GOVT. MAY MINE COAL

RATION COAL NEXT FALL IN EAST

Advisability of Placing Federal Troops at Mines Is Discussed

CHICAGO, July 18.—The 202nd artillery anti-aircraft regiment of the Illinois national guard was ordered mobilized here today. Orders for the mobilization, it was said, came direct from Gov. Len Small, through the office of the adjutant general. No announcementas to the purpose of the mobilization was made, but it was understood that the rail strike situation at Bloomington was responsible.

WASHINGTON, July 18.—At a two-hour session ofthe cabinet today, devoted entirely to discussion of the grave industrial situation, it was decided that President Harding should address a communication to the governors of the 40 states of the union calling upon them to protect, by troops, if necessary, the public interest which has been endangered by the rail and coal strikes. The President's communication to the governors will be made public tonight.

President Harding and his cabinet met as a council of war today, determined to force the production of coal in the face of the strike of 600,000 miners and the refusal of their leaders and operator chieftains to submit to arbitration.

President Harding "invited" the bituminous operators late yesterday to reopen their mines when the owners accepted in part his arbitration proposal and offered to put their mines and services at the president's disposal.

Keeping in mind the massacre of mine guards and non-union miners at Herrin, Ill., and the fatal battle between deputies and mine strikers in West Virginia yesterday, the president and his cabinet discussed the advisability of placing federal troops on guard at all mines accepting the invitations to reopen.

Coal rationing this winter, similar to that existing during the war period, already is virtually assured, according to opinions expressed today in government circles.

Even should coal mining be resumed at once, which is admittedly out of the question, a high official of the administration asserted that priority orders will have to be established in order to protect the northwest and possibl New England states.

4 MEN WHIPPED IN RAIL STRIKE IN TEXAS, IS REPORT

FORT WORTH, Texas, July 18.—Fort Worth's first strike disorders broke out early today when four young non-union shopmen were dragged from a dance hall and flogged. The four men have been working in the St. Louis & San Francisco railroad shops and had gone to the dance hall, which is near the railroad shops.

Emma Goldman, Woman Sans Country

LONDON, July 18.—"The woman without a country" is the title which fits Emma Goldman today. Reports that Miss Goldman might attempt to enter England led to the following announcement in the house of commons this afternoon by Home Secretary Edward Shortt:

"This country is not prepared to allow Emma Goldman to enter because her presence here is undesirable."

Miss Goldman was deported from the United States to Russia but escaped from Russia and was given temporary lodgment in Sweden. She is trying to find a country that will allow her to live in it—other than Russia.

INVENTOR OF BATTERY ARRIVES

O. A. Olson, inventor of the Potent Dry Battery being manufactured in Anaheim, has arrived from Chicago, where he is well known to auto owners, having conducted one of the largest battery stations in the Windy City for a number of years.

Olson worked on his dry battery for five years before he got it to its present stage of performance. During all that time he was actively engaged in his commercial battery, which necessitated considerable burning of the midnight oil in his research work. He bears some scars on his neck, the result of a chemical explosion which occurred one night when he became sleepy over his test tubes.

The new factory has started pasting plates and with the setting up of the large motor generator and charging panel the first local product will be turned out shortly. The capacity of the temporary factory in the Lusk garage on No. Lemon-st. will be about 25 batteries per day. The management has a long waiting list of autoists anxious to try out the batteries in their own cars and the factory management is even more anxious to get them in circulation locally. It is hoped that within a short time 1000 Orange-co mootrists will be trying them out.

A feature of the Potent will be a specially manufactured rubber box container, made of hard rubber by a big rubber factory at Akron, and which, it is claimed, will be much more sightly and serviceable than the usual wooden box container.

PHILLIPS FORMERLY MGR. LOCAL FIRM

Mrs. Clara Phillips, held in Los Angeles on the charge of murder of Mrs. Alberta Meadows, with a hammer in a fit of jealousy, was for one week last year a resident of Anaheim, she and her husband staying at the Majestic apartments over the Grand theatre. A. L. Phillips, Mrs. Phillips' husband, was for five months assistant manager of the Peterson Corporation on So. Los Angeles-st. He left here on August 30 last year. During the week that she was in Anaheim, Mrs. Phillips is said to have been perfectly peaceful, and apparently happy. The remainder of the time her husband was employed here she is said to have spent in the city. Some say she was at that time connected with a film company in Los Angeles. Others say she was not, but was merely living there.

Mr. Phillips was well-known and well liked in automobile circles here, and all his acquaintances interviewed say he was a fine fellow, well-dispositioned, and alert in business. He was a tall man, and is said to be rather handsome.

GIRL BEGINS STRUGGLES FOR LIFE

Suspect Smilingly Hears Murder Arraignment as Crowd Gathers

LOS ANGELES, July 18.—Clara Phillips, beautiful ,petite, well gowned and 23, a little smile flickering at the corners of her lips, stood in a court of justice today and listened to the reading of a solemn indictment charging her with committing the atrocious murder of Montecito drive.

And as the fatal words were read, in a distant quarter of the city there arose the sad notes of the music of a funeral service over the body of pretty 20-year-old Alberta Meadows, the girl Clara Phillips is accused of having slain.

Mrs. Phillips did not enter a plea to the charge. It was decided by her attorneys at a conference earlier in the day that when she was arraigned they would ask for a delay until next Friday.

"At that time," said Al Meisoland, of the law firm of McDonald & Thompson, "we shall enter a plea of not guilty."

Two throngs gathered for the two principal events that made up today's chapter in the most brutal murder case that ever shocked the people of Los Angeles.

But the crowd that gathered at the little chapel of the John R. Paul undertaking establishment at 2629 North Broadway for the last rites over the disfigured body of Alberta Meadows was small in comparison to the jostling, writhing multitude that crowded into the courtroom of Superior Judge Frederick W. Houser, on the eighth floor of the hall of records jammed the corridors, fought to ascend the stairs and blackened the entrance to the building on Temple street.

Yet the proceedings themselves were not spectacular. They were merely formal—the reading of the indictment, the motion of the defense attorneys for a delay in plea.

Later in the day it was planned that A. L. Phillips, husband of the accused woman, should pay his second visit to his wife in the county jail.

JURORS URGE PROBE OF DEATH

Not Satisfied After Inquest That Mexican Fell Asleep on P. E. Tracks

Mystery surrounds the death of Isabel Saldona, Mexican, 46, who was struck by a Pacific Electric car at the Whittier-rd near LaHabra Sunday night, and recommendations were made today by the coroner's jury that the sheriff of Orange-co. make immediate investigations. The recommendations were made following the inquest this morning at the McAulay funeral parlors in Fullerton. It was thot at first that the man, drunk, had gone to sleep on the track, a bottle of booze having been smashed in his pocket, or that he had heart trouble and dropped on the track. Now the theory is advanced, and could not be disproved by the jury that he was murdered and thrown on the track.

Funeral services have been announced for 9 a. m. tomorrow at St. Mary's Catholic church in Fullerton, with interment at the Holy Cross cemetery in Anaheim. Decedent is survived by his widow and seven children, and his parents. He was a resident of La Habra.

The verdict returned by the jury was as follows: "Injuries sustained on night of July 16-17, 1922, by assault by unknown party or parties, or being struck by a Pacific Electric car, the evidence not being sufficient to the jury to determine the responsibility. We recommend immediate investigation by the sheriff of Orange county."

The verdict was signed by W. A. Goodson, foreman; E. J. Clark, W. M. Wrigley, J. A. Lynch, Charles Elson, and Raymond De Moss.

Sheriff C. E. Jackson announced later that he would start an immediate investigation into the circumstances of the death, following a conference with members of the crew on the car which struck the Mexican. No blood was found, and this admitted the possibility that he may have been dead before the car struck him. Four Mexicans are said to have been in the Mexican's company at about the time he was struck, and Jackson will have his deputies seek out these men in the inquiry.

If the man actually was dead when the car struck him, the further question was raised as to whether or not his companions may not have been responsible.

CISNEROS JURY PICKING TO BEGIN

The work of obtaining a jury to try Ascension Cisneros, the Mexican accused of slaying near Kemp street in the Mexican colony, will begin tomorrow at 10 o'clock before Superior Judge R. Y. Williams. Cisneros faces an indictment for first degree murder, and there will be no delays of the law in his case.

Sheriff C. E. Jackson said as much today.

Meanwhile Cisneros, who is locked up in solitary confinement, shows no worry over his plight. All Mexicans are the same way, the sheriff said. The Delhi murderers last fall, for example, played cards and thoroughly enjoyed themselves in prison before their final arraignment.

Cisneros doesn't appear to be losing any weight, and is perfectly satisfied and not worrying a bit.

Leonard Evans of Anaheim, is his attorney. Evans is expected to try to show insanity in Cisnero's case, but this could not be ascertained, because Evans never discusses a case in advance of its trial.

Assistant District Attorney C. N. Mozley will prosecute. The District attorney's office appears convinced that the case is one of "coldblooded murder," as a deputy put it, one of the worst cases in the experience of the office.

Sheriff Jackson has not altered his opinion that the murder is the most barbarous in the county's history.

CROWD GREETS MOORE AT KIWANIS LUNCHEON

Speaking informaly before a crowded meeting of the Kiwanis Club and score of its friends, E. C. Moore of San Francisco, candidate for the Republican nomination for U. S. senator, to succeed Hiram Johnson, gave leading businessmen here today their first opportunity to meet him. It was the weekly luncheon of local Kiwanians.

Among the out-of-town visitors present were C. C. Chapman, veteran orange grower and Supervisor William E. Schumacher of Buena Park. President Harry D. Riley attended in behalf of the Rotary club and Secretary Malcom Fraser of the C. of C. in its behalf. The ladies of various members and their friend also were present.

Moore made no attempt whatever at a political speech, and his remarks occupied only five or 10 minutes. Introduced by Oscar Conklin, Moore voiced his regret at his tardiness, which was due, he said, to circumstances beyond his control.

He said he had realized well that anything Kiwanians got behind was bound to succeed.

Launching into his remarks, he said that "community stimulation" was an important factor in any place. Public business suffered severely when the spirit was abroad of "I'll tend to my business, let him tend to his.". The obligation of each individual to others, and aid both in money and service, lay upon all.

He advised Kiwanians to take some one feature or civic responsibility upon themselves at a time, in which case they were certain to put it thru.

"The state has ceraoin forces that can be mobilized," he declared, and Kiwanians like others should consider themselves "soldiers in the cause of service" and help uplift the standards of citizenship.

While not himself a Kiwanian, he said, he congratulated the men present on the membership in the order.

"I greet you, I hope I'll see you at other times."

Moore looks like a prosperous businessman, and radiates cordiality and polish. He has a ready smile, a smooth manner, and is delightful to meet personally. A more striking contrast to Senator Hiram Johnson could not be imagined.

After the meeting many of those present filed past the candidate and shook his hand.

Moore was brought here from Fullerton, where he addressed the Kiwanis club there today, by Charles Eygabroad, C. C. Chapman and others.

Tonight he speaks at Santa Ana under the auspices of the Moore-for-Senator club at the Temple Theater.

Earlier at the Kiwanis luncheon meeting, Supervisor Schumacher spoke briefly, voicing his pleasure at being present; HarryD. Riley spoke on friendship and C. C. Chapman told of his happiness in greeting Anaheimers again.

Riley said that at no time in his life had he appreciated his friends more than now, when he came as the representative of the Rotary club

MR. FRED. MANG was the victim of a conspiracy last night, and Mrs. Fred. Mang was in it! Also a number of Mr. Mang's closest friends, and never a word did one of them breathe of what was about to befall him, although he had talked with his wife and one of the friends just a little while before it happened. But was a conspiracy to honor him, as Mr. Mang was experiencing a birthday anniversary yesterday, and the friends, assisted by Mrs. Mang, arranged for a party for the occasion.

After the usual summer day's work, Mr. Mang was retiring early, but a step on the porch caused him to hesitate, and when he answered the door bell his surprise was apparant.

After greetings, rugs were rolled back in the dining room and with one of the guests, Mr. Fred Horbach, at the piano, the entire entertainment was given over to dancing. Delicious refreshments were served, both as Mrs. Mang had prepared and as the thoughtful guests had carried along. Passing the evening together were Mr. and Mrs. Mang, Mr. and Mrs. Jack Smith, Mr. and Mrs. Raymond Rutledge, Mr. and Mrs. Frank Horbach, Mr. and Mrs. Richard Groos, Mrs. Emma Gribben, Mrs. Mollie Boehner, Fritz Horbach, and the children, little Miss Frances Horbach, Frederick Groos and Ray Gribben.

Kansas Picnic Sunday

The Labette county, Kansas, picnic held Sunday in Sycamore Grove, was an event of great delight, as old friendships in that community were revived and greetings passed between visiting residents of the Sunflower state and those who do not love Kansas less, but California more, and have become residents of the Southland.

Reorganization of the society was effected and new officers chosen. The luncheon hour was followed with addresses by prominent Kansans and a very interesting program was given.

Well Known Milliner Weds

Miss Ruth Taylor, of Santa Ana, well known among the women about the county as the efficient milliner in the store bearing her name, was married Sunday to Mr. C. W. Scudder, also of the Santa Ana business fraternity. They are honeymooning in San Francisco and nearby places, after which they will reside in the county seat, and Mrs. Scudder will continue her establishment under the present name.

Although her approaching marriage was known to a small circle of friends, the greater number are hearing of the event with happy surprise and are eagerly awaiting the return to extend happy wishes and congratulaticns.

MIYAKE EXPECTED TO DISPLAY MUCH JIU JITSU HERE

Taro Miyake champion Japanese wrestler and world's leading exponent of jiu jitsu, may be expected to display everything he knows of each form of grappling in his match here with Roy Mabee, Anaheim favorite, at the Grand theatre, next Tuesday evening, it was admitted by his manager today.

Both men are now at the same weight, 176, and the match which goes to the winner of two falls will be nothing if it isn't a battle. It might be said here and now, that Anaheim wrestling fans have yet to see their wrestling rancher's shoulders pinned to the mat even once.

And now is not discounting Miyake, who recently got a draw with Strangler Ed. Lewis, jiu jitsu style, at the Los Angeles Athletic club, and who won a fall from Miller, the Los Angeles home boy, before the same club.

It takes a wrestler to do either.

However, it is not only Mabee's prowess as a wrestler that has so enthused local mat followers but his good sportsmanship on and off the mat. Just another example of his square shooting leaked out after his recent match with Joe "Toots" Mondt, the Colorado giant. By reason of his failing to throw Mabee even once in an hour, after agreeing to throw him twice, Mondt was entitled to but 40 per cent of the box office receipts. At the conclusion of the match, Mabee said: "You're a good sport and a clean wrestler. To show you I'm the same, we'll split the gate receipts 50-50 instead of 60-40. You've earned it."

It wouldn't be good business for all wrestlers, especially those who foresee any chance of losing, to select as an opponent the owner of a $100,000 orange ranch who can afford to distribute the gate receipts in such easy fashion.

PAINS ACROSS SMALL OF BACK

Husband Helped in Housework.—Lydia E. Pinkham's Vegetable Compound Made Her Strong

Foster, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do my work only with the help of my husband. One day he saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time." — Mrs. Wm. Juhnke, Foster, Oregon.

Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

DAILY GREETINGS TO OUR READERS

To look to success is to walk by sight; to look to Jesus and to persevere in following and serving Him in spite of all discouragements, is to walk by faith. "Thy work shall be rewarded," saith Jehovah.

—Adolph Monod.

The reward for a good deed is in the keen satisfaction of doing it.

Worry is much more wearing on the human mind and body than work.

If you are reasonably comfortable and happy, be content to let others remain the same.

The country is getting back to normal—which is shown by the fact that the word "normalcy" seldom appears any more.

When all nations get along so well as do the United States and Canada, there will be no need of heavy armaments on land and sea.

Every dollar paid into a public treasury as taxes should be handled with the same business care and acumen that money is handled by a successful private concern.

President Harding's life is made miserable by office-seekers. The persistence and annoying tactics of place-hunters contribute more than anything else to the wearing of Presidential nerves to a frazzle.

Flight across the Pacific is long delayed. It is difficult to understand why aeronauts are not attempting this great feat. The Atlantic was negotiated long ago. No serious essay has been made to fly across the Pacific.

"The bravest are the tenderest, the loving are the daring." Very, very true. Men who would brave any danger with indifference are at heart as tender as babes, when anything transpires to stir their gentler impulses.

In a civilized state, where society is highly organized, the duties and responsibilities of the individual toward the body politic are well-defined. There is no such thing as absolute freedom of action, even in the freest of countries. There is, in this and other democratic lands, full liberty of action so far as such liberty is consistent with the general welfare and with the rights and immunities of the masses of people composing the social compact. There must needs be restrictions and limitations on human actions, so that society may be co-ordinated thoroughly and so that neither individuals nor groups shall have special privileges above all others.

MURDER HORROR DUE TO MAD JEALOUSY

It would require the genius of a Poe or a de Maupassant to depict the horrors of the murder of the comely young woman, in the lonely outskirts of Los Angeles, who has been identified as Mrs. Alberta Meadows. It was the "eternal triangle" in a form particular shocking. The woman who is held for the revolting slaying must have been wholly beside herself—insane with jealous rage. Seemingly, there was no ground for her jealousy. But let it be remembered that

"Trifles light as air
Are to the jealous confirmations strong
As proofs of holy writ."

Perhaps the mischevious meddler and gossip-monger had gone to this jealous woman and inflamed her jealousy by groundless tales. She doubtless brooded upon it, exaggerated every circumstanse, until it preyed upon her mind, took possession of her reason and, in a fit of madness, she conceived the terrible revenge for her fancied wrongs which she inflicted with such horror.

Whether or not she was mentally responsible at the time she planned and perpetrated the deed, is for a jury of her peers to decide. But those who read of the gruesome case and who thoughtfully ponder, feel that a woman must needs be mad to do such a terrible thing.

SUIT DRAGS IN COURT FOR EIGHT YEARS

A suit in Illinois courts which originated in a charge of false arrest over a penny stick of chewing gum, has just been dismissed after being in litigation for eight years. This illustrates a weakness of the American system of legal procedure. No suit should pend eight years in any court in this land. This very fact in itself constitutes a denial, or miscarriage, of justice. If, for example, in this case, the complainant was entitled to damage, he was entitled to his damage eight years ago, at the time he was injured, and not eight years afterward. On the other hand, if he was not entitled to damages, the person sued should have been decleared of the case—should have been free of the tension and the expense—long ago.

"The law's delay" works great hardship in many instances. In reforming procedure of the courts, careful attention should be given this.

Be sure you are registered properly for the August Primaries.

Conditions that can't be changed cause the most worrying.

Women are more apt to be curious about a thing than interested in it.

DAILY DOINGS DONE IN DOGGEREL

The campaign is on,
And now and anon
More placards go up in new places;
Candidates, a few,
Have started to strew
Each fence and each barn with their faces.

In making your bets
On candidates
And candidates—a tip that is prime;
Coroner Brown should win
The race that he's in,
(Nobody's against him this time).

More men say they'll quit
In the strike—not a bit
Of comfort the mix-up now shows.
Well, good bye, old friend,
We're nearing the end—
This is as far as this crazy rhyme goes.

GIVE HIM THE LOVING CUP

In Detroit, a man married a girl the first day he met her, says a news item.

JOSH WISE SAYS:

The man on top uv the hill don't see much of it.

YOU KNOW IT

A man flirted with a policeman's daughter. Yes, that's what happened to him.

When he gets out he should apply for a job testing dynamite—with a hammer.

BALDNESS

An old scientific nag is trotted out of the stables of Dr. Ales Hardlicka, of Smithsonian Institution. He thinks that baldness is increasing, hair becoming unnecessary, and that in 2500 years men's skulls will be as hairless as billiard balls.

The scientists of several thousand years ago probably were extending the same comfort to the bald. Plenty of bald-heads are mentioned in the Old Testament.

The truth is, the amount of hair in all generations depends on the condition of the thyroid gland.

Must Be a Regular Side Show

Fashion note: In Paris, they are wearing slits under the arms.

A man with a house full of kids, says Tom Sims, can go to a show and sleep through a shooting act.

WISE AND WITTY

The most brilliant sayings are expressed in the plainest language.

The real joy of going abroad is to talk about it to everybody when we get back.

Medical laws are not intended so much to protect the people as to protect the profession.

You can't enjoy good luck if it comes too fast.

BIG TELESCOPE, GIFT OF LOVE—Berkeley (Cal.) Gazette

A wonderful telescope, costing nearly a quarter of a million dollars, is being built for the Ohio Wesleyan University of Delaware, Ohio. The story of its giving is as interesting as anything it may hereafter tell of worlds beyond ours.

Professor Hiram M. Perkins, nearly 89 years old, whose salary never exceeded 1900 a year, and who is now living on a small pension, is contributing nearly $200,000 of the money necessary. His sister and brother-in-law are giving the rest.

The old professor saved, even on his small wage, and happened to make some very fortunate investments. Instead of altering his way of life when his wealth increased, he lived on as simply as before, saved and reinvested and still saved on, always dreaming of the great telescope for his college. Now, at the end of his life, he is able to bestow it. He did not wish his name known, and it was only with great difficulty that it was finally learned.

Once in the course of his long life he inherited some money from the sale of his father's old farm. This he invested in a home in Delaware. Later, just after his retirement from active teaching, he and his wife dissipated widely with a winter in Mexico, a visit to Europe and a trip around the world. Then they came back and lived quietly on.

There are two requirements as to the use of his gift. First, it is to be used for the instruction of all the students of the university. Second, it is to be turned over at regular intervals for the use of the outside public. After that, if there is any time left, it may be used for research. Professor Perkins believes that "Astronomy is the queen of sciences. It outclasses all other studies in teaching and majesty and power of God. There is nothing that will give young people such a conception of the greatness and power and beauty of the Creator as the study of the infinite bodies that fill the heavens."

A kingly gift, indeed, from a kingly soul.

NEW YORK LETTER

NEW YORK, July 18.—Anyone who ever laughed at the time-worn joke about women not being able to understand or appreciate baseball would best retire quickly and hope for forgiveness. Mrs. John Montgomery is, I would say, a strong candidate for the champion baseball fan of the country. Mrs. Montgomery's husband has been drilling her in the game for a season or more but even he didn't realize how firmly grounded her enthusiasm was until the other day. The other day they were watching New York win the first game of a double-header with the Cleveland team, when plop! The ball sped into the grandstand and hit Mrs. Montgomery right over the heart. They had called a doctor and were ready to carry the unconscious woman home, when her eyes opened. "Here, what are you doing?" she exclaimed. "Why, you see you were hurt a little," said the doctor, "and we were going to take you home." "Indeed, you won't," the fair fan declared. "I'm going to stay right here and watch the rest of this game and all of the next." And stay she did. She was in bed the next day with some smashed ribs, but she says she can be out again before many more games have passed into history.

Eleanor Gates believes that much of the "flapper" lack of restraint is due to their shedding of corsets. "Consider the modern corset from the standpoint of psychology," says Miss Gates, whose latest book, "The Rich Little Poor Boy" is proving as popular as her "Poor Little Rich Girl." "The young women who have been shedding their 'stays' these past few years have, whether they know it or not, shed far more than that. For bodily slackness and careless slouching mean a loss of personal discipline. A corsetless waist is apt to accompany an air of unrestraint. Corsets come off, galoushes go unfastened, and, yes, lower lips hang! If you don't believe it just observe the uncorseted young girl in the shops and the restaurants and the theatres. Mouth-breathers! For the corset is to a woman exactly what a uniform is to a man. It makes for an erect carriage. It tells its wearer that she looks well. Whatever she has on stays put. And instinctively she feels self-respect. Then there's the matter of health in addition to that of posture. And even in these days when it's (fortunately) fashinoable to have a big waist and wear the corset loose, there is yet support. You know that when you see the uncorseted flapper flopping. But the best argument of all is one of health-protection. Men have their open coats and their buttoned-down-the-front vests, and they suffer from digestive troubles far more than do women. A sudden change of temperature, a sharp breeze, and the man's stomach is chilled. But the woman? To her vital organs the corset is a shield."

The customs officials at Ellis Island have a new duty imposed upon them. A large group of Italians sought to avoid the immigration limitations by coming as actors. The officials were doubtful. They didn't just look like the official idea of Thespians, so they suggested the aliens' giving some samples. The samples were not entirely satisfactory to these sharp critics; and the "actors" were ordered back to the steamship. At that, the versatile foreigners explained that they had meant to say singers. Very well; some samples of song, then. Their singing was even less convincing than their dramatics; but the Italians clamored that you don't have to be an actor to act nor a singer to sing. An impasse seemed to be reached and they were held for another practice exhibition. If they begin applying those tests to Manhattan activities along the lines of song and drama, it's going to be difficult sailing for some of our artists.

BOOSTFUL PROJECT IN NORTH CALIFORNIA

Northern and Central California communities are collaborating in a movement which seems to be punctuated with "punch," to advertise those sections of the state promotionally before the world. A large fund is being collected, to which San Francisco is the chief contributor. It is hoped by the men of large affairs who are backing the movement, that it soon will have cash support amounting to $1,000,000. The project is being pressed vigorously and a handsome compliment is being paid Southern California. For the methods of this section in promoting itself are being adopted in the North, and the tremendous success of boosting in this part of the state is recognized and appreciated north of the Tehachepi.

Southern California should be and is pleased to see this promotional re- in the upper part of the state. There are many attractions and advantages up there, and that portion of the commonwealth owes it to itself to make its attractions, advantages and resources known to the world. Northern and Central California have benefitted from the phenomenal growth and development of Southern California. Those sections will continue to benefit. By the same token, Southern California will benefit by growth and development of its sister sections beyond the Tehachepi. It is no idle assertion to say that there is and will be an interchangeability of accruing benefits for all parts of the state as any part of it forges ahead in development. It is sound business and the proper spirit of state loyalty to view the matter in this broad way, and not set up petty local or sectional jealousies and rivalries.

It behooves everyone to relax during the vacation period. The only way to rest is to rest. One cannot have half one's mind on rest and half of it on work and the cares of the daily round of duties—if one does this, one fails to get much good out of vacation.

HOMECOMING

All night the rain strummed tambourines,
All night the dripping trees
Sighed eerily their wind harp songs,
Tuned to the rising breeze.

Today the emerald grass is thick
With dandelion foam,
With buttercups like golden coins,
For—some one has come home.

Just now beneath the apple tree
I saw them light and sway
Upon a drift white lilac bush,
Most welcome and most gay.

Soon they will build their little house,
Soon I shall hear them sing;
And watch the sunlight glinting from
The sunlight of a wing.

They have come back, the orioles,
Those feathered bits of sun
Attending summer's rosy feet
That through the orchard run.
—Faith Baldwin in the New York Sun.

The interests of the whole people are paramount to the interests of any particular class. Every class can protect its legitimate interests without invading and jeopardizing the right and immunities of the public.

California, with its more than 3,000,000 population, is sparsely populated, comparatively speaking. When this state's population reaches 10,000,000, there will be no fears of overcrowding. For experts have estimated that this state could sustain a population of 30,000,000 and yet not be so thickly populated as Belgium.

LOCAL FRUIT TOPS N. Y. MARKET

Valencia orange brands of the Anaheim Orange and Lemon Ass'n. topped the market yesterday in New York, but showed that the comparatively large size of the local brands was responsible.

Anaheim Gloriana, not a Sunkist brand, however, brought $11.17, the highest price of the day of any brands whatever in the national reports. There were 20 boxes of them.

Delicia averaged $10.95; compared with these prices for other brands in the same class; Red Fox, $10.25; Carmencitas, $9.90; Everite, $8.15; Searchlight, $8.35. Two hundred and ten cars of Delicias were sold in New York.

Favoritas brought $8.85. Ninety-four boxes of these were sold in New York.

All of these Anaheim brands were of the 216 size or larger.

In the 100 size Delicias brought $13.40; in the 126, $13.40; in the 176, $11.55; in the 216, $9.60.

Prices of Carmenitas ranged from $12.00 for the 176 size to $8.90 for the 250s and averaged $9.90.

While it is uncertain just how long the association will continue to ship, last year shipments continued almost until Nov. 1, and Manager Sandilands expects Valencias to go out until well into October.

The Village Gossip

ROY MABEE, Anaheim's wrestling rancher, took a vow after his recent match with Joe "Toots" Mondt, never again to be drawn into a controversy in which he had to wrestle against 25 or 30 pounds advantage.

"Why, that guy nearly wrestled the breeches off of me," said Roy. "I couldn't hardly crawl out of bed the next morning."

However, Roy came near being precipitated into just such another affair in which he faced the prospect again of being on the short end of an even greater handicap.

He called up the Plain Dealer and dictated a class-ad over the phone. A few minutes later he called again to make a change in it and asked "for that little girl I was just talking to."

Now, it happens "that little girl" hasn't been dieting of late and wouldn't take her hat off to Mr. Mondt when it comes to avoirdupois.

"What do you mean, 'little girl'; are you trying to kid somebody," came back over the phone to Mabee.

Fortunately it was another handicap match with Roy on his ranch several miles out in the country, so he will still be able to meet the Hon. Taro Miyako next Tuesday evening at the Grand.

William Eule, affable janitor at the city hall, was bemoaning the absence of his wife on a vacation and consequent absence of home cooking.

"You should learn to make your own coffee," said City Clerk Ed Merritt, "and then you would not be up against it."

"I don't drink coffee, except on Sunday," said Eule.

"Why only on Sunday," inquired Merritt.

"Well, I gotta do something to keep awake at church, don't I," was the response.

Mr. and Mrs. J. O. Lamb, of Altadena, have been guests of Mr. and Mrs. H. F. Dierker, of North-st and Dowling road, in Laguna Beach for the last week, Mr. Dierker, however, joining the family for week-ends.

Among other pleasures of the week, the party called upon Mr. Griffith, the desert artist, who maintains his studio, with many others of the profession, at Laguna Beach. As they were departing their attention was called to the unusual antics of a young grey cat and a Plymouth Rock hen. Being questioned, Mr. Griffith told the amusing story of the adoption of two tiny kittens found one morning in the nest with four chicks, and which the hen immediately made welcome to her house and home. How the kittens were nourished it not known by Mr. Griffith, but they grew up with their foster relations and became most affectionate and obedient children, as well as circumstances would permit.

As they watched, one cat rubbed affectionately against the hen, first on one side, then the other, and when the hen walked away, wearied of her foundling's attentions, the kitten sat down and gazed longingly after her. Mr. Griffith vouches for the story, as the strange family resided directly across the road from his studio, and all were on the best of terms.

A sermon recently delivered by Dr. J. A. Geissinger at the White Temple was reprinted in Boston. In it he related the story that when President Harding selected his cabinet he sat down with a Bible in front of him and the pictures of Lincoln and Roosevelt above his desk.

A few days after the publication of the sermon, the doctor received a letter from a man in Kansas. He said:

"I am a brother-in-law of former Governor Willis of Ohio who nominated Harding and I have been intimately acquainted with the president for a long time. If he went thru any such performance in selecting his cabinet, he must have changed his ways considerably. My opinion is that when he named the cabinet he merely considered their staunchness as Republicans. At least, that would sound a good deal more like what I know of him."

Governor William D. Stephens
in announcing his Candidacy Says:

More vital to the state or the nation than the personal aspirations of any man, is the maintenance of a system of government consonant with the ideals and interests of the people.

HITS REACTIONARIES

Realizing that, because of reactionary activities, a change of administration at this time would mean a complete change in the character of government that this state has endorsed and ratified on many occasions, I hereby submit my candidacy for re-election as governor of the state of California.

The greatest good to the greatest number, the maintenance of law and order, and the progressive development of the human and material interests of the state have been the guiding principles of my administration of the state's affairs, and of the legislation that I have approved.

This has been evidenced in our agricultural progress, in our educational expansion, in our extension of child welfare work, in our anti-alien legislation, in our highway development, in our soldier welfare program, in our legislative support of national constitutional prohibition, in our equalization of taxes to the end that public service corporations should pay their just proportion in harmony with the demands of our state constitution, in our increased efficiency and through administration reorganization and consolidation, and in other measures, upon which I am prepared to stand, as an evidence of good faith and a guaranty of the continuation of progressive policies in this state.

POINTS TO EXPENSES

Notwithstanding the greatest increase in the cost of living that the nation has ever experienced, our state expenditures have been held to a strictly conservative basis in all our normal administrative functions. Only in the educational and constructive activities has there been any marked increase, and the larger part of this advance was necessitated by the direct vote of the people, whose right it is to determine how much money shall be used and for what purposes.

Even including these expanding activities, California's state government has increased its expenses less proportionately than any other big business within the state, and this increase has gone into developments which are vital to our future economic and business welfare.

In California after the war, reactionary interests sought to control the legislature and to weaken the administration, but a subtle and organized movement, which was as dangerous to the economic welfare and democratic government of our people as any corporate control that was ever exercised in the history of the state, but fortunately in battling against these forces the people were victorious.

GAUNTLET THROWN DOWN

I am fully aware that these selfish interests have thrown down the gauntlet in the coming election, and I feel called upon to fight again for the maintenance of government for the people and by the people.

The state's future is bright with promise. The rapidity of our progress and the safety of our institutions demand a government in which are combined a courage to meet reactionary propaganda, and understanding of economic conditions, a cautious attitude toward increasing expenditures, a practical sympathy for the human welfare of our people and a constructive policy of state development.

To meet these demands I pledge my best endeavors.
