He liked the smell of burning cedar, of burning pine, of the various leaves, weeds, and grasses that mingled pleasant odors with the smoke. He knew the things that would talk and sing in the fire. He knew how the cactus would pop like the firestick. He knew how fire would make the century plant pop rapidly like the fire-wagon of the paleface. The Indians were masters of fire and harnessed it to their uses. INCREASE VALUATION

Through the addition of the school districts of Perrita and Silverado and the general increase in property values, the Orange Union high school district has increased \$100,000 in assessed valuation during the past year.

The assessed valuation of the district is now \$11,096,130.00 as against \$10,996,130.00 in 1920. Of this increase, about half a million is due to the addition of new districts. The rest is the result of appreciated property values.

S. O. TO ABANDON BOHON 1 AT 5155

Hawthorne-Ingwood-Redondo. The Standard Oil Co. quit drilling on Bohon No. 1 at 5155 and preparations are being made to abandon the well.

Aside from the big gas blow out that occurred early in the drilling of the well the Bohon never showed any oil indications. Close watch of the formation was kept all the way down.

The gas accompanying the first blow out was found to be marsh gas and contained no petroleum. Landowner No. 1 on adjoining property was drilled to 2800 and stopped awaiting developments in the Bohon well.

The Union Oil Co.'s Sommers No. 1 well, drilled at 2700 and to date has shown no very encouraging signs of oil. Frac No. 1 is drilling at 250 feet and is just getting started.

The Chandler-Canfield-Midway Oil Co.'s test well at Redondo is now cleaned out to bottom, the screen pipe replaced with acid pipe and everything in readiness to continue drilling on into the oil land. As a successful water shut off was accomplished the first attempt nothing has held the well back and it should be on production now in about three weeks.

As the drilling goes ahead the oil continues to come up thru the mud and flow over the top of the pipe.

Kittelman drilled the Merton well to 2625 feet and not getting any showing worth considering has followed the action of the Standard Oil Co. and abandoned the well. Testing out the Hick at 2800 feet continues. At Playa Del Rey the pipe stuck at 925 and no progress has been made during the past week.

Gardens has lost its chance of becoming an oil field. The Edgett-Oil Corporation drilled Roseros No. 1 to 325 and had so much trouble shutting off water that a decision was reached to abandon the well.

HOSTEIN HAS BIG RECORD FOR YEAR

Mike Babylon, a well known Orange-co dairyman living one mile south of Santa Ana, owns a mixed herd of grade and purebred dairy cattle.

Lady Josephine De Kol Xianco, an eight year old purebred Holstein cow owned by Babylon, just closed a 12 months lactation period producing 2112 pounds milk and 1044 pounds butter.

This dairyman has been faithful booster of the Farm Bureau County Cawteasting association and follows very progressive methods in carrying on his dairy business. This record was made in the county cowteasting association and is the highest producing record that is under test.

"Xianco" as Babylon's cow is commonly known, made a 7-day record of 144 pounds butter when she was 23 months old. This animal is not only a real individual but has some prominent successes in the Holstein-Friesian world. "Xianco" is sired by "Xianco" of Santa Ana, who had two A.H.J. daughters, and out of Lady Josephine De Kol, who also held a seven-day record.

Babylon intends to dispose of his grade cows and in time breed north but, purchased Holsteins. He certainly has some wonderful foundation stock. Two of "Xianco's" daughters are also in Babylon's herd.

This record cow and her two daughters will be shown at the coming county fair this year, which is September 25th to October 1st, inclusive, Huntington Beach.

LAW TO CONTROL MENTAL CRIMINALS

BOSTON, Sept. 14.—The culpability of criminals brought before the Massachusetts courts repeatedly for the same or similar offenses heretofore will rest on the offender's mental state. This will be determined by psychiatric examinations in accordance with a new law.

That the mental tests are not a variation of the familiar army or fleet formulas is explained by Dr. George MacPherson, assistant commissioner of the state department of mental diseases.

LIQUOR SWELLS MEXICO CITY, Sept. 14.

While other sources of revenue of the Mexican treasury have been dwindling because of the closing of mines, the bad crops, suspension of operations in the oil fields, John Barleycorn continues to be a pillar of the financial structure of the nation.

Mexico's income from taxes on alcoholic beverages is steadily increasing. During the past year the receipts were \$100,000,000 pesos, but they will be much greater this year as there is now what might be called an "export" demand for beverages manufactured in Mexico.

U. S. DELEGATES ARMS MEET PICKED

WASHINGTON, Sept. 14.—Although they have not formally accepted the President's invitation, it was believed in official circles today that the four men chosen to act as United States delegates to the international conference on armament limitation will serve willingly.

The four delegates named by the President are Secretary of State Hughes, Elihu Root and Senators Lodge and Underwood. Coincidentally the release of their names was announced that the five great powers had agreed to a limit of 20 delegates to the conference.

J. E. Pleasant, county bee inspector and president of the beekeepers' department of the Orange County Farm Bureau, has called a meeting of the county beekeepers for Saturday, Sept. 17th.

Every beekeeper or others interested in bees are invited to attend. The meeting will be held at the Farm Bureau office, 508 N. Main-st., Santa Ana, 2 p. m., Saturday, Sept. 17th.

BLUE GREASE ACT LIKE "RED CAPS"

LOS ANGELES, Sept. 14.—Insurance agents, whose incomes range from \$10,000 to \$50,000 a year, will carry suit cases and hats at the city's railroad stations tomorrow and Monday, just like regular "red caps."

They are members of the "Blue Goose," a social organization of the National Association of insurance Agents which will begin its twenty-sixth annual convention in Los Angeles on Tuesday.

They volunteered for this duty when it became apparent that practically all of the 4000 delegates would arrive in the city within 24 hours.

PRICE DROP CAUSED BY BOOTLEG FIGURES

ARON, O., Sept. 14.—Competition for business between Aron bootleggers is becoming so keen that a marketable is reported here by Lieut. Frank E. McGuire, in charge of enforcement of the state prohibition law. He blames the condition upon low fines and lenient sentences imposed by judges, saying Aron judges put maximum fines at \$100.

"So many Aron judges put maximum fines at \$100," McGuire said, "that the price of drinks is coming down." The decline in the same kind of drink used to cost 50 cents can be obtained for 25 or 35 cents.

Time to Get Under a New Fall Hat

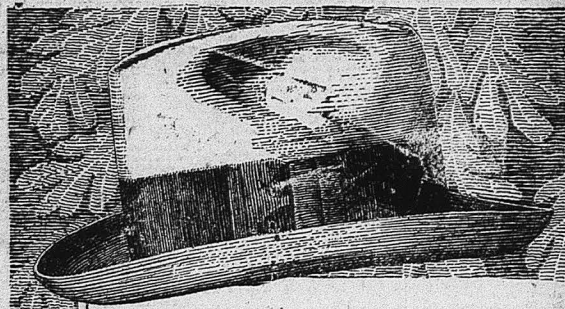

Straw Kelleys to Disappear September 15th. is Edict

Use that old summer headpiece as a target for a brick; hide it away in the ash can, put it away in moth balls, do what you will but above all things don't appear in public wearing that relic of past hot weather for you will surely be sadly outclassed.

Anaheim merchants have 5,000 of the new headwear for fall and winter.

You'll like them because the general idea of style and comfort is carried out to perfection. The crowns are lower, the brims narrower, making an effect that is truly desired.

And the happiest news we've offered in a long time is that prices are down—way down lower than we had anticipated a year ago.

THE LATEST HATS FOR EARLY FALL

MEN are becoming more particular than ever about their Headwear—and rightfully so. Quality never was as important as it is today.

It's an obvious fact that good Hats cost a little more than the inferior grades, but what added satisfaction and comfort, knowing that your hat is the best at the price.

The winner of the crucial game, in addition to annexing the southland title and privilege of meeting San Francisco's club, champions of the north, for the California title at the state convention next month in San Jose, will also walk off with all the gate receipts.

Passes got the receipts at the first game played on the Crown City diamond, and Anaheim took out last Sunday's gate of \$10,000. So there is a double incentive for the winning of the game Sunday.

The same outcome is expected for the second game, which will be played at Anaheim on Friday night. The winner of that game will be crowned champion of the state.

Conley's third start in the local ring will be on Friday night. He will be the pitcher for the home team, while Dudley will be the pitcher for the visitors.

CLASS HAS MUSICAL SESSION
The Men's Bible class of the First Christian church of Fullerton will hold a musical session, both vocal and instrumental, at the regular session Sunday morning at the Rialto theater.

The annual church meeting when the officers of the church and the various departments will be elected on Thursday, September 29.

The Fullerton high school is facing a superabundance of students for its present supply of teachers. A. S. Redfern, assistant principal, stated this afternoon. For instance, Harold Wallberg, musical director, says that the music department has twice as many students as it should have, and the Spanish class is already "full up."

There are a number of other classes. This means that the students who may register from now on cannot enroll for certain studies but must select classes which are not already full, which Mr. Redfern said, "are few and far between."
