

10% Reduction in Income Taxes Is Seen by Congressman James B. Utt

A WAY to be positively sure that crime doesn't pay was told to me by none other than a Congressional minister, the Rev. Chas. Cooper, of Brea. His suggestion is that we all lift our voices to the government, a sure way to take the profit out of it!

AND YOU probably read about the lady who was going to teach her daughter the facts of life carefully and slowly. She was going to start with artificial flowers.

FINALLY the sun is shining again and all the money I had saved up for a rainy day has now been spent. Gotta start all over again.

THIS OFFICE has had me up in the air for so long I'm not surprised if I get to moon before any of the planned rocks.

AND here's something I didn't know until last week. There are two Sam Lyons. There are the Sam Lyons you know, who get around Orange County more often than a parking meter cop. And then there is Sam Lyons, Jr., who is manager of the Buena Park Home Savings and Loan Association. Yep, Sam Jr., is just as good a hand shaker as his dad.

THE latest craze going around is to hold your hand in some silly position and ask, "What's this?" Here's one: Hold your hand out with the fingers curved as though someone had just lifted an orange from your hand. "What is it?", you ask. They won't know, so you turn your hand over with the fingers hanging down and tell them it is one of these that did. Kinda silly, isn't it?

TWO men were coming toward each other across a vast expanse of desert. Just as they met one of them said, "Hi there!" The other looked at him, looked behind him, and said, "Who, me?"

ONE thing about these new sack dresses, it's the husbands who have the fit instead of the women.

HEARD on the radio: "I've had a colored television set for years. My black and white has been in the red since the day I bought it."

ONE of the hardest things to do, in trying to minimize the recession, is to tell a man with a wife and four children, who has been laid off for four weeks, that 1 million more are now employed than normally. Facts don't relieve his situation, he wants work, too.

A MAN on his death bed was enjoined by the minister: "Quick! Renounce the Devil and all his works."

The man replied feebly: "In my shape, I can't afford to make any enemies."

MAYOR Chas. Pearson's street naming committee would do the merchants in the East Anaheim Shopping Center a great favor if they would extend the name of "Center Street" on out past Placentia Avenue. It is now called Anaheim-Olive Road. Sounds kinda rotten, doesn't it?

THE MOST confused pedestrians in Anaheim are those poor souls going west on the south side of Center Street at Lemon. The green light is on the south side of the sidewalk while the "Don't Walk" dodad is on the north side of the sidewalk. It's so confusing that most pedestrians are

HERMAN BECK
Herman Julius Beck, 83, a native of Illinois and a resident of Orange County for 17 years, living at 11282 Pamela Lane, Garden Grove, died Wednesday morning at the Orange Sanitarium after an extended illness. He leaves one daughter, Mrs. Marjorie R. Marsh of Garden Grove and a son, Robert Beck of Anaheim, three grandchildren. He was a member of the Church of the Open Door. Funeral services will be conducted from the Hillglen Mortuary Chapel.

"Nuclear tests will not be stopped by the United States," Congressman James B. Utt told Orange County newspaper reporters at a press conference held in his office in the Santa Ana Community Building Tuesday afternoon.

Utt spoke frankly and candidly on any subject brought up by the reporters and did not once during the entire conference, was the phrase, "don't quote me on this," ever mentioned.

The congressman, who represents Orange and San Diego counties in Congress, the 28th Congressional district, told the press he believes England will be in co-existence with Russia within five years.

On tax reduction: "I think we will have a tax cut across the board within 60 days. This will not affect all taxes. Corporation taxes will be given some benefit. There will be a 10 per cent reduction on income taxes and some help on excise taxes."

Congressman Utt explained that the planned tax reduction will not affect the total government revenue because of the increase in business which will bring in the same amount of money for Congressional expenditures.

"I am very happy to be a representative from Orange County," Congressman Utt said, with a smile. "I believe that here in Orange County we will see a 100% building increase over 1957."

Dixie Cup Plant In Anaheim Wins 3 Coveted Awards

Anaheim's Dixie Cup plant, located at 901 East South Street, and its Plant Manager Floyd Boyer were honored recently with the President's Cup award for the best all around manufacturing performance in the Dixie Cup Division of American Can Company.

"Dixie News", the monthly house organ for Dixie Cup, told about the unusual performance of the Anaheim plant as follows:

"The Anaheim plant has earned the President's Cup for the year 1957, for the best all around manufacturing performance in the Dixie Cup Division of American Can Company."

"The Anaheim plant, for the second year in succession, received the plaque awarded to the plant making the greatest improvement over the past year."

"The Anaheim plant also earned the plaque for the most improved performance in the control of quality and waste."

"This is the first time, since the Awards have been made, that a single plant has merited every one of them. Floyd Boyer and his associates in Anaheim deserve the warmest congratulations of all of us. The feat is the more impressive when we consider that the California plant was our youngest unit, just 5 years old last summer."

Fred Krehn, a past president of the Anaheim Chamber of Commerce, is manager of the Anaheim division. Congratulations!

Unemployed Worker Loses His Tool Box

An unemployed sheet metal worker, father of four children, lost his tool box at a shopping center last week.

Donald Harris, 1647 Placentia Avenue, Costa Mesa, says he put his tool box down beside his car, opened the trunk to put it in, his attention was distracted and he slammed the trunk lid down and drove off, leaving his tool box.

Any help that can be given Harris to help locate his missing tool box will be appreciated.

Drivers Queried On Traffic Safety

The Anaheim Chamber of Commerce has been asked to assist the Senate interim committee on prevention of automotive accident on California highways, it was revealed this week by George Strachan, manager of the local organizations.

Questionnaires for the "Ask the man who drives one" survey are being distributed by the Anaheim Chamber of Commerce and Manager Strachan asks every person interested in putting an end to traffic slaughter and accidents on California highways to come to the office at 138 No. Los Angeles Street, Anaheim, and secure a copy.

The questionnaire has 15 "yes" and "no" questions which give motorists the opportunity of expressing their opinions and ideas on problems affecting traffic safety. Motorists who wish to express opinions in addition to questions on the questionnaire are urged to write directly to Senator Charles Brown, State Capitol, Sacramento.

The committee's objective is to make California's highways the safest in the nation, and its traffic safety program a pattern for other states to follow.

The committee is undertaking the most comprehensive public opinion poll on traffic accident prevention ever attempted in California. Organizations and individuals throughout California are being asked to cooperate in every way possible in order to make the plan a success.

Boy Needs Home For His Pet Dog

A 15-year old boy is about to be parted from his "best friend," his dog.

Sandor Nuber's mother, a Hungarian refugee, has been doing domestic work and getting along fine, making a home for her self and her son, here in Anaheim. But she fell, recently, and broke a bone in a finger on her right hand. The bone has become infected and she faces surgery to replace bone from the hip to her finger, and she can now do only light housework.

His mother, who is now asking someone to take his dog and keep it for awhile and let him come and play with it once in awhile.

Mrs. Nuber also needs part time work and transportation once a week to a doctor.

The local chapter of the American Red Cross has offered help and is informed about Mrs. Nuber's case. She may also be contacted through her friend, Mrs. Joe Ersek, KE 5-7554.

Doctors Plan New 100-Bed Hospital For Anaheim Area

Tentative plans for a new 100 bed general hospital with a 50-bed convalescent hospital, together with a medical center and apartment area for personnel and patients, was announced last week for the Anaheim-Fullerton area.

The 35-acre site at Euclid Avenue north of La Plima Avenue in Anaheim, just south of the proposed Riverside freeway, is shared by two owners, Charles Porter, 128 W. Wilshire Blvd., Fullerton, owns the north 15 acres, presently located in Orange County territory and proposed for the main hospital building, two convalescent buildings, one service building and some 60 medical and dental and professional offices with commercial stores for medical purposes.

A petition for annexation of this section to the city of Anaheim, known as the North Euclid Annexation No. 2, has been approved by the Boundary Commission and will go before the city council on April 15.

The southern 20 acres is owned by Humbert and Irene Acetena with six acres planned for apartments to serve as nurses quarters, and residence for other hospital employees and patients who wish to live close to hospital facilities. The balance of the 14 acres is planned for future expansion, possibly more apartments.

Robert Hingate, the developer, said the hospital will be known as the Medical Center Hospital, Inc., a non profit organization, and the medical and dental offices will be named the Medical Center of Southern California. According to Hingate there are 15 Anaheim and Fullerton doctors now serving on an advisory committee headed by Dr. Samuel Gendel and Dr. John Wood. "The facilities are open to all doctors and our purpose is to serve all of north Orange County," said Hingate.

Pacific Telephone Pays \$966,245 in Second Half Taxes

Pacific Telephone paid its second installment property tax payment on April 10 of \$966,245.73 for 1957-58 to the Orange County treasurer, local manager Herb Perry stated.

The company paid its first installment of \$966,245.73 last December, making the total payment for the 1957-58 tax year \$1,932,484.40.

Perry pointed out that the grand total of all Pacific's property payments to cities and counties in southern California for 1957-58 amounted to \$24,606,910.73 which is 18 per cent more than the company paid during the 1956-57 tax year.

Dataphone Service Now on Trial by Telephone Co.

Pacific Telephone today announced trials of a new service—dataphone—which permits the high speed transmission of numerical records over ordinary telephone circuits, according to local manager Herb Perry.

He said that statistical information can be sent at speeds up to 600 bits per second, the equivalent of 800 words per minute. This is about ten times faster than the speed of present methods.

Dataphone, a device developed by the Bell Telephone Laboratories and supplied by the telephone company, is associated with a regular telephone to make this service possible.

Acting as an interpreter the dataphone accepts the electrical impulses of data producing machines and converts them into tones or "frequencies" that can be sent over telephone circuits. At the receiving end of the circuit, the tones are reconverted to electrical impulses.

The manager said that dataphone service eventually will open the entire telephone network to the high speed transmission of data.

Perry said the new system will work like this:

A businessman in New York will pick up a telephone associated with the dataphone instrument and place a long distance call in the usual way to another division of his company in, say, Chicago. Then he will press a button on the telephone which will start information from a business machine or prepared tape flowing over the circuits. The charge for the call will be the same as for a regular long distance call.

The manager further explained that the dataphone can be remotely controlled and is designed to send information to and from customers' business data processing machines in various locations. The dataphone equipment can handle various types of business machine codes. It can relay information that has been stored on punched cards or magnetic tape and it can also transmit text.

A limited number of dataphone devices have been produced for the trials, Perry said. Current models of the equipment are about the size of a cabinet-type drinking fountain. In the future they are expected to be considerably smaller.

The dataphone devices and associated telephone equipment will be provided by the telephone company. Subscribers will supply the business machines, according to Perry.
