Report News Plan to Widen Chestnut Street

INDUSTRIOUS BIDDIES CHALLENGE RECORDS AS MARCH LAYERS

Chicken Franciscos come to Front Quickly With Eggs for Their Pies.

Owners of industrious biddies read the columns of The Plain Dealer closely when it comes to accounts of the good work achieved by their neighbors.

Mrs. R. Groom, 614 Zern-st., read the account of Mrs. Williams' hens laying 262 eggs in the 31 days of March and straightway got out her calendar. Mrs. Groom also has Rhode Island Red hens and her hens have a record of 288 eggs during the month just passed. The eggs are due big ones and country papers brought to this office demonstrated.

The other two hens which figured in the February accounts are strutting about with families, the families expecting to April 1 have three eggs and the other two have three eggs.

The Plain Dealer at a later date.

Say Kraemer and West Agreeable to Scheme

The widening of Chestnut-st. abandoned some time ago by the city council when its efforts failed to meet with success, is to be accomplished through the efforts of the plan to widen the street, according to well-founded reports today.

According to the reported plan, Chestnut-st. will be widened ten feet by taking that space off the southside, half of the cost of which is to be paid by property-owners on the north side of the street.

It was stated today that George L. West, who owns large frontage on the south side of the street at the corner of Los Angeles, has come to an agreement as to price with Samuel Kraemer, who owns a like amount of frontage on the north side of the street.

The office of the city council will be in charge of the plan to widen the street, it was stated today.

MINES RUINED AND HUGE SUMS LOST IN INDUSTRIAL CRISIS

Six Mines Which Produced Millions Yearly Have Been Hopelessly Ruined.

LONDON, April 2.—Great Britain today faced the gravest industrial situation since the Stuarts were compelled to leave the throne.

A million and a half miners were on strike, coal production was at a standstill and fuel on hand was at so low an ebb as to make the domestic situation desperate.

This morning the government and the industrial situation were in such desperate straits that a nation-wide strike was issued.

Desertion of men from the coal mines has permitted six big plants to be flooded beyond any hope of ever resuming their operation. These plants produced more than \$2,000,000,000 worth of coal a year.

Thirty other great mines have applied for government aid to help them pump and keep down the water.

In the Selling of Orange Groves,
Have We Had
A More Attractive Offering
Than This Little Grove and Home

—The price is such that anyone should be able to turn right around, immediately after selling off the present large crop, and sell the place for more money than it is costing with the crop included. Or, if the purchaser is one who desires the little place for a permanent home, and it will make a dandy, he may have the satisfaction of knowing that he got a strictly "toppy" grove and home at a price that many have paid for very ordinary, and sometimes inferior, properties.

—Domestic circumstances make it possible for us to give you the opportunity to acquire this grove at a figure which is considerably less than it is actually worth today. A large cash payment down is not required, and very liberal terms may be arranged on the balance.

—If you are one of those who have been thinking that they would get a grove when groves "come down," or if you are one of those who are sorry they did not buy before groves "went up," we want you to see this.

—This offering is for a very limited time only.
