HOUSE BURGLAR HOLDS UP TWO CALLERS

BIG INCREASE IN DEMAND FOR FRUIT

Phenomenal Increased in Consumption of Citrus Expected in Prices

The phenomenally increased consumption of citrus fruit in the United States is likely to have the same effect an average prices this shipping year as small crops from the principal producting centers would have. This indicates that the returns from this year's crop in the Anaheim district may well be a new record.

"We have taken orders for several cars of Valencias at prices which are very satisfactory indeed," Manager W. H. Schureman of the Anaheim Citrus Fruit Association said today.

In other words, navel fruit prices are being paralleled, as anticipated, by valencia fruit prices.

Navels now are selling at the highest price this season, Schureman declared.

Illustrating the manner in which the demand for citrus fruit has grown, sales during the week ending April 14, of fruit from California, Florida and Porto Rico were the largest on record, not even excepting 1921. They amounted to 2,398 cars according to an authoritive compilation just received.

From Southern California between Sept. 1, 1922, and April 14 last, 8,000 more cars or 3,250,000 boxes of citrus fruit were sold than in any previous year.

From Southern California 19,464 cars were sold between Sept. 1 and April 15 against 17,585 between Sept. 1 and April 16, 1922, and 19,335 Sept. 1 to April 16, 1921. The figure first mentioned is the record from Southern California this year, except for 1917 when 21,252 cars were sold.

The northern citrus fruit belt with 5,066 cars sold, Florida with 14,534 of grapefruit and 21,860 of oranges, and Porto Rico with 2,610 cars of oranges and grapefruit combined also have enjoyed record sales.

Questioned about the reported visions of life after death, which Mrs. Mercurio is said to have brought back with her from the shadowland, Dr. Gerri said:

JAMES BOUND OVER FOR TOOL THEFTS

E. E. James was held to answer today by Justice J. B. Cox to the charge of having stolen 14 tool joints at Huntington Beach, value at $455. The alleged theft was one of several, involving, it was reported at the time, many thousands of dollars worth of pipe, tools, etc., which afterward were sold to oil concerns at Santa Fe Springs and elsewhere.

According to D. G. Wettlin, Deputy District Attorney, other members of the gang have flown from the State. Wettlin had in mind particularly Charles Holland and Victor Cooper.

The complaint, charging grand larceny, was made out as People vs. Holland et al., James was the John Doe of the trio, said Wettlin.

But Holland and Cooper, according to the evidence obtained, took a crown block valued at $750, from the Dodge Syndicate Oil Company, not the tool joints.

The additional arrests at Huntington Beach and Long Beach and the publicity given the operations of the ring appear to have broken it up completely, but only a small part of the spoils was recovered.

DE VALERA ORDERS TROOPS FROM FIELD

I. N. S. Staff Correspondent

DUBLIN, April 27.—DeValera orders suspension of hostilities.

The war in Ireland will end on Monday, it was learned this afternoon from the highest possible source.

Eamonn De Valera, leader of the Republicans, has issued an order to the irregular army to cease hostilities at noon on April 30. The morale of the irregular army has fallen steadily since the death of Liam Lynch, the chief of staff, and the military brains of the Republican movement.

News that De Valera had ordered his followers in the field to quit fighting was received by Free State officials with great joy but they were not surprised. The steady succession of Free State victories in the field convinced them that the irregulars could not hold out much longer. The Republican war has been raging in Ireland since the Free State government set up last year under the Irish Free State agreement act passed by the British parliament.

Eamonn De Valera, Erskin Childers and other irreconcilable Republicans broke away and declared war against the Free State army. For a time it looked like they might be successful. Michael Collins, commander of the Free State army, was killed in ambush and Arthur Griffith, "the political brains" of the Free State government died of heart trouble about the same time. Their deaths were a severe blow to the new government.

OPENS DOOR AND ROBS VISITORS

Sig Silverman Home at Fullerton Entered Second Time This Year

One of the boldest hold-ups ever staged in Fullerton was pulled off at 7:30 p. m. last evening at the residence of Sig Silverman, 236 West Malvern-ave, when Mrs. M. Rhineland and son, Stanley, of Santa Ana, were "stuck up" on the Silverman porch under the glare of the porch-light and their money taken from them by a burglar who had just finished burglarizing the house.

The Silverman's were expecting the Rhinelands and stepping out a few minutes, left the back door open in order that they might go in.

The thief took Mr. Silverman's suitcase and filled it with loot. About the time he finished, the Rhinelands arrived and rang the doorbell.

The burglar opened the door and thrust a gun into their face, greeting them with the words, "hands up, and no monkey business." They obeyed. The burglar then rifled their pockets and took a wallet containing a considerable amount of money. Then bowing politely to the lady, and taking the suitcase filled with loot, he walked out to the curb, jumped into a waiting automobile and drove away. Passersby possibly thot the whole accurance to be only two men and a lady saying goodnight.

The police were notified, but no clue has been obtained. The man was described as smooth-shaven, well-dressed about 25 and seemingly refined.

This is the second time the Silverman residence has been burglarized this year, the suitcase taken last night having been purchased to take the place of the one stolen before.

BRIDE ELECT SHOWERED BY HER ATTENDANT

MISS IRENE MARSH, bride-to-be of Mr. Albert Stetchen, was complimented by Miss Mae Poirier last evening with a miscellaneous shower at the Poirier home S. Melrose-st. The evening merrily progressed with a social hour. The hostess had prepared a pond and presented each girl a pole. Packages were tied in queer looking shapes for which the girls fished. The packages contained amusing fortunes.

After the jollity subsided little Miss Olive Poirier brought a quantity of prettily wrapped packages in a decorated wagon which were eagerly opened by the honorees, and which revealed many pretty and attractive gifts that will find an honored spot in the new home.

SENIOR PLAY IS PRESENTED IN CREDITABLE WAY

CONSIDERABLE interest today center around the presentation of "The Man of the Hour", last evening at Anaheim High school. Coach Lucille Bickley picked out an excellent cast one that was well suited to the play.

Newkirk, as Alwyn Bennet, the man of the hour, played his part in a very creditable manner as a veritable business man who was chosen mayor. The faction working against him, three prominent brokers, played by Roscoe Ingram, Wallace Walton and Art Mann, want Bennet to pass a franchise bill which he thinks is a crooked deal. Dallas, the heroine, played by Florence Austin, sides in with Bennet until she finds he won't pass the bill and thus turns her affections toward Gibbs and accepts his proposal. Bennett learns that if the franchise bill does not pass, the interests of Dallas and her brother Perry will be lost as their uncle, Wainwright, had invested their money in the Burroughs stock. Mr. Wainwright and Perry are ably played by Art Mann and Marvin Ross. Perry sells his stock and that of Dallas to save themselves. Comedy is furnished by Perry and his "sweetie" Cynthia Garrison. (Ella Cook.)

Thompson, private secretary of Wainwright, had waited nine years for revenge on Wainwright who had led to death of his father and threated to avenge him if it required years. He overhears the conversation of Wainwright and Harrigan and when the franchise bill fails, exposes them both. Harigan tells Gibbs the only way to save themselves would be to break off the engagement with Dallas. Gibbs and Bennett are holding a scene and Gibbs resolves to give up Dallas. Bennett calls him a coward and states that if he can't win her honestly, he will not have her at all. Dallas overhears the conversation and breaks the engagement with Gibbs. The affair ends happily for Bennet and Dallas, while Gibbs, Harigan and Wainwright are given jail sentences for fraud. A supporting cast of Dorothy Bishop, Lawrence Mills, Viola Lensing, Clara Bamesberger, Viola Lensing, Margaret McOmie, Earl Turner, Homer Wallace, Wilton Applanalp, Amanda Chambers, made the presentation perfect.

A large crowd greeted the players and it is expected the auditorium will be packed to capacity this evening. Music during the intermission was furnished by the high school orchestra lead by Mrs. Marian Higgins, violin solo by Rose Donnelly, piano solo, Francis Yorker and vocal solo, Victor Reese.

10-YEAR-OLD BOY DODGING POLICE

Fullerton police today reported they had obtained further trace of a 10 year old boy giving his name as Vanard Smith and his father's name as F. W. Smith of Lincoln-st., Fullerton, who yesterday was seen in the local Crown Stage office with a large roll of money, and who ran like a turkey when told that someone was coming to see him.

They had the previous day tried to buy a ticket from Fullerton to Anaheim, and the Fullerton agent refused to sell it without an order from his mother.

He then went to the motor transit Co., and bought a ticket to Anaheim. Here he bought one to Santa Ana to go to Orange county park. Yesterday he returned, saying he had been to the park, and bought several boxes of candy at the candy store of the stage office. In the meantime the Fullerton agent had called up Anaheim and told about the boy, and the Fullerton police on learning he was here came over to arrest him. But when asked to stay here, he ran up the street as fast as he could go. Police have not heard of him since.

LIQUOR PRICE UP RESULT OF RAIDS

Booze raids continue to be the favorite midnight sport of Sheriff Sam Jernigan's deputies.

M. V. Burns was arrested at 2 A. M. today three miles west of Winterburg, after Deputy Sheriff Ed. McClellan had purchased a pint of liquor at $4.00. Today Ed. announced that the price of home brew was rising steadily as the result of recent raids.

F. M. Ray was in the place with a 42-calibre Col. pistol in his belt and was also taken to the County Jail. Deputies Ryan, McClellan, Scott Wilson and Elliott took part in the raid.

M. Etchandy, rancher of the Richfield district, was arrested yesterday afternoon when a quantity of liquor was found at his place. At first he pleaded not guilty through his attorney, Thomas McFadden of Ames & McFadden, but later changed his plea to guilty and paid a fine of $200. Deputy Sherriff and McClellan and various other deputies and county motorcycle officers participated in the raid.

SAYS HE'S INNOCENCE AS TRAP IS SPRUNG

By TARLETON COLLIER
(I. N. S. Staff Correspondent)

LA FAYETTE, Ga., April 27.—George Baker went to his death on the gallows today for the murder of Deputy Sheriff J. W. Morton. The trap was sprung in the Walker-co jail at 11:54 o'clock.

Baker's body passed through the trap dor of the gallows and it swung between a picture of Bebe Daniels in a bathing suit and a photograph of Gloria Swanson, posted on the wall.

Before the trap was sprung Baker leaned from a window in the death chamber and spoke to the crowd below. He appeared calm and composed and spoke in a cool clear voice: "Good bye, boys, I'm going now. Don't get in any trouble. Always stay out of trouble. Tell the woman I was boarding with I will never forget her. I am paying the penalty for murder for which I am not guilty. I committed no murder. Good bye, Buck, good bye son, farewell all."

Baker was the most composed of the little group at the gallows.

In the south of England it is a popular belief among the women that the eating of herring's brains gives one beauty.

MAN QUIZZED ABOUT SPAMINATO DEATH

Fred C. Casolischo will be quizzed this afternoon by Sheriff Sam Jernigan, and Sheriff William I. Traeger and his men at the Los Angeles County Jail, to tell what he knows about Nuncio Spaminata, the Italian found hacked to death in a gulch between Fullerton and Northam station.

Casolischio apparently answers the description of one of the men who drove up to Spaminata's room in the 500 block North Grand avenue, Los Angeles, on the night of the same day that the slain man left the city and carried off all the latter's belongings. It is possible that he may have quarreled.

The two men occupied a small, light car, and one stayed at the wheel while the other entered the house.

Casolischio has not yet been identified as one of the two, but he will be questioned until all he knows, whatever that is, is ascertained. The quizzing began yesterday.

He is suspected of having been a friend of the murdered man, and if so, involved with him in the extensive bootlegging business which Spaminata carried on.

TWO FAMILIES SHOT BY UNKNOWN MEN

(By International News Service)

IDABEL, Okla., April 27.—John Tope, 45, was today lodged in the county jail in connection with the slaying of Tope's wife, their two small children and Mrs. Tope's parents, Mr. and Mrs. T. H. Hamlin, and the probable fatal wounding of her six year old brother, near Haworth.

He denied all connection with the shooting, which, according to Sheriff Bryant, was done by three men.

Sheriff's posses and citizens are closing in on the other two and they will be arrested before night, Bryan predicted.

According to reports reaching here from Hamlin's farm, two men rode up to his home, called the family outside and began to shoot them down.

Hamlin fell, it is said, along with his wife and daughter, and Mrs. George Tope and her 10 year old son, and a five year old daughter of Mrs. Taupe.

DUKE 'JOSHES' ROYAL BACHELOR BROTHER

NOTED PSYCHOLOGIST HERE

By LUTHER HUSTON
(I. N. S. Staff Correspondent)

LONDON, April 27.—The Duke of York and his little Scotch bride, formerly Lady Elizabeth Bowes-Lyon, today settled down to a quiet and secluded honeymoon in their love nest at Polesden Lacey, near Dorking in Surrey.

This second marriage within the royal family has aroused further speculation over the intentions of the Prince of Wales, heir to the British throne. The prince is approaching 30 and as yet has shown no inclination toward matrimony.

At the wedding breakfast, the Prince of Wales was the "life of the party." "Your turn next, old chap" exclaimed the duke to his older brother. The prince of Wales smiled broadly and shook his head emphatically in the negative.

The prince has gone to Belgium, where he will unveil a war monument. His departure has caused some gossip of a possible romance between him and Princess Mary Jose, a daughter of King Albert of Belgium.

Edward W. Hunter and his manager, R. C. Sather, are at the Valencia Hotel having arrived a day or two ago from a campaign in San Diego. Mr. Hunter opens a series of free lectures on Psychology, Character Analysis and Biological Chemistry at the Fisher hall commencing tonight at 8 o'clock. He is a chautauqua and lyceum lecturer of many years experience, a native Scotchman and a speaker of ability. Interest in psychology is sweeping thru the country and he reports splendid audiences in many other cities recently visited in Southern California.

MAY USE NAVY TO CHASE RUM RUNNERS

WASHINGTON, April 27.—Believing that methods of the sternest kind are necessary to keep rum runners from landing contraband liquor on American shores, President Harding is favorably impressed with the plans to use the U. S. navy to chase the liquor ships away, it was learned officially this afternoon.

If it is true that more boys are born after a war, it would seem to prove that they use very good judgment.

AGED WOMAN HURT IN MOTOR CRASH

Mrs. E. J. Macllin, 441 North Philadelphia-st, was painfully injured last night about 9 o'clock when the car in which she was riding was struck at Sycamore and No. Lemon-sts by a car driven by Leon Martin of Anaheim.

Mrs. Macllin was with her son-in-law, Charles L. Trinler, who swore to a complaint charging Martin with reckless driving.

The car carrying the Macllins was owned by W. A. Glover of 400 So. Rose-st, according to a report to police. Mrs. Macllin was taken to the local sanitarium, where it was found she had suffered cuts about the face, and was severely shocked. The cuts are not serious, it is said.

She is an elderly lady.

The accident occurred when the Macllins started to turn onto Lemon. After striking the other car, the Martin car turned into the curb and was wrecked.

Martin was released on bail of $100 to appear in Judge Brown's court tomorrow.

STRIKERS TO WAR ON BOOTLEGGERS

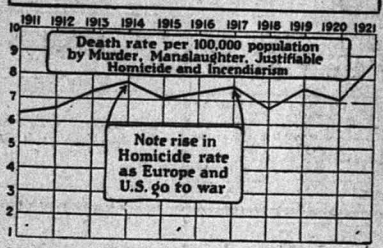

(By International News Service)

SEATTLE, April 27.—War on bootleggers was declared today by the strike committee of I. W. W., handling the walkout of 10,000 lumber and marine workers in the Pacific northwest.

Peddlers of moonshine work hand in glove with the "capitalists" in oppressing working men, according to the official order. A determined effort is being made to close up bootleg centers on the local "skid road".

Another good way to get a million dollars is to save ten dollars a month for 8,333 years.

Homicides in U. S. Increase 28 Per Cent During 11 Years

SOCIOLOGISTS have various explanations for the increase in homicides in the United States during the past twelve years.

The Phoenix Mutual Life Insurance Company, in the above graph, represents only the facts. It is evident, the company points out, that the rise in the number of homicides coincides in several cases with certain social conditions, but no predictions for 1923 are made on the strength of them.

The graph shows, for instance, an increasing tendency to take human life during the period of general adversity that preceded the outbreak of the war in 1914.

The first year of the war was accompanied by a falling tendency. In 1916 a similar rise in the tide of murder to that which preceded the European conflict anticipated the war declaration of the United States. In 1918 there was a repetition of the drop.

Why the score should rise in 1919, decline in 1920 and shoot far ahead of previous years in 1921 is hard to explain. Of course there were hard times. Prohibition had gone into effect, with its influence for better or worse on the general attitude toward law. The Phoenix does not presume to make dogmatic assertions concerning cause and effect.

What we can't understand is why statesmen never seem so wise in congress as they seem on a chautauqua platform.

PROMINENT LAWYER DIES SUDDENLY

(I. N. S. Staff Correspondent)

SAN FRANCISCO, April 27.—C. Stetson Wheeler, aged 60, prominent California attorney and prominent in Republican politics, died suddenly at his home here today following a brief illness.

He was a native son, having been born at Fruitvale, a son of Charles C. and Angeline Stetson Wheeler.

He was a graduate of the University of California and Hastings Law College. A member of a number of clubs and several times was a delegate from California to Republican national conventions.

When we all are crazy, as that professor says we shall be, perhaps murderers can save the expense of hiring a lawyer to prove it.

VOL. XXVI—NO. 216 | Anaheim, California, Friday, April 27, 1923 | TWENTY-SIXTH YEAR

ENGLAND VS. U. S. IN PENN RELAYS

(By Dave J. Walsh)
(I. N. S. Sports Editor)

PHILADELPHIA, April 27.—The moot question of whether the shank of an Englishman can outstep that of a Yank will be determined this afternoon.

The occasion will be the annual relay games of the University of Pennsylvania on Franklin Field, where the two mile international run and the sprint medley relay, representing Oxford University, England, versus the field of American colleges will come down to a definite decision just as it did in 1914 and in 1920.

In those years, it was a British chest that broke the tape, but according to the best local minds, this cannot happen again. The good word is that Oxford will be lucky to finish third among Syracuse, Georgetown, Kansas, Ohio State, Pennsylvania and others in the sprint medley and that C. B. Morgan, the Oxford distancer, has not the chance of a steam roller in the two mile run.

Morgan, they say, is a perfectly good cross country man, but lacks the speed to step two miles with Walter Higgins of Columbia; Delm of Georgetown; McLane of Pennsylvania; Bonsall of Cornell; Douglas of Yale, and Booth of Johns-Hopkins.

Oxford, of course, will be dangerous in the sprint medley.

Fifty other events of more or less importance are on the first of a two day program. Perhaps the most noteworthy is the Pentahlon championship which Taylor of the navy, Norton of Kansas and Atkins of Haskell, are expected to stage a triangular battle for honors. Taylor is Walter Camp's all-American choice for end on his 1922 football team; Norton, the Western conference champion, a full blooded Indian, who is said to be the kitten's cuffs, or some such. Other likely entries are Georgetown, and Kipp, another Haskell Indian.

Weather conditions were ideal for record breaking, a warm sun being tempered by the tang of a late spring day.

Tagging all the Bases

The estemed K. M. Landis was one of 25,000 fans who saw the Giants trim the Boston Braves, 7 to 2, in the first home game on the Polo Grounds.

Coming to life, the Brooklyn Dodgers ran wild and defeated the Phillies 14 to 4.

Osborne of the Cubs was knocked out of the box by the Pirates, Pittsburgh winning easily, 7 to 2.

A record crowd for Detroit—36,000, saw the St. Louis Browns nose out the tigers in the ninth inning, score 4 to 3.

President Harding and 22,000 other fans witnessed a 2 to 1 pitching battle between Harris of the Athletics and Zachary of Washington, Zachary winning 2 to 1.

STANFORD UNIVERSITY, Calif., April 27.—Nelson an Judah, registered from Los Angeles, and a student in economics, will captain the Stanford track team next year.

Judah is a quarter miler and ran the winning lap in the relay at the U. C.-Stanford meet last Saturday in sensational fashion.

Captain Lane Falk who established two new records last Saturday was awarded the Harold Upperie medal for the most valuable athlete this year on the track team.

DAILY GREETINGS TO OUR READERS

O quickly fleeting! your own help dis-own—
Think—live upon your knees—trust God alone;
Try to be wise, meek, good, with anxious care,
Nor take on step which is not propt by prayer.

—Victor Hugo.

Sugar is rising. So is popular indignation.

Permanently improved highways are a prodigious asset to California.

The poor man's dinner table and wardrobe should not be subject to the exactions of profiteers or speculative gamblers.

The 1924 Presidential contest will not lack for spice. Nor will there be any dearth of vinegar and tabasco sauce in it.

The way of the fraudulent oil stock should be shielded from the operations of smooth swindlers.

Honesty in business is mighty good advertising. And the person or firm that is honest in business is advertised by pleased and appreciative patrons.

California rapidly is becoming economically independent. Its production is on a huge scale, and of great diversity. If this state were cut off from the rest of the world for an indefinite period it would survive and thrive.

Why is there so little enthusiasm in Congress and in State Legislatures over measures, proposals and policies which have for their object the reduction of the cost of government and the lessening of taxes?

Royal houses are passing to extinction in the Old World. There are no kings or queens in the Western Hemisphere. This side of the earth has no dispensing with its thrones.

President Harding will be given a typically cordial, hospitable greeting when he comes to the Pacific coast. This state and sections relegate political considerations when the President comes. He is welcomed as the chief magistrate, not as the leader of a political party.

California's advancement is steady and substantial. In every desirable way this state is making progress. It is gaining in population at the rate of more than 100,000 annually. It is increasing prodigiously in produced riches. And its popularity among tourists and pleasure-seekers is undiminished.

Men will beeflying like birds, in a few years, from present indications. A Frenchman has devised a small aircraft with bird-like wings which will carry a man through the air. The time may come when use of the term "bird" as slang in referring to man, may not be slang at all.

The world looks to America for leadership in the promotion of international peace. This nation must not disappoint the reasonable expectations of mankind. If rightly and prudently may and should keep out of embroilments in the domestic political affairs of other countries. But there is a wide and safe field for active, earnest endeavor to foster peace, without becoming entanglingly allied politically with other powers.

RAISIN DAY SHOULD BE OBSERVED WELL

Raisin Day should be observed with zealous interest in the big California industry which it is designed to promote. The raisin crop has become one of the immense assets to California, bringing millions of dollars of produced riches into the state annually. California raisins have become famous throughout the world. The quality is superlative.

Perhaps no industry embracing a soil product has been advertised more judiciously than has the California Raisin Day was promotional, of course. It has served its purpose, and is serving it. Advertising it is. But high-class advertising which catches the fancy of the people everywhere.

CHAUNCY M. DEPEW AT FOUNTAIN OF YOUTH

Chauncey M. Depew, hale at 89, has just observed his birthday anniversary. He is a remarkable figure. In a way he is a "last tear", hanging onto the tree of Time from the past generation. He has been the acquaintance, friend or intimate of many great men in public life. He has been a prominent figuure for half a century.

Mr. Depew's sprightliness and vigor at his extreme age are to be attributed to his uniformly cheerful disposition, his sunny philosophy of life and his moderation in all his habits. Worry has been foreign to him. He has worked hard. But he always has taken time to play and to cultivate his hobby—after-dinner speaking. He has achieved fame as an orator.

The lesson of cheerfulness and moderation well may be learned from the life of Mr. Depew. There is too much tension, too much worry, too much life-sapping strenuosity today. Too many men and too many women are forgetting how to live.

RENOWNED PIANIST IS WELL PATRONIZED

Grand total earnings of $460,000 since last November is the record made by Ignace Jan Paderewski in his concerts in the United States.

The renowned pianist composer and Polish patriot has averaged $7900 for three hours of music. Some may criticise this as being profiteering. But it is nothing of the kind. Genius can not be overpaid. How much is Thomas Edison and Luther Burbank to the world, in a material way? How much is William Shakespeare worth to the world intellectually?

The uplift, the inspiration, the cultural impetus, which a great violinist or the great singer gives mankind is worth more than can be calculated, in dollars and cents. Ignace Jan Paderewski is not overpaid. No other genius is overpaid.

It is credible to America that it appreciates superlative talent. This is shown in music, in the drama, in literature.

The day is past when men vote as their fathers and grandfathers did. Votes are based upon present day convictions, not upon the predilections and prejudices of the past.

COMMENTS OF THE PRESS

HERO OF SCIENCE DIES

(NEW YORK EVENING POST)

The discoverer of Tutankhamen's tomb dies as truly a martyr of science as Champollion, the founder of Egyptology, who worked himself to death in deciphering the Rosetta stone. In one aspect it is a tragic end. He did not see the supposed body of the king actually revealed. But it is a personal tragedy rather than such a disaster to science as the death of Schliemann or Rawlinson at the moment of their great discoveries would have been. Lord Carnarvon had done his work when he and Howard Carter opened the tomb of Luxor; the reaping of the scientific harvest remained a task for the trained archaeologists and historians who have already begun the classification and study of the contents.

And as a personal tragedy it has mitigating features of an extraordinary kind. Lord Carnarvon lived to see the expenditure of sixteen years of labor and a considerable fortune rewarded by a discovery which ranks as one of the three or four greatest exploits in the archaeological field and which seized on the world's imagination as no such exploit ever seized it before. He gained a place as one of the small company of men who have died in the moment of dazzling victory——a death from Tutankhamen's day to that of Nelson and Lincoln has usually been esteemed of all deaths the happiest.

If men of great heriditary wealth were wont to spend their money and labor widening the bounds of human knowledge, the praise merited by the Earl might be less. He set an example all too rare in the aristocracy of any country. It was the more notable from the direction it took. Not many years ago archaeology was a minor and despised branch of classical study. Even yet its slender resources are mainly drawn from the funds of museums and universities. Lord Carnarvon was the most prominent man of great wealth who had personally devoted himself to it, and he did it a memorable service.

"The vamp", says an ad., "is of unfinished kid." All the kid vamps we have seen impress us as being raw, but we can see their finish.

1 DEAD, 1 DYING IN COLLEGE SCRAP

(By International News Service)

CHICAGO, April 27.—Louis Aubere, Northwestern Univ. freshman, is dead today, and Ralph Williams, Harlan, Ky., another student, was believed dying in a hospital following an auto crash here early today which climaxed a bitter class war.

Seven others were hurt in the crash, one of them, Mrs. Arthur D. Winslow, Wilmette wife was badly cut by flying glass.

The crash resulted when James Leahy, driving an auto laden with freshmen at high speed, dashed in front of a car driven by Mrs. Winslow. The student car was trying to block a car filled with sophomores.

The crash is the climax, according to university students, of bitter class hatred which had its beginning in the mysterious disappearance in the fall of 1921 of Leighton Hunt, a Northwestern student, who has never been seen since.

Yesterday Dick Howell, prominent athlete, and also a Freshman, was kidnaped.

SAY NEGRO ADMITS INCENDIARY BLAZE

(By International News Service)

SACRAMENTO, April 27.—A searching probe to determine the origin of the fire which destroyed the Japanese Buddhist Mission here April 15 and cost the lives of ten Japanese children, came to a sensational termination early today when J. D. Coates, a negro, broke down after a severe grilling and told the police that John Golden, his Mexican confederate, fired the building.

Coates said he acted as "lookout" while Golden touched the disastrous fire.

Announcement of the confession was made by F. H. Classen, special agent of the arson board and the national board of fire underwriters.

Charges of first degree arson were preferred against the two.

Golden still maintains his innocence. In his confession, Coates is said to have told police that Golden, spurred by hatred of the Japanese as the result of a quarrel, planned the burning of the school.

The negro, according to special agent Classen, said that he watched for officers while Golden touched off a pile of oil-soaked waste.

Both were inflamed by drink, Coates, admitted.

Detectives started to run down new clues which it is believed may connect the two men with three other recent fires here and one in Stockton. Classen stated all of the fires were in Japanese buildings and all had evidence of being by incendiary origin.

CAPACITY CROWD ATTENDS BENEFIT

With $181.00 through a sliver of tickets to a house packed to capacity, the concert given last evening in Concordia club was a financial success. The funds are for the relief of starving children in the Ruhr district and the appeal from Victor Kraemer, a manufacturer from San Diego, touched the sympathies of all when they heard his description of the thousands of children who are dying for want of bread and milk.

Mr. Kraemer also gave a short talk on the objects and benefits of the Steuben Society of America, and said it is the duty of Germans to keep the race alive, and asked for signatures of at least one hundred men and women to whom cards were passed after the concert. Mr. Kraemer mentioned that 27 per cent of the people of America are of the German race, and that with organization their political influence would be inestimable. He hopes to see a section of the order in every city of the United States he said.

The concert program contained many of the rare old classics, both in orchestra and chorus numbers, and concluded with the rendition of "Blau Donau," Strauss, by the men's chorus, under the direction of O. Rasbach, with orchestra accompaniment, under the direction of O. Rasbach.

Mrs. Sidney Prince, whose ability as a vocalist is well known in Anaheim, was obliged to respond to the second encore, as did Mr. Herman Porner, of Hollywood, formerly of Anaheim.

Mme. Genevra Johnston Bishop sang two groups of songs and responded to applause with a catchy little composition, "Buy My Oranges" which she announced by relating an amusing incident. Mrs. J. O. Schwentker was her thoroughly able accompanist. Mr. Joseph A. Rembusch of Los Angeles, sang a group of rich baritone numbers. The "Bedouin Love Song" was remarkably fine. Mr. Rasbach played his accompaniments.

A dance after the concert gave a very enjoyable hour to the occasion.

Cards also featured the entertainment of the evening.

The orchestra deserves especial notation. Composed of fifteen pieces, organization was formed last fall and with practicing one evening each week, it has made remarkable progress. The personnel with Mr. Fred Schmidt as leader, follows first violins, Fred Schmidt, Otto Krastel and Miss Gertrude Wichers; second violins, F. Berns, F. Krastel and Miss Meta Blankmeyer; oboe, Lawrence Tooley; saxophone, John Fordham and Charles Fischer; trombone, J. Stark; cornet, John Pieper and G. Cordes; drums, Frank Shields.

25,300 ACRE FEET OF WATER SPREAD

1. The natural water basins into which surplus water goes after being spread are underground reservoirs, with all the advantages of artificial reservoirs, besides that of no evaporation.

2. Water remains in them until it is pumped out, and only that which overflows at a lower basin escapes.

3. Hence the effect of spreading may last for years.

These are some of the things which Nat Carwile, engineer of the Santa Ana Valley Irrigation Co. and the Anaheim Union Water Co., said after announcing here that approximately 25,200 acre feet of water had been spread in the season recently closed, more than in any year except 1922 since 1915. Last year was an exception because of the abundant rains. In 1922 75,000 acre feet were spread.

The secretary of the Water Conservation Ass'n, which spreads water for organizations of San Bernardino, Riverside and Orange Counties, reported that in 24 test wells the average rise between approximately April 1, 1922 and the same date this year was 3.22 feet.

Carwile recently visited wells in most of the five principal basins. He could not make conclusive tests in the Riverside and Corona basins, because of local rains, but in the Lytle Creek basin he found a level of 44.2 feet, compared with 101 feet below the surface on Oct. 6, and at the Colton basin one of 10 feet, 11 inches against 16 feet on Oct. 6, 1922.

The rise in the level of wells in the San Bernardino basin already has been described.

In th Colton basin the level of the wells at last report was the highest since the wells were drilld. T

MAY SAVE FREIGHTER

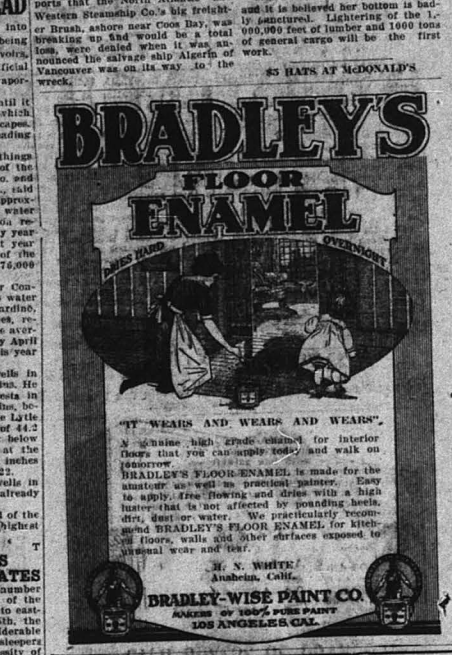

(By International News Service)

SEATTLE, April 27.—Early reports that the North Atlantic and Western Steamship Co.'s big freighter Brush, ashore near Coos Bay, was breaking up and would be a total loss, were denied when it was announced the salvage ship Algerin of Vancouver was on its way to the wreck.

Pacific Steamship Co. officials believed the Brush might be salvaged if the weather remains fair.

The Brush lies on a rocky ledge and it is believed her bottom is badly punctured. Lightering of the lumber, 900,000 feet of lumber and 1000 tons of general cargo will be the first work.

NOTICE
NEW SUB-DIVISION AT CYPRESS KNOWN AS LAHOMA TRACT

Priddy & Sconce office at Cypress are preparing a new subdivision at Cypress. This tract is on the boulevard 3 blocks from Cypress P. E. Station. Nice grammar school and stores, Anaheim high school bus.

This sub-division will have graded and graveled streets, gas, lights and water pressure system—piped to all lots, boulevard lots $800.00, up—just off boulevard $600.00 up, half acre and acre tracts can be had ¼ down balance monthly.

Also bear in mind Cypress is expecting some oil developments, it is comes it would be good to own some land there—but if Cypress don't prove to have oil, you have acquired property in a good location that is sure to have a good resale value.

FACTS TO CONSIDER

You have an oil bet, and Cypress is the center of 4 of the greatest oil fields in the United States—It has street car and bus convenients, and people that want near street car service to Los Angeles are going to come on down the line, for high prices around Compton and other towns only means people are selling and coming farther out, you can't go wrong to buy where the facilities will mean a good resale value.

Now folkes there will be only 54 parcels of land on this tract to sell and they wont last long and with land going higher, we don't expect to be able to secure another tract with like location with improvements in, to sell at these prices.

We expect to have improvements completed in about 10 days but if you want to make your selections early, you can do so by paying a small deposit down. Which will be held with the trust company pending your option, when all improvements are in

Son of the Desert Is Based on Facts

William Merrill McCormick plays the title role in "Son of the Desert", the new talkie picture which comes to the United Theater Saturday. Not only that, but he wrote the story and directed it as well, and all because of his travels in the desert and his familiarity with that vast and mysterious area.

He determined to produce a true story of the desert instead of a fictional one, and resolved to employ his knowledge to picture desert life as he found it rather than as someone else had written it.

It is an interesting story, concerning an American girl who admires a shiek as the subject of a possible painting and who imprudently visits his encampment in order to see him.

Other features of this unusually strong program will be the final appearance of Bae Pierre Brookhart—a return engagement of Harry Rahn nted basso; a Neeley Edwards Comedy and another chapter of the United installment play "Speed" featuring Chas. Hutchison.

The Gospel ACCORDING to Matthew "Jesus loosed men from sin"

The Gospel ACCORDING to Luke "He healed the sick"

The Gospel ACCORDING to Paul "He filled them with the Holy-Spirit"

We believe that He is "The same yesterday, today and forever."

We preach the Great I Am, not the Great I Was."

We are writing a GOSPEL, a chapter each day,
By deeds that we do, and by words we say.

Men read what we write, whether faithful or true.

Filtered Air for Food's Protection

WINTER air is no different from that of Summer in its trait of carrying disease-breeding germs. Food should never be exposed to it.

Instead, food should be protected in a well iced refrigerator. Test will prove this. Any doctor will confirm the statement.

The air is **filtered** in the refrigerator filled with ice, insuring unquestioned protection. Such **filtered** air is never germ laden; the direct opposite of risking your family's health by exposing food to outside air.

During these days of low temperatures, ice costs very little indeed. 'Phone us for service.

Terrific *Test* in Second Gear

In second gear for 450 miles at 29 miles an hour!

That's the record set by a *Lexington* stock touring car, lubricated with VENTURA Motor Oil.

For nearly sixteen hours the sturdy Lexington, with its wonderful Ansted motor, roared steadily over the mountains and through the valleys at 33 to 35 miles per hour, from Los Angeles to San Francisco—450 miles with the gears *sealed in second!*

Such an endurance record was a terrific test for both the oil and the motor. Running at high speed—2000 revolutions per minute—hour after hour, the motor required perfect lubrication to bring it safely through. At no time during the gruelling trip, did the temperature of the radiator water show higher than the average summer heat!
