Terseness of Speech by Mr. Coolidge

Speculation is rife in Washington at this time, as to the nature of President Coolidge's first message to Congress. No one foresees, of course, just what attitude Mr. Coolidge will assume on the various questions which will engage the President's attention. The new President is not communicative as to his plans or purposes.

But of one thing the newsgatherers at Washington seem to be fully assured—the first message from Mr. Coolidge will be exceptionally brief. It perhaps will establish a record among Presidential deliverances for brevity. Mr. Coolidge does not waste words upon any occasion. He is expected to treat all subjects upon which he touches with the terseness of speech characteristic of him.

This will be welcome. The old-time Presidential message, dealing in extent with every phase and detail of the governmental service, is being relegated. The custom is growing of sending special messages to Congress, from time to time, dealing only with one subject. These tendencies toward short messages are welcome to Congress and to the people. Mr. Coolidge is expected to write new history in message brevity.

The supreme test of any man is his moral courage.

Presidential Race Is Interesting

The Nation's tragedy in the loss of President Harding has left the field of politics open for the Presidential nomination in 1924. There is no foreboding now who will be the nominee of either the Republicans or the Democrats. There is much more of an air of uncertainty now about the Presidential race than there was before the lamented President Harding passed into eternity.

Conditions now are acting and reacting upon both political parties. With neither nomination assured for any one aspirant, the element of uncertainty figures very prominently in the contest.

All kinds of political maneuvering on a major scale is to be expected, in the months that are to intervene before the national conventions are to assemble. Just what angle the contest for nominations will take is not apparent as yet. The tragedy of Mr. Harding's demise has left this chaotic. But with the period of mourning for the departed over, attention turns properly to political aspects. Both of the great political organizations are marshaling and maneuvering for 1924. The next few weeks doubtless will bring interesting and significant developments.

Dollars kept in circulation do their possessors good and do good to the whole community.

The American people should be as fair to great men while they live as they are to them after they die.

Indians make good baseball players. Several members of the red race have shown in major and minor leagues.

A great deal of praise being given the late President Harding now, should have been given him while he was alive.

A police is mean without love and contentment therein. A cottage is palatial if it is filled with true affection and contentment.

COOLIDGE'S BIRTHPLACE, OLD PHOTOS OF WIFE AND SELF

Birthplace, at Plymouth, Vt., of President Coolidge. Below, left to right, President Coolidge at twenty, the president as a senior at Amherst College and Mrs. Coolidge in "pigtail" days, at age of eight. The little old farmhouse near plain building in which President Plymouth, Vt., in which Calvin Coolidge was born, resembles the Harding was born. The other photos above give interesting glimpses of the new president and his wife as they appeared many years ago.

"Katherine," said daddy, "did you throw that stick at your sister?"

"Yes, daddy," was the defiant reply.

"Why did you do it?"

"Because," instantly replied the youngster, with her eyes flashing, "afterwards she hit me!"—Argus Seattle.

NEW YORK LETTER

By LUCY JEANNE PRICE

A title for sale—right here in Democratic America. A dwindling bunch of Europe, through its accredited reigning Prince has advertised in the papers for a suitable young man or woman who can support a high sounding title.

The aged lady would adopt the person and guarantee the hereditary passing of the right and all its requisites. It is told that the applicants are many and that refinement and riches are yet willing to sell their birthrights for a mess of pottage.

That the construction of ocean-going yachts for the millionaires of New York and other cities is falling off is the statement of shipyard and steamship officials, who declare that the world tours supplanting yachting cruises by the wealthy. No more are to be seen new vessels of the size of the famous Morgan "Corair," and the income of excess profits last, but to the advent of "super-yachting," a new sport which entails a party of from 400 to 500 to tour the world together on a charming persons and to participate in highly entertaining social functions aboardship.

The government conducted a little party on this plan not so long ago and the administration has been kept busy answering for it ever since.

Great trans-Atlantic liners are now taken from their regular schedules and placed at the disposal for a nominal sum, of organized cruise parties, who travel in a luxury that no yacht could afford.

The French liner is used for this type of cruise, under the management, by special charter of the American Express Company, and its sailing list for a trip in early November reads like a menu for a nominal sum, of organized cruise parties, who travel in a luxury that no yacht could afford.

That is when the lower fry manage to creep in the golden circle.

CIRCUS AN INDEX TO PROSPERITY—Berkley Gazette

The circus man knows where the money is. If one of the greatest shows on earth comes to a town, the people of that town might just as well make up their minds that, whether they have realized it before or not, their community is prosperous. If the circus passes them by, the reverse is the obvious conclusion.

Always it is the first problem of the circus management to find people who can afford to see the show, and there are few agencies in the country more expert in that line than the circus men, who are able to tell of general business conditions and of particular localities. This year, say the showmen, the problems has not been to find good towns, but rather to select the best. For prosperity is well nigh universal.

To this and there are circus agents strolling down scores of Main streets peddling merchandise in show windows, peering into five and ten cent stores to see how business is, and watching movie windows and strolling up Saturday night crowds, asking backers for payroll figures and checking on building permits and public improvements.

That's natural, naturally enough, are designed to show where people have ready money rather than where prosperity is deep-seated and stable. They know that six weeks after a big send, fire or flood is the best possible time for the circus to come to town, for everyone will be inclined to feel past disaster justifies present indulgence. That's the way the world is made.

Englishman say Americans know very little geography, but in all fairness, he must admit that a good many of them know where the Canadian border is.

A good many people think this country has too many laws, but what is really has is too many in-laws.

A Boston minister who tickled another man's wife under the chin with a blade of grass made a mistake. The woman was so tickled that she wrote her husband about it, and this tickled gentleman called on the minister and tickled him under his own chin with a fist instead of a blade of grass. The tickling party is now over, and everybody is satisfied.

The mills of divorce grind rapidly and sometimes exceeding coarse.

Old Richard Temple, our faithful London correspondent, regales us this week with the following:

Clothes and the American. London is full, so the saying goes, of Americans. The horn-rimmed accent is heard on every hand, from the Tower of London to Kensington Gardens. The wealthy American comes here for clothes and usually wears a lounge suit for all occasions, except in the evening, when he puts on a dinner jacket, which to go to the theatre. I was told by S. A. Moore of Cleveland, while we were lunching in the Ritz, that even so, he despises opera and the end his devotion to the fading opera hat, and his example is being more and more followed by visitors from abroad.

LOCAL FRIENDS GREET GUESTS OF MISS KENNEDY

TWO home guests, one of them, Miss Irene Frisoli, of Memphis, Tenn., the old home of the hostess, and Miss Marie Frazzini, of Hollywood, were complimented yesterday afternoon with a bridge party at which Miss Betty Kennedy was hostess. Bridge was the favored game, and Miss Ruth Orin, who returned but a few hours before the party, from an extended vacation, was so filled with energy that she carried off the first prize. Mrs. Fred Yorn had second highest score, and each of the honored guests were awarded with prizes.

The Kennedy home radiated its southern hospitality through the cheerful color, pink and white, and the abundance of flowers, as well as in the graciousness of the young hostess and her guests. BROTHER AND WIFE EVENING GUESTS OF "HOME FOLKS"

MR. AND MRS. Alfred Pellegrini, of South Clinton, invited in a few friends, informally, last evening to pass the time with Roy and Mrs. Harold Pellegrini, of Baltimore, Md., who are visiting their relatives in this vicinity. The gentlemen are brothers and nephews of the Misses Aubert.

Renewing acquaintances, for Rev. Pellegrini, a former Anaheim boy, was a very happy occasion, and conversation covering the lapse of years and music made the evening pass only too quickly.

Mrs. Pellegrini served the company with refreshment at 10 o'clock. The evening guests included Mr. and Mrs. E. Fred Simms, of Mrs. R. A. Roemer, of Whittier; Mrs. R. A. Roemer, of Whittier; Mrs. Pellegrini, the hostess, and Mrs. Davis, a guest from Texas; Mrs. Webers, of La Verne; Mr. Otto Roemer, of Orange; and Mr. and Mrs. B. H. Taylor, of Los Angeles.

Shower for Bride-Elect

Miss Ruth Leachner, of Richfield, recently honored Miss Sophia York with a surprise party when she entertained about 30 of her young lady friends. Miss York has recently announced her engagement to Mr. Geo. Rushon, of Long Beach, and the party became a shower of pyrex cooking utensils. Miss York has not announced the date of her marriage, but it is hinted the interesting event will be one of early autumn.

In Anaheim for Good

Mr. and Mrs. Emil Koper and children, Marion and Rosa, arrived Tuesday evening from Fairdale, S. Dak., where they will make their home. Mr. Koper is a brother of Mrs. Richard Grove, of South Los Angeles, and was a visitor here last year. They made the journey in a Studebaker and had a delightful trip.

To Venice on Birthday

Mr. and Mrs. Frank Bunney and Mrs. Bunney's father, Mr. Tobington, drove to Venice yesterday in celebration of Mrs. Bunney's birthday. Mrs. Bunney's sister, Mrs. Aveline, George and Stanley Bunney, who have had a week's vacation with their aunt in the seaside city, returned home with their parents Office 50 Delivery Dept. 719

Back From Vacation

Mr. and Mrs. H. B. Polhemus and children have returned completing a two weeks' vacation, which was enjoyed at various outlying places. Several days were spent at Laguna Beach, and yesterday was passed in Hollywood, attending the "Covered Wagon" in the afternoon.

FIX PLANS FOR SCRAPPING BOATS

WASHINGTON, Aug. 17.—The United States will let a new time in getting rid of the capital ships that it has agreed to scrap under the naval limitation treaty of the Washington conference.

The United States, Great Britain and Japan will scrap a total of 57 ships having an aggregate displacement of 1,588,943 tons. The total cost to the government will be about \$375,000,000, more than \$200,000,000 on ships already constructed and about \$175,000,000 on broken contracts to firms building vessels.

No action is being taken at the present time by the navy department for disposition of the Delaware and North Dakota now on the annual midshipmen's practice cruise. The treaty does not require that these vessels be scrapped until they are replaced by the Colorado and West Virginia, now under construction.

The Washington, of latest construction and the South Carolina, a vessel of the old type will be used by the navy for experimental work in under water and deck attack. If not sunk, these ships will be disposed of by sale or otherwise.

The New Jersey and Virginia are to be turned over to the army as "service" for bombing attack practice off the Virginia capes next month.

**CLAIM AUGINALDO'S
TENANTS THREATENED**

MANILA, Aug. 17.—Men employed by Senator Antonio Soriano have threatened in August to kill Aguinaldo's tenants working on his hacienda estate at Nais, Cavite province. It was reported today that the tenants were ordered to leave the estate.

Aguinaldo declared the attackers were armed with revolvers and shotguns. Wood assured him peace and order would be maintained.

BREACH WIDENED BY GEN. WOOD'S TALK

MANILA, Aug. 17.—The split between Governor General Wood and Manuel Quezon, president of the Philippine senate, which resulted in the resignation of the cabinet, was widened today following an address by Governor Wood before the American Chamber of Commerce.

Quezonist papers this morning characterized Wood as "acting in a criminal manner in divulging the Philippine senate, which resulted in the resignation of the cabinet, which is variously estimated at from \$25,000,000 to \$50,000,000."

Frictions of politicians over the Philippine national bank are due to the stoppage of the free circulation of public funds among their friends. Wood declared:

"The bank is now in better condition than it has ever been before and will be supported by the government. The audience which represented leaders in Manila's business life enthusiastically applauded Wood's comments during the talk."

**MAYOR GETS CHESTY
IN CONFERENCE**
STEUBENVILLE, Ohio, Aug. 17.—In a statement directed to the press early this afternoon, Mayor F. A. Hawkins, in a reply to the local organization of the Ku Klux Klan, defies that organization to remove him.

Mayor Frank Hawkins, prosecutor Stanton Hare and Sheriff Edward Lucas have ordered the suspension of all public meetings until the tension dies down.

The authorities are dispersing all gatherings on the street corners. Large numbers of Klan members have been ordered to leave the city and are quietly conducting an investigation into the attack on the Klan parade here Wednesday night.

**YOUTH CAPTURED
IN BANK HOLDUP**

DENVER, Aug. 17.—Ray McCoy, 22, giving the home address as Athens, Ohio, failed today in a desperate attempt to hold up the Union State Bank.

Entering the bank he presented a torn dollar bill to the cashier, asking him to exchange it for a new one. As the cashier started to make the exchange, McCoy stuck a .45 caliber revolver thru the window, ordering the cashier to hand over \$240 that was laying on the counter.

McCoy secured the money, ran from the bank and jumped onto an express truck ordering the driver to "keep on it." The driver and a companion, after going two blocks, succeeded in overpowering McCoy. He was arrested and the money recovered.

**PURSUED CHINESE
BANDIT KIDNAPERS**

SHANGHAI, Aug. 17.—Bandits who kidnaped two Italian priests at Tsaochi and 160 Chinese Christians after burning the mission compound were being pursued today by hurriedly organized forces of men.

The Hangow vicinity is reported to be fairly seething with bandits to whose list numerous smaller depredations, this latest outrage has been added.

In the past few weeks armed bandits have been terrorizing residents of this district by making of midnight raids on the houses of the more prominent citizens.

Representatives of foreign governments are reported to be preparing to hold a conference early today, called by the Italian ambassador.

**UTAH TO PROBE
GASOLINE FIGURE**

SALT LAKE CITY, Aug. 17.—Utah has entered the gasoline war on price.

Governor Charles R. Mayne has appointed a committee to investigate the gasoline price situation to find what is a fair price for gasoline in this state.

For months past the price of gasoline in Salt Lake City and vicinity has remained stationary at 26 cents.

STEAL 40 FOWLS

Forty chickens were stolen last night from the chicken ranch of Judge Smith at Stanton, according to a report made to Ed Marion this morning. The chickens evidently had their heads cut off to keep them from squaking, since one was left on the spot beheaded. This is the second chicken ranch raided in that vicinity within a week.

SEEK CHANGE IN MAIL DELIVERY

Sam Miller was circulating a petition in Cypress yesterday morning to extend U. S. D. 5 service to include the two half squares west of Cypress and had about 25 names at the close of his afternoon's work.

With the building up in Cypress Home Gardens and the many new residents there are 22 mail boxes where the Anaheim carrier serves several of them and the Buena Park carrier the remainder. This necessitates long walks for many of the patrons, and should the system be extended as desired, the mail will be brought to much more convenient points.

PADILLA, CONFESSIONED FIRE-BUG, TRIES TO COMMIT SUICIDE

TOWER USED TO STUDY QUAKES

No, it isn't an oil derrick on Andrew Sullivan's place on the Garden Grove road near West Chapman avenue. It's a tower of the United States Coast and Geodetic Survey, which the latter will use next December or possibly next April in the finding out whether the earlier crust, which slipped during the San Francisco earthquake, made a new survey necessary. Engineers now are at San Luis Obispo working on the same problem.

Mr. Wilson and a similar tower just erected at Norwalk are clearly visible, and the three points enable the surveyors by triangulation to make their measurements. Last December a similar tower 22 feet in height was put up on the same spot to measure the distance between Mr. Wilson and Mr. San Antonio, otherwise known as Old Baldy.

The tower on Sullivan's place already is up 15 feet and will go up 20 feet more. Lieut. Dan Taylor is doing the work.

The site is known as a Southwest Base and is marked by a small granite shaft on a brick base, placed there in 1885. A big lookout tower was on the site formerly.

ESCAPED CONVICT KILLED IN BATTLE

ST. PAUL, Aug. 17.—Edward Rast, who escaped handcuffed from a train near Moorhead, Minn., July 2, after seizing the gun and killing Sheriff Fuller of Aberdeen, S. D., was shot dead by St. Paul police after a gun battle this morning.

ANAHEIM BABIES IN LONG BEACH PARADE

The Long Beach Municipal Band, famous for its excellent music, will head the First Annual Southern California Baby Parade to be held in Long Beach, on the Pike and Pier, Saturday, August 18th.

Preceding the band will be a detail of police clearing a bystander from the roped off line of march. It is stated that it is estimated the parade will be three miles long, the hundreds of entries being the basis for the estimate. Several Anaheim children have been entered according to reports from Long Beach Amusement League officials.

Photographers from the Universal Film Company will take motion pictures of the parade and the crowds in attendance for the International News Weekly, which is shown in 17,000 theaters each week.

"Conquering Power" Taken From Balzac

The Rex Ingram production for Metro of "The Conquering Power," greeted in New York as one of the truly great motion pictures of the age, is announced by the United Theatre for 3 days, beginning Sunday. It is an adaptation by June Mathis of Balzac's novel, "Eugenie Grandet," a powerful story of love and greed in a small French provincial town.

Allice Terry and Rodolph Valentino, who created such memorable successes as the lovers in Ingram's production of "The Four Horsemen of the Apocalypse," are cast in the leading roles of Eugenie and her Parisian suitor, Charles, and Ralph Lewis plays the old miser, Grandet. Other in the cast are Edward Connelly, Edna Dunary, George Atkinson, Willard Lee Hall, Mary Hearn, Bridgetta Clark, Mark Penton, Eugene Poynter and Ward Wing. The photography is by John P. Selitz and the technical directors are Ralph Barton and Amos Myers.

Mr. and Mrs. Frederick R. Miller are passing their vacation at Catalina in company with relatives from Los Angeles and Hollywood.

INDEPENDENTS WANT HIGHER GAS PRICE

MINNEAPOLIS, Aug. 17.—Following up the move of Governor McMillen of South Dakota, who, at the behest of the independent oil companies, has ordered the state filling stations at Mitchell to raise the price of gasoline from 15 to 20 cents a gallon, including the 2.5¢ tax 27-28 cent per gallon, independent oil companies in the northwest today began to bring pressure on government and city councils to get sanction for similar raises in all the states where prices were recently cut 6.5 cents a gallon.

The Pure Oil Co., one of the largest independent competing with Standard Oil in the northwest, today made public a statement of its prices which says: "The Pure Oil Co. reduced its price an average of 6.5¢ a gallon in the northwest and territory covered by the Standard Oil Co. of Indiana. This is deplorable from the company's standpoint as it entails a heavy financial loss. I fully believe that the public officials whose actions have undoubtedly brot the situation will lean very shortly that they have only played into the hands of the Standard Oil Co. in the long run."

In Minnesota, motorists and oil companies alike are awaiting a report of the state department of agriculture, which was ordered by the governor to investigate and determine a fair price for gasoline in this state. The automobile clubs of St. Paul and Minneapolis dropped their plans for cooperative filling stations when the oil companies reduced 6.5¢ last week. The move which immediately followed to raise the price again has taken them by surprise, and they were not prepared today to say what course would be taken.

MEXICANS DEMAND WORK AT TIA JUANA

SAN DIEGO, Aug. 17.—Rioting was feared today at Tia Juana when sudden crowds of unemployed Mexicans gathered in front of American owned cafes and saloons, demanding work.

The police are apathetic, evidently siding with native public opinion. The Mexicans working people insist that the drinking, dancing and gambling establishments, practically all of which are owned and operated by Americans, should be manned by at least one half Mexicans. The cafe owners are loath to discharge half their "trained" help and substitute unskilled employees.

The strikers are almost wholly American, they say, and demands service rendered by Americans.

Summer is the slack season at the border region and many natives find it hard to make a living.

It will be sent to Brussels this evening and it probably will reach London Monday or Tuesday.

H. B. ROTARY GETS VERDICT AT TRABUCO

Huntington Beach will receive its Rotary charter this evening as part to the ceremonies incident to the big county gathering in the park for the afternoon and evening. It will be presented by Paul Rieger, of San Francisco, Rotary district governor.

A big picnic dinner was served 500 Rotarians participated. The afternoon was devoted to a continual round of sports and the evening will be concluded with dancing.

Anaheim's Rotary club is well represented and others are going up for the evening's entertainment.

DENVER LOWLANDS ARE UNDER WATER

DENVER, Aug. 17.—Lowland fields near Denver, Valverde, Littleton and Jerome Park were inundated with flood-water of the Platte river this morning. Residents of these places were fleeing to higher ground for safety.

A cloudburst in the Platte canyon late last night caused the swelling to rise to flood proportions, equalling that of 1921 in which several lives were lost and much property damage done.

Southwest of Littleton, all telephone communication was cut off. Fields between Littleton and Denver were inundated with water several feet deep. Railroad tracks of the Colorado and Southern between Poston and Buffalo were reported to have been washed out in thirty places.

Residents in the Platte river bottom and in near Denver were told by police to seek higher ground. Basements were filled with water. Homes marooned and several blocks of the city were reported to have been washed out in thirty places.

The flood reached its peak around midnight, and gradually receded from then on.

Most of the damage done by the flood is caused near the mouth of the Platte.

ARMLESS INFANT CULTIVATES TOES

COUNCIL BLUFFS, Ia., Aug. 17.—For two years Ellen Lorraine Nixon has battled her life without arms. She is the daughter of Mr. and Mrs. T. J. Nixon, of this city.

At the time of her birth Ellen Lorraine's shoulders were two tiny dimples where her arms should have been. Today the smooth, white skin has been filled out hiding even the dimples and leaving otherwise a perfectly formed baby without the sign of arms.

Nature, always ready to lighten the load of her afflicted children, has so formed the baby's hips that she can reach the top of her head with her feet, using no apparent effort.

Already the child has learned to hold objects before her toes.

The child's feet are rapidly assuming the delicate, sensitive appearance of hands. She uses them to feel if objects are rough or smooth, hot or cold.

ENDORSE BRUCE FOR LEGION COMMANDER

At a pre-convention caucus in Santa Ana, Bruce W. McDaniel, commander of Redlands post of the American Legion, was unanimously endorsed as candidate for State Commander from the 11th congressional district. Resolutions were passed requesting the purchase of a hospital site similar in climate, etc., to the one of Arrowhead Hospital, and exempting all Legion post homes from taxation.

SETS ORDER FLAG-POLE FOR PARK

A sixty foot flagpole for the new city park which was authorized at the last meeting of the Legion has been ordered from A. B. Prescott, and is expected to be on the ground ready for erection within 60 days, according to Arthur A. Cohen. The pole is to be set upon a foundation of bronze.

Progress in the Legion membership campaign is also reported. The Legion is trying to increase its membership to 250. It is now 222. A large class is expected to be initiated at the next regular meeting on Tuesday night.

URGING COOLIDGE TO 'SHOW HIMSELF'

By George H. Dunn
WASHINGTON, Aug. 17.—Pressure is being exerted on President Coolidge by his personal and political advisers to get out of Washington in the near future and "show himself to the people," it was learned today.

The president is not adverse to the idea, it is stated, and the late fall, therefore, is expected to find him on a short vacation trip, possibly thru the north central states. Certain of his advisers are of the belief President Coolidge will go as far west as Iowa, while the suggestion also has been advanced that he negotiate the trip into Wisconsin, Minnesota, Michigan and the other lake states, originally contemplated by the late president Harding to follow his return from the ill-fated Alaskan trip.

Leaders of the "Coolidge boom" are urging the new executive to get out just prior to the re-assembly of congress and establish a personal contact with his potential supporters.

Many sections of the country already are anxious for a few appearances in person. The middle west, cheated of a presidential visit by the last minute change in President Harding's itinerary, want to see the new president. It is in the section that the agricultural situation is particularly acute and a few well rounded speeches on the farm problem might not be amiss, party leaders believe.

PROBE OIL INDUSTRY

CHICAGO, Aug. 17.—For weeks department of justice agents have been investigating the oil industry of the middle west, a Standard Oil Co. of Indiana, official told International News Service.

Agents of the department's Chicago office refused to reveal what would be the nature of the reports they will submit to the attorney general.

The investigation began, the Standard official said, soon after it was announced that certain mid-western producers were planning to halt production because of the surplus prices they professed to see in the market.

KEEF'S HOUSE IN TURKISH BOX CAR

Mrs. Charles Imbrie, wife of the American trade commissioner and consul, accredited in Mustafa Kemal's government, keeps house in a box car in Angora, Turkey. The car also serves as the American consulate. The housing shortage is responsible for the innovation. Before her marriage Mrs. Imbrie was Miss Katherine Gillette of New Bedford, Mass.

TRIES TO HANG HIMSELF IN JAIL CELL

Mrs. Charles Imbrie.

SACRAMENTO, Aug. 17.—Fearing conviction of murder as a result of his confession that he set fire to the Japanese Buddhist school here, for which ten Japanese children lost their lives, F. Padilla, Mexican prisoner, made an unsuccessful attempt to hang himself in his cell at the city jail here today.

When the rope proved too flimsy to hold his weight Padilla sought to strangle himself but was frustrated by police officers.

ATTEMPT ACTION TO BREAK GAS PRICES

WASHINGTON, Aug. 17.—A suit in equity under the general criminal statutes to break up alleged combinations to control gasoline prices was being planned today by the department of justice.

Attorney General Daugherty has not decided when federal action will be instituted and the time and the place of instituting a suit will depend upon a summary of the report now being filed with the bureau of investigation with respect to the "gasoline price war" in the middle west.

SAYS STRESSEMAN CLEARLY OPENS WAY

By FRITZ EMBEL, JR.
(Son of President Ebert of Germany)
(Copyright 1932 by International News Service)

BERLIN, Aug. 17.—Chancellor Gustav Stresemann's maiden speech in the reichstag, clearly opened the way for an understanding with France. It France will give up her humiliating and impossible demands, this conciliation will be possible, also settlement.

Chancellor Stresemann's speech was significant. It was made at a time when, beneath the surface, grave dangers were threatening Germany. Bloody communist disorders had broken out, which, for a time, seemed about to make the real aspirations successful. Also, a general strike had been proclaimed. But, luckily, the whole storm blew over just as the new cabinet made its debut.

The trouble within, especially France, is grievously mistaken if it believes the new cabinet will "crawl to Paris offering unconditional surrender and begging for mercy."

The new government stands as a bulwark against all attempts to annex or violate a single foot of German soil. This is proved by two developments.

First—Inclusion in the cabinet of Herr Brüning, a Rhineland Democrat, as minister of interior. Second—Creation of a special post called "minister of occupied territories," which will be administered by Dr. Fuchs, president of the Rhine province, who was expelled by the French.

This is proof of the consolidation of the young German republic. The Stresemann cabinet is backed up by the strongest parliamentary authority any nation has ever known. It constitutes the final supreme attempt to save Germany.

In no other country are travelers so unsafe as in China, unless they are pedestrians.

BROTHER OF MOVIE ACTRESS RECOVERS

NEW YORK, Aug. 17.—Much of the mystery surrounding alleged attack upon George Stewart, brother of Anna Stewart, film star, by R. H. Ince, photo play director, was dispelled today.

At the hospital to which Stewart was taken suffering from a fracture of the skull, it was stated he was recovering.

"Stewart doubtless will apologize to Mr. Ince before this is over," Anna Stewart's attorney for Ince, said this morning.

"The trouble between the men, Victor asserting when Ince spoke to an acquaintance, seated at a table at Post Lodge, a hotel, on the 'Rialto' road, whom Stewart intensely dislikes.

"That made Stewart angry," Victor averred. "All thru dinner he quarreled with Mr. Ince. On the way back, Stewart became more and more abusive. Finally he struck Mr. Ince. Stewart's chauffeur, Yoich, also sprang at him. In the melee Stewart was knocked unconscious but never rendered unconscious."

6000-BARREL WELL ON BELL PROPERTY

By Edward J. Manger

At Santa Fe Springs the Union Oil Co. of Calif. topped the week's big producers with a 6000 barrel well on the Bell property. The well, completed at 4730 is the Union's biggest producer today in the Springs field and is doing 6000 bbls daily at 22.5 gravity.

In addition to having the deepest test well now drilling in So. Calif., the Standard Oil Co. led the Springs operators this week for number and capacity of new production. The company's 6000 barrel well did three wells, two were brought in at 6000 bbls, the third at 1000 barrel.

The Standard's 6000 barrel well was completed on the Santa Gertrudes and Wesel properties. Santa Gertrudes No. 4 was completed at 4700 and is doing 34.5 gravity product. Wesel No. 4 at 4255 started off with an initial production of 6000 and is making 34.5 gravity product. The 1000 barrel well was completed on the Walker property at well No. 3. Walker 3 went to 3700 feet and the oil is 34.4 gravity. The famous deep test well, Brownrigg-Heller No. 2 is now making hole at 5740. At this point again the estimation is a sandy brown shale incriminated with thin specimens of sea shells.

A little success has finally come to the Santa Fe Dome Oil Company. This little company entered the field in the town days "look at that" what appeared to be very choice property. The property however did not come up to expectations and the Santa Fe Dome's first producer is 700 bbl well. The well was completed on the Bandini property and was drilled by the Federal Drilling Co.

At the same time, republican insurgents are suggesting the retirement of Senator Lodge, of Massachusetts, as Republican leader and the selection of a younger man to head the party in the senate. As Lodge has a powerful following, second plan is suggested for naming a substitute floor leader to direct the party in all debate, thus relieving Lodge of the leadership's most arduous task.

Party leaders are mentioning Senator Watson of Indiana; Senator Wadsworth of New York and Senator Lenroot of Wisconsin, for this post with Watson apparently having the "inside track."

Lodge should retire, a dual leadership may be arranged with Senators Watson and Wadsworth sharing the honors.

If Senator Curtis should be chosen president of the senate another fight will develop over the naming of his successor as Republican "whip." Among the names mentioned for this post, Curtis was higher honors, are Senators Wadsworth, McNary of Oregon; Reed, of Pennsylvania and Lenroot of Wisconsin.

There will be no opposition to the re-election of Curtis if he does not share the senate's presidency.

G.O.P. SEEKS YOUNG BLOOD IN CONGRESS

By WILLIAM K. HUTCHINSON
(U. N. S. Staff Correspondent)

WASHINGTON, Aug. 17.—Recognition of the republican leadership in the next congress will lead to a determined fight to place "young blood" in control, even at the cost of an intra-party battle, according to reports at the capitol today.

If insurgent movements are successful, there will be a complete shake-up of republican leadership in the senate with younger men placed in charge of the party's legislative program.

In the house, thru the defeat of former republican leader Mondell, of Wyoming, similar changes are expected.

The senate fight will revolve around the election of a vice president to succeed Calvin Coolidge as permanent presiding officer. With the post paying \$12,500 a year, \$15,000 more than a senator's salary, it is a widely sought political plum.

In addition it gives its occupant the distinction of outranking the cabinet at all social and diplomatic affairs.

Senator Cummins, Republican of Iowa, president pro tem in the last session, undoubtedly will be a candidate again, although he previously announced his determination not to run.

Booms' meanwhile have been named by Senator Curtis, Republican of Kansas; Senator Jones, Republican of Washington; Senator Lenroot, Republican of Wisconsin and Senator Wadsworth, Republican of New York, and as a result of the republican caucus may develop into a political battle.

At the same time, republican insurgents are suggesting the retirement of Senator Lodge, of Massachusetts, as Republican leader and the selection of a younger man to head the party in the senate. GIRL HELD AS WITNESS AGAINST BOYS CHARGED WITH DEFENSE MAN'S MURDER

MANILA, Aug. 17.—In the course of a speech in a Manila suburb to Manuel Quezon, president of the Philippine senate, he "does not want to see victory crown the efforts of the Filipino with the heart of an American."

What you have witnessed so far is only the preliminary bout, but when the legislature convenes next October, you will see the main event, Quezon declared.

"If the people unite with us in the present controversy," he continued, "you may rest assured we will see to it that Governor General Wood will change his policy and viewpoint regarding the capability of Filipinos to run their own government."

Gen. Leonard Wood, in replying to a note of Senator Unson, while admitting the correctness of Senator Unson's suggestion for the manner of handling correspondence with bureau chiefs, reserves the right to make a final decision.

21 NEW OIL WELLS
Oil field operations, reported the week ending August 11 show 21 new wells started as compared with 24 previous week. The total new wells started in 1933, as compared with 857 the same date last year.

Tests for water shut-off 32, compared with 36 previous week. Yearly to date 1223; total to same date this year 1019.

PERCY O'NEIL
Percy O'Neil, with her black raven locks, is being held by Detroit Police as a material witness against three youths charged with the killing of Lawrence Rickard, several weeks ago. Percy says she was kidnapped by a stranger while on patrol from an Ohio institution. She declares she knows nothing of the murder except who the suspects told her.

FRIENDS REPORT
FILM STAR RESTING
LOS ANGELES, Aug. 17.—Mary Miles Minter, screen star, missed Tuesday when she declared her love for William Desmond Taylor, slain motion picture director and revealed that she was engaged to be married to him at the time he was murdered, was reported "found" today by friends, but her whereabouts were not revealed.

Miss Minter is said to have sent a message stating that she had not fled the country as persistent reports claimed but that she was "taking a much needed rest. Meanwhile, her attorney, Neil McCarthy, and attorney John Holt, who is representing her estranged mother, Mrs. Charlotte Shelby, who the actress declares she will sue for the return of more than a million dollars which she earned in films, were preparing papers in the case today.

Friends of Miss Minter and her mother hope that a settlement of the case may be made out of court.

HARKER TO BUILD SECOND APARTMENT
Mr. E. A. Harker who formerly lived at Martins Ferry, Ohio, and who came to Anaheim last September has just completed a very attractive, four apartment flat at 729 North Lemon street. Each apartment contains 4 rooms, bath and built-in features, being modern in every respect.

The living and dining rooms are furnished in walnut and bedrooms in ivory. Floors of quarter sawed oak. Each apartment has its own entrance. There are also four garages.

Mr. Harker has been in the contracting business in Ohio for over twenty years and intends to do considerable building in Anaheim for himself.

He is going to build another 4-apartment flat just north of the one he has completed but it will be of different design.

AUCTION MARKET PRICES IMPROVED
Auction market prices on valencias, after depending to what is declared today to have been the lowest level in three years, this week are stiffening, and within two weeks are expected to be normal, according to local packing houses.

During the week ending Aug. 11, the average price was \$2.95 per box F.O.B. California.

At this figure, it hardly paid to pack oranges, and the smallest sizes, after paying freight charges, were a liability instead of an asset. Consequently various houses have been giving away oranges to public or other philanthropic institutions in the county.

According to Manager W. H. Schumann of the Anaheim Citrus Fruit Ass'n, not more than \$500 can of valencias remain to be shipped as of Aug. 18. Nevertheless curtailment of shipments is being continued by both the exchange and independent packing houses.

According to an official of the Anaheim Orange & Lemon Ass'n, early peaches have been cleaned up, which, with the end of the cantaloupe season in the Imperial valley, is helping orange prices. Plums and pears continue abundant, however.

DRY LAW BOON TO POOR CLASS

LONDON, Aug. 17.—Coming from a nationless to a wet nation brings vividly to one's mind the difference between the two policies.

Prohibition discourages and outlaws the drink habit. License legislation, it thus increasing the possibility of drunkenness. Of course, prohibition does not stop all drinking of intoxicants, but it reduces the use to a minimum.

License tends to increase their use to a maximum. Intoxicants never increase one's efficiency, health or wealth producing power. Their general use as a beverage injures the desirable traits. Prohibition in the United States has destroyed the food habit notion that it is a joy-killer. It has multiplied the opportunities for the power and the middle classes to have many of the real comforts and luxuries of life. It has universalized the good things formerly enjoyed by a limited number.

Gen. Leonard Wood, in replying to a note of Senator Unson, while admitting the correctness of Senator Unson's suggestion for the manner of handling correspondence with bureau chiefs, reserves the right to make a final decision.
