HEAD'S CROPS ORANGE COUNTY \$25,000,000

CITRUS GROWERS GET THEIR RETURNS

ORANGE COUNTY'S CROP UNDEPRESSED BY INDUSTRY HISTORY

Shipments This Season Will Bring Into County \$25,000,000; Northern and Southern Exchanges Share Evenly In This Juicy Melon; Nearly Fifteen Million Dollars Received Up to September 1

SOUTHERN CALIFORNIA'S greatest citrus year will see Orange county growers receiving higher prices than ever before, figures released by the Northern Orange County Fruit Exchange and the Southern Orange County Fruit Exchange. Sales of Orange county fruit to the first instant through the two exchange organizations total \$14,834,225.51. Sales since the first of the month for the two organizations have passed the \$12,000,000 mark. With two months of the present season left and all three shipments of fruit scheduled with high prices being obtained, citrus officials predict that the total returns to those concerned in the citrus harvest of this county will aggregate \$25,000,000. Each of the two exchange organizations is aiming for a \$10,000,000 net in returns to the growers.

Independent houses in the county are expected to report a total return to their growers of nearly \$5,000,000 when the season is complete. Figures for the Orange County Fruit Exchange have been compiled to the end of September. Sales for the month of September were \$1,702,825 for this organization. Sales previous to this month in the Northern Orange County Fruit Exchange amounted to \$1,739,444, according to L. D. Palmer, manager.

For September, last year, the Northern Orange County Fruit Exchange did \$1,500,000, as against \$1,046,271 for last September, according to Manager King.

August was the record month of the year for the Northern Orange County Fruit Exchange, \$2,098,000 in returns being reported. The Orange County Fruit Exchange did a business of similar proportions. Shipments for the remainder of the season will be higher for both oranges and lemons, but higher prices are being received. It is expected that quality Valencia oranges are bringing from \$5 to \$6.50 on the market. It is reported, however, that prices are also being received for lemons, a new record being hung up last Thursday.

Tustin Becomes Sixth Class City

Tustin has become an incorporated city of the sixth class. Voters cast 138 votes for incorporation and 110 votes against such action.

Tustin is the third Orange county town to have incorporated during the last few months, and brings the total number of incorporated cities in Orange county to an even dozen. C. Crawford, Charles Logan, W. M. Huntley, E. L. Kiser and Fred L. Schwendeman have been chosen city councilmen. Walter J. Pollard was elected city treasurer, and J. R. Harbour, city clerk. The Orange county board of supervisors will canvass the vote and County Clerk Joseph Backs will dispatch the results to the secretary of state immediately. An appeal to the secretary of state prepares the necessary credentials, the new city officials in Tustin will meet and organize the city government.

Only 243 votes were cast on the incorporation proposition. The city has more than 1100 residents and more than 600 registered voters.

Crawford was high on the city council ticket with 188 votes. Logan polled 127 votes, Huntley 113, Kiser 105, and Schwendeman 91. O. A. Leiby ran Schwendeman a close race for the fifth place on the council. Leiby received 51 votes. H. H. Hannaford polled 48 votes. W. F. Thompson 46, and J. A. Haskett 40. Pollard, city treasurer, and Harbour, city clerk, were not opposed and each received 141 votes.

Mrs. M. G. Garich, wife of the proprietor of the Duran Apartments on West Broadway, died Thursday at a Los Angeles hospital. Mrs. Garich has been a resident here only two months. She leaves a husband and one son.

Anaheim Orange Shipped to Europe And Returns Here

A CROSS the Atlantic and back again and still good to eat, is the record of a Valencia orange now on display at the office of the Anaheim Co-operative Orange Association, the Mutual Orange Distributors' packing house here.

The orange, still in its original paper covering, a wrapper put on it in the Anaheim packing house nearly three months ago, shows little effect of its varied wanderings since that time, though it has visited Edinburgh, Scotland; Canada, and been carried in a suitcase across the United States.

The orange was received at the local packing house early last week from D. J. Muehlstein, 1129 Arch Street, Pasadena, who writes that he purchased the orange, with another like it, in Edinburgh on July 15, last, when on a trip to Scotland, from which he has just returned.

Mr. Muehlstein says that the price he paid for the orange, about 1 cent, was no higher than the price he was paid to call at quality in Los Angeles before he left and considerably less than he had charged in New York.

THE packing house of the Anaheim Walnut Growers' Association opened its doors for the reception of nuts Monday, and the first pickings of the 1927 crop are being brought in this week. Only 300 bags were received the first day, although picking had been in progress for considerable time. The cloudy weather of last week delayed the drying, consequently delivery at the packing house was delayed. Next week the house will be in full blast, and thousands of bags of Anaheim's greatest walnut crop will be taken in from growers and shippers.

Bailey Confronted By Huge Problem Explains Act Creating Orange County Flood District

Lack of information concerning the Orange county flood control district, its purpose, powers and organization, is no universal among citizens of the county, according to Paul Bailey, district engineer, that he was not called attention to provision of the legal enactment under which the district was created.

Bailey explained that he has found, since taking up his duties as engineer for the flood control district, that so many citizens understand the problem by which Orange county is compelled to achieve its goal of conserving a water supply. They know that the district has been organized for the purpose of conserving the water supply, but at that point their knowledge ends. He says, on the theory that "understanding prevents haphazard" they know just how the job is to be done.

For this reason, he says, he has placed when the county supervisors last week appointed an advisory committee of citizens to participate in a flood control program. At that time he announced himself in favor of retaining the public control of the water. But, to better understand the meaning of the steps to be taken, he has called on the legislative committee to give the people necessary information. Walnut House Opened For Business

RECEPTION OF SEASON'S FIRST PICKING OF NUTS BEGAN MONDAY

Only 300 Bags Brought in First Day, Owing to Weather Being Unfavorable for Drying; Big Percentage of Culls in This Season's Crop, but Association Will Ship 1000 Tons of Good Nuts; Prices to Be Fixed Later

THE packing house of the Anaheim Walnut Growers' Association opened its doors for the reception of nuts Monday, and the first pickings of the 1927 crop are being brought in this week. Only 300 bags were received the first day, although picking had been in progress for considerable time. The cloudy weather of last week delayed the drying, consequently delivery at the packing house was delayed. Next week the house will be in full blast, and thousands of bags of Anaheim's greatest walnut crop will be taken in from growers and shippers.

One thousand tons, it is estimated, will be sent to market by the Anaheim house this year. They estimated that the total crop of the county is about 10,000 tons. It has been developed that an unusually large percentage of culls will be needed to make good nuts to be shipped. Of these, probably 10 per cent will be graded first-class, owing to the large number of small nuts in the pick. This is probably due to the enormous crop on the trees, growers in many instances being compelled to use force to prevent the branches from breaking off.

The California Walnut Growers' Association, with headquarters in Los Angeles, controls the entire crop of the state. Shipments are made only under the direction of the association, which maintains the distinction of each car, thus preventing a congestion in certain markets and a shortage in others. In this manner all markets are kept constantly supplied, and the consumption is heavier.

Prices on the crop will be fixed by the California association the first week in October, but local men refuse to make a guess as to the figure. In making the price competition from Europe must be considered, but reports from France and Italy, it is stated, show a shortage in the crop of those countries, which are the chief customers. If these reports are true, the prices ought to be good notwithstanding our enormous crop.

County Explains Stand on Santa Ana River Water

NORTHERN San Bernardino city nor anyone else up river need feel alarmed at Orange county's flood control program, which has no designs upon anyone's water rights or supply. It was stated in official circles in connection with the public announcement that the city of San Bernardino, had filed upon streams in the Santa Ana watershed "to protect itself" against the plans of Orange county.

The announcement from San Bernardino referred to an alleged engineer who has been engaged, two Orange county's flood control engineers, advising Orange county supervisors "not to wait for completion of the state survey of the Santa Ana river" before actually using its water power.

Engineer Bailey actually made no such statement, he answered. A statement that he did make to the supervisors, he said, was so twisted in its meaning that it was misleading. The statement was that the city of San Bernardino was the only one of the other counties along the Santa Ana river in grabbing water rights. Bailey's advice to the board, he said, had nothing to do with construction work, but referred merely to the preparation of his report of water resources from which to decide upon a program of construction.

Orange County Boy To Pitch for Browns

George Blacheider Sold to the St. Louis Team

George Blacheider, one of Orange county's few genuine contributors to organized baseball, has been sold to the St. Louis Browns by the Tulsa, Western League, club. The purchase price was not made public, but it is believed to be a handsome sum. Blacheider, who is a right-handed pitcher, probably will be sent to the American League club immediately and will remain with it until the close of the season.

Blacheider has been the pitching sensation of the Western League first tryout in the majors, however, as he was with St. Louis during spring training for two years. He is a product of Orange county's sandlot baseball, having been picked up for a trial four winters ago by Jimmy Austin, coach of the Browns, who lives at Laguna Beach during the off season.

"Farmed" by the Browns to Terre Haute, he got so much stuff for a youngster that he was recalled at the end of the season, only to be shipped back to the minors. Blacheider, with whom he has been, except for recalls at intervals by the Browns, was sent out again last year. He made the third time he was "farmed out," so this time the Browns, who own him, have decided to keep him by purchasing the Garden Grove.

Since the Browns need pitchers badly and President Phil Ball has stated publicly that his club is to be thoroughly revamped, Blacheider is believed to stand an excellent chance of sticking in the big show this year.

White Temple Holds Home Coming Meet

Membership by Unanimous Vote Requests Pastor's Return

By unanimous vote, the members of White Temple Methodist church requested the return of Dr. Benjamin E. Haywood for another year's pastorate. The vote was taken last night at the new home coming meeting held at the church. Hundreds of members were present, more than four hundred sitting down to the dinner, which began at 6:30 o'clock.

The various departments of the church presented dramatic visualizations of their work during the past year. The pastor's report showed 125 new members during the year, with 49 baptisms and numerous wedding ceremonies performed by him. There were now 811 enrolled in the Sunday school. Six new members were added to the official board during the year. All departments of the church reported unusual activities during the year. The doctor reported the death of two members.

Dr. Haywood will leave shortly to attend the annual conference which will be held this year in Los Angeles. He can present an excellent report of his stewardship here.

TAX ORDNANCE ADOPTED BY COUNCIL

LEVY \$1.35 ON \$100, BEING FIVE CENTS LOWER THAN LAST YEAR

Ordinance Regulating All Public Dances Introduced and Passed First Reading; Places Them Under Strict Police Supervision; Permits to Install Filing Station and Gospel Tent Denied; \$10,000 Demands Paid

A CITY tax levy for the fiscal year 1927-1928 was adopted at an adjourned meeting of the council Friday night. The rate fixed by the council is \$1.35 on the hundred dollars, being 5 cents lower than last year's rate, and is the second cut the present board has made in the tax rate since taking office. It fixes a rate of fifty-eight cents and two and eight-tenths mills on the hundred dollars for the general fund, from which will be paid the current expenses of governing the city. The balance of the levy is divided among the various funds. It is estimated that \$150,000 will be raised by this levy which, added to the \$270,000 that will be received from other sources, will give the city an income of \$420,000. City officials are figuring on a surplus of \$20,000 at the end of the year.

Another ordinance of considerable importance was introduced at Friday night's meeting, and will probably be adopted at the next session. Its purpose is to regulate public dances, and is rather drastic in its provisions. It prohibits the management of public dances from having more than one dance in the past, and those conditions it provides for the adoption of the new ordinance, according to City Manager J. W. Price.

Permits for public dances must be secured from the city council, which is given the right to revoke such permits after due hearings have been given the proprietors of dance halls.

In addition, the chief of police is given the authority to put matrons on duty at all public dances, subject to the approval of the council. Expenses of the police must be defrayed by those sponsoring the event.

O. R. Steward, maintenance engineer, submitted his report for the month of July, showing an expenditure of \$177.50. The report was approved by the council.

Application for permits to erect a filling station at Santa Ana street and 11th street was denied. The city council also denied a permit to erect a filling station at Santa Ana street and 11th street.

J. B. and Winifred Collins and C. A. Pearson presented a deed to a dumping ground. It was accepted by the board. Demands against the city totaling \$10,075.58 were allowed and ordered paid.

Visitors May View County Watershed

An opportunity to view the Orange county watershed, the largest of its kind in the state, will be given to a group of visitors from the middle of November, according to the Orange county Board of Supervisors, at which time a motor trip over the watershed and forest area will be taken.

Tentative plans have been arranged to leave the courthouses at Santa Ana at 9 o'clock. The plantings and nursery at the Orange county park will be observed and then those attending will be taken to the fire station in Black Star canyon. At this point the present work of the forest department will be explained. The party will return to a ranger camp for lunch. After lunch the site conditions and erosion caused by the fire will be discussed.

Representatives of the United States forestry department, the University of California, the county board of supervisors are co-operating with the farm bureau toward making this trip a big success. It is hoped that the county will be something about forestry have been secured to timber up their larynx and be able to give some real information at several of the stops.

Walter Nelp is having a pleasant vacation at San Juan Hot Springs. Walter is the popular manager of the Saffery store at 141 West Center.

Spanish Fiesta Given Tonight By Ebell Club

A SOCIAL entertainment of more than usual interest will be given tonight by the Anaheim Ebell Club at the home of Dr. and Mrs. J. H. Swan, on Placencia avenue. This is an annual event of the club, and this year it is called a Spanish fiesta.

Dinner will be served at 6 o'clock, following which an elaborate program is to be enjoyed. The fiesta is open to the public and is arranged as a club benefit. A radio loud speaker will provide returns of the Dumpey-Turney fight for the men who attend.

Mrs. Swan is in general charge of arrangements. Assisting her are Mrs. Charles E. Harbison, program and music; Mrs. E. B. Smith, publicity; Mrs. Lotus Louden, house manager; Lee Haverly, lights; Mrs. J. P. Probst, signs; Charles Harbison, stage; Mrs. G. W. Kibrick, gifts; Earl E. Leonard, Evans, H. H. Benjamin and Henry Adams, doorman; Mrs. H. H. Benjamin, dinner; Mrs. H. D. Newkirk, music, and Mrs. Charles Mann, table.

Radio Preview Opened Last Night

Four Nights of Excellent Entertainment Promised

The Radio Preview, participated in by nearly all the dealers in Orange county, opened its four-night entertainment at Ebbel clubhouse last night. An excellent program had been arranged for the opening night, and those scheduled for tonight, tomorrow night and Saturday night will be equally as good.

Radio dealers affiliated with the exposition predicted that one of the largest crowds the entire preview would bring through the portals on the opening night. In honor of National Radio Day and also of the preview, which the dealers hope to hold every year, an especially attractive program of entertainment has been arranged for the four nights, according to Walter Blidick, program director.

In addition to the program, last night were provided by the White King quartet, famous singing orators. In addition to the program, last night were provided by the White King quartet, famous singing orators.

Next followed Benjie Light and his group, who are doing it in Chicago for their radio rendition. Both the White King quartet and the Benjie Light group are well-known radio artists. The program was well received by the audience.

The "Yeast Cake" barnes, one of the best known radio caricatures of Southern California, will help Blidick at the microphone. He will discuss a number of a few selected music numbers. K. G. Orniston, well-known radio artist, will be present.

While the doors of the preview open at 6 p. m., the program begins about 8 p. m. and concludes at 10 p. m.

Auto Collides With High School Bus

Lloyd Ross, driver of a high school bus, figured in an accident Tuesday morning and, as a result, was slightly cut about the face and head by broken glass. The accident happened on Lincoln avenue, near the Garden Grove road, at 7:15 o'clock.

Ross was driving out to gather up his load of students. Just ahead of him, near the intersection, a car driven by Miss Elva Hurley backed out of an orchard into the road. Ross observed the car and tried to stop, but it continued to back up, and he edged farther over and dropped off the back of the bus, striking the bus, breaking the windshield and damaging it considerably.

Miss Hurley's car was only slightly damaged, the explanation that was given by the police. The car was not seriously damaged, the explanation that was given by the police.

Miss Hurley's car was only slightly damaged, the explanation that was given by the police. The car was not seriously damaged, the explanation that was given by the police.

RIVER CONTROL FUND IS ONLY INCREASING

DRIVE TO CONTINUE UNTIL ENTIRE SUM NEEDED IS SECURED

Reports at Meeting of Committee Tuesday Indicate That Only 50 Per Cent of Territory Had Been Canvassed; Repair Work Will Not Begin Until Total Sum Is Subscribed; Gap in Dyke Must Be Stopped

CONTRIBUTIONS toward the fund of \$12,000 for repairing the break in the Santa Ana river protection work above the city are coming in slowly. Secretary George W. Reid of the Chamber of Commerce, who has conducted the work, reported yesterday that only \$2000 in subscriptions had been reported to him. Some of the canvassers, however, who had been in the field had not yet made reports, and it was believed subscriptions in their hands would considerably augment this total.

A meeting of the committee and canvassers was held at the city hall Tuesday morning, and final arrangements were made for completing the drive. All four of the clubs engaged in the work of soliciting made reports, and it was found that not over 50 per cent of the persons from whom contributions were expected had been seen by the canvassers. Much of the territory had not yet been covered, and many people were absent from home when the solicitors called. Few people have returned to contribute, but the solicitors of many are so small that they contribute little to the total.

"This drive for funds should not be a begging proposition," said Mr. Reid. "It really is an opportunity for every person to get behind the movement with his support. The men and women working on this needed money is secured by considerable sacrifice in time and energy. If people will only understand that this is not a begging undertaking and that it really is an effort to get a united community effort, the drive will be a huge success."

At the meeting Tuesday, the solicitors were instructed to continue the drive until the needed money is secured. It is hoped that this can be accomplished before the end of the week, as the men and women in the field are wearying of their private interests in order to assist the work.

It is imperative that this money should be raised and the repairs made before the rainy season sets in. Should a flood come this late in the season, millions of dollars worth of valuable property will be inundated, and the river may again change its channel, cutting through north of this city.

Work on the dyke will not begin until the money has been completed by the heavy rains come.

Garden Grove Has Fire Department

Will No Longer Depend on Anaheim for Aid

The Garden Grove fire commissioners have purchased an American La France fire engine for the Garden Grove county fire engine. It is equipped with a six-cylinder Continental motor.

It is fully equipped with all necessary fire fighting equipment for efficient fire fighting. The board is expecting delivery on the apparatus on or later than the first of this week. One thousand feet of two and a half inch fire hose and 500 feet of one and a half inch fire hose have been purchased and will be delivered at the earliest date.

A loan of 500 feet of two and a half inch second-hand hose has occurred until the new hose can be delivered.

J. Tobias has been elected fire chief and J. A. Estep assistant chief. Mr. Tobias has been elected fire chief and J. A. Estep assistant chief. Mr. Tobias has been elected fire chief and J. A. Estep assistant chief.

Charles Pannier and Miss Josephine Pannier, who have been left to resume their studies at Oregon Agricultural College and Pomona College, respectively, have returned to college are Loren and Alice Wright, University of California; Alan Bates, University of California at Los Angeles; Miss Marquerite Twinn, Redlands, and Glenn Bates, University of Southern California.

50 YEARS AGO THIS WEEK

SATURDAY, SEPTEMBER 22, 1877

Report of Grand Jury—To the Hon. H. K. S. O'Melveny, Judge of the County Court of Los Angeles County:

We, the grand jury for the September term, beg leave to submit the following report:

We have found twelve true bills, as follows: For robbery and grand larceny, 10; murder, 3; battery, 4; resisting an officer, 2; assault with a deadly weapon, 2; perjury, 2. We have ignored four bills and dismissed three. We have referred five cases to the next grand jury.

We have visited and inspected the jail and hospital. The former is in as good condition as could be expected. We suppose it would be a violation of a time-honored custom if we failed to give expression to the usual recommendation in regard to the desirability of a new jail building. The hospital we found to be kept neat and clean. The patients seem to be well cared for, and they had no complaint to make; in fact, they spoke very highly of the care bestowed upon them by the physician.

If we have continued in session a long time than seemed necessary, we assure you that it was with a desire to thoroughly probe and investigate the many cases which came before us, and not with a desire to uselessly prolong our sittings.

We desire to bear witness to the courtesy with which we have been treated by the district attorney, and by the sheriff and his deputies. They have been uniformly prompt and attentive in response to calls from us.

(Signed) E. C. PARRISH, Foreman.

Los Angeles, September 18th, 1877.

We have been shown some specimens of gold-bearing quartz taken from a new lode recently discovered in the Carga Muchacho district, on the Colorado desert. This district is situated in San Diego county, within three miles of the Southern Pacific railroad and about fifteen miles from the Colorado river. About two months ago three claims, the Madre, Padre, and Carga Muchacho, purchased by Mr. Van Arsdale for \$5000, were sold in San Francisco for \$35,000. The specimens exhibited show free gold and were taken from a ledge two feet wide which has been traced for over a mile. The surface rock assays \$70 a ton.

A telegram from Cabazon says that an Indian reports that on Sunday night he found two men dead near Singleton's ranch, about five miles west of Dr. Edgar's. Soon after the bodies were discovered some white men came along and accused the Indian of having murdered the men. The Indian admitted the men had been murdered, but failed to state how. He also stated that he thought the dead men were vaqueros from the Ukpi ranch.

There is compensation for Mr. Jotham Bixby, who failed to secure the county treasurership in the recent election, in the fact that his wife presented him with a fine daughter yesterday. The next best thing to having office is to have a daughter.

It is stated that Mr. McFadden of Newport Landing, who has been on a visit to San Bernardino, offers to enter into a contract to deliver freight at that place for two years at \$2 per ton.

Mr. Bohlen is in pursuit of a gang of hoodlums who so far disregarded his official dignity as to tie tin cans to the tail of the dog which accompanies our valiant officer in his midnight rambles.

We have several times called attention to the dangerous state of the ditch crossings. On Sunday a lady narrowly escaped injury by the caving of the bridge on the corner of Second North and Los Angeles streets.

The Artesian well on the Chilson place in Orangeflorpe has reached the depth of 470 feet. The prospect of obtaining water is considered good.

This year has been prolific in strange freaks of vegetation. The latest we have noticed is that oranges are already beginning to turn a golden yellow, and look as if they will thoroughly ripen in a few weeks. Ordinarily this fruit is not ripe until March.

Mr. George Miller has again assumed control of the Star restaurant.

Mr. A. G. Beebe has just received a novelty in pipes. Both stem and bowl are manufactured with great skill from corncobs.

C. M. Woodruff is removing his fruit and stationery store to the apartment adjoining the office of the Western Union Telegraph Company.

A large number of people attended the camp meeting on Sunday night. Every livery team in town was engaged.

The tax collector announces that \$9 was the result of his first day's work. The office is situated in The Gazette building.

A flock of geese were seen flying southward the other day. Sure sign of an early winter, you know.

Negotiations are in progress for the leasing of the dining-room of the Anaheim hotel by Mr. Buser.

Officer Bohlen displayed a belligerent native the other night, and turned the knife and gun over to the keeping of the justice.

Mr. Herman Blanken takes his departure for San Francisco on Sunday. A very good position has been tendered him in that city.

It is said there is quite a demand for potatoes in Los Angeles. Anaheim Gazette. Should think there was. Two and a half cents a pound for good ones which frequently turn out to be bad ones.—Los Angeles Express.

Ed Schubert arrived from San Francisco last evening.

Quite a number of our people attended the concert at Orange last night.

A stray cow was captured by the marshal on Sunday and lodged in the pound. The owner can have the animal by proving property and paying charges.

25 YEARS AGO THIS WEEK

FRIDAY, SEPTEMBER 25, 1902

Impressive ceremonies at laying of cornerstone of new Catholic church—Bishop Montgomery preached with eloquence and force at the laying of the cornerstone of St. Boniface Catholic church on Sunday morning. He took for his text, "Unless the church buildeth upon this foundation, it shall be built in vain." A congregation of several hundred gathered to hear the words of the distinguished ecclesiastic, and his discourse was followed with rapt attention throughout. Solemn high mass was celebrated by Father Dubble, assisted by Father Kaiser. Father McDonald was deacon of the mass, Father O'Connor subdeacon, and Father Scanlan master of ceremonies. In the sanctuary beside the bishop sat Reverends S. Hahn and N. Hennessy.

Brick and lumber have been hauled to the site of Mrs. Mitchell's new building, on the corner of Center and Los Angeles streets. Excavations have been completed, and yesterday brick laying began. The building will be a one-story brick with iron and glass front.

Frank Fox was passing around the cigars yesterday on account of the arrival of a new son and heir at his household, who made his appearance on Monday. This makes four, two boys and two girls. Frank says they are pretty nice things to have around the house, and he will never be satisfied until he has a full house or a house full of them.

Ramon Aguilar dropped into town and out again on Thursday last, so suddenly that his friends hadn't time to hear that he was in town until he was gone again. Ramon is station agent for the octopus at Fernando, and has three men under him. He is rising steadily in the service, and some of these days we expect to hear of him riding in a private car with Harlan.

Fritz Ruhman went to Los Angeles on Tuesday to see Buffalo Bill's show. Fritz used to be a sailor on the Flying Dutchman, and takes great interest in athletics, and broncos, and Injuns, and such things. But he says the ground at Agricultural park, where the show was held, was so dusty that he couldn't see much of it.

Herman Stock some weeks ago complained of an injured knee, which had been hurt while moving freight on his truck. After suffering considerable pain, he consulted Dr. Johnston, who found that he was suffering from a case of blood poisoning. Herman has just been able to make his appearance on crutches, having had a two weeks' season of it in bed. He is on a fair way to recovery.

Andy Fuhrburg has enlarged and otherwise improved his ding-dong emporium. Andy is getting ready for the winter's rush of business.

There was no quorum at the meeting of the city trustees on Tuesday evening, and Trustee Schneider and Berdow being present. An adjournment was taken to the next meeting night in October. Trustee Weisel telephoned from the cannery that he was busy on tomatoes and couldn't possibly come, and Trustee Rust went word that he was in the midst of his wine-making and could not be present. Retail liquor dealers telephoned the board that they be permitted to keep their places of business open after midnight the three nights of the turnfest next month. In the absence of a quorum no action was taken.

Druggist Hatzfeld advertises this morning a fresh line of drugs and other articles usually found in a first-class pharmacy.

Last evening the Republicans held their initial rally of the campaign at the opera house, and from all indications as we go to press, the meeting will be an old-fashioned rouser. Capt. M. J. Daniels of Riverside, Republican candidate for congress; W. M. Peck, the eloquent political orator; C. C. Chapman, chairman of the congressional committee, and other distinguished gentlemen have been with us during the day. The Columbia Marching Club, headed by the Santa Ana band, will arrive on a special train at 8 o'clock. Word comes that a thousand people will accompany the club from Santa Ana, Orange, Tustin, and other country points. Richard Melrose will preside at the meeting, and the vice-presidents will include many distinguished Republicans of the county.

Fred Beier of Detroit, Mich., is here visiting his cousin, Oscar Renner. He will remain several weeks viewing the sights.

Company E will have a smoker at the armory Thursday evening. An invitation is extended all the boys, young and old, interested in the military to attend, have a smoke, and take part in the festivities.

Frank Stone spent Sunday with friends in town. He is engaged with Fred Schmidt's bridge builders on the Santa Fe line at St. Onofre.

Joseph Nichols, candidate for sheriff, and Billy Hale, candidate for supervisor, met in town on Thursday and swapped yarns for an hour before breaking away.

William Schulte, one of the solid walnut growers of Orangeflorpe avenue, was in town a day or two ago. He reports the walnut crop looking well.

Theodore Rimpau suffered a shock of paralysis of the facial nerve some days ago, but is reported to be improving.

Professor Taylor of the high school reports at attendance of 74 pupils in the different rooms of his school.

Miss Myrtle Staley of Placentia has been the guest of friends in town for several days the past week.

Mrs. P. H. Krick is in Pasadena, the guest of Professor and Mrs. Norrish of Throop.

The Ladies' Aid of the Presbyterian church will meet Thursday afternoon at the home of Miss Aubert at 2 o'clock.

The Ladies' Guild of St. Michael's Episcopal church will meet on October 2 with Mrs. J. D. Hamilton on Broadway, first house east of the Santa Fe depot.

Look at His Horns Before You Shoot

Deer Hunters Are Cautioned to Use Utmost Care

"If you can't see its horns, SHE hasn't any. Make sure it's a buck." Many hunters in red shirts and caps are now securing their favorite fields, following the opening of deer season, September 1, in Northern California, and keeping in mind this primary law of deer shooting. Districts 4, 4½, and 4½ were opened Friday, including 11 southern southern counties of the state. A good deer season is predicted by C. B. Salisbury, who recently returned from a scouting trip covering many of the likely deer shooting localities of that part of the state.

He reported that the most deer are evidently in Kern, Inyo and Mono counties; that the Lower Kern river watershed again looks promising, and that prospects are good for the Fairview. Other good districts include that out of Little Lake, in the South Fork and Fish Creek region, the country reached by pack trips back from Cowan Station, Olancha and Lone Pine; that out of the dependence and at the headwaters of the Little Pine creek, over the divide from Mammoth, at the headwaters of the San Joaquin, in the White mountains east of Laws, around the springs on the Old Lady side of Soledad canyon, in the Cuyamaca mountains to hunters knowing the district, and in the Santa Monica mountains from Calabasas to the south.

Hunters should be careful of invading any game refuge, of starting fires, and of killing deer without having possession of a hunting license and the necessary permits. The game and fish commission bureau, which has available further details regarding deer shooting in this section.

SUPERVISORS' PROCEEDINGS

The chairman was authorized to approve the bond on map tract No. 863, and map tract No. 863 was accepted as the official plotting of said tract. Lots A and B not accepted as public highways.

Petition of C. C. Lambert, et al., to vacate and abandon a portion of that certain public road, street, alley, in the Fifth road district, was granted.

The chairman was authorized to approve the bond on map tract No. 864, and map tract No. 864 was accepted as the official plotting of said tract. Lot X not accepted.

Map tract No. 854 was accepted by the board and name referred to the city engineer of the city of Laguna Beach.

The chairman was authorized to approve the bond on map tract No. 864, and map tract No. 864 was accepted as the official plotting of said tract.

The chairman was authorized to approve the bond on map tract No. 855, and map tract No. 855 was accepted as the official plotting of said tract, but not as to Lots A, B, P, G, and H.

The contract for repaving and widening of N. report avenue from Main street to Palmdale and seventeenth street, to the state highway was awarded to J. J. & Bressler, at a price of \$35,239.60.

The contract for repaving and widening of Newport avenue from Palmdale and to seventeenth street was awarded to Griffith Company at a price of \$12,384.65.

The contract for repaving and widening of Newport avenue from First street to Peachthill boulevard was awarded to Griffith Company at a price of \$10,212.12.

Supervisor Finley was called from the meeting.

The Los Angeles Electric Company was granted a 90 days' extension of time in which to complete their contract in the matter of county improvement No. 10.

The chairman was authorized to approve the bond on map tract No. 865, and map tract No. 865 was accepted as the official plotting of said tract.

Bids for the grading and graveling of portions of Ball road, Broadway and Washington avenues, in the Third road district, will be received up to 11 a. m., October 4, 1902.

Deed for right-of-way from C. O. Graham, et al., was accepted and declared a public highway.

Hearing of the petition of E. L. Crawford, et al., was continued to September 20, 1902, at 10 a. m.

A dance hall license was ordered issued to Vienna Hispano American Lodge No. 76.

The repaving and widening of Palm drive from Placentia avenue to Valencia avenue was accepted as completed by Sparks & McClellan, contractors.

The purchasing agent was authorized to purchase a 1-30 best tractor.

The purchasing agent was authorized to purchase one Model B, P. W. D. four wheel drive truck.

W. E. Williams, C. E. Utz, H. H. Hale, J. Allan Knapp, and N. T. Edwards were appointed advisory board on flood control work.

Supervisor Smith of the Fourth district was allowed \$15,000.00 from the advance of Orange avenue and Dale avenue.

Supervisor Jeffrey of the Fifth district was allowed \$5,000 from the advance of Orange avenue and Dale avenue.

The county auditor was directed to draw a warrant on the county general fund in favor of The Elliott-Horne Company, for \$1,025.21, being amount of assessment for the east 150 feet of the County road, for the improvement of the Third, Fourth and Sycamore streets, in the city of Santa Ana.

The county auditor was directed to draw a warrant on the county general fund in favor of The Elliott-Horne Company, for \$1,025.21, being amount of assessment for Lot 5, Sycamore addition, in Lots 7 and 10, Block 22, Original town of Santa Ana, for the improvement of the Third, Fourth and Sycamore streets, in the city of Santa Ana.

LUMBER MEASURED WITH THE GOLDEN RULE

We are ready to meet your building needs! Our yards are stocked with seasoned—highest grade lumbars bought in large quantities when the market was right—to cut your building costs. You'll also do better if you buy your brick, tile, cement and other materials from us. At your service.

FASTEST FOUR IN AMERICA PROVES ITS CLAIM TO TITLE

Dodge Stock Car Averages 67.35 Miles per Hour In Beating All Other Fours in Atlantic City A.A.A. Race

The Atlantic City (N. J.) Speedway Association, without Dodge Brothers instigation or knowledge, bought a Dodge Brothers Four and entered it in a Labor Day race for four cylinder stock cars. Four cars of other makes also competed. All were strictly stock cars as required by the rules of the association.

The race was for 25 miles—to determine which was "The Fastest Four in America." The Dodge won. Its average speed for the entire race, from a standing start, was 67.35 miles per hour (officially timed by A. A. A.). Generous confirmation, to say the least, of the modest claim of "Milli-minute Performance!"

Even more remarkable than the speed, however, is the fact that the car had been driven only 10 days and yet was able to withstand this difficult test without once stopping. Thus the race not only offers conclusive proof of the Dodge's superiority in speed, but stands also as a glowing tribute to the rugged materials and excellent workmanship that go to make it—

AMERICA'S FASTEST AND FINEST FOUR!

It must be all of twenty years ago that mother first gave me Syrup Pepsin

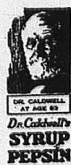

For those Fevers, Colds and Bowel Troubles of Childhood

How time flies. My good mother has gone to her rest, but I have faithfully relied upon her judgment and have given Syrup Pepsin to my two children since they were born. It is certainly a noble medicine and never fails of its purpose. I like to recommend it. (Name and address will be sent upon request.)

And in the Evening of Life

When age comes creeping on, with bowels relaxed, muscles weak, digestion poor and blood thinned, then is when constipation does its evil work in a night. Dr. Caldwell's Syrup Pepsin is so palatable, sets so well in the stomach, works so easily, so gently, so kindly with old folks as to accomplish its purpose without griping, pain or other distress. For biliousness, sour stomach, coated tongue, headache, fevers, colds and constipation from indigestion to old age Syrup Pepsin is recommended every where and sold by all druggists.

For a free trial bottle send name and address to Syrup Pepsin Company, Monticello, Illinois.

WATER FILINGS ON SANTA ANA RIVER

FRANCIS CUTTLE ISSUES STATEMENT IN EXPLAN- ATION THEREOF

Water Conservation Association
Filed Claim in 1921 for 48,000
acre-feet per year for Irriga-
tion in Orange, San Bernar-
dino and Riverside Counties;
Can Use It Only When Water
in River Reaches Olive Bridge

IN RESPONSE to requests for
statement concerning the fil-
ings on water of Santa Ana
river, severally, by interested
parties in San Bernardino, Ri-
verside and Orange counties, which
had a good deal of publicity lately, per-
mit me to say:

The Water Conservation Association
filed an application under date of Feb-
ruary 18, 1921, for 48,000 acre-feet of
water per annum from the Santa Ana
river, for underground storage for the
irrigation of lands in San Bernardino,
Riverside, and Orange counties. These
are the lands which have already been
furnished with water and which are
controlled by: A. Gregory, Gage Canal
Company, Riverside-Highland Water
Company, Riverside Water Company,
Riverside Water Company, Arlington
Mutual Water Company, Twin Buttes
Water Company, Santa Ana Valley Ir-
rigation Company, Anaheim Union
Water Company, and the East Riverside
Water Company.

Permit was granted the association
under date of May 13, 1925, for the
amount of water above specified, with
the provision that this water should be
spread only when water is reaching the
Olive bridge in Orange county. On
June 8, 1925, the by-laws of the Water
Conservation Association were amended
to provide that water should be spread
only when water is reaching the Chap-
man avenue bridge, in Orange county.
This was done at the request of the
people of Orange county who are in-
terested in the Water Conservation
Association, and for the purpose of
providing water to refill the under-
ground strata in Orange county. It
will be noted that this permit is for
waters of the Santa Ana river.

On October 20, 1925, the Water Con-
servation Association filed application

for 250,000 acre-feet annually of the
waters of the Santa Ana river and/or
its tributaries. (The mean average
flow of the Santa Ana river is 252,000
acre-feet). Note the difference between
the first application and the second one.
It is stated in the second application
that this water is to be used for ir-
rigation and domestic purposes and for
the benefit of the lands in San Bernar-
dino, Riverside and Orange counties, to
which water is furnished by the fol-
lowing companies:

Gage Canal Company, Riverside-Highland
Water Company, Riverside Water Com-
pany, La Sierra Water Company, Ar-
lington Mutual Water Company, Twin
Buttes Water Company, Santa Ana
Valley Irrigation Company, Anaheim
Union Water Company, and the East
Riverside Water Company, and for
domestic purposes for the cities of Red-
lands, San Bernardino, Colton, River-
side, Orange, Anaheim, Fullerton, Santa
Ana, and Huntington Beach; it being
the intention and purpose to use the
waters for which application was made
by the Water Conservation Association
for the joint benefit of all of the owners
of and formerly receiving irrigating
water from the Santa Ana river and its
tributaries, as well as for the cities re-
ceiving their domestic water from the
same source.

The provision in the application for
water from the Santa Ana river and its
tributaries is significant and far-reach-
ing for the reason that the tributaries
include Mill creek, Sand creek, City and
Plunge creeks, Waterman canyon, Devil
Canyon creek, Calaveras creek, Lone Pine
canyon, Lytle creek, San Antonio creek,
Cucamonga canyon, and Strawberry
creek.

With reference to a statement re-
cently made by a citizen of San Bernar-
dino, that San Bernardino should im-
mediately file on the waters of the
stream from which it secures its supply
as to get ahead of Orange county, it
should be noted that the application has
already been made by the Water Con-
servation Association for the waters of
all of the sources from which San Bernar-
dino gets its supply, and for the
benefit of San Bernardino jointly with
the people of Orange county.

So far as the trade name is concerned,
should the Water Conservation Associa-
tion be noted that the application has
already been made by the Water Con-
servation Association for the waters of
all of the sources from which San Bernar-
dino gets its supply, and for the
benefit of San Bernardino jointly with
the people of Orange county.

When it comes to a division of the
waters of the Santa Ana river, it is not fair to
assume that these waters will be divided
between the different interests, regard-
less of county lines and without ex-
pensive litigation? The people of the
three counties have so far worked har-
moniously together in this conservation
project. The people of the counties of
San Bernardino and Riverside meeting
the view of the people of Orange

county in amending the by-laws so as
to provide water for filling underground
strata in Orange county before water
should be spread in San Bernardino
county, is evidence of this fair treat-
ment by one locality to another.

Let us hope that the people will not
be misled by hysterical talk about water,
which may result in more expensive lit-
igation, such as characterized the recent
suit between the city of San Bernardino
and the city of Riverside, but rather
that they will wait patiently until the
surveys now being carried out by the
state and the three counties are com-
pleted, and the survey being made in-
dividually by the county of Orange is
completed, then get together on a com-
prehensive plan for conservation of water
and flood control of all of the waters
of the Santa Ana river and its
tributaries with a fair division among
all of the interested parties.

Larger Flocks Yield Higher Production

By W. M. COBY, Asst. Farm Advisor
Data compiled by the agricultural ex-
tension service from records received in
the poultry management project indi-
cate a higher average egg production
in flocks having over 300 birds than
in flocks having less than 300.

Co-operators engaged in this study
are divided into two groups in the sum-
mary, depending upon the number of
birds they have. Eight hundred was
chosen as the dividing line, as that num-
ber divided the flocks into more nearly
equal groups.

For the month of July the smaller
group averaged 110 birds to the flock,
producing an average of 124 eggs per
hen, 46.5 per cent production and 1.51
per cent mortality.

The larger group averaged 534 birds
to the flock, producing 114 eggs per
hen, 42.2 per cent production and 1.55
per cent mortality.

This project began in February, and
every month since the larger flocks
have had a higher average egg produc-
tion and until this month's summary
and a lower per cent mortality.

The highest individual flock produc-
tion was 55.3 per cent and the lowest
2.4 per cent. The highest mortality
was 2.5 per cent and the lowest .57
per cent.

Flocks represented in the smaller
group had from 165 birds to 524 birds,
and in the larger group the smallest
was 386 and up to 1129 birds.

The highest individual flock mortality
was found in the smaller group and
the lowest in the larger group. Like-
wise, the highest egg production was
found in the larger group and the low-
est individual flock production was in
the smaller group.

If calves are dropped in the fall, they
may be weaned the following spring and
put on pasture, where they should do
well if the pasture is good. Make the
change gradually. Those inclined to be
unthrifty should get a little grain, but
the more vigorous ones will probably
get used to additional feed.

Placentians Picnic At County Park

Celebrate Completion of \$400- 000 Paving Program

Warm tributes to the people of Placen-
tians and the spirit of that enterpris-
ing community were paid by the speak-
ers at the picnic held at Orange County
park Friday to mark the completion of
the \$400,000 paving program.

Paul Bailey, recently appointed as en-
gineer in charge of Orange county flood
control and water conservation, who
made the principal address at the
gathering, strongly stressed the relation-
ship between good roads and water
development and flood protection.

"Increased property values," he said,
"always follow the wake of road im-
provements, and they in turn involve
more intensive cultivation and develop-
ment, causing a greater demand for
water and flood control."

Bailey told of the steps that were
being taken for a survey of the water
resources and of all channels and
streams in the county, alluding to the
fact that state engineers have already
made a comprehensive study of the en-
tire Santa Ana river watershed.

"Water supply is of paramount im-
portance to Southern California," he
remarked, "because of the fact that the
average rainfall in the territory south
of the Tehachas is only just about
one-third of the requirements."

In opening the program which fol-
lowed the picnic luncheon under the
oaks at the park, S. C. Tuffee, general
chairman, traced Placentians' growth
and development and called on A. S.
Bradford and H. H. Hale as pioneer
residents. He recalled the fact that
Bradford was the founder of their
thriving community, first settling there
on a 60-acre tract. Tuffee referred
with pride to the appointment of Hale
to the advisory board for Orange
county flood control.

Hale in his response paid a neat com-
pliment to the Griffith Paving Com-
pany for the fast time it had made in
the construction of the new roads and
to the manner in which the work had
been carried on with a minimum of in-
convenience to traffic.

Secretary Tom Pickett of the Placen-
tians Chamber of Commerce, read a
letter from Charles E. Lee, now of
Sanger, during whose incumbency as
chamber secretary the ambitious road
program had been initiated. This com-
munication warmly congratulated the
community on its achievements.

Encomiums were paid by William
Schumacher, chairman of the county
board of supervisors, to Lee and the
people of Placentia for their broad vision
and enterprise in carrying to fruition
such a great program as exemplified
by its \$400,000 project.

The other members of the super-
visory body—Col. S. H. Finley, George
Jeffrey, Willard Smith, and John C.
Mitchell—gave brief responses and

Pythians Hold Picnic At County Park

Seventeen hundred men, women and
children were present at Orange County
park Saturday to attend the seventh
annual picnic of Knights of Pythias of
Southern California.

The day was a happy one for the
picnickers and many features of enter-
tainment were provided, including a
series of sport contests for old and
young.

The committee on sports was a group
of men from the lodge at Downey,
while Edward Cochems, of Santa Ana,
was chairman of the program on en-
tertainment.

Visiting Pythians were present from
Ohio, Arizona, and Wisconsin, and visit-
ing Pythian Sisters represented the
states of Texas, Colorado, Idaho, Nevada,
Illinois, Oklahoma and Iowa.

Musical was provided by the Downey
Chamber of Commerce band and the
Downey Junior band, the organizations
being under the leadership of Caesar
Metz of Downey.

J. A. Gilbert of Redkey, supreme
representative of the Insurance depart-
ment of the organization, was one of
the distinguished officials present.
A basket lunch was one of the fea-
tures of the day. There was no pro-
gram of addresses.

Pollution of Water Must Stop, Claim

Holding that the flow of carbonaceous
substances into the Pacific ocean from
the oil fields at Huntington Beach pollutes
the waters and constitutes a public
nuisance, the State of California has
taken legal steps to abate the alleged
nuisance by filing an injunction suit
against 56 oil companies operating in
the Huntington Beach field.

Action was said to have been com-
menced through the initiative of the
state fish and game commission, which
objects to the alleged wholesale de-
struction of fish by the polluted waters.

S. D. Marx Greene, attorney for the
fish and game commission, is associated
with Attorney General U. E. Webb and
District Attorney Asa Keyes of Los
Angeles in prosecuting the case, which
was filed in Los Angeles county be-
cause most of the defendant companies
have their headquarters in the city of
Los Angeles. It was explained.

The complaint filed asks that the
various oil companies, their agents and
employees, be restrained from permit-
ting carbonaceous materials to flow
from the lands they control into the
ocean.

In addition to the general need of tribu-
taries of the local details for this event,
George Bailey were brief and to the
point. Others who were introduced in-
cluded M. H. O. Easton, of the
newly-incorporated city of Placentia;
city officials and George E. Griffith,
head of the paving company.

Wonderful Sights of Southern California

Visitors Find Scenic Tour Most Attractive Through Here

The visitor to California is always
enchanted with the circle tour from
Los Angeles to San Diego, Imperial
valley, via the west side of the Salton
sea and through the Orange belt back
to the starting point. Leaving Los
Angeles, one follows the Coast route,
the beauty of which is truly symbolic
of Southern California. It lies through
green, fragrant orange groves and wal-
nut orchards till the old mission of San
Juan Capistrano is reached. A few
miles beyond this point one has the
first view of the ever magnificent Pa-
cific, with its foaming, white-crested
waves. The ocean, with its ever chang-
ing beauty, is in sight for virtually the
whole distance into San Diego. Leaving
this city over the Borderland highway,
two routes diverge in the beautiful
El Cajon valley, one leading north from
the town of El Cajon to the Mesa
Grande, Julian and Palomar districts,
and the other through Bostonia, Alpine,
etc., to Jacumba Hot Springs. A drive
of 45 miles from this point brings the
motorist from an elevation of 2800 feet
to El Centro, below the sea level.

Cotton picking, date gardens and
scenic side trips to the Painted Gorge
and Palm Canyon are features of this
route which are ever interesting to
motorists. If visited while in bloom,
the desert is a thing of beauty and
not soon forgotten. Miles of lavender,
white and blue flowers border the high-
way. A ride of two or three hours
brings one into the orange grove coun-
try again, after a very delightful so-
journ in the mountains, by the seaside
and through desert districts which offer
the maximum of diversified scenic at-
tractions.

Avocado Growers Hold Fall Meeting

An announcement has been issued by
the directors of the California Avocado
Growers' Association that the fall meet-
ing of that organization is to be held
in Ventura county, as a result of an
invitation extended by the avocado
growers of that county. This event is in
the nature of a field day, with a morn-
ing program, consisting of talks on
problems of interest to the industry.
A basket lunch is to be held at noon,
with a tour in the afternoon, visiting
various orchards in the county.

A committee of Ventura county grow-
ers, in co-operation with the agricul-
tural extension service, is taking care
of the local details for this event,
as well as the tour. It is expected that
there will be a large attendance at this
annual event. Plans are being made
for a program which should create con-
siderable interest among the avocado
growers.

Persimmon Growers In Annual Meeting

Orange county is ready to entertain
and receive the California persimmon
growers in their annual conference and
field day at La Habra tomorrow, ac-
cording to announcement from the
farm adviser's office.

W. L. York, Ray Frantz and A. F.
Mann of the La Habra farm center com-
mittee report that all local arrange-
ments are complete for the field trip
through the valley and luncheon at the
Woman's Clubhouse. An unusual pro-
gram is promised by the program com-
mittee of the persimmon growers' de-
partment of the farm bureau. The
conference will open at the Methodist
Episcopal social hall, First avenue, be-
tween Hiatt and Main streets, at 8:30
a. m.

An outstanding feature of the morn-
ing's program is a lecture by Dr. V. H.
Dorsett, an agricultural explorer just
returned from a three years' expedition
in the Orient for the United States de-
partment of agriculture. He has a set
of moving picture reels and stereoscopic
slides illustrating native methods of
growing and handling persimmons.

Professors Overholzer and Cruess
from the college of agriculture are mak-
ing special trips to Orange county from
Berkeley and Davis to report on per-
simmon experiments.

The detailed program for the day fol-
lows:

8:30 a. m.—Opening Remarks, Earl
Goodall, chairman persimmon growers'
department.

9:45 a. m.—Motion Picture and Stere-
opticon Lecture, "Harvesting and Cold
Storage of Persimmons in the Orient,"
P. H. Dorsett, bureau of plant industry,
United States department of agriculture.

10:15 a. m.—Report on Last Season's
Cold Storage Experiments, Prof. E. L.
Overholzer, division of pomology, col-
lege of agriculture.

10:45 a. m.—Persimmon Pulp for
Ice Cream Manufacture, a report on
by-products experiments, Prof. W. V.
Cruess, division of fruit products, col-
lege of agriculture.

11:15 a. m.—Orderly Marketing
Through the New Southern California
Persimmon Marketing Association, J.
M. Aboon, president. Discussion led by
A. J. McFadden, president Southern
Orange County Persimmon Association.

12:00 noon—Luncheon (free). Served by
La Habra Woman's Improvement Club,
at the clubhouse.

1:30 p. m.—Field tour, directed by
Harold E. Wahlberg, farm adviser of
Orange county.

The persimmon groves of L. A.
Meyers, George W. Beck, and H. J.
Weisel will be visited, where discussions
will be held on field problems, including
dropping of fruit, irrigation, pruning,
picking, etc.

Feed the beef calf as much grain as
it will clean up in 30 minutes and still
want more. Remove fecal mass from
left-over food and give less next time.
Digestive disorders occur from feeding
too much rather than too little.

200 Hour Non-Sto-Run BY A New Oldsmobile Coach

A Sensational Two Hundred Hour Endurance Contest

Frahm Oldsmobile Company, 420 South Los Angeles Street

WIN A PRIZE BY GUESSING THE MILEAGE OF THE CAR

Thanks for guessing can be had at the Frahm Oldsmobile Company and the California
Theater, and boxes to place your guesses in are at these two places.

Friday Evening, September 23

AT 9 O'CLOCK, AT THE CALIFORNIA THEATER

Chief of Police J. S. Martin will break the speedometer seal on the stage of the
California Theater and announce the mileage.

HERE ARE THE PRIZES:

First Closest Guess—\$100 equity in new Oldsmobile by Frahm Oldsmobile Company.
Second Closest Guess—\$255 equity in new paint job by Louis Hennig.
Third Closest Guess—Set of wind-wings. Curran Wrecking Company.
Fourth Closest Guess—10 gallons of gasoline. Hushman's Service Station.
Fifth Closest Guess—One month pass to California Theater.
Sixth Closest Guess—Five pounds of candy by the drivers of the car.
Seventh Closest Guess—One gallon ice cream by Jackson.

The Man Who Multiplied Himself

ONCE there was a man who sat at his desk and
kept in thorough touch with every important
move of his organization. This is no fairy
story, it is being done by the most successful man-
agers in business.

How do the do it? They multiply themselves
by using printed forms on which to send instruc-
tions to the workers under their direction, and by
having daily reports come to them showing every
important activity of the business. Printed forms
are the secret of doing many things at once.

We have an assortment of practical business
forms, printed on different colored bonds, that we
will be very glad to have you examine.

LOCAL BREVITIES

A. R. Peck, former president and chief stockholder of the Anaheim Sugar Company, died at his home in Los Angeles Sunday. Mr. Peck was also the principal owner of the Crystal Chemical plant in this city, now known as the United States Industrial Alcohol factory. The body of Mr. Peck was taken to his former home at Syracuse, N. Y., for burial.

Rev. Walter Thornton, formerly pastor of the Christian church at Fullerton, has been sued for divorce by his wife, Edith Thornton, the alleged extreme cruelty and charges that he frequently beat her and used vile and offensive language toward her. They now live in Los Angeles.

F. C. Eisenhauer, owner of the Orange County drug store, and Earl Mackay, an employee of the store, were arrested before Judge Stark Tuesday, charged with illegal possession of liquor. Mackay pleaded guilty and paid a fine of \$500, while Eisenhauer entered a not guilty plea and will be tried by a jury. Quantities of alcohol, brandy and wine were found in the store, officers declare, although the proprietor did not hold a permit to sell intoxicants.

Declaring that feeling in Europe is unfriendly towards the United States, J. W. Egan, prominent Santa Ana attorney, addressed members of the Anaheim Rotary Club at its luncheon meeting Monday. Egan, who attended the Rotary international meeting at Ostend, Belgium, visited a number of other European cities. The people of Europe seem to hold America responsible for most of their troubles, the attorney said.

The first regular meeting of the Merchants and Manufacturers' Association for the new year will be held Monday night, September 26, at 7:30 o'clock in the city hall. Business before the body will be the election of officers and arranging plans for the annual Halloween festival.

Mr. and Mrs. Julius Schneider motored down from their home in Altadena on Wednesday to spend the day with friends in town. Mr. Schneider attended a meeting of orange growers, and Mrs. Schneider did some shopping.

Fred A. Backs and family left Cherbourg on the Lehighland on Tuesday for their homeward trip. They will arrive in New York the first of the week and after touring points of interest in the East, will come home over the northern route. They will be home the latter part of October.

Charley Randall and Curtis Case leave today for Madras, Oregon, where they will pay a visit to their extensive field and land mining interests. They will return on Monday.

Rev. Zimmerman has returned from a trip of several months east, during which time he preached in New York, Boston, Portland, Me., and other cities. He will remain in Anaheim for some time, and will conduct religious services.

Two damage suits, aggregating \$40,000, confront Dora D. Stoker, woman auto driver, whose car is alleged to have knocked two men from the seat of a truck in a traffic wreck at the intersection of Huntington Beach boulevard and Seventeenth street, last June 20. U. Van Arman, driver of the truck, claims that he suffered a broken pelvis and dislocation of hips and pelvis, which has permanently crippled him. He seeks judgment for \$20,000. An equal sum is demanded by James Becker, 17, Van Arman's companion on the truck, who asserts that his spine was sprained and that two vertebrae were fractured. Young Becker's suit was brought by his mother, Mattie Becker.

Four Cities Use

Over Half of Crop

New York, Boston, Chicago, and Philadelphia Best Markets

Four cities, New York, Boston, Chicago and Philadelphia, are estimated by the bureau of railway economics, maintained here by the carriers, to constitute a market for more than half of the entire crop of oranges produced each year in California and Florida.

The actual proportion of the 1926 crop going to these cities, the bureau said, was 55 per cent, while there was an additional supply of Porto Rican citrus fruit that went almost exclusively to New York.

For the year ending September, 1926, the orange shipment from Florida and California to the 25 principal markets amounted to 42,290 carloads, and the four cities named took 23,616 cars. New York alone took 22 per cent of Florida production and 24.1 per cent of the California fruit.

Prunes Used as Coffee Substitute

To manufacture a coffee substitute from the surplus prune crop, based on the recently discovered, pending process, is the object of a company which has recently filed articles of incorporation for \$1,000,000.

The "Prune Koffy" will taste similar to the coffee now being used, it is said, but the new beverage will be a health drink, not injurious to the nerves or heart. The product is a result of 20 years' experimentation.

SUPERVISORS' PROCEEDINGS

Minutes of the previous meeting were read and approved.

Demands on the county of Orange were allowed as read.

State aid was ordered granted to Emma Unsicker and Minnie O'Malley. Fumigating licenses were ordered issued to R. C. Cook, Ernest Blossom, R. C. Leitzinger, R. Regan, T. H. Graham, C. H. Walte, C. C. Brown, W. C. Parker, D. W. Walker, L. H. Booth, Tom Matka, L. A. House, Homer Gaudin, C. E. O'Hairo, T. U. Clover and Anaheim Citrus Fruit Association; spraying licenses were ordered issued to Joanne Allee, Howard Carr, Sam Gliman, W. Walton, I. C. McCarter, and C. V. Backes.

The chairman and clerk were authorized to sign the agreement with the city of Huntington Beach, whereby the county health officer and other employees of the health department shall perform all functions relative to public health within the city of Huntington Beach.

The chairman was authorized to approve the bond on map tract No. 562.

Hearing of the petition of E. L. Crawford et al. was continued to September 27, 1927, at 10 a. m.

The purchasing agent was authorized to purchase a Hudson sedan to be used for the superintendent of highways.

Bids for the construction of a gas separation structure, near Star Station, on the Pacific Electric Railway, will be received up to 11 a. m., October 11, 1927.

Southern California Athletic Activities

The University of Southern California football coaching staff is announced as follows: Howard Jones, head coach; Willis O. Hunter, assistant coach assigned to the backfield; Cliff Ford, to coach the kickers; Leo Calland, line; Jeff Cravath, line; Gordon Campbell, backfield; Aubrey Devine, head freshman coach; Henry LePeters, assistant coach; backfield; Kenneth Cox, assistant coach, line.

First practice day at the University of Southern California saw some 75 candidates out for the varsity grid positions. Fourteen lettermen were lost from the 1926 Thundering Herd, and Coach Howard Jones started the task of building a complete new line.

Southern California's crack football section which gained national and international fame for the unusual bleacher stunts will continue the presentation of original ideas to football fans, states Paul Elmqvist, successor to Burdette Henney as Trojan yell king.

The University of Southern California will have a 175-piece band which will perform at all important football games this fall, according to Hal Roberts, Trojan band leader.

Historical Society To Meet Saturday

Miss Esperanza Carillo of Hollywood, a teacher in the Los Angeles high schools, will speak before the Orange County Historical Society Saturday afternoon, 2 o'clock, at the San Juan Capistrano mission. Her subject will be "The Carces Explorations."

Miss Carillo is a descendant of the Yerba family and has probably gained a great deal of her knowledge of this early explorer from accounts received generation to generation from the early Spaniards who were personally acquainted with the work Carces accomplished here.

Miss Carillo is a graduate of the University of California.

Mrs. J. E. Piosenski, a prominent member of the society, will speak upon "California's Debt to Spain."

BOARD MEETING

The southern district executive board meeting was held in Riverside at the Extension Citrus Station, on Tuesday. Delegates were present from the entire southern district to the number of 121.

Mrs. H. E. De Nyse, president of the southern district of the State Federation of Women's Clubs, presided. A number of important business matters came up for discussion, among them the southern district convention, which meets at Palm Springs in November.

Soil Expert Pays Visit to County

Dr. A. P. Dachnowski, pest soil specialist with the bureau of soils, United States department of agriculture, was a guest of Farm Advisor Wahlberg last week while studying the pest soils located in Orange county. Dr. Dachnowski was particularly interested in the peat deposits at Winterburg, where he extracted samples from every foot of soil through a 16-foot shaft. The peat formation is the result of thousands of years of soil deposit, according to the specialist.

He is gathering pest specimens from all parts of the world for a concentrated exhibit of soils in his department at Washington, D. C.

Dr. Dachnowski just recently returned from an extensive soil exploring trip in Europe, Russia, Finland and Sweden.

LIGHTS FOR PEDESTRIANS

Should pedestrians carry front and rear lights for night walking?

This most question has recently been asked of the public safety department by autists who declare that pedestrians are generally hard to see when they step out from the curb at night.

It is urged by one motorist who is fearful of striking jaywalkers that the pedestrian should be made to carry a lighted lamp of some kind. Automobile headlights do not spot the person in the road quickly enough to avoid trouble, he declares. He also suggests that the walker might carry a light-colored article of some kind, such as a newspaper, which would reflect the light from the automobile.

Auto drivers often come perilously near striking pedestrians at night because pedestrian traffic control is not in force at night, except in the congested districts, it is pointed out.

SUES FOR DIVORCE

Mrs. Edith Jane Thornton has filed suit for divorce from the Rev. Walter Thornton, former pastor of the First Christian Church of Fullerton, and now in Anaheim.

The action was filed in Los Angeles, where Rev. Thornton is head of the community chest organization. He has asserted salary of \$1000 per month. He has other income of \$200 per month, his wife alleges.

For the past three years the plaintiff has been subjected to weekly beatings by the defendant, she alleges.

Rev. Thornton has been the speaker at a number of civic gatherings in Anaheim.

Thirty-three Iowa counties have voted a total of \$40,000,000 in bond issues for highway construction.

Drunkness Cause Of Most Accidents

Driving while intoxicated was the cause of over half of the 41 recent revocations of licenses to drive automobiles, a report of the state division of motor vehicles advises.

The motorists who lost their licenses for driving while drunk numbered 21, resulting in a total of 41 revocations within a period of two months, the department announced.

A special effort is being made by the state vehicle department to eliminate drunken drivers from the highways. Autists who drive while intoxicated not only cause tremendous danger to themselves, but also to the lives of other innocent persons, according to figures of the public safety department of the automobile club.

Other causes for the revoking of driving licenses were physical disability, on request of parents or guardians, after hearings held by the division, and by the courts. Licenses of several drivers were suspended for a period of six months.

DELPHIANS MEET

The Delphian Club held the first chapter meeting of the year at the Highway Club Gardens on Tuesday. It was an all-day meeting. Mrs. C. E. Chamberlain, president, presided, and the delightful program was under the supervision of Mrs. H. G. Carlin, program chairman.

The work for the year, "History of Modern Nations," was begun and an instructive and interesting program was presented. The program for the next meeting, in October, will be in charge of Mrs. George Tedrick.

Y. L. I. MEETING

Miss Nell Robertson, president of the Y. L. I., presided at the regular meeting of the society on Tuesday evening. Installation of Miss Beryl Kennedy as second vice-president and Miss Agnes Stillwell as trustee formed a part of the regular business meeting.

Plans for the annual ball, to be held at the Breakers hotel, in Long Beach, on October 25, were made and a committee was appointed to make necessary arrangements. A dainty luncheon was served at the close of the meeting.

INTERIOR DECORATION

Opening Monday, September 26, a course in interior decoration will be given in Santa Ana, under the direction of the University of Southern California. Douglas the Donaldson of the Donaldson Studios in Hollywood will have charge of the class, which will meet every Monday evening from 7 to 9:30 o'clock, for a period of 12 weeks.

Full university credit will be granted for this course in art offered to home owners, art teachers and art students who desire instruction in beautifying the home environment, color theory, design, and a general application of art principles.

Reduced Fares to Salt Lake City

On account of conference of Social Work and the Mormon Church, the Union Pacific will sell tickets from stations in California and Nevada to Salt Lake City and return at approximately one and one-half one way fare. Dates of sale in California, October 3 to 7, and in Nevada, October 4 to 8, all good for return until November 1, 1927.

WARSHIPS AND TAXES

"Battleships Quit for Lack of Funds," reads a newspaper headline. It takes money to make warships go, and there is no money to keep up the battleships Nevada and Oklahoma, because congress failed to make the appropriation asked for to modernize them. So they will be withdrawn from service for an indefinite time, in hope of getting the desired appropriation next winter.

Perhaps the most interesting thing about this situation is the fact that it arouses little indignation, and hardly any interest, either among citizens in general or in congress.

It is easy to recall a time when any indication that congress was neglecting the navy would have been the signal for a general outburst of patriotic criticism. From the Spanish-American war to the World war that spirit lasted. The United States was building a strong navy, and was proud of it, and eager to pay whatever was required to make it effective. The same spirit naturally lasted through the World war. Since then there has been a remarkable lapse of popular enthusiasm about the navy.

The people seem indifferent or hostile to new construction and tired of supporting the ships already in service. They have seen, without a murmur, sound and costly battleships scrapped in accordance with the Washington armament treaty. They remain old to the protests of admirals and statesmen and publicists against letting the fleet build a navy stronger than ours. Whatever feeling may exist in official government quarters among professional navy men or private jingoes, the average citizen and taxpayer seems to be "fed up" with warships. Thus every demand for more money for naval construction is met with a demand for lower taxes.

It is not merely stinginess, either. As strong as any selfish feeling about the matter is honest doubt as to the value of warships hereafter, and a desire to seek peace by avoiding naval competition.

HOOVER ON BUSINESS

FEW men, if any, are more intimately conversant with business and economic conditions in general throughout the United States than Secretary of Commerce Hoover. His conclusions as a rule are based upon statistics and data that are both comprehensive and reliable. His sound predictions in the past justify the assumption that he knows whereof he speaks, and his views, publicly expressed, have come to be accepted by the rank and file of Americans as authoritative.

His latest summary of the business situation is somewhat conservative, but it cannot be interpreted in any sense as being unfavorable, and due to the more or less prevalent supposition that the tide of American trade activity has reached its crest and is due for a recession, his report will probably be read with more than interest by usual.

Considered "by and large," business, he says, shows little variance during the present year, and there are no tangible indications of a decline in the remaining months. Capital, he notes, continues abundantly available and cheap money is stimulating business activity. During the first seven months of 1927 the construction industry, usually considered to be a barometer of the business conditions, has shown an increase in contracts awarded. At the same time, exports were 5 per cent greater than for the corresponding period of 1926. There is renewed activity in the industries which have fallen slightly below their 1926 marks.

Bank clearings the first seven months of 1927 slightly exceeded those of the same months of 1926. Railway traffic, however, has shown some decrease. Weekly and monthly loadings of freight cars since April of this year have, without exception, fallen below 1926 and, in some instances, they have been less than in 1925, but Mr. Hoover points out that the decrease for the year to date is only a fraction of 1 per cent, although July showed a decrease of nearly 3 per cent and the first half of August nearly 5 per cent.

Agriculture continues to display the most uncertainty, although latest prospects are for a fair crop at a good price level, barring, of course, the possibility of an early frost. Here and there trade conditions are somewhat spotted due to seasonal factors or to local conditions. But all things considered, industrial signs point to a continuance of the highly prosperous conditions of 1926. Nothing has so far appeared on the business horizon to cause alarm and nothing certainly should justify severe retrenchments or more than ordinary caution.

RESCUING THE FARMER

FORMER Governor McKelvie of Nebraska recently called attention to the fact that while the business men of the United States annually spend \$850,000,000 in advertising their wares, only \$30,000,000 of this outlay goes toward acquainting the farmers with the merchants and manufacturers have to sell. And Mr. McKelvie added that the farmers each year have a potential purchasing power of \$10,000,000,000.

There may be several reasons for this apparent discrepancy in advertising for the business of the farmers. Doubtless the proportion is not so great as apparent, owing to the fact that as a general rule the advertising rates in the local papers going to the farmers are not so great in proportion as in the high-powered magazines and newspapers which do not cover the rural field. And it may be that the national advertisers have been discouraged by the bear stories which have been going out from the agricultural states to the effect that the farmer is on the verge of sinking to the level of the European peasantry.

At any rate, the advertisers are making a mistake by not paying more attention to the rural advertising field. The farmers have money to spend and they spend it. And they are best reached by the local newspapers. The farmer is the most careful reader of the newspapers and periodicals which he takes, and the best way to reach him is through his local newspapers. National advertisers ought to get acquainted with this fact if they do not already know it. And it is the duty of the local newspapers to acquaint the national advertiser with the fact that the farmer is not broke, that he lives as well as his brother in the city, if not better, and has money to buy the things which the business men advertise for sale.

NO MORE BURDENS

THE metropolitan newspapers recently carried dispatches from Geneva to the effect that the League of Nations might feel called upon to interfere or "use its good offices" as the diplomats put it, in trouble in South America. The Tacna-Arica dispute of recent note between Chile and Peru was cited as an example, and it was said that league diplomats would examine the situation in the reception of such an idea would have in the United States.

Up to this time the fever sent out from Geneva has caused no ripple on the placid surface of American politics. It is generally known here, just as it is known in Europe, that the League of Nations has now reached a new low point in its prestige and influence in world affairs. The recent action of Lord Robert Cecil is but another indication of this.

The league has failed to meet requirements in one crisis after another. It has failed to bring about any disarmament in Europe and there is no prospect in the immediate future for disarmament. It has been able to do nothing to help China, to help in the other disputes in Europe, as witness the Russo-British crisis, the trouble between Italy and Serbia, and the numerous difficulties in the Balkans and along the Russian frontier.

It is evident therefore that the league has reached a low point in its history. With so many unsolved problems in Europe, the time hardly looks ripe for it to venture into fresh fields of trouble like Latin-America. The latest gesture seems to be a gesture of diversion, designed to take the minds of the world off what the league has failed to do in Europe.

We are all sorry to do it, but the league is unable to promote peace and disarmament in Europe, but until it does, we will doubt the advisability of taking on new burdens across the sea.

SAVING "OLD IRONSIDES"

ADMIRAL ANDREWS, commandant of the Charlestown navy yard, reports that the popular subscriptions to the fund for the reconditioning of "Old Ironsides," one of the few remaining relics of the American navy of old time, have reached \$424,000. This represents the pennies of the school children of the United States, the returns from the sale of buttons and the pictures of the old warship and other contributions. Among the last to be turned into the fund was the sum of \$25,000 raised by Mayor Thompson of Chicago; and other collections are being taken to make up the \$500,000 or \$400,000 additional which Admiral Andrews says will be needed. There should be no real difficulty in getting this money together, but it is to be hoped that this will be the last time it will be necessary to appeal to the public to do what the government itself should do as a matter of national pride.

A September Nightmare

By Albert T. Reid

HOME INSTINCT ENDURES

Are Americans becoming a nomadic people? Has the automobile and the so-called social progress robbed the family of its desire for home life? Do changing conditions, which are moving the population from rural districts into the city and then out into the suburbs again on the march "back to the land," tending to make the hearts of Americans callous to those influences— influences of the fireside—upon which the nation is supposed to have been very largely founded?

It is true enough that a new life has come for America. The home is not all that it once was, but still it remains the center of the affections.

Home may consist of a garage on the ground floor, with a combined living-room and bedroom above a kitchenette serving culinary needs. Indeed, this is a poor excuse for a residence, contrasted with the old style farm house with an immense cellar filled with bins for vegetables and fruit, cured meat and other food supplies, with a great kitchen and all the trimmings and (let us be honest) necessary for the care of the farm and for the feeding of a large household. Dining-room, sitting-room and parlor also of generous dimensions, with bedrooms on the second floor, and the boys' bunks sleeping in the garage chamber. Woodshed, well and cistern, bare barn, a garden and an orchard, pens for livestock and poultry, shade trees and a plot of flowers in the front yard. These were the generally inimitable units of the farm home. The town house also was roomy and surrounded with ample grounds. Such a life still may be found in great numbers, and with millions of individuals and memories of these typical early American homes still living.

Love of home, and longing for its associations cannot be easily uprooted. Instincts such as these survive, no matter what comes.

Undoubtedly there are advantages in the modern home, also it would not be to popular. The smaller the floor area and the garden space, the less work for all concerned. Consequently, more time

is spent in the city, but all people are not given to mischievousness. More time for education, for recreation, for seeing one's country, and the night schools, auditoriums and parks, highways and boulevards prove how well that night is spent. Yet home life persists.

A DESERVED HONOR

Most of the references books omit or give scant attention to the name, station and record of Walter Kittredge, who wrote that sweet old ballad entitled "Twining Tonight on the Old Camp Ground." But New Hampshire has remembered Kittredge and has dedicated a memorial tablet to him. For he was a native of New Hampshire and here is one case in which there is a fitting exception to the saying that a prophet is not without honor save in his own country. Many great singers and great songs were produced by that ineffably bloody conflict which we call the Civil War. "Twining Tonight" was one of the great songs of the period, embodying the lofty idealism of a real poet who perceived the pathos and longing and regret of human conflict. Yet, while most of us know the song, very few of us are acquainted with its author. New Hampshire has done the whole nation a real service in dedicating a memorial tablet to Walter Kittredge, whose work would, even in the absence of a monument, have lived forever.

Occasionally we get a reminder that in spite of the economic improvement in Europe the war debts have not yet been settled or funded in their entirety. A few days ago the news was given out that France would seek a private loan in America. The figure mentioned was a hundred millions of dollars. Immediately the unpaid and unfunded French war debt was brought to the forefront. Senator Borah of the powerful Senate foreign relations committee wrote to Secretary Kellogg of the state department, informing the latter of his opposition to federal approval of any more loans to France until the war debt is funded.

TRADE POSSIBILITIES

Americans who have lived in, or traveled extensively through Mexico, Central America and South America invariably bring back reports of opportunities for the development of trade with this country. That energetic manufacturers and distributors of the United States are following up these suggestions with good results is a statement verified by statistical records of imports and exports from and to these Latin nations.

Trade cannot be one sided. If California has something to sell to the people of those southern republics, it must be prepared also to buy the products of those countries. At the present time the United States is buying more from Latin Americans than it is selling them. This is good business, for it serves to build up the purchasing power of these customers, and it also increases the business and social acquaintance of all parties to such commerce. Southern California is beginning to appreciate the value of foreign trade. As the number of its manufacturing plants increase, as the variety of its products expands, as more people are dependent upon the marketing of manufactured goods, the greater is the incentive for the strengthening of commercial relations.

Specific study of certain commodities and certain markets for the purpose of bringing about an exchange of raw materials and finished goods should yield concrete results.

The establishment of new lines of communication between the United States and the Latin republics, the building of a better understanding between the races of the western hemisphere, the increasing travel of Americans into the countries of the south, the presence in southwestern United States of hundreds of thousands of Mexicans attracted here by labor and business conditions, these and other influences encourage commerce by promoting friendships.

If a well-fed animal becomes unruly, parasitism is to be suspected. Probably about 10 per cent of all livestock losses are due to worms and other parasites.

OBSERVATIONS

THE CHAIR WARMERS

THE new fad of sitting on top of flagpoles is beginning to take quite freely, and some enterprising business men are going in for the game to attract customers to their stores. While in passing, it may be mentioned during heated political campaigns candidates have been known to straddle the fence for months.

WENT OVER THEIR HEADS

AFTER discussing the morals in motion pictures before a Brotherhood Club, a chairman of one of the committees cautioned the members of a certain congregation not to go to a certain picture. Then he stationed one of the congregation at the entrance of the theater, and the "plant" reported that one-third of the congregation visited the theater in one week.

HEAVY ON THE HOOF

A YOUNG lady is suing her dance partner, who recently took her to a party, because she stepped on her feet and ruined a perfectly good pair of \$10 shoes. The lady says she likes to dance, but objects to the steam roller steps.

IF YOU CAN'T BE GOOD BE CAREFUL

AN UPSTATE city chief of police has sent out a whole lot of notices to property owners there, cautioning them to wipe out all the red-light houses. The official says the notices are not required, by law, but is purely a personal courtesy. He says if further violations occur, he will commence abatement proceedings.

WILD COW FROM BORNEO

OUT in Germany a farmer has a cannibal among his herd of heifers. It is said the bovine discovered a crate of geese standing before the barn and, dropping the hay she was chewing, went over to the crate and ate five geese before the farmer shoed her away.

EATING ITS HEAD OFF

ONE of the problems confronting the buying public today is the credit system. People should pause before asking for credit. Interest piles up fast when you buy on the time installment plan. Usually when a purchaser finally makes his last payment he will find that he has paid from 20 to 27 per cent for the use of that money. And it may also be said, in passing, that those visionary stock profits, said to be gained in many get-rich-quick ventures, quietly disappear like the fabled Arab who silently folded his tent in the night and stole away.

IT WAS ONLY A DREAM

WHEN a suburbanite ventures into a big city and boards a car and finds himself at the end of the trail—miles away in an opposite direction from his intended destination—and when told it would be one hour before the car would return, and there was nothing to do but wait—the ruralite begins to think how small he is, and how little the rest of the world cares for him; but all is dispelled when he wakes up with a fright.

TRUE WORDS, MISTER

A SPEAKER at a get-acquainted meeting said: "We find the language, customs and all the folks are just the same everywhere, and there is no reason why a state boundary line should separate the interests of the country, and that the greatness of any city or nation consists in the type of its citizens."

WINNING THE MARBLES

THE trials and tribulations that beset many town boosters weigh heavy upon their heads sometimes, and unique are some of their reasons why their respective localities should recognize; but it remains for a hill town citizen to carry off the bacon by announcing that the sunshine in his home town has made the hair grow on his head that has been bald for, lo these many moons.

KEEPS ROLLING JUST THE SAME

AN EAGER public is told that the purchasing power of an American dollar, measured by living costs, has increased 6 per cent since 1925, and today stands highest since 1924. The dollar now is worth 61.7 cents on a basis of living costs. In 1920, at the height of the post-war inflation period, the dollar shrunk to 48.9 per cent of the pre-war dollar.

COLORED GENMEN IN WOODPILE

A SOUTHERN city, close to the border line, "points with pride" to the number of visitors "within its gates," especially when there are three holidays in a row.

Oriental Persimmon Culture and Industry

Through special arrangements made by the Agricultural Extension Service with the bureau of plant industry, United States department of agriculture, Dr. P. H. Dorsett, agricultural explorer, will make his first public appearance in Southern California at the annual persimmon growers' conference and field day at La Habra, Friday, September 22. Dr. Dorsett has just returned to the United States after three years' exploration in the interior of China and other oriental countries. He was sent across the Pacific to make original data on the oriental persimmon industry. He has compiled a compendium of information on the persimmon which will be of particular interest to the persimmon industry in California.

While in China and Japan, the explorer took motion pictures of various kinds of handling and growing the fruit and also prepared a number of stereoscopic slides which vividly illustrate oriental methods of harvesting and cold storage. These pictures will be featured at the persimmon growers' meeting at La Habra.

Other speakers and subjects will be included on the program, which starts at 9:30 a. m. at the Methodist Episcopal central hall, 2 E. Overholser, University of California, will report on last season's cold storage experiments. Fred W. Y. Cronin will discuss "Persimmon Pulp for Ice Cream Manufacture." J. M. Alcorn, president of the Southern California Persimmon Marketing Association, will explain the activities of the new marketing association. The Woman's Improvement Club of La Habra will serve a lunch at noon to the conference of growers, after which a field tour, under the direction

Bulb Growers Meet Every Two Weeks

According to announcement from the farm adviser's office, an informal bulb growers' class will meet the first and third Monday of each month at the Highway Bulb Gardens, near the Katella station, on the highway between Anaheim and Santa Ana.

All phases of the bulb industry will be discussed, including growing, selection, crossbreeding, marketing, and other details of culture.

All growers and those interested in the growing of bulbs are invited to attend. The class begins at 7:30 o'clock.

Poultrymen Will Speak Thru Radio

Through the solicitation of the Orange County Farm Bureau, W. C. Childers, an experienced hatcheryman and poultryman, will speak over KWTC Friday evening on "Breeding Effects on Poultry Profitability."

Mr. Childers has had considerable experience in breeding, both in California and in the Middle West. For the last several years he has been a successful hatcheryman of Santa Ana, and is considered an authority on many poultry problems. His lecture will occupy the regular Friday evening broadcast of the Orange County Farm Bureau and Extension Service.

Dr. H. E. Wahlberg, farm adviser, Orange County, will be held. Typical persimmon growers in La Habra will be invited and discussion featured on pruning, irrigation and fruit drop. Every one interested in the persimmon industry is invited to attend the conference.

To Form Class in Parental Education

P-T. A. Will Hold Meeting in Anaheim Library Soon

The formation of a class in parental education, the first to be organized in Southern California according to announcement is to be effected at the Anaheim library at a future date, it was announced at the fifth annual council of instruction meeting of officers and members of the Fourth District Parent-Teacher Association Saturday.

The class will be under the supervision of Miss Ruth Whitlock, a member of the faculty of the University of California at Los Angeles. It is not to be confused with night courses or university extension courses, it was pointed out. It is a part of the new work sponsored by the state to teach better parenthood.

By action of the body it was voted to take out a life membership in the state association for Mrs. J. V. Kelley of Garden Grove, who is the president of the fourth district of the Parent-Teacher Association. This will be the first life membership in the association granted to a Parent-Teacher Association official. Among the few who have previously been granted life membership in the association are Governor G. C. Young, Mrs. Susan A. Dorsey, superintendent of the Los Angeles city schools; Dr. and Mrs. C. C. Noble, veteran Parent-Teacher Association workers; and V. C. McCulloch, husband of the state president.

Mrs. James K. Lytle, executive state secretary, spoke on a program of parent-teacher planning and activities, stressing three cardinal points as guide posts for all presidents and officers. The first of these is to hold strictly to the objectives of the work which deal only with the welfare of the child in the home, the school and the community. The second point is to concentrate on a definite goal for service right at hand. The third point as developed by Mrs. Lytle is that of developing an informed opinion on public questions.

Short talks in response to introductions were given on Parent-Teacher Association subjects by the following state officers and visitors who were present at the meeting: Mrs. James K. Lytle, executive state secretary; Mrs. J. L. Thornton, state chairman of press and publicity; Mrs. Erle M. Atwater, state chairman of visual instruction; Mrs. Benjamin T. Ferris, state chairman of life membership; Mrs. G. H. Goodale, state chairman of study circles; Mrs. J. Edmund Snow, state chairman of American citizenship; Mrs. J. L. Thornton, state chairman of Riverside, president of the Twenty-third district Parent-Teacher Association; Mrs. J. E. Holt, Omaha, Neb., a visitor.

The group was welcomed by J. A. Claves, principal of the Anaheim Union high school.

Course in Municipal Administration Will Be Held at U. S. C.

Announcement is made by Dr. R. B. von Klenz, president of the University of Southern California, of the establishment of an Institute of Municipal Administration, which will start next summer in Los Angeles (August 12-18, 1928), is already engaging the interest of municipal organizations of all types.

The following divisions of interest are to be covered: municipal financial works procedure, street improvement and street administration, personnel in public service, fire protection, police and police methods, citizenship and municipal administration, public health and social welfare, city planning and zoning problems of municipal engineering, city records and financial transactions (duties of city clerk, treasurer, controller, assessor, and auditor), councilmanic problems, and legal problems of municipalities.

Experts in municipal affairs, nationally-known educators and public officers, and municipal administrators will augment the regular Trojan teaching and lecture staff in the conduct of the institute.

Planned in response to a growing demand for better opportunities for scientific study of municipal government, the sessions of the Institute of Municipal Administration have been planned in such a way, morning and afternoon, so that all classifications of public officers, together with the department heads, will find subjects of interest at convenient hours through the week of the institute. There will also be general assemblies of common interest, according to President von Klenz.

European Countries Raise Tariff Rates

The suggestion of ex-Senator Hiram Bland of Nebraska that the Democratic party adopt the tariff as its main issue in the next presidential campaign and his statement that "European countries are breaking down their tariff barriers" has led to an examination of some of the tariff history in Europe. This shows that almost without exception the various European nations have raised their tariff rates within the past two years, and many of them have raised duties since the first of 1926. Some of the duties charged on sugar from 10 to 15 marks per 100 kilos; some on the duties charged on this same commodity by other European countries are as follows: Spain, 1.4 cents a pound; Russia, 4.20 cents a pound; Poland, 2.48 cents a pound; Italy, 1.4 cents a pound. Compared to these rates, the United States duty of 1.7 cents a pound seems almost inconsequential.

W. T. Pope, horticulturist of the Hawaii agricultural experiment station, says that recent investigation shows that the banana was one of the earliest food plants cultivated by man. It was formerly known as "The Apple of Paradise."

ORDINANCE NO. 509

AN ORDINANCE FIXING AND LEVYING AN ANNUAL INTEREST ON THE PROPERTY WITHIN THE CORPORATE LIMITS OF THE CITY OF ANAHEIM FOR THE FISCAL YEAR 1927-1928.

THE MAYOR AND THE CITY COUNCIL OF THE CITY OF ANAHEIM DO ORDAIN AS FOLLOWS:

SECTION 1. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Fifty cents and two and eight-tenths mills (.5828) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, for the ordinary annual expenditures said City.

SECTION 2. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Two and four-tenths mills (.0240) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 395, 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of constructing a City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 3. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Six and five-tenths mills (.0645) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 395, 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 4. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Two cents and one seventh of a mill (.0217) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 395, 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 5. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Four cents and five-tenths mills (.0445) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 395, 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 6. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Fourteen cents (.1400) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 395, 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 7. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Four cents and eight and five-tenths mills (.0485) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 395, 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 8. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Five cents and five and four-tenths mills (.0544) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 10. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Five cents and four and three-tenths mills (.0533) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423,

435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 11. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Eight cents and eight and eight-tenths mills (.0888) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 12. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Two cents and two and one-tenth mills (.0221) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 13. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Four cents and nine and nine-tenths mills (.0499) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 14. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Nine cents and nine and four-tenths mills (.0944) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 15. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Nine cents and nine and seven-tenths mills (.0973) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 16. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Eight cents and eight and three-tenths mills (.0833) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 17. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Nine cents and nine and seven-tenths mills (.0973) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 18. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Nine cents and nine and seven-tenths mills (.0973) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423, 435, and 456, for the purpose of paying the annual interest of the indebtedness of said City incurred for the purpose of the extension and improvement of the City Electric Light Plant, together with one-fourth (1-40) of said indebtedness.

SECTION 19. That there be and hereby is fixed and levied a property tax for the fiscal year 1927-1928 of Five cents and four and three-tenths mills (.0533) on each One Hundred Dollars (\$100.00) of the assessed valuation of all real and personal property within the corporate limits of the City of Anaheim, except only the property within the annexed territories as described and approved by Ordinances Numbers 423,

C. F. LEONARD,

Mayor of the City of Anaheim.

Attest:

EDWARD B. MERRITT,

City Clerk of the City of Anaheim.

STATE OF CALIFORNIA,

COUNTY OF ORANGE,

CITY OF ANAHEIM.

I, EDWARD B. MERRITT, City Clerk of the City of Anaheim, do hereby certify that the foregoing Ordinance Number 509 was introduced at a meeting of the City Council of the City of Anaheim, held on the 8th day of September, 1927, and that the same was passed and adopted at a regular adjourned meeting of said City Council held on the 15th day of September, 1927, by the following vote:

AYES: Councilmen Leonard, Miller, Proctor and Case.

NOES: Councilmen, none.

ABSENT AND NOT VOTING: Councilman Grafton.

And I further certify that the Mayor of the City of Anaheim signed and approved the said Ordinance No. 509 on the 16th day of September, 1927.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal of said City the 16th day of September, 1927.

(SEAL) EDWARD B. MERRITT,

City Clerk of the City of Anaheim.

CERTIFICATE OF DOING BUSINESS UNDER FICTITIOUS NAME

Know All Men by These Presents:

That I, the undersigned, Fred R. Palm, agent manufacturing new mattresses and springs, do hereby certify that on the 16th day of September, 1927, in the City of Anaheim, under the firm name and name of ANAHEIM MATTRESS FACTORY.

That I am the sole owner of said business and that no other person or persons are interested therein.

That I reside at No. 214 Third Street, in the City of Anaheim, Orange County, State of California.

IN WITNESS WHEREOF, I have hereunto set my hand this 16th day of September, 1927.

FRED R. PALM.

STATE OF CALIFORNIA,

COUNTY OF ORANGE.

On this 16th day of September, 1927, before me, O. T. Callor, a Notary Public for said County and State, residing therein, duly commissioned and sworn, personally appeared Fred R. Palm, known to me to be the person whose name and name of said business, and whose name he executed the certificate first above written.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal this 16th day of September, 1927.

O. T. CALLOR,

Notary Public.

REQUEST FOR BIDS

The Orange County Cemetery District No. 2, pursuant to an order heretofore passed by the Board of Trustees and in accordance with the provisions of the law in such cases made and provided, hereby calls for sealed bids for the furnishing of the following material for use in the said cemetery district:

Standard galvanized pipe and fittings.

That any and all persons wishing to bid for the furnishing of said material shall file sealed bids with the said Board of Trustees at the place of business of said district, to-wit: The Anaheim Cemetery.

Said bids or proposals must be filed with the Board of Trustees at the place above specified on or before 2 o'clock P. M. the 28th day of September, 1927, at which time the bids will be publicly opened and declared.

All bids must be accompanied by a certified check or bond be approved by the President of said Board of Trustees, in 5 per cent of the aggregate of the bid.

Specifications can be had from Charles J. Fay, Superintendent of the Cemetery.

WM. WALLOP,

Clerk of the Board of Trustees of the Orange County Cemetery District No. 2.

9-15-27

NOTICE INVITING BIDS

In pursuance of a RESOLUTION of the BOARD OF SUPERVISORS of the COUNTY OF ORANGE, CALIFORNIA, adopted September 13, 1927, directing this notice, NOTICE IS HEREBY GIVEN that the said Board will receive at its office at the Court House at Santa Ana, at or before the hour of 11 o'clock A. M. of October 4, 1927, sealed bids or proposals for the grading and graveling of the following roads: BALL ROAD from EUCLID AVENUE to BROOKHURST AVENUE; BROADWAY from BROOKHURST AVENUE to MAGNOLIA AVENUE; BROOKHURST AVENUE from LINCOLN AVENUE to FULLERTON CITY LIMITS.

Bids must be made on the form provided for the purpose, addressed to the Board of Supervisors, County of Orange, California, marked "BID for the Grading and Graveling of BALL, BROADWAY and BROOKHURST AVENUES."

The work to be done in accordance with the profiles, plans and specifications adopted by the Board of Supervisors, and in the office of the County Superintendent of Highways in the Hall of Records.

The bidder must submit with his proposal a satisfactory check, certified by a responsible bank and payable to the order of the County of Orange, or a bidder's bond for an amount not less than five per cent of the aggregate sum of the bid, as a guarantee that the bidder will enter into the proposed contract if the same is awarded to him and in event of failure to enter into such contract said check or bond shall become the property of the county.

The amount of the bond to be given to secure a faithful performance of the contract herein provided shall be twenty five (25) per cent of the contract price.
