TWENTY-SIXTH YEAR

# HOT PEPPER OUT LAST UP 40 PCT.

That is Estimate of B. F. Porter, Veteran Orange-thorpe Grower.

Total damage of the walnut crop of growers about Anaheim and Fullerton will amount to at least 40 per cent, B. F. Porter of Orange-thorpe, veteran grower, said today in telephone interview. The loss may reach 50 per cent in some sections, he said, but he is not counting on such a dire result. Growers throughout the Santa Ana and San Gabriel valleys are similarly affected, in his opinion, the latter if anything worse than the former, Los Angeles county was hit by the warm spell even worse than Orange county, he thinks.

Regarding Santa Barbara and Ventura counties, Porter cannot speak authoritatively, but he anticipates that both these counties will suffer equally with Orange and Los Angeles.

Carlisle Thorpe, general manager of the California Walnut Growers' Ass'n has reached New York, said Porter, back from his world tour. He will call a meeting of the directors of the organization probably for Oct. 5 to present his report. Thorpe is scheduled to leave for Los Angeles Oct. 1, said Porter. He visited most of the walnut growing countries, except the Philippines.

Regarding this season's prices, Porter said he very much doubted whether last year's prices would be exceeded, because of the larger crops of France and Italy, Porter, however, is skeptical about the foreign crop this year being double the year of last year.

Entering into detail concerning the damage to the crop in the Anaheim and Fullerton vicinity, Porter said that up to a week ago the growing had been very optimistic. But Sunday temperatures got up to 100 F. in the shade, as it did hereabouts, their attitude changed.

Hot weather, he explained, causes the nuts to ferment and bring on mold, which it affecting more than 25 per cent of the pit makes the nut a cull.

Besides brown rotting has caused much damage. The nuts that have ever before, in Porter's view, Twenty to 25 per cent of the inside nuts on some trees have been browned. In the twigs have died before the nuts. Samples have been taken for analysis to determine the cause of this, which still is unknown.

Last year approximately 10 cents a pound was received for culls.

# UPRISING IN EGYPT CAPITAL OF ISLENS

Kemalist Forces Advancing in Neutral Zone; Clash with British Rumor

LONDON, Sept. 20.—There were three new angles of the Turk situation today, each of which was giving London much concern. First—There was a persistent report that the Kemalist forces had invaded the neutral zone and were making a forced march on Constantinople.

Second—Dispatches stated that a revolt of Moslems had taken place in Constantinople, which had forced the action of troops, but the extent to which this uprising had progressed was not known.

Third—A definite announcement was made by the British foreign office that England will not permit the Turks to occupy Thrace, which they are claiming as a result of a battle already has taken place in the neutral zone and that British forces have driven back the advance guard of the Turks.

There is a current report that the Russians have crossed the river Danube and attacked the Rumanian troops. This is believed to be a part of the plan of concerted action between the Russians and the Turks.

The Russians are highly incensed by the attitude of Great Britain and France in the Balkans, and claim that the territory of the Balkans is Russia because it controls the entrance to the Black sea, which is strategically important.

The allies contend that their control of the Balkans will mean that the entrance to the Black sea will remain free to all nations. Great fear is entertained here for the Russian army, which is now in the Balkans. Although British troops are arriving there as fast as they can be gathered and transported, it is definitely known that the force is insufficient to oppose the advance of Turkish troops and the eastern border of Egypt.

# ANAHEIM RANCHER KNOW DEAD MINERS

# AUTO MIXUP NEAR CABIN LAST NIGHT

A truck, truck and trailer and passenger car got into a mixup on the county boulevard near the Log Cabin last night at about eight o'clock, but all three drivers escaped. Three of the vehicles were badly damaged. The passenger car was left front wheel and went head-on into a Ford truck driven by Edward Kinsey. The latter vehicle escaped without much damage, but the passenger car and truck and trailer were almost wrecked.

# WESTS BEGIN BIG GARAGE BUILDING

Construction of a \$10,000 one-story building of hollow concrete, 50 feet by a little over on Ghestnut st. and 115 feet deep, has been started by West Bros. of the Auto Electric Maintenance Co. who plan a second building at the corner of So. Los Angeles and Ghestnut st. The building will be \$20,000 to \$30,000, depending upon whether the corner structure is of two or three stories and upon its ground dimensions. The building will be of the line of the Public Electric.

The police department, which occupies part of the present building, will move to the basement of the new building as soon as the latter is completed. The only other tenant besides West Bros. is Roy Chant, auto electrician.

The re-enforced concrete fireproof type of building is known in some thing new, and different from the hollow concrete block of popular knowledge. When equipped with modern machinery, and supplied by the handsome suite of offices which the firm will open at the corner of West Bros. and Ghestnut st., the new building will be a most complete plant of the sort for the county, containing battery, car, and possibly other departments.

The space in the corner building which the firm does not use will be leased. The size and exact nature of the building depends therefore to some extent on the desires of the prospective tenants for the corner structure have not yet been filed.

# FIGHT BIG ODDS TO GET OUT LAST OF MINE DEAD

JACKSON, Cal., Sept. 20.—Out of the depths where they died the remaining bodies of the 47 victims of the Argonaut disaster were being brought today.

The slowness of this process has excited much comment. Yet every mining man will know and understand. The bodies were found deep down in the Argonaut levels, far from the point where the rescue workers broke through the rock barrier and entered from the Kennedy shafts.

There is no doubt or other equipment in this section of the mine and none can be rigged because of the fact that the tunnels and laterals are scattered about at different angles and planes.

To raise a body from the point where the men met death and out to the open air, the top of the Kennedy mine shaft is a long and tedious process.

First the bodies must be prepared for the removal and the advanced stage of decomposition makes this a very difficult task. Then they must be conveyed, one at a time, along tortuous passages, past the bulkheads which these men themselves built in the last, poisonous hours while they were fighting to bar themselves from the deadly gas.

Then there are ladders to ascend, and more tunnels to traverse, and finally a passage through the narrow opening where the rescue workers broke their way through in the last, poisonous hours while they were fighting to bar themselves from the deadly gas.

The earliest part of the task comes when the bodies are brought to the main shaft of the Kennedy mine. There they can be loaded upon the regular hoist and whirled to the surface as easily as one ascends in a department store elevator.

But the tunnels are so narrow that only one body can be brought through at a time and that only two or three men can help with the ghastly burden.

Reports this morning—when the day shift returned to task—were that the entire 47 bodies would be brought to the surface before nightfall.

A sister of Mrs. Jensen also killed herself, according to the Long Beach press.

## AMARANTH HEADS FELICITATE AT MEET LAST NIGHT

From the twelve courts in the district, seven matrons and four patrons were present, coming from Redondo Beach, Los Angeles, Long Beach and other cities more distant.

A program under the direction of Mrs. L. L. Tanner, of Pullerton was of particular merit. A vocal solo, by Mrs. Lindstedt, accompanied on the piano by her father, opened the numbers. Master Leonard Tanner, a four-year-old, read "When A Man Meets A Girl," and "The most fitting music."

Two whirling solos by the talented little girl, Miss Dorothy Winters, were accompanied on the piano by her sister, Miss Winters. Mrs. Helen Kellinger, assistant matron of liberty court, was at her best in two readings, "Commencement," and "The Bookkeeper."

A trio by three Pullerton musicians, Miss Vanetta Robb, violin; Miss Bolly Fitzsimmons, piano, and Mr. Robert Goodwin, saxophone, played some beautiful selections. A solo by Miss Lindstedt completed the numbers.

In the banquet room the tables had been tastefully decorated in yellow with centerpiece and place cards in the pretty color. Under the direction of Mrs. Eva Ford a delicious refreshment was served. During the time Mr. Goodwin sang, accompanied by Miss Robb and Miss Fitzsimmons.

## Round Trip Los Angeles to Phoenix

The Speed, Power and Speed of this New Reo Six Over thoroughly tested in this dash over 957 miles of mountain and desert road. The round-trip time of 34 hours, 46 minutes, is remarkable, considering the terrible road conditions and bad weather encountered. The outgoing trip to Phoenix was made in faster time than the record mark set by Huxley to the fastest ever made in the Phoenix Road Race, and the round-trip was faster for each way than the average "Desert Classic" time.

The Reo Six that established this new record was strictly stock in every particular, and absolutely no mechanical trouble of any kind was experienced. The car was driven by Charles H. Bigelow, with Dave Fickett, service manager of this company as relief pilot, and H. H. McGillis, local newspaper man, as observer.

## DAILY GREETING TO OUR PERSONAL ENCOUNTER IN READERS CONGRESS

There is not on earth a soul so base  
But may obtain a place  
In the celestial grace;  
So this his feeble prayer of faith  
Obtains  
Some lowering of his chains,  
And parents of the great release,  
Which reach to the eternal prize.  
—John Henry Newman.

It is to be hoped that the Pacific Fleet always may be a pacific fleet.

The Cuban Congress will not do what Uncle Sam wants it to do. But neither will the American Congress for that matter.

The hand of the Turk is a bloody hand, and it should be loosed from its hold upon Europe and from its power to persecute Christian peoples.

The Turk should be whipped to a finish and then should be put under such netts and bonds that he would cease to be a maker of trouble.

The country will react favorably to the settlement of the two big strikes. A feeling of optimism, confidence and hope is sweeping across the land.

Your carefulness on an outing may prevent a very destructive forest fire. Consider that you save the community a great deal by being careful with fire.

Federal, state and local authorities should avoid the practice of punishing the innocent for the crimes of a few. The consumer should not be left to the mercy of mercantile greed.

A healthy body is as important in the general economy as a healthy mind. The eye which is developed symmetrically in body, mind and soul, is truly well educated.

One whole Southwest should interest itself in striving for the building of the projected Boulder Dam. Agitation should persist, so that the enterprise may not languish, or be delayed in starting.

Lock your car or put it in a place of assured safety when you leave it. Do not tempt some morally weak person to run away with your machine, by leaving it free to be driven off at the will of whoever might be tempted to steal it.

The boy or the girl who is persisting in acquiring as much education as possible, is ringing the doorbell of the palace of Opportunity. Great achievements in this age of enlightenment, must be predicated upon thorough mental training.

A conservative is one who has his. The greatest problem man has is man. The composing room critic says the finger type is displaying type. It shouldn't take long to decide whether to sacrifice Article X or Europe.

The whipping post and pillory are relics of a by-gone age. There would be no good and sufficient reason for reverting to the old days. Punishment should be severe, but not shockingly cruel.

The man who flares up next shines very long, says Tom Simms. Human endurance is almost limitless. Man can live without food for an almost inexhaustible time. He can be crushed and mangled frightfully, and yet life will persist in him. He can be tortured and he can endure almost beyond belief.

KLANSMEN. G. W. Price, king klan of the Ku Klux Klan, has appealed to the sheriff at Los Angeles to allow him to leave California within three days. "I don't believe they would hesitate to kick me to death," he says. We thought all a klanman had to do to quiet another when he got hot was remind him of his Americanism.

Reserve District No. 12. Another thing that persuades a young married man to settle down and attend to business is an annual set of twins. A feminine writer says no wife should suffer in silence. But if she is silent, how can she keep from suffering?

## KAISER'S MEMOIRS

Start Next Sunday

## Los Angeles Times

FROM UNLIMITED POWER TO VIRTUAL IMPRISONMENT FROM ADORING ADULATION AND SUSPICION

Apart from the dramatic elements of the narrative, the Kaiser's document furnishes an amazing psychological study, showing the mental processes of the man who thought himself a demi-god and superior in flesh and spirit to all other inhabitants of earth.

He overlooks no loophole to escape condemnation, going so far as to accuse America, the country he once threatened to chastise, but his evasions, arguments and excuses will be not permitted to pass unnoticed. Every chapter will be analyzed by a competent authority, as a result of which it will be found that the arrogant ex-war lord has convicted himself out of his own mouth.

# SO GOOD, STATES AD

THE Great Ad-Sanitized light-heavyweight champion of the world, came to the little city of Anaheim to pick up some easy money. He has gone on his way with the short end of the stick, a much surprised man. His own words: "I never thought I never dreamed that I would be so good after an eight-year lay off. I put all I had into the match. We should have made it a final match. I believe Roy was thrifing, but I never thought that he is as tough as he is."

Our rancher showed a million against the Great Sanitized. Roy landed on a couple of foot holds and ran away. As soon as the arm wrestler's arm held him down about the 30 minute period. Roy used a couple of double wrist locks to good advantage and laid the great one around with the face or head took a couple of times.

Ad had Roy in trouble several times, but he was not hurt away in the end. A training injury to Roy's neck showed up about the third minute period and he hurt Roy badly that he seemed to slow up very much in the last seven minutes. He was in no serious danger as the hour came to a close.

In the first 15 minutes Roy displayed much more speed than did Ad. Roy kept Ad's famous legs far away. Every time Ad would try for a second Roy was not there. Beautiful to land his head against though he tried for it several times.

Sanitized sustained an injury to his right thumb early in the match that bothered him considerably. Roy has very stiff and strong neck this morning but he is feeling fine and dandy otherwise.

In their dressing rooms after the match, Roy seemed to recuperate much more rapidly than Sanitized. Twenty minutes after the finish, Roy was dressed and ready to go. At the exhaustion of the terrific contest, while Ad was still slow and fatigued. Watching the action of the water wear away one would be led to believe that Mabey would have the most vitality and lasting qualities in a final match.

Any way, to our way of thinking Roy's victory was a great thing. It was a thrilling contest and had the big crowd on edge all the time. Both men and women were shown up, so Roy had to substitute Baden and Art Jones. Jones is a Los Angeles Athletic club member. He has no match for the heavier Baden and the second fall in four minutes 39 seconds with a very strong and the second fall in 4 minutes and 6 seconds, with body scissors and half Nelson.

Bill's thirteenth act as announcer for the evening and referred the preliminary while Jacky Burr, the official referee of the Pacific coast, referred the Mabey-Sanitized go.

Mabey will accept either the challenge of "Boo" Moppan of Ontario, Miller, and the match will take place in Anaheim in the very near future.

## 50 HOMES PLANNED BEFORE NEW YEAR

Determined to erect at least 50 new homes for local homebuilders between now and the end of the year, Harry L. Briscoe and associates are making an extensive drive to acquaint Anaheim homebuilders with the many outstanding features both in construction and saving of time and money of the Pacific System.

Three years ago Mr. Briscoe became associated with Pacific Ready-Cut Homes, Inc., which is declared to be the largest organization of homebuilders on the Pacific Coast. Since then more than 150 of these homes have been erected and sold. Thirty days has added no less than 20 orders.

Acting as direct factory representative for the parent organization, Mr. Briscoe states that "it is possible to offer the best of the local homebuilders as would be possible to the Los Angeles organization." It is Mr. Briscoe's duty, he declares, to superintend the actual erection work and see that every detail is satisfactory to the purchaser.

In an interview Mr. Briscoe stated, "All will agree that to lower the quality of materials is not economy. The secret of direct economy lies in supplying houses, presenting the money, devising ways of reducing the amount of carpenter labor and by buying all material at the lowest dependable source at the lowest price."

"In a nutshell, the Pacific System handles the homebuilder to secure a home on the basis of known value. In my belief, the Pacific System has revolutionized the handling methods of every piece of material that goes into a home. Some conception of the popularity of the Pacific System may be realized in the fact that more than 18,000 of these homes have been erected to date. This is made possible by the fact that the output of the Pacific Mill is 25 houses per day. This enables the mill to purchase lumber in carload quantities direct from the forest centers and to buy nails, shingles and hardware and other necessities direct from the manufacturers. It is obvious that by selling direct to the homebuilder, all middlemen's profits are cut out and the homebuilder secures prices that are in our belief far lower than average."

"In planning the lumber drive for business we have secured from the architectural department of the parent organization official sanction of new plans and it will be our policy to make no charge for stock plans. We have made a booklet of plans to the mill to secure immediate delivery on all orders placed and believe we will be able to build homes in two to three weeks sooner than before."

"Our policy will be to quote prices on any size home erected ready for occupancy. When a stock design is selected from our book of designs, it will be possible to show the homebuilder the home himself, either in Anaheim or in the vicinity of Los Angeles. For a limited time we will offer a booklet of plans to readers of the Plain Dealer, who call at our office."

Mrs. Earl Abbey of Santa Ana was the guest yesterday of Mrs. C. A. Millard.

### TODAY'S BLUNDER CORRECTED

There is some cause for regret in the fact that the days when children were served last at the table passed. The practice so common today of serving the children first and telling them to "go ahead and eat," while pleasant for the children, is laying the foundation for poor manners and selfish, inconsiderate actions on their part later in life. A child should wait until the adults have been served, before starting to eat his dessert.

**EVERY-ONE'S COMING TO HOBO'S WEDDING AT THE CALIFORNIA**

Anaheim will turn out en masse Friday night, it is certain, to witness the marriage of Miss Arlyn Snelling, of this city, to no less a personage than James Gordon, Anaheim's "hobo" songster, now appearing at the California theatre.

When the plans of the happy couple, whose courtship had been of the fast and furious kind, were told to Mr. Jack Retlaw, of the West Coast Theatre company, who is a visitor in Anaheim, and to Mr. G. T. Ingram, manager of the popular local theatre, they were much surprised, for hadn't the management picked Gordon up on the streets just a few days ago where he was strutting for the little coins contributed by the generous passerby. But, in the contract with him, the management had promised to do anything it could to help him and it was no time to back down. So Mr. Retlaw and Mr. Ingram called upon Anaheim merchants who are all good sports and who offered to contribute an array of wedding gifts which many a society girl would accept with pleasure. The Prince store will furnish the wedding gown, shoes and hat; Arthur Cohen's Jewel Box, the wedding ring; Milady's Beauty and Corset Shop, the dainty lingerie; and many others have set aside pretty gifts of unlimited variety.

But best of all, Judge Cox, the fellow who put Santa Ana on the map, is to perform the ceremony. Mrs. Jessie Bennett, cashier of the California theatre, will be bride's maid, and the ceremony will take place in a wonderful setting, illuminated by colored lights.

The management finds that no one has come forward with a gift for the groom. Of course, grooms don't count for much, but in this case it's different. The wedding will be a bona fide affair and no doubt the couple will be given an appropriate sendoff. Anyone desiring to make the groom happy with gifts should communicate at once with Mr. Retlaw at the theatre and they will be given full credit for their part in the affair.

The wedding will be held in connection with the performance, which includes Marshall Neilan's cinema triumph, "Fool's First," and presentation of Captain Lewis, noted veteran San Francisco Chinatown guide. Doors will open at 6:30, the usual time.

**AUTOMOBILE SHOW AT J. E. WALTER'S**

The new things in fall fashions are not alone confined to vogues in apparel for lady fair and the latest sex but the motor world with its shining creations, both fleet and elaborate, command their share of attention.

The J. E. Walter Co., local dealers for the Jordan, Cleveland and Chandler, have been fortunate in securing several of the most sensational 1922 models of these lines and in order to acquaint everybody with their design, beauty and excellent mechanical features, are holding an automobile show in their salesroom this week, during which period they will be open evenings.

Models displayed in the Jordan are the "Blue Boy" four passenger sport model, "Play Boy", sport roadster, a touring car, and a brougham. A Cleveland coupe and a Chandler dispatch are also on display.
