TWENTY-SIXTH YEAR

BOY SCOUTS GUARD BIG XMAS TREE

Seven Spend Night at Site
of Big Community
Tree

All last night seven Boy Scouts were on guard at the site of Anaheim's first community Christmas Tree. Encamped in the city park, beds and all, the lads did their duty in two-hour shifts. Mayor William W. W. Smith gave them a special Christmas card and a letter from the city committee, paid a visit with their family to the park to inspect the camp. They found everything in ideal order.

Today the ladies are busy making the frame for a big electric star which will top the tree. The star will be the feature of the decorations, crowning a mass of colored lights, tinsel and popcorn.

Two solos will feature the musical program tonight. Harold Robbins, who directed the Anaheim Community Choral Society last Monday evening, and Mrs. J. A. Schwenker, soprano will sing, and Mrs. Ruth Selts play the piano and serve as accompanist. All present are expected to join in the carols.

The children tonight will march over South Clementine street and converge along the boulevard to the park, then move in procession into the park.

The twinkling touches to the tree were put on this afternoon. The snow effects are the principal remaining item of the decorations to be done.

Similar shows were given by Anaheim Lodge in Fullerton, Brea and Brea at the local theater, the same as last year.

TEMPLE PACKED AT CHRISTMAS CANTATA

The White Temple was packed and they were turned away last night for the annual Christmas cantata, "The Adoration," by Nevin, presented by the choir and Sunday school under direction of Mrs. C. A. McCullah. The latter has directed several cantatas and to state that last night's effort was the most pleasing yet presented at the White Temple is saying a great deal.

Not only was the music excellent but the costumes and electrical effects, the latter under the direction of Mrs. C. A. McCullah, were magnificent. Stereoscopic scenes of the nativity also were a big addition to the program.

After the cantata Santa Claus put in his appearance and a box of candy was given each child.

Mixed "Entails" In Federal Court

The witness had been asked by Assistant United States Attorney Mack Meador about a conversation between the agent and the Fresno police and the narcotic agent.

"Well," said the sergeant, "the dispute seemed to be about the question of whether the agent showed his 'differential' or not. He concealed it from the police."

MOST BEAUTIFUL CHURCH IN CANADA IS BURNED

QUEBEC, Dec. 22.—Firebugs today destroyed one of the most beautiful, historic and famous churches of the American continent.

The magnificent Basilica, the proudest religious edifice in Canada, is nothing but a charred and smoking heap of ruins.

Threatening letters were received for several days before the fire broke out and guards were posted, but the incendiary did his work well and last night, when the blaze was discovered it was too late to halt the conflagration which for a time threatened to sweep a wide business section and result in the loss of several millions.

The registered name of the edifice is "The Church of Notre Dame de la Recouvrance," but it was known throughout the province by the familiar and honorific term of "the Basilica."

The authorities have a number of clues to the perpetrators of the crime and an active search for the firebugs is under way. Arrests are expected and public feeling is at high pitch.

NEED BETTER WAY TO HARVEST NUTS

Acting on information from the California Walnut Growers Ass'n that thousands of dollars have been lost to the growers thru lax harvesting methods the last few years, the regional walnut committee, which has met at Los Angeles last Monday, has made better harvesting methods one of the principal projects for the coming year. Moldy nuts and amber nuts have generally resulted from allowing the nuts to remain on the ground too long. The common practice of picking up every two weeks, and in many cases, once in three or even four weeks, causes a serious depreciation in the quality and color of the nuts, especially where the ground is inclined to be damp from soil or atmospheric moisture.

Experimental plots conducted by the Citrus Experiment Station during the past season reveal that more expeditious harvesting—early shaking and prompt picking—will produce a better nut in every way and less mold is encountered.

The Walnut Department of the Orange-County Plain Dealer considers this problem of paramount importance, in the county. When the program of work is drawn up at the next meeting, this project will be

PUBLIC HAS QUEER IDEAS ABOUT RADIO

The general public has many queer ideas about radio, says Mr. Felix Frueh, radio salesman for the Holland Electric Co. "Among the most common is the idea that all radio music sounds like an old tin phonograph," intermingled with "screeches and squeaks that make the music almost painful."

This misconception is due entirely to radio dealers who in demonstrating their sets, crowd the vacuum tubes employed to their last possible limit of energy, causing the music to be distorted almost beyond recognition.

"With the proper instrument properly operated (any child of 12 can do this), music will be received as clearly as though the concert were being staged in one's own home."

Included, looking to the establishment of comparative harvesting plots next season.

James Smiley, West Orange Arthur McFadden, Irvine and Farm Advisor Wahlberg represented the Walnut Department of Orange County at the So. Calif. conference.

An invitation was extended at this meeting by the delegates to hold the next So. Calif. Walnut Growers Field Day in Orange-Co. If the invitation is accepted, a thousand walnut growers from So. Calif. will come here in August.

ALLIED DISAGREEMENT IS DEPLORABLE

M. Clemenceau came into the United States like a tiger, but went out like a lamb. He did not find the government or people of the United States as hostile as he expected. His attitude in international relations.

The natural resources of this country should not be squandered or wantonly wasted. Rich as this United States is in resources, they are not inexhaustible. Should wastefulness and profligacy prevail, it would not be long until the most abundant of these riches would be depleted.

The United States Reclamation Service has accomplished more, in the twenty years of its existence, in reclaiming arid lands, than ever has been achieved at any given time in any country on earth. The lands it has redeemed from a desert waste are producing nearly \$100,000,000 of agricultural products annually.

Social and industrial relations made easier, more pleasant and more tolerable when all members and elements of society are considered and treated as equals. Work together in wholesome, fair co-operation. This, carried to its ultimate, will bring society and industry nearer to perfection as it is possible to attain, and add immeasurably to the happiness and contentment of the masses of mankind.

Ralph de Palma, noted auto racer, gave his word of honor to the sheriff at Modera that he would return to serve a two-day jail sentence for speeding. Mr. de Palma, raced at Beverly Hills and then went to Modera to keep his word. He may have been without success in breaking the law, but he was a gentleman in keeping his pledge to the authorities and in making amends for his infraction of law.

If the United States should call an economic conference of all the leading powers of the world, the pressing situation in which Europe finds itself should be discussed candidly in all its details, and possible ways and means could be devised to bring relief, just as the arms conference agreed upon a practical plan to reduce armaments.

TOWN IN REVIEW

SWINDLES
We have been swindled so much that, even if we came face to face with genuinely "easy money," most of us would be suspicious and turn it down.

Jack Cohen, New Yorker, bets \$200 that he can stop people on the street and sell them 50-cent pieces for 25 cents each. He tried to, for 15 minutes and loses the bet. To make it worse, a judge fines Jack \$2 for trying to sell without a license.

John W. Raper, philosophical humorist, says where Jack made his mistake was in not trying to sell 25-cent pieces for half a dollar.

Now that the jails are empty, the ships all scraped, and wars all ended, we look forward to the new year without misgiving.

Prohibition may be a failure, but through arbitration mutually agreed to, without carrying the trouble to the president of the United States.

The president, ideally, is the official representative of the whole people—the executor of their will. He is not a chief of staff, a troubleshooter, or a trouble-settler between groups which should settle their own troubles.

MAYBE!
In Kansas City, Mrs. Lorene Caldwell used a railroad, claiming her weight (\$20 pounds) is due to one of her endocrine glands being injured in an accident. She says she weighed only 150 before the engine hit her two years ago.

The jury awarded her \$1000. Many slim women would give a lot for a slight bump up this particular endocrine gland—probably the pituitary gland at the base of the brain. It regulates height and weight. Maybe gland doctors will make our descendants fat or slender, tall or short, by stimulating or "calming" the pituitary.

BARBERS FINALLY LOSE TO WHITTIER

After winning every match of the season, Dick's Close Shaves finally went down to defeat in their return match with the Whittier Five. The game was all close, the Barbers taking two out of three games, but losing out on total pins. All the Barbers except Morano were way below form. The totals were: Whittier 2155, Close Shaves 2140. The deciding match will probably be rolled next Thursday.

Tom Sims Says: Stockings are good gifts, but gloves are better because then you can always see what you got for your money.

TWO LOCAL BOXERS WIN AT GATE CITY

Billy Darney's boxing boys had a fair night of it over San Bernardino way last night—two winners and two draws. Charlie Demont put Jimmy Cummings of Redlands down and out in the second round after a hurricane of punches. Johnny Nelson and Sailor Bok Wastman drew in four rounds as did Battling Reddy and Jordan of Riverside. This was the best bout on the bill for action. Kid Kubio, who was scheduled to meet Art Espino, failed to show and so Art was forced to take on Kid Shadow and handily disposed of him in round one. Other bouts on the bill were Joe Griman and Bobbie Chase, who went to a draw as did Jimmy Musie and Eddie Murphy, who figured in the main event of the evening.

VIC RUEDY MAKES HOME IN ANAHEIM

Vic Ruedy, the fast left-center fielder of the Anaheim Merchants baseball club, likes Anaheim so well that he has decided to make it his home, together with his father. They have opened a tire shop at 419 West Center-st., where they are handling Pennsylvania cap tires. Vic played with Fort Smith, Ark., in the Western Am'n. last season and hit for .218. He is under reserve to that club but does not know where he will play this season as several clubs are after his services. The Sprague League is endeavoring to buy him and two clubs of the Texas League are also after him. Vic has made many friends during his short stay in this city who he is glad to know he is making this his home and he will wish him luck in his new venture.

IT'S K. O. CHANEY WITH FANS HENCE

If you please, Mr. Boxing Fan, it is K. O. Chaney from now on, the semi-winning of the San Diego Athletic Club's weekly boxing festival, one, tough job who is stationed there and who answers to the name of Joe George. Our Joe put over the crusher in the second round and it is said the far west dove and was out for several moments. Chaney made a big speed and action and, oh, yes, we mustn't forget to add, the K. O. was Joe George.

Joe and the San Diego club must have agreed on something for it is a well known fact to local fight bugs that Chaney doesn't hit hard enough to crack an egg-shell. However, Chaney surely showed the southern city fans some heavy artillery as well as greased lightning on next week's card. We're with you Joe, keep it up.

WEST VA. GRIDDERS ARRIVE TOMORROW; PENN DUE SUNDAY

With the arrival of the Univ. of W. Va., football team in So. Cal. tomorrow, the West Virginia Gridders will be centered on the Pacific Coast for the next six weeks, during which time three of the biggest sectional struggles of the season will be staged.

Despite the fact that two of the Eastern representatives, State and Pittsburg, have been beaten, interest in the coast contest has reached a high pitch in the Middle West and Far East, according to word received here, the result being that games being in California this year are set for a new record as far as sectional attractiveness is concerned.

The Virginia eleven, which meets Gonzaga at 3 p. m. Monday afternoon in the first game, is expected to be in the best of form. The clash of the month is scheduled to work at Bonville field tomorrow afternoon. Present plans call for the Mountaineers to leave at 3 o'clock for the southern city, where they will hold their final workout Sunday afternoon.

Although their scrimmage was rather short, Gonzaga showed plenty in their initial appearance yesterday. The squad looks exceptionally powerful and no doubt will be in wonderful shape to put up a grueling battle against West Virginia.

Virginia is coming out with an undefeated team, said by Eastern critics to be among the best in the country. Because of their short stay in this section climatic conditions should not be taken into consideration. It seems certain that the Mountaineers will be heavy favorites to smear the Washington outfit.

Penn State probably will stage its first workout at the Pasadena stadium Monday morning in preparation for their New Year's Day affair against the Univ. of So. Calif. It was believed that Coach Hugh Berdick would order one day of rest, but word from the East early today was to the effect that the Nittany Lions would lose no time in getting down to hard work.

Berdick has ripped his team into shreds during the last week, attempting to find a winning combination, and the former Oregon mentor believes he has at last solved the problem.

Indications are that State will start the E. S. C. contest with Anderson at left end, Johnson at tackle, Provost at left guard, Hamilton at center, Bedenk at right tackle, McMahon at right end, Palm at quarter, Wilson, left half, Patton, right half, and Fentz, fullback.

This means that Captain Bentz will not start at center. Hamilton, it is said, has shown a world of improvement at the pivot position.

Bedenk, who will play right guard, will probably act as captain in the New Year's day clash. Besides being one of the big stars in the line, Bedenk is the second best punter on the team and, in case of injury to Palm, he will be called upon for the aerial work by Bedenk.

Pittsburg's squad, which battles Stanford at Palo Alto on Dec. 29, left for the West last night.

SPECIAL SANTA FE TO SAN DIEGO XMAS

The Santa Fe will run a special train to San Diego Sunday, returning next evening for attending races at the Santa Anita or football games at San Diego, and passes thru Anaheim about 9:15 a. m. Sunday, leaving San Diego at 7 p. m. Monday. The round trip from Anaheim is \$3.45.

The little child is convinced that they all hurry away to Fairyland to give her a good time. The costumes of all the characters were very beautiful. The stage settings were very appropriate, the furniture being furnished by the Placentia Furniture Co.

Rouns and James made up the first part and the result of the unparted Santa Claus. The last part, each mother present received a gift, made by her own son or daughter, tied up with Christmas cards and white tissue paper. Then each child was presented with a candy cane. NO BOXING HERE UNTIL NEW YEAR'S

The weekly boxing show of the Anaheim Athletic Club, which is held every Friday night at the Arena on the Sugar factory grounds, has been postponed until after the holidays, according to the announcement made by Manager Billy Darney. There will be no more athletic shows until Thursday, Jan. 4th, when Darney expects to stage a live card of six high powered bouts that ought to knock the fans dizzy for class. In the meantime, Darney will keep his boys busy by daily workouts at the local club's training quarters so that when the call of time sounds again they will all be in tip top shape and just rarin' to go.

PLACENTIA

PLACENTIA, Dec. 22.—(Spl.)—The Christmas program presented by the Placentia Grammar school pupils was equal to no finer than the one presented a year ago, both being under the direction of Miss Ruth Howerton.

The Glee Club gave the first part of the program, the second was a solo, well dancing and the operetta, the last part. The sweet child voices of the forty members of the Glee club were pleasant to listen to as they sang "The Wonderful Name."

In the solo parts Miss Margaret Snell displayed a very sweet voice and a volume that made her a youthful soloist. Her pretty unaffected manner was charming. Ione Wagner took her part well also although her voice did not have the volume it will have later.

In the second part Paul Peatty played his flute splendidly for a lad of his age. Miss Ruth Howerton's singing is always enthusiastically received by her audience and so the highest compliment that can be paid is to say that she sang in her usual charming manner.

Mr. Carothers of the Wahlberg studio played a violin solo that was much appreciated, his accompanist being from the studio.

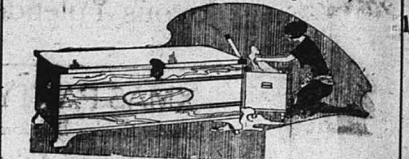

Little Ellen Edwardson, the six-year-old daughter of Mr. and Mrs. Jake Edwardson, did some fancy dancing and was heartily applauded.

The operetta, "A Fairy Conspiracy," was well given. Each and every character was well acted and showed perfect training that reflected great credit to their teacher.

While the audience showed their appreciation by a prolonged applause, Miss Gladys Snell accompanied the cantata and operetta and soloist throughout the program. "The operetta presents the child who does not believe in Santa Claus, fairies, brownies or witches but who is led to believe in them by their mothers to the people of fairyland. The curtain rises on a room in a modern home. The fairies come tramping in, playing on silver harps, followed by dwarfs. They all sing of a little girl who does not believe in the little people of fairyland. As they dance together they discover that the little child asleep in her bed, Santa Claus and they begin to teach the little child the truth. The child is surprised on being awakened by the fairies singing, and finding the crowd of fairy folk. She sings a song telling why she cannot believe in their reality. She faints away and their well-known Fairy Tale folk who each tell of the joy and hap-
