State Department Announces Withdrawal of All U. S. Warships from Mexican Waters

DE LA HUERTA ABANDONES BLOCKADE

Assures Protection For American Property And Lives in Rebel Zone

WASHINGTON, Jan. 24.—All U. S. warships sent to Mexican waters to prevent interference with American commerce because of the revolutionary blockade of the port of Tampico will be withdrawn as soon as the salvaging of the wrecked cruiser Tacoma is completed, the state departme t announced this afternoon.

The withdrawal order was issued after assurances had been received from De La Huerta, the Mexican revolutionist leader, that he had definitely abandoned his projected blockade of the great oil port at Tampico.

De La Huerta also assured the government thru Consul Woods at Vera Cruz, that the defacto government would safeguard and protect American lives and property within the zone commanded by his troops.

The rebel leader also assured the United States that American oil operations in the Tampico district would not be molested.

Operators in the southern Tampico fields, who had been forced to cease operations, will resume again at once.

The mines placed in the entrances to harbors at Vera Cruz, Frontera, Puerto Mexico and other ports by the revolutionists are being removed, Consul Wood reported, in compliance with the American demand.

The sale of $5,000 worth of arms to the Obregon government was announced this afternoon by the war department.

This is in addition to the other arms and ammunition sold to Mexico recently.

MEXICO CITY, Jan. 24.—Mexican federals, who captured Guadalajara from the rebels yesterday, are advancing beyond that city in an effort to round up and capture the rebel raiding bands, according to advices received by the war department today.

The city—second largest in Mexico—was taken without firing a shot.

Federals are still in possession of the port of Salina Cruz, despite a combined land and sea attack by the rebels. The port was saved by the timely arrival of reinforcements from Santa Lucrecia. None of the American residents was injured in the fighting.

BRITISH RAILWAY STRIKE UNBROKEN

LONDON, Jan. 24.—The deadlock in the railway strike negotiations was unbroken today.

The managers of the railway companies issued a letter insisting upon enforcement of the wage awarded the locomotive engineers and firemen by the national wage adjustment board.

The new labor cabinet is still seeking a basis for agreement.

Two hundred thousand workers were idle today as a result of the strike.

Some centers are beginning to feel the pinch of food and coal shortage.

BURIED ON RANCH

Frank Hinde, 45, born and brot up on the Thales ranch near Placentia, died there suddenly yesterday following an attack of acute indigestion. He was one of the last of the old timers in the vegetarian colony there, being the third one to die in the last three months. Funeral was at the burial grounds on the ranch this morning, according to Angus McKinlay, funeral director, who issued the permit.

FAILURE OF MEMORY DUE TO SEDATIVE

LOS ANGELES, Jan. 24.—"I was under the influence of sedative and narcotics given me by physicians to ease my pain."

That will be the explanation of General S. Diaz who has ordered Col. Manuel Dies to face a grilling on his "lapse of memory" testimony in the preliminary hearing of Horace A. Green chauffeur for Mabel Normand, who shot him on New Year's Night.

From a reliable source, perhaps the closest possible to Diaz, it was learned today that the claim he was under the influence of drugs will be made by Diaz in answer to the charges of District Attorney Keyes and Justice Busby that he is "covering up" the facts concerning the shooting.

"At the time Diaz' testimony was taken at the hospital he had been under the constant care of a physician for weeks and was in great pain," it was stated.

It was also indicated that when Dines appears in court "he will do his best to remember what happened immediately before the shooting."

REVIEW ACQUITTAL OF THREE I. W. W.

W. W. joined the organization knowing its lawless character before he can be convicted, it was announced by state attorneys today.

The verdict was a distinct surprise, it being the first time in the history of this county that all defendants in I. W. W. case have been acquitted by a jury.

The I. W. W. released by the jury were Sam Oberman, Ed Higgins and Edward McCray, all of whom pleaded ignorance of the nature of the organization at the time they became members.

G. P. LEASING 50 ACRES ON WESTSIDE

Coast Land Co. Hauling Lumber For First Rig On Garden Grove-rd

Unless something unforeseen arises, the General Petroleum Co. today will lease 50 acres of W. P. Quarton on Lincoln-ave near Magnolia-rd.

The terms call for a bonus of $150 and $5 per month rent.

The acreage is in bearing orange trees.

The Coast Land Co. has begun to haul the lumber for its first well, which will be drilled on five acres on the northside of Orange-st, a block south of Broadway near Garden Grove-rd. If a well is brought in, the company, according to the terms of the other leases, must begin drilling on each five acres of 1500 within a year's time.

Drilling of first well must start by Feb. 12. This drilling site is vacant land.

It is 5¼ acres, purchased by Sidnam Bros., two months ago. Any royalty from wells on this tract go to the Sidnams as each lease is separate.

About a dozen truckloads of timbers, nearly enough for the rig, and two boilers had been unloaded up to this afternoon.

It is planned to erect machine shops, tool house, warehouse, garage and bunkhouses on the Sidnam lease.

It is reported that E. J. Miley will direct the drilling of the first well. He is recognized as one of the leading independent drillers in the southland and has 8000-barrel gushers to his credit at Santa Fe Springs.

That the Coast Land Co. thinks very favorably of the Anaheim district is indicated by the large acreage leased west and south of the city.

The company's geologist, R. N. Ferguson, is one of the leaders in his field. When the Chinese government asked Herbert Hoover for a loan of 10% of the best oil geologist in the United States during the war, Ferguson was sent. Ferguson's attention to the Anaheim district was attracted first in 1921 when he lived for a time at Newport. Traveling to his Los Angeles office daily he was impressed with oil possibilities here.

A map, which is a revelation to many who have not realized how much of the Anaheim district is under lease, is on display at the No. 2 salesroom of offices of the Sidnam Realty Co. It is four by eight feet and shows that the Coast Land Co.'s rig is the fourth now seeking oil near Anaheim, others being the Standard on Placentia-ave, Gaddie at Cypress and Keck at Brookhurst.

The Standard Oil Co., which commenced off its test well at 3100 feet last Sunday, will not resume drilling for perhaps 10 days. The company is waiting for new machinery.

It requires 10 days or two weeks for the cement to set.

WELLS INSPECTED

Mr. N. Herrick, the representative of the Tri-Counties Reforestation District, is now inspecting wells in the San Bernardino artesian basin to ascertain where water is being wasted and if possible, stop all waste of artesian water. The first day 32 wells were inspected and no waste was found. This is certainly encouraging as it indicates that people are very much alive to the necessity for the prevention of waste of artesian water.

Both were held on suspicion of burglary. Emanual was arrested in the hallway of an exclusive Wilshire apartment house, according to police, and the woman was found in Emanuel's room at a Venice hotel along with the alleged loot.

CALL HEALTH EXPERT TO SANTA ANA

Four Deaths Attributed To Mysterious Disease At County Seat

SANTA ANA, Jan. 24.—Here from Sacramento to confer with Dr. J. I. Clark, city health officer, on the epidemic usually termed the mental influenza, Dr. Walter M. Dickey, secretary of the state board of health, today issued an order that physicians of the city hereafter report to the city health department all cases of the malady. Four deaths attributed to the disease, have been reported.

At the same time Dr. Clark requested the secretary of the state board to send an expert here to conduct minute investigations to determine the source of the diseases. The request was sent for a man to come here for a day. It was Dr. Clark's suggestion that the expert be assigned to this community to remain and continue the investigation until some definite conclusion is reached as to the cause—and whether the epidemic is influenza or typhoid fever.

The city health board, appointed shortly after the present city council assumed office, met today for the first time. Organization was effected. Physicians here are attempting to determine the cause of the epidemic. Water, they stated, had been definitely eliminated as a possible source. Analyses by the state board and by local laboratories had proved the water entirely pure for drinking purposes.

Asserting that the acute stage of the epidemic had passed, Dr. Clark said that recurring cases were numerous, however, with severity and with some strong indications of typhoid fever.

Pointing out that typhoid may be carried into the system by foods, Dr. Clark was of the opinion that complete checks could be made by investigating individual cases of illness for comparison as to whether those afflicted were eating particular foods obtained at the same source.

Dr. Clark also said that the epidemic was not confined to Santa Ana, but that San Bernardino and other sections of the southland were fighting the mysterious disease.

Allen Urges Early Relief For Starving in Germany

NEW YORK, Jan. 24.—"Immediate aid in the form of food distributed by the American Quakers offers the only effective relief for the crisis which Secretary of Commerce Hoover's statement shows exists in Germany," Gen. Henry T. Allen said today in issuing an emergency appeal for funds to succor the starving children of Germany.

The necessity for American help to prevent starvation from sweeping Germany was proved beyond a doubt by the official report of the Department of Commerce, said Gen. Allen, who is chairman of the American Committee for the Relief of German Children. Secretary Hoover's report states that there are 20,000,000 people in the industrial centers of Germany, representing one-third of the population, which is suffering acute privation because of a shortage of food.

"Mr. Hoover points out that the most constructive, permanent solution of this problem would be the creation of foreign commercial credit for food supplies, and that the authority for this is being eagerly sought by the German government. Naturally, Mr. Hoover is not free to discuss the very evident political difficulties which are at once met in connection with such proposed foreign credit to Germany.

"We have little hope that the reparations commission would agree to such a loan having prior claim on Germany's resources, and even though this difficulty could be overcome, it would probably be months before such a credit could become operative, and in the meantime hundreds of thousands would face starvation.

"Because of the international political situation, it would be many months before this plan of relief could be worked out. In the present terrible situation, in which the lives of millions of innocent children are involved, there is available only one immediate way to express our humanitarian impulses toward these hungry people, and this is for the American public to enable this committee, in co-operation with the American Quakers, to provide sufficient funds for feeding millions of children who now face starvation in Germany.

It is planned to have 100 volunteer solicitors. There will be four-minute talks at churches, theaters and luncheon clubs.

SENT CASH IN SATCHEL TO WASHINGTON

"Nothing But Personal Favor For Friend," Says Oil Magnate

By KENNETH CLARK
(I. N. S. Staff Correspondent)

WASHINGTON, Jan. 24.—Edward L. Doheny, multi-millionaire oil magnate, testified on the witness stand before the senate public lands committee this afternoon that he had loaned ex-secretary Albert B. Fall $100,000.

This statement was made in explanation of the mysterious $100,000 loan, which has figured so prominently in the teapot dome investigation and which led senatoral accusers of Fall to charge that it formed a part of the "corrupt consideration" which they alleged Fall received as a result of leasing Teapot Dome to Harry F. Sinclair.

Doheny declared this afternoon that he made the loan to Fall Nov. 30, 1921, and that he received a promissory note for the amount.

Senator Smoot of Utah, was the first member to appear. He greeted Doheny warmly and chatted for a few minutes. Rush Holland, assistant attorney general assigned by order of President Coolidge to watch the Teapot Dome developments, was given a seat near the committee table of Chairman Lenroot.

Under cross examination by Senator Walsh, Doheny said Fall, in Washington, called him in New York and asked for the loan.

"I had the check for $100,000 cashed in New York at Blair and Co. and sent my son down to Washington with the money in a satchel," Doheny said.

This was the cash that Fall took to New Mexico to buy the ranch, Doheny testified.

"This was nothing but a personal favor and I was glad to do it for a friend," he added.

Doheny, whose oil interests in California and Mexico exceed those of any other American, proved a most accommodating witness. He appeared voluntarily and answered a rapid fire of questions fully and without reserve.

Doheny's appearance brot forth the largest crowd of sensation-seekers that has ever attended the oil probe. Many were refused admission to the room, which was jammed long before the hearing started.

While Doheny was on the stand the senate advanced one step toward enactment of the Caraway resolution to cancel the Teapot Dome and California naval oil leases by act of congress.

By an unanimous vote the senate public lands committee was dismissed from further consideration of the resolution and the measure was placed upon the senate calendar.

In effort by Senator Robinson, the minority leader, to have the proposal made the senate's unfinished business was blocked by Senator Lenroot, Wisconsin, chairman of the Teapot Dome investigating committee.

Doheny's statement to the committee was as follows:

"I wish to inform the committee that on the 30th day of November, 1921, I loaned Albert B. Fall $100,000 upon his promissory note to enable him to purchase a ranch in New Mexico. This sum was loaned to Mr. Fall by me personally. It was my own money and did not belong in whole or in part to any oil company with which I am or have been connected. In connection with this loan there was no discussion between Mr. Fall and myself as to any contract. This loan had no relation to any of the subsequent transactions. The transactions themselves in the order in which they occurred, dispose of any contention that they were influenced by my making a personal loan to a life-long friend.

"The reason for my making and Mr. Fall's accepting the loan was that we had been friends for more than 30 years. He had invested his money for those years in his ranch in New Mex-

SARAZEN, HAVERS IN 72-HOLE MATCH

SAN FRANCISCO, Jan. 24.—Gene Sarazen, American professional golf champion, and Arthur G. Havers, British open champion, will start their 72-hole international match tomorrow over the course of the Lake Merced Golf and Country Club. They will play 36 holes and complete the match at the Hillcrest Country Club, Los Angeles, Sunday.

The match is expected to draw the largest crowd ever to follow golfers in this state. Unofficial or official, the golfers here are satisfied that Sarazen and Havers are the logical and proper representatives of American and British professional golf and are entitled to participate in an international match.

The Lake Merced and Hillcrest courses provide a fine test of golf. Sarazen and Havers have both declared themselves well satisfied with these courses. They have been working hard to get into shape for the match and both feel confident of winning.

Havers has hit the longest tee shots ever down on the Pacific coast. The odds have shortened to even money.

SARGUM SPROUTINGS

The Fullerton club played to a capacity house last evening and those present surely received their moneys worth. Pete Mulligan, champion wrestler of the Pacific Fleet, was rushed and floundered to such an extent that he had to send out the S.O.S. call a couple of times, but he is some man. The first thirty minutes he was a wee ahead of Orland Miller in points. He was behind Miller about two thirds of this time.

He showed most great experience and was in wonderful condition. He had Miller in serious trouble several times but the Little Giant from Fresno always managed to slip out. Peter punished Miller terribly with a toe hold that held Miller helpless for several minutes. Pete also had Miller gasping several times with body scissors holds.

Miller failed to distress the Sailor with body holds or with the head scissors. The sailor has wonderful strength in his back and could easily break any holds where the back muscles came into play. Miller's only hope was the sailor's arms and legs.

Pete clamped on a short arm scissors which Miller succeeded in breaking, but when Miller landed the same hold on the sailor he got a little firmer grip than the sailor had and Pete finally had to give out the distress signal. The fall came in 42 minutes of as thrilling wrestling as ever put on any where.

Mulligan came back strong but Miller had tasted victory and would not be bested although he was in some very close places. He succeeded in escaping on his famous arm strangle in nine minutes and the fans made the building tremble with their cheers.

It was a regular all Roy Mabee finish and the fans went home only to toss through the remaining hours of the night breaking toe holds, arm locks and etc. It was a great match and equalled any Roy ever staged in Anaheim. We doubt if Roy could ever get into condition to handle Miller again. The next time Miller knocks at Ad Santel's door Old Ad is going to have his hands full. He retains all of his speed and is getting more powerful and scientific each match.

Miller starts the wrestling season in Brea next Monday evening when he takes on Jack Washburn one of the best wrestlers on the coast.

Old Ad Santel is still in the wrestling game, he threw the Giant Russian in a title match in Fresno last night. Ad hung one of his arm crushers on the Russian and made him quit for the evening. The Russian claimed that his arm was injured to such an extent that he could not go on with the match.

Fred Mortensen, light heavyweight champion of Denmark, challenged the winner of the Miller-Mulligan match. Mortensen has wrestled much in this country and is considered one of the top notchers of the day. He and Miller should make a great match.

Doty Bush held down short for the Fullerton club last Sunday and got one hit out of three times at bat and handled himself creditably in the field. Doty claims that he did not desert the Anaheim team but was victim of circumstances which almost compelled him to play with the Fullerton club.

Next Sunday Anaheim goes to Brookside Park to play a return game with the Pasadena Eagles. Fullerton goes to Irvine to take on the Bean tossers of that place. So there are two good ball games for the fans to select between.

There was a meeting last night at the city hall of members of the Orange County Gun Club.

Secretary Ben Christ Lieb reported about eight thousand blue rocks on hand and no bills against the club. He also reports that it will be impossible for him to take care of the secretary's work for the coming year.

It was decided at the meeting last night to hold a shoot on Sunday, February 3rd at which time business can be discussed by the members.

It is urged that all members of the club attend this first shoot.

MOREING REFUSES $175,000 FOR CLUB

OAKLAND, Jan. 24.—Lewis Moreing, president of the Sacramento baseball club, has turned down an offer of $175,000 made for his club.

"Red" Wade, representing Jack Kearns, manager of Jack Dempsey, and one or two other parties made the offer.

Wade offered Moreing cash. Moreing replied to Wade's telegram as follows:

"Your telegram received. Your price is altogether too low. We have a very large investment in the way of ball parks at Sacramento and Stockton, and ball team and equipment of all kinds that is the very best in the league."

Owner Navin of the Tigers says that Bib Fothergill, outfielder, will not be traded—until after the opening of the season. In other words Fothergill's showing and general actions at the training camp may have some bearing on the matter.

ALL PEACE AGAIN IN TENNIS WORLD

By DAVIS J. WALSH
(I. N. S. Sports Editor)

NEW YORK, Jan. 24.—Indications today were that the differences between the U. S. Lawn Tennis Ass'n and William Tilden, II, national singles champion, have been settled amicably as the result of a strictly private, corporation dinner, given by the Davis cup committee last night.

Just where the affair was held, at what hour and to what purpose could not be learned, but it is understood that all members of Davis cup teams since 1920 were invited.

The mystery surrounding the entire proceedings has been preserved to teh point that it could not be learned whether or not Tilden accepted the invitation. It is understood however, that he did and quite a jocular little evening was had by all.

The executive committee has yet to have resolution passed by the annual meeting of the association Feb. 2, and therefore it is possible that no open breach between committee and player was evident last night.

It is known, however, that should the committee succeed in its avowed purpose, Tilden will cease to represent the United States as an amateur. He is determined that he will not abandon his literary income, which is by no means inconsiderable.

One report today was to the effect that the dinner ostensibly was arranged for the purpose of talking over plans for the impending season in tennis, including the defense of the Davis cup and the sending of an international team abroad for the Olympic games in Paris.

The conversation, boiled down, is said to have revolved around a studied attempt of the tennis body to have Tilden agree to let bygones be bygones and to cross no bridges until they are reached.

In other words, the common desire is to get Tilden to agree to represent America here and abroad next summer, regardless of what action might be taken on the player-writer question. It is probable that they will succeed for Tilden, for all his threats to retire, is just as little inclined to give up the spotlight of competitive play as is the tennis association to lose its highly valuable services.

CLEVER DANGERS ON CALIFORNIA VODE BILL

Scene cut from "Fashion Row", starring Mae Murray, which comes to the California Theatre Friday.

Manager Ingram of the California Theater has arranged what he considers an unusual bill of vaudeville, for the regular vaudeville night—tonight—at his beautiful theater. Heading the bill "Four Pearls," an odd and unique title bestowed on this offering presented by a mixed quartette of clever dancers, headed by Floyd Rathburn, who features a revival of the world renowned and old time favorite—"The Lancheshire Clog." A gorgeously beautifully stage setting is carried, and this quartette of two splendid looking young men, and the duo of really pretty girls comprise an act that is far above the average dancing sets. Ted and Al Waldman, who were a late feature with the Eva Tanguay road show, will present their famous act "Blue ology." Mr. Al Waldman was at one time the manager of one of Chicago's big music publishing houses, and was a very successful composer himself, but the demands of the different vaudeville agents became so impressive that Mr. Waldman immediately formed an act and "started out" on the time—and has been in demand ever since. Besides these two big headline acts will be Clifford and Furtell —"The Prima Donna and the Boob," Johnny Burns a character comedian of unusual ability and last but not least will be found W. S. Harvey and Co., who are billed as "A Room Upside Down." Tomorrow brings the big Mae Murray picture "Fashion Row" to the California along with the big sift night that Manager Ingram has succeeded in bringing to the high pitch of interest to Anaheim picture fans. "Fashion Row" the Mae Murray feature is claimed to be the best production she has produced in a long time and big crowds are expected to view her efforts.

Santa Ana and several outfall sewer contractors were defendants today in a suit brot by E. Schelling, sub-contractor on the sewer line, who demands judgment for $741.45 for work he alleges that he performed.

Decrees of judgment in two cases is asked against the Orange County Rock and Gravel company.

In his complaint Schelling sets forth that the city awarded the contract for the sewer-building to Ford, that Ford run-let a contract for excavating and refilling the sewer trenches to the Orange County Rock and Gravel Co., and that the latter concern contracted with Schelling to do the work of excavating, besides furnishing tools and machinery, etc., for the work.

HOPPE STILL HAS BILLIARD CROWN

CHICAGO, Jan. 24.—Willie Hoppe, upon whose slick blonde head the billiard crown rests as easily as an old fedora, still wore that trinket today, with no disarrangement apparent from his match with Jake Schaefer, challenger.

Entering the final block of the 1500 point match with a lead of 261 points last night, he increased that margin to win handily 1500 to 1186.

Hoppe stroked in the manner that led fans to claim he could score with three apples on the table.

PRESIDENT MAY CALL CONFERENCE

WASHINGTON, Jan. 24.—A general conference of bankers from Chicago, Minneapolis and other northwestern cities and agricultural leaders of the northwest, may soon be called at the White House by President Coolidge to devise means of remedying the acute economic depression prevailing in those sections, it was announced today.

WIFE FAILS TO PROVE CRUELTY

Superior Judge E. B. West today denied a divorce in the case of Beulah Hafer against Clarence Hafer, of Orange.

The Hafer trial, containing sensational testimony which linked the name of Vernon Feiser, of Orange, to that of the young wife, was concluded shortly before noon today.

In announcing his decision Judge West flatly denounced Feiser who, he said, posing as a friend of the husband, whose claim he had been for five years, invaded the sanctity of the Hafer home.

The court held that cruelty charges brought against Hafer by his wife, who based her complaint upon alleged cursing by her husband and his devotion to the sport of fishing rather than his home, were not corroborated sufficiently to warrant giving her a decree.

The program promises to be of an especially high character throughout.

DINES TRYING TO PROTECT "MATES"

LOS ANGELES, Jan. 24.—Courtland S. Dines' "lapse of memory" when his testimony was taken at the Good Samaritan Hospital recently in the preliminary hearing of Horace A. Greer, chauffeur for Mabel Normand, who shot him on New Year's night, was the result of Dines' often-expressed desire to protect his two "playmates," Miss Normand and Miss Purviance, it was charged at the district attorney's office today.

The prosecuting attorneys asserted Dines is extremely anxious to "forget the whole business" not only for the inconvenience it might cause him, but to protect the two actresses and save them from appearing as witnesses in court.

"We are convinced that Dines' so-called "lapse of memory" was for the purpose of bringing about a dismissal of the charge against

SILVERADO MINE LOOKS PROMISING

Development work in No. 7 tunnel of the Silverado Mines is progressing nicely, it was reported yesterday at the meeting of stockholders. About 150 feet must be made to reach the large ore shoots which show above. This No. 7 tunnel is a drift. To cut those ore shoots 700 feet lower than the upper workings.

Expert mining men give the company much encouragement, feeling certain that the completion of this tunnel will make one of the greatest mines in Calif. It looks very favorable, and the company feels confident that within 90 days the ore body will be cut and the grade of ore at this level should be much higher in both gold and silver than at the top. This should add a great and valuable asset to Orange co.

CALIFORNIA'S GROWTH IN POPULATION

Electrical operations in California are based upon an estimated increase in population of 25 per cent annually for the next five years. This is the assertion of the president of the Pacific States Electric Company managers.

This is not wild, unreasoning talk or action. It comes from shrewd men of affairs. It denotes strong confidence in California—abiding faith in its continued growth and development. Conditions justify this faith and confidence. All the elements are here for continuance of increase in population and augmentation of development. As California's resources and attractions become better known, in detail, to greater numbers, the influx of homeseekers and investors increases in volume. It is cumulative. Intelligence and discriminative judgment lead many very desirable persons to come here to live and to invest, in preference to any other state or section. The conditions which make this state preferred are fundamntal. They will be here a hundred years hence. This state will be preferred by the next generation and the next, on and on, indefinitely. Because here is that ideal blend of climate, scenery, opportunity, latent riches and potent possibilities which make California a real El Dorado.

Californians are beginning to pray for rain. But before long they may be praying for the rain to stop. There is plenty of time yet, within the usual season of precipitation, to get the normal rainfall, or near it.

NOBEL AWARDS FOR GOOD OF HUMANITY

An able, illuminating discussion of the Nobel awards was given in a recent address by S. W. Kennedy, vice-president of the Southern California Edison Company, the text of which was published yesterday in The Star-News. Mr. Kennedy clears several misconceptions of this noble philanthropy. There are five awards, not one. Interest locally in this great distinction arises from the fact that a Pasadenan —Dr. Robert Millikan, of California Institute of Technology, was awarded the prize for physics for last year. Other noted Pasadena scientists have been honored by scientific societies abroad, so that the awards which come to residents of this city constitute a cherished heritage of the community.

They who are in the van of progress in science serve mankind usefully. It is fitting that great forward strides and outstanding achievements in science should be honored conspicuously. Those who promote the arts of peace—who give of their talents for the uplifting, betterment and advancement of the human race—deserve especial honors and distinctions. These awards are emphasized by their modest recipients as honoring the deed rather than the man. But the man is back of the achievement, and both the man and what he achieves should be honored.

A careful perusal of Mr. Kennedy's interesting address is well worth while. There is much information in it respecting a system of awards which commands the interest and respect of the civilized world.

COMMENTS OF THE PRESS

What Editors Are Saying

CALL IT "OUR" GOVERNMENT—Riverside (Cal.) Press

Walter W. Head, president of the American Bankers' Association, in an address before Chicago and Cook County Bankers' Association, said:

"We speak reverentially of 'Our Country.' What do we mean? Are we thinking of the service which we owe to our country, of the love which we bear for it, or are we thinking only of the protection which our country can afford us, only of the benefit which we may derive from it. Are we thinking of what we may do for our country, or of what our country may do for us?

"Much as we find reason to deplore high taxes, to lament the interference of government in business, to condemn radicalism, our duty to ourselves and our country requires positive as well as negative action, dynamic direction rather than static obstruction. We must be constructive.

"As business men we go before Congress—with justification—opposing this bill or favoring that; as business men, we decry the acts of 'politicians' who are elected to office or who procure the election of others to office. Yet, as citizens of our country, do we fulfill the obligations incumbent upon us? Do we exercise our right to vote—and when we do, do we always place intelligence, efficiency and patriotism in government ahead of every other consideration?"

We cannot delegate our responsibility in government to someone else. The main-spring of a watch operates through a series of wheels and cogs to move the hands on the dial. City councils, legislatures, congress, executive officials carry on the government—but the mainspring of government is the individual citizen. The main-spring may transmit its impulse through elected or appointed officials but the mechanism will not operate if the main-spring is removed. There is no substitute for individual interest in government and individual responsibility for government.

CLUB WILL TELL HOW THEY GOT HALF DOLLARS

"SING a song of sixpence, Biennial in L. A., Fifty pennies or fifty cents—they need it right away."

So paraphrases Mrs. Nellie E. Terry, president of Anaheim Ebell club, in calling to mind the financial responsibility of every California clubwoman for her part in the seventeenth biennial convention of the general federation of Woman's clubs, plans for which are going to be uppermost in the thoughts of the local club during the next four months.

To afford every Ebell clubwoman here an opportunity to personally know every other one, Mrs. Terry has planned a "get acquainted with each other" day for the regular February meeting. As this is the day when the members will bring their half dollars for the bi-ennial fund, each one is requested to relate in however manner she may choose, the manner in which she earned or saved—at least secured, this amount.

This is going to be interesting and amusing as well, and the informality incident to the meeting will be most happy.

Mrs. Terry wishes to impress upon the club that this is not a Los Angeles affair, nor any other local gathering, it is the whole, beautiful state of California acting as hostess to the national organization of women from June 3 to 17, and a convention in which every one will want to share.

So it is expected the attendance Feb. 4 will be one of the largest and the afternoon one of the pleasantest in the club calendar.

THOUSANDS AT LENINE FUNERAL

(By William J. Reswick)
(I. N. S. Staff Correspondent)

MOSCOW, Jan. 24.—Thousands of persons passed today before the red dais holding the body of Nicolai Lenine and gazed for the last time upon his countenance.

The world's greatest revolutionary leader—the man "who shook the world"—rested in state in Trade Union Palace.

The snow-covered streets were filled all day with fur-clad humanity. For the most part, those seeking entrance were workers and peasants.

So great was the crowd outside that the infantry and cavalry on guard were hard-pressed. The military guard of honor was changed every ten minutes.

There was a constant stream of soviet supporters passing before the bier.

Despite the suffering undergone before his death, Lenine's face was calm. It was actually life-like.

Upon the dais upon which the body rested stood a huge candelabra which shed a soft light upon the coffin. It was surrounded by palms.

A number of children, with whom Lenine romped before his illness compelled him to take to his bed, made a pilgrimage from Gorky, the little village where the great leader spent the last year of his life.

With wondering eyes they trudged past the dais, looking for the last time upon the man whom they had come to regard as their playmate.

Altho the government which Lenine headed made a fight against religion, some of the Russians who passed before the bier today murmured prayers.

The body will be left in state thruout tomorrow. It will be buried in Red Square on Saturday with simple ceremonies.

DEATH OF LENINE "TERRIBLE BLOW"

TIFLIS, Soviet of Georgia, Jan. 24.—Leon Trotsky, commissar for war in the Russian cabinet and colleague of Lenine, declared today that the death of Lenine is a "terrible blow" but will not stop the execution of the communist policies inaugurated by the late leader.

Trotsky was compelled to come to southern Russia by ill health. It was here he received news of Lenine's death.

SERVANT PROBLEM IS GREATEST OF TODAY

If you asked Mrs. Van Asterbilt what was the greatest problem confronting the civilized world today, she probably would reply: "The servant problem!" Therefore, to achieve the distinction, more or less, of being the world's most famous servants" is interesting. To allay your curiosity, we are going to let you in on the why and wherefore of Dorothy Allen and Eleanor Daniels, who won the title with their performance as High and Low Jinks, respectively, in the William Fox film version of "It Winter Comes," which is now showing at the Fairyland Theatre.

Miss Allen is a dyed in the wool known wool motion picture actress. She has never been on the stage, but she has achieved notable success in screen characterizations. One of the most recent of these was Aggie in "Over the Hills," which was directed by Harry Millarde who manipulated the megaphone for "It Winter Comes." Miss Allen also has many previous accomplishments to her credit.

In contrast with Miss Allen, as striking as their physical proportions, Miss Daniels never appeared in pictures before she was engaged for "It Winter-Comes." She is well known on the legitimate stage, however, having appeared in numerous Broadway production. Miss Daniels is an intimate friend of Alice Bradley, author of David Belasco's stage triumph "The Governor's Lady," which has been acquired for screen adaptation by William Fox. It is fitting, therefore, that "the world's greatest servants" have been engaged to appear in this production.

DEMOCRATS MAY CHALLENGE VETO

(By George R. Holmes)
(I. N. S. Staff Correspondent)

WASHINGTON, Jan. 24.—Quietly confident of their own strength, the Democrats, in the sixty-eighth congress, apparently plan to challenge President Coolidge to veto a tax reduction bill for which a nation-wide sentiment has been built up.

This bit of strategy emerged today from a solid week of jockeying behind the closed doors of the ways and means committee room, in which the Republican leaders have been inviting a compromise on the Mellon bill, and the Democrats have been coyly resisting.

President Coolidge let it be known Tuesday that he was unalterably opposed to a surtax in excess of 25 per cent and plainly hinted that he would feel constrained to veto a bill containing a surtax appreciably higher.

Republican leaders in the house took the hint Wednesday and made an offer to the Democrats which amounted, virtually to this:

"Leave the 25 per cent sur tax alone and we will meet you half way with other taxes."

Democratic leaders of the house announced that under no circumstances will the Democrats agree with the Republicans on the surtax rate and that they intend to stick on to the end for a surtax of 44 per cent as written in their own plan.

The Democrats will first wage their fight in committee, where the division of strength is close, and, if defeated there, it was stated by Representative Garrett, the Democratic leader, today, they will carry it to the floor where they are supremely confident of their superiority. The Progressive insurgent group numbering approximately 25 votes will be forced to go along with the Democrats because they favor a surtax even higher than 44 per cent, and thus the Mellon rate of 25 per cent seems doomed to certain defeat.

Virtually the same situation exists in the senate.

Both Republican and Democratic leaders are agreed that the situation would be a difficult one for the president. It would be difficult at any time but it will be doubly so this year because of the campaign.

Democratic leaders frankly consider they have the administration "in a hole," they profess to be satisfied, whichever way the decision falls. If President Coolidge accepts the sur tax rate of 44 per cent then the Democrats will promptly inform the country the tax bill was as much theirs as Mr. Mellon's. Should President Coolidge veto the bill, they believe the popular disappointment would be such as to constitute a body blow to the Republican chances in the 1924 elections.

130-POUND TEAMS WIN FROM L. B.

The 130-pound basketballers pleased Coach Sutherland last evening when they defeated Long Beach 28 to 24. The game was a real test because Long Beach has one of the fastest high school squads. Every local player did the work expected of him and brought forth some very pretty plays. Dargatz did some exceptionally fine work at center. Speed, the Long Beach center, lived up to his name and kept the Anaheim center on the go.

Anaheim line-up: Swarthout and Howell, forwards; Dargatz, center; Sweeney, and Mann, guards. Subs: Schwientest for Swarthout; Shea for Dargatz; Gist for Sweeney; Wright for Mann; Sweeney for Wright. Sweeney got a mean crack on the jaw and was out for some time, but was able to get back for the last quarter.

Long Beach team: Coleman and Larsen, forwards; Speed, center; Peckus and Davis, guards. Subs: Richter for Coleman; Coons for Larsen; Shepherd for Peeckus.

Ashleigh refereed the games.

The 110-pound team got licked two times, once by Long Beach 11 to 8, and the other by Santa Ana 16 to 4. The game was good in streaks, but not what it should have been.

Anaheim players against Long Beach were Gist and Meade, forwards; Utt, center; Ochoa and Alsip, guards.

Long Beach: Nelson and Winterburn, forwards; Brashear, center; Brown and Felish, guards.

Santa Ana vs. Anaheim:

Anaheim team: Hensley and Minchell, forwards; Fitzgibbons, center; Grafton and Martin, guards. Subs: Kelley for Fitzgibbons; Pember for Grafton.

Second varsity squad defeated Fullerton second squad 22 to 16 at Fullerton.

BIDDY CHALKS UP RECORD

LONDON, Jan. 24.—Poultry farmers of the future will have no need to worry as to which hen is or is not a paying proposition, for —by an invention just patented by William Middleman, well-known Dutch breeder—the hen itself will virtually write a penciled note telling the farmer how many eggs she has laid per day.

The invention consists of a colored pencil fixed in an upright position to a kind of saddle on the hen's back.

When the hen leaves a special kind of trap-nest after laying an egg the pencil marks a sheet of paper fixed on the door. Each hen has a different colored pencil, and by the color of the marking the farmer knows which hen has laid the egg.

MANY SOLD BEFORE FORMAL OPENING

A useful object lesson as to the salability of the right kind of subdivision property is furnished by the A. B. C. Sales Co. at Homewood, a new and beautiful development of Buena Park. The formal opening of this tract has not taken place, yet it was announced yesterday by Mr. Tait, sales manager of the A. B. C. Sales Co., that over one-third of the homesites and about two-thirds of the business lots had been disposed of. One of the lots fronting on Grand blvd. has been sold for a bank site. Several houses are already completed and more are being planned. It is stated by several real estate men that all around this section will see some extraordinary activity in the next few months.

The distribution of $175 phonographs undertaken by Homewood to advertise its advantages has produced hundreds of inquiries. These fine instruments are on view at the various offices of the A. B. C. Co., and are causing daily increasing interest.

Announcement!

To my Friends and the General Public:

In order to execute an option within 30 days, I have decided to subdivide a small portion of my full bearing Valencia orange grove, on the Ball Road, within 3-4 mile of the Standard Oil Wagner test well, now standing cemented at about 3150 feet and reported to have satisfactory showings.

I have approx 87 acres under lease to the Shell Oil Co., which is considered one of the best in the territory. Under the terms of this lease we have received a large cash bonus, also receive a monthly rental, a liberal share of the oil if discovered, a substantial tree damage and other considerations.

I am not offering this as an oil investment but only mention the above as these parcels will be sold subject to this lease and purchasers will share in the whole lease.

This grove is known as one of the best producers in the Anaheim district bearing a heavy crop each year, estimated this year at $500.00 per acre, based on last year's prices which were fair and it is predicted that Valencias will bring a better price this year.

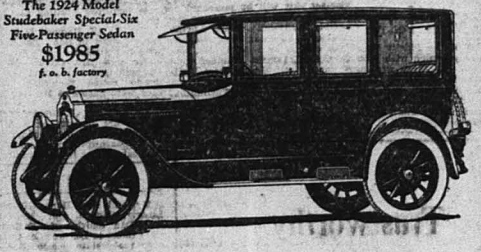

I offer a portion of this grove in one or more acre parcels, for quick sale at the very low price of $3500.00 per acre including crop or $3000.00 per acre without crop interest in large pumping plant with plenty of cheap water.

If interested, phone 975 for appointment.

The 1924 Model Studebaker Special-Six Five-Passenger Sedan
$1985
f. o. b. factory

The reason for the remarkable value of the Special-Six can be summed up in the statement that it would be impossible to offer it at its present low price were it not built complete in Studebaker factories.

In performance, in appearance, in riding comfort, in economy of operation—from every angle from which you may judge motor car values, the Special-Six Sedan stands out strikingly as an unusual car at an unusually low price.

And when you are weighing motor car values in your mind—when you are comparing the Studebaker with any other car—just consider the simple, uncolored story of Studebaker's sales success, as shown by automobile license figures throughout the country, and ask yourself, "Why?"

Synchronization Plays Big Part In Opera Presentation

"THE average theater-goer has little conception of what a large part synchronization plays in the preparation of a play or opera for presentation on the stage."

It was Ellis Rhodes, director of the Orange County Choral Union which will present De Koven's famous opera, "Robin Hood" at the Anaheim Union High school auditorium the night of January 25th., who was speaking.

"Everything," he continued, "must be synchronized, in order that there may be a perfect ensemble. It is all done by means of cues, musical and spoken. One action, or one word, or one musical phrase, is the signal for another action, another word, another musical phrase.

"Take, for instance, the work of Dominico Cianfoni, orchestra director, for this production of "Robin Hood." At first thought it would appear to the average theater-goer that rehearsals are conducted with full orchestra. This is not the case. It is far better that the singers be rehearsed in one group and the orchestra in another.

"Mr. Cianfoni attends my rehearsals, of course, to get the tempo I employ for the various numbers. Then, when he returns to his orchestra, he knows exactly the tempo that he must give thruout.

"It is not until several rehearsals before the performance that we begin rehearsing singers and orchestra in conjunction. Indeed, it is not necessary that it be done any sooner—they have both learned their share in the performance, the tempo, the phrasing and so on, and the joint rehearsals at the end are merely designed to smooth out the rough spots.

"In preparing 'Robin Hood' we have had more time at our disposal than has been the case with several other of the works that the choral union has undertaken. The result is that De Koven's ever-delightful fantasy will be given in a manner entirely satisfying.

"Just one little detail, for example, that is likely to be a stumbling block for an amateur performance, is that of not allowing principals and chorus sufficient time to dress between numbers. I have bent every energy to the end of eliminating confusion and misunderstanding in this regard—and, thus, another of the countless details making for perfection, has been attended to.

"There is every indication that our performance will be greeted by a crowded house here."

DOHENY APPEARS BEFORE SENATE

(Continued from page one)

ico, which I understood was all that remained to him after the failure of mining investments in Mexico, and nine years of public service in Washington, during which he could not properly attend to the management of his ranch.

"His troubles increased in 1916 by the death of his daughter and his son, who up to then had taken his place in the management of the ranch. In our frequent talks it was clear that aquisition of a neighboring property containing the water that flows thru his home ranch was a hope of his amounting to an obcession.

"His failure to raise the necessary funds by realising on his extensive and once valuable Mexican mine holdings had made him feel he was the victim of an untoward fate. In one of these talks I indicated to him that I would be willing to make him the loan and this seemed to relieve his mind greatly. In the Autumn of 1921 he told me that the purchase had become possible by reason of the willingness of the then owner of the Harris ranch to sell, and that the time had arrived when he was ready to take advantage of my offer to make the loan.

"The new lease on naval reserve No. 1 was the direct outgrowth of the contract which the Pan-American Petroleum and Transport Co. made with the navy as a result of competitive bids, in which that company was the lowest bidder, for the construction of certain storage facilities and the furnishing of fuel oil at Pearl Harbor, and in the absence of that contract the lease would never have been executed. The navy department thru its representative took up with us the question of constructing the improvements and facilities at Pearl Harbor."

Doheny was accompanied to the witness stand by his attorney, Edwin McNab of San Francisco. When the oil magnate had finished his statement McNab arose and said he wished to make an additional statement on behalf of Doheny.

"We feel" said McNab, "that everything in connection with the lease of the Elk Hills reserve by Mr. Doheny was open and above board, and that the contract entered into is legal.

"On account of the feeling that has grown up about this whole matter, however, Mr. Doheny wishes to back up this statement by suggesting to the committee that it suggest to President Coolidge that a board of experts be appointed to go over the entire matter of lease and contract, and if anything is found to be wrong in the judgment of such a board, then Mr. Doheny is willing to advise and request the board of directors of the Pan-American Petroleum Co. to convey back to the government the whole property, asking only that there be compensation for the improvements put upon it."

WASHINGTON, Jan. 24.—The Teapot Dome tempest sizzled today with renewed force and vigor.

One of the central figures in the sensational case, E. L. Doheny, multi-millionaire oil magnate, arrived in Washington this morning on his private car to appear before the senatorial investigators.

Two others, ex-secretary of the interior Albert B. Fall and J. W. Zeverly, executive of the Sinclair interests, were delayed and will arrive during the day.

Their arrival was coincident with the launching of a new effort in the senate to have Sinclair's lease of Teapot Dome nullified by resolution, and an even more sensational move on the part of Senator Walsh, Democrat of Montana, to have President Coolidge institute an independent investigation of the whole affair on the ground that Attorney General Daugherty himself "is not above suspicion" and consequently should not act for the government.

Doheny was met at the station by Senator Walsh, Democrat of Montana, chief of the senatorial investigators, and the two had a long conference aboard the former's private car at the Union Station.

Walsh apparently was well satisfied with the conference.

"Mr. Doheny will appear at 2 o'clock", said Walsh as he left the station. "And I feel sure he will tell us all the details of his own deals."

The senate public lands committee reconvened after a two day recess to hear Doheny explain the circumstances of his obtaining leases on California reserves from Fall.

The controversy between Senators Walsh and Caraway as to the best method of getting the leases cancelled split party lines in the senate. Caraway staunchly contended they could be cancelled by resolution but Walsh maintained it was a matter for judicial determination and in this he was supported by most of the lawyers in the senate.

There was almost general support for Walsh's plan. Caraway himself held little hope that he would be able to get a vote on his resolution today.

Walsh was not expected to press for action on his plan until the committee concluded hearings, in about a week or ten days. Then it probably will come to the floor after first being recommended to committee.

Walsh felt that the committee's investigation could not be completed without further examination of Fall, Doheny and Sinclair, now in Europe.

Members of the committee were quiet today to attack Sinclair's statement in Havre that "politics is responsible for this campaign of insinuations."

"It's nothing but a damn lie and please quote those very words," declared Caraway.

"The insinuations are based on facts, not on any charges by Democrats," said Senator Adams, Democrat of Colorado. "These facts came from testimony by Sinclair himself, Fall and Doheny."

It was learned today that information of a startling character concerning the source of the money which Fall borrowed to buy the Harris ranch had been brig to the attention of the committee. It was impossible to ascertain the nature of the evidence but a republican member of the committee, who did not want his name divulged, declared "from things we've just learned, Albert B. Fall will have to prove before he leaves the stand, where he got the money."

He indicated that a Democrat, prominent nationally and internationally, was involved. He said finally, "the money did not come from any of the oil interests to which Fall leased reserve lands."

President Coolidge was keeping in closest touch with Teapot Dome developments today. He has discussed the case in detail with department of justice officials and with Senators Lenroot and Smoot.

Coach Jacques will start her girls with class games next week. Freshmen and sophomores play Tuesday.

Indigestion May Lead to Appendicitis

Repeated attacks of indigestion often lead to serious inflammation of the stomach and intestinal tract. This inflammation may finally extend to the appendix, which usually becomes infected through the presence of foul, irritating matter in the bowels.

It doesn't pay to ignore even the most simple warnings of digestive trouble. Neglect is responsible for much misery. Uneasiness at the pit of the stomach, sour taste in the mouth, excessive gas, heart-burn, nausea, vomiting, bitter risings, constipation, biliousness, dizzy spells and palpitation of the heart after eating are some of the most common symptoms of poor digestion.

If you are subject to any form of stomach distress, don't fail to try a bottle of Smith Brook M. A. C., the guaranteed stomach treatment. This wonderful medicine usually gives prompt relief from all discomfort. A large bottle costs but $1.25. Heying's Pharmacy will supply you.

MINERS FAIL TO RECOGNIZE RUSS

INDIANAPOLIS, Jan. 24.—John L. Lewis, president and his supporters, held the reins tightly today in the convention of United Mine Workers of America, with apparently small chance of the radical labor leaders making any headway with their demands.

The so-called reds were defeated on:

Recognition of soviet Russia.

Reinstatement of the Nova Scotia district, where communist activities were said to be rife.

Establishment of a new labor party.

A resolution calling in plain terms for congress to recognize Russia was replaced by one which stated that while the principles of self-determination of peoples and non-interference in the internal affairs of other countries, were adhered to, the recognition of Russia was favored only when that country met its "honorable obligations."

On the question of reinstatement of the Nova Scotia district Lewis delivered an address condemning alleged affiliation of Nova Scotia miners with the trades union internationals. A test developed that the supporters of the Canadian miners would not obtain the thirty per cent needed to force a roll call.

REVIVAL SERVICES CLOSE SUNDAY NITE
