

Legion Officers Installed By County Drill Team

Elevated to the office of commander of Anaheim Post No. 72, American Legion, Henry W. Baxter, 526 South Helena street, brings to that responsible position the experience gained in serving his post through a succession of offices including the vice-commandership last year under Commander K. B. Rigby.

Baxter and his staff were installed Monday night in Legion clubrooms with fitting ceremonies conducted by a county drill team made up of past Legion commanders of Garden Grove and Santa Ana. Those installed included also K. B. Rigby, junior past commander; L. N. Wisser and Jesse O. Thatcher, first and second vice-commanders; James H. Heffron, adjutant; Dr. P. S. Arnold, chaplain, and Milton Kohne, sergeant-at-arms.

On the installing team were Past Commanders Vic Meyers, Richard Haster, Lucky Baldwin and A. J. Hayman, Garden Grove; Commander Albert Jones and Past Commanders Arthur Eklund, C. M. Featherly and Ralph Mitchell, Santa Ana. Featherly is commander of Orange County Council, of which K. P. Bigby is vice-commander. Local delegates to the council were named as Rigby, Clair Liebhart, immediate past adjutant, and Milton Kohne, serving with Commander Baxter and Adjutant Heffron.

Announcements made during the business session included the 21st District meeting in Orange on October 17, and Armistice Day plans for November 11. Santa Ana post has invited all county posts to take part in an afternoon program in the municipal bowl of that city, a feature of which will be the mortgage burning for Santa Ana Legion clubhouses.

Following his installation Commander Baxter announced various committee appointments. Among chairmen named were Americanism, E. C. Westenkuehler; Boy Scouts, Dr. P. S. Arnold; Boys' (Continued on Page 4)

MOD Manager Off To Fort Custer, Has Major's Rank

Bruce McDaniel, general manager of Mutual Orange Distributors, and well known among all growers of the Anaheim area, left Monday for Fort Custer, Mich., to report for active specialized service with the U. S. Army. There he will receive formal orders assigning him to duty with the rank of major.

McDaniel has been granted a leave of absence by MOD directors and upon his return will become general counsel and legal advisor of the cooperative. During World War I, McDaniel held a first lieutenantcy and served two years in France. He was cited by Gen. John J. Pershing for meritorious action in the field and received the Order of the Purple Heart.

War Ration Book 4 To Be Distributed Through Schools In Early November

Just as Mr. and Mrs. Southland are finishing up their red and blue stamps in War Ration Book 2 and getting accustomed to using those from their new War Ration Book 3, they are informed by Paul Barksdale, district ration chief for the nine Southern California counties, that War Ration Book 4 will be ready for them by November 1.

The announcement carries a bit of cheer in the statement that when the new books arrive they will be good for approximately two years. The new books, according to Mr. d'Orr, will be distributed through the schools as were War Ration Books 1 and 2.

Here in the Southland this distribution is scheduled to begin on Wednesday, Oct. 20 and will continue through the remainder of the week including Saturday. Which means that all the busy teachers may look forward to continuing their duties right through the customary Saturday holiday.

Ration Book 4 is described as consisting of eight pages containing a total of 384 stamps, printed on safety paper with blue, green and black inks. The stamps are sufficient to serve for 96 consecutive weeks.

Red and blue stamps. (96 of each) will be used exactly as are those in present ration books. To aid in making the book last vir-

City Will Benefit By Regulations And License Fees

The City of Anaheim will share to the extent of \$1,143.93 in the \$9,425,726 motor vehicle registration and license fees melon which has been split three ways by the California department of motor vehicles. Benefitting by the full sum will be the state general fund, the division of highways, and the several counties and cities of the state.

The bulk of the money, \$8,121,379 to be exact, represented motor registration collections for the first six months of 1943 and was divided equally between the division of highways and the counties, for road building purposes.

Orange county's apportionment from this sum was \$91,060.52 on the basis of 62,455 fee-paid vehicles registered in all classes.

Motor vehicle license fees represented collections for the quarter ending June 30, amounting to \$1,304,347. Twenty per cent of this amount went to the state general fund for retirement of old highway bonds. The remainder was divided equally between counties and cities on the basis of population census figures for 1940.

It was from this sum that Anaheim's share was allocated on an estimated population of 11,031. It was drawn from the total of \$8,654,299 coming to Orange county based on a county population of 83,454.

Registration fees throughout the state dropped \$203,557 below those of the same period in 1942, according to Gordon H. Garland, director of the department of motor vehicles.

Avocado Growers Meet Friday Night

Avocado growers of the county have been informed of a program of marked interest to be held tomorrow night in the Farm Bureau building, 353 South Main street, Orange. Those who plan to attend the 7 o'clock dinner are asked to make advance reservations. H. H. Gardner, chairman of the Farm Bureau's avocado department has arranged for a discussion of the correct fertilizer to use for avocado trees, and will present speakers from the state war board to tell what materials will be available. J. C. Johnston will talk and will be prepared to answer all questions regarding avocado culture, and Farm Advisor Harold Wahlberg will give figures on comparative values of different fertilizer materials.

Actually two years, it is planned to introduce red and blue tokens early in 1944, for change in the purchase of meats, fats and processed foods.

Green stamps will be used on an interim basis with the blue stamps for processed foods in much the same manner that brown stamps in Book 3 are now being used with the meats-fats program. Seventy-two of the 96 stamps printed in black have the word "spare" on them indicating their use for any need that may arise during the two years of the book's life. Twelve are marked "sugar" and an equal number had already been marked "coffee" because the printing was too far advanced when coffee rationing was removed, to make any changes. Therefore these will be designated for some other use from time to time during the period.

The sole qualification for getting Book 4 is possession of Book 3, according to d'Orr's explanation. Application blanks will be available at the schools and may be filled in with name, age, sex and address of the owner of each Book 3 presented. As has been the case in issuing previous books, one person may apply for all those living in one household who are related by blood, marriage or adoption.

Kiwanians Attend Division Meeting Held In Whittier

Returning from Tuesday night's Fourth Kiwanis Divisional meeting in Anaheim, a score of local Kiwanians were enthusiastic about the entertainment provided at the program staged in William Penn hotel.

For they not only heard greetings from Thomas E. Gore of Riverside, governor of the California-Nevada district, and a fine address on "Keep America American" by William O. Harris of Los Angeles, a past president of Kiwanis International, but they shared many other pleasant features.

Chief among these were songs, including "The Lord's Prayer" by Sievert's Boys' Choir, a Whittier organization founded a half dozen years ago, by Sievert, a funeral director of that city who makes it his chief hobby. The lads, ranging in age from six to 14 years, are directed by Mrs. George Barber, employed by the founder who assumes all expenses of the organization. Especially impressive to local members, was the work of two small soloists not more than six years of age.

Additional entertainment included feats of legerdemain by a clever professional secured by Harry C. Arthur, well known theatre man of this city.

In bringing greetings to the several division clubs, Governor Gore stated that the fourth division was the only one in his district to achieve a 50 per cent attendance at one of its meetings, as was done in Anaheim a few months ago. This was the pleasant "bouquet" which the division's lieutenant governor, Harry I. Horn, and Anaheim club's president, Ewald Lemcke, brought back with them to present the local club at its meeting next Tuesday.

Anaheim Elk Made Trustee Of State Association

Additional recognition that has come to Anaheim Lodge 1345 BPOE, was the appointment this week at the annual conclave of California Elks' association, of Oscar Heying of this city, as one of the trustees of the state association.

Heying's choice for the responsible post was the second honor paid Anaheim Elksdom this year. For Fay Lewis, a past exalted ruler, was named to the Grand Forum at the summer Grand Lodge conclave in Boston.

The state office is not the first held by Heying, a past exalted ruler of the local lodge and proprietor of the Heying Pharmacy. Last year he held the office of state treasurer. His new appointment was made at the convention held this week in Los Angeles. Other trustees appointed at the same time were Fred Murphy, of Sacramento; George Dougherty, San Francisco; Ben F. Lewis, Fresno; James GreenWalsh, San Luis Obispo; Jack Fotto, Monrovia; Dr. W. O. Rife, San Bernardino; and Edgar A. Dale, Richmond.

Clifford C. Anglin of Richmond, was elected to the presidency succeeding Newton M. Todd of Long Beach. Regional vice-presidents named were Dr. C. D. Demarias of Chico for the northern region; Earle Williams of Oakland, bay region; Robert Crane of Hanford, east central; W. W. Jacea of San Jose, west; Stephen A. Campas of Huntington Beach Park, south central, and Henry Swanson of El Centro, southern.

Reorganization Of Canteen Corps Is Being Arranged

An important meeting of the canteen corps of the local Red Cross chapter is scheduled for tonight in Red Cross headquarters, 129 West Center street, under chairmanship of Mrs. Earl Woodward, with Mrs. E. C. Westenkuehler as vice-chairman.

It is the intention of the group to effect a complete reorganization, and among other plans are those for formation of four service groups under the captaincy of Mrs. Charles Schütz, Mrs. Westenkuehler, Mrs. Emma Jackson and Mrs. O. W. Eager.

Mrs. John W. Wilson is in charge of the mobile canteen unit which is organized into six shelter groups.

Speaker Explains Possibilities Of Anaheim's Future

Planning today for solution of problems of tomorrow, especially those colossal ones that must be met when the World War is ended, was one of the requirements emphasized by Chamber of Commerce Secretary Ross Lee Laird, in a stirring talk on "Post War Activities" which he addressed to Rotarians at their meeting this week in Elks clubhouse.

Introduced by Oscar Renner, chairman for the day, Secretary Laird addressed the service club after a short business meeting conducted by President Paul Demaree.

While many of the points he brought out were based on the nation's present industrial situation in which approximately 75 million individuals are employed in comparison with 11 million in ordinary times, he centered much of his talk on conditions right here in the Southland and especially in Anaheim itself.

"There is nothing to prevent Anaheim from becoming the fruit processing center of the world," he stated emphatically, declaring that the city already has gained a fine start toward that goal. He pointed out the strategic situation in the very heart of the citrus belt, and the natural resources that are such a valuable asset.

"We must become community-conscious and prepare ourselves for the development of our natural resources," he said. "Let us all enlist as salesmen for Anaheim."

Continued promotion of the citrus processing industry would have a double advantage, according to his opinions. It would benefit growers and the industry as a whole, and would go far toward solving post-war unemployment problems as they arise in this community.

That such problems will arise is an unescapable fact, and he expressed the vigorous opinion that not only must jobs be provided for returning service men, but that the labor of present defense industries must also be absorbed. Since this cannot be done by the federal government alone, he pointed out that each community must bear its share of responsibility in such a movement.

Sharing the interesting program with club members was a special guest in the person of Midshipman Richard Kendrick, now home on leave from Stanford hospital, with his father, Elwin C. Kendrick, local jeweler.

CC Group Devotes Meeting To Current Problems

Anaheim was well represented Tuesday night at the Santa Ana meeting of Associated Chambers of Commerce of Orange county, with Clyde Simmons of Tustin presiding.

Present from this city were Chamber of Commerce secretary Ross Lee Laird, Victor G. Loly, official C. of C. delegate, the Rev. Stanley Frederick George, Gerald Patton and Paul Jungkeit, prominent in work with youth groups of the city.

They found special interest in a discussion of "Juvenile Delinquency and Youth Recreation" by Herman Stark and Walter Hansen, and took part in the open forum which followed.

An appreciation of the work being accomplished by the various chamber groups in USO and Red Cross activities for service men was expressed by representatives of the several large military stations within the county's borders. Before the session closed, President Simmons named a committee to go further in investigations of youth and allied problems in the county.

Many Posts Open In County Service

Firefighters, guards, laborers and labor foremen are some of the needs to be filled in various government agencies in Orange county. Good salaries are offered in these posts, with annual leave of 26 working days and 15 days' sick leave a year. Applicants must have availability certificates, and may get further information from Ethel S. Kuever, representative of the U.S. Civil Service commission, at the U.S. employment office, 501 West Fifth street, Santa Ana.

News Is Confirmed Lt. Minogue Is Missing In Action

Earlier word received by Mrs. Pearl T. Minogue, 606 North Claudia street, that her son, Second Lieut. John Francis Minogue was

Lt. John F. Minogue missing in action, was confirmed this week by official notice from the War Department.

Lieut. Minogue had been in the North African area according to the latest letter received by his mother and grandmother, Mrs. Minogue and Mrs. Kate Miller, of the North Claudia street home. He enlisted in the Army Air Forces in January, after completing Union high school and Fullerton junior college. He won his pilot's wings at Victorville Army Flying school, and after enlistment in the Army Air Corps, was the first Anaheim aviation cadet to be based at Santa Ana Army Air Base after its construction.

Lion Club Speaker Discusses Institutional Work

Assembled in Elks clubhouse Friday for their weekly luncheon session under presidency of Francis Elliott, Anaheim Lions were agreed that they were privileged to hear one of the most enlightening and interest-compelling programs of their club year.

It was a talk on rehabilitation methods employed at the California Institution for men at Chino, and was presented by Allen Cook, business manager of the institution, secured and introduced by Lion Louis Hoskins.

Purposes of the institution, Cook explained, are toward the adjustment of men with criminal records, to the demands of organized society through a program of work and instruction. He told of the eight hours daily that inmates are required to put in at the institution, and the study classes conducted in remaining hours where trade schools offer them a varied line of industries to fit them to take their place as respected and self-respecting members of society.

Some 600 or more men already have been placed in war industries he stated, and approximately 170 men are now serving with the nation's armed forces.

Although one of the state's major corrective institutions, the Institution for Men is not populated by those sentenced to it from court, the speaker explained. Instead its inmates are recommended by the state board of pardons from the penal institution at San Quentin, as being suitable for rehabilitation and readjustment to the demands of organized society.

No armed guards are maintained and instead the place is run on the honor system, he stated, with results that have attracted interest of penal institutions all over the world. Every week sees representatives from other countries visit the Chino institution, to inspect and study its methods and the successful results attained.

Santa Anan Named State Bar Officer

A vice-presidency in the California State Bar association has come to Orange county with the election to that post of Atty. M. Burr Wellington of Santa Ana when the board of governors held their annual meeting last week in San Francisco.

Russell F. O'Hara of Vallejo was elected to the presidency,

Templar De Molays Meet Monday For Installation Rites

One of the anticipated events in Anaheim's Templar chapter, Order of De Molay, is the installation of officers, a formal ceremony which is scheduled to take place Monday night at 8 o'clock in Masonic temple.

Jack Royer will be installed as master counselor, with Jim Sutherland as senior counselor, Jim Davis as junior counselor, and a long list of appointive officers. These officers include Claude Wilson and Bob Bennett, senior and junior deacons; Cal Stewart and Wayne Phillips, senior and junior stewards; Lamar Johnston, chaplain; Glen Fry, almoner; Don Hein, marshal; Richard Foster, standard bearer; Gene Menges, orator.

Glenn Greden, first preceptor; Leland Hansen, second preceptor; Ross Walker, third preceptor; Don Nichols, fourth preceptor; Charles Fordyce, fifth preceptor; Nelson Colvin, sixth preceptor; Don Wilson, seventh preceptor, and Jerry Franks, sentinel.

Installation rites will be conducted by a staff composed of Gregg Watson, installing officer; George Ehrle and George Davidson, senior and junior counselors; Emil Blankmeyer, senior deacon; Don Organ, marshal, and Robert Jones, chaplain.

Comprising the advisory council for Templar chapter are F. Leroy Marsh, chairman; Charles Organ, chapter advisor; Ed. Marion, J. M. Casey, John Hasty, T. K. M. Smith, George Ehrle, Hal Eaton and O. N. Brower.

Anaheim De Molays are proud of the members they have contributed to the nation's armed services. The list includes Gordon Morley, Sherman Phillips, Edgar Pressley, Jim Gaddis, Wilbur Comstock, Thomas Harrison, Neal Crooks, Stanley Comstock, Richard Parry, Raymond Miller and Don Polhemus.

Congregation Will Take Part In Home-Coming Plan

Members of White Temple Methodist church are anticipating with warm interest, the observance of Home-coming and Sunday School Rally day to take place Sunday under direction of the Rev. Thomas L. Burden, pastor.

Sunday school will convene at 9:30 a.m. under superintendency of Melvin Hilgenfeld, and all parents and friends of the young people are invited to visit in any of the several departments and enjoy special program features and the progress of Sunday school studies.

At morning worship services at 10:45 o'clock, the congregation will welcome one of its former pastors, Dr. Ray M. Harker, who will speak on "The Church and Chivalry." The vested choir has prepared special music for this event, which will be climaxed with the home-coming family dinner, served at noon in the social rooms. Each family will be asked to provide its own needs in table service as well as generous contributions to the covered dish menu. Women of the church will provide hot coffee.

All former members of the church are urged to return for the day's events, which will include an afternoon of pleasant social features when old friendships will be renewed. A short and informal program will be presented, ending with an impressive vespers service.

Services Join In Daily News Program

Instituted on Monday of this week, and heard daily at 3:30 p.m. is a new type of integrated news programs in which the coast-to-coast Mutual broadcasting network and the world news-gathering facilities of the Christian Science Monitor are joining to bring news events from all parts of the world.

Arrangements for the merging of these two great news-gathering agencies have been underway for many months. It is believed that this is the first time that a great newspaper's overseas facilities have been made available to a major network in this country. Volney Hurd, broadcasting director for the Monitor, is commentator and program coordinator. Present plans are for at least three Monitor staff men in various parts of the world.

City School Registrations Near Those Of Last Year

With only one more day's work before the first week of school will have been completed for the new 1943-44 school year, Anaheim's young people were settling into the study routine with every prospect for a successful year, according to both Principal Paul H. Demaree of Union high school and Superintendent Melbourne A. Gauer of the elementary school district.

Two County Women Made Chairmen Of Women Workers

Two new appointments to the Orange County War Finance committee have been announced by Chairman Harry L. Hanson of Santa Ana, as Mrs. Ben S. Brubaker of Orange and Mrs. J. W. Gallman of Santa Ana.

Mrs. Brubaker will serve as chairman of the women's division for northern Orange county, and will have the Anaheim area in her jurisdiction together with other north county communities. Mrs. Gallman will fill the same position in the southern section of the county.

"These two appointments will be a great step toward increasing activities among the women's division," said chairman Hanson. He pointed out that past activities of both Mrs. Brubaker and Mrs. Gallman had proven them to be unusually well fitted for the posts, and enthusiastic in support of the War Finance campaign.

Their duties as explained by Hanson, will be to visit each county community, organizing committees to promote sale of War Bonds or assisting already organized groups among the women. Chairmen of already organized women's divisions will make reports to the two new county chairmen instead of to men chairmen he added.

Mechanical Shaker Commands Interest Of Walnut Growers

Walnut growers faced with the prospect of harvesting their nut crop in a time of labor scarcity are showing considerable interest in mechanical tree shakers. One successful type of shaker reported in the July 1943 Diamond Walnut News, is mounted on a tractor and by means of a reciprocating device and a cable hooked to a limb, the nuts are shaken to the ground.

According to J. P. Fairbank and E. F. Serr of the Agricultural Extension Service, University of California, Davis, a better job will result than with the usual hand shaking as well as saving approximately one-half the man hours. Construction details may be had free of charge at the farm advisor's office, 220 Ramona bldg. Santa Ana.

Red Cross Chapter Aids Service Men In Need Of Beds For Week-End Use

One of the latest and most outstanding accomplishments of Anaheim chapter American Red Cross, was reported in detail Tuesday evening when the monthly board meeting was held in chapter headquarters, with Mrs. D. Jerry Youngs presiding.

This accomplishment was the successful working out of plans to establish much needed beds for the use of servicemen each week-end, a policy that is being put into effect by chapters all over Orange county. Mrs. Youngs had named Mrs. Ruth Jefferson Rust as chairman of a committee including also Mrs. Lotus Loudon and L. E. ("Tex") Middleton.

With the support and cooperation of American Legion, the committee reported that Boy Scout house, 117 West Cypress street, would be available for this purpose each week-end. Middleton, a well known worker in the Boy Scout movement, was largely responsible for securing the site.

American Legion cooperation will be given through the new committee appointed by Commander Henry Baxter, with L. N. Wisser as chairman. Red Cross chapter already has many cots and quilts in readiness, and with the aid of other workers, will secure additional equipment, so that everything will be in readiness to provide any needed beds by tomorrow night.

Among other events of the evening was the report of the by-laws committee given by Mrs. Fred Weisel, chairman. The by-

Even though war industries have made certain demands upon Union high schools' student body, and seasonal agriculture needs such as walnuts and tomatoes have affected some of the elementary schools, Monday's opening day saw nearly an average registration of pupils.

A total of 922 high school students had registered by Tuesday, with more expected daily throughout the remainder of the month until Principal Demaree anticipates approximately a thousand young people to register for the year's work. There is a large freshman class he reported, comparing favorably with other school years.

Latest figures compiled by Supt. Gauer showed an elementary school registration of 1335, over half a hundred more than at the corresponding date a year ago. However the close of the elementary school year in June, showed a registration of 1368 pupils, and it is Gauer's belief that when registration is completed, that number will be approximated this year.

Youngsters are settling down to work in a gratifying manner he declared, and the various schools are falling into their routine simplified by the fact that the superintendent and school trustees had made certain of their teaching staffs long before the close of the schools in June.

(Continued on page 4)

Five Local Police Affiliate With Peace Association

Five members of Anaheim police department, E. E. Blankmeyer, Ralph H. Decker, Joseph F. Miranda, Ivan E. Wood and W. E. Otta, became active members of Orange County Peace Officers' association at the latest meeting of that organization in Huntington Beach.

Association members were the guests of Donald Blossom, chief of Huntington Beach police department, at an abalone dinner. Guest speaker of the evening was Judge Franklin G. West of Orange County Superior Court. His talk on legal cases of early California jurisprudence which affect California laws of the present, was an informative one, brightened by sparkling humor.

William Sylvester presided over the session, attended by a hundred or more peace officers.

Red Cross Chapter Aids Service Men In Need Of Beds For Week-End Use

Laws will be read again at the next meeting before their final adoption. Home Service committee report as given by Mrs. Charles H. Mann, co-chairman with Mrs. H. D. Newkirk, gave a clear picture of achievements of the past month. Ninety-three cases were acted upon including 48 new cases during the single month. Members made 26 home calls and received 23 telegrams, with an equal number sent. In all four volunteers gave a total of 108 hours of work.

Production figures included 56 knitted garments and 668 sewed garments shipped; 6,402 surgical dressings completed, and a total of 1600 hours work given by 200 workers. Twenty-two staff assistants gave 515 hours to office work and blood donor service; 36 canteen members gave 115 hours, both in blood donor service and assisting in hospitals and small military camps. Seven motor corps members made 134 calls and gave 265 hours of service, while 10 nurses' aides gave 215 hours to local hospital and blood donor service.

This latest announcement was of importance to Miss Iva J. Goddard, newly arrived director of nursing service in Orange county, a guest at the board meeting. She told of the dire need for more nurses' aides, as well as volunteers to join home nursing classes. Her surveys of the county had shown her that at least 300 more are needed in the county as a whole.

IN THE DAYS OF LONG AGO

Extracts from files of The Gazette issued half a century and a quarter ago. These files contain the only authentic history in print of the daily doings of the citizens of Anaheim and Orange County in the days of the pioneers.

25 Years Ago

September 26, 1918

People of this city were shocked Monday morning to learn that David Hamler, one of Anaheim's best known young men, had been drowned at Anaheim Landing on the previous day when making a heroic attempt to rescue three men whose boat had been capsized by a rip tide at the mouth of the bay. A second boat one of its crew being Frank Dyer started to the rescue. This boat was also caught by the tide and capsized, seeing the danger the men were in, Dave, who was in the water at the time, called for a rope. The rope was produced and he accompanied by another man whose name is unknown, started toward the imperiled men, evidently intending to make an attempt to swim through the raging surf. The other man gave up the attempt and returned to shore, all supposed Hamler had also got safely to shore, and it was announced that all men were accounted for, but Erickson was unable to find Hamler. Search was made for him all night and Monday morning at 9 o'clock the body was discovered floating in the bay.

The remains were brought to Anaheim and the funeral was held at Backs & Terry's undertaking parlor yesterday afternoon.

David Hamler was the only son of Mr. and Mrs. Geo. Hamler. He was born in Moline, Ill. Jan. 2, 1888 and came to this city ten years ago. He was married to Miss Mable Gade six years ago and his wife and a three year old daughter survive him. His untimely death is sincerely mourned by the entire community.

Sister Hedwig has arrived from Ukiah, Mendocino county and has taken charge of St. Catherine's academy, being the new sister superior of that educational institution. She succeeds Sister Hyacinth, who for 24 years past has been sister superior of St. Catherine's and goes to Ukiah to be sister superior of a boys academy in that city. Sister Hedwig has 21 Dominican sisters with her in the academy, who are teaching 120 boys, the youngest being an infant of 17 months, whose father has gone to war. Sister Hyacinth has many warm personal friends here who have formed a high regard for her during her long residence, and she takes with her their best wishes for her future welfare in her new location. Sister Hedwig is a lady of fine educational attainments and will no doubt continue the academy up to the high standard of excellence which has characterized it in the past.

Nine graduates of the Anaheim high school have entered Junior college at Fullerton. They are Minnie and Elizabeth Mang, Florence and Mable Meyers, Stanley Falkenstein, Faye Kern, Sara Mattis, Adele Howard, and Katherine Steward.

Mrs. Melrose, assisted by her daughter, Miss Winifred Melrose, entertained at a delightful "500" party on Thursday afternoon at her home on North Philadelphia street. The prizes, drawn work handkerchiefs, were awarded the following ladies in the order named: Mrs. W. J. Cole, Miss Anna Ryan, and Miss Anne Everhardy. At the close of the game the guests were ushered into the dining room where a delicious repast was served by the hostess.

The United States Food Administration, through Mrs. A. J. Lawton, Orange County administrator, has announced that a careful check will hereafter be made of all purchases of sugar for canning. Information clearly showing that the home canning certificate plan has been abused, is the cause of the step. Henceforth every yellow canning slip turned in will be checked and when it is found that one family has secured a large amount of sugar an inspector will be sent to the home to ascertain the amount of preserves that have been put up. When it is found that the stock of preserves does not equal the amount of sugar purchased, prosecutions will follow, it is announced.

Ralph Kemp who has been employed at the Mullinix drug store, has entered the University of Southern California where he is specializing in dentistry. He is within the draft age and will also take military training at the university.

Miss Jessie Boyd, who is attending the state Normal School in Los Angeles, spent Saturday and Sunday with relatives and friends in town.

The Eastern Star chapter initiated six new members at the meeting Monday evening.

Ed Marion went to the Needles on Saturday on a business trip.

50 Years Ago

September 28, 1893

The Board of Trustees met in regular session on Tuesday evening. Present Trustees were: Rust, Pellegrin, Conrad and Schindler. The finance committee recommended that a new lamp be placed in position at the head of the City Hall stairway, the one formerly in use having been taken away by Trustee Pellegrin, to whom it belonged, leaving the stairway in darkness. The report was received and filed and the recommendation approved. The Ordinance Committee submitted several ordinances for passage among them being Ordinance 92, regulating the transportation of sheep, cattle, swine or horses through the principal streets of the city.

Trustee Pellegrin presented an ordinance, which however, was laid aside upon the table and it is doubtful if it comes up again. This ordinance numbered 1893, a thousand points ahead of the current ordinances, would prohibit any person of this city from purchasing goods, wares and merchandise in any outside town when the same may be purchased here. For each offense the guilty parties would be fined in a sum not to exceed \$100 or be imprisoned in the city jail for a period not to exceed three months—a further provision provides that anyone paying more for an article than the same could be purchased here shall be adjudged to be of unsound mind and be incarcerated in an asylum for the feeble-minded. Mr. Pellegrin also tendered his resignation as a city trustee; it seems that a city employee has had the temerity to buy a piano in Los Angeles when he could have purchased the same from Mr. Pellegrin for the same price. The resignation of Pletz James as city treasurer was accepted and H. Cahen appointed in his place.

Oscar Zeyn killed a wild cat while out hunting north of town last Sunday afternoon. The cat was taking it easy up in the limbs of a tree, when Oscar espied it, and having only one charge of small bird shot in his gun, he approached it as near as possible, the cat eying him intently all the while, and when within about twenty feet of it, blazed away and Mr. Cat was no more. He removed the pelt and brought it home as a memento of the eighth wild cat he has killed so far. He informs us the Kraemer reservoir and the flumes on the upper ditch are alive with quail.

The public schools are in an intemperately over crowded condition. Prof. Grogan's room having 56 pupils in it compared to 39 last year, when it was pretty well crowded. More facilities are imperatively necessary. And there should be at least another school room, yet no appropriation has been made for additional teachers, and we shall have to get along as best we can until another building is put up. Next term we should have a high school building to accommodate our rising generation.

H. P. Larsen is at work on a big contract for Col. R. J. Northam on his ranch north of Buena Park. The colonel is about to build a fine residence and put up extensive sheds and warehouses and Mr. Larsen expects to have several months work of it.

Capt. Halpin went over to Santa Ana on Monday to have his bond as the commanding officer of Co. G approved by Judge Tower preparatory to forwarding it to the Adjutant General at Sacramento.

Mrs. M. J. Gardiner, the newly-appointed postmaster of this city is getting her credentials in shape and as soon as they are received in Washington and approved, which will probably be in a month or so, she will take charge of the office here.

As we go to press Eugene Johnson invades the editorial sanctum and brings us as fine a box of peaches as we have seen this season. They are from Mr. Fowler's new orchard below town and speak well not only of the soil of the ranch, but of Eugene's care of the trees as well. Call again Mr. Johnson.

Charles Bailey was in from the Olinda ranch on Tuesday. He has not yet removed to Puente but expects to do so in the near future. He has recently leased 1600 acres of his ranch to be planted to barley next year and thinks of putting in several experimental patches of beets on the ranch next year.

Heavy fogs have prevailed mornings during the week, and yesterday we had the first indications of rain this season. None fell however.

Recent Events in Nearby Communities Summarized in Short News Notes

CITY BUYS BONDS

La Habra—Taking a long step toward amassing La Habra's quota of \$200,000 in War Bond sales in this Third national drive, was the city council's action in applying the city's municipal water company's bond interest and redemption fund to the purchase of bonds. City Treasurer Proud pointed out to the council that the fund now has some \$5,000 with no payments to be made from it before February, by which time routine transfers will take care of any payments for next year.

NEW CLUB YEAR

Orange—Opening the club year with a musical program, Orange Women's club on Monday afternoon in the clubhouse, heard John Raitt, baritone, Pasadena Presbyterian church soloist, and member of a well-known Northern Orange county family. Raitt is at present singing with "The Waltz King" which last week was at Philharmonic auditorium, Los Angeles. Mrs. A. D. Burkett is serving her second year as Women's club president.

More Twenty Five Years Ago

Howard Thurston, who will be remembered as a nephew of Mrs. Henry Adams, with whom he resided while attending school in this city some years ago, has now a commission as second lieutenant in the army. He entered officers' training school at Camp Kearny and is now in South Carolina awaiting orders.

Attorney T. L. McFadden has been taking a vacation, he and his wife spending the time at San Francisco.

Mr. and Mrs. C. A. Criss visited friends at Covina last week and motored over to the March Aviation field, Riverside.

Miss Winifred Erdman, granddaughter of Mr. and Mrs. W. W. Scott, was recently married to First Lieut. Wm. Harvey Hill, of the second Hawaiian infantry.

More Fifty Years Ago

Mr. and Mrs. A. J. Lawton visited with friends in town yesterday. They were guests of Dr. Bailey and family.

The Bible class of St. Michael's Episcopal Church will meet in the church tomorrow afternoon at 2 o'clock.

CITY HALL PURCHASE

San Clemente—The "Spanish Village" of San Clemente now owns its own city hall. The council in its latest session, adopted a resolution accepting the deed to the property which has served as city hall, from its former owner, Walter Bye, of Riverside. At the same time a resolution was passed asking the county board of supervisors to cancel 1943-44 taxes on the property.

MOTOR COACH SERVICE

Newport Beach—Resumption of full motor coach service on the Los Angeles - Huntington Beach - Newport Beach - Balboa line became effective Monday, replacing the partial rail service. The new motor coach schedule provides for the same basic service as has been in effect of eight round trips each weekday, and six round trips on Sundays. The Club car Commodore rail service made its last trip Friday.

ZONING ORDINANCE

Placentia—With a forward look to post-war building, Placentia city council is considering a zoning ordinance that will regulate all construction in the city and protect those desiring to make investments in homes. As proposed, the ordinance would provide zones in the downtown area for business and industrial purposes and restrict certain sections to residences alone. It is hoped that the educational campaign can be completed and the law passed by the first of the coming year.

RED CROSS CHAIRMAN

Brea—Mrs. George Gesme, prominent in American Legion auxiliary, has been appointed to head the production department of Brea Red Cross, succeeding Mrs. Florence Matthews who has gone to Needles, Calif. At Monday's meeting of the executive board, reports showed that production during the past month included 10 lap robes, an equal number of comfort robes, five blouses, five surgical gowns, 10 pillows, 11 hot water bottle covers, and various miscellaneous articles.

AT FIRST SIGN OF A COLD USE 666
666 TABLETS, SALVE, NOSE DROPS

YOU CAN HELP:

Avoid non-essential use of Electricity

The War Production Board has asked us to urge Edison customers to avoid any use of electricity which is not necessary.

Present electric generating capacity, together with the capacity now under construction, is ample to meet all foreseeable electric needs. But it is essential to save the use of electricity wherever possible so as to reduce directly or indirectly the demands for materials, fuel, transportation and manpower.

As a wartime conservation measure—use only the electricity you need.

Figures Are Given On Summer Waste Fat Salvage

Predictions that the Southland's war-time drive for waste fats for ammunition purposes would bog down entirely during the summer weather, were proven to be without foundation this week when figures on August collections were released by Zack J. Farmer, WPB salvage chief for Southern California.

For Southern California came within 64 per cent of its quota by collecting 456,780 pounds of fats, a much higher percentage than had been anticipated. The city of Anaheim had been assigned a quota of 2,167 pounds of waste fat, based on an estimated population of 13,000. While housewives failed to meet this quota they turned in the appreciable amount of 1,346 of the allotted pounds.

Other Northern Orange county communities maintained about the same percentage, although in nearby Buena Park where no quota was assigned, residents turned in 221 pounds of fat. The only community meeting its quota was Laguna Beach, whose 7,350 residents were assigned the amount of 1,225 pounds but who exceeded that quota by exactly 490 pounds. This achievement places "Our Village" on the honor roll of 28 Southland communities which reached or exceeded their quotas for the month, and were cited for a "War job of outstanding excellence."

MINNESOTA PICNIC

Saturday, September 25 has been designated as the date for Southland Gophers of the Minnesota State society to gather in Sylcamore Grove park, Los Angeles, for their annual autumn reunion. George A. Judson, society president, has promised a fine musical program to begin at 2 o'clock after the mid-day basket picnic for which hot coffee will be provided.

University Offers Tuition-Free Technical Courses

Prompted by urgent needs of the War Manpower Commission for men and women in government and industrial work, a series of 150 tuition-free courses will be given by the War Training division of University of Southern California. The majority of these classes, given during the evening, will meet weekly beginning Oct. 11, with extra gasoline applications granted to those attending. Emphasized are courses for women with aptitudes for drawing which include drafting, freehand sketching of airplane parts as well as map drafting. Aviation theory for women is a class for training in the Transport service with the armed forces and commercial lines.

Elementary subjects of food technology and the dehydration of foods for military uses, and vitamin assaying, are listed as well as bacteriology and interpretation of aerial photographs. Inspectors are needed for fields of precision parts, industrial X-ray, textiles used for army materials and petroleum subjects. The choice for men trainees varies from aeronautical engineers work in plastics, mathematics and aircraft instruments to electrical fields and radio leading to studies of radar. Metallurgy, synthetic rubber manufacturing processes, industrial management and production and personnel work are among other classes.

Class applications are now being taken by the S. C. War Training office in the administration building of the campus, open until 9:30 p.m. and may be reached through telephones Richmond 4111 or PRospect 9877 after 5:30 p.m.

This is a family war. Put your War Bond buying through the payroll savings plan on a family plan, which means figure it out yourself.

SHE STILL HAS "THE VOICE WITH A SMILE"

War traffic keeps her busier than ever but she manages to keep calm and pleasant.

She still has "The Voice With a Smile" even when the lights are thick on the Long Distance switchboard and the circuits are crowded. Even when she has asked you to—

"Please limit your call to 5 minutes. Others are waiting."

That's to help everybody get better service and you couldn't ask for a better reason than that.

for big events in the Pacific... fuel for the Navy comes first

The Government asks for your patriotic cooperation in a nationwide program for

CONSERVATION of all fuels and utility services

THE FUEL REQUIREMENTS for war industries and military operations over-seas are increasing enormously. In order to meet them, the Government has launched a sweeping program to pool and conserve the nation's resources in fuels and utility services of all kinds.

This program is of first and immediate importance to the continued successful conduct of the war. Its objectives are far reaching: to conserve manpower, critical materials, coal, petroleum products, transportation, gas, electricity, water and communications.

The whole-hearted, all-out support of all America—including industries, utilities, commercial establishments and private individuals as well—is being asked by the War Production Board's Office of War Utilities.

How does the pooling of all fuels help to win the war?

The pooling and conservation of all fuels and energy resources makes possible the mobilization of fuels of different types for maximum wartime effectiveness and production output. For example, the conservation of natural gas for household use can result in important economies going far beyond the savings of the gas itself—savings in fuel oil, manpower, critical materials and transportation.

How you conserve FUEL OIL for the Navy by saving GAS at home

The natural gas that you find so useful in your home, is the same fuel that is most commonly used in Southern California's industrial plants. On occasion, the demand for house-

hold use is so great that industries have to switch from GAS to their alternate "standby" fuel, which is FUEL OIL.

That's how it comes about that the gas you save in your home allows essential War Industries to use more gas for fuel instead of having to use up limited reserves of fuel oil. And for big events shaping in the Pacific, fuel oil is a MUST for the Navy. By using gas wisely at home—you are contributing to the reserves of fuel oil that the Navy must have to win the war on the Pacific.

"The Navy wants YOU"—to save Fighting Fuel!

You have a vital part in the Government's all-fuel conservation program. In the case of household gas, don't think that the amount you can save is too small to count. Practically everybody in Southern California uses gas; so it's what you save—multiplied by similar savings in over 1,000,000 other patriotic homes that is going to make a difference in the battle of the Pacific.

GAS IS VITAL WAR FUEL... Use it wisely!
When you save GAS at home—you conserve FUEL OIL for the Navy

Accomplishments in Food Conservation Shown By City's First Garden Fair

To Miss Gladys Miller, 560 South Dickel street, went the sweepstakes award of a pressure cooker at Anaheim's first community Garden and Kitchen Fair of last Thursday in Ebell clubhouse. And from the number and variety of fresh and processed fruits and vegetables entered by Miss Miller in the show, and taking a total of 29 blue ribbons, she will know exactly what to do with her prize.

Few events staged in this city have met with more interest, and crowds who thronged the clubhouse all afternoon and evening were duly impressed with what had been accomplished in the community in both producing and conserving the wide variety of foods.

Every method of canning, preserving and dehydrating was exemplified, and each jar bore a neat label telling the process employed, whether cold pack, pressure cooker, open kettle or dehydrator. More than 700 entrants were received, the list including fresh as well as processed fruits and vegetables.

In the fresh fruits and vegetables, Dr. John H. Boege took the most blue ribbons and was rewarded with a sack of fertilizer with which to encourage his garden for his next crops. Mrs. Harry Hathaway's blue ribbons in the canned and processed fruits and vegetables won her the prize of fruit jars in that division. Winning the sweepstakes of course eliminated Miss Miller from divisional competition.

Judging the vegetables and fruits were Dale Griggs, Santa Ana park superintendent, and Jerome Walden, inspector in the county agricultural department. Mrs. Ivan Elliott, Santa Ana, and Mrs. W. L. Everett, Orange, judged the canned goods.

Plans for the garden fair and food show originated with Anaheim Ebell club and later were underwritten by the city council.

Mrs. George Greder was named as general manager with Mrs. C. E. Harbeson representing the city; Rudolph Boysen, park superintendent, W. M. Cory and Miss Frances Liles of the county farm bureau as advisors, with active cooperation of Ebell members generally under presidency of Mrs. Paul H. Demaree.

Of special interest during evening hours were pressure cooker and dehydrator demonstrations arranged by Mrs. L. N. Wissler, food conservation chairman for the city. Mr. and Mrs. Lars Lund cooperated in this event by providing vegetables from their home garden, and fish caught by Mr. Lund, all of which were processed in tin cans according to government regulations.

Aiding Ebell hostesses and the city sponsors in all phases of the fair, were Boy Scouts who distributed preliminary booklets to all home gardeners of the community, and Girl Scouts who assisted in placement of the contributions under Mrs. Melbourne A. Gauer, placement chairman.

Mrs. Demaree headed the group planning the late afternoon tea hour, while committee chairmen were Mrs. Albert Raymond, judges; Mrs. L. E. Middleton, classifications; Mrs. Charles A. Hunt, recording; Mrs. Leo J. Friis, hospitality, and Carrie Lou Sutherland, publicity.

Mrs. A. J. Schutte and Mrs. J. F. Davenport were in charge of dehydrator demonstrations. Supervising the various displays were Mrs. J. E. Walters, peas and beans; Mrs. John Boege, leafy vegetables; Mrs. John Saenger, root crops; Mrs. Charles E. Organ, cucumbers, squash and pumpkins; Mrs. Emma Karlen, miscellaneous vegetables; Mrs. Newman Sanford, melons; Mrs. Fred Weisel, deciduous fruits; Mrs. Cortez Hoskins, tropical fruits.

Mrs. Herbert E. Axup, canned fruits; Mrs. Harry T. Hathaway, canned meats and fish; Mrs. H. G. Harling, canned vegetables; Mrs. John P. Mary Jr., pickles; Mrs. Milton H. Kohne, jams and butters; Mrs. Mark Reagan, jelly.

Newlyweds Are Home From Honeymoon On Escondido Ranch

Returning Sunday from a week's honeymoon spent on the Gregory Eaton ranch at Escondido, Mr. and Mrs. Dan Carl Trabant are remaining temporarily with the new Mrs. Trabant's parents, the Everett Hilltons of 747 North Lemon street, until they determine upon a location here in their home city.

It was on Sunday evening, September 12 that Miss Barbara Mae Hilton became the bride of Dan Carl Trabant at 5 o'clock rites conducted in First Presbyterian church by the Rev. Stanley Frederick George. Great clusters of white dahlias banked the altar and glowed in the soft radiance of many candles. Mrs. Ferrel Smith was at the organ for the wedding marches and as accompanist for the soloists.

Carrie Jacobs Bond's "I Love You Truly" was sung by Miss Doris Hilton, who also took part in the subsequent bridal ceremony as one of her sister's bridesmaids. James Owen Joy sang D'Hardelot's "Because."

Miss Hilton, approaching the altar on the arm of her father by whom she was given in marriage, was charming indeed in her gown of snowy tulle, its long princess lines veiled with the sheer tulle of her full length bridal veil caught cap-wise to her hair with a chaplet of pearls. Her formal bouquet of white roses and baby chrysanthemums was centered with an orchid.

The two bridesmaids, the Misses Doris Hilton and Jean Morse, were gowned alike in frosted organdy of larkspur blue, and carried identical clusters of pink and white asters in colonial arrangement.

Mr. Trabant was assisted by Jack Wilson as best man; Chad Boliek, LaMaar Johnson and Ross Walker, ushers.

When the reception line formed in the blue room after the exchange of vows in a double ring ceremony, parents of the young couple joined the party. Mrs. Hilton wore soft blue crepe and Mrs. Olga Trabant of Fullerton, mother of the bridegroom, was in

lies; Mrs. Herbert Messersmith, preserves and marmalades; Mrs. Virgil Isbell, juices; Mrs. W. G. Head, dehydrated vegetables and fruits.

Fort Sill Wedding Is Announced

It is with a world of friendly interest that Anaheim friends of Mrs. Emma Helen Shoemaker and her daughter, Miss Nancy Shoemaker, have received announcements of the marriage of Miss Shoemaker and Lieut. Garmen O. Aure of the U. S. Army, an event of Wednesday, August 18.

It was a few days in advance of the wedding date selected, that the prospective bride, an employee of the AAFWCTC in Santa Ana, left for Fort Sill, Okla. where her fiancé was about to complete his course in officers' candidate school.

It was in the Army chapel at Fort Sill that the wedding vows were exchanged before one of the chaplains of the Fort.

The Shoemaker home was formerly in this city but later was transferred to Santa Ana. Lieut. Aure, who was stationed with U. S. forces in Alaska before being transferred to officers' training school, is the son of Mrs. Cleo Gullixson of Bode, Ida. He is an alumnus of University of Iowa.

To Those In Service

ON ARMY FURLOUGH

Taking advantage of his two weeks' leave from U. S. Army duties at the Motor Training School Fort Crook, Nebr., Pfc William ("Bill") Hoffman has stepped back into the routine of his former post during his home visit. He arrived last week to visit his mother, Mrs. Martin Talsot, 502 North Claudina street, and is renewing friendships of Union high school and Fullerton junior college days while on furlough.

Army in March and was stationed at Fort Warren, Wyo. until his transfer to the Nebraska post.

VETERANS' WELFARE

To men now serving with the nation's armed forces as well as to veterans of past wars or their dependents, is offered the aid of Orange County Veterans' Welfare department, in meeting and solving their problems. Harry D. Edwards, director of the department, and his staff are located in Room 312, Court House Annex, Santa Ana, where they are prepared to handle, free of any cost, any problems and claims for service men and veterans and their dependents. Attention to facilities of the department has been called by Andrew Jackson Hayman, civilian morale chairman of the 21st District, American Legion.

NURSE IN AIR CORPS

Concluding a short leave spent here with her parents, Mr. and Mrs. William G. Gordon, 652 North Clementine street, Lieut. Jean E. Gordon left yesterday for Salt Lake City to resume her duties as an Army Air Corps nurse stationed at the Salt Lake City base. Lieut. Gordon, who trained at Los Angeles County General hospital, was inducted into Army service on January 28 of the current year, and has been stationed at the Utah base ever since. Mrs. Gordon visited with her daughter in Salt Lake City last June, but this was Lieut. Gordon's first visit home.

floral design jersey. Both wore rosebud corsages.

One of the first duties of the new Mr. and Mrs. Trabant was the cutting of the tiered wedding cake gracing the prettily arranged refreshment table. The process was completed by Mrs. Harry Moore, while presiding at the silver coffee and tea urns were the bride's aunt, Mrs. Gregory Eaton, and Mrs. Hulda Bernicke. Mrs. James Joy had charge of the guest book.

It was appropriate that the wedding should have the Presbyterian church setting, for both young people have been prominent in church activities. Both are graduates of Union high school, and Mr. Trabant is in defense work, and has now resumed his duties with Vultee Aircraft company.

Keene-Zeppenfeld Wedding Will Be Evening Event

Shortly after the arrival of W. Harold Keene from his engineering duties in the Canal Zone with a government construction company, was the issuing of invitations by Mr. and Mrs. Fred Zeppenfeld, 229 East Cypress street, to the wedding of their daughter, Miss Esther Zeppenfeld, and Mr. Keene.

This interesting event is scheduled for tomorrow evening in St. Michael's church whose rector, the Rev. D. Howard Dow, will officiate at the bridal rites.

Miss Zeppenfeld has been complimented at a succession of delightfully planned parties ever since formal announcement of the wedding plans was made early in July. Since arrival of her fiancé, these courtesies have taken the form of enjoyably intimate family parties.

Mr. Keene is at present making his headquarters in Los Nietos with his mother, Mrs. Milo Dickerson. His trip from the Canal Zone was by plane and was uneventful with the exception of reservation difficulties encountered in Mexico City.

Mexico City, he discovered, is teeming with tourists to such an extent that his earliest reservations would mean a stay there of almost a fortnight. However he was fortunate in being met there by one of his friends who wished to remain longer and who exchanged reservations which cut Mr. Keene's stay to only four days. He arrived in the Southland on September 2.

CAPTAIN'S RATING

From the Army Air Base at Biggs Field, Texas, has come news that an Anaheim Army enlistee, James S. Porter, has been advanced in rank from first lieutenant to captain. Capt. Porter is the son of Mr. and Mrs. C. R. Porter of Kattella Road, and is an alumnus of Union high school and Fullerton junior college. He was continuing his college work at University of California when he enlisted in the U. S. Army. He received his commission as second lieutenant in June, 1942, so his advance has been rapid.

IN MERCHANT MARINE

Patrons who have been accustomed to making their meat purchases from L. C. ("Gus") Rold in the meat department of the Alpha Beta store at 406 East Center street, will miss his genial personality. For Rold was to depart today for Portland, Ore. to rejoin the Merchant Marine of which he was a member for many years. In returning to service he will ship as chef in the stewards' department.

What You Buy With WAR BONDS

On Sunday morning as you sit in church and see the vacant places in the choir and wonder where the war has taken the young people from your community you may feel certain that they are attending divine services if circumstance permits.

Chaplains and choral leaders are found on the larger ships and even abroad in the Army centers. Millions of hymnals have been distributed to the men and women of all services and you may rest assured that a portion of the savings you are placing into War Bonds is used for their spiritual welfare.

Young People Make Announcement Of Wedding In Yuma

Announcement of the recent wedding of Miss Frieda Schmidig, daughter of Mr. and Mrs. Fred Schmidig of the Cypress area, and Emil Kachar of El Toro Marine Base, provided a pleasant surprise for friends of the young people.

The wedding took place on Saturday, September 11 when the two slipped away quietly to Yuma and exchanged their vows before Judge Lutes of the little Arizona Gletna Green. Accompanying them were Miss Marie Roberson, schoolyard friend of Miss Schmidig, and James A. Beck, also of the Marine Base, who had been a school friend of Mr. Kachar all through their boyhood in Mich.

The new Mrs. Kachar will remain with her parents for the duration for her bridegroom is awaiting his orders to overseas duty at any time. He is the son of Mr. and Mrs. Stanley Kachar of Monroe, Mich., and had his schooling in that city. His bride completed Cypress grammar school and Anaheim Union high school where she was a member of the June graduating class this year.

ARE YOUR CHRISTMAS GIFTS READY for mailing to men overseas? Above, wives of men who are serving abroad are rushing the packing of more than eight tons of gifts going from the Bank of America to over 3000 employees now with the armed forces. Each package contains a selection of pocket-size books, playing cards, razor blades, chewing gum, barracks-slippers, a sturdy knife, a specially compiled volume of news and pictures of "home happenings" since Pearl Harbor, and a greeting card from A. P. Giannini, founder of the bank.

Packages destined overseas must be mailed before Oct. 15 for Army personnel, and before Nov. 1 for Navy, Coast Guard and Marine Personnel.

MRS. BROWN'S "BOND" HIT HERE!

Mrs. Brown is a Bond-hardier

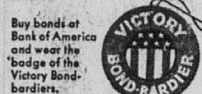

Mrs. Brown is a peace-loving lady who lives in a small California town. But Mrs. Brown—and Mr. Brown—with their son overseas are fighting mad. That's why they're buying bonds with every cent they can spare.

And look what one of Mrs. Brown's bonds—which paid for a bomb—did to one of Hitler's tanks!

INVEST THE REST IN WAR BONDS

Join the 10 392 Bank of America men and women in their great drive to sell another 300 million dollars in bonds between August 1, 1943 and January 31, 1944. After you have set aside the money you need for essentials, invest the rest in War Bonds!

"RISE TO REMARK"

By CONGRESSMAN JOHN PHILLIPS

When this appears in print, the Congressman will be safely across the state line, and back in Washington. It may be just as well, for this week the column departs from its customary style, and offers a play; in fact, a play in two acts, first act this week and next, second act the following week. Three weeks of "drama"! You wouldn't begrudge me, would you, this little relief after two months of "recess," in which I've had to work harder than in most campaigns? The title of the play is:

"WASHINGTON PRESCRIPTION"

The players are: B. O. Cratte, familiarly known as "B. O." to those who work for him, and if that reminds you of a newspaper advertisement, that will be O.K. with the employees too;

Jenkins, the plant manager; and Judge Freeland, who believes in all that his name implies.

Office employees and court attaches supply atmosphere but do not have speaking parts.

(All of the characters in this playlet are fictitious and if you see any resemblance to people, or to groups of people, living or dead, why go ahead and see it, this is still a free country. If I can find out who said "Oh yeah" just then I'll make him stay after the final curtain and read Dr. Galbraith's new book on "Modern Competition and Business Policy".)

In act one, the scene is laid in the office of Mr. Cratte. He is a youngish man, stocky, with dark rimmed glasses, and the present popular two-toned jacket. He smokes the inevitable cigarette of his group, and does not particularly enjoy it. It makes him cough, but he'd feel as undressed without it as without his fraternity pin. Jenkins, an older man, quiet, experienced, is sitting across the table.

It is the office of the Left Handed Monkey Wrench Corporation of America. Since Mr. Cratte joined the firm, following the death of Mr. Henry Simian, who founded the company and gave his name to the type of wrench manufactured, it is now by order (which Mr. Cratte speaks of as a "directive") referred to as the "LHMWCA." The less inhibited employees call it the "Lame Wica". The time is 1496.

Cratte speaks: Now over here, Jenkins, on this plan, we'll put the new manufacturing building. Is that clear?

Jenkins: Entirely clear, B. O., although I still feel, as I said at the board meeting, that we can produce all we can sell, in the present plant. However, the directors have approved the expansion.

Cratte continues: That'll carry the buildings down to the point I have marked.

Jenkins shows surprise: Wait a minute, B. O., the building program approved by the directors wouldn't take that much space.

Cratte: I've decided to enlarge it. And over here, we'll plan the second set of buildings, and I think we'll let the contracts for all of them at the same time.

Jenkins: Do I know about these other buildings?

Cratte: They're for the right-handed monkey wrenches I'm planning to add to the line.

Jenkins, after some hesitation: Well, I'll tell you B. O., I've been with this company since it was a pup. Old Hank Simian used to call it the "left-handed monkey wrench" and he made quite a name for it, but he didn't object when the trade turned it over and sold it as a right-handed monkey wrench. He let the sales department push that idea. One factory will really do for us. Also the directors only approved the money for one small addition.

Cratte, somewhat coldly: I'm sorry Jenkins that you have this attitude. My program calls for two factories, and as large as I've indicated. I'm afraid you haven't the right economic and social viewpoint.

Jenkins, quietly: Maybe not B. O., but also maybe the company hasn't the money either.

(Act 1 continues next week)

Advice Is Offered On Pest Control For Tomato Plants

Tomato fields in which the last pick has been made should be worked up to destroy the vines since they will harbor the tomato mite and help to build up the population for next year's crop," said W. M. Cory, assistant farm advisor.

This is only the second year in which this pest has been a problem to tomato growers in Orange county. In this short time it has appeared in practically every tomato field in the county. Even tomato plants in victory gardens, isolated from commercial plantings, were not passed up by the insect. It would therefore appear imperative for all growers to practice such measures as will reduce the population of the mite carried over through the winter, and to begin control measures before blossoming of next year's crop.

The mite is a microscopic insect that feeds on the leaves and stems. It kills the leaves and causes the stems to turn a greasy, russet brown. The damage is first apparent at the base of the plant and progresses out toward the tips.

Legion Officers Are Installed By County Drill Team

(Continued from page 1)

State, J. C. Thatcher; child welfare, Robert Gregg; community betterment, Carleton Starr; conservation, Don Ramella; disaster relief, William Hall; graves registration and memorial services, C. J. Mauerhan; flags, David Proud; funerals, Clair Liebhart; junior baseball, V. A. Ruedy; kitchen, Fred Baumberger.

Membership, David Proud; national defense, L. N. Wisser; publicity, Jimmy Heffron; rehabilitation, Roy Helsing; selectees' breakfasts, K. B. Rigby; schools, E. C. Westenkuehler; sick calls, Ray Perry; veterans' relief, Henry DuBois.

W. P. Webb was named as service officer, and Charles E. Griffith, Ralph Cox and Alphonse Salta as a house committee, with L. N. Wisser to work in cooperation with the Red Cross in securing beds for servicemen. The auditing committee was named as C. E. Griffith, Milton Kohne and J. Ben Kaulbars.

Commander Baxter, who entered the service for the First World War directly from this city, was attached to the Medical Corps and served at the Presidio in San Francisco and at Vancouver barracks in Washington. In the intervening years he has been connected with the local post office, serving as city carrier for many years and as a rural carrier for the past half dozen years.

City School Registration Near That Of Last Year

(Continued from page 1)

At Broadway school where Blanche G. Daniels is principal, pupil registration was 164. Fremont, Wilbur H. Bonney, principal, registered 267; Benjamin Franklin, Ruth Williams, principal, 261; Lincoln, P. S. Dogne, principal, 159; George Washington, Volney O. Elliott, principal, 207; La Palma, Fannie Pritchett, principal, 105, and Horace Mann, B. F. Mattox, principal, 172.

Union high school class schedules will be materially affected by the war industrial situation, and Principal Demaree and his faculty members have arranged a class schedule to conform to existing conditions. The school will operate on a half day basis so long as the need continues for young people in war industries. Three classes will be held each morning period, the study subject alternating day by day. In this way students will be able to maintain their studies and important war work as well.

Enthusiasm seemed to distinguish Monday's opening day, when

Case Finding Clinic Set For Tuesday

The quarterly diagnostic and consultation clinic for crippled children will be held Tuesday at the Orange County Health department headquarters on the second floor of the courthouse annex in Santa Ana. Dr. Donald W. Blanche, orthopedic surgeon of Los Angeles, will be examining special cases. Early appointment for the clinic should be made through the Health department. Children up to 21 years of age will be accepted for examination.

Young people were greeted by Principal Demaree in a short talk. He pointed out the many current problems that can be solved only by team work on the part of the student body and faculty alike. Well received was his suggestion that the student body should adopt the slogan of "Fight to the Finish" chosen by the faculty at its first meeting of the school year.

Introduction of the student body commission was an important feature of the opening assembly Monday. Officers had been elected to their posts before the closing of the school year in June, and were prepared to assume their several duties.

Headed by Frank Kellogg Jr., the student body commission includes also Max Noller, vice-president, and Becky Kahlen, secretary with the various commissioners as follows: Julie Schaffer, finance; Jim Davis, boys' athletics; Barbara Freese, girls' athletics; Ude Bauer, student affairs; Patty Arnold, safety and welfare.

Opportunities Are Offered Women Enlisting In WACS

Mary and varied are the opportunities opened in the new Women's Army for training in special lines for WACS who are now enlisting for service, according to information from the WAC Recruiting office in Los Angeles.

The demand for WAC personnel for foreign service is increasing and women interested in serving their country overseas, are urged to join the WACS at once. Needs for the foreign personnel will be met through drafts on WAC training centers and units in the field, expressed in terms of specification serial numbers.

Captain Madelyn Miller Jennings, WAC executive officer for the Southern California area, has emphasized the need for women overseas. Major General J. A. Ulio, of the war department, has issued an order to generals of commands to which WAC units are assigned, to forward to headquarters names of officers and outstanding enlistees who have the mature judgment, emotional stability, character, health and stamina, to accompany our fighting units overseas.

More than 650 types of jobs are offered women in Army service at the same rate of pay received by men of equal rank. Just now there is a need for cooks, and WACS with an aptitude for cooking are offered a special course in the Bakers and Cooks school at Fort Oglethorpe, Ga., in the Third WAC Training Center.

Any excuse you can give for not upping your payroll savings will please Hitler, Hirohito and puppet Mussolini.

Study of Diseases Of Heart Planned By TB Association

Plans whereby Orange County Tuberculosis and Health association will launch a program for the study and control also of heart disease, were furthered last week when association directors were addressed by Miss Marjorie Edwards of San Francisco, director of the newly created heart division of California TB association.

Mrs. Edwards spoke at the directors' meeting conducted by President Linton T. Simmons in the county headquarters in Santa Ana. Later she gave virtually the same talk before county public health and school nurses assembled in the courthouse annex by Miss Isabel Durgan, supervising nurse of the county health department.

Study of heart diseases long pursued by the California Heart association, has been advanced since the group's recent amalgamation with the state TB association, Miss Edwards explained. She told how the latter association has established a division of heart disease financed with Christmas Seal funds, and how it met a two-year grant from Columbia Foundation for a health education program.

Local heart programs will be set up in connection with tuberculosis programs wherever possible she stated. In Orange county the heart program will be under guidance of Dr. J. Luther Maroon, Santa Ana cardiologist, according to Mrs. Homer G. Ames of this city, secretary to the TB association. Mrs. Ames explains that lay members may assist in this program to be advanced by the medical group which will include six other county medical members of California Heart association.

DRY LAND LAUNCHING

Evelyn Keyes, the actress, has the unique distinction of having been mistress of ceremonies at the only dry land "launching" in the country. When a Los Angeles street car was repainted for Navy recruiting purposes, she broke a bottle of California champagne over its blunt nose and christened it the "U. S. Recruiter."

NO WINDSHIELD WIPERS

Windshield wipers will not be needed on postwar vehicles because of new type glass now being manufactured. Scientists have made this prediction on the premise that the new glass contains no silica, so that rain or snow falling on it will not obscure the vision.

THE 3RD WAR LOAN DRIVE IS ON!

BACK THE ATTACK WITH WAR BONDS

3RD WAR LOAN DRIVE - FOR INVASION

Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA \$100 War Bond in September. That's in addition

to your regular War Bond purchases. Invest more than \$100—a lot more—if you possibly can.

The job is big. Everyone must do his full share if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

Today—your country looks to you to back the invasion

The big drive is on! As the tempo of the war increases... as our fighting forces go all-out for INVASION, we folks back home must mobilize in their support.

And that's what the 3rd War Loan Drive is for!

To reach our national quota everyone who possibly can must invest in at least one EXTRA \$100 War Bond during the drive. AT LEAST \$100. More if you can. That's in addition to your regular War Bond subscription. Invest out of your income... invest out of accumulated funds. Invest every dollar you can. This is total war and everyone must do his full share!

You know all about War Bonds. You know that every penny comes back to you

with generous interest. That War Bonds are the safest investment in the world. That they help secure your future... hasten Victory. So now—today—back the attack—with War Bonds.

Safest Investments in the World

United States War Savings Bonds Series "E"; gives you back \$4 for every \$3 when the bond matures. Interest: 2.9% a year, compounded semiannually, if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1,000. Redemption: Anytime 60 days after issue date. Price: 75% of maturity value.

2 1/2% Treasury Bonds of 1964-1969; readily marketable, acceptable as bank collateral. Redeemable at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated September 15, 1943; due December 15, 1969. Denominations: \$500, 1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. Price: par and accrued interest.

FOR VICTORY

Lest We Forget

Today thousands of Southern California men are fighting in far distant corners of the world—

Battling in tropical Pacific jungles!

Fighting on the Mediterranean front!

In Australia, the Solomons, New Guinea, New Hebrides, New Zealand, Africa, England—

Our brave fighting men are ready to make the supreme sacrifice for home and country—

FOR YOU! They are fighting for YOU! We must not forget!

It's almost Christmas time. Know what Christmas means when you're thousands of miles from home? Tired, lonely and dispirited?

"Oh, for a Christmas package from home," whisper our heroic armed forces, fighting for YOUR safety and liberty—far away across seas.

"A CHRISTMAS PACKAGE FOR ME!"

That's what thousands of Southern California's A.E.F. will shout happily this Christmastide when our packages arrive.

Parcel Instructions

Your package must not weigh over five pounds.

Your package must not be more than 15 inches in length or 36 inches in length and girth combined.

Gifts should be marked "Christmas parcel."

The parcel must be well packed, in a container of wood, metal, or solid fiber board or strong double-faced corrugated fiber board, or strong fully telescoping cardboard boxes. Fiber board or cardboard must be securely wrapped in strong paper and tied with twine.

NO perishable goods, intoxicants, inflammable materials such as matches or lighter fluids, are permitted.

Razors and knives must have their points protected.

Sender's name and address may be placed on outside of package.

Christmas stickers resembling postage stamps are NOT permissible on outside of parcels.

PASTOR FINDS HOME

The Rev. Al Casebeer, who arrived a few weeks ago to take the pastorate of First Church of Christ, has finally succeeded in finding a home. He has taken the property at 123 Cherry street, soon to be vacated by Mr. and Mrs. E. D. Anderson who are moving to Long Beach. There Mrs. Casebeer and their young daughters, Mary Louise and Lois Mae, will join him by the first of October.

Music will be provided by mixed and male quartets. In the evening at 7:30, the Rev. James B. Abbott, church pastor, will preach on "It's Everybody's Business." George E. Wheeler is superintendent of the Bible school, meeting at 9:45 a.m. Junior church will be at 6:30 p.m. also the Young People's Hour.

CHURCH OF CHRIST

The Rev. L. Arnold Watson, pastor of Church of Christ which meets in Ebell auditorium, will preach Sunday at 11 a.m. and 7 p.m. Bible school will convene at 10 a.m.

CHRISTIAN SCIENCE

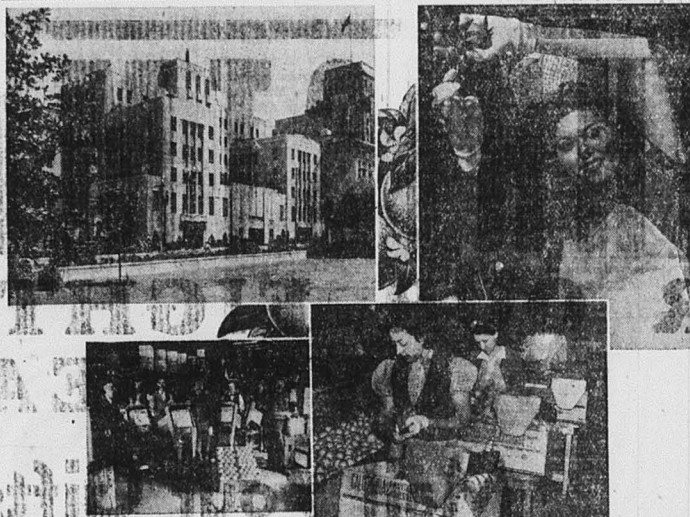

"Reality" will be Sunday's lesson-sermon subject in all Churches of Christ. Scientist and the Golden Text from Isaiah will be "Since the beginning of the world men have not heard, nor perceived by the ear, neither hath the eye seen, O God, beside thee, what he hath prepared for him that waiteth for him." In a selection from "Science and Health with Key to the Scriptures" Mary Baker writes: "The physical healing of Christian Science results now, as in Jesus' time, from the operation of divine Principle, before which sin and disease lose their reality in human consciousness and disappear as naturally and as necessarily as darkness gives place to light and sin to reformation."

WHITE TEMPLE METHODIST

The Rev. Thomas L. Burden, pastor of White Temple Methodist church has announced that Sunday services at 10:45 a.m. will feature a former pastor of the church, Dr. Ray M. Hacker, whose sermon subject will be "The Church and Chivalry." Special music by the vested choir will be an additional feature. Homecoming and Sunday School Rally day will be featured all day.

The Axis Sleeps at Night. Don't stop your War Bond Payroll Savings Plan. Every soldier is a 100 percent. Figure it out yourself.

Producers Cooperative Marks 50th Year

The fiftieth year as a citrus marketing cooperative is being observed this fall by the California Fruit Growers Exchange, one of the largest and most successful producer cooperatives in the country. Founded in 1893 when the California citrus industry shipped less than 6000 cars of fruit per year, the Exchange has grown constantly and in 1943 shipped 75% of the California-Arizona total of 11,000 cars of oranges, lemons and grapefruit. Under the trade name "Sunkist", the first grade fruit of Exchange shippers has earned world wide recognition. Showdown in the central office in Los Angeles while immediately below is a packing house scene of the day 90's. Woman's place in California citrus grows is shown in the pictures of the attractive orange picker and packers.

Conference Head New Walnut Shaker Will Address Free Methodists

One of the outstanding ministers of the Free Methodist denomination, the Rev. E. P. Boyd, conference superintendent, will conduct morning services at 11 o'clock Sunday, in Anaheim Free Methodist church.

The church pastor, James B. Abbott, and his congregation are prepared to accord cordial welcome to their distinguished guest, special music has been planned to include singing by both mixed and male quartets.

Now living in Los Angeles, the Rev. Mr. Boyd formerly held pastorates in Greenville, Ill. and Seattle, Wash. At the annual conference of the church held in July, he was returned to his second term as conference superintendent. In June he attended General Conference held in Winona Lake, Ind., and preached at the opening session.

California Farms Pay Dividends

In a report issued by the research department of California State Chamber of Commerce, it was revealed that the state's farmers and livestock producers received the sum of \$478,755,000 in payment for their products in the first five months of 1943.

This was an increase of nearly 42 per cent over the corresponding five months a year ago, as compared with a 36 per cent increase for the United States as a whole. Cash farm income from California crops during the same period showed a 57 per cent increase over 1942, and totaled \$289,746,000.

New Walnut Shaker Being Tested In Anaheim Groves

Anaheim walnut groves are numbered among three Orange county areas, including also Santa Ana and the Irvine district, where field tests are in progress this week to determine the adaptability of the newly devised walnut tree shaker to Orange county walnut orchard conditions.

Tests are being made by growers in cooperation with the office of County Farm Advisor Harold E. Wahlberg. The latter with Dr. Arthur Davey, pomologist at University Farm, are making test counts and observations on the percentage of immature "stick-tights" shaken from the tree at various intensities of shaking.

The first mechanical shaker to be used in this country was constructed by the Irvine company. According to Farm Advisor Wahlberg it appears to be a solution to the present shortage of labor in the county groves. But since it is an entirely new venture there are many problems to be considered and worked out.

The present series of field tests will help answer some of these problems it is believed since they are being made on both budded and seedling trees, on various soil types, and at different periods of maturity. Similar surveys are to be made by the Agriculture Extension Service in most of California's walnut producing areas.

Figures for last year show that nearly 60 per cent of the nation's citrus fruits were produced in California and that the state produced the nation's supply of olives and lemons. During the one year California producers received an income of \$202,264,000 from vegetables and truck crops.

Toastmasters Will Change Schedule Under New Regime

Plans for stepping up Anaheim Toastmaster activities shared interest with election of officers when club members met last night in Anaheim Building and Loan association headquarters for an important business session.

Giving first attention to election matters, members chose Richard Clowes, Loara school principal, for the presidency, succeeding LeRoy Ater, local rancher and poultryman. Leo Oden was elected vice-president; Royal Marten was re-elected secretary-treasurer; J. Knutzen Jr., sergeant-at-arms, and Leonard Schwacofer returned as deputy governor, official representative of the club in area and district affairs.

As first move in stepping up their activities, Toastmasters will meet each Tuesday night at 6:30 in the Parker House (formerly the Marigold cafe). Reason for this was expressed by LeRoy Ater as a means of preparation to meet steadily increasing demand for speakers, especially for the U. S. Treasury Department.

Toastmasters have set up their own speakers' bureau in Los Angeles, the only one of its kind in the country. Since the "Day of Infamy" at Pearl Harbor they have provided approximately 4000 speakers for such patriotic purposes as War Bond campaigns, U. S. O., Navy relief, etc.

County Will Invest Million Dollars In War Bond Drive

Tuesday's meeting of Orange county board of supervisors was distinguished by instructions given County Treasurer Harvey A. Gardner, to invest a cool million of county funds in Series C War Bonds.

This decision will affect each community, for use of county funds for the purpose will be prorated to individual subdivisions taking part in the campaign, and thus will give each one assistance (roughly computed at 10 per cent) in reaching its assigned quota.

Gardner has explained that the Series C Bonds were ordered purchased because of their liquidity. They may be redeemed after six months at six-tenths of one per cent interest, but have a three year maturity period. Interest at maturity is 1.07 per cent.

Further announcement was made by Gardner of the purchase of \$49,000 of Series C Bonds for Orange elementary school district, money for the purchase having been taken from the district's accumulative fund.

Fruit Growers Will Celebrate At Anniversary Event

Of interest to orange growers as well as the various citrus industries of the Anaheim area are plans for celebration of the 50th anniversary of California's Fruit Growers' Exchange to be staged Wednesday, Oct. 6 in Los Angeles.

Opening the all-day program will be a Spanish Fiesta scene to be given at 10 a.m. in Philharmonic auditorium, Fifth and Olive streets, when music and dancing of California's early days will be presented. A quartet of the Gay Nineties will follow as appropriate introduction to the staging of a typical board meeting of those

President Charles C. Teague will present the little group of veteran growers who joined the Exchange when it was organized a half century ago and have remained Sunkist growers throughout the intervening years.

Following this will be the regular weekly meeting of Exchange board of directors, which will be held on the Philharmonic stage and will afford the audience an opportunity to compare the present with the past. Among features of the session will be reports by General Manager Paul S. Armstrong, and Sunkist Sales Manager T. H. Powell.

Climaxing the morning program will be an address on "Cooperation in Agriculture" by Robert G. Sproul, University of California president. Afternoon hours will be given over to open house festivities in the Sunkist building.

Ration Coupon Dates and Data

Four stamps in the War Ration Book 1 will continue good until Oct. 31, and are stamps 15, 16 and 14, good for five pounds of sugar each, and stamp 18 good for a pair of shoes.

In War Ration Book 2, blue stamps U, V and W will be good through Oct. 20 for purchase of canned, frozen and certain dehydrated foods, while red stamps U, V and W may be used in purchasing meat, canned fish, most edible oils and canned milk through Oct. 20.

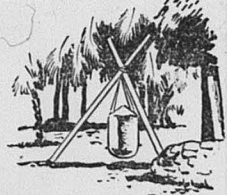

Brown stamps in Book 3 for the purchase of the former red stamp products are A and B through Oct. 2; C from Sept. 26 to Oct. 30; D from Oct. 3 to 30; E from Oct. 10 to 30, and F from Oct. 17 to 30.

In Gas Ration books, coupon B became good yesterday to remain negotiable for four gallons of gasoline each until Nov. 21. In the matter of tire inspections, A book holders are reminded that their second inspection must be made before Sept. 30. B book holders must have their third inspection before Oct. 31, while deadline for fourth inspection for C book holders is Nov. 30.

What You Buy With WAR BONDS

Water Camel

Thirst is one enemy of armies and navies that may be frustrated by a generous supply of water. Typhus, another dreaded plague is another enemy that must be subdued in Africa, in the jungle islands of the Pacific.

So the "Lister Bag," more often called the "water camel," or just "camel," is used. The "Lister Bag" is a khaki colored canvas bag having a capacity of about 30 gallons. It will require many War Bonds to provide enough "camels" for our fighting forces at home and abroad. Yours too! "Back the attack with War Bonds." U. S. Treasury Department

Southern California Telephone Co.

is employing women and telephone operators on a full or part time basis. Telephone employees serve their country in war or in peace. Wage increases regularly. Steady employment. Job security. Pleasant working conditions and associates. Opportunity for advancement. Vacations with pay. School girls 16 years of age and over may work part time during vacation season. American citizens. Christian Science Reading Room
North Philadelphia Street
Anaheim, California

Women at Work for a Railroad at War

America needs millions of women to take over war jobs... to stay with those jobs... to help speed the day when our fighting men will return victorious!

Santa Fe women are answering this call all along the line. Right now thousands of Santa Fe women are doing war-vital work to "keep 'em rolling." Many are pitching into "unglamorous" jobs... greasing engines, operating turntables, welding shovels, working in blacksmith shops,

and cleaning roller bearings. They take pride in their work, too! Many of these women have husbands, sweethearts, brothers or sons in the armed forces. Many came to work to replace a Santa Fe relative who had been called into service. Others took jobs because they knew womanpower must step in when manpower goes to war.

☆ We of the Santa Fe salute these women who know that what they are doing is vital to Victory!
