Tom Crawford Announces He Will Take Substantial Interest in New Industry

At a very interesting meeting at C. of C. offices yesterday plans were laid before the committee on industries looking to the immediate launching of an enterprise which all those present believe may blaze a new trail in the citrus industry in California.

Mr. Chet Johnson stated before the many interested local citizens a plan whereby the essential components of the orange can be delivered to the ultimate consumer in small cubes and then reconstituted into jelly or marmalade, at a cost of less than one-third of the present ruling prices for such commodities in the average retail markets of the metropolitan centers of the U. S. and Canada. Mr. Johnson has been at work for about 18 months, building up a formula which he considers will yield a product superior to any brand of orange jelly or marmalade now put out.

The committee on industries had a quorum present, consisting of Messrs. John Ruether, E. M. Chalmers and J. H. Whitaker. There was present also Thos Crawford, who has had years of experience, building up the possibilities of the citrus by-products industry in California and he stated emphatically that Mr. Johnson had achieved what he had striven to accomplish for several years. He further stated that he would invest considerable capital in this enterprise.

Mr. Johnson explained that the corporation commission of California had passed a permit for the sale of $50,000 shares, par value one dollar each. John Ruether, who acted as chairman of the committee on industries, stated that he believed this amount of stock could easily be sold within the confines of No. Orange-co among business men and others who realize the tremendous waste entailed by the destruction of oranges which are not now convertible into dollars and cents. He thot it was an industry which would appeal not only to the public spirit of the local citizenship, but to their desire to make a profitable investment.

At yesterday's meeting of C. of C. directors, they unanimously passed a resolution commending the enterprise as a worthy one, which should yield substantial returns in many ways to Anaheim and the citrus industry generally, and one which in the estimation of the board is worthy of all possible local support.

Surplus Fruit In Markets Is Rapidly Being Cleaned Up

LOS ANGELES, Aug. 27. The closing down of many packing houses that have finished their season's run on Valencias is cutting down shipments.

The decrease the past week was 239 cars, bringing the daily movement down to 73 cars, as against an average of 107 the previous week. Too much fruit on the markets has resulted in lower prices and all interests will welcome the cutting down of shipments.

While there has been no price change worthy of note the past week the general trend is toward advancing prices.

The surplus fruit in the markets is rapidly cleaning up.

Latest estimates show not over 6000 cars of Valencias remaining to go.

F. o. b. quotations are on a basis of $3.75 to $4.50 per box, depending upon sizes and district.

Reports on the new crop are gratifying. The condition of the orange crop is reported at 107.3 pct. and lemons 102.5 pct.

The fact that retailers are cleaning up on lemons is giving a little more life to the situation, but the market is dull owing to unfavorable weather.

F. o. b. quotations are on a basis of $3.50 to $4.00 per box.

There are on hand and available for sale within the next 30 days 54,500 boxes foreign lemons, not including a cargo, quantity unknown.

BOTH SIDES ACCEPT WOMEN JURORS

LOS ANGELES, Aug. 27.— Intuition, the feminine "sixth sense," will make women jurors acceptable to both the prosecution and defense at the trial of Mrs. Madalynne Obenchain and Arthur C. Burch, charged with the murder of J. Belton Kennedy, it was learned today.

Inquiries at the district attorney's office and at the defense headquarters, where the question of a jury for the case is already being studied, disclosed that both sides favor women jurors for the trial on widely contrasting theories.

$500 Cash Bail Is Forfeited By Sanders

Justice of the Peace Cox has adjusted his books to show that $1350 passed from his court to the county coffers. The sum represents the residue of three cases recently handled by him.

Of the total amount $500 is cash bail forfeited by Uri Sanders of the Brea district for his failure to appear on a continuance of his trial in the justice court. Sanders was charged by G. . Belaris with stealing five $20 gold pieces.

Because of the absence of two or three witnesses the trial was not completed when first called. It was continued to July 28 and on that date the defendant failed to put in an appearance.

It was again continued and still he failed to show up.

After an elapse of 20 days, as required by law, Judge Cox declared the cash bail forfeited. The money was put up by Escion Robinson and Will Tayes of the Richfield section. Robinson deposited $84.87 and Tayes $415.13.

Joe Weinstein, second hand dealer who some weeks ago was fined $250 for selling several articles of household goods which it was charged he obtained in a questionable manner, failed to perfect his appeal to the superior court and Judge Cox today enforced payment of the fine.

Henry Wallace, La Habra drug clerk, found guilty of selling Jamaica ginger, an intoxicant, and fined $100, also failed to perfect this appeal to the superior court in the time specified by law and the court enforced payment.

LA HABRA HOLDUP IN BROAD DAYLIGHT

Foy Peake, 17-year-old Boy, Stuck Up and Robbed of $35 By Man Believed to Be Mexican Who Flees on Bicycle

A daring daylight holdup was staged at La Habra this morning when Foy Peake, 17-year-old boy was stuck up and robbed of $35 in the rear of the Glazier Bros. store about 10 o'clock.

The bandit is believed to be a Mexican, Peake describing him as being comparatively tall, with black eyes and black hair. The bandit wore a black handkerchief as a mask. He was dressed in overalls.

Young Peake, who lives at La Habra, was taking the money to the bank. He stopped at the hotel to talk to an acquaintance and mentioned that he was enroute to the bank. It is presumed the bandit overheard the remark as the bandit apparently lay in wait for him, stepping from behind a concealment at the rear of the Glazier store when Peake cut thru an alley to save time.

The bandit put a gun in Peake's face and ordered him to give up the money which he did, running back home to spread the alarm. The Mexican escaped on a black bicycle.

Fullerton police were notified, and a search was instituted under the direction of Marshal Eells but no trace has been found. All the police officers of northern Orange-co have been notified to be on the lookout.

Mrs. Gebert had been confined to her room the greater portion of a year, but had felt much better the past two days, and this morning left her bed. Sinking down on the floor she leaned her head on a chair and asked her little daughter for a pillow. Realizing help was needed the child ran to a telephone in the neighborhood, calling a physician, but when she returned her mother had ceased breathing.

Surviving her are three children, William, of Olinda and Arthur and Alma, at home. A sister, Mrs. Sells, resides in Fullerton, another in Escondido and another in Oregon. Funeral arrangements are not made, pending word from relatives.

AUTO SHOW BIG SUGCESS

"Man, she went over with bells on and I don't think there was an exhibitor or visitor who was not perfectly satisfied," was the declaration of a local dealer today in referring to Anaheim's first Midsummer Auto Exhibit held yesterday under the auspices of the Orange County Auto Trades Assn.

That the majority of dealers got direct results from the show was proved by a c anvass made of all the local dealers who could be reached today, each declaring that they had obtained several live prospects from the many visitors of the day.

It was variously estimated that a crowd of from 3500 to 5000 persons attended the show during the afternoon and evening.

Practically every car handled in the county was represented and most of the dealers had from three to seven models of their respective lines.

New cars that have not been seen in this section before were on display yesterday and attracted considerable attention.

Nearly half of the local dealers were either out personally today, or sent representatives, to demonstrate their cars on requests which were made by yesterday's visitors.

A majority of the exhibitors moved their cars back to the salesroom early in the evening and gave way to the big street dance which held sway until 11 o'clock.

The harmony was furnished by the Auto Trades band, and to say that it was real harmony is putting it lightly. From the minute the street was given up to the dance the crowd thronged in and swayed to the rythmic music until the playing of "Home Sweet Home."

It was a good natured crowd and in spite of the fact that a couple could hardly go thru the many popular steps without bumping into someone, everyone had a good time.

Owing to the tremendous success of yesterday's affair, steps will be taken by officials of the auto trades it is understood, to have the exhibition made a quarterly or semi-annual show to replace the annual affairs which have been in vogue during the past years.

The lack of pomp and "scenery" in the smaller exhibit allows the dealer to enter at an extraordinary small cost, and most of them believe that better results are obtained.

MUCH EXCITEMENT CAUSED BY BLAZE

Considerable excitement was occasioned last evening when the flame from a flashlight picture taken by the Rolla W. Cornell studio on East Center-st caught a lace curtain and set it ablaze. More than 100 inquiries were received in a few moments from callers at the studio.

THE HARDING WAY

During the disarmament conferences President Harding will not keep his motor car in gear to rush to and from the meeting place. He will be a close observer of the proceedings, but not a personal participant. He is willing to trust his Secretary of State.

Moreover, on the delegation he plans to have representatives of the Senate—one from the majority and one from the minority. Other members are expected to be men of weight—neither lackeys nor speaking judgments, while at the same time not insensible of the value of teamwork.

The President is headed toward reestablishing normalcy in the handling of the country's internatinonal relations. He saw how a departure did not work. So old-fashioned practices seem specially good to him. A prudent gentleman, he would have any arrangement arrived at indorsed by public opinion and ratified by the Senate. It's safer to consult early those who must some time be consulted.

The President has made no loud boasts of his knowledge of psychology, yet he has some notion of how the average human mind works. He deals with conditions not as they might be or perhaps should be, but as they are. So he is surely, even tho' slowly, building up a repute that will stand him in good stead should a crisis arise.—New York Tribune.

The Kennedy murder case in Los Angeles, having been tried over and over again, in the sensational newspapers and on park benches and at pink teas, the courts, a little later, will take up the real trial.

LOS ANGELES POWER GRAB

(The following excerpts from editorials in the newspapers of Riverside and San Bernardino counties, the San Joaquin, Imperial and Owens River valleys, and elsewhere, show the trend of opinion throughout the state on the Los Angeles power program, and the means that should be adopted to defeat it.)

GRASPING AND DOMINEERING

(Editorial from El Centro Progress, July 2, 1921)

The population of California, outside of the cities of San Francisco and Los Angeles, will have to eventually arise in righteous wrath and depude those two grasping and domineering municipalities of preferred political power that has been stolen by first one measure and another from the people thru predominating influence in the state legislature.

The only way to check the onward smash that these cities, particularly Los Angeles, are making on the rights of smaller communities is by way of a constitutional amendment. It means the array of the country people against the cities.

All because Los Angeles secured, thru a San Francisco court, possession by condemnation of a part of the power plant that serves Imperial valley and other communities; and further because Los Angeles had inserted in a federal bill a preferment that gives Los Angeles preference rights on power sites on the Colorado river.

Los Angeles would crush the entire south, including the states of Arizona and Nevada, in her wild ambition toward aggrandizement. All towns, agricultural districts and other communities, would be compelled to get down on their knees to Los Angeles in order to obtain electricity enough to pump water or burn lights within ten years from this date if the plans outlined by Bill Mulholland, W. B. Mathews and others in the Angel City are carried out.

Of course Los Angeles thinks she would be an angel in fact to the south.

But we are "leary" of these angels who grab unto themselves such outrageous and unrighteous powers. The life of a valley like ours or a town like El Centro could be snuffed out by the snap of an electric switch and that is too much "angel" to be relished.

AN AVALANCHE OF PUBLIC OPINION

(Editorial from Riverside Enterprise July 18, 1921.)

It is quite evident that the newspapers of the interior districts of California, reaching to the northern end of the San Joaquin valley and extending as far south as Imperial-co, consider the Los Angeles power extension program to be a controversy, not between the city of Los Angeles and private corporations, but one between the great agricultural sections with hundreds of thousands of acres dependent upon irrigation, against the desires of a great city for industrial dominance.

The particular act that appears to have brot the united condemnation of the great interior districts down upon the city's power and water board, was the ruthless manner in which it stepped in and condemned the plant of the So. Sierras Power Co. in the Owens river gorge, altho the predecessors in interest, the Mono Power Co., had spent $400,000 in the attempted development of the power resources of that part of the gorge and were the first to attempt any power development there. The Los Angeles people had attempted to force the Mono Pow. Co. to capitulate and turn its power opportunities over to them, but it failed in doing that and altho it would not have developed power there, probably for years, had it been able to seize the site, when the local company acquired the property, for immediate development of power for the benefit of nearly a quarter of a million of people, the city seeks to condemn it.

When the first decision, favorable to the city of Los Angeles, was reached in the trial court, power was being distributed from the Owens river gorge by the great So. Sierras Power system.

When a city, that has developed only a small percentage, possibly only 15 pct, of its potential water power, can condemn and seize the power that is vitally needed for tremendous agricultural and industrial development, in addition to the needs of many other cities, altho it would not develop such power itself, probably for years, is a serious situation for the "cow counties." Such a plan, continued to its conclusion, would mean these counties would be "cow counties" permanently and when all of their power possibilities have been seized, would be vassal provinces, dependent upon the whims of the voters of Los Angeles, or some corrupt political machine.

POINTS OUT TYPE OF ROCK MACADAM

At the meeting of the good roads committee of the A. C. of C. Tuesday evening, several of those present expressed much interest in the rock macadam type of road—that is a road "built from the ground up" of rock and oil, starting with a heavy rock solidly rolled into the earth sub-frade, then an application of oil,, then more rock of smaller size, and on up finishing with a smooth surface.

The discussion of this type of road no doubt inspired H. A. Lake of Garden Grove to write the following letter:

I just happened to think that Los Angeles-co is now finishing a stretch of about six miles of real genuine rock macadam road. You go north thru Buena Park, then west thru Northam; after striking the Los Angeles-co line you continue west about one mile to the east corner of the McNally olive orchard. Here there is a road that strikes straight west, and Los Angeles-co is just completing this road, west to where it intersects the Norwalk-Artesia-blvd, two miles south of Norwalk.

This road is flat, and from the speed with which it is being built, I should judge it must be cheaper that either cement concrete or asphaltic concrete. I think I can get the cost of this road; it goes thru some pretty heavy 'dobey alkali soil.

Mr. McBride's new assistant, Harry Parker, says he helped build the Whittier-Los Angeles macadam road which is one of the heaviest roads used out of Los Angeles, and that the center of this road has never been repaired.

I have a copy of a very interesting letter, written by Thomas H. McDonald, chief of the bureau of public roads, Washington, D. C., to the editor of the El Centro Progress. This is one of the very best letters I have read on good roads construction, and I am sending it to D. Eyman Huff so that he may send a copy of it to each member of the committee.

Yours truly,
H. A. LAKE.

P. S. By the way, the new road being finished at Northam is the last bit of a very long, important road. This road continues west from Northam thru Bellflower, Clearwater, Compton, Gardena and straight on to Redondo. It intersects all the roads leading into Los Angeles from the south and gives Orange-co a new main road into the south end of Los Angeles.
H. A. LAKE.

BOX FANS PAY COIN BUT LEAVE EARLY

A crowd that filled the fistic emporium to overflowing journeyed to the weekly boxing show at the Anaheim Athletic club last night and the consensus of opinion seems to be that the worst exhibition of the manly art that has ever been staged in this locality was passed out the fans.

With the exception of the bout between Joe Chaney and Clarence Rubidoux, the entire card was a dismal failure. The foregoing bout was a cross between a "parlor boxing" match and a dance of the wood nymphs, but at that exceeded anything on the card. The referee showed good judgment and refused to render a decision.

Young Dudley won by a knockout over Solly Trujillo in the second round of the semi-windup, while Battling Savage had the ancient Mike Ryan beat before their match started. Two or three knockouts in the opening sessions started the fans on their way home and as far as can be ascertained no more than half a dozen saw the finish.

Tex Stoval threw up the sponge in the second round of a so-called "grudge bout" with Jimmy Lloyd and the latter won the decision.

The opening session between Frank Ortez and Emil Latschau was the biggest farce of the show, the latter boy, it was said, having entered the ring without having the gloves on more than five or six times.

The boxing game has a fairly good start in Anaheim, but a canvass of a score or more local fans reveals the fact that another show of the calibre presented last night will mean its death knell here.

CHARAVARI AND DANCING PARTY

A progressive charavari and dancing party with all of the honorees thinking the affair was in compliment to the others, occurred last evening when a merry party went to the Davis home on East Broadway where Mr. and Mrs. Harold Oelke, newlyweds, are stopping at present. Miss Geraldine Cook also enjoyed a birthday anniversary yesterday, she being the other honoree.

Gathering all the available tin cans, tubs and other instruments of torture, the merry makers slipped up on the porch at the Davis home and let all the harmony (?) loose. Of course this brot the bride and groom to the door, and after enjoying the serenade for a while, they invited the crowd in doors. There music and a good time reigned supreme. Refreshment was served after which the party attended the auto show and street dance.

Going from there to Brea they again enjoyed a dance, and partook of a watermelon feed at the Davis home after returning to Anaheim. Eighteen dolls have been dressed by the children and several toys are donated. Quite a bunch of postals are also ready for the box.

Interest might be stimulated in this worthy work if the mothers could but realize what a wonderful privilege it is for these little foreigners to be remembered by the enlightened children from Christian homes, and if the work were discussed and urged in the homes much more may be accomplished before the box is closed. Mrs. Collins has devoted a great deal of her time and energy to the work, but there is a fine opening for cooperation on the parents' part. The dolls will be on exhibition in the lobby of the church where they may be seen after services tomorrow.

SEEK MORE RED X NURSES

The Red Cross Nursing Service is making an active campaign throughout the United States to secure 500 nurses immediately to care for ex-serice men in hospitals. Miss Lillian L. White, director of the Nursing Service in the Pacific Division of the American Red Cross, is calling for 75 enlistments in her territory, California, Nevada, Arizona and Utah.

The call carries an emotional appeal when it is known that hospitalization of disabled veterans of the World War is increasing. The government through its Unite States Public Health Service designates the need for more nurses as an emergency and the Red Cross is putting the full strength of its nursing service into action to meet it.

HER LUCK MIGHT TURN

Mrs. Meek was a very economical housewife—at least in her own opinion she was—but she went to her husband one morning and said:

"John, I am very sorry, but I am afraid I must ask you for at least $5 a week more as housekeeping money. The cost of living remains so high."

"Amy," he replied, "I'll try to let you have $2 a week extra. But that's the best I can do. You're pretty extravagant, Amy."

"Extravagant?" asked the wife with a bitter laugh. "I like that. John, how can you say that I am extravagant when I have saved my wedding dress for over 30 years on the chance that I may yet make a second marriage?"

Cypress News Items

CYPRESS AND HANSEN, Aug. 27.—Beet harvest is progressing nicely. The Cypress dump is sending out about four car loads a day. The sweet spud crop is coming on rapidly and will be a bumper. There is some dissatisfaction over prices and markets, but the farmers are busy and show that prosperity has not left them.

The Bennett well, No. 1, has been closed down for the past ten days. The drill and about 2,200 feet of the drill stem was lost in the hole some three weeks ago. There was considerable time and money spent in fishing for the lost line to no avail. It is thought the company will start a new hole as soon as the present labor problem is settled.

Mr. and Mrs. J. W. Fuquay have just returned from a week's outing at Little Bear lake.

B. S. Sconce was a business visitor in Los Angeles last Wednesday.

$7,000,000 ORDERS FOR LUMBER.

NEW ORLEANS, Aug. 27.—An order for 150,000,000 feet of pine lumber, costing between $6,000,000 and $7,000,000, has been accepted from the French government by a syndicate of forty sawmills in Lousiana, Texas and south Mississippi. As soon as financial arrangements are completed the mills will begin cutting. This order will put most of the mills on full time and offer employment to many additional men.

MARKETING CALIF. EGGS IN ENGLAND

A few weeks ago Manager Barber of the Poultry Producers of Central Calif. made a trial shipment of California eggs direct to London, England. The shipment arrived in such perfect condition that arrangements were immediately made for much larger consignments. Manager Barber is on his way to London for the purpose of perfecting distribution in Western Europe.

Thanks to the discovery that eggs dipped in heated paraffin oil will keep in a nearly fresh condition for an indefinite period, it is possible to ship California eggs to far distant markets. For best results, the eggs after being processed are put under refrigeration and it follows that suitable steamer space is the only limit for placing California eggs in the leading markets of the world. California shipped out last season 1000 cars of eggs to New York and other Eastern markets. Few of these however, were storage packed. New developments have now made it possible to ship processed storage eggs as successfully as newly laid have been shipped in the past.

Threatened over-production on the Pacific Coast is thus provided an outlet, and the production of large white eggs will continue to show profit for the successful California poultryman.

ARMY CANTONMENT BRINGS $900,000

WASHINGTON, Aug. 27.—At the recent sale of Camp Taylor, Kentucky, the net proceeds from the entire sale were $902,097.82. The buildings and land were sold by auction conducted on the ground and the sale brot over $100,000 more than would have been realized by accepting the highest offer when sealed bids were called for about two months ago.

PITTSBURG DISTRICT OPTIMISTIC

PITTSBURG, Aug. 27.—Inquiries in the hands of manufacturers indicate steady expansion of output and employment. A building campaign of enormous proportions is under consideration in this territory and bids are being taken on several large projects.

In the Pittsburg district the steel output has increased this week and similar conditions prevail in the Jamestown, Wheeling and Mahoning valley sections. Additional mills and furnaces were placed in operation this week. The agreement between steel manufacturers and the railroads for a 25 per cent, reduction in freight rates on export iron and steel from the Mahoning valley points will aid in meeting English and Belgian competition.

NEWS OF FULLERTON

MANY FROM OUTSIDE AT FULLERTON H. S.

A gratifying feature of the enrollment now going on at the Fullerton high school is the number of new students coming in from outside points, being greater by far than in any previous year in the history of the school.

Almost every day applications are being made by boys and girls whose people have recently moved into the district, furnishing another index to the growth of population during the past year.

In cases where the applicants present credit cards from schools previously attended, they are promptly enrolled and assigned; otherwise they are put upon a sort of contingent list until their cases can be investigated and their rating determined.

About 550 students have been enrolled thus far for the year beginning Sept. 12, and the expectation is that it will run to between 600 and 650 by the close of the opening day, an increase of from 50 to 100 over last year's enrollment.

In the Junior College they are quite confident of registering 100 students, which will give them an increase of about 25 per cent over last year.

The members of the faculty, 43 in number, will all be in Fullerton the week before beginning date for the official meetings and conferences that precede the opening, in order that the program may be fully developed and understood in advance of the date set for the start.

The work of getting the buildings and grounds in shape is going steadily forward and it is confidently stated that everything will be in readiness when the time comes to get the business going. A dozen or 15 men, gardnerers, carpenters and other craftsmen are employed about the school at present, the program of remodeling and renovating involving the expenditure of several thousand dollars.

FULLERTON JUSTICE ASSESSES $90 FINES

Judge French of Fullerton kept "full house" this morning—that is, he kept them until they paid $90 in hard-earned (?) money for the privilege of going on their way rejoicing, or mourning, as the case might be. The offenders, with the exception of H. Mann who was fined $25 for selling rugs without a license, were violators of the traffic ordinance and were fined from $5 to $10 each. The Excelsior Creamery Co. for backing their truck into the street; Silas A. Lathrop of Yorba Linda, $10 for speeding; J. M. Wilson, $10 for speeding; H. Lynn, $5 for cutting the button; P. V. Paulis of Los Angeles, $10 for cutting the corner; John Selers, $5 for backing into the street; Mrs. George M. White of Los Angeles, $10 for speeding; R. R. Aittrans of Santa Ana, $10 for speeding; A. V. Sullivan, Brea, $10 for speeding.

PLAN DRIVE FOR MEMBERS

The Houser Bible class executives who meet every Thursday noon for their luncheons and talks, have arranged for a lively membership drive and attendance contest for "Home Coming Week," Sunday, Sept. 11, at the Rialto theatre, at which time it is proposed to get out at least 500 men in his annual round-up. There will be ten teams in charge of the roundup, with a captain in charge of each squap.

The 10 captains appointed are as follows: Dr. Jesse Chilton, George C. Cline, Otto Evans, H. C. Foss, Everett Houser, Charles B. Hutchinson, William M. Irwin, Charles Peckham, Walter H. Skillman and Robert Strain. Tags will be printed with various colors so that the team getting in the largest number of men on Sunday, Sept. 11, will gain highest honors. What the reward will be no one knows, but it may be a complimentary dinner.

BUT ONE FIRE WITHIN YEAR

With eight months of the year practically gone and the fire department called upon to handle but one small fire, the citizens of Fullerton have every reason to congratulate themselves on so remarkable a record.

There have been but two calls during that period and one of those was turned in by a nervous citizen who mistook the smoke from a kettle of roofing tar for a house afire. The other was a bona fide fire, all right, altho of small dimensions, resulting in the destruction of a small tent house in W. Commonwealth-ave on a windy morning in March.

SEAL BEACH PLANS BIG BATHING PARADE

SEAL BEACH, Aug. 27. — Seal Beach is planning an Intercommunity Bathing Girls' Revue to be given Sunday, Sept. 18, under the auspices of the C. of C.

It is to be entirely different from the ordinary event of this kind, for everything that savors of professionalism will be eliminated. There is to be no hiring of motion picture actresses ,nor will any of the prize winners be selected in advance.

The contest will be for girls of Orange-co and vicinity. This will include Long Beach, Artesia, Downey, Norwalk, and other places close to the Orange-co line. Los Angeles girls will not be permitted to enter unless it is shown that Seal Beach is their favorite bathing beach.

It is planned by the C. of C. to have three judges—one from Santa Ana, one from Anaheim and one from Long Beach. The prizes will be awarded to the girls who look the nicest in their bathing suits.

There will also be prizes for the communities represented by the largest number of girls.

Entry blanks may be had by addressing Chairman of the Special Events Committee, or Secretary of the Chamb[illegible] of Commerce, Seal Beach, Calif.

COUNTRY DISTRICTS HUNGRY FOR BOOKS

Rural districts of Orange-co are hungry for books.

A keen edge has been put on their appetite by Miss Margaret E. Livingston, county librarian, who since her arrival here three weeks ago, has toured the county as preparation for her active work.

The report Miss Livingston brings back to her headquarters in the office of the farm bureau is that everyone she has visited is eager for the county free library to begin operations. Miss Livingston is full of enthusiasm for her work.

"From Brea to San Juan Capistrano I found people eager to take advantage of the library," said she, "Garden Grove union high school, San Juan Capistrano union high school and San Juan Capistrano grammar school have signed resolutions merging their school library funds into the treasury of the county library.

"It must be announced emphatically that the county library will encroach in no way into the field of established libraries in or out of the incorporated communities. The county library is being organized solely for those people who are now being served by a regularly organized book distributing agency.

"The purpose of the county library is to cover territory within the county that at present is without library facilities. Library custodians will be appointed at the various branches, and the headquarters in Santa Ana will supply the branches with books.

"The communities or districts will be called upon to furnish their own reading rooms and to keep them in operation for the time being.

"Later the county will take entire charge, that is, when the experimental stage is passed.

"Civic bodies, school trustees and others have been interested in the proposed library and will have charge of its operations in their districts.

"Books will be distributed to the branches as needed. Should one book only be needed at a time, one book will be sent, and if the call is for a large shipment, it will be sent as promptly as possible. We will send the books by mail ,train ,stage, by any means that will get them there.

"It is impossible to estimate how many books will be handled by the library. The books will come from so many sources. The addition of the school libraries, of those schools outside of regularly established library districts that sign resolutions to combine with the county library, withh materially increase the book supply.

"Colusa-co, where I conducted an enterprise similar to this, had 20,000 books circulating thru the county library to approximately 9000 people, according to the latest report. That was at the end of the library's fourth year.

"The money for the purchase of books and operation of the library will be decided upon by the county supervisors, following the tax levy in September. Until then, on the advice of the district attorney, no purchases will be made.

"It will be therefore, probably late in October before the books are put into circulation. They must be catalogued before leaving this headquarters.

"The character of the books to be circulated will be decided upon by those who are going ot dar em those who are going to read the books. Books will be purchased in line with requests from the various branches.

"In this respect, it is of interest to note the character of the branches. At Brea, with its large population of oil workers, a reading room is to be established. The men have considerable time to themselves in the evening, and they desire the advantage of a reading room. At Seal Beach a reading room is not considered necessary."

DO NOT APPROVE CENSORSHIP BILL

VIENNA, Aug. 27.— The cinema proprietors and all connected with the film industry in Vienna are up in arms against the cinema censorship bill in its present form.

They declare that it is totally false to start from the standpoint that the cinema gives untrue representations of life. To fix the age limit for cinemagoers at 18 threatens the very existence of the industry. At a great meeting of the associations concerned it was stated by the president that, if this limit is persisted in all the cinemas will close their doors.

SMASHUP DISCLOSES SHERIDAN QUALITY

"Take it from me, the builders of the Sheridan sure used honest to goodness material in its construction," states "Bill" Houser of the Quality Motor Co., local distributors. "I always realized that the Sheridan was a quality product but an unfortunate smashup which occurred the other day furnished positive evidence of the merit of the materials in this car.

"A reckless driver hit the car of one of our owners a square broadside, tearing a hole in the side big enough to drive a heavy duty truck through, a fender was given credentials for the junk heap while the foot board was very neatly dismantled. This Sheridan was given a 20 centimeter wallop yet, strange to say, the frame withstood the impact without showing the least damage and was as straight and true as when it left the factory.

"The jagged hole also displayed the edges of the body metal which was of exceptionally heavy weight. It certainly is not the product of a tin can factory."

Houser states that he would advise people from making this same test with their machine, however.

Charges Against Worsdell Droppped

Two felony charges brot against R. C. Worsdell of Huntington Beach have been dismissed on motion of the district attorney's office. The cases were set for preliminary hearing this afternoon.

One complaint was filed by W. A. Goodwin of Fullerton ,who charged Worsdell with embezzlement of one unit of the Eden Syndicate, valued at $250. The other was sworn to by E. S. Scales of Brea, who charged check for $164.78. Worsdell with passing a worthless

It is understood that an investigation made by the district attorney's office cleared up the suspicion that Worsdell has committed the alleged offenses.
