Santa Fe Time Table

Effective Dec. 1, 1903.
Trains on the Santa Fe Route leave Anaheim for points named as follows:
To Los Angeles—7:55 am. 9:57 am. 12:09pm. 5:20 pm.
To San Diego—9:39 a. m. 2:50 m.
To Santa Ana—9:20 am., 2:50 pm., 5:54 p.m.
To Riverside and San Bernardino—11:38 am., 5:54 pm.
To Redlands—*11.55 am.
To San Jacinto and Hemet—*11:35 am.
To Escondido—*2:20pm.
To Fallbrook—*2:20 am.
To Redondo Beach—7:55 am..
Trains marked with a * are daily except Sunday. All others daily.
J. H. CLABAUGH, Agent.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N. Y.
The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.
With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

STATE'S IRRIGATION STATISTICS

No Other Commonwealth Produces Such a Variety of Crops as Counties of Southern California.

The United States Census Bureau has given out the following preliminary statement concerning irrigation in California in 1902:

California, the second largest state in the union, has a land surface of 99,827,200 acres, of which a little more than 1.7 per cent was irrigated in 1902. Its coastwise position, length, width and variety and extremes of elevation combine to give it climatic conditions peculiarly its own. Of these, that condition of a wet season during the winter months and a dry season during the summer months has more to do with the need of irrigation than any other.

No other state produces such a variety of crops and in no other state have agricultural lands, as such, reached the selling price of the semi-tropical fruit orchards of Southern California. On nearly all of the lands that are irrigated some crops will grow in ordinary seasons without the artificial application of water. The more valuable crops, however, usually require irrigation, and with it the yield of all crops is greatly increased.

Except the arid southeastern portion and the humid northwestern portion, California lies in the semi-arid strip west of the distinctively arid region of the United States, and the annual precipitation is sufficient, were the wet and dry seasons reversed, to render irrigation unnecessary in more than the southern half of the state. As it is, there is no county where irrigation is not practiced. The principal irrigation districts, however, are in the San Joaquin valley and southern portions of the state.

The two mountain systems, the Sierra Nevada or Snowy Range along the eastern boundary, and the Coast Range near and parallel to the coast, are the prominent topographic features of California. These mountain systems are joined by transverse ranges in the north and in the south, between which extremes they swing wide apart and form the great central valley of California drained by the rivers Sacramento and San Joaquin.

The soil is very fertile, and many extensive areas are peculiarly adapted to various high priced products, particularly citrus and deciduous fruits. Irrigation has for this reason reached its highest stage of development in California, especially in the southern portion. In the number of irrigated farms and the total construction cost of irrigation systems, California holds first rank; in total area irrigated it is second only to Colorado.

WATER SUPPLY

The annual precipitation varies from 23.5 inches for San Francisco, and far greater in the extreme northwest, to 14.6 inches for Los Angeles and 10 inches for San Diego. For six months after the first of May rain is practically unknown, except showers in the high mountain regions.

In 1902 the average precipitation was .16 inches above the normal. Irrigation water was plentiful during the early part of the growing season, but, as usual, there was a scarcity during July, August and September.

With the exception of a few of the larger rivers, the greatest mean monthly discharge of the streams is for the late fall, winter and early spring months, a natural result of the ordering of the wet and dry seasons. Many streams are dry during the period when irrigation is most needed, and great reservoirs have been built to impound the winter and spring floods and augment the ordinary water supply. There are throughout the state a number of rivers of large volume whose waters are not completely utilized. Most of these have their sources high in the mountains, the slopes of which have been included within the various forest reserves. Reservoirs can be constructed on many of these and the waters held for the reclamation of large tracts of arid lands. While the rapid development of the country creates each year a demand for more water, this requirement has been met, to a large degree, by the continued improvement of the irrigation systems, supplemented by a constantly increasing number of private pumping plants.

Although many of the small streams sink beneath the surface at a short distance from the mountain source, there is an underflow of considerable volume which, when tapped, gives flowing wells or wells of large supply. In some instances this underflow is secured by driving tunnels into the sides of hills and mountains to penetrate the water-bearing gravel.

The limited supply of water has given it a high value and compelled the strictest economy in its use. Many systems of pipe lines and cement-lined ditches have been installed to avoid loss by evaporation and seepage.

GENERAL STATISTICS

Irrigation in California has made remarkable progress since 1899. In 1902 the area irrigated from all sources of water supply aggregated 1,708,720 acres, an increase of 262,848 acres, or 18.2 per cent since 1899. This is an average increase of 87,616 acres per year, while the average increase per year for the decade 1889-99 was only 44,164 acres.

In 1902 there were in operation 6,017 systems with an aggregate of 7,010 miles of main canals and ditches, the total construction cost of which was $23,172,157, or $13 91 for each acre irrigated. Irrigation was reported on 30,404 farms. The increase in number of irrigated farms is 18.7 per cent since 1899, and in total cost of construction 23.9 per cent.

Of the total irrigated area, 1,526,509 acres belonging to 23,383 farms were watered from streams; 17,928 acres on 377 farms from springs, and 164,283 acres, representing 6,644 farms, from wells. The construction cost of the 2,419 steam-systems, including 6,831 miles of main canals and ditches, was $18,280,560, an average of $11.24 per irrigated acre; the 304 spring-systems, with 179 miles of main canals and ditches, cost $701,504, or $5 66 per irrigated acre; while the 3,294 well-systems represented a construction outlay of $5,390,093, an average of $32.81 for each acre irrigated.

This report shows that the number of acres irrigated from wells increased from 152,506 acres in 1899 to 164,283 acres in 1902, while the construction cost of the well systems for the latter year was $5,390,093, or $936,565 less than that of the former. This apparent decrease is attributable to the fact that in the report of 1899 the cost of plants that pumped water from streams was included in the cost of well-systems.

DRAINAGE BASINS

The greater part of California lies west of the Sierra Nevada mountains and is drained by streams entering the Pacific ocean within the state boundary. A small area in the southeastern corner is drained by the Colorado, and a narrow strip along the eastern border belongs to the great interior basin.

For purposes of comparison the state is divided into eight subdrainage basins, as follows: San Joaquin river and tributaries, Pacific ocean streams below San Francisco bay, Sacramento river and tributaries, Pacific ocean streams above San Francisco bay, other San Francisco bay streams, independent streams in Southern California, independent streams in Northern California, and Colorado river.

Of these divisions the streams, wells and springs within the drainage basin of the San Joaquin river supply more than half of the irrigated area of the state, while the total cost of construction of the irrigation systems therein was 38.3 per cent of that of the entire state.

SAN JOAQUIN RIVER DRAINAGE BASIN

San Joaquin river and tributaries drain the southern half of the great central valley of California. The main stream rises in the Sierra Nevada mountains on the south slope of Mt. Lyell, flows southwesterly to the valley trough, where it turns northwesterly, entering Sacramento river a few miles above Suisun bay. Several rivers of considerable importance, the largest of which are Kern, King and Kaweah, have their sources in the Sierra Nevada mountains farther south and drain the higher portion of the valley. They discharge their waters into several shallow lakes, including lakes Kern, Buena Vista and Tulare, but during the excessively high stages of water the overflow reaches the San Joaquin.

The Merced, Tuolumne, Stanislaus, Calaveras and Mokelumne rivers are important tributaries of the San Joaquin in the lower part of the valley. There are no large tributaries from the west. The small streams issuing from the eastern slopes of the Coast Range are intermittent and seldom reach the main streams.

The San Joaquin and its eastern tributaries are fed by the melting snow and ice in the high mountains, and consequently furnish a better supply and at a more opportune time than any other streams in the state.

In 1902 water from all sources in this drainage basin was utilized through 1,064 systems to irrigate 932,931 acres belonging to 9,717 farms. The irrigation works and 2,473 miles of main canals and ditches cost $9,103,242, an average of $9.76 per irrigated acre. Thirty-five systems diverted water from the main stream to 906 farms. The construction outlay for these irrigation systems, including 219 miles of main canals and ditches, was $1,504,238, or $11.60 for each of the 129,647 acres irrigated. Of the tributaries King river and its tributaries irrigated 596,091 acres, representing 6,007 farms. The 164 systems with an aggregate of 1,334 miles of main canals and ditches cost $2,976,688, or $4.99 per irrigated acre.

DRAINAGE BASINS OF PACIFIC OCEAN STREAMS BELOW SAN FRANCISCO BAY.

That portion of California lying south of San Francisco bay and west of the Coast Range of mountains is drained by several streams, the largest of which is the Salinas river, a stream about 125 miles in length. Among those of most importance for irrigation purposes are Santa Ana, San Gabriel, Santa Clara and Pajaro rivers. Nearly 40 per cent of the irrigated area in this division was supplied from wells. The average number of acres per farm in this division is 22.7, which is less than that of any other division. This indicates the intensive character of the agricultural operations, since the semi-tropical fruit orchards have here reached their highest development.

In 1902 there were 279,519 acres belonging to 12,317 farms irrigated from streams, springs and wells in this part of the state. The 1,943 systems employed had 774 miles of main canals and ditches and represented a construction outlay of $9,509,767, an average of $34.02 per irrigated acre. Water from wells was utilized to irrigate 111,179 acres on 4,687 farms. The 1,525 well-systems cost $4,348,325, or $39.11 for each acre irrigated. Santa Ana river and tributaries supplied 55 systems and irrigated 70,492 acres belonging to 3,976 farms. The 266 miles of main canals and ditches and other irrigation works represented a construction cost of $1,999,531, an average of $27.23 per irrigated acre. San Gabriel river and tributaries were utilized through 29 systems to irrigate 33,766 acres on 1,581 farms. The total construction cost of the 91 miles of main canals and ditches and other irrigation works was $772,597, an average of $22 88 per irrigated acre.

SACRAMENTO RIVER DRAINAGE BASIN

The Sacramento, the largest river of California, derives its water supply largely from Mt. Shasta and the surrounding high ranges in the extreme northern portion of the state. Pitt river, its principal headwater tributary, drains Goose lake in the northeastern corner of the state. The main stream traverses the northern portion of the great central valley in a general southerly direction and discharges into San Francisco bay through Suisun and San Pablo bays. Its important tributaries are Feather, Pitt and American rivers, all entering from the east.

California Polytechnic School

Special Correspondence.

SAN LUIS OBISPO, May 28.—The Alumni Association of the San Luis High School have agreed to give a loving cup to the winner of at least two of a series of three annual debates to be contested between the High School and the Polytechnic School. The first debate was held recently and resulted in a victory for the Polytechnic School. The question was "Resolved that the United States is unjust in excluding the Chinese from the federal territory" The affirmative of the question was supported on behalf of the High School by Misses Helen Darke and Kathryn Stewart and Hermann Mehlman. The negative was supported for the Polytechnic School by Messrs. Floyd Tout of Dinuba, Charles Emmert of Arroyo Grande and George Coonradt of Lotus, El Dorado Co. The judges were Rev. Harry Hillard. Their dicision was unanimous that the Polytechnic School had won for the negative. The Polytechnic team was praised for the large amount of hard work which they had evidently put upon the debate.

An important event in the history of the school occurred on Tuesday last when a farmers' institute and basket picnic was held upon the Polytechnic School grounds. Fully 250 people were present—the most of them being from the region round about San Luis Obispo. Addresses were given by E. W. Clark, President of the local Board of Trade, Prof. E. J. Wickson of the University of California, Hon. S. C. Smith of Bakersfield, and Prof. I. P. Roberts of Cornell University. A long table was set in the dormitory where the guests spread their lunches and the class in domestic science served delicious coffee.

At the annual meeting of the Board of Trustees, May 23rd, Prof. I. P. Roberts of Cornell University was elected a special lecturer on horses and farm implements. Prof. Roberts is expected to spend a month of each year at the school.

The students are constructing a poultry house as part of their instruction in carpentry. When this is completed they will begin work on an iron working shop 40x100 feet which must be ready for use in September.

School closes June 24 and opens for its second year Sept. 15.

Commerce Growing

The value of the commerce of the United States and non-contiguous territory shows a slight increase in the present year, as compared with last year. For the full fiscal year it seems likely to aggregate $100,000,000. For the same nine months ending with March, 1904, the total of merchandise is $66,781,218, and the domestic gold received from Alaska $5,806,501 making a total of $72,587,719. The total of merchandise, $66,781,218, exceeds by about $2,000,000 that for the corresponding period last year in which the total was $64,843,095. Of this grand total of commerce with the non-contiguous territory of the United States the shipments thereto aggregate $25,806,421 in value, and the shipments from those territories to the United States aggregate $40,974,597.

Shipments to the Hawaiian Islands in the nine months ending with March, 1904, were valued at $9,072,680, against $8,195,499 last year. Porto Rico shipments were $8,360,883 in valup against $9,129,844 last year; merchandise received, $6,531,574, against $6,944,441 the preceding year. To the Philippines, shipments in the nine months ending with March, 1904, were $3,651,940, $2,003,692 last year, and the merchandise received from the islands was valued at $9,863,183, compared with $9,235,972 in the same months of last year. To Guam and Tutuila, the shipments were $123,870 in value, against $58,957 in the corresponding months of last year.

Aliens a Public Charge

New York state is supporting nearly fourteen thousand aliens in the various penal and charitable institutions of the commonwealth. This fact has been developed by an inquiry that the commissioner-general of immigration is making for the purpose of ascertaining what proportion of the occupants of jails, public hospitals, asylums and other retreats is made up of aliens only recently arrived in the United States.

The progress of the investigation thus far has convinced Commissioner-General Sargent that congress could well afford to draw the lines a little closer in excluding aliens who promises to become public burdens. He has found that a goodly portion of the occupants of the penal and charitable institutions throughout the country are foreigners, who have only recently landed in the United States. The percentage of aliens in these institutions is naturally larger in the big cities, and in the coast states. New York probably has a larger burden of thiskind to carry than any other state, due to the fact that New York city is the great port of entry for immigrants.

The total number of aliens confined in the state of New York at present is 13,143, of whom 2193 are in penal institutions. Of this number, nearly one-half, or 1090, are located in New York city. There are 6148 insane aliens in various asylums of the state, 4224 of them charged against the institutions of New York City, and 1924 in various other parts of the state. In public homes, almhouses and similar institutions, there are 2991 aliens, and the hospitals there are 1136.

LOCAL JOTTINGS OF INTEREST

Insurance Rates Raised

Because the Fullerton Trustees refused to strike from a newly adopted ordinance which imposes a license of $5 a year on each insurance company doing business in that town, the companies with headquarters in Los Angeles have increased the insurance rate 10 cents on $100. The leading policy holders throughout the section are wrought up over the increase, and a large majority of them state that they will pull out of the combine and go into other companies, as they think the fact that the insurance companies take many thousand dollaas out of Fullerton annually is premiums.

Governor's Reply

Lafayette Gill, chairman of the Democratic Central Committee of Riverside county, is in receipt of a communication from Governor Pardee in reference to the vacancy on the Board of Supervisors, from which he extracts some hope and confidence in the appointment of a Democrat. The governor's letter is as follows:

Lafayette Gill, Chairman Democratic Central Committee, Riverside, Cal. Dear Sir: I beg to acknowledge receipt o' the resolution passed by your Committee on May 21st with reference to the vacancy on the Board of Supervisors of Riverside County.

Very truly yours,
GEORGE C. PARDEE.

Boys Drowned In Reservoir

Ray and Gerald Powell, aged eight and ten years, sons of W. D. Powell of Corona, were drowned in Pedley's reservoir a mile northeast of that town a few days ago. Four little boys were swimming in the reservoir and while playing on an improvised raft fell into the water. Two of them reached the bank, the others losing their lives. The others notified a teamster of the occurrence, but the man paid no particular attention, thinking it was a joke. The boys then returned to Corona so badly frightened that they said nothing about the matter. As two of Pedley's men were on their way to town in the evening they went to the reservoir to see if there was any truth in the boys' story. They discovered the little fellows' clothing on the bank and after a short search recovered the bodies.

Bard is Willing

Senator Thomas R. Bard has returned from Washington. He expresses himself as highly pleased with the outlook for Republican success in the coming presidential campaign; he believes President Roosevelt will have no opposition for nomination to succeed himself and that he will be the unanimous choice of the Republican convention. When asked whether he would be a candidate for re-election as United States Senator from California, Mr. Bard said:

"I am not seeking re-election and I am not an active candidate. I believe I have made that plain before, but if the people of this state desire that I should serve them another term in Washington I would accept with pleasure and I would consider it a high honor to receive again the confidence and endorsement of the people of California. But I am not making an active campaign nor asking my friends to do so. While my stand may be an impracticable one, there is a way in which the people can express themselves."

Abducted Her Daughter

Mrs. Ella B. Allen of Orange, swore to a complaint in Justice Smithwick's court at Santa Ana charging James Hester with abducting and enticing away her daughter Mary. Hester is 30 years old and lives near Anaheim, and the girl, according to Mrs. Allen, is 15 years old. For about a year Hester has been paying attention to the girl with Mrs. Allen's knowledge and consent. Tuesday the alleged abductor appeared at the Allen home and went away with the girl ostensibly for a little pleasure excursion, but they failed to return to the maternal roof. Mrs. Allen believes they have secured a marriage license in another county under false representations as to the girl's age, as she would readily pass for 18. Hester is described as about 5 feet 11 inches tall, dressed in grey, dark complexion and rather slender. His friends say that he intended all the time to marry the girl. Descriptions of Hester were sent out today with instructions to arrest him and notify the local officers.

German Evangelists

The annual State Conference of the German Evangelical Association closed a three-days' session at Santa Ana on Monday. At this forenoon's session Rev. F. C. Harder of the Oregon conference was received into the California conference as an itinerant elder. A vote was taken upon the recommendation of the General Conference that the time limit of ministers be changed from four to five years. The recommendation was voted down, Rev. Althouse and Rev. C. Gruen, who were elected presiding elders at the session of Saturday afternoon, were assigned to the northern and southern districts, respectively. Rev. Gruen is a resident of Santa Ana.

Rev. C. Gruen was elected treasurer of the conference and Bishop Bowman a delegate to the Board of Missions, which is to meet in Cleveland, Ohio in September. Bishop Horn was chosen as alternate. Pastors were assigned as follows by Bishop Bowman: San Francisco district, San Francisco station, F. W. Fischer; San Francisco mission, W. H. Althouse; Napa, H. W. Luecknemyer; Sacramento, F. T. Harder; Los Angeles district, Los Angeles station, F. Cordes; Los Angeles mission, P. Conklin; Santa Ana, H. Cordes; Anaheim, J. Erich; Ontario, H. Kleinsorge; San Bernardino, H. Lagerchulte; Bardsdale, C. Gruen; Fresno, Rev. Kraeber.

San Bernardino Water Suit

Another San Bernardino water suit was filed in the superior court this week, the Mt. Vernon Water Company bringing action against the Fontana Development Company to enjoin the latter from changing the point of delivery of 50 inches of water in Lytle creek from the Campbell box to the Lord gate, the latter point being at a much lower altitude than the former.

The issues involved in the suit are similar to those which confront the action soon to be instituted against the same defendant corporation by the city of San Bernardino. The defendant corporation bases its right to change the point of delivery and also of substituting Lytle creek water for pumped, upon an agreement entered into years ago between John L. Campbell and the Semi-Tropic Land and Water Company, predecessors in interest of the Fontana Development Company.

The latter corporation desires to give San Bernardino and the Mt. Vernon Water Company pumped water instead of Lytle creek water. The agreement giving the right for substitution, in order to exercise which delivery must be made from Lord gate, stipulates that the substituted water must be equal in quality and purity to the Lytle creek water, and the plaintiffs allege that they have voluminous evidence of experts and physicians to prove that pumped water is inferior.

Fruits and Nuts for Use as Food

The department of agriculture has for several years been conducting a series of experiments to determine the the dietary value of different foods. Nine dietary studies and 31 digestion experiments were carried on. In the majority of the dietary studies and all but one of the digestion experiments fruits and nuts constituted all or almost all of the diet. The results of the investigation emphasize the fact that both fruits and nuts should be considered as true foods rather than food accessories: The subjects were two women, three children, two elderly men and two university students. The men all did hard manual labor during a part of the time, the students working to support themselves while pursuing their studies.

The fare given in these experiments was in every case one that would appeal to any normal appetite. It embraced honey, tomatoes, apples, bananas, cantaloupe, verdal grapes, cornichon, tokay, muscat, scarlet haws, pears, pomegranates, persimmons, oranges, strawberries, watermelons, figs, almonds and peanut butter.

The only animal food allowed was cottage cheese and eggs; and these in limited quantities. The cost of such a diet varied from 15 to 18 cents a day. Comparative experiments were carried along in which animal foods were employed under the usual conditions of living, and in these the daily cost ran from 26 to 30 cents. It was found that the food eaten supplied about 60 per cent of the protein usually secured by the average meat diet, while health and strength continued the same, if not improved, and in two or three cases there was a slight gain in flesh and weight.

One of the chief objects of the series of experiments was to furnish data as to the value of nuts as food. Fruits contain little protein, and nuts are relied on in the fruitarian plan of eating to balance the ration. Fruits are rich in carbo-hydrates and nuts in fat. A pound of peanuts, which costs seven cents, furnishes 1000 calories of energy at a cost of 3½ cents, and protein at a cost of 36 cents a pound. A porterhouse steak costs for the same result respectively 22½ cents and $1.31, when the steak can be bought for 25 cents a pound.

The average price per pound of the protein of nuts ranges higher than the corresponding average of meats, but the cost per pound of peanut protein is lower than for meats, fish, eggs, milk, dairy products, and prepared cereals. The only foods which furnish protein at a less cost than peanuts are flour and dried beans. According to Prof. Jaffa's experiments, nuts are the cheapest source of energy for the fruitarian, the peanut ranging far ahead of any other variety.

Although peanuts supply protein and energy for a smaller sum than bread, they are outranked by dried beans which at five cents a pound, will supply for 10 cents over 200 grammes of protein and 3040 calories of energy.—Scientific American.

NEW S. P. TRAINS.

Early in June the Southern Pacific will put on two new trains between Los Angeles and El Paso—leaving Los Angeles eastbound daily at 9 p. m., and arriving from the East at 10:50 p. m. Travelers will thus get the benefit of two trains between these points instead of one as at present. 11

LADIES, ATTENTION
Original and only genuine FRENCH TANSY WAFERS for sale by leading druggists. $2 per box. Accept only goods put up in yellow wrappers, with Crown trademark.
FOR SALE BY
W. B. HUTCHINSON,
Anaheim, Cal.

CONTINUE
Those who are gaining flesh and strength by regular treatment with
Scott's Emulsion
should continue the treatment in hot weather; smaller dose and a little cool milk with it will do away with any objection which is attached to fatty products during the heated season.

409-415 Pearl Street, New York.
50c. and $1.00; all druggists.

The Weekly Gazette

ISSUED EVERY THURSDAY.

HENRY KUCHEL, Editor and Proprietor

THURSDAY ..... June 2, 1904

Time, it is said, makes everything right at last. Now it is said that with the construction of the railway between Benedict and Smeltzer mails for Garden Grove, Westminster and the peatlands will go by way of this city, instead of following the present roundabout course to Santa Ana and thence by wagons to these points. Anaheim is the correct geographical point from which these mails should diverge from the main line, and for years mails for all these places were forwarded from here. But in an evil hour Santa Ana wished to have free city delivery of its mail, and finding that its postoffice receipts were not sufficient to justify this step, it set about, like a larcenst in the night to steal away from us the two routes to Garden Grove and Westminster. Notwithstanding that the change necessitated a journey of eight miles further south on the main line, and then a further route by wagon from Santa Ana to these outlying points, the change was recommended by Senator Perkins, who was not at all informed on the subject, but who was rather misinformed by persons in his confidence at Santa Ana. Had Anaheim and the other localities affected been made aware of the contemplated change, vigorous protests would have been made to the postoffice department against the scheme. But the work was done so quietly that those affected knew nothing of it until the cange in the route was announced from Washington. The matter of changing the mails back to their former route has been discussed at intervals, but nothing has come of it until the present time, when a concerted effort will be made as soon as the railway is constructed to have the mails go by rail.

County Clerk Lester this week, acting under instructions from the board of supervisors, solicited a bid from this office for publishing the county's delinquent taxlist. According to his communication bids, were to be opened on May 31st (Tuesday) and the first publication is to be made not later thap June 5th (Saturday next.) In order to meet these requirements consequently, publication of the taxlist in this journal, should the award have been made us, should have been made first this morning (the 2d). Thus we should have had a scant day and a half in which to place the list in type, and when it is understood that proofs must be taken to the county seat to be read, it will be seen the time allowed is too short in which to do the work properly. The task is not entirely impossible, but we submit the supervisors, in asking bids for printing in future, give a little more attention to these trifling matters of detail. According to the Blade of Santa Ana, the work is such that it will not cost the county above $60, yet a bond of $1000 is required from the printer successfully bidding for it. These conditions may not be altogether insuperable, but the time limit is altogether too short to monkey with the supervisor's buz zaw

From present appearances Senator Ward of San Diego will be the man upon whom all the South California counties will unite as the Republican candidate for congress. Only a short time ago it looked as if San Diego, Orange, Riverside and San Bernardino would each have a "favorite son." Of course that meant Senator Smith would have a walkover. Sober reflection, sane counsel and a cool look over the situation has brought about a change, and, if the counties named stay all of one mind, Ward gets the nomination—which means election.—Redlands Citrograph.

How the Southern California counties can combine upon Ward or any other San Diego man for this honor is something that does not appear quite clear to us. Look over the returns from that county two years ago, Bro. Craig, and tell us whether it is entitled to what it seeks. Where Daniels confidently expected 1700 majority, his democratic opponent swept this aside, carrying the county by a majority of 100. Look back a few years further, Bro. Craig, run your finger over the vote which defeated Bowers in his home county, and sent to Washington to represent us a pestilential calamity howler from which stain the district has not entirely recovered. San Diego defeated its own candidate for congress eight years ago, and did what it could two years ago to elect the democratic nominee. That is its political record to date.

The four southern counties to unite upon another candidate from San Diego? Hardly, Scip, hardly!

The extension of the Rock Island road from its Colorado terminal, to San Diego, has been determined upon, according to well-authenticated accounts. From Colorado Springs the line will follow a survey which was made by company engineers seventeen years ago. It will run southwest and enter New Mexico south and west of Durango. Crossing the San Francisco Pacific at Thoreau, the line will enter Arizona about seventy-five miles south of the Santa Fe Pacific. The road will pass through Prescott and cross the desert to San Diego. It is claimed the Rock Island owns 920 acres on the water front there for wharfage purposes. The new line will be 1150 miles long and a country rich in coal, mineral and timber will be opened, aside from new agricultural districts. Chicago officials have been gathering statistics for more than two years. A branch line from Dawson, N. M., to the new road to connect with it near Alamos, Colo., is under consideration.

According to the consolidated report of the superior board of health for March, 1904, sanitary regulations promulgated by American officials in Porto Rico are bearing good fruit. The conscientious work of the American divines and missionaries, however, does not seem have produced a correspondingly good result. The native Porto Rican is healthier in body, but still very unclean morally. Of 9170 births on the island during March, 38 per cent. were illegitimate The population of Porto Rico during March was 953,243, and the number of deaths was 1852, or 23.4 per cent. per 1000. This is 3 per cent. higher than the death rate of New York City, according to the last United States census, and 5.6 per cent. lower than that of New Orleans. The sanitary conditions are better every year. Fever is not feared, as in former years, and all around, there is a decided sanitary improvement. Mortality from anaemia was 313 for the month. This is the scourge of the island, poor half-starved natives falling easy victims to it, and, in fact inheriting it from father and mother. The insular government is doing all it can to stamp out disease, but economic conditions will have to change before radical cures can be expected

Henry T. Oxnard has made formal announcement of his candidacy for the United States senatorship. In a published card he sets forth his purposes to become a candidate as follows:

"In order to give my friend and neighbor, Senator Bard, an opportunity to return to California and personally set forth his position regarding the senatorship, I have, until this date, delayed declaring my plans with reference to the approaching campaign. I will now state, however, that if the next legislature is Republican, as it undoubtedly will be, my name will be placed before it as a candidate for the United States senatorship."

Mr. Oxnard is a man of large wealth and is one of the largest property holders in Southern California, owning as he does sugar factories at Chino, Oxnard and Santa Maria. He has the support of men prominent in the party, and has strong backing in San Francisco and Los Angeles.

The Japs seem to have the Russians going, since the fight at Nanshan hill. It is doubtful if the gong can save them.

With trolley cars running to Anaheim Landing direct from Los Angeles, that splendid beach resort may be said to be taking on metropolitan airs. Probably the activity in real estate which has swept over seaside property on the coastline from Ocean Park hitherward will characterize realty transactions at this point. Indeed, it may be said to have already done so. That a handsome beach resort will spring into existence at Bay City and Anaheim Landing admits of no doubt, for along the entire Southern California coast no place offers such splendid bathing facilities as these points. At the Landing surf and stillwater bathing may be indulged in, and there is none of that undertow which gives to sea bathing at other points an element of danger which operates to keep timid folk out of the water. Anaheim Landing also offers one of the best fishing grounds on the lower coast. It is the only point where that prized fish, the mullet, can be taken in any quantity, and shell fish abound as at no other place—mussels, scallops, clams and other delectable mollusks of this character.

Trolley cars will probably be running into Newport Beach along this scenic coast route by the first of July, or not much later, and then we may see, within a few weeks thereafter, the trolley car speeding through this city over the Southern Pacific tracks, which, report has had it for some weeks past, is to become part of the Huntington electric railway system.

Rumor also has it that an electric car line will be constructed through this city on Los Angeles street north to Fullerton and the La Habra to a junction with the Whittier line. Altogether the future of this section looks particularly bright. It was never more roseate with promise. Anaheim Landing is the first to lead off with metropolitan airs. Anaheim will probably join the procession in the not distant future.

J. Ross Clark, vice-president of the Salt Lake railway, accompanied by Chief Engineer William Hawgood and other officials of the road, left on Monday to make an inspection trip of the entire system. The party will go by rail to Ivanpaugh, its present western terminus, and from there will drive a distance of about 33 miles by slower conveyance to the end of the western completed section of the new road. In that direction the line is completed to a point 79 miles below Calientes, where Mr. Clark and party will take a special for the run through to Salt Lake City. The trip will be the first of its kind made, and serves public notice that in a comparatively short time Los Angeles will be the terminus for another trans-continental railway.

E. W. Gillet, general passenger agent of the Salt Lake road, has removed his family to Los Angeles, preparatory to transferring his headquarters from Salt Lake to that city.

Although Congress failed apparently to recognize the importance of the repeal of certain land laws which are known to be detrimental to the settlement of the West, in that they allow of speculation among the public lands, it is evident that the great business interests of the country are determined to secure such action if it is a possible thing. During the year such national organizations as the National Business League of Chicago, the National Board of Trade, the American Hardware Manufacturers' Association, the National Association of Agricultural Implement and Vehicle Manufacturers, etc., all great business organizations representing millions of dollars, have adopted strong and intelligent resolutions calling attention to the great national possibilities of the irrigation act and the increased wealth which would accrue to the nation through the settlement of its western lands under irrigation. The National Association of Manufacturers urged upon Congress a policy by which all the remaining public lands available for agriculture, or which can be reclaimed under the national irrigation act, should be "rigidly held for the home-builder, the settler who lives on his land and for no one else; and to this end we urge that Congress should repeal the desert land act and the commutation clause of the homestead act, and in all cases require five years' actual occupation and use before title can be acquired to public land."

If the last two months of the fiscal year 1904 keep up the pace set by the first ten months, all records for exports of manufacturers from the United States to foreign countries will be broken. The export figures for the first ten months of the fiscal year 1904, as presented by the Bureau of Commerce and Labor, exceed those of any year in the history of the nation. The manufactured exports in the full fiscal year 1900 totaled $433,851,756. Should the present excess of 1904 over 1900 continue during the remaining two months of the year, it would bring the grand total of the exports of manufacturers up to $450,000,100. The total value of manufacturers' exports reported in ten months ending with April, 1904, was $371,612,301, against $352,671,206 in the same period of the fiscal year 1900. Imports of manufacturers' raw material also made a very satisfactory showing, the grand total being in the ten months ending with April, 1904, $267,334,221, against $275,641,687 in the ten months of last year.

The Irvine Ranch Company is planning to develop water on the San Joaquin ranch, and to that end has begun to sink a number of 15-inch wells. With plenty of water the ranch could be made one of the most productive sections of Southern California. The wells contracted for will be from 350 to 400 feet deep, at which depth water is expected to be found in abundance. The company recently obtained a fine well near the ranch house, and has just installed a pumping plant capable of producing a stream of 60 inches. The success of this well has led the company to believe similar wells can be procured at different points on the ranch.

REAL ESTATE TRANSFERS

For the Week Ending May 31.

Furnished by the Orange County Title Company, Santa Ana.

Joseph S Collings and Fannie H Collings to R M Freeman—Lots 6, 7, 8 and 9, block BB, Fairview; $10.

San Bernardino and Redlands Railroad Co to Southern Pacific Railroad Co—Portion of right of way of railroad in city of Redlands; $1.

West Coast Land and Water Co to Huntington Beach Co—5 acres near Huntington Beach; $10.

Stearns Ranchos Co to Geo A Clark —NW¼ of nw¼ of nw¼ of sec 11, t 5 s, r 10 w; $10.

Huntington Beach Co to Joseph Fowler—Lots 22 and 24, block 8, Pacific City; $10.

Carroll R Maxwell and Georgia A Maxwell to H J Kimmel—10.87 acres near Tustin; $10.

West Coast Land and Water Co to Nettie Collins—Lot 19, block 2, Pacific City; $75.

E G Greening and M K Greening to Wm R Clark—SW¼ of ne¼ of sec 19, t 4 s, r 10 w, 40 acres; $50.

Robert C Smith to J G Quick—Lot 11, block F, Humphrey's addition to Santa Ana; $10.

Mary M Madegan to Annie Howe—Lots 27, 28 and 29, block A of the Lorelei tract, city of Anaheim; $200.

P M Hannaman and Marion M Hannaman to Ed Ward—Part of lots 13 and 14, block F, town of Orange; $750.

Ed Ward and Ida Ward to J William Sackman—Part of lots 13 and 14, block F, town of Orange; $750.

Chas C Carpenter and Clara B Carpenter to F E Davis et al, lots 24 and 25, block 40, townsite of Fullerton; $10.

Frank W Butler and Ina A Butler to Rebecca Thomson—Lots 17 and 18 of a re-subdivision of block B, Grand avenue addition to Orange; $10.

A L Hitchcock et al to same—Lot 19, block B, of a re-subdivision of Grand avenue tract, city of Orange; $300.

Adoniran J Bacon et al to Richard Egan—S½ of nw¼ of sec 31, t 7 s, r 7 w, 80 acres; $10.

Same to Domingo Oyharzabal and M A Forster—SE¼ of sw¼ and sw¼ of se¼ of sec 2; also se¼ of sw¼ of sec 3, t 8 s, r 8 w; $10.

Sarah Jane Moon to Nellie R Moon —N½ of ne¼ of ne¼ of ne¼ of sec 11, t 4 s, r 11 w, 5 acres; $10.

Martha Williams and Harvey Williams to Louise Callow Boege—Part of lot 35, Anaheim extension; $10.

Lillie M Quigley and M A Quigley to Alfred Chaudet—Lot on West Sixth street, city of Santa Ana; $10.

Alfred Chaudet and Evia Ann Chaudet to Lillie M Quigley—N½ of nw¼ of ne¼ of sec 9, t 5 s, r 10 w, 20 acres; $10.

Edgar Joel Mercereau and Mary Maude Mercereau to Delia B Rawson—W 79 ft of lot 31, Anaheim: also w½ of sw¼ of nw¼ of sec 32, t 4 s, r 10 w, 20 acres; also lots 17 and 18, block B, Anaheim Center tract; $10.

Newport Becah Co to Los Angeles Inter-Urban Railway Co—60 ft right of way at Newport Beach; $10.

Anabell Spencer and C S Spencer to Flossie P Hemphill—One acre ± of a mile north of Orange; gift.

A P West and Mary E West to Will H Wheeler—19.65 acres in lot 1 of the Joel B Parker tract; $10.

Hannah J Young to Horace D Young —Lot 6, block B, city of Orange; $10.

M P Baker and Anna E Baker to G W Wright—Lot 7, block C, Bailey's addition to Santa Ana; $1.

C C Shaw and Mary S Shaw to Geo W Wright—Same property; $10.

Geo W Wright and Nettie Wright to Mary P Wright—Same property; $10.

Mary P Wright and Cyrus L Wright to T M Robertson—Same property; $10.

Edwin Odell to Amelia F Baxter et al—Lot 1, block A, Hall's addition to Santa Ana; gift.

Dwight Whiting and Emily S Whiting to Wm Willis—Lot 4, block 2, Aliso city; $10.

Wm Willis to Ivy Willis—Lots 4 and 5, block 2, Aliso city; $10.

Stearns Ranchos Co to county of Orange—Right of way for road in Newhope road district.

Same to E A Clampitt—NW 1-4 of ne 1-4 of sw 1-4 of sec 24, t 4 s, r 11 w, 10 acres; $10.

Chas H Best to Althear Best—N½ of s½ of ne 1-4 of sw 1-4 of sec 34, t 4 s, r 10 w, 10 acres; gift.

J T Wilson and Cora E Wilson to Alty of Santa Ana—Lot 13 block D, Gardner & Moye's addition to Santa ana; $10.

George E Boyd and Eva H Boyd to Cora Dutton—Lot 16, Block C, Center Tract, Anaheim, $10.

Llewellyn Huston Cartmell to Henry C Cartmell—10 acres in block A of A B Chapman Tract, $5000.

Bessie D Falcomer, et al, to B Uttley—Undivided ½ of lots 1 and 2, block E, Porter, Spurgeon and Blee add to Santa Ana, $300.

Minnie B Dondore, et al, to same—Undivided ½ of lots 1 and 2, block E, Porter, Spurgeon and Blee add to Santa Ana, $150.

W L Witherbee and Leila L Witherbee to S M Craddick—Lots 49 and 50, Laguna Beach, $5.

Est of Benj F Cutler and Mary E Cutler to same—Lots 49 and 50, Laguna Beach, $5.

J E King to J R King—9.51 acres North of Tustin, $10.

A B Gill and Julia A Gill to Elmer D B Newton—South 45 feet of lot 31, block C, McFadden and Crane add to Santa Ana, $10.

J T Shelton and Ide C Shelton to Samuel Watters—Northwesterly ½ of block 69, Santa Ana east, $10.

John R Teague and Grace Teague to Mrs Margaret A Fulwider—Lot 8 of Geo W Ford's add to Santa Ana. $10.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. Ira O. Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

It's very seldom you get a good article at a reduced price, but Hartsook photos are worth more than he is getting for them.

Give us a trial and we know you wil be pleased. Hutchinson's drug storel

Hartsook's photos at $3.50 per dozen equal the best work, regardless of price.

At car Saturdays and Sundays only.

Scale Pests.

County horticultural commissioners discussed scale pests and codlin moth at their meeting at Santa Ana this week. The commissioners have issued notices advising orchardists to commence without delay the work of spraying for codlin moth as this is the most favorable season to take measures for its extermination. The moth works on apples, pears and quinces, and although it never has been very destructive in this county the commissioners believe timely spraying will prevent its doing serious damage. Arsenical sprays applied with a power pump are recommended, in accordance with the directions contained in Bulletin 155 of the University of California, which is sent free on application to the university.

The Lion of Keos.

There are lions and lions, but the lion of loul is the lion of Hellas, says Professor J. Irving Manuntt in The Atlantic. The lions on guard above the gate of Mycenæ may be older, but they have lost their heads and therewith their main majesty. The lion sentinel over Leonidas' grave at Thermopylæ disappeared ages ago, though we still possess the inscription written for it by Simonides:

Of beasts the bravest I, of mortals he,
Upon this mound of stone now watched by me.

The lion of Chæroneia commemorates a great and definite event, but he has been broken to pieces. Better luck has attened the lion of Keos. Couched here on his flank in the living rock, with reverted head, 28 feet from tip to tail, every feature perfect, full of life and majesty, one can hardly think of him as a mere image made with hands. He looks rather as if in some prehistoric age—the colossus of his kind—he might have lain down here alive and turned to stone, possibly after clearing the island of its first occupants, for there is a myth handed down to us by an old writer that Keos was originally inhabited by the nymphs until they were scared away by a lion and fled to Karystos, leaving to the "jumping off place" the name of Lion point. At all events the monument and the myth make a perfect fit. Our lion is the very beast to strike terror into nymphs or any other unwelcome neighbors.

Beware of Ointments for Catarrh That Contains Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, Price 75c per bottle.
Hall's Family Pills are the best.

Call us up by phone and we will be there. Hutchinson's drug store. sep24

You will regret it if you do not get your pictures taken at the Palace Tent Studio before they go away.

Abell & Stromberg, the Palace Tent Studio photographers, are up in the business.

For Rent

Furnished front room for rent, in quire at this office.

NEW S. P. TRAINS.

Early in June the Southern Pacific will put on two new trains between Los Angeles and El Paso—leaving Los Angeles eastbound daily at 9 p. m., and arriving from the East at 10:50 p. m. Travelers will thus get the benefit of two trains between these points instead of one as at present. 11

Summons.

NO. 2722.

In the Superior Court in and for the County of Orange, State of California. F. E. Spencer, Plaintiff, vs. William S. Romish, Isabella Wood, Robert F. Slaughter, Rose Waite, Lizzie Brandley, Sarah Anderson, Ida Nash, Mary D. Spalding, James R. Denison, Thos. S. Denison, Robert F. Slaughter, D. C. McGarvin, as administrator of estate of James K. Slaughter, deceased, W. A. Spalding, as administrator of estate of Lizzie Dandy, deceased, D. C. McGarvin, as administrator of the estate of Thos. S. Slaughter, deceased, F. R. Knight, John Doe, and Richard Roe, Defendants.

Summons. Action brought in the Superior Court of the County of Orange, State of California, and the Complaint filed in the office of the Clerk of the said County of Orange.

The people of the state of California send greeting to: William S. Romish, Isabella Wood, Robert F. Slaughter, Rose Waite, Lizzie Brandley, Sarah Anderson, Ida Nash, Mary D. Spalding, James R. Denison, Thos. S. Denison, Robert F. Slaughter, D. C. McGarvin, as administrator of estate of James K. Slaughter, deceased, W. A. Spalding, as administrator of estate of Lizzie Dandy, deceased, D. C. McGarvin, as administrator of estate of Thos. S. Slaughter, deceased, F. R. Knight, John Doe and Richard Roe, Defendants.

You are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the superior Court of the County of Orange, State of California, by the plaintiff to quiet title to lots one, two and four of Block "C," of the Villa Tract of the City of Anaheim, County of Orange, said State, within ten days after the service on you of this summons—if served within this county; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint, as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the County of Orange, State of California, this 28th day of May, A. D. 1904.

[SEAL] C. D. LESTER, Clerk.
F. C. SPENCER, Attorney for Plaintiff.

Notice of Assessment

Anaheim Union Water Co.

Location of Principal Place of Business, Anaheim, Orange County, California.

NOTICE IS HEREBY GIVEN THAT AT A meeting of the directors, held on the twenty-first day of May, 1904, an assessment of one dollar per share was levied upon the capital stock of the corporation, payable on or before June twenty-fourth, 1904, to the Secretary of the corporation, at the office of the corporation, in the Backs' building, Los Angeles street, Anaheim, California. Any stock upon which this assessment shall remain unpaid on the twenty-fifth day of June, 1904, will be delinquent, and advertised for sale at public auction, and unless payment is made before, will be sold on Monday, the eighteenth day of July, 1904, to pay delinquent assessment, together with costs of advertising and expenses of sale.

P. H. KRICK,
Secretary of Anaheim Union Water Co.,

NOTICE OF ADMINISTRATOR'S SALE OF REAL ESTATE AND PERSONAL PROPERTY AT PRIVATE SALE.

Notice is hereby given that in pursuance of an order of the Superior Court of the County of Orange, State of California, made on the 27th day of May, 1904, in the matter of the estate of R. S. Wilson, deceased, the undersigned, as the administrator of the estate of said deceased will sell, at private sale, to the highest bidder for cash, lawful money of the United States, and subject to confirmation by said Superior Court, on or at or June 28th, 1904, all the right, title, interest and estate of the said R. S. Wilson at the time of his death, and all the right, title and interest that the said estate has, by operation of law or otherwise, acquired other than or in addition to that of the said R. S. Wilson at the time of his death, in and to the following described real and personl property, to wit:

1. That certain lot, piece or parcel of land situate in the city of Anaheim, County of Orange, State of California and described as follows, to wit: Beginning at the southwest corner of a tract of land deeded by the Bank of Anaheim to F. M. L. Coquillett on the 23rd day of January, 1885, and by the said F. M. L. Coquillett to Frank Seppi on May 1st, 1886, and recorded in Book 15o, page 524, Records of Los Angeles County, California, and running thence North 74 degrees 30 minutes East 627 feet; thence North 15 degrees 40 minutes West 660 4-10 feet; thence South 74 degrees 30 minutes West 630 feet; thence South 15 degrees and 30 minutes East 660 feet to the place of beginning, containing 9.73 acres. Together with 10 shares of the capital stock of the Anaheim Union Water Company, represented by Certificates Nos. 621 and 267. The above land is planted to walnut trees 14 years old, and in good bearing.

2. Lots one and two in Block 351 and Lot nine in Block 329, all in the Townsite of Inglewood, Los Angeles County, California, as per map of said Townsite recorded in Book 34, page 100 of miscellaneous Records of said Los Angeles County.

3. Eighteen drying trays for walnuts, situate on the 9.73 acres above described.

Terms and conditions of sale: Cash in lawful money of the United States, ten per cent of the amount bid to accompany the bid, and the balance to be paid upon the confirmation of the sale by said Superior Court.

All bids or offers must be in writing and may be made at any time after the first publication of this notice and before the making of the sale, and may be left at the office of the undersigned, administrator, on Center street, Anaheim, California, or filed in the office of the Clerk of said Superior Court at Santa Ana, California.

RICHARD MELROSE
Administrator of the estate of R. S. Wilson, deceased. 3t21

NOTICE OF GUARDIAN'S SALE OF REAL ESTATE.

NOTICE IS HEREBY GIVEN, THAT IN pursuance of an order of the Superior Court of the County of Orange, State of California, made on the sixth day of May, A. D. 1904, in the matter of the estates and guardianship of Bruce Swope and Robert Swope, minors, the undersigned, the guardian of the estates of said minors, will sell at private sale to the highest bidder, for cash, gold coin of the United States of America, and subject to confirmation by said Superior Court on or after Monday, the sixth day of June, A. D. 1904, all the right, title, interest and estate of Bruce Swope and Robert Swope, minors, in and to all that certain piece or parcel of land lying, situate and being in the rancho Los Coyotes, County of Orange, State of California, and described as follows, to-wit: The south-east quarter of the south-east quarter of the south-west quarter of section twelve, Township four south, Range eleven west, San Bernardino base and Meridian, reserving therefrom for roads and highways a strip of land thirty feet wide, along, adjoining and each side of the Township, range and section lines, and a strip of land fifteen feet wide along, adjoining and each side of the quarter section lines, also reserving the use and control of ditches and natural streams of water if any naturally upon, flowing across, into or by said land, also a right of way for and to construct irrigating or drainage ditches through said tract to irrigate or drain the adjacent land.

A certificate of title will be furnished to the purchaser, showing the title of said premises to be good and free from all incumbrances.

Terms and conditions of sale: Cash gold coin of the United States, ten per cent of the purchase money to be paid on the presentation of the bid, balance on the confirmation of the sale by the Superior Court of Orange County California.

Bids and offers may be made at any time after the first publication of this notice and before making the sale.

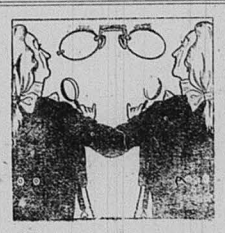

All bids and offers must be in writing and left at the office of H. W. Chynoweth, on Los Angeles street, in the city of Anaheim, Orange County California, or delivered to said guardian personally or may be filed in the office of the Clerk of said Superior Court of said Orange County, California.

PACIFIC ELECTRIC TROLLEY REACHES LANDING

Double Track Railway Laid to Bridge Spanning Channel—Graders at Bolsa Chica.

On Sunday the first trolley on the Pacific Electric railway was brought up to the waters edge at the Landing. At this point a bridge is in course of construction across the channel, about 1000 feet in length. Piles have been driven and steel laid upon it, but the forty foot draw bridge in the center has not yet been completed, the necessary steel not having arrived.

The entry of the first trolley car into the precincts of this favorite old watering place was made the occasion of a large outpouring of people from the entire countryside. The train was hauled by a small engine, and contained a long string of cars loaded with rails, poles, wire and other equipments for the electric railway.

From the Long Beach line to the Landing a double track railway has been constructed, and cars will be running over the new line sometime during the present month.

The graders have pushed along on the other side of the channel toward Bolsa Chica and are now making dirt fly on that ranch. From Bolsa Chica to Newport Beach, a distance of ten miles remains to be graded, this will be completed in a fortnight. Track layers follow graders closely, and it is announced rails will be laid to Newport Beach before July 1st.

Deeds for right of way for the road have been placed on record this week through the holdings of the Newport Beach company, extending from Bolsa Chica to Newport Beach.

The advent of the electric railway adds further to the boom in beach property along Orange County Coast. Between Long Beach and Newport several townsites have been laid, notably at Alamitos Beach, Bay City, Huntington Beach and other points, and it is now announced that Hellman has in view a large townsite enterprise at the Landing. He recently succeeded in quieting title to an extensive belt of sea front property at that point, and it is said the property will be sub-divided and sold off in building lots.

This boom in building lots is extending well into San Diego county, and it is the opinion of those well informed that the entire seaport from Long Beach to San Diego will be bought up and turned into townsites. Several syndicates of Los Angeles and Long Beach capitalists have been formed and transfers already aggregate well up to the million mark. It is the intention of these moneyed men to have country residences overlooking the sea, and already many such have been erected at various points along the coast. The advent of a double track electric railway, bringing Orange county coast points to within thirty minutes of Los Angeles has caused a flurry in values, and lots in some of these near townsites are held at higher prices than lots of a similar size in the residence section of Los Angeles.

When the electric graders reach Newport Beach, it is said they will be transferred to the Southern Pacific's proposed route between Smeltzer and Benedict, surveys for which have already been made and right of way secured. Trains all run on the line through this city to Los Angeles. With the construction of this line mails for Garden Grove, Westminster and the Peatlands will be carried over the new road. Instead of going by the round-about course to Santa Ana and thence transfering to these points, the more direct railway line will be chosen.

Four hundred cholos are at work upon the grade, and have been in camp at the Landing for ten days past. Yesterday the grade had extended well along toward the Bolsa Chica. Gravel is being hauled for the roadbed across the marsh land beyond the channel at the Landing.

FEAST OF CORPUS CHRISTI

Next Sunday in the Catholic Church of this city will be observed the feast of Corpus Christi, or in other words the feast of the Blessed Sacrament. It calls to the mind of the Christian the institution of the Lord's Supper, which took place on the eve of the Saviour's death, but as during that week the church is occupied with the consideration of the Master's suffering, a special day apart from Maundy Thursday of Holy Week is set aside in Catholic Churches to honor the Sacrament of Christ's real presence in his church.

This year the feast will be observed with especial solemnity. After the last Mass at 10 A. M., a procession will take place. Two altars will be erected in front of the old church building and another in the yard of the convent grounds, the Holy Sacrament being carried to these altars the benediction will be given. What will add to the interest of this day is that on this day it is expected that the brother of Father Dubbel of the local parish who is awaiting his ordination in Los Angeles as a priest of the Catholic Church is to celebrate his First Mass. This, however, will depend upon the return of Bishop Conat who is at present in the East. The ordination will take place in Los Angeles in the cathedral. A cordial invitation is extended not only to the members of the church but also to others to participate in these solemnities.

BANK AT HUNTINGTON BEACH

The Bank of Huntington Beach, formed to carry on the banking business of the new seaside resort of Huntington Beach, filed articles of incorporation this week. The capital stock is $25,000, of which $14,000 is subscribed in shares of $1000 each by the following, all residents of Long Beach: S. Townsend, A. M. Goodhue, W. L. Porterfield, C. J. Walker, D. M. Cate, J. F. Heartwell, L. E. Grigsby, F. E. Robinson, W. L. Campbell, W. W. Lowe, C. L. Heartwell, H. B. Ziegler, F. A. Barker, J. B. Heartwell. The first nine of the above are directors for the first year.

Attention Ladies!

Don't forget to look at the bargains which are offered at our great reduction sale, and remember it is for the month of June only.

Misses Reinhaus,
115 W 4th str. S. A.

BEAUTIFUL TRIBUTE TO DEAD

Graves of Departed Soldiers Strewn with Flowers—A Notable Ovation.

Memorial day was fittingly observed by Malvern Hill Post and Woman's relief corps of Fullerton in this city on Monday. At 10 o'clock veterans and their families and friends gathered at the cemetery to strew flowers upon the graves of departed comrades. The cemetery seemed in places to be carpeted with flowers.

Veterans coming from a distance brought lunches, which were partaken of in groups under the shade of trees adjoining the cemetery. Many lingered until well after the noon hour beside the last resting places of loved ones who had gone before.

At 3 o'clock in the afternoon literary exercises of the day began at the Opera house. The hall was filled with a large audience which followed the program with interest throughout. The Stars and Stripes were displayed upon the stage, and portraits of Grant, Logan and other heroes of the war were conspicuous.

Dr. Wm. Freeman of Fullerton called the meeting to order and presided during the afternoon.

The exercises opened by the offering of the invocation by Rev. Markle of the Christian Church of this city.

The Buena Park choir, composed of Miss Terry, Miss Weber and Mr. Mc Kenny, sang "They'll Never March Again."

Lincoln's Gettysburg address was rendered by Joe McKenny.

Miss Terry favored the audience with a patriotic solo.

Rev. Rundell of Buena Park recited the "Blue and the Gray."

The Buena Park choir sang again very acceptably.

Clyde Bishop of Santa Ana was introduced and responded with an able address occupying an hour in its delivery. Bishop was never in better form, and his oration, which was delivered without notes, takes rank with the best ever delivered here, and Anaheim has heard many eloquent Memorial day addresses in the past.

The exercises closed by singing the national anthem, led by the Buena Park choir, the audience participating.

Rev. Rundell offered the benediction, and the audience dispersed.

DRAINAGE DISTRICT.

The voters of the proposed Talbert drainage district at Talbert were given an opportunity Saturday to approve or disapprove of the proposition by ballot. The vote recorded shows there was but little opposition to the plan, the vote for being 65, and against 5. S. Talbert, J. B. Bushard and Louis Hell were elected a board of directors. Whether the money to carry on the work will be raised by special tax or by bonding the district has not yet been decided on. The latter is most favored. The board will organize at once and the work of laying out the ditches will not be delayed long.

Resolutions of Condolence.

Hall of Anaheim Lodge, No. 199, I. O. O. F., Anaheim, Cal., May 31st, 1904.

Your committee appointed to draft resolutions in memoriam beg leave to submit the following:

Whereas, By the dispensation of an all-wise Providence, death has removed from our midst a worthy brother who has been a faithful and zealous member of our lodge for the past thirty years, and who was an honorable and upright man.

Resolved, That in the death of our most worthy brother, W. T. Axbill, this lodge has lost a valuable member and the community an esteemed and worthy citizen.

Resolved, That we extend our heartfelt sympathies to the friends and relatives of the deceased and that as a token of respect to the memory of our departed brother the charter be draped in mourning.

Resolved, That these resolutions be entered on the record and that a copy be forwarded to the Anaheim Gazette for publication.

E. W. CHAMPLIN,
F. C. SPENCER,
OLIVER HILL,
Committee.

School Election.

The trustees of Anaheim school district have called an election to be held at the Central schoolhouse on Saturday, June 4th, to choose a successor to Mr. Enearl, whose term expires. Mr. Enearl has been persuaded by his many friends to stand for re-election, and has no opponent in sight thus far. He makes a good school trustee and his supporters are of opinion he has earned a second term.

Medicine "Ads" May Have to Go

In connection with the postoffice department's purpose to eliminate objectionable patent medicine and other advertisements from the newspapers, as announced some weeks ago, is that all these cases would be taken up individually on their merits. Each case will be considered carefully by the officers of the department, and when the cases are found to involve violations of the law governing such matters the American Newspaper Publishers' Association will be notified. That body according to the present plan, is to notify all of its papers which are members of the organization that the advertisement is contrary to law.

The papers that are not represented in the Publishers' Association will be notified directly by the department and wherever papers so notified refuse to eliminate the objectionable matter the postoffice will exclude them from the mails.

The question of the contracts which concerns may have with the publishers has been considered and it is asserted that if these are in violation of the law they could not operate in any way that would obstruct the carrying out of the post office department plans.

FATHER DUBBEL ON SULLIVAN

Denounces Him as a Fraud. Untruthful Person and Vagabond Who Sought Aid From the Catholic Church.

EDITOR GAZETTE—Dear Sir: Permit me a little space in your paper, for a few remarks which in my opinion may be of benefit to some of our fellow citizens. A few days ago in the Christian Church of this city, a certain Mr. Sullivan also sailing under the alias of "Brother Ruprert" lectured on the topic "The Catholic Church." This man claims to have been a missionary in the church, but now a graduate, disgusted with its abuses, he has become a wandering apostle, and goes about enlightening the American people on the evils of that church. Well, Sir, the man is too small a fry either for me to lose time on him, or for you to waste printers ink; still it may be interesting for our people to learn how they, despite their intelligence, like to be humbugged. In the first place the man is a fraud. He is untruthful, for never was he an ordained minister. As a vagabond he sought aid from the Holy Cross Fathers at South Bend, Indiana. Charity being shown to him, he sought admission in the order, and actually was received. Admitted to the novitiate, where he remained for eight or nine months. An unfit subject, he was dismissed. His bile conquering his little mind, he joined an anti-Catholic society and under their auspices delivers lectures, and incidentally seeks a collection. Being too ignorant to attack the doctrines of the church, he entertains his audience with filthy stories, as some of his hearers have learned. Any one desiring more information about him may write to the Superior of the institution given above.

Enough about this fellow. Is it not sad, Mr. Editor, that Anaheim again should be behind the times? The fellow was exposed in the city papers of Pomona a couple of months ago, and he had to leave town. Were it for him only I would not worry you or rush into print, but what can we say about the management of a church that permits a man of such an unsavory reputation to occupy its pulpit? Does it not prove the assertion that such churches are mere meeting houses? That thereby they encourage idleness in these useless creatures, in enabling these wretches to eke out a miserable existence, the agony of these worthless individuals is prolonged. But what will I say about the audience? Would you go to a Benedict Arnold to learn the character of your American forefathers? A traitor to his God and his faith, as a traitor to his country is equally to be shuned. The day has passed for such bigotry in this country. Our very constitution detestes religious strife, and do you mean to say that tolerance and good will is promoted in a community by such creatures? If it was seriously thought about to set aside some lonely island and to it banish the pest called anarchists, why not set aside another for such religion disturbers? The Catholic church door is wide open, and if any one desires information he may receive it from first sources and needs not seek such filthy channels.

Thanking you, Mr. Editor, for this space, I am Sincerely yours
F. J. DUBBEL.
Anaheim, Cal., May 29, 1904.

MRS. MANSFIELD'S SUIT

The $125,000 breach of promise suit brought against Lewis F. Moulton of El Toro by Mrs. Fannie Mansfield of Los Angeles made its first appearance in the superior court at Santa Ana this week, when a demurrer to the complaint was argued by attorneys for both sides. Judge West took the matter under advisement.

ANOTHER INJUNCTION

Officers of the Santa Ana Valley Irrigation Company and the Anaheim Union Water Company have secured evidence that O. B. Fuller and other ranchers in Riverside county are again using water of the Santa Ana river for irrigating outside the natural watershed, in violation of the restraining order issued by Judge Bledsoe. The joint litigation committee of the two companies has issued instructions to their attorneys to commence proceedings against Fuller for contempt of court. This is Fuller's second alleged violation.

New Train Service.

The Southern Pacific will tomorrow add another passenger train north bound between Orange county points and Los Angeles. This train will be known as the Newport flyer, and passes here south bound at 10:10 a. m., following the regular passenger at 9:49. The afternoon train north bound passes at 4:06, beginning tomorrow, instead of 3:52 as at present. The morning train north bound passes at 10:52. The complete new schedule will be found in its usual place on the first page.

A Great Chance For the Ladies!

Having decided to take our usual summer vacation during the month of July, we now put on sale without reserve:

Our exquisite assortment of new and stylish Ladies ready to wear dress and street hats.

Our grand line of misses and children's hats.

The most elegant assortment of imported pattern hats—and in fact, everything pertaining to the millinery business.

All of these choice new goods we will sell during the month of June at and below manufacturer's prices.

Graduates are especially invited to look at surprises we have in store for them.

Misses Reinhaus,
115 W 4th Str. Santa Ana.

Course Of Study.

The Chamber of Commerce has arranged with the School Teachers of the Public School of this City to meet County Superintendent of Schools J B Nichols, at the Public School Building on Friday (tomorrow) at 4 p. m To discuss the present course of study, which is claimed by nearly every parent as being too advanced for the children attending the School, and wholly beyond the mental scope of the majority of the pupils. All parents are requested to be present at the meeting.

Bathing suits for men and boys, 50c to $3.50. Asher & Falkenstein. 1t

LOCAL JOTTINGS OF INTEREST

Hon. A. E. Nutt, former State Senator from San Diego county, Cal., and Miss Carolynn E. Fosdyke, of Bradford, Pa., were married at Tucson, A. T., May 25th. Rev. H. K. Booth officiating. Mr. Nutt and bride have gone to Denver, Col., to take up their residence. Friends in this vicinity extend felicitations.

The Chamber of Commerce will open its new headquarters in the Ruhman building within a few days. The room is large with attractive show windows, and is also centrally located. A display of preserved fruits, as well as seasonable green fruits, will be kept on exhibit at the new headquarters, and will be open during the day, but not in the evening. The exhibit will be in charge of Rev. Kohlenberger.

Ben Dreyfus was a visitor in our town this week from San Francisco. Ben is interested in large property holdings in Orange county, and is a member of one of the wealthiest and most highly respected families of San Francisco. He is one of the shrewdest young business men of the Northern metropolis, the house of Buckingham & Hecht, with which he is connected, employing several hundred workmen. His mother has recently added vastly to the beauty of her building here, which is occupied by Stern Bros store, by putting in a new plate-glass front, and it is said Mrs. Weglein, who owns the adjoining building, will shortly improve her building by the addition of a similar front.

Ira Litten of Loara paid Los Angeles a business visit this week. Ira was recently in a railroad wreck at Lancaster, whither he had gone to ship a carload of horses to this point. At 3 o'clock in the morning, when on his homeward trip, the train was derailed, and seven carloads of cattle smashed. Forty head of beeves were killed outright, and a hundred head stampeded over the hills. The train carried a quantity of dynamite, which was strewn along the track, but which fortunately failed to explode. Ira's stock was not disturbed, and after a delay of twenty four hours he resumed his journey. He arrived home in safety and disposed of the horses to good advantage.

Mrs Asher and daughter Miss Gertrude Asher left this week for San Francisco, where they will remain for some weeks for the benefit of Mrs Asher's health.

Hellman Wins

An action involving the title of valuable beach lands at Anaheim Landing was decided by Judge West in superior court this week in favor of H. W. Hellman of Los Angeles and against the Anaheim Landing Mining & Development company, the former being granted a writ of possession. Hellman was the original owner of the land, and three years ago gave leases the above named company, a corporation composed of Anaheim and Fullerton men, to prospect the property for oil and other minerals, believing that productive oil wells could be located. After several fruitless attempts the company abandoned the proposition and Hellman recently filed suit to have an order issued terminating their interest in the property and giving him a clear title to it. An appeal wil probably be taken.

National Game.

Olinda had little difficulty in enveloping with an elegant coat of whitewash the Woodmen of Los Angeles at Athletic park on Sunday afternoon. The foreigners could do nothing with Crandall's delivery, while the foothill tribesmen found Hitt early and often. Score, 10 to 0.

Potatoes Stolen.

Sometime during Saturday night thieves took advantage of the bright moonlight prevailing over the Terry farm on the east side and entered the potato patch and made away with $50 worth of the succulent vegetable. Mr. Terry states there are yet some potatoes left on the farm together with some of the best berries he ever raised, and if the thieves will kindly forward their address he will ship the whole shooting match to them, and no questions asked. Nothing small about Mr. Terry.

McEachran's Minstrels.

This is positively the greatest show on earth, so if you fail to attend the performance next Saturday evening at the Opera house you will miss the greatest treat ever.

Comedians have been engaged at great expense to appear on the stage, one being Choni Burk, the noted South African Mocking bird, and Mike Milraws, the noted Hungarian warbler. Besides these high priced performers there are a score of others, who go to make up the greatest show on earth. Those who do not like them and will refrain from throwing vegetables at the performers, get their money back.

County Seat Wins.

All the prizes in the annual oratorical contest between Fullerton and Santa Ana high school held in the high school at Santa Ana were won by Santa Ana. The Finley medal for best declamation from the freshman class was captured by Marguerite Louise Bangs; the Finley medal for best essay from the sophomore class by Lemuel Robinson, on "Opportunities which politics offer to a young man;" the Starbuck medal, for best oration from a member of the junior or senior class went to Sidney Saunby; the Starbuck medal for the best work of the school as a whole also went to Santa Ana. The contest was spirited and was attended by about four hundred enthusiastic adherents of the competing schools. Prof. Hafford of Occidental College presided and the judges were H. O. Wise, head of the English department of the Redlands high school, J. O. Churchill of the Hollywood schools and A. N. Wheelock, superintendent of the Riverside schools.

Bathing suits for men and boys, 50c to $3.50. Asher & Falkenstein. 1t

A fine line of whiskies just received at Commercial Hotel Bar—Wilson, Mt. Vernon, Hunter, Marland Scotch, Kentucky Taylor, old Oscar Pepper, Jackson Club, Rock and Rye and other brands. Dining room services first class. Give us a call.

SAGER & HATFIELD, Props.

PERSONAL MENTION

Judge Marquez was a visitor in town yesterday from Peralta.

J. L. Bowen came in from Centralia on Saturday to transact business.

Wm. Crowther was a business visitor to Los Angeles the first of the week.

Robt. Thiele was a business visitor in town on Sunday from Los Angeles.

Mr. and Mrs. Toovey of Denver are guests of Mrs. Fay.

Mrs. J. Kuebler was a visitor in town from Long Beach on Monday.

Miss Emma Newman of Los Angeles is the guest of Miss Pauline Kroeger.

George Boyd and Peter Weisel made a business trip this week to Los Angeles.

Mr. and Mrs. C. O. Rust were visitors in Los Angeles the forepart of the week.

C. G. Beard of Santa Ana has filed suit for divorce from his wife, Lizzie Beard.

Madame Modjeska and Count Bozenta were guests this week of Mrs. Langenberger.

A. T. Pendleton was in town from Placentia on Saturday on a business trip.

Frank Ey came over from Santa Ana on Monday to attend Memorial day services.

Harry H. Thurber of Santa Ana has filed suit for divorce from Mrs. Marilla A. Thurber.

Steve Rimpau is at Jerome, A. T., in the employ of Senator Clark's mining company.

Mrs. Polhemus and son Dean visited in town this week from Los Angeles, guests of Mr. and Mrs. Cayce.

Mrs. Stachell has our thanks for a donation of sweet peas, raised without irrigation.

Pupils of the seventh grade enjoyed a candy pulling at the residence of Mrs. Zeus on Saturday evening.

Archer Fay is home from Stanford, having graduated after an attendance of five years at the university.

W. H. Spake contemplates a trip to Bakersfield and other up-country points in the near future, to be absent several weeks.

Mr. and Mrs. Ed Woelke have arrived from Chicago and are guests of their aunt and uncle Mr. and Mrs. Gus Hansen of Orangethorpe.

Wilbur K. Howard, of Los Angeles, representing Bradstreet, was in town this week taking the annual rating of business houses.

E. E. Beazley and Miss Minnie L. Hetebrink, popular young people of Fullerton, have been granted a license to marry.

D. Redit was a business visitor at Los Angeles this week. Mr. Redit is recovering from a severe attack of pleurisy.

Sidney Holman was in town on Saturday afternoon. He reports an abundance of first class hay is being made, but that grain will be short.

Kenneth Nagle, the young son of Mr. and Mrs. A. Nagle, has been ill during the week. Drs. Bickford and Johnston were called and the little boy will soon be well again.

Robt. Dunn has returned from a week's outing at Newport Beach during which time he made a try at breaking the fishing record, and it is said about succeeded.

Mrs. W. H. Spake, accompanied by her daughter Lena and her mother, Mrs. Sanders, ideparted this morning for Dallas, Texas, and will be absent for three or four months.

Banker Hatch came over from Long Beach with a party of friends in his touring automobile on Saturday. Mr. Hatch rode about the city noting many substantial improvements.

Mr. Rea reports the walnut crop will not come up to earlier estimates. The crop will probably be an average one, but not so heavy as had been reckoned upon a month ago.

The Misses Burdorf, Barrett, Case, Henry Boechman and Harold Carpenter have returned from the State University at Berkeley to spend the summer vacation at their homes.

W. H. Hildebrandt of this city has filed suit for foreclosure against Mary A. Smith et al, the action being to collect on a $1500 note secured by mortgage on a ranch adjoining town.

W. A. Frantz and family were in town this week from Los Angeles. Frantz has forsaken the real estate business and will open a barber-shop at Redlands. Keep your eye on him, Scip!

W. R. Hale, a jeweler of Greenville, S. C., who has been a guest of Thomas Strain, departed this week for his home, returning via the World's Fair. Mr. Strain will accompany him to St. Louis and after spending a week at the fair will go to Ireland on an extended visit.

Mrs. Marie Grogan writes from Wisconsin renewing her subscription to this journal and extending best wishes to friends. Mrs. Grogan has many friends in this section who are always glad to hear from her and who indulge the hope that her paths may ever be in pleasant places.

Mrs. Christina Newsom of Garden Grove died on Monday of cancer of the stomach, of which she had suffered for some months past. Mrs. Newsom was an old time resident of Garden Grove and her death is universally regretted. The remains were interred yesterday in the Alamitos cemetery.

Miss Mabel Adams and Edward J. Ormsby, well known young people of Fullerton, were married in Santa Ana by Justice of the Peace Smithwick in presence of the mother of the bride, Mrs. Roy Adams. They departed for San Diego for a two weeks' honeymoon trip and upon their return will reside at the Santa Fe oil wells.

Pat Hayes, the hobo found in a semi-conscious condition near the railway signal tower south of town Wednesday last, recovered at the hospital sufficiently on Saturday to be liberated. He appeared to be suffering with lockjaw, and for a time it was thought he would expire. However he rallied under treatment, and on Saturday was given a ticket to Santa Ana and left for that city.

Next Sunday will be Children's Day at the Christian Church, the services will be given over to them. In the morning Elder Markle will speak to them on "What I find on a Nickel." The evening service will be an exercise entitled, "The Conquering Christ," consisting of recitations, songs and drills. Collection will be for children's work in missions. All invited and will be made welcome.

Bank Commissioner Knight was in town on Tuesday examining into the affairs of the First National bank, which he found to be in excellent condition. There was no criticism to offer, he said, and the bank's paper was grit-edged and as good as any he ever saw. Whereat the chest of Vice-president Hartung swells with conscious pride as he notes the substantial advancement of the institution since assuming control of its affairs.

Dr. Alfred Loerch, the eminent optician, finds his services in such demand that he has decided to remain several weeks longer. Those in need of eye glasses will do well to have the doctor fit them before his departure for his home in Santa Barbara. He stands at the head of his profession, having studied in this country and Germany. He has with him the latest and most approved instruments for testing eyes and is uniformly successful in fitting glasses.

Marriage licenses have been granted at the office of the county clerk to Walter Moore, aged 25, and Adele Mason, aged 24, both of Monrovia; to George W. Lyon, aged 22, and Grace L. Swezey, aged 17, both of El Toro; to Edmund E. Beazley, aged 35, and Minnie L. Hettebrink, aged 25, of Fullerton.

S. O. Wood, formerly of this city, was a loser to the extent of $3000 by a fire which started in his office in the Stimson block in Los Angeles, and which for a time threatened the whole building. Wood's loss consists of maps, drawings, books and office furniture. He was severely burned about the hands and face while extinguishing the flames. An alarm of fire was rung in and the department responded only to discover the fire had been put out before its arrival.

Simon Levi and Tom Bert of San Diego, and his son-in-law Mr. Jacobs of Los Angeles, were in town on Monday, guests of Mr. Rea. They came down from Los Angeles as far as Fullerton, where they were taken in an automobile outing throughout the Placentia country. Mr. Levi expressed himself as delighted with the trip, saying that he had passed through the garden spot of California. San Diego is going ahead, he added, and looks for a boom in the near future.

C. Bruce since disposing of his candy store has been occupied by the erection of an addition to his dwelling on Philadelphia street. Mr. Bruce was for many years a railroader, and ran a passenger train from Boston to Burlington, a distance of 287 miles. His train was composed of seventeen coaches and he frequently took up from 3000 to 4000 fares in a day. Failing health made it necessary to come to California, where he found existence a rare delight, seated under his own vine and fig tree.

Mrs. C. Browning has installed on her place in Orangethorpe an electric pumping plant which is operated by a fifteen-horse-power electric motor, power being furnished by the Edison Electric Company from the main transmitting line. Transformers have been installed on the ranch, which reduce the current from 10,000 volts sufficiently to drive the motor. Mrs. Browning believes she can irrigate her entire place at a much cheaper rate than that charged by the water company. She has also installed a 2-horse power motor to pump water for domestic use, and has wired her house throughout for electric lights.

Fred H. Bixby of the Rancho Los Alamitos left for Reno, Nev., on Monday, for the purpose of buying a half or carload of thoroughbred Hereford bulls. Mr. Bixby intends to engage in fine stock raising, the Rancho Los Alamitos being peculiarly fitted for such business as there is pure water in abundance and the land is very prolific. He will buy his bulls from Governor Sparks of Nevada, the governor being an admirer of thoroughbreds and a stock raiser of national reputation. Mr. Bixby expects to be gone a week on the trip and will accompany his purchase back to the rancho.

Donald McComber, the six-year-old son of C. L. McComber, a rancher at Northam, is lying at the Fullerton hospital with a bullet hole through his body. The little fellow, with his nine-year-old brother Gerald, wandered into the bunk-house of the hired men on the ranch, where Gerald found a pistol that worked on a hair trigger. According to his statement he just turned it over, when it exploded. The bullet struck the boy in the pit of the stomach and went clear through his body. There was no doctor nearer than Fullerton, and the journey was made to that city at break-neck speed and the injured boy taken to the hospital. The physicians say the boy may recover.

Mrs. John Ostrander of Trabuco canyon was trampled under the feet of a team of fractious horses on Tuesday and by a seeming miracle escaped death. Mrs. Ostrander caught the horses and had mounted one, expecting to ride it bareback from the pasture to the barn, when it became frightened and threw her to the ground. The horse planted one of its forefeet upon her shoulder as she lay prostrate, breaking the collar bone. The animal also gave her a severe kick on the ankle. The shock rendered her unconscious and she lay in the sun for an hour and a half before her husband, returning home from his day's work, discovered her. Late at night she was driven the twenty miles to Santa Ana, where her injuries were cared for at the home of her father, G. F. Havens.

Ladies please note that we will close our store during the month of July for the purpose of taking our usual summer vacation. Take advantage of our great reduction sale now in progress.

Misses Reinhaus,
115 W 4th Str. Santa Ana.

Only the Palace Tent Studio can supply you with those elegant Panels and Cabinets, so much in demand. Only a short time longer.

Bathing suits for men and boys, 50c to $3.50. Asher & Falkenstein. 1t

FOR GRADUATING DRESSES

We are Headquarters for materials for Graduating dresses in white and cream in wool, silk and cotton.

Persian Lawns, Silk Gauze, India Linens, Organdies, Dimities, Lace Stripes, Crepe de Chines, Brillantines, Henrietta, Albatross etc. etc.

We also carry a complete line of Laces, Trimmings and Linings to match these goods. We are pleased to show you these goods, as we are sure you will find something suitable.

Asher & Falkenstein
Anaheim, Cal.

Wallop Bros. Cash Grocers

Carry in stock a complete line of FRESH GROCERIES at prices to meet all competition

Fresh Fruits and Berries in Season

Our delivery wagon makes regular trips twice a week through Placentia, West Anaheim and Katella districts.

Highest prices paid for Produce Poultry, and Eggs

Remember

My store for the finest and best CANDY. The largest assortment of Fancy Stationery, together with Books, Novels, Etc. I can save you time, trouble and expense if you will give me your subscriptions to any newspaper or magazine in any language.

Jos. Helmsen

HONEYBEE QUEENS.

THE MANNER IN WHICH THEY ARE FED BY THE WORKERS.

There Are Numerous Safeguards In the Hive to Provide Against the Administration of Poison Honey—It Is Different With Wasps.

The safeguards provided against the administration of poison to the despotic oriental rulers are rudimentary compared with those which stand between queens of the honeybee and such a risk. Curiously enough, this is a phase of the internal economy of the beehive which appears to have escaped observation.

In the British isles no poisonous honey is collected. If it exists the bees have learned to avoid it. Probably there is none, as the honey from at least one dangerous plant, the deadly nightshade, is harmless. Ivy honey would be the most suspicious of any gathered on a large scale, and it only exerts, so far as observation goes, a slightly laxative effect on the digestive organs. Although in this country no poisonous honey is known, it is met with in other places, notably in Asiatic Turkey. It was in this region that Xenophon's soldiers were poisoned 2,300 years ago by honey from the Azelia pontica, a plant which still flourishes in Armenia. Some centuries later a Roman army suffered similarly, but less severely, there being no deaths.

The precaution of compelling the cook to eat a portion of every dish, which is the usual safeguard of despotic rulers, or the still more primitive plan of giving the first helping to a little dog, can be eluded by a clever Borgia by having only one-half of a bird or pastry poisoned. In a wasps' nest each forager on returning proceeds directly to the queen and offers refreshment. Consequently the queen is sometimes destroyed by slowly acting poison. Further as regards wasps, it is observed that when any larvæ not recently fed perceive the queen receiving food they become restless. If nearly grown they wag their heads in a suggestive way, which plainly conveys a demand for a share. Each forager after feeding the queen gives the balance of his load direct to the nurses.

In the case of the honeybee one possible reason why no virulently poisonous honey reaches the hive may be that the insect foolish enough to collect any would probably die, as the so called honey sack is really a stomach in which a preliminary digestive process proceeds. This is proved by the polariscope, which shows that, while the nectar of the flowers is pure cane sugar, or levulose, the substance in the hive cells is sacrometrically half dextrose and half cane sugar. Dextrose is invert sugar, a coarse variety of which is the glucose of commerce. Forager bees returning to the beehive place the half digested product known as honey in their storeroom with other honey. This mixing would have the effect of attenuating a poisoned load should such be brought in.

Foraging bees never feed the queen or young larvæ, but they give a mouthful or two to drones in passing. Just before sealing for the metamorphosis workers and drones are fed with honey mixed with pollen. Not so the young queens, who only get a further supply of the redigested milky substance known as chyle, which is the sustenance of all larvæ indiscriminately during the first three days of their existence. During the chrysalis stage there is no feeding. It is the business of a gang, distinct for the time being, to cater for the queen and young. They bring the food from the stores and submit it to the digestive process referred to, after which it is regurgitated to supply the needs of the queen and young larvæ. The attendants are numerous, and each supplies only a minute quantity. The queen bee is so constituted that her digestive system is capable of assimilating only the prepared food of chyle. She will die in a few hours on a comb containing honey, although kept at the temperature of the hive.

Thus it would appear that the safeguards are:

First.—A bee collecting poisonous honey would probably die before reaching the hive.

Second.—If one succeeded in depositing poisoned honey, the circumstance that it did so would prove the poison to be not virulent, and the mixture with other honey in the storeroom would still further attenuate the poison and render it harmless. This is the stage at which the product becomes human food. It has, as stated above, occurred that poisoned honey has passed both these lines of defense.

Third.—Should the honey be still deleterious the alimentary attendants of the queen would first suffer, and only those bringing wholesome food would reach her, as a struggle for the privilege of feeding her majesty is continually in progress.

Fourth.—Should the stores pass the three safeguards before mentioned there is still another—viz, that each one of the queen's attendants feeds her only for a second at a time, and thus she would never get a sufficient quantity to affect her seriously. The queen is always on the move and the competition to feed her so great that she is continually bringing fresh bees in front of her, from which position alone food can be administered. No worker bee would think of jostling; every one gives way to the queen.

Uneasy monarchs and others may find some suggestions in these arrangements for securing their safety.

Startling Evidence

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequaled. A recent expression from T. J. McFarland, Bentorville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefitted. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by Hutchinson, the druggist. Trial bottles free; regular sizes 50c and $1.

Said Maid to Mistress.

"Where have you been, Jane?"

"I've been to a meeting of the Girls' Friendly society, ma'am," was the maid's reply.

"Well, what did the lady say to you?"

"Please, ma'am, she said I wasn't to give you warning, as I meant to. She said I was to look upon you as my born—and dear if"—New Yorker.

Photos made at the Palace Tent Studio for a short time longer only, will equal any city work in style and finish.

FOLLY OF THE BEAR

THE CRAVINGS OF HIS SWEET TOOTH LED TO HIS DOWNFALL.

He Got Drunk on Si Thompson's Rum and Molasses, and Si Killed Him—Tom Meserve Gives a New York Sportsman a Dissertation on Bears.

To the ears of the New York sportsman and Tom Meserve, his guide, lying on the bed of evergreen boughs in camp on the shore of Moosehead lake, came the scream of a bear somewhere off in the dark forest. It was a queer sound that was much like the shrill call of d-i-n-n-e-r, with a rising inflection at the end, with which New England farm wives summon the men from the fields to the noonday meal. It was repeated several times at intervals and came each time from nearer the camp. The guide got up and went out to the maple grove a few rods away, took down from a limb the buck that was hanging there, dragged it near the camp and hung it up to a tree within plain sight of the doorway.

"When we know that a bear is prowling round, it is well to have our venison where we can see it," he said. "He won't come so near the camp, but if we left the meat out among the maples he'd be apt to spoil some of it before morning. A bear is a hungry creature and will eat about everything, from honey to carrion—a stale salt mackerel will draw one farther than anything else—but he is shy about coming around camps where people are. You'll see that this one will come near enough to find out that there are people here, and then will go away."

The New Yorker was for going out to try a shot at the bear, but the guide told him that it was of no use.

"He won't come into view anyway," he said, "and if you show yourself at the door he'll not come within rifle shot. Remember that he can see in the dark, but unless you should get a glimpse of his eyes you couldn't distinguish him among the shadows five steps away. Just listen, and we may hear him."

The New York man lay down again upon the boughs. The scream came once again close at hand and after that was heard no more. Presently the guide lifted his head and signaled the New Yorker that he should listen. There was a sound of crackling twigs and rustling bushes somewhere outside the open space in front of the camp, but no noise of footfalls. Then came a little sharp sound of snuffing and after that the noise of something moving through the bushes again. The snuffings and then the moving on again kept up until the bear had completely circled round the camp, and then the sounds from him died away. Brain had found out all he wanted to know about the camp. Decided that venison there was likely to come too high in the way of risk in getting it, and gone away without showing himself or exposing his skin to any greater risk than that of a random shot.

"That's the way with bears," observed Meserve as the two men lighted their pipes. "You almost never get a shot at one unless you catch him swimming a pond—and in that case you want to make sure of your shooting or he'll come aboard your boat, which makes things bad—or run him down with dogs, which is expensive, for the more valuable the dog the more certain he is to get killed. It's only the cubs that will yap at the bear's heels and run away when he turns on them that escape damage in a bear chase, and, once in sight of the bear, they're the most useful too. The bear is like what I have read of elephants. He can't bear the sound of a little dog snapping behind him and keeps turning round to drive him off and so gives the hunters a chance to come up.

"There was one bear that stayed round this shore for years, and he gave fishermen no end of trouble by robbing their camps when they were out on the lake fishing. He bothered them worst in the early spring, when they came up to the lakes to fish through the ice. It was about that time that the bear would come out from his winter's sleep lean and hungry, and it took a heap to fill him up. He was a great traveler, and before the fishing season ended he would be heard of from one end of the lake to the other. They could tell that it was one bear that did the business, for this one had a foot with some of the toes gone, and the tracks about the camp always showed this mark.

"This bear run his rig up and down the lake for three years without getting into trouble. He came to grief at last in a very queer way. A man named Silas Thompson, camping alone on the east shore of the lake, was out on the ice minding his lines one March day and thinking how he would have to go home sooner than he had intended, owing to an accident that had happened that morning at his camp. In some way he had dropped his rum jug and broken it in two or three places. There was a bottle with some molasses in it standing by the fireplace, and by grabbing up the jug quickly and holding it over the bottle he managed to save a quart or two of rum in the shape of 'black strap'—that's the state of Maine name for rum and molasses mixed together, and it's an enticing drink. He had just made up his mind to go to the camp to try a little of the mixture when he saw a bear coming out on the ice from that direction, and the bear was staggering drunk. It had broken into the camp and was drunk on Silas Thompson's rum and molasses. The bear didn't seem to know where he was at or where he wanted to go, and while he floundered round on the ice Thompson made a circuit past him, got to the camp and came back with his gun and shot him. It proved to be the bear that had robbed the fishermen's camps so long. He died happy, and the fishermen's troubles were ended so far as he was concerned."—New York Sun.

The Vice of Nagging.

Nagging may or may not be a vice of the thin, as a famous physician suggests, but that there is some truth in his theory that there is a scientific basis for this ugly habit seems likely. "Perfect health," he says, "has as one of its factors content of mind. A nervous man or woman who is anxious, discontented, gloomy, dissatisfied, worried from any cause, cannot enjoy good health. This mental turmoil produces as one of its primary effects on the body an inability to digest food properly. The blood which should supply the force necessary for the function of digestion is continually drawn away from the stomach by excitement in the brain, and the woman who nags suffers. While there be those whose tendency to lay on fat is so great that nothing will stop it a nagging man or woman is generally thin. Their habit of mind has partially starved their bodies."

IN NARROW WAYS.

Blow, thou strong western wind,
Blow far and fleet
Thy forest coolness here
Through the dark city street.

Blow o'er the crowded roofs
From wall to wall,
Through fevered alleys swift
In boundless blessing fall.

Where weary mothers wait
Blow thy fresh breath,
Where men have lain them down
Woeful in love with death.

Bring country pleasantness
Across their dreams,
Shade of great tossing boughs
And thought of flowing streams.

Bring wafts of fragrance, too,
From far blown flowers,
Pour balm, pour rest, pour life
Through these despairing hours

And let some little child
Wake as you sing
And feel your silken touch
A stooping angel's wing.
—Harper's Bazar

TURTLE FLESH.

The Handsomest of the Animals Gives the Worst Meat.

No one really knows how large a turtle may grow, but certainly there does not appear to be much if any exaggeration attached to the statements of Pliny and Strabo, who, describing the chelonophagi of the Red sea, say that they utilized the shells of the turtles they had eaten as roofs to their huts and boats for their feeble voyages.

Strange to say, the handsomest turtle, the hawk's bill variety (Chelone imbricata), furnishes the worst flesh, being so strongly flavored with musk as to be almost uneatable. This peculiarity would seem to point to a diet of squid since these molluscs are exceedingly musky. But it may not be out of place to remark here that turtle flesh, even of the best sorts, is not nice. As Sam Weller's pieman hoarsely whispered, "It's the seasoning as does it." A diet of turtle steaks or of hashed turtle or of turtle soup, au naturel, would soon sicken any one but a savage. For sixpence or its equivalent in most of the West India island towns one can get a heaped plate of turtle steak with bread or jams or sweet potatoes ad lib. But I never knew even a hungry sailor who wanted more than one meal a week of it, for all its cheapness. The fact is that in the cult of turtle soup we are following (a long way off, it is true) the example set by the Chinese, who love gelatinous soups and pay fabulous prices for the neats of the sea swallows, the holothuria, or sea slug, and the sharks' fins because of their gelatinous qualities.—Frank T. Bullen in Leslie's.

A FAMOUS SOCIETY.

Where London's Famous Preachers and Teachers Gathered.

The closing decades of the last century comprehended the palmy period of a distinguished little society in London which might have been described as a club for the teachers and preachers of their age, secular or religious. Such indeed was the Metaphysical society. Its organizing spirit had perhaps been James Knowles. If its most famous member were found in W. E. Gladstone its leading spirits, who took the most active part in its discussions, were Cardinal Manning and Richard Holt Hutton, the editor of the Spectator. James Martineau, Matthew Arnold and William George Ward, the erewhile mathematical tutor of Balliol, as well as the poet Browning, may sometimes have been of the company, but the chief figures were those already mentioned. In his earlier days Hutton, like so many reflective men of his day, was the disciple of F. D. Maurice. Then among his associates were J. M. Ludlow and Thomas Hughes, the author of "Tom Brown's School Days." Afterward R. H. Hutton's mental master would have been recognized by him in his brother member of the Metaphysical society, James Martineau.

The great incidents in its proceedings at this time were the high speculative arguments wherein different sides were taken by teachers of their generation so mutually opposed and so individually distinguished as Manning and Martineau, upon very rare occasions, it may be, by Gladstone, Browning and, I rather think, once or twice by Tennyson himself. The extraordinary magnetism exercised by Martineau over his personal following was perceptible in his manner with casual acquaintances. As such, it was realized very many years ago by the present writer when, as an exceedingly young man fresh from college, he was concerned in preparing some examination questions, in which his venerable seniors, Maurice and Martineau, with one of two more, were to have a voice.—T. H. S. Escott in Chambers's.

Driven to Desperation

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, ulcers, wounds, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at W. B Hutchinson's.

LIVER TROUBLES

"I find Thedford's Black-Draught a good medicine for liver disease. It cured my son after he had spent $100 with doctors. It is all the medicine I take."—MRS. CAROLINE MARTIN, Parkersburg, W. Va.

If your liver does not act regularly go to your druggist and secure a package of Thedford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Thedford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Thedford's Black-Draught should always be kept in the house.

"I used Thedford's Black-Draught for liver and kidney complaints and found nothing to excel it."—WILLIAM COFFMAN, Marblehead, Ill.

THEDFORD'S BLACK-DRAUGHT

The Milk In the Cocoanut.

Every boy knows the three eyes to be found in one end of a cocoanut, and many a boy has bored these eyes out, one or two of them, with the small blade of a pocketknife so as to get at the milk in the cocoanut, which he has then drained out into a cup or drunk direct from the cocoanut itself. But there is a more fascinating way still of getting at the milk in the cocoanut.

By this other method the cocoanut is opened at the other end from the eyes. The cocoanut is struck all around gently and repeatedly with a hammer, or a stone will do, at a distance of about one-third of the way down from the top, about where the arctic circle would be on a globe.

A continual gentle tapping will finally crack the shell of the nut all around; not in a line exactly on the circle perhaps, but pretty near to it. Sometimes it cracks shell and meat of the nut, too, so that both can be lifted off together; sometimes it cracks out only a shell cap at the top which is lifted off, and the cap of meat underneath is then cut out around with a knife.

And then there you are with the white lined cocoanut cup to drink from.—New York Sun.

Getting an Extra Ration.

Medical Officer (going his rounds)—Well, Murphy, how are you this morning?

Private M.—Much better, sir.

M. O.—Is your appetite good?

Private M.—Yes, sir.

M. O.—Are you getting enough to eat?

Private M.—No, sir.

M. O.—What would you like in addition to your present diet?

Private M.—Another pound of bread, sir.

M. O.—That I cannot give you, as the regulations do not admit of a soldier receiving a double ration of bread in one day.

Private M. (after a moment's hesitation)—Could you not let me have the extra pound and mark it down as bread poultice?

He got it.—London Telegraph.

Fatal Frivolity.

Jack and his two pretty cousins happened to be walking along in front of a drug store.

"I wonder," said Ethel, "if, astronomically speaking, Uncle Henry's son is in the right sign for ice cream soda?"

"I'm afraid not," replied Gwendolen with her eye on the youth. "I don't see any signs of the soda act."

Jack groaned and marched them fiercely past the drug store by way of punishment.—Chicago Tribune.

Worst of All Experiences

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now am completely recovered." For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by Hutchinson, the druggist.

THE CO[illegible]KS.

A Favorite Camp Story Through Which Generals Are Criticised.

Unlike other Russian soldiers, the Cossacks are very intelligent in military matters and do not hesitate to criticise their generals freely among themselves. They have bitter tongues and a genius for satire. There is a favorite story which has been told in Cossack camps for generations. It is handed down from father to son, the names being changed to fit the military commanders of the day. Freely translated, it runs something like this:

The war god of Russia was asleep in heaven one day when he was awakened by the confused clamor of two hosts in battle on the earth beneath. He shouted to the Angel Gabriel:

"Look out and see what my Cossacks are doing."

"They are fighting the Turks, and Prince Potemkin is leading them."

"Oh, that's all right," said the war god. "He's a good man."

So the deity went asleep again, only to be awakened by another turmoil.

"What's that?" he asked sleepily.

"They are fighting the Turks again under Suwarow."

"He's a fine fellow. They'll do all right."

And so the story goes on interminably around the campfire, each man adding the name of his favorite commander until at last one of them makes the Angel Gabriel mention the name of some general who happens to be regarded by the Cossacks as a duffer. Then the next man makes the war god reply in accents of great alarm:

"Oh, my beloved Cossacks! They must be perishing under that man! It is time I interfered. Hasten, Gabriel, and bring me my long boots, for I must go down at once and save them."

STORY OF A HAT.

Revealing the Secret of Its Two Trips Around a Table.

A number of literary men were at one time gathered in a well known chop house in New York. The conversation was of course brilliant, and the repartee sparkled with mirth and wit. During a lull in the talk the door slowly opened, and an old southern darky, grizzled with age, poked his head in and then slowly drew his body in after him. A waiter started to eject him, when one of the gentlemen cried:

"Wait a moment. Let's see what the old boy wants."

The darky bobbed up to the table where this gentleman sat and held out his hat. Throwing a wink to his neighbors, the gentleman took the hat and, making a show of placing something into it, passed it on to the next man, who did likewise. The hat made a tour of the room, to the puzzled wonder of the darky. The last to receive it solemnly handed it back with a polite bow, saying:

"There, sir, don't you think you have something to be thankful for?"

The old darky looked solemnly around the company and, mechanically taking the hat, he said:

"Gen'men, I'ze indeed glad dat I got eben de hat back!"

The reply was so thoroughly enjoyed by the company that the darky left the place a much richer man than when he had entered it.—Kansas City World.

That Throbbing Headache

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25c; money back if not cured. Sold by Hutchinson.

NOTICE OF SALE REAL OF ESTATE AT PRIVATE SALE.

NOTICE IS HEREBY GIVEN, THAT IN pursuance of an order of the Superior Court of the County of Orange, State of California, made on the 6th day of May, 1904, in the matter of the estate and guardianship of Mina Kossert, an incompetent, the undersigned, the guardians of said incompetent, will sell at private sale to the highest and best bidder on or after June 16, 1904, for cash, or for part cash and part defered payment, the credit not to exceed three years from the date of sale, the sale to be made subject to the confirmation by the Superior Court of said Orange County, all of the right, title, interest and estate of the said Mina Kossert, an incompetent, in and to the following described real estate and capital stock of the Yorbelin Union Water Company, particularly described as follows, towit: An undivided one-half interest in that certain tract of land situate in the City of Anaheim, County of Orange, State of California, and described as all of blocks "A" and "B" of Theo. Reiser's subdivision of Vineyard Lot G 2, reference being had to the map thereof recorded in Book 25, page 30 of Miscellaneous records of Los Angeles County, California, and also to map recorded in Book 1, page 10, of Miscellaneous maps, records of said county of Orange.

Also an undivided one-half interest in those certain lots situate in said City of Anaheim, County and State aforesaid, and described as all of blocks "D" and "E" (except lot 55 in block "D") of the Hotel Del Campo Tract, as per map of said tract recorded in Book 24, pages 69 and 70 of Miscellaneous records of Los Angeles County, State of California, and also an undivided one-half interest in blocks "F" and "G" of the said Hotel Del Campo Tract, said City, County and State aforesaid, as per the aforesaid map of said tract.

Also an undivided one-half interest in ten shares of the Capital Stock of the Anaheim Union Water Company, represented by certificate No. 2566 of said company, and an undivided one-half interest in ten shares of the Capital Stock of the Anaheim Union Water Company, represented by certificate No. 1937 of said company.

All bids or offers must be in writing and may be made at any time after the first publication of this notice and before the making of the sale, and may be left with Richard Melrose and F. C. Spencer, attorneys, Center street, Anaheim, California, or delivered to the undersigned personally, or may be filed in the office of the Clerk of said Superior Court.

Dated May 24, 1904.

Resolution of Intention.

NO. 37.

The Board of Trustees of the City of Anaheim do hereby resolve and declare that the public interest and convenience require, and that it is the intention of the Board of Trustees of the City of Anaheim to order the following work done, to-wit:

That a cement sidewalk, six feet in width, and a cement curb be constructed along the Northerly side of Broadway Street in said city, from the Easterly curb line of Los Angeles Street to the Westerly curb line of Olive Street, (excepting such portions thereof on which a cement sidewalk and cement curb have already been constructed.) Said work to be done in accordance with the plans, profiles and cross-sections Number 1 on file in the office of the City Clerk of said City, and in accordance with the specifications embraced in Ordinance No. 162 of said City.

That a cement sidewalk, six feet in width, and a cement curb be constructed along the Southerly side of Broadway Street in said City, from the Easterly curb line of Olive Street to the Westerly curb line of Atchinson Street, said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said City, and in accordance with the specifications embraced in Ordinance No. 162 of said City.

That a cement curb be constructed along the Northerly side of Center Street, from the Easterly curb line of Hermine Street in said City to the Westerly curb line of Emily Street, and from the Easterly curb line of Olive Street to the Westerly curb line of Atchinson Street. Said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said city, and in accordance with the specifications embraced in Ordinance No. 162 of said city.

That a cement curb be constructed along the Northerly side of Center Street, from the Easterly curb line of Emily Street in said City to the Westerly curb line of Hedwig Street, and from the Easterly curb line of Olive Street to the Westerly curb line of Atchinson Street. Said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said City, and in accordance with the specifications embraced in Ordinance No. 162 of said city.

That a cement sidewalk ten feet in width, and a cement curb be constructed along the Northerly side of Center Street in said City, from the Westerly curb line of Emily Street to the Westerly curb line of Hedwig Street. Said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said City, and in accordance with the specifications embraced in Ordinance No. 162 of said city.

That a cement curb be constructed along the Southerly side of Center Street in said City, from the Westerly curb line of Claudina street to the Easterly curb line of Los Angeles Street, and along the Easterly side of Los Angeles Street, from the Southerly curb line of Center Street to the Northerly curb line of Broadway Street, (excepting such portions of said streets between said points along which a cement curb has been constructed.) said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said City, and in accordance with the specifications embraced in Ordinance No. 162 of said City.

That the Anaheim Gazette, a weekly newspaper of general circulation printed, published and circulated in said City of Anaheim, is hereby designated as the newspaper in which this resolution of intention and notice of the passage thereof shall be published in the manner and by the persons required by law.

That the Superintendent of Streets of said City is hereby directed to post notices of the passage of this resolution in the manner and form required by law, and to cause a notice similar in substance to be published by one insertion in said newspaper in the manner required by law.

That the City Clerk of said City is hereby directed to post this resolution of intention conspicuously for two days on or near the chamber door of said Board of Trustees, and to cause the same to be published by two insertions in the manner required by law in said newspaper.

I hereby certify that the foregoing resolution of intention was passed by the Board of Trustees of the City of Anaheim on the 24th day of May 1904, by the following vote:

Ayes: Trustees Rust, Darling, Berdrow, Fletcher, Tyler.
Noes: None.

[SEAL] EDWARD B. MERRITT,
City Clerk and ex-officio Clerk of the Board of Trustees of the City of Anaheim.

Resolution of Intention.

NO. 38.

The Board of Trustees of the City of Anaheim do hereby resolve and declare that the public interest and convenience require, and that it is the intention of the Board of Trustees of the City of Anaheim to order the following work done, to-wit:

That a cement sidewalk, nine feet in width, and a cement curb be constructed along the Southerly side of Center Street in said City, from the Easterly curb line of Olive Street to the Westerly curb line of Atchinson Street, said work to be done in accordance with the plans, profiles and cross sections No. 2 on file in the office of the City Clerk of said city, and in accordance with the specifications embraced in Ordinance No. 162 of said City.

That a cement sidewalk, six feet in width, and a cement curb be constructed along the Northerly side of Center Street in said city, from the Easterly curb line of Olive Street to the Westerly curb line of Atchinson Street. Said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said city, and in accordance with the specifications embraced in Ordinance No. 162 of said city.

That a cement curb beconstructed along the Northerly side of Center Street, from the Easterly curb line of Hermine street in said city to the Westerly curb line of Emily Street, and from the Easterly curb line of Olive Street to the Westerly curb line of Olive Street. Said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said city, and in accordance with the specifications embraced in Ordinance No. 162 of said city.

That a cement curb be constructed along the Northerly side of Center Street in said City, from the Westerly curb line of Emily Street to the Westerly curb line of Hedwig street. Said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said City, and in accordance with the specifications embraced in Ordinance No. 162 of said city.

That a cement sidewalk ten feet in width, and a cement curb be constructed along the Northerly side of Center Street in said City, from the Westerly curb line of Claudina street to the Easterly curb line of Los Angeles Street, and along the Easterly side of Los Angeles Street, from the Southerly curb line of Center Street to the Northerly curb line of Broadway Street, (excepting such portions of said streets between said points along which a cement curb has been constructed.) said work to be done in accordance with the plans, profiles and cross-sections No. 2 on file in the office of the City Clerk of said City, and in accordance with the specifications embraced in Ordinance No. 162 of said City.

That the Anaheim Gazette, a weekly newspaper of general circulation printed, published and circulated in said City of Anaheim, is hereby designated as the newspaper in which this resolution of intention and notice of the passage thereof shall be published in the manner and by the persons required by law.

That the Superintendent of Streets of said City is hereby directed to post notices of the passage of this resolution in the manner and form required by law, and to cause a notice similar in substance to be published by one insertion in said newspaper in the manner required by law.

That the City Clerk of said City is hereby directed to post this resolution of intention conspicuously for two days on or near the chamber door of said Board of Trustees, and to cause the same to be published by two insertions in the manner required by law in said newspaper.

I hereby certify that the foregoing resolution of intention was passed by the Board of Trustees of the City of Anaheim on the 24th day of May 1904, by the following vote:

Ayes: Trustees Rust, Darling, Berdrow, Fletcher, Tyler.
Noes: None.

[SEAL] EDWARD B. MERRITT,
City Clerk and ex-officio Clerk of the Board of Trustees of the City of Anaheim.

FACTS ABOUT ANAHEIM.

Sketch of the Industries and Resources of the Most Beautiful Part of California.

The City of Anaheim, with a population of 2500, is situated in the northern part of Orange county, in Southern California, 12 miles from the ocean, 4½ miles from the foothills, and 148½ feet above sea level. It is 27 miles from Los Angeles, the second largest city in the State of California.

The climatic conditions are the most favorable for out-door life to be found in Southern California. The temperature is extremely uniform, seldom rising above 90 degrees in summer, or falling below 32 degrees in winter. The abundance of sunlight and the absence of sharp frosts and cold winds make it a place especially acceptable to those desiring to escape the severe climate of the east.

The country is very attractive. It is practically level, with just sufficient slope from the hills to afford adequate drainage. The roads are level, well graded, and well kept, affording excellent opportunities for cycling and driving. The soil is a rich sandy loam which never bakes, making it a very easy ground to work; thus lending itself readily to the cultivation of berries, nuts, oranges, etc.

The variety of products, and the possibility of procuring small tracts of land at low figures, and on easy terms, make our section of the county very attractive and advantageous for truck raising, or for farming on a small scale. The following are a few of the products: oranges, lemons, walnuts, grapes, peaches, apricots, sugar beets, berries and vegetables of all kinds.

Anaheim is the possessor of a Building and Loan Association, Water company, two railroads, fruit cannery and drier, large oil industry, ostrich farm, bank, several adequate commercial houses, two hotels and two newspapers. The city also owns its water and lighting plant.

FACTS ABOUT ORANGE CO.

The census bureau has issued a bulletin on agriculture in California which we quote from extensively in another part of this issue. One of the interesting features of the report is the paragraph giving the number of farms and acres of farming lands in the five Southern California counties. The pre-eminence of Orange county is apparent:

Counties.	No. farms.	Acres.
Los Angeles	6577	895,993
Orange	3288	360,436
Riverside	2240	427,067
San Bernardino	2250	216,132
San Diego	3708	349,419

But it is in the acreage of irrigated lands that Orange county takes easy precedence over the other counties of Southern California:

Counties.	Acres.
Los Angeles	85,644
Orange	41,549
Riverside	32,947
San Bernardino	37,977
San Diego	16,022

The area of Orange county is 780 square miles; that of Los Angeles, 3880; that of Riverside, 7008; that of San Bernardino, 20 055, and that of San Diego, 8400 square miles.

Orange county thus contains one-fifth the area of Los Angeles; yet its irrigated lands approach in area to one-half those of its neighbor to the north.

Riverside embraces nine times its area, yet it irrigates 9000 more acres, or a fourth more than the belauded county on the east.

San Bernardino is 25 times its size, yet its irrigated acres exceed those of this jumbo county by nearly 4000, approximately ten per cent.

San Diego is eleven times its size, yet it irrigates 25,000 acres more than the county on the south—300 per cent is the former's irrigated area as compared with that of the latter—almost the irrigated area of San Diego and Riverside combined.

Orange county possesses the finest system of irrigation, the most secure water rights, that exist in Southern California. That is what we have said many a time and oft. These figures prove it. It is the handsomest and most productive county that lies outdoors and is settling up faster than any other in the State.

Do You Want The Earth?

The Earth is a new monthly illustrated journal, published by the Santa Fe. Tells the truth about the great Southwest and California—the truth is good enough. Frequent articles describing your part of the country. Contains letters written by farmers, stockmen and fruit raisers; men who have succeeded and who give the reasons why. Strong editorials and interesting miscellany. A very persuasive immigration helper.

Why not have it sent to friends "back East," to do missionary work for the Southwest? Regular subscription price is 25 cents a year; worth double. Send us 50 cents (coin or stamps,) with names and addresses of five Eastern friends; we will mail The Earth, 1120 Railway Exchange Bldg., Chicago. mch31-3m

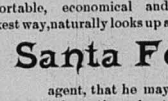

THE CLEANSING AND HEALING CURE FOR CATARRH is Ely's Cream Balm

Easy and pleasant to use. Contains no injurious drug.

It is quickly absorbed. Gives relief at once.

It Opens and Cleanses the Nasal Passages. Allays Inflammation. Heals and Protects the Membrane. Restores the Senses of Taste and Smell. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 56 Warren Street, New York.

WHY KINLOCH PASTE IS THE IDEAL HOUSE PAINT

The purpose of House Paint is to **Protect and Beautify.**

"Linseed oil is the life of paint" because it is the binder, the menstruum, that holds the pigments (the dry paint) to the surface; and only when the oil loses this binding quality through its disintegration by atmospheric influences should the loosened dry particles of pigment come off. The office of the pigment is decorative and also preservative in prolonging the life of the oil by protecting it from the elements.

Absolute certainty of the purity of the linseed oil constitutes the chief economy in paint buying, for to exactly the extent that the binding quality of the oil is weakened by the use of adulterants or cheap "thinners," **the durability of the whole paint is diminished.**

You have this absolute certainty of the quality of the oil in the Paint put on your house when you buy Kinloch Paint, **because you buy the oil separately** and give your paint this absolutely certain durability by mixing this oil gallon for gallon with the **thick "Kinloch" paste** in which, for your convenience and the certainty of proper proportions, all the pigments, tinting colors, "dope" and dryers are ground together and sold you, ready for the admixture of the pure raw oil by yourself.

These facts alone make "Kinloch" the ideal paint; but besides this guarantee of durability through your personal knowledge of the purity of the oil, is the fact that when you buy two gallons of the ordinary ready-mixed paint—the "ready for the brush" sort—you get the ready-mixed paint price for the **one** gallon of oil therein, regardless of its purity, or **2 1/2 to 3 times more** than for the fresh pure oil in your local dealer's barrel.

We invite correspondence from those who use or buy House Paint.

WHEREVER WE HAVE NO AGENT, YOUR OWN DEALER WILL GET "KINLOCH" FOR YOU, IF SHOWN THIS AD., BY WRITING DIREOT TO KINLOCH PAINT COMPANY, ST. LOUIS, MO.

THERE IS NO SUBSTITUTE.

SOLD BY H. A. DICKEL, ANAHEIM, CAL.
