

12-Ct. Duty
ON SHELLED WALNUT PRODUCT
Senate Vote Means Saving of \$2,000,000 Annually to Growers

Marking the victorious finish of a battle waged in Washington for more than a year, the protective tariff on walnuts was fired by the Senate, according to a telegram received by Sales Manager W. T. Webster of the California Walnut Growers' Assn., at 12 cents on shelled and 4 cents on unshelled walnuts. This is the highest tariff ever placed upon walnuts. Not since the days of the Taft administration has the California walnut industry had a protective tariff that has been anything near adequate, according to officials here.

The Underwood tariff bill, adopted during the Wilson administration, fixed the walnut duty at 7 cents per pound on shelled and 4 cents per pound on unshelled walnuts. This schedule, the growers agreed, was hopelessly inadequate. The difference in cost of production here and in Southern Europe and Manchuria, was so marked that the former would find it difficult to compete in the world market of this country.

Imports increased at such a startling rate that during the first five months of this year, imports in 150 days were far in excess of all imports for 1921, and more than double the annual consumption of walnuts in the United States.

The new tariff on walnuts will save the growers of this state upward of \$2,000,000 a year, said Sales Manager Webster. "Foreign competition," because of lower labor and low production cost, has threatened the California walnut industry with ruin.

Other rates agreed on are as follows: Almonds, unshelled, 5 cents per pound; shelled, 15 cents. Dates in House bill were 4 cents and 12 cents respectively.

Huge Loss Entailed By Many Strikes
WASHINGTON, July 6.—More than 3,000,000 men and women in the United States are on strikes, protesting against wage reductions. Figures made public today by government agencies recalled that approximately 9,000,000 hours of work a day are being lost by industries because of walkouts. Labor department figures show a total of 1,100,000 men are on strike, including 400,000 railway men.

Another burglary occurred last night on the Santa Fe tracks near the local station. The second time a box car a short distance from the freight office, loaded with merchandise for local merchants, was broken open. No one was in the car and a large quantity of tobacco and cigars were missing. The car was found broken open.

The tobacco and cigars belong to the local United Cigar Store. Six boxes of cigars and several packages of cigarettes were recovered under some railroad ties. It is estimated that three cases of tobacco, including cigars, cigarettes, "smoking" and chewing tobacco, were taken. B. Moody, police officer, investigated the case.

UNABLE TO AGREE UPON SCHOOL SITE
Unable to reach a decision at the mass meeting held in Garden Grove last evening to decide upon a suitable location for the proposed new high school building, the meeting was adjourned. The matter will be left to the trustees, who will hold a session tonight.

Should the trustees be unable to agree upon the site, it will be necessary to bring the matter to a vote, as the trustees are unanimous with the members of the board in holding out the others.

BIG INCREASE IN COSTS OF BUILDING
Permits for Half Year in Five Cities Total \$4,078,872

Reflecting the tremendous growth in business and population in this section in the last year and setting a high mark for future operations, building permit figures for the first six months total \$4,078,872 for five of the principal cities in Orange County. Santa Ana, Fullerton, Orange and Huntington Beach, statistics compiled here today showed.

Shattering all past records for the city by a wide margin, figures for building operations in Santa Ana alone in the first half of the year reached a total of \$1,854,240. The increase over last year was \$1,250,254.

Anaheim with a total of \$689,295 for the 1922 period ranked second among the cities of the county. The record of the city having surpassed that of the first six months of 1921, when permits totalling \$458,150 were taken out, by \$231,141.

Showing a 122 percent increase over the first half of 1921, the figure of \$150 per cent for the six months period, building permits for Fullerton this year total \$454,769. The 1921 mark was \$122,884. The figure this year surpasses those of last year by \$324,723.

PRISONERS DON'T COST CITY MUCH
The city jail board bill for April, May and June, 1922, amounted to \$125, according to a report made to the board by Frank Steadman, city marshal. The city has had but few inmates to pay for, it is stated.

LOCAL BOY DIES IN L. A. HOSPITAL
The sad news of the death of Sheldon Hickox, 25, reached Anaheim friends late last evening from the California Hospital, Los Angeles. The boy had been in the hospital several months ago, young Hickox underwent an operation for appendicitis and a week ago was improving.

E. H. Metcalf, well known Anaheim man who is being urged to enter the primaries for the nomination for assemblyman, stated today he would make known his decision in the matter within a day or two.

BOOSTER FOR CITY
"I'm going to move to Anaheim or vicinity if I have to rent my place," said Emil Koepfer, brother of Mrs. Richard Groves, when he was here. Groves is proprietor of the Star bar. Koepfer came here with his family from the state of North Dakota, where he has a hotel. He managed to visit the Orange Show on the last day and since then has been writing his sister here about coming. Before he saw Call, he had the idea like so many others that the Groves were merely semi-professional sports. Now he thinks differently. Groves took him far south, as Capt. Lettrano and showed him as much of the southland as possible.

GRAB MAN IN L. B. FOR BEATING BOB
Bob Cook, wanted in Anaheim on the charge of attempting to defraud a board bill at the Crown Cafe on So. Los Angeles, has been apprehended in Long Beach upon a warrant sent there by A. W. Wood, local constable, and is to be returned here for hearing. It was learned this morning.

LIGHT ON CLIFF DWELLERS
WASHINGTON, July 6.—Researches which may throw further light on the age of the cliff dwellers will be made in a recent found ruin in Colorado. Dr. Walter Hooten, in chief of the bureau of ethnology of the Smithsonian Institution, is en route West.

175 INJURED BY PANIC IN NEW YORK SUBWAY
NEW YORK, July 6.—More than 175 men, women and children were injured in a panic caused by a short circuit in a north-bound express train on the Lexington avenue subway between fifty-sixth and Fifty-ninth sts. today.

The accident brought the train to a halt. Smoke from burning insulation threw the passengers into a panic of fright that the train was on fire.

Instantly those in the front cars began to rush for the rear. Men, women and children were caught in a wild, scrambling mob. Some were knocked down and trampled. Others were crushed against the sides of the cars, smashing the glass in the windows.

Three guards of the rear cars refused to "open the doors, fearing the terror-stricken passengers would come in contact with the third rail and be electrocuted.

As those in the rear pressed forward the crush in the rear cars became terrific. The police ordered every available ambulance from all the hospitals in the neighborhood to the scene.

Fire apparatus was rushed to the scene from half a dozen stations. The rear end of the train was derailed and caused an explosion of gas. The shock, noise and smoke caused rumors to be circulated that a great disaster had taken place and soon a mighty crowd was surging about the scene.

Members of the fire department went through the thick, sickening fumes to the subway tracks. There they found the crowd of the street through the Fifty-third street emergency exit.

BURY ELECTRICIAN IN S. A. SATURDAY
The funeral of Bert Miles, electrician of the Southern Sierran Power Co., who was electrocuted at a substation near Andrade, will be held at 10 a. m. KILLS 300 SHEEP
DURANGO, Colo., July 6.—The poisonous whorled milkweed has once more got in its deadly work here. The plants are being driven to their summer range and off the beaten trails, 300 head of sheep, the property of the Mexican border city today increased the vigilance of officials who are attempting to ward off new arson attacks. A fire is believed to have been responsible for disastrous fire causing a damage of more than \$1,000,000 recently.

HOPE IS HELD OUT TO END BIG TIE-UP
CHICAGO, July 6.—Prospects of a settlement of the nation-wide strike of railroad shopmen improved today when B. M. Jewell, head of the railway employees department of the American Federation of Labor, welcomed the intimation of Ben W. Hooper, chairman of the railroad labor board, that the way for further negotiations is still open.

"If any one has any proposal up his sleeve be need not hesitate to shake it out. The organizations are ready to submit a proposal and such a proposal will be given careful consideration. We want to go for a conference with Hooper or anyone else if we are invited and those persons have a proposal to submit."

In a brief formal statement Jewell took issue with the statement of Hooper that the shop crafts unions are ready to submit a proposal and such a proposal will be given careful consideration. We want to go for a conference with Hooper or anyone else if we are invited and those persons have a proposal to submit."

"The letter itself (Hooper's letter of yesterday) has not yet reached me, but I can, on the basis of press reports, say that the mere declaration that the organizations of employees who have or may have their legal right to decline to accept the dictates of the labor board, are not to be 'outlawed' does not remove the annual official action of the board. The language of the resolution clearly provides that the shop crafts organizations are to be recognized by an organization of what may be termed 'whitelashed strike breakers'."

CONCORDIA SHOWS MEMBERSHIP JUMP
The Concordia School, with 30 more members pledged to join today, shows a jump of approximately 50 per cent in membership the past week. The increase is due to the new club house on West Broadway. A week or more ago 56 of the sort in the county, says Hooper.

The opening celebration on July 2 and observance of the Fourth, with regular events provided for by the extra efforts of the Mexican border city today increased the vigilance of officials who are attempting to ward off new arson attacks. A fire is believed to have been responsible for disastrous fire causing a damage of more than \$1,000,000 recently.

MEXICALI GUARDED AGAINST FIREBOMB
With armed guards stationed in the Chinatown section of Mexicali, and the city proper being policed by extra efforts of the Mexican border city today increased the vigilance of officials who are attempting to ward off new arson attacks. A fire is believed to have been responsible for disastrous fire causing a damage of more than \$1,000,000 recently.

FIND \$2000 IN POCKETS OF PATIENT
DENVER, July 6.—"Call the officers and have them take me to the hospital. I am very sick and I have no money," F. Swartz, 56 years old, 1206 Larimer street, made his plea Wednesday to neighbors. Thursday morning Swartz died of cancer of the stomach. In his clothes the officials found \$2,000, including \$1,500 in cash and \$500 in Liberty bonds, it was learned.

FIRE EASILY EXTINGUISHED

REBEKAH

PUBLIC CEREMONY OF TWO LODGES IN FULLERTON

THE first public installation for the second half of the year in the district of Rebekahs and Odd Fellows was held last evening in Fullerton, when Mrs. Mary Palmer, district deputy grand president, assisted by an efficient staff, seated the officers for the next six months in the Fullerton lodge. Among the deputy grand officers was Mrs. O. J. Linhart, of 211 East Fremont, who is deputy grand warden. The work was especially well done and received the hearty approval of the audience.

Public installation will be held this evening in Orange, when an unusually fine program and social evening is planned. All Rebekahs of the entire district are most cordially invited, as well as all visiting Rebekahs. Officers will be officially placed in Syracuse Rebekah lodge, in Santa Ana Saturday night, and during the next two weeks the remaining organizations of the district will be visited and installation occur.

Attending from Anaheim were Mr. and Mrs. Linhart, Mr. and Mrs. Henry A. Mang and Mr. and Mrs. William E. Mang, the Misses Minnie and Elizabeth Mang, Frieda Jans, and Adele Howard.

Tomorrow night the Rebekah lodge will meet in regular session when initiation will feature the meeting. The unmarried men of the order will be the hosts at the social and refreshments near following.

American Necks Beautiful

Dr. F. P. Millard, of Toronto, president of the International League of Lymphatic Research, in an address before the annual convention of the American Osteopathic association, now in convention in Los Angeles, gave greatest praise to American girlhood beauty and shoulders. Dr. Millard stated that in no other races is there to be seen the graceful necks and the well defined upper chest region. He declared that clean habits, outdoor life, sunshine and carefree temperament has much to do with such exterior loveliness. Abstinence from large quantities of tea, coffee and other stimulants, and fondness for vigorous outdoor sports enables the American women to surpass her European sisters.

Celebrate In Los Angeles

Mrs. W. H. Critton has returned from Los Angeles where she has been spending the past week with her daughter, Mrs. F. W. Taylor, and the end of the Fourth, Mrs. Critton, with Mrs. Fields, celebrated their birthday with a large party. The two hostesses were recipients of many pretty gifts. Mrs. Critton received a handsome silver set. Covers were placed for Mr. and Mrs. Munz and Mr. and Mrs. Nelson. Mrs. Critton, with Mrs. Fields, celebrated their birthday with a large party.

You Can Get a Lot of Work Out of One of These International 8-16 Tractors

YOU don't have to lay off because of heat, or stop when the going is hard. You can tear into the work in the morning and by nightfall you've put a lot of it behind you.

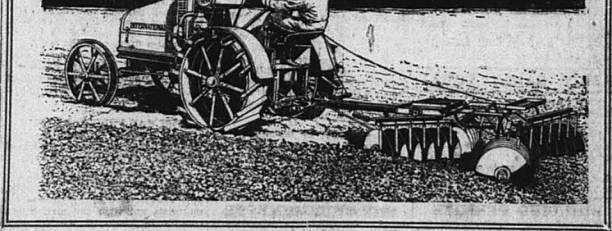

Right now is a good time to buy your International. The Harvester Company's free plow offer to farmers closed some time ago, but we were foresighted and bought several tractors before the expiration date. Now we can offer you the International 8-16 tractor at its low price of \$850, complete with regular equipment and the Free 2-bottom plow. But our supply of tractors and plows is limited. You must come in soon if you are to take advantage of this special offer. We will be glad to give you a demonstration on your own farm. Let us hear from you soon—we'll be there in a hurry.

 after day, year after year.

General Daves handled the national
 budget for a year without sweating
 at it, so far as known. But he
 shed any number of hard drops
 toward those who stood in the way
 of the success of the system.

A good many who are coming to
 California from Eastern states this
 summer will not return, except it be
 to dispose of their holdings "back
 yonder" to come here to live perman-
 ently.

It is unspun and ineffectual for
 either labor or capital to become ob-
 durate when differences arise be-
 tween them, and bring disastrous
 consequences upon the public through
 strikes or lockouts.

The national government should
 assume sufficient control over the
 coal-mining industry to insure the
 operation of the mines steadily, with-
 out any disastrous suspension of
 work in strikes or lockouts.

You may increase your engine power

20%

Too heavy an oil, or one lacking in certain qual-
 ities, may reduce the power delivered to the
 wheels of the automobile as much as 20%.

The ideal oil is the thinnest oil which will keep
 the bearing surfaces of the mechanism separated.

Providing this oil has "oiliness," stability and
 purity, it will give perfect lubrication, and per-
 mit the development of the maximum power,
 speed and gasoline mileage of the car.

"Oiliness" — Stability — Purity
 Zerolene meets the conditions perfectly. It has
 great "oiliness," due to the crudes from which
 it is made, and our own patented process of
 high vacuum distillation.

It has great stability, as a result of which it re-
 sists engine heat and forms only a minimum
 of carbon of a soft, fatty nature which blows
 out with the exhaust.

And it is pure. This company has always con-
 sidered the removal of all detrimental prop-
 erties and compounds as essential in making Zer-
 olene.

Zerolene of the correct grade gives perfect lubri-
 cation and permits the development of the
 maximum power, speed and gasoline mileage
 of the car.

SCHOOL

Our educational system is not yet
 practical enough, though better than
 it was years ago. One proof of this:
 Thousands of high school girls and
 boys are dropping out of school.
 Ask them, "What have you been
 trained to do?"
 Most of them answer, "Nothing."
 "Can you dance?"
 "Can I hot dog?"

LICKING BULLS

ANY MAN who's licked a Her-
 ford bull in a fair fight four times
 in one summer and successfully with-
 stood the impact of a two-story con-
 crete house falling on him, certainly
 isn't afraid of a little thing like an
 airplane fight.

Manuel Herick, of Oklahoma, self-
 styled "daredevil congressman," has
 purchased a surplus army air-
 plane for \$500 and intends to stomp
 his district via the air lanes.

THE CONGRESSMAN admits the
 possibility that the plane will fall
 and butter him all over the land-
 scape, but insists he has already had
 too many close calls to be worried by
 a little thing like that.

In 1915 an Oklahoma cyclone lift-
 ed a two-story farm house from its
 surrounding real estate and carefully
 deposited it on top of him. Herick
 said: "The house was a total loss
 and the neighbors thought Herick was
 dead, but he scrambled from under the
 wreckage with only a few bruises."

IN THE SUMMER of 1918, the
 congressman recounted, he fought
 four lynchings with a Her-
 ford bull, said bull having a gross
 displacement of one ton, muscles like
 a bicycle policeman, a mean and
 wicked eye and a very unfriendly
 disposition. But Herick threw the
 bull—literally—each time by twist-
 ing his right hand into the animal's
 nose ring. When the bull was fully
 cowed, the battle ended and Herick
 emerged triumphant.

Herick said he chose an airplane
 for making his campaign for re-elec-
 tion so he wouldn't have to put up
 with hum from train service and bad
 roads.

If for any reason he should not be
 re-elected, Herick plans to tour the
 country and do stunt flying at state
 fairs.

New York Letter

By Lawrence Price
 New York, July 6.—There
 seems no limit to the unusual roman-
 ces possible in America's melting
 pot. When the daughter of a
 son of the Orient decides to go
 through life together, it is worthy of
 comment even here in complex Man-
 hattan. Miss Freda Gerdin, 215
 Riverside drive, and John Moore
 Tamara, captain in the medical corps
 of the United States army, were mar-
 ried here the other day. Miss Ger-
 din was born in Harnessed, Sweden,
 and Captain Tamara, in Taber, Per-
 sia. Both of them came to this coun-
 try in their early teens and grew up
 as Americans. Captain Tamara, hav-
 ing been graduated at the University
 of Virginia and the Columbia Medi-
 cal School.

Can you learn scenario writing
 from a school? Or are all such
 schools deserving of the campaign
 now being waged here against them?

It's the same old story of any new
 kind of school. Schools of music,
 schools of journalism, the correspond-
 ence schools of any kind—who doesn't
 remember the howl raised at the
 thought of teaching people such
 things in that way? And the fake
 "schools" which sprang up like mushrooms
 in the whole idea of the school
 to increase the clamor and give a
 semblance of truth to the criticism
 directed at it as an art, in expert teach-
 ing. The result of the Chicago Daily News
 schools, won a prize of \$10,000, and
 of the Palmer Photography Corporation,
 one of the most successful of the
 schools, indicates that there is de-
 cided value in such a course of train-
 ing. It is given by a school super-
 visor of work and integrity. For
 one thing, the Palmer Corporation
 guards against undue encouragement
 of applicants who are not good. It
 gives a certificate of merit to the
 best of its students. The results would
 seem to justify both such rigorous exami-
 nation and the correspondence school
 principle applied to motion picture
 plays.

Colored table cloths have been ad-
 vanced from their humble position to
 that of dress fabrics. Quite the new-
 est things in town are one-piece
 frocks made of printed table cloths
 in red, blue and other colors.
 The dresses are surprisingly
 smart, and are in high favor at the
 nearby summer resorts.

Mrs. Albert Tondra may not pose
 as a "feminist," I don't know. But
 she goes considerably farther than
 many of them would when it comes
 to putting into actual practice the
 matter of forgiving her husband for
 indiscretions into free love.

Prof. Tondra and a seventeen year old girl
 were arrested the other day on their
 way to Niagara Falls. Tondra, a
 first person to go to his aid was Mrs.
 Tondra, who immediately tried to
 get bail for them, explained that she
 forgave them both, and that her hus-
 band was anxious to return home and
 she was going to take him there.

Was the older generation harder
 than this one, or is it just that a per-
 son sturdy enough to live to be 100
 years old, can stand anything? Mrs.
 Henrietta Frazee, of 1852 Third Ave-
 nue, has passed the century mark, but
 she will recover without lasting ef-
 fect from injuries received when she
 was run down by a horse and wagon
 a week or so ago.

THE GRED OF LOS ANGELES

(By Oscar A. Register)
 Santa Ana and all Orange county
 are to be congratulated, and our
 banking institutions are to be com-
 mended, in that we have thus far es-
 caped the commercial gred of Los
 Angeles, as manifested by the big
 bank merger just announced. By
 this merger some forty odd capital
 banks, about half of them in cities
 of the same class as Santa Ana, and
 other Orange county big towns, were
 made subservient to a triple alliance
 of three of the great Los Angeles
 banks.

Bankers everywhere recognize that
 there is a very big and important
 difference in the big city banking
 system and the kind of banking op-
 eration by small city banks. The big
 city bank makes only on what are
 known as "liquid" business loans, for
 short periods to carry on a sea-
 sonal business. This is known as the
 British system. The small city bank
 makes what is known as capital
 loans—that is, it will lend money to
 a man in whom the bank has confi-
 dence in order to help him establish
 his business. It will lend him money
 as a part of his capital. The Ameri-
 can system, as the small method is
 known, is one that is designed to
 build up the community. The banker
 takes his chances with his faith-
 fulness. His loans are made on com-
 munity. The whole idea of the bank
 of his community. The money gained in
 increased deposits is loaned out to
 further build up the community. The
 surplus gained by a "branch" bank is
 sent to the big city to be used for
 the benefit of the big city. The
 "branch" bank becomes a feeder to
 the big bank. The small city method
 has been the bone and sinew of Amer-
 ican development. To remove it
 spells disaster to the development of
 the whole country.

PASS RESOLUTION FOR JOINT MEETING

A resolution was passed last night by Fullerton trustees at their regular weekly meeting of July 4, to meet with the trustees of Anaheim and Santa Ana to discuss the matter of Fullerton joining with these two cities in the joint outfall sewer to the ocean. Fullerton trustees also expect to confer with Anaheim trustees relative to being permitted to "hook on" to the Anaheim sewer line. The dates of the proposed joint meeting were not fixed.

A motion was carried that the matter of moving the house on the Fullerton sewer farm would be referred to the sewer committee with power to act.

A. J. Kelly and others petitioned for the installation of ornamental lights on West Malvern-ave. from Malden to Richman-ave. Early consideration was promised. The petition contained the names of the property owners, it was stated. The clerk was instructed to notify the electric company to remove some poles.

FULLERTON POLICE SALARIES RAISED

The salaries of Fullerton patrolmen were raised last night by the board of trustees as was also the salary of the assistant to the superintendent. There are two patrolmen, Dorsey Ellis and Jacob Peist.

The latter, on his honeymoon in the east, is expected to return Saturday. He is being replaced by George Annin during his absence. The patrolmen are now receiving \$125 a month. Under the increase, they will receive \$150. The assistant to the water superintendent is raised from \$115 to \$140.

880 BUILDING PERMITS

Two hundred and eighty building permits were issued the first six months of the year covering Fullerton improvements valued at \$465,000. It was announced this morning by E. S. Richman, building inspector. Of these permits, 29 were issued last month, covering \$48,000 improvements.

Included in the half-year is the new California Hotel on No. 3000 rd., at a cost to exceed \$100,000.

TUFFEY RETURNS HOME

J. C. Tuffey, of Fullerton, who has been on a seven weeks' trip thru the northwest, going as far as Portland, and returning via Reno, Lake Tahoe and Yosemite, has just reached home. His wife accompanied him home, even though he stopped in Reno. He stated that he left other Fullerton folks, including Dick Gregory, Walter O'Kelly and G. E. Rohrer, at Yosemite.

Jantzen is the original elastic-stitch swimming suit. Gives with each movement of the body as you swim, stroke after stroke. It's a modest suit because it fits perfectly—wet or dry not accentuating any part of the body. Never binds. Never sags.

At Atlantic City, Palm Beach, Miami—on the lakes and rivers, at indoor and outdoor pools—from Maine to Waikiki—Jantzen is the popular suit.

WM. FRENCH AGAIN JUSTICE CANDIDATE

William French today announced that he would re-enter the race for justice of the peace of Fullerton township, and that he expects to fill the papers today with the county. Mr. French is well known to the citizens of Fullerton, having been a resident of many years, and at the present has no opposition.

Mr. French's office is a revenue collector for the city, his monthly report for June submitted to Fullerton trustees last night showing collection in fines for the month of \$780.

Jimmie Dunn of Fullerton has announced his candidacy as constable of Fullerton township.

HENRY BETZOLD, PHOTOGRAPHER, DIES

Coming as a shock to his family and a great surprise to his friends was the death of Henry Betzold this morning at 6 o'clock in Elsinore, where, with his family, he had been stopping during a course of treatment for severe rheumatism. Funeral arrangements will be announced later.

Mr. Betzold had been responding most satisfactorily to the treatment and his family was greatly encouraged over his condition, when he seemed to fall very suddenly a few days ago, and gradually grew weaker. The entire family was with him at the time of his death.

Mr. Betzold was born in Minnesota in 1859, being 52 years of age. He was the son of the late Mrs. Mary Ellen Betzold, and five children, George, Mary, Matthew, Alice and Edna. He had lived in California twelve years, nearly all of the time in Anaheim, where he was proprietor of the Betzold photograph studio. He was a business man of excellent qualities, and a consistent member of St. Boniface church.

The body is in charge of Backs, Terry & Campbell, awaiting arrangements for services.

PADDY DILLON TO MEET JOE CHANEY

Joe Chaney, boxer, Whittier 155-pounder, and Paddy Dillon, fast Santa Ana featherweight, will feature the main event of the Athletic Club's Arena tomorrow night. Both Joe and Paddy were the champions of last Friday's card and their decision left little to choose between the two. Dillon is making a strenuous effort to condition himself for future bouts and he figures that once he is in shape again there will be no boy of his weight hereabouts whose measure he cannot take in four rounds. Paddy is very fast and clever and he showed last week just what training will do for a man when he went thru four of the fastest rounds local fans ever witnessed without blowing up or showing signs of fatigue.

Joe says he was caught off guard last Friday, holding Paddy too cheaply, but that local bugs should watch his step tomorrow night as he is going to chase Dillon out of the ring to make him forever forget such a thing as a cow-hat. If the fight is just half as good as last week's, the fans are due for another tip on boxing bait.

Little Leonard Lee is making another start tomorrow night when he stacks against a clever young Tommy Nichols from San Bernardino. They are to be the feature in the special event and will weigh in around 118 lbs. Lee has been taking better care of himself since Ted Levin whipped him a couple of aces ago and in his training he is class than formerly.

After a return match with Levin he gets by Nichols tomorrow night. Three good preliminaries are down on the bill. Art Espinosa and Young Terry, a couple of willing lightweight, will mix as will also a couple of fast, clever lads in Young Montero and Eddie Crespin together.

The Timbo and Jim Conlon, a pair of hard-riding middleweights, feature in the main event in what should be a real battle.

LONG BEACH WILL PUT UP REAL FIGHT

Just how good the Anaheim baseball team will be demonstrated here next Sunday afternoon when Long Beach is faced for the first time this season by the Cal. Baseball League. Long Beach has always put up a good strong team and is mighty tired of seeing Anaheim walk away with the state cup. The seashore boys have been making heroic efforts to round out a ball that will make it interesting for the locals.

Anaheim's organization has looked good in every game this season. Following box score tells the tale of last Sunday's conflict at San Bernardino: Anaheim Elks

ORTON WILL MEET KID RUBIO AGAIN

Babe Orton, the clever Indian lad who has been rapidly forging to the front in his recent bouts, is down on the San Bernardino Athletic Club's weekly boxing card tonight. Orton is in the semi-windup with Kid Rubio of Riverside. This bout is in the nature of a return match between the two, they having fought a sensational scrap last Thursday over at the Gate City with Babe being declared winner at the end of the fourth round. Rubio was not satisfied with the decision and asked for a return match which was readily granted.

Billy Barnley, manager of the local club, and several other "fight fans" from Anaheim and vicinity will accompany Orton to the Gate City this evening.

PLAVAN NO. TEST MAKES 1000 BBL.

While Huntington Beach cannot be said to be in the oil light at this time, this field is going right along. New production is being developed each week. Probably the most noteworthy achievement of the week was that of the Petroleum Midway at Plavan No. 1.
