

Harbor Improvement Will Be Discussed Next Week

Expansion of Present Facilities at Newport to be Considered Wednesday At Public Hearing In City Hall

A public hearing will be held at Newport Harbor city hall next Wednesday morning, 11:30, to consider the advisability of an expansion program for the harbor at the present time. This movement has been under consideration for some time with recognition being made by the war department recently. Col. Edwin C. Kelton, U. S. District Engineer, will preside over the meeting.

On June 27, 1941, the Committee on Commerce, U. S. Senate, adopted a resolution calling for a review of reports covering Newport Harbor. The principal subject of the hearing will be the proposed improvements included in the report submitted recently by County Engineer Art Beard and City Engineer R. L. Patterson.

The suggested improvements include the dredging of the county turning basin, near the overhead bridge, to a depth of 25 feet, which would facilitate large yachts and vessels tying up at the county dock. The county basin has become somewhat shallow from silt washed in by flood water draining into the bay during past years.

The proposals also include the widening and deepening of the channels between Balboa Island and the mainland from the present depth of 10 feet to a depth of 20 feet. It has been suggested in the report to the county supervisors that the depth of the upper Newport channel be increased from 10 feet to 15 feet.

Widening of the main channel running the length of Newport Harbor from the county turning basin to the harbor entrance is also proposed. The present width is 200 feet; the proposal would widen the channel to 350 feet; with a depth of 20 feet being maintained.

Approval by the harbor commission of the plan is held as favorable for official county approval, with the county assuming part of the costs of improvement.

The two projects outlined for immediate start will cost in the neighborhood of \$395,000.

Bread Prices In Anaheim Go Up

Material Cost Increase Requires Slight Price Raise At Many Places

Living costs in Anaheim are on the upward trend, as indicated by a raise in the price of bread in the past day or so. The pound loaf was raised to nine cents; the 24-ounce loaf stood a two-cent raise, now standing at 12 cents.

The price raise became general throughout Southern California, states William F. Ireland, secretary of Associated Bakeries of Southern California. An advance in the cost of baking ingredients and production required that the raise be made, he stated.

From all indications this year's observance will exceed all previous events, many novel features being under consideration for all events.

Breaking and entering artists have become bolder in spirit in Anaheim of late, according to complaints turned in to the police department during the week-end, two such reports being received at police headquarters.

Frank Marter, 205 So. Citron street, reported that some time last Thursday forcible entry had been made to his home with the resultant loss of \$41.25 in cash and a \$25 defense bond. Front and rear doors were left unlocked.

James M. Duffy, 933 No. Clementine, reported that his home had been entered the same day between the hours of 11:30 a.m. and 3 p.m., during his absence. A suit of clothes and a radio was taken. No clues were found.

Stock Taken In Burglars Raid

Nocturnal prowlers were again in evidence the forepart of the week with Gene's cafe, John N. Schroeder, owner, on Highway 101, being visited.

Considerable damage was done to marble games, musical box and a cigar machine by the prowlers in their search for cash, all machines being forced open and coins removed. In addition to this looting a goodly amount of tobacco and liquor was taken. Entrance was made through forcing a rear door.

Construction work will be rushed, it was reported, although the field will not be occupied until about January 1, at which time Moffett Field personnel will be moved to Santa Ana.

Tax Exemptions End This Month, States Auditor

Penalties Avoided Should Prompt Payments be made; Special Law Ends Sept. 30

Special bargains in delinquent taxes will be off with the ending of September, County Auditor Leslie H. Eckel informs tax payers. Special legislation, known as Chapter 890, permitted back taxes to be paid without penalties, interest only being added, unless the taxes were those of 1940-41 only. With no previous taxes remaining unpaid.

"The special law has brought many people into the office," Eckel commented, "and tax collections have been greater than is usual during the summer months. The greatest advantage has been to persons who have arranged in the past to pay out back taxes on installments, but who redeem in full under the special law. However, in many instances there are distinct savings when redemption is made in September.

"But the law ends this month, and after that penalties will be resumed. These include the Tax Collector's penalties and costs, which are in addition to redemption penalties. It is a state law and will not be extended, as only the Legislature has power to do that."

Parents-Teachers To Hold Session Today

To day at Irvine Park will be held the annual opening session of the Parent-Teacher Association of Orange county. Fourth district, with registration scheduled between 9 and 9:30 a.m. It will be an all-day meeting.

These include the Tax Collector's penalties and costs, which are in addition to redemption penalties. It is a state law and will not be extended, as only the Legislature has power to do that."

The afternoon session, which is to follow a picnic lunch, will be devoted to schools of instruction directed by the chairman of divisional work. Mrs. Ray E. Finlay will act as program chairman.

Church Observes 50th Anniversary

Santa Ana Rejects MWD; To Use Own Water System

Matter of Economy Causes Council To Stop Usage of New System; Old One is Good Enough For Time Being

Although approving the qualities of the water supplied by the Metropolitan Water District members of Santa Ana city council at this week's meeting voted to discontinue its use after September 24, when the "free use" time comes to an end. The main item in considering the abandoning of the MWD service was the expense, it being shown that it would cost in excess of \$19,000 per year to maintain that service.

County Counsel Office Created By Supervisors

Joel E. Ogle Named To New Position; In Office October 17

Creation of a new department within county administration was enacted late Tuesday when Orange county board of supervisors established the office of county counsel, naming Joel E. Ogle to the post.

Ogle's appointment as county counsel, effective as of October 17, was made under authority of a bill passed by the last legislative session providing creation of such a post in counties having more than 100,000 population. The position carries with it a monthly salary of \$500 and is of four year's duration.

Prior to his appointment Ogle was assistant to George Holden, district attorney, whose department will now handle criminal matters only, with Ogle handling all civil matters pertaining to county affairs. The personnel of the new office will be taken from that of the district attorney.

The appointment, coming out of a clear sky, caught official quarters by surprise. Presented as an amendment to the salary ordinance by Supervisor Fred Rowland, four members of the board endorsed the move, with objection being made by Supervisor N. E. West, who stated that he was opposed to the creation of any office paying more than \$5,400 a year until lower bracket salaries for county employees had been raised.

Public Administrator Earl R. Abbey challenged the board's action on the grounds that it deprived his department from receiving patronage of private attorneys, with a resultant loss in fees revenue to the county. Supervisors held that the administration savings would be an offset, with greater efficiency in conducting county affairs.

In addition to county matters, Ogle will take over jurisdiction in abating public nuisances.

Red Cross Seeks Larger Quarters For Work Usage

Much Business Transacted At Tuesday Night Meeting; Heavy Program Scheduled

Anaheim Chapter, American Red Cross, is rapidly outgrowing its present quarters, as was evidenced at Tuesday night's meeting. It is now the chapter's wish to secure larger quarters in the city business section that a greater volume of work may be undertaken. To that end a committee was named with full power to act, in securing such quarters: Truman Stuard, chairman, assisted by Fred Fischle, Mrs. R. W. Balsh and Mrs. T. Lumsden.

Mrs. F. R. Alsen, who for the past year has served as production chairman, tendered her resignation, which was accepted with regrets. Mrs. Balch and Mrs. Lumsden were named as a joint committee to fill the vacancy.

Letters of appreciation were received from Barnes General Hospital, Vancouver, Wash., and from Ft. Lawton, on Puget Sound, for a number of bedside bags and sewing kits sent them.

Nurses' aides came in for lengthy discussion. Mayor LaGuardia, director of the office of Civil Defense, has requested that 100,000 such aides be trained, which will require at least 15,000 nurses' aides from the Pacific coast area. Mrs. Laura R. Warren has accepted the county chairmanship of the nurses' aides committee, and a study of needs will be undertaken at once. Volunteer ages will be between 18 and 50, with a pledge to give 150 hours of service to the Red Cross, serving in hospital or clinics.

Roll call plans for November were discussed with a membership based on the 1940 census. Truman Stuard is roll call chairman.

Two first aid classes will be opened soon, it was announced by Mrs. W. E. Melton, chairman. Dr. Alan D. Hansen will act as instructor.

A regional conference will be held in Pasadena on October 10. Those able to go are requested to hand in their names to Fred Fischle. A county meeting has been called for next Wednesday evening at 6:30, American Legion hall, Orange.

Sheppard Bill Renews Action Naval Academy

Authorization for an expenditure of \$10,000,000 to be spent in establishing a naval academy in the west was asked for yesterday in the House of Representatives, Washington, when Rep. Harry R. Sheppard of California, renewed action on a bill introduced some time ago calling for that sum to be expended in the Newport area.

This step has been urged for years to relieve the overcrowding of Annapolis Naval Academy, established when the nation's population was confined principally to the Atlantic coast.

Never were our streets in such positively disgraceful condition. The effect upon strangers of the large patches of weeds is enough to drive them away. Our city fathers should recover from their seeming demoralization and at least have the weeds chopped down. Clean the streets.

Yesterday Horticultural Commissioners Perry and Hamilton were summoned to Garden Grove to examine some orange trees on the Gates place that were said to be infected with white scale, the first ever reported in this county. They found white scale on five orange trees.

The trees were in Mr. Gates' front yard and had several other varieties of scale besides the white scale. The trees were cut down and destroyed. This is the first white scale discovered in this county and the thorough manner of the extermination reflects credit upon the commissioners.

Billy Dunlap is getting to be the most careful as well as accommodating man in town. Besides being one of the best harness makers in the state, he can tread the boards as a heavy tragedian with a real histrionic touch. Billy has a great future before him, if he is careful.

The city trustees met in adjourned session on Thursday afternoon last. Trustees Littlefield, Witte and Bennerscheid present.

The marshal reported collection of \$362.67 for license and water rates during the month. The contract and bond of Henry Albrecht for the construction of a tank frame and tank at the City Water Works was read and accepted.

S. O. Wood wrote offering to supervise the erection of tank frame and tank. Services accepted and compensation fixed at 5 per cent of the contract price.

The marshal was authorized to have 300 postal cards printed for the purpose of notifying taxpayers of the amount of taxes due.

The city clerk was instructed to make a demand on Orange county for rent of the city jail for one year to August 1, 1891, at the rate of \$20 per year. Should the county refuse to pay such demand, the marshal will be instructed to refuse to allow the use of the City jail for any thing but city purposes. Adjourned.

We hope our readers will not imagine we were trying to boom a small sunflower in Henry Knapke's resort when we mentioned last week that it was seven inches in circumference. Of course we meant diameter, which makes quite a difference.

W. A. Beckett, secretary of the Orange County Fair association, was in town to see yesterday afternoon. He informs us that every section in the county is making preparations to have exhibits at the County Fair, Anaheim, should have a fine exhibit there. What is being done about it?

Attention is directed to the advertisement of William Boyd's Grocery store, situated in the Backs block. He sells groceries, tobacco, cigars etc., at low rates and delivers goods free. Give him a call.

Robert Menzel is prepared to deliver fine specimens of raisin grapes to those wishing them. Give him an order and he will fill it with neatness and dispatch.

The county road between here and Santa Ana is in a perfectly beastly condition. Come, Messrs. supervisors, give us a better thoroughfare for the principal road in the county. The road should be graded before the rains set in. In its present condition it is a disgrace to the county.

W. J. Smith of Orangefield last Friday shipped a carload of hogs to J. Walton in Los Angeles and received \$675 for the lot. During the last six weeks he has sold \$1300 worth of hogs which he raised on his ranch.

Mr. Parker's orchard is being fumigated. Several others will be if the work can be done at fair rate. The patent is dead.

Delay Building School Addition

Wilson school at Santa Ana will not for the present have its new auditorium. Such was the decision of the board of education of that city when a meeting was held Monday night to consider bids submitted for construction of the new addition to the school.

The board had on budget allocation set \$6,246.71 for the outlay. The lowest bid submitted placed the estimate at \$9,270, which was considerably in excess of available cash. The board has decided to indefinitely postpone construction.

The work of paving East Broadway is progressing as rapidly as possible. Scrapers are now grading and leveling the street in preparation for the concrete. A large force of men will soon be at work spreading the base. Manager Werdin came down from Los Angeles Monday to see what the boys were doing.

Two or three of the jitney bus companies are arranging to establish headquarters on the lot at the corner of Los Angeles and Chatter streets, moving from the Lemon street depot. One manager said that one of the other "runners" endeavors to "hog" all the trade, so the disgruntled ones are going to move.

Mrs. F. A. Yungbluth entertained at progressive Euchre on Thursday afternoon. Thirty-five guests were present and eight tables were arranged for the game. The tally cards were in the form of Autumn leaves painted in watercolors and the decorations carried out the same artistic note of autumnal colors. A two-course luncheon of chicken patties, fruit salad, ice-cream, cake and coffee was served after the game. The first prize, a handsome flower holder was won by Mrs. Fred A. Backs Jr., the second, a vase, by Mrs. Welborn Wallop and the consolation by Mrs. Jessurun.

The Edison company's bill for electricity furnished the city during the month of August was \$872.33, and the gas bill was \$832.13. This was an average of \$30.07 per day, being somewhat lower than the July bill which was \$31.67 per day.

Golden Text in the Lesson-Sermon on "Matter" on Sunday in all Churches of Christ, Scientist.
The Lesson-Sermon includes these passages about Jesus from Mark: "And straightaway he constrained his disciples to get into the ship, and to go to the other side before unto Bethsaida, while he sent away the people. . . . And when even was come, the ship was in the midst of the sea, and he alone on the land. And he saw them toiling in rowing; for the wind was contrary unto them; and about the fourth watch of the night he cometh unto them, walking upon the sea, and would have passed by them. . . . And he went up unto them into the ship; and the wind ceased."

Among the selections from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is the statement: "When we come to have more faith in the truth of being than we have in error, more faith in Spirit than in matter, more faith in living than in dying, more faith in God than in man, then no material suppositions can prevent us from healing the sick and destroying error."

Dons Ready For Laverne Tussle

Many Subs To Be Used In Friday Night Game; Have Two Backfields

Drawing up the curtain on the 1941 grid season, Bill Cook's Don footballers, defenders of the National Jaycee title, mix with the Laverne College varsity tomorrow night in the Santa Ana Municipal bowl. Kickoff is slated for 8 o'clock.

Having lost most of last season's talent to Southern Cal, San Francisco University, and San Diego State, coaches Cook and Ward have been forming a nucleus around LeRoy Littlejohn, center; Ralph Barnes, half; Whitey Rogge, half; Prunty Parsons, quarter; Joe Nargucci and Homer Hannaford, co-captains.

The Don mentor will have two backfields to use as in seasons previous, but it is doubtful as to his probable line up. One of the workable backfield combinations will be made up of Barnes and Rogge, halves; Parsons, quarter; and Bob Green, full. Dick Eggers, Chuck Page, and Jim Kobayashi alternate at halves on the other foursome, with Pete Zucco and Joe Nargucci at full and quarterback positions.

Cook indicated he would substitute freely in tomorrow night's game, giving as many players as possible a chance to show their wares. Potential starting lineup follows: LE, Winkler; LT, McMillan; LG, Hannaford; C, Newquist; RG, Roussos; RT, Bovee; RE, Smith; B, Parsons; RH, Kobayashi; LF, Rogge; FB, Zucco.

Clothing Needed For Over There

War Relief Committee Seeks Clothing and Shoes For England

The Christian Science Monitor reports that midst bombings and the migration of masses of evacuees in Britain, there is still a constant need for warm clothing, shoes and knitted goods. A steady stream of supplies continues to go forward from Boston, Mass., under the auspices of the Christian Science War Relief committee, which is receiving these shipments from units throughout the United States and Canada. A War Relief Canteen from this organization has reached England safely and is furnishing meals daily for people in districts recently bombed.

The local Christian Science War Relief committee, located at 300 East Center street, recently made a large shipment of new and used warm clothing, shoes and knitted goods. Dresses and underwear of warm material for women and children are now being prepared. A display of the finished clothing will be made at an early date. Donations of warm clothing and shoes will be acceptable at any time.

In order that the very latest in fashions may be displayed at the style show to be given next Thursday evening in connection with the Elk's Carnival, Anaheim dress shops are arranging with Hollywood and Los Angeles manufacturers to make available garments that will be shown locally for the first time. Fresh from the designers these costumes will be the latest and most authentic fashions to prevail during the coming fall and winter.

A partial list of those who will model was released by Chairman Kurt Epstein today and includes: Roselin Hauser, Jessie Jones, Mrs. Bonnie Chapel, Marcella Jordan, Virginia Carlisle, Betty Ruth Boney, Lorraine Anderson, Jean Cawthon, Marie Ward, Mrs. Wayne Griggs, Mrs. James Reinert, Charlotte Price, Jean Sutherland, Mrs. Harry Jackson, Mrs. H. A. Pruitt and two year old daughter, Diane, Barbara Cordill, Jackie Dutton, Marion Caracausa, Kay Van Buren, Clair Larsen, Nellie Childs, Virginia Huelskamp and attendants.

Corn's, Lake's and Yungbluth's are arranging for models to present fashionable clothing for men.

Joe Louis, world's heavyweight champion, fought 25 rounds, 75 minutes, during the year 1940 in retaining the championship. His last fight of the year, on June 20, lasted eight rounds, for which he received \$55,989, an average of \$2,332.20 per minute for each minute he fought.

Farm Bureau To Consider Plans For Institute

The fall institute for citrus growers of Orange County will be held at the Anaheim High School on October 23, according to action taken by the Agricultural Extension Service and the Citrus Department of the Orange County Farm Bureau at their regular session last week.

A special institute committee has been appointed to complete the program details for the day. The committee includes Frank Collins, Orange; C. J. Mauerhan, Anaheim; H. H. Gardner, Villa Park; and

Harold E. Wahlberg, County Farm Advisor.

POOR DECISION FOR THE FARMER.

Recent announcement by Santa Ana to continue pumping water out of our underground basin is causing discussion among many ranchers. With the completion of the Metropolitan aqueduct ample water is brought here from the Colorado for the use of all member cities, of which Santa Ana is one. All member cities are now in a two months period of free water from M. W. D.

Santa Ana, and Fullerton too, it is rumored, will, after this period, shut off Metropolitan water and continue pumping. We believe that this decision is detrimental to the best interests of Orange County even though by pumping these cities may be able to save a little money.

The aqueduct was conceived and built with the idea in mind of saving our underground water supply. This basin has been perilously close to sea level and the largest users have been the cities. The ranchers, who largely support the cities, also are mainly dependent upon this same basin for water to propagate their groves.

Now it seems to us that this decision, if true, on the part of these cities, completely ignores the plight of the rancher. This same rancher is the man who comes into town and spends his money in our stores. He is largely responsible for the money that comes into our county.

Perhaps the grower may not feel so kindly toward those cities that ignore his position.

We invite them all to come and trade in Anaheim. We are using and will continue using Metropolitan water. We in Anaheim saw this plan through in order to conserve the water for the rancher.

Institute Meet Well Attended

Many Representatives from Anaheim Present; Notables Give Able Discussions

The Area Institute held at the Biltmore Hotel in Los Angeles last Friday afternoon was attended by several members of the Board of Directors of the Crippled Children's Relief Association of Orange County. The Institute was under the supervision of the California Society for Crippled Children, with the executive secretary, Warren E. Griffith, as presiding officer.

Luncheon was enjoyed with the Los Angeles Rotary Club in the Biltmore Bowl before the session of the Institute. A delightful Spanish program was given by four musicians and three dancers from Olvera Street and an instructive address on "Law and Order" in early Los Angeles was given.

Instructive discussions were led

MISSIONARY LIFE IN CHINA NEEDS COURAGE IN MORE WAYS THAN ONE

Rich in reminiscence is the log of Rev. Archie Crouch. A faithful record of nearly five years he spent in China, it conveys to the reader not the conception that all is milk and honey in his calling in that distant land, but, rather, a calling that requires fortitude and understanding of hardship; pioneering.

As one turns the pages of his diary, incidents, pathetic and humorous, are depicted—a chuckle here, a feeling of pity there. Going through the pages at random one comes across an item like this:

"What I saw in the canal this morning may account for the strong flavor of the water we drink. This country is at sea level, so all canals and streamlets have high and low tides. The tide was so low this morning that the bottom of the canal was almost dry."

"On the way home from lunch we saw the half-disintegrated carcass of a dog in the bottom of the canal. It was about two hundred yards up-stream from the place where the water is dipped from the canal for our school use. We drink it; wash our hands and face in it and all our food is cooked with it."

"But it is boiled, and that saves our lives. After one learns to drink nothing but tea the problem of flavor is solved. The rice cooked in this water often carries the flavor, but we usually eat highly seasoned vegetables, fish and bean curd with the rice so that it does not matter so much. The chief difficulty is with one's imagination. One not only needs a strong body but a strong determination and a resistant spirit to live in these conditions."

Another incident he recorded was seeing eighteen women harnessed to a huge iron roller, resting by the roadside, tired from the strenuous labor. Road building, with old women crushing rock by hand, with hammers, was another incident. In hauling this material to the place where used, women were used as motive power for the wagons. Living in filth and squalor, huts made of mud and grass, their span of life is not long.

In February, while living at Pu K'ou Wang, Rev. Crouch writes:

40,000 individual exhibits and between 10,000 and 12,000 exhibitors. The services of seventy-five judges will be required to pin on the two miles of silk ribbons required to indicate the prize winners in the 20 major divisions. These judges are from all parts of the country and represent the authority of the nation in their respective sphere.

Huge Sum Offered Fair Prize Awards

Agricultural Division Will Receive Big Share; Many Prizes in Livestock Class

Bringing with it the distinction of being the richest purse offered by any state or county fair in the nation this year, a grand total of \$200,000 will be distributed at Los Angeles County Fair in Pomona, September 12 to 28.

Of this amount the lion's share will go to the agricultural and horticultural division which will absorb some \$60,000. Livestock is next in line with a total of \$36,000 divided as follows: horses and mules, \$900; beef cattle, \$6500; dairy cattle, \$12,000; swine, \$500 and sheep, \$3500.

Approximately \$4000 will be distributed to the women in the domestic arts department. The beautiful bluebirds at the night horse show will strut their stuff to the tune of \$21,245 in purses. It is estimated that there will be
