## EDISON RATE CUTS 8 TO 12 PCT.

### Slash Effective May 1 Ordered by Railroad Commission Today

An immediate reduction ranging from 8 to 12 per cent in electric power rates to all consumers of the Southern California Edison company was ordered today in a decision handed down by the state railroad commission.

By the terms of the commission's order, the reduction becomes effective today and results will be shown on bills issued May 1. The lowered rates, termed in the commission's order as "percentage discounts," were as follows:

General lighting, 12 per cent; street lighting, power and resale, 10 per cent; street railway service, 8 per cent.

According to figures of the commission's engineers, the new rate scheduled will mean a saving of $1,605,520 for the current year to consumers.

A modification is also made in the agricultural schedule in Southern California which, the commission states, will mean a saving to consumers of this class. This change will eliminate the purchase of ownership of transformers by farmers.

The action of the commission in ordering a reduction of electric power costs to consumers followed a series of hearing held before the state body in Los Angeles, when citizens and representatives of railways and manufacturing concerns appeared and demanded a lower schedule of rates.

The first move toward a reduction of the rates was started by the Southern California Association of City Attorneys, who raised a large fund to carry on the fight which resulted in victory for their interests today.

**SAVES $250 MONTHLY**

The city will save approximately $250 per month on its wholesale lighting bill effective today by a cut in the rates of the Southern California Edison Company. This will make no difference probably in retail bills of consumers here City Manager O. E. Steward said, because Anaheim's retail rate even figuring in the company reduction would be cheaper than the company's retail rate.

## THREE MOTOMETERS STOLEN AT GARAGE

Three owners of expensive cars, including the proprietor himself, are minus their motometers as the result of a quick, clever theft at H. W. Stanley's garage on North Lemon-st, late Saturday night or early Sunday morning. They are, besides Stanley: William Gathas, who had a Westcott in the garage overnight; and R. B. Young of the Young Sash & Door Co., who had a Studebaker. Stanley's Cadillac was the car robbed.

The motometers are valued at $45, and are understood to be fully covered by insurance of Stanley's.

The night watchman was on duty as usual, and it is believed that some one entered in the guise of a client or in order to use the place for a few minutes and then went out, taking the devices with him. It is not a difficult matter to make away with a motometer unless it is of the lock type, the garage man said.

**IN NEW BANK BUILDING**

## WANT WATER FROM S.A. RIVER

### Plan to Take 20,000 Acre Feet to Irrigate 8000 Acres Near Corona

The Temescal Water Co., of Corona, has applied to the state division of water rights for permission to take 20,000 acre feet of water annually from the Santa Ana river to a reservoir from which it will be allowed to flow in dry months to irrigate 8000 acres near Corona.

It is proposed to take the water from the river at Barton Flats in San Bernardino-co and run it thru 55 miles of pipe to Corona. The system would cost half a million.

According to the application, it is proposed to remove the water between Oct. 1 and April 1, reserving only surplus storm water which otherwise might cause floods and damage.

## NIGHT RIDER ROUND UP ORDERED

### Masked Men in Gun Battle With Inglewood Marshal Are Hunted

LOS ANGELES, April 24.—A score of men faced arrest today in the official investigation of the gun battle late Saturday night at Inglewood between Frank Woerner, city marshal and a mob of more than 200 masked night-riders, which resulted in one man being killed and two others wounded.

Chief Deputy District Attorney W. C. Doran ordered a round-up of men suspected of having been members of the night-raiders, and 20 arrests were expected to be made before night. Additional arrests will be made Doran said, as identification evidence is developed.

Arrangements were made by Coroner Nance to hold an inquest this afternoon over the body of M. B. Mosher, constable at Inglewood, and one of the leaders of the night-raiders, who was slain by Marshal Woerner. Heavily armed deputy sheriffs were ordered to attend the inquest to prevent an outbreak by members of the "organization" of night-raiders.

The district attorney's office, the sheriff's office and Coroner Nance combined in the investigation of the gun battle in which Marshal Woerner, single-handed, fought the mob of masked men, killing Mosher and wounding Leonard Reugg, special deputy under Mosher, and Walter, the constable's son.

Reugg, who was wounded through the groin by a bullet from Woerners revolver, was technically under arrest at the Inglewood hospital. Reugg was questioned yesterday by Doran and Under Sheriff Biscailuz. Doran, saying he did not believe the account of the shooting given by Reugg, ordered that he be held at the nospital.

Walter Mosher, in a statement to Doran and Biscaluz, admitted that he and his father were members of the nightriders who sought to take the law in their own hands in raiding the home of Fidel Elduayen, proprietor of a bonded winery near where the shooting occurred. He said the mob was made up of "picked men" and that its purpose was to put Elduayen's winery, which they suspected of being a "bootleg joint," out of business.

"I don't blame Woerner for what he did—for fighting us," young Mosher said. "He did his duty as an officer—but what I would have done in his place."

"As far as we know Elduayen was conducting his place properly and had no more wine than the law allows." O'Leary and Wheeler said. "Efforts by us to discover that he was selling unlawfully failed and we have had no reports concerning the place for months."

Statements declaring that the masked night-raiders were not a branch of the Ku-Klux Klan were made by William J. Simmons, im-William S. Coburn, supreme attorney and grand scribe of the Pacific Coast division of the so called "invisible empire," and W. G. Price, king kleagle of the local klan. Simmons wired a statement from headquarters at Atlanta, Ga., that he did not believe any member of the Klan was connected with the Inglewood outrage.

## MISS BERTHA ROBINSON STEPS IN FRONT OF P.E.

**Miss Bertha Robinson, a resident for years of Garden Grove, threw herself in front of a Pacific Electric train at about 8:50 o'clock this morning at Mesto crossing not very far from Garden Grove and was instantly killed. She had been an inmate of the Norwalk State Hospital for the Insane for more than a year. The body was taken to Smith & Tuthill's undertaking parlors in Santa Ana.**

Around a year ago she tried to die by throwing herself in front of an auto.

Miss Robinson had come to Garden Grove to visit her sister, Mrs. H. V. Newsom, according to custom every so often. She wandered away from the latter's house, intending to take a short walk. She didn't stop apparently until she had arrived at the crossing.

The operators of the train, Roy Rupke conductor and S. P. Garnett, motorman, had no warning whatever of what was coming, and for while an inquest will be held they will be completely exonerated.

The body was hurled for ten feet, and except for an ugly wound on the head, did not bear a scratch, it is said. The fact that the woman was hurled out of the path of the train is what saved the body from being mangled to pieces.

Miss Robinson was 48 years old and had lived in Garden Grove since 1887, previous to her being placed in the hospital.

## CLUB HEARS SPEECH ON RUSSIA

An address by M. Alexander Schwartz, noted labor man and former radical Socialist, who "showed up" Bolshevism, and an exhibition of boxing and wrestling by experts of the Elks' Lodge occupied most of today's luncheon meeting of the Rotary Club at the Elks' Clubhouse S. S. Hartranft said privately in connection with his report on a recent Americanization meeting in Fullerton, that the local Rotary Club expects to have Miss Rishardson, head of the State's Americanization work, to speak under Rotary Club auspices here shortly.

Schwartz went to Russia in April 1920, and spent four months in prison for criticising the government, in the course of which his wife died. He was cared for by the Y. M. C. A. after his release. He claimed to have addressed the Senate and House of Representatives, Congressman Jullus Kahn presiding Emma Goldman, the anarchist, was re-admitted to this country, he declared, partly on his request, in order that Bolshevism might be revealed as it is by her, as it is being revealed by him. He has spoken in many cities of Southern California.

"In Russia he met Lenine, Trotzky and the other leaders of the Soviet government. Emma Goldman he met in Petrograd in June, 1920. When he was first arrested he was condemned to be shot.

Schwartz condemned Bolshevism and communism in unmeasured terms and said that a republic was the solution of Russia's political problem. Finland, Esthonia, Latvia etc. then would join in the movement with the Russians, he said. The treaty with Germany he said was a matter of self-preservation; neither country had any love for the other. Both were compelled to buy and sell to maintain themselves.

The Bolshevists numbered only 500,000 and were attempting to govern 132,500,000 people, he declared. The change had been from the extreme aristocratic government of the Czar to the extreme proletarian government of communism.

The wrestling exhibition was given by Al Sparkes of Anaheim and Barney Barnhardt, the latter showing the different holds—Jiu Jitsu, Graeco-Roman, half-Nelsons, full, hands and legs, arm, leg and body scissors holds, hammer lock, toe hold, etc. The holds were illustrated cleverly with Sparkes' aid.

Billy Darnley and Barnhardt gave the exhibitions of the positions taken in boxing and the various blows in offease and defense. Darnley directing it. Roger Cornell, boxing instructor for the Elks, conducted the two bouts.

John Ruether, Edward Schneider and Lee Etcholtz were appointed a committee for Rotary Day at the Valencia Orange Show.

The club accepted an invitation to attend the evening service at the First Presbyterian Church next Sunday.

Collins and Herbert Oelke went to Orange county park Saturday afternoon for an outing and picnic. A base ball game between two energetic picked nines resulted in bushels of fun and a score too high to count correctly. Other games and contests, with a hike over the mountains concluded activities in that line.

A bounteous lunch was spread in the late afternoon with an elaborate menu of picnic dishes, heaped to the tops. The committee under the chairmanship of A. Nagle, with H. A. Hawley and W. J. Ross assisting, received great praise. About fifty men and boys were in attendance at the outing.

Plans for the future activities of the temple, with other pleasant conversation, accompanied by the click of needle and thimble, made a very interesting afternoon. At 4:30 a two-course buffet luncheon was served.

## MIDNIGHT CLUB JOURNEYS TO GLEN IVY FOR BARBECUE

SURGENEYING to Glen Ivy yesterday, members of the Midnight club and a few invited guests enjoyed a steak barbecue and a thoroughly happy outing. A dip in the plunge was the first stunt on the day's program, the lure of the water being irresistible. Meanwhile grates were placed, big fires kindled, which were allowed to burn to a bed of coals. Then the delicious steaks were soon ready for serving and, supplemented with buns, salads, fruit cakes, coffee, a feast fit for a king was enjoyed. Games, hikes, a base ball contest and other strenuous exercises took up the time in the afternoon. Later and regretfully, the homeward journey was begun which ended in Anaheim about 8 o'clock. ### "KIND TO ANIMALS" WEEK

"Be Kind to Animals Week" opens today, to continue a week, including next Sunday, which is termed Humane Sunday. Members of the humane societies over the United States are preparing for this observance.

California was in the front ranks of active states in the volume of work reported last year and state committees are working with enthusiasm to make the observance fore general this year.

The movement to observe one week in each year as "Be Kind to Animals" week is fostered by the national federation, the American Humane association, at Albany, New York. Great quantities of literature are being sent broadcast and the association has volunteered to co-operate with any individual in any locality who will help the movement by undertaking special activity, and children are being urged to enter poster and essay competitions.

Appeals have been sent to clergymen of the United States to preach sermons on the subject of kindness to animals next Sunday and Matthew McCurrie, state secretary, will send material or preparation of such sermon should it be so desired, upon receipt of a post card sent to the office in the State Humane association in San Francisco.

Mr. Neff, who has been local agent for the Los Angeles Examiner for nearly eight years, has disposed of the business to Mr. Grimm, who has already taken charge.

## BIG FRATERNAL PICNIC HELD IN PARK SATURDAY

ODD FELLOWS and Rebekahs, with their families, took a large portion of Orange County Park over for their use Saturday when the annual picnic was held by the several lodges of the district. The crowd began arriving quite early in the day and baskets piled high were arranged in long rows over the tables. The morning was devoted to greetings, renewing of acquaintanses, discussing topics dear to the hearts of Odd Fellows and Rebekahs, while the children immediately "tried out" the swings, slides, etc.

Roaring fires in the furnaces soon had huge coffeepots boiling and busy Rebekahs spread the tables with good things, under the big elms, the sight of which excited such appetites as none had felt since last annual picnic day. And how those Odd Fellows did enjoy the meal.

After luncheon a program was announced, which opened with an address by H. C. Head, of Santa Ana, on Odd Fellowship. A piano solo, vocal solo, readings and other interesting numbers were included.

The games and contests were then begun. Each team had one or more contributions in the sports. Anaheim winning the relay race. The team was composed of Cooney Mauerhan, Will Mang, Henry Baxter and George Tanner, all of Anaheim. Anaheim also won the free-for-all hundred yard dash, represented by Henry Baxter.

Fully 2000 members of the two lodges and their families were present and the picnic was voted one of the best ever held. The afternoon closed with dancing, the music being furnished by Mabel Mitchell, Miss Melbra Dugas, Otta Krestal, Lawrence Mitchell and Guy Pollard.

### EVANGELICAL S. S. PICNIC

The Salem Evangelical Sunday school held the annual picnic Saturday in Orange County Park, with the usual good time from arrival to regretful departure. Games and stunts occupied the afternoon. Hikes about the hills were also a portion of the day's fun.

The big tables were laden with luncheon at 12:30 and happy faces smiled approval as one good dish after another found its way along the festal board. The contests of the afternoon resulted in merriment, the sack race being, perhaps, the most amusing. In this event Fred Link and Howard Pannier were victorious.

### CHRISTENING RITES FOR BABY BOYS

Immediately following the regular services yesterday morning in St. Michael's church, christening ceremonies for two baby boys were held. One, the little son of Mr. and Mrs. Victor G. Loly, of Long Beach, was given the name of Edward Maurice. Sponsors for the little boys were Edward C. Prentiss and Mr. and Mrs. Frank Champion.

F. W. Champion and Mr. and Mrs. Charles E. Harbeson and Mrs. Sadie Moore stood sponsors for Baby Harbeson Kendall, son of Mr. and Mrs. George W. Kendall, of Long Beach.

### BECOMES BRIDE THIS MORNING

At a very pretty but simple wedding which occurred this morning at St. Boniface church, Miss Margaret Bustamente became the bride of Mr. Joseph Yorba of Corona. The ceremony occurred at seven o'clock, with Rev. P. Brown officiating. The wedding was solemnized in the presence of relatives and only a few close friends of the principals. After the ceremony a wedding breakfast was served at the home of Mrs. Carmel Carissosa, a sister of the bride. The couple left yesterday for Corona, where they will make their home.

### CATHOLIC YOUNG FOLKS PARTY

Rev. P. Brown assisted by Father Doran of the St. Boniface church, and the sisters of St. Joseph's Academy were very gracious entertainers yesterday when they entertained with a party in honor of the choir girls and the altar boys. Father Brown entertains the young people twice a year, upon a Sunday after Easter and a Sunday before Xmas. Fully 45 were there to enjoy the good times. Games were played out of doors as there is much equipment there to spend the afternoon in merriment. Tasty refreshments were served in the late afternoon from the large dining room

### STANTON RED CROSS MEETING

The members of the Stanton branch of the American Chapter of the Red Cross will be held on Wednesday at 2:30 in the Stanton City Hall. It is imperative that all members be present.

Mr. and Mrs. Ed Marion, and daughter, Anita, Mr. and Mrs. Carl Martin and Mrs. Estelle motored to Balboa on Saturday evening where they enjoyed a delicious chop suey dinner.

### ENJOY EVENING AT BEACH

Members of the Studebaker Social Club put on one of their "once-in-a-while" Saturday nights when 20 couples went to Balboa.

J. C. S. Garrick, assisted by Mrs. Arneal, won the prize waltz. Mr Bruce gave an exhibition of fancy dancing, and Mr. Payne added a marvelous dash to the toddle, and a very enjoyable evening was spent by all. The following attended: C. A. Hammons and Mr. and Mrs. Wm. Booth, from Orange, Mr. and Mrs. Wm. Payne, Mr. and Mrs. J. C. S. Garrick, Mr. and Mrs. James Craig, Mr. and Mrs. Vincent Bruce, Mr. and Mrs. A. G. Schafer, Mr. and Mrs. Ackers, Mrs. Arnold, Miss Amanda Schafer, Mr. O. E. Hansen, Mr. George Arneal and Mr. Robert Arneal.

The grand climax was when Mr. and Mrs. Schafer came near spending the night by the sad sea waves. They missed the road and their coupe got buried in the sand. Mr. Bob Arneal, assisted by James Craig, lifted the car out and they were sent on their way rejoicing.

### K. OF C.'S TO GIVE DANCE

All members of the K. of C. and their families and the young people of the Catholic church are given a cordial invitation to be the guests of the Young People's Society on Tuesday evening. The features of the evening will be an excellent program and dance. Refreshments will be served.

# THE GLORIOUS FOOL AT THE CALIFORNIA

Whether they know it or not, all authors write about themselves or their friends. Mary Roberts Rinehart, who wrote the story of the new Goldwyn photoplay, "The Glorious Fool," which will come to the California Theatre for two days, beginning tomorrow, knew intimately the source from which her story came. In her youth, Mrs. Rinehart was a hospital nurse; and no doubt the part of the pretty probationer, played by Helene Chadwick, was suggested by some lovely nurse the authoress had known.

The story begins with the marriage of an inexperienced probationer to a private patient who is on the point of death. The patient is desirous of cheating his vulturous relatives of his fabulous fortune; and the poor, wracked nurse consents to the marriage only when she feels that her patient will not die content unless she acquiesces in his wishes. But the man gets well—uncomfortably well. And what is more, knows that he is in love with his nurse.

Then hospital politics come into play. The little nurse is transferred to a maternity ward, where her sympathies again cause her to do something that nurses simply don't do. And when it appears that she is about to be dismissed, that she has been a complete failure, fortune takes a turn and shows her many things she never guessed were in its wheel.

The rich patient in the case is played delightfully by Richard Dix. Mrs. Rinehart has expressed her pleasure at the excellent production and the consummate direction given "The Glorious Fool" by E. Mason Hopper. Under his guidance, the picture is a sweet romance with many tense moments that dissolve into happy events.

## MUCH INTEREST IN NEW PACKARD LINE

Auto fans were intensely interested in the announcement of the new Packard cars, which appeared in Saturday's automobile section. Dale & Co., are prepared to take prospects to Los Angeles to see the cars, a full line of which has not yet arrived here. The new single six five passenger touring sells at $2825 here and the big twin six at $4290 here.

## Village Gossip

M. E. Bever, Anaheim contractor, was startled, to say the least, for a time this morning. Under the circumstances he can hardly be blamed.

Bever, it will be remembered, is the father of thriving triplets. So this morning when Miss Marion Jean Rollins, a nurse, of Los Angeles, who is stopping at the Bever residence for a few days, telephoned his office and offered congratulations over the arrival of "twin kids," at his house, Bever went straight up in the air.

He calmed down somewhat when the nurse offered to take one of the twins off his hands. However, he didn't breathe easily until, figuratively speaking, he was given a blue print to the effect that the new arrivals were kid Toggenberge. Bever, being a builder, understands a blue print, at least.

The next time Henry Siefken and Gilbert "Scotty" Scott go deep sea fishing they're not going to take any short-legged guys along, like Johnny Steinborn, for instance.

The other day when the wind was blowing great guns, the trio attempted to get a light boat out the mouth of Newport harbor. When they hit the breakers the boat was soon filled.

"Jump, you long-legged stiffs, you can wade ashore," Steinborn is alleged to have advised.

When Siefken and Scotty were clear of the boat, Steinborn upset the boat and calmly rode it bottom-side up to shore.

The men who attend the fistic battles pulled off under the management of smiling Billy Darnley have nothing whatever on the women for real enjoyment, although the pleasure comes from a different source.

At the recent boxing match, a goodly number of women were in attendance and upon being asked how they enjoyed the contest one of them enthusiastically answered, "fine, never had so much fun in my life." This simply rather floored the interrogator, for women as a rule do not enjoy seeing one man deliberately bing another on the nose until the gory fluid streams, or cracks him over the head hard enough to knock out for a time what intelligence may have existed, but venturing a little farther with questions, it was learned the pleasure came from a far different origin.

"You ought to have seen those men chew gum in their excitement. It was the most fun! They made their jaws overwork harder than a harvest hand at a rancher's banquet. And they yelled, and sweat and said horrible words when their favorite received an adverse ruling."

"Talk about women at a bargain sale. Excitement is nothing compared to a bunch of men watching a boxing match."

When asked what the women did when the battlers' hit each other nasty blows she said, "Oh, we just turned our heads away and watched those excited men again." If ever you want to see men perform in an extraordinary manner, just go to one of Darnley's matches. It's too funny for words!"

If it's from Witman's it's good.

## GROVE HI SCHOOL CONCERT SUCCESS

GARDEN GROVE, April 24 (Spl.)—The concert given by the Garden Grove Union high school students in the grammar school auditorium Friday evening, was a success in every detail, and reflected much credit upon the pupils and teachers.

Song.

The selections by the orchestra, band and glee club were all splendid and the progress made by the students along musical lines was a surprise to those who had not had the opportunity to hear them before.

The drama, which was in reality a comedy sparkling with wit and humor and funny situations was especially good, and it would be a hard matter to decide just which one in the cast were the best, as they were all good, and this feature of the program kept the large audience in constant merriment.

Over sixty dollars was realized from the affair, which will go into the treasury of the school band, orchestra and Glee club.

It is hoped that the high school students will decide to give another entertainment in the near future.

## NO MORE LINCOLNS AVAILABLE SOON

George Dunton, local Lincoln distributor, is congratulating himself that he was able to get delivery of a carload of the autos when he did. The order has gone out from the factory that no more deliveries will be made to dealers who have received one or more models until all Ford dealers desiring a demonstrator have been supplied. This may mean a delay of some time before Dunton can hope to obtain more Lincolns.

Dunton, in common with the other 8000 Ford dealers, is making a drive for subscriptions for Henry Ford's weekly, The Independent. Dunton was given a quota of more than 200 subscribers or just half his sales of Ford cars and trucks last year. Last week Dunton's salesmen took 51 subscriptions.

Indigestion Unchecked Leads to Poisoning!

Fermentation of Food in Digestive Organs Causes Gas

If you suffer from indigestion it is a sure sign that your system is being slowly poisoned by the fermentation in the intestines. This condition produces heartburn, choking sensations in the chest, a feeling of heaviness or drowsiness, irritability, discouragement and despondency.

Mr. M. J. Christopher, 5724 Keyser Street, Germantown, Pa., long a sufferer from indigestion, writes:

"Before using Dr. A. W. Chase's medicines, I felt so badly that I did not care whether I lived or died. I suffered from indigestion and my stomach would be so upset that even a piece of bread and a cup of coffee would give me great pain. Since taking Dr. A. W. Chase's K-L Pills I can eat almost anything without feeling any after-effects. The sore, achy feeling which I used to have in the lower part of my back is gone, and I feel so ambitious to do many things which I could not do before."

You can buy Dr. A. W. Chase's remedies at all drug stores. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M.D., are on each box. This trade mark is your protection against imitations and substitutes.—Advertisement.

### DAILY GREETINGS TO OUR READERS

It is success that colors all in life:
Success makes fools admired, makes villains honest,
All the prous virtue of this vaunting world
Fawns on success and power, how'er acquired. —Thomson.

Be careful with fire!

Help to protect the forest reserves against fire!

The radiolin germ is infecting about as many persons as the "flu."

Should Villa return to politics, good-bye to peace in Mexico!

Husky exercise in the open air is a sovereign remedy for "spring fever."

Thrift in the days of prosperity is insurance against hardships in the days of adversity.

The middle West is having its bitter object-lesson as to the need of scientific control of floods. Every big, destructive freshet is an argument in favor of flood control!

How soon does Europe forget the terrible lessons of the World War! How quickly are filliances made which may be the basis of another great struggle, a few years hence!

Former President Wilson has done the public a disfavor by starting Senator Reed upon a talkfest. That is an infliction which the newspaper reader should not be called upon to bear.

This country is making a costly mistake to permit floods to run wild. Flood losses will be greater and greater as population increases. The most economical thing to do is to control flood waters scientifically.

Efficiency in government is another name for honesty in government. No one is strictly honest in a governmental position unless he is efficient to the full measure of his capabilities.

Take your politics seriously, but not dogmatically. There is some good in the political party to which you are opposed, as well as in the one which you support. Naturally, you think there is more good in the principles, policies and methods of the party which you support—if you did not think so, you would not support it. It is well to remember, however, that there are men and women of intelligence and integrity in all political parties and that there is good in all parties. Choosing one's party is a question of relativity—and the intelligent person makes choice of the party which he or she esteems most highly as compared with the others.

### FREAK PERFORMANCES IN AIR ARE DEADLY

Death of a young aerial cadet at Sacramento, in giving an exhibition of daredevil feats in the air, focuses attention upon this practice of doing "stunts" in airships which invite tragedies and which, in many instances, come to tragic end. The public approaches a reasonable degree of daring. But nobody, except the morbid wants flies to risk their lives in feats which manifestly are extra-hazardous. The person who cannot get a thrill unless somebody is killed or mangled in too-daring exhibitions does not deserve to have a thrill.

These super-perilous performances should be discouraged everywhere. They not only endanger the person who engages in the freak feats, but oftentimes they imperil spectators. Furthermore, the morbid craving for excitement of this kind should be discouraged, particularly in the young. It has a demoralizing effect. Life is too sacred to be put up and auctioned off at so much money to sate the appetite of the maudlin for sensationalism and thrills.

It required courage to pioneer California. It requires courage—but of another sort—to shoulder the mighty moral, political and economic responsibilities of today. Each generation has its own conditions and ways and means of testing men's souls. These are as brave days, in a different way, as were the days of the pioneers.

### WISE AND WITTY

Wisdom consists in keeping your ignorance from breaking out.

### INSUBSTANTIALITIES

A misty moonlit sky, on moonlit sea,
A soul moonlit, the misty soul of me.
And nothing else but a sight of misty air
And a firefly like a drop of phosphor-dew
Hung on the humid dimness—then, not there.
All is a dissolution and a dream,
A world that is not but can only seem,
A world of mist distilled from moonlit space
And insubstantial save to an earthless soul

# Town in Review

It it is true that "all the world's a stage," why not make more liberal use of the "hook?"

### SERVED HIM RIGHT

One young Topeka sport has been taught his lesson. He took a young lady out in the country driving. His ardent love making disgusted her. She accidently dropped her handkerchief out of the car. He got out to get it. She slid over in the driver's seat, stepped on the gas and drove back to town, leaving the car in front of his home. About two hours later the young sport trudged into town. He had to walk six miles.—Topeka Capital.

A fool with judges, amongst fools a judge.—Cowper.

"What makes you so sleepy around the office?" I asked of the Office Grouch.

"It's my sense of duty," he answered, suppressing a yawn. "You see I lie awake too much at night thinking about my work."

Why should not conscience have vacation.

As well as other courts o' the nation?—Butler.

Hugh Fullerton says that some folks will believe anything about you as long as it is the worst. That's what some people think about Hugh as a baseball prophet.

### BEST INJUN STORY

In early Arizona days help on ranches was scarce. One man, about to despair, was advised to employ Indians. "I've tried 'em," he said. "They start working, and when I go around to see what they've done, they're all asleep."

"I can make Indians work," said the other. "Hire me as overseer."

He was hired forthwith. The first morning he took the Indians out to work, the new overseer said:

"My time is too valuable for me to sit around here and watch you. But I shall leave my eye to guard you while I go fishing."

Then he took his glass eye out and laid it on a stump in sight of the aborigines, who immediately fell to work and distinguished themselves for quantity of production. This lasted several days, and the Indians were becoming mere skeletons from overwork, when one day a wise brave had a thought—he took an old tomato can and covered the eye with it. Then all the Indians went to sleep, and the spell was broken.

Nothing is more friendly to a man than a friend in need.—Plautus.

The Office Grouch says that home life isn't what it is cracked up to be. "For instance," sighs the Grouch, "we always have to put the cat out, but the fire goes out of its own accord."

Boston university proposes to have a college course for bellhops—after which they will doubtless say, "I thank you in token of my sincere appreciation," instead of "Tanks for de dime."—Contributed.

Miss Flossie Fernfrill of Fullerton, says that the reason she thinks she would make a good wife is because she would let him eat down town just as often as he wanted to.

### LIKE SOME OTHER PEOPLE WE KNOW

Of the Stillmans a biographer might write: And they were married and spent the rest of their lives in the divorce court.—Courier-Journal.

Dear Town in Review: Keep up the limericks. This may help:
Oho, domestic was called Mary Ann,
And she came from the County Cavan.
To lessen her toil
She lit fires with oil.
Now we miss her, and also the can.
—G. C. D.

As a vessel is known by the sound, whether it be cracked or not, so men are proved by their speeches, whether they be wise or foolish.—Demosthenes.

### GOOD FEELING

A lovely old feeling to feel that you've done
Something each day to bring some one the sun.
A lovely old feeling to feel that your heart
Has striven all day to give daughter a start.
A lovely old feeling to have done what you could
For somebody's comfort and gladness and good.
A lovely old feeling to feel that you're borne
To somebody's darkness a glimpse of the morn.
A lovely old feeling to feel that you care
Enough to kneel down and thank God in prayer.—Baltimore Sun.

Complaint against the thankless scissors hounds is voiced by the Wilmington, O., News-Journal, as follows:

"One of the main difficulties we have in picking up a newspaper to find some original ideas for paragraphs is that we are apt to stumble on to some honest-to-goodness ones of our own that are being run with somebody else's name signed to them."

Full many a line I've writ,
Full many a yarn I've spun,
And at the end it's good to hear
Somebody say "Well done!"

## What Editors Are Saying

### SUITABLE DRESS FOR WOMEN—Berkeley (Cal.) Gazette

Mrs. Mary Roberts Rinehart, to whom one writer refers as "probably our best dressed best seller," has been shopping in New York and sends out a few ideas on dress to her interested sisters far and near. Among them are these observations:

"The keynote of the year's clothes is femininity, and they are more covering than they were last year.

"No woman over 30 should wear the knee-length skirt, for the mature leg is not beautiful.

"Wearing knickerbockers in the city seems to me an affectation, not the ideal of dress.

"A woman is well dressed when she can stand the sharpest scrutiny, but nobody turns to look."

Mrs. Rinehart herself is the farthest possible removed from the old ideas of frowsiness and ill-taste in the artistic or literary woman. Also, she is possessed of fine common sense and what she says about clothes safely may be passed along as good advice.

"Why is the Flapper always flapping about?" somebody asked a little while ago. Someone else replied promptly, "Probably she is out flapping after her mother." Mrs. Rinehart has sounded the same note, only in a different key.

# YORK LETTER

One never knows how close at hand genius may be. I was shown a remarkable novelty in the amateur radio world today, by its inventor, Frank L. Copeman. It is the smallest radio receiving apparatus in existence, a neat pocket-size, that tips the scales gently at three ounces, and stands on one's desk to the miniature height of one and one-half inches, with a diameter of one inch. It means that any woman can carry it about in her pocketbook and sit in to listen to a concert whenever she feels inclined. And Frank, it happens, is an elevator boy in our building who has carried me hundreds of times to my office floor without my ever suspecting he whmuch more he knew than I! He explained it to me but I am not even intelligent enough to understand the explanation very well. Anyhow, I gathered that the secret of its small size lies in the compact winding of the wire coil. A tiny telephone receiver forms the base of the instrument, and a set of metal contacts or taps with a crystal receiver and revolving tuning knob gives a remarkable range of tuning.

Every once in in a while, one comes across an exhibition representing the work of a single artist which gives inspiration for fascinating interior decorating. Recently, I saw one of silk paintings, hooked rugs, and brush drawings at such an exhibition. The paintings were on silk in the form of curtains and opened up all sorts of delightful possibilities for an apartment.

After all the press-agenting of the aristocratic cavaliers who were devoted to the Dolly sisters while they were in London, it has surprised some of the Broadwayites to note the evident pride they have taken in the frequent times that Jack Dempsey has called for them at the Palace Theatre during their engagement here to take them to dinner. He seemed proud of them on these occasions, and they just as proud of him. It's quite all right, of course ,but Jack is NOT a polished aristocrat, however much of a champion in his own world.

Watch out for more cyclones and whirlwinds and temperamental freaks of the air. With grand opera singers and other high-strung artists singing and playing for the radio, the air is being surcharged with temperament, and is likely to break out any time into a bit of temperament of its own.

Why should men seek, through hardships and peril, to reach 90 degrees north latitude, where the thermometer registers 90 degrees—more or less—below zero? Captain Amundsen has been to the South Pole and now he will not be content until he goes across the northern extremity of the Earth's axis.

If the warm weather of last week had continued it would have cost the florists of this city $1,000,000 in Easter flowers ,according to the big flower concerns here. Now hothouse flowers must be used instead of those from the gardens.

A dog's devotion came close to delaying the departure of a big French liner the other day. It was a German police dog, who went down to say goodbye to his owner, Mrs. Mary Stephens, of 152 East 79th street. When the whistle blew the final "all ashore," he refused to leave his mistress and tugged so strongly on his leash that it required the united efforts of several men to drag him down the plank. Even when safely brought to the pier, it was all they could do to prevent him from jumping into the East River and following the ship.

# BEGIN IMPROVEMENT OF LOCAL Y. M. C. A.

Carl Warner, of Orange, connected with the "Y" at Orange is now at the Anaheim "Y" building renovating and getting ready for the improvement of the place. A temporary establishment of the "Y" in Anaheim has been made with Miss Catherine Owens as secretary.

George Chesnutt, county secretary, is also located here until the "Y" program is put thru in Anaheim.

### MARY GARDEN RESIGNS

CHICAGO, April 24.—The expected resignation of Mary Garden as director of the Chicago Grand Opera Co. has been issued. Miss Garden will remain as an artist with the company.

# FAIR PLAY

For an institution that played fair with President Wilson, the War Department, General Pershing and the A. E. F.—

Fourteen Points you ought to know!

DO YOU KNOW?

1—That the Y. M. C. A. was the first to enlist for service in France?

2—That at the urgent request of the President it called 6000 men and women to give up good positions and "follow the boys" at nominal wages?

3—That these servants of the A. E. F. went "over there" to endure hardship, hazard their lives, and jeopardize their livings to "do their bit?"

4—Do you know that 262 were killed or wounded at the front? and that 268 of them were cited for bravery under fire?

5—That they served 1500 huts, while only 70 huts were served by other welfare agencies?

6—That they furnished 7850 workers to 544 furnished by other welfare societies?

7—That they suffer unjust and shameful criticism and "carry on" with smiling faces?

8—That they became the selling agents of the government at General Pershing's request, and took over the Canteen and yet gave away more supplies than all others combined?

9—That they sold supplies at cost with price lists posted and censored by Army officers?

10—That they sold free tobacco, due to the mistake of the Army Canteen, and for which the Canteen apologized and accepted responsibility in writing?

11—That they were investigated by the War Department no less than twice at their own request, and vindicated in writing and most highly commended by Gen. Pershing?

12—That they served millions of "dough-boys" in war camps in this country with universal appreciation and practically no criticism.

13—That the two embezzlers and a comparatively small number of inefficients were summarily dealt with as soon as discovered?

14—That the Anaheim Y. M. C. A. property on So. Philadelphia street, consisting of 145 feet by 145½ feet is absolutely free of debt? That the swimming pool, 20 feet by 60 feet, is as large or larger than nine-tenths of the "Y" swimming pools in the country? And the buildings can be made a real "Y" club house, and the grounds an athletic field? That any criticism of this "Y" overseas has little or nothing to do with the campaign for $4500:00 a year annually for three years for a Y. M. C. A. secretary for Anaheim to supervise and promote a program with this equipment as a center, and that this fund will be expended for the boys and young men of your community and by men whom you know and trust?

"You did not know?"

Well, you know now and you ought to give to this honored institution

A SQUARE DEAL.

### To the Good Citizens of Buena Park and Vicinity:

It take pleasure in making known to you through the columns of this paper, that the reports that are being circulated presumably by office seekers against Mrs. Hattie A. Allen, stating that she is selling to the City of Fullerton the land North of and adjoining Buena Park, for sewage disposal is wholly untrue, in the first place the land mentioned is not for sale and cannot be sold until the land lease is terminated which is two years yet. Again the city of Fullerton has never made any demands for this land for sewage or other purposes so the offenders who are circulating such malicious lies against Mrs. Allen's good business and name must stop at once. If you want to incorporate Buena Park, go after it in a clean way and do not try to scare the people into incorporating to keep out Sewage, for the city of Fullerton would not want water soaked doby land for such purpose.

And the good name and reputation of Mrs. Allen is too high for such efforts. She has more property on East Ninth Street than in any other part of town and such a step would depreciate her property more than any one else. Therefore I beg of you to investigate this matter by going to the City councilman's books of the city of Fullerton and see if such action has been taken.

Signed Mrs. HATTIE A. ALLEN.

## ANAHEIM WINNER OF DECIDING GAME

Anaheim Elks won the third and deciding game of the series with Arcadia Elks yesterday afternoon on the local high school field by the score of 10 to 6. Corpe, the elongated twirler of the Arcadia team, was driven from the mound, Johnson, shortstop, replacing him after the fifth.

Hughes pitched a neat game for the locals, holding the visitors to 12 well-scattered hits. Seven costly errors behind him figured in all of the six tallies made by the visitors.

Welcome news to the local fans was the fact that Eddie Dunn appeared yesterday to have located his batting eye, grabbing three hits out of five times up. One of them, a triple, which drove in Anaheim's first tally by Captain Buster, was called no good, the base umpire, who was from Arcadia, calling him out for not touching second.

After scoring two in the first and one in the third, thelocals piled up five in the fifth, on six hits.

The visitors attempted a swan song in the ninth, scoring three when a man was hit by pitcher, a double, a triple and two errors.

Blenkiron, famous sprinter of the Vernon Pacific Coasters, was in the lineup for the visitors. First time up he fanned. He singled the second time and the third he stretched a good, healthy single into a double by some fast leg action. The fourth time he failed to get one of his claims to fame from in front of Hughes' outshoot and will carry a blue spot on his kneefor several days.

Anaheim's lineup was badly shattered yesterday with the absence of Stephens, Ramage, Pendleton and Callahan. With only eight men out in uniform, it was necessary to delay the game a quarter of an hour until Wroten, of the Fullerton Edison team, could be rounded up.

Following the contest, Tom Onzo, who claims to have wrested the long distance hiking championship from Weston, gave an acrobatic exhibition. He is considerable of a contortionist. One of his stunts is to scratch the top of his head with the toe of his shoe.

## NATIONAL GINGHAM WEEK APRIL 22-29

April 24-29 is National Gingham Week, and all or nearly all of the local drygoods stores will feature gingham goods, gingham gowns, etc.

The multifarious uses of the material will be featured. Gingham is now used for 100 different purposes, where years ago it was used for ten or a dozen. Ginghams, gingham garden frocks, kitchen articles of various kinds — all are made of gingham, which wears well, looks well and is remarkably cheap compared with other goods.

Women are thinking now of summer clothes, budding flowers and spring, and at no season is gingham more in demand. Never, also, has the variety and beauty of ginghams been greater. Never has the cloth shown more individual patterns.

Stores have been asked to have their saleswomen wear gingham while on duty this week, but this has not yet been decided upon.

Read this catalogue of the things made of gingham: Summer draperies, handkerchiefs, a current fad; inexpensive sport hats, made or trimmed with it; cushion covers, collars and cuffs, blouses trimmed with it, upholstry for wicker chairs, and other uses too many to mention.

## REALTORS' CARAVAN WILL TOUR STATE

"An All-California Welcome."

This is the slogan adopted by the managers of the Realtors' "End-of-the-Trail" Caravan which will be the outstanding entertainment feature of the visit of the delegates to the Pacific coast on the occasion of the annual convention of the National Ass'n of Real Estate Boards at San Francisco May 31 to June 3. Although the automobile caravan tour from Los Angeles to San Francisco on May 29 and 30 is sponsored by the Los Angeles Realty Board, it is in the fullest sense a co-operative entertainment participated in by all California realty boards and in which every realtor is host to the visiting delegates.

"As the 'End-of-the-Trail' caravan plans develop, it is evident that it will be the biggest thing of its kind ever arranged on the Pacific Coast," said Colonel William May Garland, general chairman of the caravan committee yesterday. "Never before, as far as we have ascertained, has there been an automobile tour of any extent participated in by as many persons as we expect will be our guests on the Los Angeles to San Francisco caravan tour. The enthusiastic responses which we have received, and are daily receiving to California's invitation to the realtors of the nation to enjoy the state's scenic beauties and to become acquainted with its vast resources through this two-day, 500 mile de luxe automobile trip, gives assurance that the invitation has been widely accepted in the hospital spirit in which it was issued. When the caravan starts out from Los Angeles on its journey on the morning of Monday, May 29, we believe there will be many automobiles in line than were ever gathered together for such a long trip. It should prove to be a splendid exemplification of the big way in which California is in the habit of doing things.

"The big thing about the caravan entertainment is that it is not a Los Angeles movement merely, nor of even several communities acting together. It is too big for that. It is truly 'An All-California Welcome.' Through the invitation the hospitable heart of the Golden State speaks and pridefully asks these leading business men of the country to learn of its attractions and its greatness as its guests."

Letters were sent out last week by Col. Garland, as chairman of the caravan committee, to the 700 members of the Los Angeles Realty Board asking them to lend their automobiles for the San Francisco tour. It is estimated by the committee that it will take about 400 cars to accomodate the delegates, their wives and families.

At a meeting of the general committee held yesterday at the Los Angeles Realty Board, the personnel of the various committees was finally decided upon and chairmen chosen. President Frank Ryan, of the Realty Board, is acting with the general caravan committee, of which Col. Garland is chairman and Herman Janss, vice-chairman. The sub-committees and their chairmen are as follows:

Auto and Trail: Herman Janss; baggage, R. Z. Adams; entertainment and reception, Fred Latimer and Harry Haldeman joint chairmen; finance committee, W. I. Hollingsworth, O. A. Vickrey, W. Ross Campbell; hotel, R. L. Borden; registration

## USE ESSEX CAR TO DEMONSTRATE RADIO

An Essex car was in Fullerton and Anaheim today to demonstrate for a Los Angeles newspaper how radio messages are received. The local demonstration is expected between five and six o'clock this evening. Similar demonstrations are being given in all cities of So. Cal.

The first stop will be made at Orange, the second at Santa Ana. The sound is magnified by the magnavox. According to E. E. Twombly, radio manager for the company which is conducting the demonstrations the sound is distinctly audible. He said:

"The practicability of the instrument was proved.

"The aerial on the coach is a loop aerial, 18 inches square, wound with 75 feet of No. 14 bare copper wire. The aerial frame is of solid hickory with No. 14 lead in wires, stranded, with very heavy insulation. The aerial with the apparatus used, can receive messages within a radius of more than 200 miles.

"The set consists of a variometer, vario-coupler, with bank windings and two balanced vario-condensers with a receiving range of from 175 to 3100 meters. The set works with a two stage amplification and a loud speaker or magna vox, which can furnish entertainment in a room 160 feet square.

"The receiving set is operated with power from an ordinary automobile storage battery. It has been perfected so that all scratching and hissing sounds are eliminated. The set was taken from the large stock now on hand at the Beacon Light Company."

Frank H. Brooks; publicity, Guy W. Finney; So. Cal. boards, Harvey M. Porter and Herman Janss, joint chairmen; badge and banner, Robert Baker.

## GOVERNOR SPEAKS IN FULLERTON SUN.

Gov. Wm. Stephens gave two splendid addresses in Fullerton yesterday which were well received. In the speech at the theatre the governor touched upon the importance of Bible study and its place in the civic life of a community. He also emphasized the importance of law enforcement and the effort that is being made to provide homes for the ex-soldiers. His speech was free from politics.

The governor's speech at the church was more pronounced in its religious tenor and proved a delight to the great audience that greeted at the theatre by Frank M. Dowling at various places, the gifts were and at the church by the pastor. Roy Fordham sang several numbers at the Houser Bible session and Elno Smith played a cornet solo which was greatly appreciated. Miss Ruth Howarton sang a beautiful solo at the church. The governor was introduced at the Bible class by the pastor, Reverend Houser, and at the church by C. C. Chapman.

**MISS CLARK GIVEN SHOWER**

About 20 of Callie Clark's friends gathered at the home of Mrs. J. Farley on West Wilshire and surprised her with a linen shower. ## "Trouble"

Behind your telephone service is the "plant" — a complicated mechanical equipment of poles, cables, wires, switchboards, instruments, etc., carefully adjusted and absolutely dependent on perfect construction and maintenance.

The "plant" is constantly subject to accident and outside interference. Storms, fires, the carelessness of workmen, the pranks of children, concealed defects of material—all play their part.

The telephone company maintains a skilled force whose sole duty is to quickly restore service interrupted from any cause. Your lines are constantly watched and tested.

In the case of trouble we are generally the first to know it, but a notification to our Complaint Department when there is anything wrong will be appreciated.
