriching the blood and stimulating the liver into healthy action. Nervous feelings of despondency and the blues are done away with because the nerves are fed on rich pure blood and they no longer cry out for their proper food. No man or woman can be strong or feel happy who is suffering from indigestion, because when the stomach is diseased there's a diminution of the red corpuscles of the blood —this is why one don't sleep well, is languid, nervous and irritable."

The World's Dispensary Medical Association, of Buffalo, N. Y., the proprietors and manufacturers of Dr. Pierce's Golden Medical Discovery, are willing to

Forfeit $3,000

If they cannot show the original signature of the individuals who volunteer the testimonials below, and of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"Words cannot express what I suffered for three years from the effects of a torpid liver," writes Jas. E. Hawkins, Esq., President Order of Golden Circle, No. 46, of America, Box 1038, St. Louis, Mo. "Had I but known of your 'Golden Medical Discovery' sooner what misery I might have been spared. I was bilious, tongue was coated, appetite poor, and I had frequent distressing pains in the side and under shoulder blades, but within a week after I commenced Dr. Pierce's Golden Medical Discovery there was a marked change for the better, so I kept on using it, three times a day, for over a month, with an occasional dose of Dr. Pierce's Pleasant Pellets to regulate the bowels, and the results were all and more than I could wish. My appetite is splendid—I feel ten years younger, and am entirely free from pain of any kind. Your 'Golden Medical Discovery' is certainly all that its name implies, and I gratefully endorse it."

Mrs. Alice Everly, of Creedville, Ohio, says: "Sometime ago I wrote you in regard my case, asking your advice, also what I needed in the medicine line. The advice came promptly and after following your directions I finally myself entirely freed of any distressing symptoms of my old troubles, and feel I am entirely cured. I had liver complaint and indigestion of the bowels. Took eight bottles of Dr. Pierce's Golden Medical Discovery, also three vials of Dr. Pierce's Pleasant Pellets. Your remedies have proven very satisfactory in my case, and I am delighted to be my old self once more. I thank you for your good and valuable advice, which was so promptly given. My husband is taking the 'Golden Medical Discovery,' and also feels that it is doing him good. One thing we are very positive of, is that it will give a wholesome appetite when all else fails."

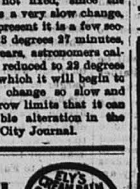

SEND to Dr. R. V. PIERCE, Buffalo, N. Y., for a FREE copy of the "People's Common Sense Medical Adviser." Paper-covered copy enclose 21 one-cent stamps to cover mailing only. Cloth-bound, 50 stamps.

Nasal CATARRH

In all its stages.

Ely's Cream Balm

cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

ELY BROTHERS, 56 Warren Street, New York

A Few Words about **Pain-Killer**

A prominent Montreal clergyman, the Rev. James H. Dixon, Rector St. Judes and Hon. Canon of Christ Church Cathedral, writes:—"Permit me to send you a few lines to highly recommend Perry Davis' Pain-Killer. I have used it with satisfaction for thirty-five years. It is a preparation which deserves full public confidence."

Pain-Killer A sure cure for **Sore Throat, Coughs, Colds, Cramps, &c.**

Two Sizes, 25c. and 50c.

There is only one Pain-Killer. Perry Davis.'

A TRANSPOSITION.

It Mangled the Salutation, but the King Controlled His Face.

An American who years ago served as our minister to Spain was fond of telling the following joke upon himself:

Shortly after he had become settled in his new home he was bidden to a state ceremonial, where he was to be presented to the king. His knowledge of languages was limited to English and French, and being desirous of addressing the sovereign in his own tongue he took pains to "coach" for the occasion. Several phrases were rehearsed until he felt that he had mastered them. When the critical moment arrived, he saluted the king with great dignity, spoke a few words in Spanish and passed on.

"What did you say?" asked an English gentleman.

"I spoke in Spanish," was the rejoinder. "I said, 'I cast myself at your feet,' which I am told is the most respectful form of salutation."

"Ah, no," corrected a Spaniard, who had been observed to smile at the ambassador's greeting. "You are mistaken. You transposed your words, and quite altered the meaning."

"What did I say?" asked the diplomat.

With a twinkle in his eye the Spaniard made answer, 'What you really said was, 'I throw my heels at your head.' "

But the king had not betrayed by so much as the fluttering of an eyelid that anything unusual had occurred.—Harper's Magazine.

No Fixation In Space.

The common idea as to the path of the earth being "fixed in space" is taken exception to by astronomers on the ground that there are few if any things in the domain of astronomy that can really be called fixed space, that fact being that unceasing changes are going on, though these changes are generally so slow as to escape the notice of a superficial observer, but are fortunately periodic, so that they fall within the possibility of computation. Thus the earth's path is not fixed, since the ecliptic undergoes a very slow change, so that, while at present it is a few seconds more than 23 degrees 27 minutes, in about 15,000 years, astronomers calculate, it will be reduced to 23 degrees 15 minutes, after which it will begin to increase again, a change so slow and within such narrow limits that it can produce no sensible alteration in the seasons.—Kansas City Journal.

1902 Improvements.

THE SANDERS-ARNOTT DISC PLOW.

The solid cast frame now being used on the Sanders-Arnott Disc Plow is the most valuable feature added to the Disc Plow since they were placed on sale. See them before buying. No more sprung beams out of line or bolts sheared off. We have a new pattern four gang plow for the largest ranches. Any disc plow without the solid cast frame is old style. Do not be misled into buying one. Made in one, two, three and four gang patterns. The most successful disc plow in the market. Draft reduced 50 per cent. Send for circulars. We have a liberal proposition to offer any rancher who wishes to investigate the merits of this plow. Write for it
