

**CITRUS EXPO
ADVERTISED
IN L. A.**

Community Chorus Takes
Message of Anaheim
To Big City

Anaheim will be brought prominently before Angelenos tonight when the float entered by the third annual California Valencia Orange Show—which starts its nine-day run here next Tuesday morning at 9 o'clock—takes part in the "Mu-

sic Week" parade there. It will be gorgeously decorated in the exposition colors, orange and blue, and will be accompanied by a truck, donated by the Orange County Fair Freight Line, on which will ride Anaheim Community Chorus, with beautiful girls throwing oranges in to crowds to advertise the citrus show.

Two notable additions to the amusement features of the big fruit exposition have been announced by its manager, Malcolm A. Fraser. These are the selections of Mary

Aye, noted film beauty, as "Queen Valencia," and the engagement of Ellen Beach Yaw, internationally famous prima dona soprano, who will sing on the musical program.

Madam Yaw will sing in her characteristic voice that has charmed and enraptured the festival audience. She will appear upon the pageant to be staged by Miss Little Carroll, dance instructor at the University of California, Southern branch, with many Orange County young folk taking part. Rarely lovely in her royal robes of orange, Miss Ayo will be the majestic sovereign in the pomp and pageantry that will accompany the social activities of the great fruit display. She will be attended by a retinue of young women, with a sprinkling of handsome men, all ornately garbed in court costume.

Critical journals of Rome, Paris, London, Monte Carlo, Nice, Naples, Loughborough and other European centers of musical criticism have been unanimous in praising the soprano's performance.

The Elephant Orchard Association of Fullerton and Redlands will operate the miniature packing plant bought by the executive committee from the Stebler-Parker Company of Riverside expressly for the Anaheim show. Two of the prettiest and most

expert young women packers in the land of oranges will work two hours each afternoon and evening during the exposition in order that visitors may see just how valencias are prepared for market.

Anaheim is aglow today with the decorations that will welcome the thousands of spectators to its bi-centennial citrus display. "Old Glory" and the orange and blue banner of the show predominate in the flags, ensigns and streamers that make the downtown sections a riot of colorful beauty. And out at the show grounds, Man-

He adds that Anaheim is strangely lacking in entries for the bridge event that will be a feature of Monday evening, May 28, when Justice J. B. Cox, the "jailing jurist," a speed fatalist of Santa Ana, will shackle the happy couple with a pair of handcuffs and a chain of roses. Two Santa Ana have entered the race from Los Angeles, including one motion picture beauty, but Anaheim so far has no candidate.

**DRIVE THRU FROM
S. D. IN 12 DAYS**

Arthur G. Porter, wife and three children, who left Huron, S. D. by auto May 4, arrived in Anaheim yesterday. They stopped in Arizona for a visit with relatives, their actual destination being the state of California, where they will make their home in Anaheim.

Mr. Porter, who has been elected assistant manager of the First National bank and will be in the next department, was president and manager of the Beade-co Abstract & Title Co. of Huron, S. D., for six years. He was a member of the local club and was presented with a gold watch and chain at a Kiwanis farewell luncheon.

MAJORITY DESIRES

SAUNDERS REMAIN
MEMPHIS, May 19.—The majority members of the Piggy-Wigly stock pool office of Memphis are not in favor of ousting Clarence Saunders as Piggy-Wigly president, Saunders said this afternoon.

Assurance to the effect was received by him in long distance calls to New York, Louisville and St. Louis he declared.

ZEV WINS \$50,000
KENTUCKY DERBY
(By International News Service)

LOUISVILLE, May 19.—The racing scene at the Louisville track today was a corker. Zev this afternoon captured the Kentucky Derby with a cash value of more than \$50,000. Zev was half a length in front of Martingale who was in second place. Vigil, the Preakness winner, was third. The time was 2:05 2-5.

Twenty-one starters, the most that ever ran in a derby, completed in the event. Zev raced into an early lead and was never headed.

BUILD \$6000 HOME

FOR NEWCOMERS

Oscar Brust, brother-in-law of Joe Siegel, one of the 4500 passengers who were recently reported leaving Chicago for So. Calif., was expected to arrive in Anaheim this afternoon at 3:47 o'clock. The family, comprising six members, is expected within a short time, and a \$4000 residence is being erected by Joe Siegel for them in the 800-block on N. Lemon-st. The residence is in the Seewie tract facing east, and the foundations are already laid.

PRIVATE SERVICE FOR HARRY
Isaac, ten-month-old son of Mr. and Mrs. Macla, of Buena Park, died last evening at 11 o'clock, of pneumonia. Private funeral services will be in the Huddle Funeral Home, Monday morning at 1 o'clock, with burial in Holy Cross cemetery.

BORBON INFANT DIES
Paul Borbon, eight-month-old son of Mr. and Mrs. J. Borbon, died this morning at the home of his parents on East Commonwealth avenue, of pneumonia. Burial will be in Holy Cross cemetery.

BREA NEWS ITEMS

THREE, May 19.—(Sp.)—One of our popular young ladies of Brea decided to take upon herself a partner and last Tuesday a party composed of A. D. Kewish, wife and little daughter Cliffs and prospective bride and groom motored to Los Angeles and the ceremony took place at 1 o'clock in the Presbyterian Church, the pastor officiating. Mr. and Mrs. Charles Barker of Los Angeles were in attendance, also to witness the wedding. The bride and groom were married with the ring, and Mr. Thomas C. Holbrook of Huntington Park and Miss Elizabeth A. Kewish of Brea were the happy couple. The groom was dressed in a gray suit and the bride in white satin, the best man and woman were Mr. A. D. Kewish and his wife. After the ceremony they returned to Brea where Mother Kewish and S. Walcutt had prepared a delicious 3-course 4 o'clock luncheon. Decorations were beautiful. After the feast the bride and groom, the Kewish family were home for the luncheon. Those present were, Mrs. Isabella Kewish, Mr. and Mrs. Barker and son James, H. C. Kewish, Mr. Kewish, wife and daughter Cliffs, Mrs. Grace Henderson, J. R. Kewish, wife and son, Wesley of Stearns Lane, J. C. Kewish, wife and son Harold of Fillmore, R. A. Kewish of La Habra, Mr. and Mrs. Charles Barker of Los Angeles, Mr. and Mrs. Charles Monroe of Huntington Park and Mrs. Dykes, recently of La Brea, Lake City and Mr. Holbrook and his bride. They will live in Huntington Park where a home is being built and beautifully furnished. Friday morning they will tour up to Santa Barbara for a week and visit Mr. and Mrs. Elton and J. C. Kewish and family at Fillmore, Mr. and Mrs. Holbrook and the best of friends and family friends and a long and prosperous life.

Mrs. Chambers had dinner with her daughter Mrs. Lena Mabee and family Friday in Whittier. The Christian Church of Whittier Society will meet at Mrs. Merrifield's next Tuesday afternoon, an annual affair. Good program prepared and some there will be a good crowd. W. E. Snyder was a Santa Ana visitor Friday. Birthday Sunday dinner in honor of Mrs. A. R. Stickeny at her home on S. Walnut-st. at 3 o'clock p.m. Those in attendance were Mrs. E. L. Stickeny of Pomona and Mr. and Mrs. W. C. Stickeny of South Pasadena and Mrs. A. R. Stickeny, Mrs. Stickeny was the recipient of many beautiful gifts. Mr. and Mrs. Harry Wheeler and Mr. and Mrs. Bird returned home this afternoon after a week's visit at San Francisco attending a convention. Mrs. Little from Olinda was a Brea visitor Tuesday afternoon. Mrs. Jerry Pennington of Brea came to Brea was a visitor at the home of Mrs. Reynolds Wednesday afternoon at Pomona. Mrs. Sloan had her little son's tonsils removed Wednesday morning. Dr. Steen officiating in Brea. Mr. and Mrs. James E. Reynolds of S. Pomona-ave. and Mr. and Mrs. J. P. Schweitzer of South Madrona-ave.

Goodrich tire and rim, either on Walnut street near Rogers or Ball road. Return to Hoying's Pharmacy and receive reward.

STOLEN

The person who picked up my Brindle Bull Terrier "Bob" near the York Linda water plant Tuesday had better return him immediately or will be prosecuted. "Bob" has long ears, white front foot, wore brass spotted collar and was an inseparable pal of my late husband and I wait him returned. Mrs. Ethel York. Phone 1932, Placentia.

BOOST OF 20 PER CENT IN TIRES?

Another boost of 20 per cent in prices of tires, tubes and repair materials before June 1 was forecast here on Thursday by certain dealers, who declared that they had received official word to that effect. This will bring the "total" advance since Jan. 1 to 45 to 50 per cent. Whether the advance will be general, affecting all or most tires made, depends upon the action of the Big Five. It is understood that the most prominent member of the latter has secretly announced that it will be in line for the boost.

TO LET ANOTHER PASS STATE LAW

Stanhope auto driver who think they are standing on their legal rights, when as a matter of fact, they have no rights, are going to get into trouble this summer in traveling mountain highways if they don't watch out, warns the Auto club of So. Calif.

A number of letters have been received by the So. Calif. club from state auto owners who claim that many motorists are not aware of a clause in the state motor vehicle act to wit: section 29 (D), which reads as follows:

"It shall be the duty of the driver of a motor vehicle to stop at the first sign of a stop sign, and to remain stopped until the sign is removed or until the driver is permitted to proceed by the sign." This points out that while it is an act of courtesy to move over and give right of the road to someone who wants to pass you, it is also a state law.

It is reported that one of the star first basemen can't get the low balls. Ah, well; there are dozens of stars who can't get highballs.

STUDEBAKER SALES

Harry D. Riley up to Friday had delivered these Studebaker cars sold the past week: Light six touring, I. H. Myers, Orange; big six sedan, Joe. H. Nicksell, Artesia; light six roadster, I. Nicksell, Artesia; light six sedan, H. L. Avast, Norwalk; light six touring, Anaheim Beef Co.; light six sedan, P. H. Baker, Orange; Leonard McClure of Fullerton, also had purchased a car of Riley.

17 CHEVROLETS SOLD IN 15 DAYS

Seventeen Chevrolet cars were sold during the first 15 days of this month by two salesmen of the Targart Motor Co., here. They 17 include seven sedans, three coupes and seven touring cars. As indicated, closed models continue popular. The manufacturers in fact claim to have been the first to shift strongly to the closed car and the five-passenger sedan has been the chief responsibility.

The sedanette, the latest member of the closed car family, also is attracting much attention. It is designed especially for country club, social, shopping and general utility purposes and as an extra car for women. The coupe is the lowest priced quality car on the market, according to the makers.

Overland Red Bird Is Wonderful Sport

The Overland Red Bird, the latest addition to the Overland line, handling much excitement among auto fans. The engine is as economical as ever, and it is larger and more powerful. The wheel base has been lengthened to 106 inches, with a spring base of 136. A durable shank top crowns all. There is plenty of nickel to make the car the sport of it is. The motor, fenders and Spanish leather upholstery are such as ordinarily may be found only on much higher priced cars.

Tires Half Worn After 14,000 Miles

Roy Mendoza of the Reliable Tire Co. displayed this week a pair of Para-Bell cord tires, 30 by 34, which he had on his Chevrolet in Los Angeles more than a year ago. The tires were driven 14,000 miles and still look good for many thousands more if they are not mistreated.

Mendoza has used them on trips through the mountains, to the sea, on boulevards, on dirt roads—everywhere and in all sorts of weather. They are hardly half worn, as shown by comparison with a new pair.

87th Hudson Built Is on Display Here

The local branch of Townsend & Medbery, Essex and Hudson distributors, is showing the 87th Hudson built, a 1908 model. Arnold, Los Angeles, distributor, is the owner. The car was in the record Restoration Day parade in Santa Ana.

It still runs and runs pretty well, but it's a queer looking machine, resembling as it was a step in the evolution of body style away from the horse drawn vehicle. There is a step in the rear, familiar to horse fanciers while the headlights are fed by gas and the side lamps by oil.

There is a tubular axle in front, and the front fenders are long, gracefully sweeping things. The tires are "quick detachable," but hardly look it. The horn is a huge one of "Non-Parrell" make.

EXIDE SERVICE TO BE IMPROVED

Devoting himself exclusively to the sale and service of Exide batteries, of which he is the official distributor in Anaheim and vicinity, D. P. Herr is prepared still further to improve his facilities.

Exide batteries are particularly adapted to the motorcycle says Herr. Just how rigorous are the demands made upon a motorcycle battery no one but a motorcycle rider himself can realize.

The continual vibration—the jolts and jares that rack the whole frame of the machine—are transmitted direct to the storage battery. Consequently, it is essential that this important unit must be able to withstand this abuse with a minimum of care and attention.

Realizing this, the manufacturers of the Exide—with thirty-four years of experience in the battery business—have behind them—made an exhaustive series of experiments—to determine just what construction was most suitable. No cut-down automobile battery would answer the purpose. A totally different construction was necessary.

As a result, this company—the last manufacturer in the world of storage battery building experience—has produced what is unquestionably the most dependable and durable motorcycle battery ever produced for this exacting service—the Exide, type 3-KZ-6.

NOTED POULTRYMAN DIES
SEATTLE, May 19.—Douglas Tanager, one of the most noted poultrymen in the northwest is dead at Kent 63.

Tanager's hens have won three world records for egg-laying. He is generally credited with the invention of trap nesting.

Starbuck's Red Sea Classified Ad.

FACTS FIGURES ON REGISTRATION

As an indication of what may be expected in the sale of the automobile will H. Marsh, chief of the division of Motor Vehicles, quote figures comparing the number of motor vehicles licensed during the first quarter of the present year, as against the entire year of 1922, as well as the amount of fees collected from said licensees:

Year	1922	1923
Automobiles	82,334	82,571
Trucks	3,412	3,510
Motorcycles	16,301	16,917
Trailers	1,561	1,537
Transients	12,843	11,970

Gross receipts, entire year 1922, \$1,314,606.40. First quarter 1923, \$1,298,576.

These figures show an increase of 3,777 automobiles in a period of three months as against the total of twelve months of 1922. This has been received to date in automobile license fees an increase of \$777,847.81. The other classifications of registrations have not yet reached the amounts of 1922, the total increase from all classifications being but \$102,312.34. But this shows a tremendous increase in fees received from new cars.

The percentage of increased registration is low compared with the percentage of increased fees from automobiles and the belief is that this may be attributed to the fact that the higher priced and higher powered cars are replacing the cheaper and lighter car.

The figures compiled on the first quarter's business of the division show a remarkable registration in Los Angeles county, 205,935 cars having been registered during the period as against 238,695 for 1922.

Alameda county has already exceeded its automobile registration of last year. Contra Costa, with a registration of 1,169 is already about 400 ahead of last year's total registration. In the balance of the counties of the state, the registrations show that they are now showing close to the mark for 1923.

BE PREPARED FOR OPEN ROAD CALL

"We can look after the automobile needs of the camper or tourist as well as anybody in the county," says C. J. Nemo, referring to the store's equipment in preparation for the call of the Open Road, which still will be heard for weeks yet.

Tennessie whiffleball and wigs, a canteen unit for extra gas, water and oil; camping stoves and other camping supplies; Gabriel snubbers to make the journey easy; Targart springs, which the Nash now is to carry as standard equipment; spotlights, extra gloves, car batteries, plugs—a down and one thing that are commonly overlooked, but are badly needed when they are required are in Nemo's big stock of accessories and parts.

Most of these things are, needless to say, in stock, and all are convenient at least.

Two Batteries Per Day are Sold

Sales of seven UBL batteries in 3 days is reported by George H. Bann of the Automotive Electric Co., exclusive distributors in the Anaheim district.

In less than a year, Bann has sold approximately 110 of these batteries in his territory.

In addition, he has enjoyed an excellent business in generators, starters and ignition systems.

ORANGE COUNTY CERTIFIED MOTOR CAR MARKET

C. F. HAMM, Mgr.

304 S. Los Angeles St. Anaheim

County Now Fourth in Car Sales

In the certified used car market of Orange County, the county is now fourth in car sales. No more says Jim Appleby, president of the Orange County Motor Car Dealers' Association, established of this market and also the ones at Santa Ana and Fullerton.

Assuming that this association covers the County which it practically does, sales of new cars during April improved most such that the county stood fourth place, against eighth place in April last year. According to Appleby, the County's gain was the most considerable of all in the State, and Orange now follows Los Angeles, San Francisco and Alameda counties.

There were 614 cars delivered to the population in less than half that of certain other counties, the Fresno, which stood lower.

After the ending this week when drawings were made for spaces in the Auto Show, the salesmen were assembled, and the list impressed upon them that the Certified Market is not a dealer's market, but a public one.

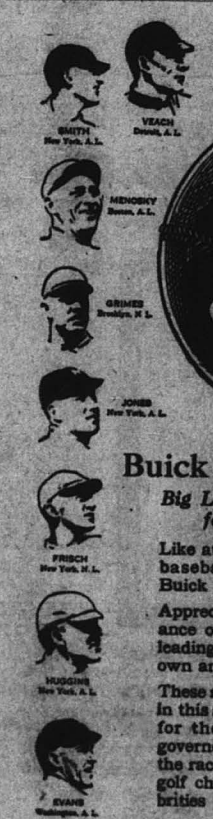

FORD TRACTOR IN GROWING DEMAND

Both agriculture and industry are making increasing demands for the Ford tractor, says George Danton, Ford, Fordson and Lincoln distributor.

While the use of the Fordson as a farm implement is extending in every agricultural section of the country as farmers come to realize the advantages and economy of power farming, a most noticeable feature of the sales is the growing use of this sturdy and dependable power plant in industrial and commercial activities.

Contractors and builders are everywhere adapting the Fordson to meet their needs for power, spare more able or stationary, and road engineers throughout the country are specifying its use with highway construction machinery.

To meet this growing demand for Fordson tractors production is now at capacity and for the first three months of the year reached a total of 27,957 as compared with 2,349 for the same period a year ago.

600 CARS AT AUTO SHOW RATES MOTOR WEST STORY

Regarding the auto exhibit in the Orange Show Motor West, which reached here Friday, says: "It is planned to make the auto section of the Anaheim Valencia Show May 22-30, one of the most comprehensive ever held in Southern California. The automobile show tend to be 3000-3500, with elaborate Egyptian decorations." The articles quotes Secretary H. O. Davis of the Orange County Motor Car Dealers' Association as declaring that nearly 500 cars will be exhibited.

PIKE'S PEAK MOTOR NOISELESS IS CLAIM

One of the most remarkable results obtained in the design of the Pike's Peak motor is absolute freedom from the noise sometimes incorrectly called vibration but more commonly referred to as "ping." This noise has been absolutely eliminated, not only when the motor is clean but regardless of the amount of carbon accumulated, says Sam Hubbell of Hubbell & Wimmer, Cleveland, and Chandler distributors.

Under no circumstances is it necessary to retard the spark to eliminate this noise. The noise just simply isn't there under any conditions yet found.

The power of the motor on hills and in pickup or acceleration is phenomenal. It is not necessary to rush any hill. Excess power is there at command. The possible range of operation in high gear is from three to 50 miles an hour, and can be accomplished without skipping or hitching at any point.

Experimental motors were in constant use for many months and tests were made under every conceivable condition. Cars with Pike's Peak motor have better mileage from Cleveland to Pike Peak, and all through the middle west and east, so that all kinds of hill tests, pulling power in sand and mud, and performance on smooth as well as rough roads have been passed.

Many school roofs in New York are covered with nothing to permit ball games by the pupils high in the air.

When in need advertising in the So. Calif. Blue for pet is worth from \$100 to \$400.

MILLIONTH PLATE IS ISSUED

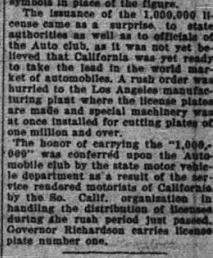

California has passed the million mark in auto registration. With the issuance of state license plate number 1,000,000 to Don Dole, manager of the touring bureau of the Auto Club of Southern California, California was the first state to issue a plate reaching this figure.

California has the honor of leading all states in America with the number of motor vehicles owned at this time, and leads any country in the world in the number of motor vehicles registered.

A telegram was received by the Auto club touring bureau from New York confirming the fact that New York, which hitherto has led America in the number of motor cars registered, did not issue a 1,000,000 license in 1922 and has not yet issued one for 1923. When H. J. Dole, manager of the Los Angeles branch of the Motor Vehicle department yesterday presented Mr. Dole with the epoch making license number, he declared that this will be the only plate probably to be issued by California bearing six eights and a one, as next year it is planned to use symbols in place of the figures.

The issuance of the 1,000,000 license came as a surprise, to state authorities as well as to officials of the Auto club, as it was not yet believed that California was yet ready to take the lead in the world market of automobiles. A rush order was hurried to the Los Angeles manufacturing plant where the license plates are made and special machinery was at once installed for cutting plates of one million and over.

The honor of carrying the "1,000,000" was conferred upon the Automobile club by the state motor vehicle department as a result of the service rendered motorists of California by the So. Calif. organization in handling the distribution of licenses during the rush period just passed. Governor Richardson carries license plate number one.

THE ORANGE COUNTY PLAIN DEALER, ANAHEIM, CALIFORNIA

BUYING CAR SHOULD BE AN INVESTMENT

Buying an automobile should be a business investment on exactly the same plane as buying real estate or insurance, declares O. C. Hutchinson, general sales manager of the Hupmobile Motor Car Corporation. "Every factor of good business judgment should enter into its purchase—original cost, resale value, cost of upkeep and the reputation of the company making the product as well as that of the dealer handling it."

"The motor car has become a transportation necessity, and by far the greatest use to which it is being put today is to meet the basic demand of economical transportation. From 75 to 78 per cent of Hupmobile buyers purchase their cars primarily for business purposes. It has been ascertained, although the Hup has been known essentially as a family car for years, and its sales volume built up from that demand."

"Some legislators still regard the motor car as a luxury and would keep it in the luxury class whenever a discussion of future items for taxation arises. But the number is steadily diminishing."

"It has taken nearly 50 years for the number of telephones in use to reach approximately 15,000,000 and only 25 years for automobiles to reach the same point."

Average weight of a hen's egg is 50 grams, of which the shell weighs about 5, the white 35 and the yolk 75.

Eddy's Orange Show Exhibit Noteworthy

How a car can be made literally to look like new will be shown by Eddy's Paint & Tint Shop at the Orange show, when the firm displays a Cole 3 of J. A. Cline, principal of the Anaheim Union High School. The car will have an Elizabeth de Juan California top, with body covering of tan fabric, trimmed in chocolate brown, with fenders, splash and chassis in chocolate brown and radiator shell, lamps and trimmings in nickel.

The interior will be in brown broadcloth corresponding to the rest of the car.

The entire job except the stick-in was done by the Eddy shop. Another car to be exhibited at the show will be a Packard single six with a Boyesen sport top, done by the shop for Dale & Co. Eddy also is handling a sedan show Boyesen sport California top on a Packard single six purchased recently by Joe Pisano.

Production of Ford cars and trucks for domestic use during the week ending Tuesday, April 24, totaled 38,542. The highest day's production was 5,658. Fordson tractor production for the same period was 2,732.

Under the super-quality manufacturing schedule in effect at the Los Angeles division of the Ford Motor Company, production for the week ending Tuesday, April 24, totaled 139 Lincoln cars.

FRANKLIN SETS UP NEW FAST RECORD

What is declared to be the highest Franklin average record in miles per hour for a distance ever known is that of the run staged by the Detroit Franklin Company between Detroit and Grand Rapids and return, says the Bob White Co. Nash and Franklin distributors. The average was 42.84 miles per hour over 331 miles.

It is all the more remarkable in the face of the fact that a sedan carrying four passengers was used. This car was driven by Charlie Monmore who was accompanied by A. B. Tobias and C. A. Brady of the Detroit-Franklin Company, and E. H. Schmeissner of the Detroit Press. They left Detroit at 7:50 a. m. and arrived at Grand Rapids at 8:55 a. m. average running time for 165.5 miles, 44.5 miles per hour. Return trip average was 43.3 miles per hour. Round trip average 43.94 miles for the 331 miles covered.

Motorcycle police preceded the car. Twenty minutes was allowed for breakfast at Grand Rapids, during which time the oil in the motor was changed, pre-heated oil being used to avoid cooling the motor. Highest point reached by the speedometer in this drive was 51 miles per hour.

Metal office furniture made in this country is becoming popular in Japan.

NEW 77 HAYNES SPEEDSTER ARRIVES

Here's a car, fans, you can rave about. The limit of the big six Haynes 77 speedsters to reach here.

The Hull-Wittmer Haynes Co. have put it on exhibit at their showrooms on South Los Angeles-st. It is the same car that can do 90 miles an hour and which was given on March 9, last year, at 74 to 80 miles an hour on the Indianapolis Speedway by Howard Wilcox. One is a battleship grey, with all the trimmings, and space in the rear for a couple of trunks, besides a spacious compartment immediately back of the seat, this car is a joy to look upon.

The car will be one of six models to be exhibited by the local concern at the Orange show.

PLAY RESUMED IN ELKS PIN LEAGUE

Play was resumed in the So. Calif. Elks League last night after a two weeks lay off on account of the P. C. B. A. tournament at San Jose.

Paradise was the guest of Anaheim Lodge on the home alleys and in the Spirit of Brotherhood Love the home team allowed the visitors to win all three games, all of the local hard having a hard time only Capt. Elker going over the 500 mark.

P. C. visitors Wilbur rolled 202 and Vall 534 for the high mark of the match.

ORANIZE 8-TEAM BOWLING LEAGUE

A new league composed of eight teams with three on a team will start a seven week schedule will get under way next Monday night, four teams will shoot Monday and a like number on Tuesday.

Averages of last season's will be taken and the teams formed on a basis of not over 150 teams are. Five games a night will be rolled, each team meeting every team in the league once.

The teams will be known by colors and the leagues are as follows: Blues—Hoyden, Ambrose, Olluda. Whites—Elker, Graham, Gamboa. Reds—Dugas, Morago, Stanfield. Greens—McGough, McMaster, Monney.

Browns—Larrison, Fridy, Smith. Blacks—Moore, Tanner, M. Varney.

Yellows—Baran, James, Bamesberger. Oranges—O'Donnel, Baker, P. Varney.

Monday the Blues vs. White, and Wednesday the Browns vs. Blacks and Yellows vs. Oranges.

GREAT FALLS GIVES KEARNS GLAD HAND

GREAT FALLS, Mont., May 13.—Jack Kearns, manager of Jack Dempsey, was accorded a demonstration of bare-knuckle boxing when he stepped from the train here last night.

Kearns in a statement to the International News Service this morning said that it is all likelihood the champion would meet Harry Wills, negro contender for the heavyweight crown, at New York or Jersey City on Labor Day. Dempsey is said to be in excellent condition and present plans call for only moderate training up to three weeks before the fight on July 4. Light workouts to start Saturday.

Ten sparring partners have been engaged by the champion to work with him during the conditioning process. Harry Drake and Billy Wells, engaged by Kearns, arrived here Sunday. Babe Herman, featherweight and "Tiny Jim" Herman, added to the champion's retinue of workers.

AUTOBOGANNING —THIS IS LATEST

Although the scene pictured here with its set of the regularly scheduled 64 "Hansons for Rev" might be considered so by lovers of the out of doors, says C. W. Cramer, branch manager of Dale & Co. Reno and Packard distributors.

At any rate, it does make clearer the statement of a medical authority that the automobile has done more to improve the health of the American people than any other single factor.

California winters bring their days of snow sports up among the mountains and canyons where this photograph was made. There the northerners find of autoboganning and its wholesome outdoor frolicking can be alternated with hurt bathing with only a day or so intervening.

Automobiles capable of traveling the white mantled canyon roads carry beach residents to snow in comparatively few hours. Now to some horseback riders too, days for the trip from frosted mountains to warm waters.

LEGION PLAYS AT BROOKSIDE PARK

Anaheim Post No. 7, American Legion, and Laundman Park Post will battle at Brookside Park field, one of the fastest ball teams in So. Calif., Sunday afternoon. The Laundman Park team has a string of good players and Capt. "Red" Altrow is looking for a tough fight.

This is the second league of the season. Pasadena, the Elks flash short stop will hold that position for the vets team Sunday. "Dryan" will locate on the mound and Hoover will receive.

DAILY GREETINGS TO OUR READERS

Fresh the cup of life's sorrows,
Whisper courage, comfort new;
Not in vain our prayer beeches
Rest for the beleaguered.

—Song of Morals

An effectual way should be found to put a quietus on speculative gambling in sugar and other necessities of life.

President Taft of Standard Oil says there is not a word of truth in the rumors that Standard and the independents are at war. That's always our luck.

The fewer the laws enacted and the better they are, the better for the commonwealth. There is no virtue or merit in a great mass of legislation, much of it trivial or mischievous.

California is delightful in summer as it is in winter. The world is learning this and appreciating it, and greater numbers of tourists are coming here each succeeding summer.

The "poison pen" should write an introduction for the one who uses it, too a prison cell. Assassins of character should be punished severely, just as assassins of the human body are.

The government fisheries bureau is going to begin experiments to keep track of codfish. We don't know much about codfish, but it is a codfish, but it generally stands up in clam chowder as most best fish.

Chinese brigands drive hard bargains. The first bargain, when these lawless bands are captured with, should be hard, none so hard that their relations should be broken up one for all.

Recognition of Mexico by the United States Government is expected soon. It is to be hoped that it will come and that full diplomatic relations between the two countries will be restored. This would be mutually gratifying and beneficial.

Arizona will stand in its own path of progress should it reject or retard the proposed compact of the seven states of the Colorado Basin to dam Colorado and, besides preventing destructive floods, provide power and impose huge quantities of water for irrigation. It would be futile for Arizona to attempt extensive development of this kind on its own account. Far better that the sister state join with the other six commonwealths and help press this project forward to consummation.

TOWN IN REVIEW

If we were William with his 34-inch reach we would start selling fish stories for a living.

Woman manager of a Cleveland, O., restaurant says one rule for success is: "Never let little things annoy you, for instance—note in the refrigerator."

Some day some real estate undertaker may open an exclusive tract for all persons who practice cornets.

Such a tract would lie next to the one for the persons who practice on trombones.

This evening we present the Hon. E. T. Bowl, who claims to be the first person to disavow a sugar boycott. "I have not tasted sugar since 1896," he says, "and I have been rewarded by seeing the price of sugar drop \$302 time in the last 27 years. As there are 100,000,000 people in the United States, I estimate that if the rest of the population would but follow my course sugar prices would drop \$30,200,000,000 times in the next 27 years. Think what this would mean! 'Bear the sugar droppings' is my motto."

Spring's evil is finding a way to carry all the track you had in last winter.

Florida man says he won't be back for 10 years.

Sparks and Spikes

If silence is admission of guilt, innocence must bear the brunt.

Incidents in life are only incidental to life.

One over-rates his ability unless he brings up reinforcements.

A fast who fishes in the desert made. Tells back on his own folly.

It is much heavier act to admit one's guilt than to commit a dishonorable act.

Some favors are done freely and some are done by force. But when accepting either be sure to check its source.

Many an error lies behind a well-conceived excuse.

TIA JUANA CLEANSING IS PROMISED

Mexico's border cities, including Tia Juana and Mexicali, are to be cleared of gambling. This is the dictum of General Calles, Secretary of the Interior in President Obregon's cabinet. These notorious resort cities have been moral pestholes. California has suffered from the pinholes of Tia Juana and Mexicali. The gambling mill down there spreads its blight across the border. Young men and young women of this state are being corrupted in these places, where vice stalks boldly and brazenly.

Suppression of gambling down there would save many a young person from disgrace and ruin. It is to be hoped that the Mexican authorities will hasten the cleansing, and make it thorough.

What August Gruger will be when he becomes a man is difficult to forecast. Maybe he will write summer resort booklets or oil stock circulars. Anyhow, it will be good, whatever it is. August is only twelve at present, but for five full days, he kept the police of this great city and the S. P. C. A. authorities agitated, trying to guess how he managed to loose his parents immediately after his family's arrival in New York from their former home in Denver. Finally at the end of the five days, he confessed that he lived on Long Island and that so far as he knew his family was sitting around the fireplace there just where he left them when he decided to run away.

NEW YORK LETTER

BY LUCY FRANK PHILL

NEW YORK, May 18.—The feminist grasp on the world grows stronger and more every year. An "all woman" expedition into the jungles of western Africa is the latest venture. Mrs. Della G. Ashley has been commissioned by the Brooklyn Museum to hunt big game specimens in the jungles there. And in the company she takes with her, there will be only members of her own sex, the sex which used to be afraid to pick up a gun, according to newspapers and novels. They will spend one year in British East Africa and the Congo, and Mrs. Ashley will devote much attention to the study of baby life in the jungle.

Once upon a time I had an idea that life in a big city was more standardized, more conventional, than in smaller places. Oh, what a misconception. Where but in New York, for an example, would a householder revel in giving the impression to passersby that his home was a zoo? Down in the Chelsea studio district there is just such a household. An aged traveler has a home down there, with thirteen windows in the rear of the house. And each window appears from the outside to be the stall of some animal. There are the heads of a cow, a horse, a camel, a lion, a whale, an ape and several others. It took me all day to get a whimsy of the traveler. He has recently visited the heads on a kind of gray gauze and stretched it tightly across the windows to give the effect of the animals looking out.

People are not without gratitude, however much it may seem to use at times that it is an unappreciative world. A New York physician who on the other day of an emergency when he was alone, he had treated the wife of a laboring man whose work starts at four in the morning. At seven o'clock, one cold stormy morning the doctor was awakened by the door bell. He found the workman waiting for him. "Doctor," he said, "my wife and I couldn't sleep last night for thinking that we hadn't checked you for what you did for me. I'm sorry to wake you so early, but this breakfast hour is the only time I have all day long and I just had to come and tell you how grateful we are." It meant that the physician had no breakfast—what trip to the doctor's and a second as to people's hearts are pretty right, in spite of everything.

Philip Brown, a generally law-abiding citizen of the Bronx, will cease his efforts to serve his city from this time forward. It doesn't pay and the penalties are too dear. Mr. Brown has a summer home up in Sullivan county and the other day while getting a first taste of spring on a motor trip up there, he came across a turtle. He immediately decided, being a Royal New Yorker, to bring it down to the Aquarium. He had some friends in the car with him but it was all right with them, so the turtle was loaded into a box and they all started homeward. But just as he was about to enter the city limits, there was an unusually energetic swirl on the part of the turtle. It broke out of its box and jumping forward caught Mr. Brown's leg firmly in its pincers. He gave one shriek and shot his car forward with a burst of speed. Not that he intended to take it out on the car, but because he was so startled. He seemed the natural way to get away from any enemy—a motor car stopped him and arrested him for that burst of speed. Ordered and chastised he appeared at the police station; his leg was lacerated, he was an unintentional hot-shooter, his friends who made the trip with him were well off for life because of the incident and the turtle and the arrest; and the Aquarium didn't yet have the turtle. "You are to be commended for your patriotism and public spirit in going to all this trouble to bring the Aquarium such a fine turtle," said the magistrate. "But the law must be upheld. Five dollars and costs."

It is not rules nor man made laws.

It is yourself shows up the flaws.

Those who retain their sense of humor while hungry, prove the theory of "mind over matter."

PARAGRAPHS

(By Robert Quillen)

Genius is composed of equal parts of sweat, disappointment and headlines.

Peace is a period during which has never been louder than the dogs of war.

The only thing that appears smaller than a stone is the other man's troubles.

We've never seen a chameleon, but we have observed a number of foreign policies.

History is what enables each nation to use the other fellow's past record as an alibi.

The discovery of new fields doesn't seem to change the ratio between oil and troubled waters.

It's worth the cost of a doctor's visit just to have somebody listen while you describe your symptoms.

If Germany had paid more attention to Mother, she would be having less trouble with the mark.

European statesmen should realize that a very poor place to balance power is on an empty stomach.

The trouble with being a bicyclist is that good bicycling weather is always good golf weather.

Europe may be a kind of Ladaria, but she can't live on the scraps that fall from the conference table.

They say heroin causes digestive troubles, but the drug traffic isn't the only one that causes constipation.

Statistics show that millions and millions of Americans have some preferred church to stay away from.

Pots is the quality that enables you to look bored while the traffic cop exhibits his best sarcasm.

Draft it. People are losing interest in the Ruhr, and it was such a nice short word to work into a headline.

There always is at least one man on the force whom head doesn't seem to contain anything but enthusiasm.

People had less rapid means of travel in the old days, but they found it easier to keep up with the styles.

Correct this sentence: "Don't disturb it, dear," said the mother; "file like sugar just as well as you do."

ABE MARTIN

"I did think some of 'advertisment' for a maid, but I have a home as an answer 'th' phone," said Mrs. Em. Pash 'day, as she was takin' a treatment for her spine. "It'd better let well enough alone," said Agriculturalist Jake Bentley when he heard President Harding had bought a farm.

HERE'S WHAT FLAT
RATE SERVICE IS

What is meant by "flat rates service?" Much discussion of this subject is heard among motor car owners, but it is evident from the nature of these conversations, that many have only a vague idea of its real significance. As a matter of fact, flat rates service, as applied by the leading auto mobile dealers, is not definable in a single sentence.

In the first place, according to Charley Mann, local dealer for Dodge Brothers, "it means that a careful study was made of the thousands of operations that might enter into the repairing of a motor car. On the basis of these time-studies, reasonable time allowances for every conceivable service job were established, and the mechanic is required to complete each job within the allotted time."

"When an owner brings his car to the service station for repairs," says Mann, "we are able to quote him a positive figure for the work to be done. We are also enabled to give him a definite delivery promise."

"But there is an element of even greater importance to the car owner, and that is the fact that the mechanic is not only able to get it finished on time, but he may start a new job. Naturally he is anxious to make as much money as possible, and such a plan eliminates loafing. A feature of this system is the penalty that requires each mechanic to make good without additional pay, any of his work that is returned because of inferior workmanship. This precludes any possibility of carelessness on the part of the mechanic."

"We have found positively," continues Mr. Mann, "that this method not only reduces the charges to our car owners, but it improves the quality of our service work. It is the surest thing to perfection that has ever been seen in the line of service efficiency."

The Flapper

(By GEORGE ADAMS)

I have been reading a great deal about what the public terms "The Flapper." And I am frank to state that I do not take sides with her critics. I am rather for the flapper. Of course they could have given this composite individual a much prettier name, but "what's in a name?" On the other hand it may have academic derivation. The other day I watched two little bird flappers come out into this big world from their tiny nest home in a tree. They flapped and flapped—in their bird youth flapping to get strong and to be big birds in the world.

Maybe nature furnished this name, after all.

As near as I can make out, this flapper individual is something like this: Happy and free, full of expression—not any too particular about set-out conventions and traditions—clear in mind because she is the out-of-doors and drinks to the full from its stimulus.

Perhaps her hair is "bobbed." But that is a sensible style, and a woman will make it universal among women. I hardly think men would "do up their hair," for any considerable period; in fact, history proves that they didn't.

Much has been discussed about the dress of the flapper, but she looks most comfortable in her short skirts and sleeves and free fitting clothes. It must not be forgotten that youth must have room and freedom, and that only in unhampered expression does anyone grow.

I believe that as large a proportion of our flappers of today will make lovely grandmas tomorrow, as the girls of yesterday are today. The flapper is human, lovable and bright. I do not believe that she is "bad" or even headed in the way of destruction. Her mistakes are sure to be the mistakes of us all from which we all learn to do and be better.

Every day has had its flappers under another name. And they have all contributed mothers to the beauty of the world.

My word to the flapper is this: Keep clean and strong and right in your mind.

And my word to the flapper's critics is this: Please let her flap!

The work of Dorothy Gish in many of the world's most famous productions has placed her in the hall of fame in the world. She is known in every spot on the globe where moving pictures are shown. Her name is a magnet for the multitudes. And yet with all the wonderful characters she has played, the "Country Flapper" is best suited for her individual talents.

"The Country Flapper" is a new personage and Miss Gish's portrayal of her is delightful and lovable. She is as romantic as her city sister and she almost moved a mountain to win the love of the man of her choice.

"The Country Flapper" will be the feature attraction at the United Theatre for 3 days starting tomorrow.

AUTO SALESMEN OF
COUNTY FORM CLUB

Orange has an auto salesman's association, following a luncheon meeting yesterday at the Elks' club house.

The Orange County Auto Salesmen's club was organized with these officers: C. A. Greenleaf, Packard and Reo, president; George Westphalen, Buick, secretary; J. A. Ambrose, Studebaker, treasurer; and H. C. Wheaton, Studebaker, publicity chairman.

The officers will draw up the by-laws to be acted upon at a meeting and luncheon at noon on May 31 at the Elks' clubhouse.

Those present at the meeting besides the officers mentioned were: Lester Fatts, Chandler and Cleveland; W. H. Fairbank, Reo speedsters; Earl Goodrum, Buick; T. A. Merritt, Chevrolet; W. E. Hansen, Chevrolet; E. L. Hart, Reo; C. G. Irion, Ford Weekly; R. E. Campbell, Ford and Lincoln; C. P. Hamm, Certified Market; P. A. Bradock, Buick; E. A. Keller, Hudson and Essex; C. P. Bryant, Hudson and Essex; Charles A. Hammans, Studebaker; M. E. Daesler, Studebaker; John M. Beck, Appleby Motors; John H. Babb, Jr., Appleby Motors; J. Frank Rice, Appleby Motors; P. D. McKeehan, Hupmobile and Cadillac; and H. A. Rosier, Hudson and Essex.

FIND GIRL SLAIN

PATERSON, N. J., May 19.—Miss Jeanie Pickeman, pretty 20-year-old silk mill worker, was found mysteriously slain early today.

Behind a barn a few blocks from her home.

Several teeth had been knocked out. Police immediately summoned physicians to ascertain if she had been strangled.

The young woman left her home last evening to attend a movie, accompanied by a chum, Miss Mattie Tamm. When she left the motion picture show, she indicated to Miss Tamm that she was going directly home. The movie is about three blocks from her home.

American toys are sold in Spain despite the keen competition put up by Germany.

Buena Park News

BUENA PARK, May 19.—(Spl.)—Mrs. L. T. Wiley entertained with a luncheon at her home, "The Two Palms" on Thursday. Covers were laid for Mrs. Victor Montgomery and her daughter, Miss Gertrude Montgomery from Santa Ana. Mrs. George Cole, Mrs. George McNeil, Mrs. W. D. McDowell and the hostess Mrs. Wiley.

The Women's Club met at the Community Hall on Thursday afternoon when Bertha Page read her essay on California History that was awarded the prize given by the club. The paper was exceedingly well written and also very well read by Bertha. With a few well chosen remarks Mrs. McDowell presented the gift, a book entitled "My Golden School Days" to Bertha Page. Mrs. Victor Montgomery, the chairman of history and landmark gave a wonderfully interesting talk to the ladies of the club which was much appreciated. Mrs. Cammisa and Mrs. Harvey sang "In the Gloaming." At the close of the program dainty refreshments were served by the hostess to the guests.

Mrs. R. B. Meyer and Carl B. Snyder motored to La Crescenta on Wednesday evening to visit with Mrs. Snyder and Mrs. Simpson. They found Mrs. Snyder and Mrs. Simpson being much benefited by their vacation.

Mrs. J. C. Childers had charge of the library on Thursday when Miss Leubke was absent on account of illness.

Mr. and Mrs. Lawrence Tilton motored to Long Beach and Hollywood on Wednesday.

2 AVIATORS BURNED

SAN ANTONIO, May 19.—Cade Flyer Robert L. McAdams, 25, of Montgomery, Ala., and Private James S. Hall, 21, Bowling Green, O., were burned to death today when their training plane in which they were flying burst into flames at 300 feet and nose dived to the ground.

A board of officers has been appointed to investigate the accident.

Announcing
JORDAN Resale Prices

Effective May fifteenth, every Jordan car which has satisfactorily served a Jordan owner and is offered for resale to the public must bear the Mark of Jordan Service.

This is a protected plate authorized only by the Jordan Company after compliance by the dealer with certain standard rebuilding regulations.

The Mark of Jordan Service, assures the purchaser that the car on which it appears has been rebuilt in accordance with the national standard Jordan policy—that it is sold with the same assurance as every new Jordan car, and is priced in accordance with the same standard national Jordan policy.

This policy protects Jordan owners against imposition, guards the public against deception and relieves dealers in other lines of the task of determining Jordan resale prices.

The prices on rebuilt Jordan models offered for resale in this zone are as follows, (with original standard equipment):

1920 Model M Tourist	\$1900	1921 Model F Tourist	\$1900
1920 Model M Playboy	1900	1921 Model F Sedan	1500
1920 Model M Brougham	1350	1922 Model F Tourist	1400
1920 Model M Sedan	1350	1922 Model F Sedan	1750
1921 Model M Tourist	1200	1922 Model MX Tourist	1500
1921 Model M Playboy	1200	1922 Model MX Playboy	1550
1921 Model M Brougham	1550	1922 Model MX Brougham	1650
1921 Model M Sedan	1550	1922 Model MX Sedan	1900

Look for the Mark of Jordan Service under the hood.
