O BLONG VIEWS

(From an Egg-Shaped Head)
By WALDO HUNTER, P.S.S.

✔ IF ONE listens to the radio he will sooner or later get the idea that the country is writhing in the grip of national hysteria over the highly touted Salk polio vaccine.

They even bring it up at White House press conferences. You would think that the Formosan trouble is just "another one of those things".

If everyone would shut up concerning the vaccine, if the newspapers, radio and television would stop trying to manufacture a money-making deal out of it, we all would probably be better off.

Of course, the big pharmaceutical concerns are as innocent as the lamb in the desi. They would do no wrong.

All I know is, I would like to tune in the radio and hear something on the newscasts not concerning the polio vaccine.

It makes me a little sick to the stomach. Could it be polio?

●

✔ WELL, WE PUT in a lawn Tuesday evening about 6 o'clock. It was quite an experience. The neighbor and his wife stood on their side of the line with hands on hips scrutinizing the operation with just a little less circumspection than Sherlock Holmes examining the skull of a murder victim.

Then there were little boys, girls, and dogs scurrying around. Why must it always be thus?

While spreading the fertilizer after broadcasting the seed, I was accosted by the neighbor who smirked: "Well, you sure do a good job of spreading it".

He is a salesman for modern furniture.

Does a pretty good job of it himself.

●

✔ TRANSPLANTED (and flourishing) Oklahomans will flock to Bixby Park in Long Beach this Sunday with well-filled lunch hampers for their annual picnic.

Bixby Park will probably contain more Sooners on this day than the City of Tulsa on an ordinary day.

No Texans (?) allowed, suh!

●

✔ THE INTERNATIONAL Typographical Union can now announce that it has signed a contract with the Garden Grove News, one of Orange county's most thriving publications.

This means that all members of the composing room staff are members of the second oldest and one of the finest craft unions in existence.

The ITU maintains a home for pensioned printers and hospital at Colorado Springs, Col., which for efficiency of administration, beauty and all around practicality is regarded as second to none in the world.

And it is all paid for by union printers. The ITU's pension is also paid 100% by its members. Unlike other unions, it does not demand that the employer kick into a pension fund.

We congratulate the Garden Grove News on reaching acoon with the ITU which has long been regarded as an organization of far higher calibre than the run-of-the-mill labor organizations.

●

✔ TOMORROW IS Friday, the 13th, when a lot of us "civilized" Americans will practice voodoo.

Some of us will throw salt over our left shoulders to ward off evil spirits. Some will go around knocking on wood. Some will make the mystic sign when they see a black cat.

And still others, for fear that misfortune will hit them on that dreaded 13th, will stay in bed all day.

Seems like a pretty good idea at that!

●

✔ GARDEN GROVE, residents Tuesday went to the polls in droves to reject by a majority of some 350 votes a proposed plan to incorporate.

During the big "fight" preceding the election, proponents of incorporation brought up the argument that if the citizens didn't incorporate their town, Anaheim would annex it.

This seems pretty far fetched but in a community hassle the gullible will listen to anything.

I don't know what Anaheim would do with Garden Grove, when it is in the throes of growing pains right here in its own back yard.

What I'm afeared of is that Los Angeles will annex Anaheim.

The Merriweather Home in Orange will be open for a public tour on Sunday, May 15, from 2-5, sponsored by the St. Agnes Guild of St. Michael's Episcopal church. Tickets are available from members.

St. Boniface P-TA will meet at St. Boniface hall at 1 p.m., on Wednesday, May 18.

Anaheim Girl Picked as State Delegate to Camp

For the third successive year an Anaheim Girl Scout has been chosen to be one of the four California girls attending All States Camp at Cody, Wyoming. Joanne McFarland is representative this year.

Joanne is a junior at Anaheim Union High school and the daughter of Mrs. Roberta McFarland, executive director of Anaheim Girl Scouts. The girl was selected in open competition by a national committee.

Two other County senior Scouts were given honors when the senior selections committee, a group of Anaheim civic leaders, chose them to represent the local council at the Anaheim Region XII camp, Barbara May, sophomore at Marywood High school, Anaheim, and daughter of Mr. and Mrs. Don May, was chosen with Miss Nancy Dutzi, sophomore at Mater Dei High school, Santa Ana, and daughter of Mr. and Mrs. J. F. Dutzi.

Northern County Children's Home Society Meets

The Northern Orange County Chapter of the Children's Home Society held a luncheon-business meeting on Thursday, May 5, in the home of Mrs. C. B. Neighbors, 7921 S. Euclid Ave., with Mrs. Howard Loudon and Mrs. James Carter as co-hostesses.

"The national trend in regard to adoption" was ably discussed by Clyde Getz, executive director of the Children's Home Society of California. Getz has been in social work for almost 25 years and spoke for the first time in this area.

Mrs. Samuel Gendel presided and introduced Mrs. Frederick Rusch, charter president, who installed officers for 1955-56. Mrs. Kenton Wines was installed in the presidency with Mrs. Jack Royer, vice-president; Mrs. Robert Loomis, secretary and Mrs. Joseph Fahey, treasurer.

Mrs. Charles A. Peterson, chairman of the Magnolia Ball, outlined plans for the affair which is to be held on June 3 at the Balboa Bay club.

Judge Tiday Summoned To National Capitol

Judge Ronald Tiday of Anaheim-Fullerton municipal court was called to Washington, D. C., earlier this week in his capacity as lieutenant-commander in the Naval Reserve. During his three-day absence, his bench was occuped by Judge Howard Cameron of the Santa Ana-Orange court.

SC's Track, Field Squad is Strong

SC's track and field forces converge on Fresno Saturday evening for the 29 edition of the West Coast Relays with Trojan relay teams favored to win or be runnerup in four of the five open relay events plus the usual great field strength which should again pace the Trojans to victory in the Raisin City carnival.

Last year Troy took the 440-880 and mile relays and Jess Mortensen's team figures to win the short ones again though the combinations won't be nearly as strong. The mile team should whip all of its collegiate foes but doesn't have the balance to cope with the Los Angeles Athletic club team that features Jim Lea on the anchor leg.

Christian Church Convention will Establish Record

The largest convention ever held in Orange county will be held in Orange from July 20 to 24, Gene White, president of the Orange Chamber of Commerce, announced today. The 67th annual convention of Christian churches will open at that time in Orange and plans are being made to welcome 7,500 delegates to the city, White explained.

Plans were completed at a recent meeting with R. W. Blackburn, president of the Christian convention, Dr. George N. Reeves, president of Chapman college, and Gerrit Stuurmans, secretary-manager of the Orange Chamber of Commerce. The meeting was held at Chapman college, where the convention will be held.

Blackburn, prominent lay leader in the Christian church and past president of the California Farm Bureau Federation, explained that arrangements are being made to accommodate over 2,000 delegates traveling from a distance in hotels, motels and private homes, not only in Orange, but in nearby communities such as Santa Ana, Fullerton, Garden Grove, Costa Mesa, Anaheim, and the Newport-Balboa area.

Sessions during the week will be held in the college auditorium and the larger session on Saturday and Sunday evenings will be held in the athletic stadium on the College campus. Dr. Reeves pointed out that the $50,000 remodeling program was currently underway on the auditorium, is being speeded up, and is being given priority in the more than $250,000 reconstruction program for the entire college.

The original conventions for Christian Churches in Southern California were held in tent meetings in Norwalk and some were held in Los Angeles. During the past years, however, the conventions have been held in Long Beach. This marks the first time the convention has been held in Orange county and delegates from Christian churches in Anaheim and vicinity will attend.

PHONE COMPANY STARTS LARGEST CONSTRUCTION

One of the largest telephone construction programs ever undertaken in Southern California starts in Anaheim this week.

Aerial and underground cable and conduit projects totaling $750,000 will be completed in the exchange within the next six months, according to Herb Perry, manager of Pacific Telephone.

The outside plant projects involve a total of 290,000 duct feet of tile conduit to be placed, underground; and 200 million conduit feet of wire in cable—enough to stretch from here to Europe and back five times.

Two dozen different projects will be underway simultaneously this summer, the manager said. He outlined a few of the largest as follows:

Along Euclid, from Lincoln south of Katella.

Along Brookhurst, from Crescent south to Ball.

Along Center, from Lemon east to Placentia.

Along La Palma from Lemon west to Kenmore.

"This huge expansion program will continue," Perry said "to provide for the tremendously growing communications system here."

Tells Import of Salvage Articles

Salvage articles in Anaheim closets and garages can help salvage the lives of homeless and handicapped men who seek aid at the Salvation Army Social Service Center that serves this area.

The articles will be sought during the annual Salvage Week campaign here May 23-28. They will be collected by Salvation Army Red Shield trucks and reconditioned in workshops of the social service center.

The process will provide a vital program of social rehabilitation for hundreds of persons. Last year's donations of castoff articles enabled the center to provide 268,550 hours of occupational therapy, 70,160 meals and 20,150 lodgings.

Brigadier William J. Parkins, manager of the center, said the program requires a constant inflow of usable materials such as clothing, shoes, furniture, dishes, mattresses, bedding, kitchen utensils, home appliances, silverware, stoves, radios, rags, rugs, books and bric-a-brac.

He urged local residents to telephone KEystone 5-4631 for a Red Shield truck during the campaign.

City Official Warns Population Growth May Cause Doubling of Police Force

By the time Disneyland opens in July it will have been necessary for Anaheim to double its police force to handle the traffic and other problems arising from a large influx of visitors to the city, according to Wynn Priday, assistant city administrator of Anaheim.

Priday, speaking before an Anaheim Industrial Week meeting of the Soroptomist club, likened the city to an industry in its operations and the services it provides. He explained the operations of the various city departments and told how their budgets are prepared.

He described Anaheim as a suitable city for industry because it soon will be surrounded by freeways, has ample water, good utilities, and an adequate sewer system. But, the expansion of industry brings problems to the city and schools.

As jobs open in industry, more residents come to Anaheim. Priday said that more than 10,000 homes now are on the planning boards or are under construction within the city limits of Anaheim. Ten thousand homes, he pointed out, mean a minimum of 30,000 additional people—or doubling of the present population—who will come to Anaheim to live within a few months.

Priday reminded his audience that Friday is "open house" day at the Anaheim City Hall and in various industries of Anaheim. He invited them to inspect the array of city equipment which will be on display near the City Hall on Friday morning.

The speaker was introduced by Mary Lou Martin. Vera Auest presided at the meeting.

AFEA'S GROWTH EMPHASIZED BY SCOUT OFFICIAL

This week's quarterly report by Anaheim Girl Scouts before the community chest board reflects the fabulous growth of the area. Mrs. J. F. Dutzi made the report.

There are more than 100 troops in the district which embraces Anaheim Union High school district. More than 1000 Brownies are registered and the total figure is past the 2000 mark. The figure stood at 1621 Dec. 31, she reported.

"Leadership courses are running continuously now, instead of just in the autumn," Mrs. Dutzi said. "I cannot give an accurate troop count because we receive requests for organization every day."

The camping program for this summer will be four times that of last year. Instead of only one day camp there will be four, at Cypress, La Palma Youth Center and two at Camp Irvine.

The newly purchased established camp at Big Bear is not yet ready for a full program of camping activity, but the month of August will be devoted to troop camping on the site, the girls going 40 at a time for five days.

Dikes Resigns

In other business the board received the resignation of Lloyd Dikes as chairman of the nomination committee, since Dikes is required to be away from the city on business most of the time. President John Steffy was authorized to appoint a successor.

Quarterly allotments of the seven agencies in the chest were voted after a favorable report was given on their activities by Mrs. Allen Koch, budget committee chairman.

A number of requests for participation in the 1955-56 drive were turned over to Mrs. Koch for committee action.

The request from Anaheim released time religious education group for a contribution of $750 toward a classroom bus was denied, though the door was left open for 1956.

The group had asked for the gift from surplus funds collected last fall, but the chest by-laws provide the money must be used for only the agencies taking part in the drive or chest operating expenses.

Punch-line to the year's hottest power story—

Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chevrolets. And in acceleration runs from a standing start against all comers, Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build: Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry (that means less piston travel...longer engine life)! And it delivers the highest power per pound of any V8 in the low-priced field. It's so efficient that it requires only four quarts of oil instead of the usual five... needs less radiator coolant, too. It's the most modern V8 under *anybody's* hood!

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at extra cost) puts 180 h.p. under your toe!

'55 PACEMAKER CHEVROLET

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!

No other low-priced car has any—no high-priced car has all—of these great Chevrolet features!

Body by Fisher—Nine engine-drive choices in any model—12-volt electrical system—Anti-Dive braking—Outrigger rear springs — Ball-Race steering — High-Level ventilation — Double-Arch cowl construction.

*National Association for Stock Car Auto Racing.

The regular monthly meeting was held on Wednesday at which time the following ordinances were adopted: An ordinance levying a dog tax of $2 for the year 1880-1881; an ordinance fixing the bonds of certain officers. Bridges were ordered built at certain places on Palm street. The matter of sprinkling the streets was referred to the committee on public improvements. Mr. F. J. Schmidt was witness to a very singular combat the other day while out hunting. His attention was attracted to the curious actions of three buzzards and on proceeding to investigate, he found they were fighting with a large rattlesnake. The result of the fight was that the snake was killed. Mr. Schmidt drove the buzzards away, secured the rattles from the snake and left the body lying in the road. Returning after a few minutes, he found that the buzzards had eaten the choice portions of their victim, the skeleton only remaining. The snake was a very long one, with a body as thick as a man's wrist.

The Board of Directors, accompanied by the Commissioner and the Zanjero of the Anaheim Water Company went up to the head of the ditch on Sunday, on a tour of inspection. Mr. George Hull of Anaheim Landing sheared three of his sheep recently and the fleece of one weighed sixteen pounds and the other two twenty pounds each. An Angel of a Cake Rich with Chocolate

Here is an angel of a chocolate dessert for your next bridge luncheon. A real party cake, if you ever saw one—a beautiful Chocolate Sponge Angel Food. It is especially luscious with its rich premium chocolate filling and cocoa whipped cream frosting. Sprinkle with coconut and serve with assurance!

Chocolate Sponge Angel Food

1 envelope (1 tablespoon) gelatine
¾ cup sugar
¼ teaspoon salt
1½ cups milk
2 squares Unsweetened Chocolate
3 egg yolks, slightly beaten
3 egg whites, unbeaten
1 teaspoon vanilla
¾ cup shredded coconut, cut
1 angel food cake, baked in 10-inch tube pan

¾ cup chilled heavy cream
4½ tablespoons Baker's Instant

Mix gelatine, ½ cup of the sugar, salt, and milk in top of double boiler. Add chocolate. Cook over hot water until chocolate is melted and gelatine is thoroughly dissolved. Blend well with rotary egg beater. Pour slowly over egg yolks, stirring constantly. Return mixture to double boiler and cook 3 minutes longer, stirring constantly. Cool, then chill until slightly thickened.

Beat egg whites until foamy throughout. Add remaining ½ cup sugar gradually and continue beating until mixture will stand in stiff peaks. Fold in chocolate mixture gradually, blending well. Add vanilla and coconut.

Cut down into angel food cake, 1 inch from outer edge and 1 inch from center hole, to a depth of about 2½ inches. Remove section and set aside. Scoop out cavity to make sides straight. Fill cavity with the chocolate mixture. Trim underside of removed section to make a ring about 1½ inches thick; replace in cake, pressing down gently.

Combine cream and cocoa mix in small bowl. Beat with rotary egg beater until fluffy and thick. Spread over top and sides of cake. Chill. Just before serving, sprinkle with additional coconut.

Too Slow Drivers Cited as Hazards

The driver who creeps along blocking the fast moving traffic lane has suffered another setback.

California Highway Patrol Commissioner B. R. Caldwell has cited a recently concluded jury trial to emphasize the necessity for slower moving vehicles to travel in the right hand lane or as close to the right edge of the roadway as is practicable.

A motorist in violation of this vehicle code provision was cited into court by a California Highway Patrol officer for traveling at speeds of from 10 to 45 miles per hour in the inside traffic lane on San Francisco's heavily traveled Bayshore Freeway.

The violator demanded a jury trial, was found guilty, and was assessed a $50.00 fine.

"Many drivers fail to realize that traveling too slow ranks with traveling too fast as a frequent cause of serious traffic accidents. It is the duty of any motorist to keep as far to the right as possible if he is not keeping pace with the normal flow of traffic," Caldwell said.

"The action of this jury once more indicates the validity of this law and emphasizes the necessity for compliance with its provisions," he added

Overweight Teen-Agers Should Eat A Good Breakfast

Overweight, actual or implied, plagues the teen-age group. This leads to dieting—sometimes carried to the danger point.

The overweight adolescent requires skillful guidance from parents, especially the mother. Too much nagging or urging may result in the teen-ager eating more food to show his independence.

Mothers, working under a doctor's direction, can help their teen-agers to understand why they gain weight and how they can lose weight. Overeating causes overweight. It is as simple as that to understand. It is not so easy to lose weight.

Teen-agers need help in learning the caloric value of food and why breakfast is important. Often times teen-agers accept restrictions if they know the reasons why they are necessary. Research has shown that skipping breakfast is ineffective as a weight reducing method. If breakfast is skipped there is the tendency to resort to between-meal snacks which add calories, or to overeat at the other two meals. These are two easy ways for the day's total of calories to climb. After a long overnight fast, the body needs food to carry on. The food eaten at breakfast is used efficiently—it is not so apt to be stored as fat.

Teen-agers, even those who are reducing, who get from ¼ to ½ of their day's food will have a happier morning, turn out more work, be more alert, and won't tire as easily.

Mothers must tempt teen-agers to eat breakfast. What teen-ager could refuse to eat the attractive 400 calorie breakfast pictured above? It is pretty, tastes good and follows a basic [illegible] recommended by doctors and dietitians—fruit, cereal, milk, bread and butter. The illustrated breakfast includes strawberries, shredded wheat—round, a slice of white bread, a half pat of butter, a glass of whole milk, and coffee, if desired.

New Restaurant Being Planned

Bob Dalton, owner of Bob Dalton's Steak House and successful restauranteur for the past 16 years on La Cienga's "Famous Restaurant Row," will begin construction immediately on his new restaurant in Newport Beach directly adjacent to the Lido shopping center.

The new eating establishment, representing an investment in excess of one-quarter of a million dollars, will be built in the style of an English waterfront tavern. Fronting the bay, the restaurant will have completely modern boat docks for both tenant and guest yachting enthusiasts.

Those who rent slip space will have at their disposal a private recreation room, boat lockers, and other facilities normally associated with a yachting club. Regular restaurant service will be available to all those who use the boat docks and wish to have their meals served aboard.

According to Dalton, a total of $12,000.00 will be spent on the docks to afford those who use them every convenience possible. "Guests wishing to be served aboard ship will be able to phone their orders directly to the restaurant," said Dalton. "Incoming telephone service will also be available to all tenants."

The spacious windows on the bay side of the atmospheric dining room and cocktail lounge will allow the guests a panoramic view of the beautiful bay from the arches to the Balboa Bay Club and Newport Heights. To further enhance the atmosphere, music will be piped to the docks and at night the bay will be floodlighted.

Kenny Cawthra will manage the new enterprise. Assisting him will be Roy Benson, former manager of the La Jollan Hotel in La Jolla.

RIGID TEST

Miss Topping, the third grade teacher was justly proud of her new topaz ring. It was a large stone and the first day she wore it to school she noticed the entire class staring at it.

During recess, a group of small boys gathered around her desk. "Is that a real ring?" one of them asked.

"Of course," she smiled.

"Then," challenged the boy, "let's see it squirl!"

Chiksan Expands Sales Development

G. R. Winder, vice-president and general sales manager of Chiksan company, Brea, announces the appointment of James L. Emerson to fill the newly created post of assistant to the manager of the firm's sales development department under E. N. Thomas.

Emerson will devote the major part of his time to Chiksan's advertising and sales promotion program. He was formerly advertising manager of the George S. Thompson Corp., South Pasadena, and is a graduate in advertising from the University of Southern California. He makes his home in West Covina.

QUITE A TWISTER

When he saw the tornado coming, Uncle Oscar rushed so fast to get the family to safety that he put his trousers on backward. When the storm was over, he was guiding a friend thru the wreckage.

"Did you get hurt in the tornado?" asked the friend.

"Well, I don't seem to be in any pain," said Uncle Oscar, looking down his middle, "but I seem to be terribly twisted."

USE WHOLE ORANGES IN SUMMER MENUS

Whole oranges are now in the health news picture. Citrus bioflavonoids help keep our 62,000 miles of tiny blood vessels elastic. In whole oranges, top scientists report, these health-giving citrus bioflavonoids are 10 times as concentrated as in strained orange juice.

Well, this morning we received a large carton of California navel oranges from our friend, Russell Z. Eller of Los Angeles. He sent along with the sweet oranges a few recipes that use whole slices rich in bioflavonoids. Let's take a healthy look.

A total of 482,567 persons in 1954 failed in tests given by the Department of Motor Vehicles for California drivers licenses.

A total of 803 California drivers had their licenses revoked by the Department of Motor Vehicles in 1954 for "habitual drunkenness."

IT'S ALL BUICK

—AND ALL YOURS

for only $2627.00* delivered locally!

2-door, 6-passenger Buick SPECIAL Sedan. Model 48, illustrated. Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities. Even the factory-installed extras you may want are bargains, such as: Heater & Defroster—$81.70; Radio & Antenna—$92.50.

YOU certainly *can* throw out your chest and call this strapping big Buick yours.

Because—as any comparison shows—the dollar difference between this brawny beauty and the well-known smaller cars is now virtually erased.

So if you've been holding back, thinking a Buick was out of reach—*let yourself go.* You *can* afford a Buick if you can afford *any* new car—and the price we show here proves it.

Buick Sales Are Soaring To New Best-Seller Highs

That's a major reason for the phenomenal success of Buick today. So much so, that production and sales are hitting new peaks to move Buick more firmly into the tight circle of America's best sellers.

And a companion reason for this soaring popularity is Buick's full line of cars to give you a choice in *any* price class—the bedrock-priced SPECIAL, the high-powered CENTURY, the extra-roomy SUPER, and the custom-built ROADMASTER.

But pure and simple, it's all the automobile you get for your money that's winning so many new owners to Buick.

It's the extra pride you feel, the extra room you enjoy, the extra comfort you get, the extra safety you sense—from Buick styling, Buick size, Buick ride-engineering, Buick solidity of structure.

It's the extra lift and snap and ginger you get from Buick high-compression V8 power—and the fun and thrill of bossing such eager might.

As we said—if you can afford any new car, you can afford a Buick—even with the spectacular performance of Variable Pitch Dynaflow† at modest extra cost.

So why settle for anything less than a Buick? Drop in on us, take the wheel, press that pedal, and see for yourself what a whale of an automobile—and a whale of a buy—today's Buick really is.

†Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series

DID YOU KNOW— that the Buick SPECIAL is priced below any other car of 188 horsepower and 122-inch wheelbase? — that the Buick SPECIAL is priced below some models of the three well-known smaller cars? — that the Buick SPECIAL gives you more pounds of automobile than any other car at its low price?

Thrill of the year is Buick
