35 KILLED IN BLAST AT NITRATION PLANT

After Two Weeks of Sharp Political Debate, Senate Orders Investigation of Daugherty

BROOKHART WILL HEAD COMMITTEE

Personnel Will be Named By Senate Instead of Presiding Officer

WASHINGTON, March 1.—Edward B. McLean, wealthy publisher and one of the central figures in the oil scandal, is a duly accredited agent of the department of justice, it was learned officially today.

McLean, whose secret telegrams have been under scrutiny by the senate investigating committee for ten days, is known as a "dollar a year man" it was revealed today. He possesses a shield and an operative's credentials.

These facts came to light today on the heels of the discovery by the senate committee that some of the telegrams exchanged between McLean and his employes in their efforts to prevent the publisher's appearance before the investigating committee, was couched in a department of justice cipher.

It was also disclosed today that Mrs. Mary Duckstein, wife of one of McLean's confidential employes, until a month ago was employed by the bureau of investigation of the department and that she is still on the rolls of the department as an agent.

Duckstein, when the sender of many of the telegrams which the committee has been examining.

After spending an hour in executive session going over additional records of telephone calls and examining two of McLean's employes, from neither of whom they extracted much information the committee adjourned until Monday morning, directing all witnesses heretofore summoned to be on hand at that time.

By WILLIAM K. HUTCHINSON
I. N. S. Staff Correspondent

WASHINGTON, March 1.—Investigation of the official acts of Attorney General H. M. Daugherty, whose resignation has been demanded in congress, was ordered this afternoon by the senate after two weeks of sharp political debate concerning his alleged connection with the naval oil scandal.

The inquiry will be made by a special senate committee, the personnel of which will be selected by the senate instead of by the presiding officer, as is customary.

The resolution providing for the investigation was sponsored by Senator Wheeler, Dem. of Mont., but Daugherty had advised his friends in the senate to support it. The investigation will be specifically directed into Daugherty's alleged failure to prosecute violators of the Sherman anti-trust law or to prosecute Albert B. Fall, A. T. Bacon, H. F. Sinclair, C. R. Forbes and their co-conspirators in defrauding the government.

On motion of Senator Willis, Republican of Ohio, the resolution was amended just before passage so that the word "alleged" was inserted before each charge against the attorney general.

The vote was 66 to 1.

The resolution was supported by 32 Republicans, 11 Democrats and two farmer-laborites. It was opposed by Senator Elkins, Republican, of West Virginia.

Upon the suggestion of Senator Borah, Republican of Idaho, the senate late today agreed to strike out all of the preamble of the Wheeler resolution.

The preamble contained a number of "whereases," charging Daugherty with failure to prosecute those involved in the veterans bureau and oil scandals, etc.

Senator Smith W. Brookhart, republican of Iowa, was selected as chairman of the investigating committee.

Brookhart was proposed for the chairmanship by Senator La Follette, Republican of Wis.

It was apparent the three factions had previously been agreed upon by the committee.

The vote was by acclamation and efforts of Senator Elkins to obtain a roll call were blocked by republican leaders.

The senate elected Jones, Republican of Washington; Moses, ...

Will Close Border At 9 P. M. Daily

WASHINGTON, March 1.—The international border between California and Mexico, in the vicinity of Mexicali and Tia Juana, will be closed after nine p. m. daily, under an order issued today by Assistant Secretary of the Treasury Moss.

It will become effective after March 5.

The border is now open until midnight.

QUIZ WOMAN WHO KILLED AUTOIST

Official investigation into the circumstances surrounding the death of Fred C. Mesh of Escondido, fatally hurt near Westminster late yesterday when struck by an auto driven by Mrs. Lena Brown of Huntington Beach, was progressing today.

Mesh, 38 who had been driving west of Westminster, stopped at the side of the road and started to walk across the pavement when the approaching car, said to be traveling 30 miles an hour, struck him, throwing him 50 feet and rendering him unconscious.

Mrs. Brown's car then swerved into the ditch, where it was badly damaged, though none of the occupants was injured.

Motorcycle Officers Warner and Heltzer of the local sheriff's office, who investigated, learned the woman had sounded the car's horn before Mesh was struck.

Eye-witnesses expressed the opinion the accident was unavoidable on the woman's part, and that she lost control of the car after the man had been felled.

Mesh had sought to retrieve his coat, which had blown off the road seat. He was said to have been struck just as he picked up the garment.

Dan Good of Huntington Beach rushed the injured man and Mrs. Brown to Long Beach. There Mesh was transferred to an ambulance, in which he died. Long Beach police released Mrs. Brown after questioning her.

An inquest probably will be conducted by Long Beach authorities late today.

SELECT SENATE "JURY" FOR TRIAL

WASHINGTON, March 1.—Formal selection of a senate "jury" for the "public trial" of Attorney General Harry M. Daugherty was assured this afternoon when administration leaders withdrew their opposition to the plan of insurgent-democratic coalition.

Faced with certain defeat, Senator Lodge, the Republican leader, announced the withdrawal of his amendment, calling for appointment of the "jury" by the president pro tem of the senate.

His action, he explained, was prompted by the desire of President Pro Tem Cummins, Republican of Iowa, to be relieved of the responsibility of naming the investigating committee.

MRS. WOOTAN DIES

The death of Mrs. Julia W. Wootan, 66, following a lingering illness, occurred yesterday at the home of her daughter, Mrs. W. W. Cole, near Yorba Linda. She was a native of Indiana but had resided in California 54 years. She is survived by her daughter, Mrs. Cole, and five grandchildren, but one of them living nearby. Others reside in Los Angeles or cities more distant.

Funeral services will be held Monday at 10 a. m. from Huddle Funeral Home, with a Baptist minister officiating. Burial will be in Odd Fellows Cemetery, Los Angeles.

MOVED CAR MARKET

Sid McGraw used car dealer, has moved his location from the lot on North Los Angeles near Chartress to the corner on East Adele and North Los Angeles sts.

When you get Colonial Confections of any kind you have the best. 214 E. Center-st.

BIG FACTORY MAY LOCATE IN ANAHEIM

Now Employs 150 and May be 350 in Year, C. of C. Sec. is Told

A manufacturing concern employing 150 at present and likely to employ 350 within a year is strongly interested in taking five acres in the 39-acre tract of the Community Industrial Land Co.

The manager told Secretary George W. Bahl of the C. of C. that he would recommend its purchase at $2700 per acre, the price paid by the holding company, also the other cities bidding for it has offered cheaper sites.

Reid further broached a plan which he will put up to the executive committee of the Fourth Annual California Valencia Orange Show and to President B. H. Sloan of the Realty Board, whereby the industrial tent of the show will be made a bigger feature than ever, with a broader appeal, and the proposed industrial conference, under the auspices of the State Real Estate Ass'n may be held simultaneously with the Orange show.

Anaheim hasn't yet positively secured the conference, which will be State-wide, but is being strongly favored. It is to be held within 60 days, but if the date could be put further ahead the plan might be realized. The Orange show dates are May 16-25, both inclusive.

Among the exhibits at the industrial show Reid suggested one consisting of a big relief map of the Boulder Dam canyon project. Orange-co Harbor and textile industries also might be encouraged to enter more elaborate exhibits, in Reid's opinion.

The permit to sell stock in the Community Industrial Land Co. should have reached Anaheim the day after it was sought, but the deputy commissioner of corporations got out of town before his signature was obtained, and the papers had to be sent to Sacramento.

BIGAMIST GROOM DESERTS BRIDE

When Eddie F. Sutherland, after running away with pretty Eileen Soden from her home in Fresno, marrying her in Santa Ana, then leaving a note explaining that he was a bigamist, Eileen and her father, W. E. Soden, took Eddie's word for it.

The father swore to a bigamy complaint, Sutherland's search is being made for Sutherland who, it is alleged, left a trail of bogus checks as well as a bogus marriage ceremony behind him.

ASSESSORS TAKE TO FIELD MONDAY

County Assessor James Sleeper's deputies will take to the field Monday with instructions not to enter into discussion over taxes with whom they meet, but nothing to do but obtain assessments as expeditiously as possible. Sleeper today, in urging property owners to co-operate, quoted the law to the effect that returns must be filed on all property whether or not an assessor makes a call. He also pointed out that Monday noon is the limit for filing of deeds showing change of ownership.

Deputies named for No. Orange-co: Anaheim, H. H. Oelke; Anaheim school district and Placentia and Commonwealth, L. M. Kroeger; Fullerton, Robert McKee; Cypress, Stanton, Buena Park and Westminster, Wayne Holt; La Habra, Brea, Olinda, Lowell and Yorba Linda, Clyde Ridgeway.

SEEKS PROBATION

Having entered a plea of guilty to forgery and applied for probation, L. E. Dunning of Anaheim was today awaiting a hearing before Superior Judge P. C. Drumm, who received his plea late yesterday.

Hearing on the probation application was set for March 7 at 9:30 a. m.

Dunning admitted forging a check that was passed at a drug store in Anaheim recently.

Expand Coast Guard To Chase Smugglers

WASHINGTON, March 1.—The government's war on rum runners and bootleggers was advanced a step today when the house appropriations committee favorably reported a bill providing for the immediate expenditure of $15,850,822 for the expansion of the U. S. coast guard, involving the purchase of 323 fast motorboats and the utilization of 20 naval destroyers to protect the coast line.

HOLLY SUGAR CO. SELLS 25 ACRES

The 25 acres adjoining the 39-acre industrial tract of the Community Industrial Land Co. has been purchased by private parties of Anaheim or vicinity, at the price, it is said, of $2700 per acre, for which the holding concern could have obtained it.

The information, which appeared to be in possession of several individuals about town today, comes from a thoroly reliable source.

The land was owned by the Holly Sugar Co. and lies southwest of the Orange Anaheim Sugar Co. factory. It is situated on the west by North Lemon-st., on the south by the State highway, on the north by the sugar company's lands and on the east by a street not yet cut thru.

Its purchase apparently ends all hope of the holding company increasing its holds in that vicinity for factory purposes.

The understanding here is that a large part at least of the 25 acres will be used for subdivision purposes.

FIRE THREATENS THREE RESORTS

SAN BERNARDINO, March 1.—Making a desperate last stand against the onrush of a raging forest fire which was creeping rapidly toward three large resorts in the mountains north of here, more than 500 fire fighters were needed, shortly before midnight, in controling the fire, according to reports brought here this morning.

The fire was halted when it had reached to within a quarter of a mile of the municipal playground of San Bernardino, the first of the three resorts threatened.

More than 250 men are still on guard in event the fire breaks out again. Fifteen hundred acres of San Bernardino's Devil Canyon watershed was burned over by the fire which is reported to have been started when an auto caught fire, and plunged over a 200-foot embankment into a creek bed.

ENLARGE GROUP OF ELDER STATESMEN

TOKIO, March 1.—The death of Prince Masanobi Matsukata at 11:15 this morning brought up today the question of enlarging the group of men surrounding the emperor and known as the elder statesmen.

Any move to enlarge and continue this system of genro or elder statesmen will face the strongest national opposition. Under it, two or three men practically decide the government of Japan, picking the premiers.

Prince Saionji, the remaining living genro, will choose others to fill the places of Princes Matsukata and Yamagata and others who have died before.

The emperor and empress were represented today at the death bed of Prince Matsukata.

The Matsukata family is one of the largest in all Japan, the prince having had numerous wives and between 40 and 50 children.

C. OF C. GETS VASE

The handsome silver vase won by the C. of C. float at the Pasadena Tournament of Roses has arrived. Secretary George W. Reid intends to fill it with roses as an ornament in his office.

PLAIN DEALER CLASSIFIED ADS PRODUCE RESULTS

FORBES SAYS CONSPIRACY ENGINEERED

Makes Sweeping Denial of Charges and Promises Sensation Later

WASHINGTON, March 1.—Charging he was the victim of a "well engineered conspiracy," Col. Charles R. Forbes, former director of the veterans bureau, today told International News Service he would waive extradition to stand trial in Chicago on indictments of conspiracy and bribery.

Forbes issued a sweeping denial of the charges and declared he was being made a "political goat" by his enemies.

He promised a future sensation by announcing he would reveal later the "complete details" and names of individuals involved in the attempted political corruption of the veterans bureau" while he served as director.

Forbes bitterly condemned the Reed senate committee which investigated his administration and charged it with suppressing evidence "which tended to show that one of the committee's counsel attempted to bribe a witness to commit perjury."

The accused director declared the charges against him were based on "Perjury, subordination of perjury and the suppression of evidence."

The Chicago grand jury, which indicted him, he said, was "subjected to the same forces."

His statement, given to International News Service, follows:

"I welcome these indictments with a clear conscience because they will permit me to present my case before a fair court of justice and a jury of my peers.

"Throout the senate investigation I was not permitted to present the facts of the case. My destruction was sought by perjury, subordination of purjury and the suppression of documentary and other evidence which would have fully exonerated me. The federal grand jury at Chicago is well fit to excuse from indictment, Elias H Mortimer, a confessed criminal, who is the only witness against me.

"I am firm in the faith that these indictments will give me an opportunity to reveal before an impartial court, a fair jury and a just judge the well-engineered conspiracy against my honor and integrity. I shall interpose no technical objection to a trial thereunder these conditions but on the contrary shall go to Chicago voluntarily as the first step toward my complete vindication.

"I am not going to Florida; I am not going to stand on my constitutional rights and refuse to testify. While other men now charged publicly with crimes against the government have been reported hiding behind the screen of silence it is a matter of official record that I left a sick bed on the Pacific coast to cross the country in mid-winter to attend the senate investigation in the mistaken belief that it would be fair. I welcomed that investigation just as I now welcome the court proceedings in Chicago.

"There will be this difference tho: The constitution gives me the right to present my complete defense before the Chicago tribunal and I intend to exercise it to the limit.

"There was not one iota of truth in any evidence given the committee which reflected on my honor or integrity. Evidence taken before the committee late at night on November 7, 1923, tended to show that one of the committee's counsel (now an assistant director in the bureau at a salary of $7,200 a year) attempted to bribe a witness to commit perjury. Thereupon this testimony was suppressed by the committee.

"By most despicable and dishonorable means, witnesses were subjected to browbeating and unfair treatment.

"These same forces were at work on the grand jury which returned the indictments in Chicago.

"These indictments are as false as the lies of Mortimer, as vindictive as the villainous conduct of O'Ryan and Arnold, as cowardly as the so-called second preliminary report of the senate committee when

(Continued on Page 8)

Long Beach Woman Identifies Hypodermic Needle Attacker

LONG BEACH, March 1.—Alleged to be the "hypodermic needle" attacker who has been terrorizing women here for a week or more, L. E. Vaughn, 31, was arrested by the police today and positively identified by one of his alleged victims, according to the officers.

Shortly after Vaughn was taken to police headquarters, Mrs. F. E. Ashley was taken before him and identified him as the man who attempted to way lay her and force a hypodermic injection into her arm as she was walking down State St. last Tuesday night.

Other victims of attempted attacks, who reported to the police that they were approached by a man who attempted to inject a needle into their arms, were scheduled to appear at police headquarters today and try to identify the man.

FAVOR $200,000,000 GRAIN EXPORT ACT

WASHINGTON, March 1.—The McNary-Haugen bill creating a $200,000,000 agricultural export corporation was reported favorably to the senate this afternoon by the senate agricultural committee.

The bill would authorize the export corporation to purchase agricultural commodities during periods of farm depression for ultimate sale in foreign markets. The period of depression would be determined by presidential proclamation as an "emergency." Prices to be paid by the corporation to be based on a ratio price of $1.60 a bushel for wheat.

OIL INVESTORS' CASH GOES ASTRAY

Alleged financial operations of the Square Deal Oil syndicate had today been paraded in federal court, in testimony by George L. Armstrong, special bank examiner, who was summoned as a witness yesterday at the trial of Chris Nelson, Westminster, and Webster Bush, Long Beach, charged with using the mails to defraud.

That $365,000 had been collected from 6,000 persons in "it" lots covering something more than half of a thirty-here tract that cost but $39,000 originally, was Armstrong's testimony. He stated that although investors were told that the syndicate had $100,000 to its credit in the bank, not a dollar was ever deposited for the syndicate all the money being deposited in Nelson's name, and never more than $12,000 being on deposit at any time.

Of the $365,000 thus collected, according to Armstrong, $137,500 was paid in commissions, about $82,600 in drilling operations later abandoned, and $30,000 went to J. S. Genderon, Nelson's partner in the syndicate. George K. Nickerson, employed as "eminent geologist" for lecturing to prospective investors.

What became of the remaining $116,000, Armstrong did not know, he said.

J. E. Elliott, consulting geologist and investor of the Elliot rotary core barrel, testified that he had declined to make a favorable report on oil prospects for the tract. Literature circulated by the syndicate was "highly optimistic," however, he testified.

B. B. MAN VICTIM OF SCARLET FEVER

PASO ROBLES, Calif, March 1.—No quarantine had been declared today on the Pirate baseball squad in training here pending further observation of the case of Jewell Ena, who has been removed to the Atascadero hospital suffering from what physicians declared to be a mild attack of scarlet fever.

Close watch will be kept on the physical condition of the members of the squad. Manager W. B. McKetchie declared that all except Ena were in the best of shape and that workouts would proceed as usual.

MEXICAN BOY RUN OVER

A Mexican boy was run over and slightly injured late yesterday on North-st, by a Ford car owned by Tetsno Ohges, who is said to have been driving on the wrong side of the street. The boy was riding a "bike", which was damaged. He was not seriously hurt.

Claim Suspect Confesses to 11 Burglaries at Santa Ana

Wm. T. Best, alias Guy McDonald, 26, was reported by Santa Ana officials today to have confessed to 11 burglaries committed at the county-seat this week. Much of the alleged loot was recovered from a suit-case in Best's room. He recently came from Long Beach.

Best was arrested by Private Detective O. K. Carr last night on suspicion. The arrest was made in the north part of Santa Ana where the burglaries were reported. When Carr placed his hand on Best's shoulder, the latter attempted to draw a gun but was overpowered and handcuffed. None of the burglaries are said to have netted more than $200 in jewelry and clothing.

NEW JERSEY ROCKED BY EXPLOSION

100 Injured; 18 Men Who Were Repairing Roof Unaccounted for

METUCHEN, N. J., March 1.—Between 30 and 35 persons were killed or are missing and 100 injured in the explosion which destroyed the Nixon Nitration works here, it was announced by officials of the plant at 2 o'clock.

Eighteen men were doing repair work on the roof of the building when it blew up. None of them has been accounted for.

It was reported from another source that 75 persons were in the building when the explosion occurred.

No accurate figures could be obtained, however, so great was the confusion.

The terrific explosion rocked buildings for miles around.

It was impossible to get the exact number of the dead and injured.

One whole family, by the name of Duman, was reported to have been killed. They were father, mother ,two sons and a daughter.

At 2:30 investigators were informed the first explosion—there were two in sharp succession—probably occurred at the plant of the Ammonite Co., 200 feet from the nearest building of the Nixon Nitration Co.

There were 1,000,000 gallons of ammonia aftrate in drums standing in a yard behind the main building of the Ammonite Co. and belief was expressed that this ammonia nitrate caused the disaster.

Immediately following the explosion, the Nixon building burst into flames.

The flames quickly communicated to another large building close to the Nixon plant.

Then the flames spread to 25 small buildings used to house workmen and soon the place was a raging inferno.

The shock of the explosion was terrific. It lifted the Nixon building high into the air, brick and wood were hurled in all directions.

The earth fairly trembled, buildings for miles around vibrated and walls in homes in the region crumbled.

Hurryup calls for ambulances, surgeons and nurses were sent to nearby cities. Within a half hour ambulances were arriving here with doctors and nurses, who went into the ruins to take care of the dead and the dying.

The explosion was caused, it is believed, by T. N. T. (tri-nitro-toluene) one of the most powerful explosives known. It is used extensively in the U. S. army and navy and was utilized in the bombs that came into use in the war.

Work for caring for the injured and removing the bodies of the dead went forward rapidly. The demolished nitration works adjoins a large government arsenal.

Medical officers at the arsenal took charge of the rescue work.

Nurses arrived on the scene from nearby towns and aided the army doctors.

Trucks were brought to the devastated region to remove the injured and then the bodies of the dead.

Some of the bodies were taken to the reservation.

The fire departments for miles around meanwhile were pouring streams of water on the burning buildings.

The cause of the explosion was not known. It occurred without warning. There was a sudden enormous blast and the T. N. T. building, 800 feet long and made of brick, was hurled into the air and scattered in all directions for hundreds of yards.

A great sheet of yellowish flame emerged from the ruins of the building. Burning debris fell into nearby buildings that had been partly destroyed by the blast, and set fire to them.

Within a radius of a mile or two of the explosion there are no

(Continued on Page Eight)

KEEN STORE TRUSTEES HEARD WED.

The charge of obtaining money under false pretences, preferred by Bert Kuebler of Anaheim against Glenn B. Churchill and O. C. Hardebeck, trustees of the bankrupt Keen Hat Stores, will be given an airing on Wednesday before Justice G. B. Brown, the latter said today.

The docket of Justice J. B. Cox in Santa Ana is too crowded to permit his conducting the case.

The trustees obtained approximately $104,000 cash by selling suits in the concern and are believed to have appropriated much of the cash to their own uses.

BLAME AUTOIST AS WOMAN DIES

In the absence of an exact report of proceedings and evidence in the case of Mrs. Lydia Eff, San Diego woman who was fatally injured in an auto wreck near Buena Park, the district attorney's office was today undecided as to what action, if any, might be taken upon a coroner's jury verdict, which assigned blame to George Redmond.

At the inquest in Santa Ana late yesterday, the jury found Redmond guilty of negligent operation of his car, which collided with and caused the stage upon which Mrs. Eff was riding to be upset.

The possibility of criminal charges being filed against Redmond awaited perusal of the inquest proceedings by the district attorney's office, it was said.

"We have not yet received a report of the verdict and the evidence submitted," stated Chief Deputy Dist. Atty. C. N. Monroe today, "and until we do" it would be impossible to say what our course would be. I might say, however, that in such cases, unless there is shown to be a very clear case of gross negligence, it is useless to prosecute."

The jury in reaching its verdict, it was understood, considered photographs of the scene of the accident, tending to show that Redmond's car had slid 60 feet with locked wheels before the crash and that he had swung to the left-hand side of the highway.

EXPECT ACTION ON BONUS BILL SOON

WASHINGTON, March 1.—Quick action in the house on the soldiers bonus bill appeared likely today.

Announcement was made by the ways and means committee that public hearings will be held on Monday, Tuesday and Wednesday of next week on a compensation bill identical with that vetoed by President Harding and that upon completion of the hearings the bill will be laid before the house and placed upon passage.

USE EXTRA DAY FOR WEST SIDE CLUB MEETING

HOLDING a meeting in February "by the skin of the teeth" was the experience of the West End Country club in meeting yesterday with Mrs. F. H. Wessler, and was an event which they could not possibly duplicate in four years.

The conversation drifted along with the merry jests of leap year births, proposals, etc., while clicking needles kept industrious accompaniment. Mrs. Wessler had artfully used jonquils and freesias in floral decorations and for favors and luncheon motif. St. Patrick's symbols. Two guests enjoyed the club meeting, as well as one of the long-time members, Mrs. Bell, who now resides in Long Beach.

Almost two score neighbors and friends passed the afternoon together, they being the Mesdames Bell, C. E. Harbeson, Cornwell, George Baker, J. H. Ritchie, D. Baker, Gregg, H. G. Carlin, Wilcox, Douglass, E. D. Bell, R. Maas, George Maas, Day, Fishering, Keyes, Miss Marjorie Day, the hostess, Mrs. Wessler, and her sister, who was the guest of the club.

Party For Co-Worker

To compliment their co-worker, Glen Gossett, who leaves soon for Kansas, employes of the First National Bank gave a delightful party last evening. Yesterday being the last day of the month, the force worked until nine o'clock. They then went to the California Theatre where they saw the show.

The next treat was at the Cherry Blossom where a sumptuous meal was served. Evan Alsip acted as toastmaster. He called on Mr. Gossett, who said he regretted leaving his position. Covers were placed for twenty-seven.

Mr. Gossett will become associated with a bank in Kansas with his brother and leaves next week. The best wishes of his friends go with him.

Officers to Entertain

Mrs. Estelle Ludwig, district president, and Mrs. Orvilla Phillips, both of Santa Ana, will entertain the local W. R. C. as joint hostesses at 11.30 Tuesday morning in Odd Fellows hall.

It is hoped all members will be present and enjoy the pleasant and profitable time.

Enjoying First Visit Here

Mr. and Mrs. V. E. Segerstrom of Minneapolis, are guests of Mr. and Mrs. E. B. Segerstrom, 211 E. Wilhelmina-st. The gentlemen are brothers and are greatly enjoying their visit. The easterners plan to remain in Southern California for about two months and already are much in love with the country. The families enjoyed a big laugh when Mr. Segerstrom, the visitor, produced a pair of furlined mittens which he had thatfully (?) brought along to 'protect" his hands from the cold while driving about the country.

CELEBRATES 20TH BIRTHDAY WITH FAMILY DINNER

HAVING enjoyed eighty summers but only twenty birthdays was the paradox confronting Mrs. W. P. Durr, mother of Mrs. W. S. Huddle, yesterday, who was honored with a dinner party last evening. Mrs. Durr, whose former home was in Waurika, Okla., has been wintering in Anaheim with the Huddles and is so alive to its joys and weather comforts that she has decided to pass the remainder of her days here.

Having but twenty times had a birthday, of course only twenty candles were used on the lovely big cake. The dinner was served at 6:30, covers being placed for the honoree, Mrs. Durr, Mr. and Mrs. Lloyd McBride and Miss Loa Alice McBride, Los Angeles; Mr and Ms. Roland, daughters, Ianthe and Mineth, of Long Beach, and Mr. and Mrs. Huddle. Mrs. Roland is also a daughter of Mrs. Durr.

Mrs. Durr is hearty and spry as a miss of twenty should be. She makes shopping trips up town unescorted and is interested in all vital topics of the day. She is especially happy in her new environment in the Golden West, and is forming a large circle of friends as the days pass by.

Not the least of her birthday remembrances were the dozens of telegrams and messages of congratulations she received expressing the wish that she may live many more years, if not celebrating as many more birthday anniversaries as most people do

LEAP YEAR TWINS DIE

VANCOUVER, B. C., March 1.—There is sadness today at the Vancouver General hospital.

Yesterday there was gladness for through all the hospital corridors went the word that leap year twins had been born to Mr. and Mrs. Fred Seation.

But even today's bright sunshine does not cheer the medical staff and the nurses at the hospital for the twins are dead. One died yesterday afternoon and the other in the evening despite all the doctors could do.

W. H. Hammersmith left yesterday over the U. P. for his old home in Illinois. Mrs. Louis Foster also left yesterday over the U. P. for Denver, Colo.

"DE VERE" MAKES MYSTERY TRICKS CLEAR AS MUD

THE social given last evening by the Women's Union of Calvary Baptist church, was a great success and netted the ladies $45. The music was especially fine, and the entertainment by Richard "De Vere" Mawe, was delightfully mystifying.

Mr. Mawe is a sleight-of-hand performer of no mean ability, and "got by" with a series of tricks and manipulations equal to any professional. Then he clearly (?) explained them, but no one in the audience was located who could duplicate his mysteries successfully.

The committee in charge, the Mesdames M. E. Simons, M. H. Mayberry and Lewis Yale, was assisted by Mrs. H. J. Wilson and J. F. Jenkins.

In a short business meeting before the program it was voted to postpone the regular monthly meeting of the Union from March 6 to March 13, that the ladies might join the Fullerton First Baptist church in their annual day of prayer.

PRESIDENT A. S. T. TALKS ON THRIFT

The first few weeks of the present year have given indication that, barring unforseen eventualities, 1924 will witness the greatest volume of building in the history of the country. While construction expenditures last year ran well above five billion dollars, the gain over normal pre-war years, in point of actual new construction, was not as great as the comparative figures might suggest, owing to the increase in building costs during the last half decade.

From authoritative surveys, indications are that dwellings to be erected in this country not including apartments and apartment hotels, will total approximately $500,000,000.

From an economic standpoint the country needs more homes, but the deeper advantages of widespread home building lie in the encouragement thus given to thrift.

Money prudently saved is always a benefit to the person who makes the saving, but money saved through the processes of home ownership is doubly valuable.

Home ownership gives an anchorage for the family—a feeling of security and stability that can be gained in no other way.

This is the period of year when the encouragement of home ownership proves productive of the greatest good.

BUENA PARK

BUENA PARK, March 1. Spl.) Mrs. J. F. Simpson, Mrs. R. H. Meyer and Mrs. C. B. Snyder are spending a few days at Tejunga, where both Mrs. Simpson and Mrs. Meyer have mountain homes.

Mrs. A. V. McFee and Mr. E. M. McFee, mother and brother, respectively of Mrs. E. E. Thurman, who have been spending the winter here will leave next Tuesday for their home in Kentucky. This week they have been honor guests at several affairs.

Wednesday night the E. E. Thurmans celebrated their fortieth wedding anniversary with the following guests. Mrs. A. V. McFee, Mr. E. M. McFee, Mr. and Mrs. L. T. Wilsey, Frank Wilsey, Ruth Wilsey, Mr. and Mrs. E. W. Thurman, Friday night the same people were guests of Mrs. L. T. Wilsey. Friday afternoon, Mrs. E. E. Thurman and Mrs. McFee were dinner guests of Miss Anna Luebkman.

Thursday, Mr. and Mrs. L. T. Wilsey, Mrs. Thurman, Mrs. McFee and Mr. McFee motored to Los Angeles.

Mr. and Mrs. Lawrence Tilton motored to Ventura Wednesday.

T. J. Bacon is visiting Kansas friends at Long Beach.

The new seats for the grammar school auditorium have arrived and are being put in place.

Mrs. E. L. Coue, was hostess to the Woman's Missionary society, Thursday afternoon at the Community hall. Eleven members were present. At the close of the business meeting a short program was given. Mrs. Fred Bastady read articles on "The Children of Ellis Island" and "The Children of the By-ways". Mrs. J. W. Kibler gave a reading, Entertaining the Missionary Lady. Mrs. Bacon read, The Americanization of Hans. Dainty refreshments were served.

Mrs. J. B. Robinson spent Friday with her daughter, Mrs. C. A. Porter, who is sick at her home in Fullerton.

Mrs. James Calder, Mrs. Merrill Hunt, Mrs. Herbert Hunt attended the shower given for Miss Larue Reeves at the home of Mrs. Jack Fuquay at Cypress.

Mrs. C. W. Girvin and son Charles, were Fullerton shoppers Wednesday.

VETERAN TO TALK ON AMERICANISM

Sergeant Webber, a veteran of the Canadian and American armies, with nearly four years of active service in France to his credit, will give the members of Anaheim Post, American Legion, a real thrill next Tuesday night at the Legion clubroom in the city hall basement when he will talk on "Americanism."

His talk is straight from the shoulder and the sergeant does not mince words as he pleads for a strict adherence to American ideals and the American form of government.

Sergeant Webber started out four years ago with four other service men, to combat the "soap box orators" of the I. W. W. and the bolshevists. His three companions have been shot up by this same class of men and he alone of the quartet is still at work. He has lectured in every state in the Union and in all the large cities.

The few experiences that he will relate will prove that his days and nights have been filled with almost as much excitement during the past four years as they were in France. At his various open-air lectures he has invariably been subjected to retorts from some of the crowd, evidently of the "Red" variety, but his withering fire of sarcasm soon silences them to the delight of the real Americans.

Next Tuesday night will be "Dad's Night" at the Legion and all members are urged to bring dad with them and at the same time a cordial invitation is extended by the members of the post to the general public to be present and hear a real talk on "Americanism Versus Bolshevism."

RADIO TONIGHT

K. F. I.—Examiner

4:45 to 5:15. The Evening Herald.

5:15 to 5:45. The Examiner.

Prudence Penny will talk on "The Art of Cooking."

6:45 to 7:30 p. m. Anthony.

Program through the courtesy of the Juvenile Auxiliary of the Glendale Music Club.

8 to 9 p. m. Anthony.

Concert presented by the Bertha Vaughn Studio.

9 to 10 p. m. The Examiner.

Program presented by Lester's Radio Shop.

Colin B. Kennedy, radio manufacturer, will talk on radio of the present and future.

10 to 11 p. m. Anthony.

The Packard Radio Club, a popular concert.

11 to 12 p. m. Ambassador Hotel.

Abe Lyman's Cocoanut Grove Orchestra.

K. H. J.—The Times

6:40 p. m. Live stock and vegetable reports.

6:45 to 7:30 p. m. Children's program.

8 to 10 p. m. Program presented by Southern California Saxophone Band.

10 p. m. Program presenting J. Chandler Smith and Rudy Seiger.

K. G. O.—Gen. Elec.

7:00 p. m. musical progam.

8:00 p. m. Address by Frederick O'Brien, author and lecturer, "Islands of the South Sea."

GIRLS DO HONORS OF LEAP YEAR TO MEN OF CROWD

TAKING advantage of the final day on which the girls may, in all convention, propose to the man of their choice, the girls of Mrs. W. J. Morgan's Sunday school class, the Willing Workers, held a party at the home of Martha Daugherty, after the business meeting last night. What is more, a prize was awarded to the girl who received the most acceptances, and now she is at sea to know how to fill the obligations to all, yet avoid becoming a bigamist. The winner of all these hearts was Miss Joyce Jordon, who received an engagement ring (it was whispered, from the nickle and dime store) and the one making least progress was Miss Faye Ballou. She was presented with a rat trap to assist her in catching and holding the elusive man in the future.

Other games and amusements formed a jolly program. It was also decided to divide the class into two contesting sections, captained by the Misses Frances Picklesimer and Christine Cook, to enter an attendance-membership good-lessons contest, beginning Sunday.

A luncheon of sandwiches, salads, sweets and punch was served after games. Participating in the event were the teacher, Mrs. Morgan, the Misses Jennie Clark, Joyce Jordon, Lucy Belle Morgan, Helen Jordon, Mildred Dickenson, Ada Hampton, Mabel McGuire, Christine Cook, Frances Picklesimer, Faye Ballou and Daugherty, and the Messrs. Tom McGuire, Victor Rees, Coy Barker, Otto Lenz, Clarence Woodbury, Fred Boltz, Harold, John and Rudolph Daugherty. The gentlemen were escorted to and from the party by their fair ladies.

Delphian Group Meetings

The Delphian study groups will meet the coming week as follows: Alpha and Delta with Mrs. E. E. Knipe, with Mrs. Gus Prescott, leader.

Beta, as usual, will meet with Mrs. J. S. Sheridan Thursday, March 6, at the usual hour. Mrs. Sheridan will be leader.

Amaranth Regular

The regular meeting of Liberty court, Order of the Amaranth, will be held in Anaheim Masonic hall, as usual Tuesday evening. Mrs. L. L. Tanner, royal matron, presiding.

Notorious Moulin Rouge Is Background for New Drama

Woman to Woman
SELZNICH DISTRIBUTING CORPORATION

When someone says "The Moulin Rouge" your thoughts revert instantly to the gay and scintillating Parisian cafe, which is dear to all those who would leave dull care behind. It does not seem possible that a lily could bloom in the exotic atmosphere of this restaurant, but Graham Cutt's soul-stirring photodrama, "Woman to Woman," proves that inate purity will thrive regardless of its environment.

The stellar role in this powerful production is taken by Betty Compson, who proves once more that she is as capable an actress as she is beautiful as a woman. As Deloryse, the exquisite flower-like little French dancer, she exudes a freshness and childlike charm which is untouched by her sordid surroundings. Then love, enchanting and devastating, wings its way into her life. On the eve of their marriage, her fiance (played by Clive Brook) is unexpectedly called away. A blow on his head robs him of his memory and he cannot return to the faithful little girl who has sacrificed all for him.

Later fate brings them together and while the man's heart is wrung with the wrong he has unwittingly done Deloryse by marrying another woman, Deloryse's one thought is to protect the future of their son—that she herself may be sacrificed to accomplish this end does not weigh with her for one brief instant.

The solving of this vital problem imparts a rare lustre to a photoplay which has no dull moments in it.

Clive Brook is a leading man such as is seldom seen on screen or stage. He is not only handsome and a clever Thespian, but intensely masculine. His interpretation of his difficult role is masterly, and pressages an increasingly brilliant career.

The entire production is appropriately and lavishly staged. The scenes in "The Moulin Rouge" are especially magnificent. In fact, it does not require much imagination to forsee a widespread and continued popularity of "Woman to Woman."

"Woman to Woman" will be shown at the United theatre for three days only, Sunday, Monday and Tuesday, and it really and truly is a photoplay that no motion picture devotee can afford to miss.

On the same program will also be shown one of the latest Century comedies, "The Young Tenderfoot," featuring Buddy Messinger.

When Reserves Count

We are having an unusually dry winter and people are asking, "How will this affect the Edison Company?"

It is true that the supply of water for our mountain plants is below normal but by careful operation there will be no trouble. STEAM RESERVES are being used to make up the difference. Every reasonable demand for power is being supplied.

FINANCIAL RESERVES, built up during more favorable years, place the Company in a most enviable position. The 56th consecutive dividend has just been paid.

EDISON IS STRONGER THAN EVER

Now is a good time to invest some of your earnings in this tested security.

MARKED IMPROVEMENT IN SALES OF FEBRUARY OVER JANUARY

PREPARE TO PAVE WEST CHAPMAN

Culverts Being Put in; County Park Roads All Oiled

Preparations to pave West Chapman avenue (Hospital road) from the state highway to the Garden Grove road (Euclid avenue) started yesterday, when Basick Bros. commenced putting in the culverts. The road already has a good gravel base, and the job will be pushed as rapidly as possible.

Drivers who motor to Orange County Park won't have to breathe dust instead of air any longer. All of the roads in the park have been oiled and spread with crushed stone, J. L. McBride county superintendent of highways, reports.

The same contractors finished this week pouring the concrete on the Orange-Olive road, which will be surfaced with concrete. The work will be finished by March 31.

The Griffiths Co. will start next week laying five-inch asphalt on Hiatt street, LaHabra, from the Pacific Electric depot south.

Contractor Beals will begin about March 15 grading and paving the link of the Coast highway between Huntington and Newport beaches. Six-inch concrete will be laid for three miles, from the Huntington Beach to the Newport Beach boulevard and the other five miles to Corona Del Mar graded.

The board of supervisors this week let the contract for the bridge across the Santa Ana river on the State highway to the McKay Engineering Co. of Los Angeles. The job amounts to $65,000. The bridge will adjoin that of the Pacific Electric.

OAKLAND A DAY SOLD

Three Oaklands were sold by Harry L. Turton in the first three days of this week—a touring with glass closure to P. A. Brunk of Fullerton, a sport touring to Benjamin A. Smith of Olinda and a touring with glass closure to Harry Kuehl of Garden Grove. Rev. Loren Howe of Los Angeles, former pastor of the First Christian church here, purchased a fully equipped touring.

O. C. A. T. A. Leap Year Party Here

The next get-together of the Orange County Auto Trade Ass'n. will be a Leap Year party, to be held at the Elks' club on March 6. The meeting will be the principal social event of the organization this year, and a program of speaking, dancing and entertainment will be put on.

An unusually large crowd is expected out.

157,000 FORD WORKERS IN U. S.

Employment in the Ford Motor Co. organization is now at the highest point in the company's history and reflects in a general way the prosperous condition existing in the country as well as in the automobile industry.

There are approximately 157,000 workers employed in Ford industries in the United States, according to recent figures. Of these, more than 24,000 work in branch assembly plants.

The largest number employed in any single manufacturing unit, is, of course, at the Highland Park plant at Detroit, where 68,500 men are at work.

The biggest increase in the number employed at any one place during the last year was made at River Rouge plant of the company. A year ago, 28,000 men were employed there, while today there are nearly 42,000 workers on the payroll.

Other manufacturing units, including the Lincoln car plant at Detroit, and the plants at Kearney, N. J., Hamilton, Ohio, Green Island, N. Y., Glassmere, Pa., and Poughkeepsie, N. Y., employ close to 11,000 men.

Smaller plants around Detroit give employment to more than 800, while at the present time there are over 400 men at work on the company's timber and iron ore properties in the upper peninsula of Michigan.

Ford coal mines in Kentucky and West Virginia are giving employment to more than 3500 men and the Detroit, Toledo and Ironton, the Ford railroad, employs in excess of 2500 men.

There are in addition to all these some 700 employes in the Henry Ford hospital at Detroit, more than 700 in the Henry Ford trade school at Highland Park and more than 11,000 employes in the foreign branches of the company.

7-DAY SCHEDULE FOR FORD

At midnight last night the Ford Motor Co. went on seven-day production basis for the first time in a year. The 10,000 car per day mark is expected to be reached soon.

RECEIPTS OF MARSH JUMP

Up 27 Per Cent in 1923 Over 1922; Total $10,600,000

SACRAMENTO, March 1.—An increase of 27 per cent in volume of receipts over 1922 and a decrease of 10.9 per cent in the cost of doing business were outstanding features of a financial report covering receipts and expenditures for 1923, issued by the California Division of Motor Vehicles.

Total fees collected by the division during the year amounted to $10,608,655.59, the report said. This was given as an increase of $2,231,126.24 over 1922 when the total income of the division was $8,377,529.35. All money thus collected is apportioned to the state and county highways for their upkeep, after departmental expenses are deducted.

Expenditures for 1923 were given at $821,426.77 or 7.9 per cent of the total income. The report added that a reduction of 10.9 per cent in the overhead charges had been thus effected as total expenditures for 1922 amounted to 8.9 of the total income for that year. Savings made in this manner will be used to "augment much needed highway repair funds," the report said.

The division began registering automobiles in 1924 two weeks earlier than usual which was responsible for heavy increases in expenses for the month of January, the report said. Actual cash reductions, it stated, had been made in all departments up to December 31, but the heavy business in January disturbed the previous showing made. The report added that in spite of the increased business a cut of approximately $70,000 had been made in expenditures for property and equipment.

The division registered approximately 1,114,000 motor vehicles during 1923 and about 6000 trailers.

We shall probably never be able to estimate the amount of permanent damage attributed to the more violent of our modern games.

Four-Man Match At Ascot Sunday

A "Quadrangular Championship Match" between Sig Haugdahl, world's speed king; Leon Duray, noted French speed ace; Fred Horey, 1923 national dirt track champion, and Fred Lecklider, famous eastern pilot and a great Ascot favorite, will be the feature of next Sunday's Ascot program, instead of a match between Sig Haugdahl and Ralph DePalma.

The card will contain nine events.

THOUSANDS STILL NOT REGISTERED

SACRAMENTO, March 1.—Warning that the 1924 automobile registration period ended March 1 and that all car owners failing to register before that time would be subject to payment of a fee double the original amount, was issued today by the California Division of Motor Vehicles.

There are still thousands of motorists in the state who have failed to register, division officials stated and there is no advantage in waiting until the last minute as the fee is just the same.

Applications presented at Sacramento or any branch office of the division in person or mailed to Sacramento will be honored up to midnight of Saturday, March 1, it was stated. After that payment of a penalty equal to the amount of the fee will re required, exception being made only when the applicant presents an affidavit that his car has not been operated on any public highway since January 31, 1924.

All that is necessary to register a private passenger car or motorcycle is to send $3 and the old registration certificate to Sacramento or present them at Sacramento or any branch office.

To register a car used for the transportation of property or carrying passengers for hire a certificate showing the unladen weight of the vehicle equipped for service is necessary, in addition to the old registration certificate and in addition to the registration fee of $3 a fee based on the weight is required.

Semi-trailers weighing more than 500 pounds are subject to the weight fee; if less, payment of $3 only is required.

Traffic officers have been instructed to tag all cars now operating on the public highways with old plates. Drivers of such cars are subject to arrest unless they can prove they have made application for new plates.

Arrests Grow As Speed Trap Resumed

The speed trap, never entirely abandoned in the county, was given a legal status this week as a means of apprehending speeders when Superior Judge F. C. Drumm at Santa Ana, held that the clause forbidding it was unconstitutional. The judge declared that the clause was special legislation, that it was not covered in the title to the act and that it was an invasion of the rights of the defendant himself in that he should have an equal right to the use of speed trap evidence with the authorities.

AUTO USERS MULTIPLY ON COAST

Slope States Average One Car to Each 5 People

Registration figures for 1923 show the seven states of the Pacific coast region to be the greatest users of automobiles in the United States.

A conservative statement would be that one in every five persons in this far western district is a motor vehicle owner. As a matter of fact, on the basis of the 1920 census figures, the proportion is 1 to 3.8. It is only fair, however, to add a 30 per cent population increase for the three years since 19220, which would make the ratio to one car to 5.1 inhabitants, says a Los Angeles authority.

Incidentally, these seven Pacific coast states, whose population is only 6 per cent of that of the entire country, registered last year 11.5 per cent of all the motor vehicles in use in the United States. The motor vehicle registrations in the United States for 1923 follow. The California figures are those of Will H. Marsh, head of the state's bureau. The others are those of B. F. Goodrich Co., which, incidentally, are also those given out by the American Automobile Ass'n:

	1923 Registrations	Gain Over 1922
Arizona	48,302	25.0
California	1,107,867	31.4
Idaho	62,039	15.9
Nevada	15,700	24.1
Oregon	161,322	23.3
Utah	66,000	34.2
Washington	262,180	7.8
Totals	1,727,893	25.6

There has been an unbroken succession of gains every year from 120,454 registered in 1912 to 1,727,803 in 1922. It is to be noted that the annual increase continued in the face of varied yusiness conditions in the other states of the Union, thus proving the Pacific coast a steadily growing market each year for motor vehicles, in other words, always a "white spot" on America's automobile map. Its gain in registrations last year was 25.6 per cent as compared with an increase of 251,751 in 1922 over 1921, or 22.4 per cent.

California ranks second only to New York and at that is only 106,823 behind the Empire State though the latter's much larger registration of motor trucks, California being far ahead of New York in the use of passenger cars. California's gain over 1922 was 264,607, or 31.4 per cent.s compared with a 22.4 increase in 1922 over 1921.

Indications from the first returns of California's gasoline tax are that motorists under the new law will contribute a million dol-

(Continued on Page Two)

4 MILLIONS LOSS FROM ACCIDENTS

L. A. Deaths in 1923 Number 219, Says A. C. S. C.

The economic loss from motor vehicle accidents in the city of Los Angeles during 1923 was nearly $4,000,000, according to figures compiled by the public safety department of the Auto Club of So. Calif. This estimate is based on the tables of the National Safety Council, which fixes the average economic value of males each year at from $350 to $750 and females from $150 to $300.

Motor vehicles were responsible for 42 per cent of the 486 accidental fatalities and 10 per cent of the 60,756 non-fatal but more or less disabling injuries.

The economic loss from total fatalities was $5,421,100. The auto's part in this loss was $2,312,073 with 219 deaths.

The total economic loss from all non-fatal accidents was $16,263,200, of which 10 per cent is consideration the automobiles smashed, machinery broken, doctors' bills, medicines and a myriad of other expenses brought on by accidents. Neither is the human suffering entailed taken into account.

In an effort to reduce this ghastly annual toll, the automobile club is carrying its safety work into the public schools and among the Campfire Girls and Boy Scouts.

EXPEDITION IN ASIA USED DODGE

While science toys with the 25 dinosaur eggs brought back from the interior of Mongolia by the Third Asiatic Expedition, and wonders about their relationship to the dinosaur skeletons now and then unearthed in America, industrial leaders are giving deep and serious thought to the commercial phase of the expedition's many remarkable discoveries.

Numerous important mineral deposits were found, according to Roy Chapman Andrews, leader of the expedition, and it is only a matter of time until modern transportation makes it accessible. The plains are also inhabited by millions of fur bearing animals, and fur traders are already hot on the trail followed by the Andrews party in its search for fossils.

Mr. Andrews demonstrated that it was not necessary to rely on the plodding camel in order to penetrate the rich interior. His three Dodge Brothers motor cars did what the fur traders and others interested in the commercial development of Mongolia had considered impossible. The fur traders promptly bought up his three Dodge Brothers cars, proved to their satisfaction that it was in the car to do it—and not just luck—and are now operating fleets of the same sturdy American car in pursuit of the fortunes that roam aimlessly on the plains. Trips that formerly required months are now made in days. There are no roads, but that seems to make little difference when one is using a Dodge Brothers car.

Thus the fur trade already has been given a definite impetus by the Andrews expedition's revelations. Information regarding the geological discoveries, such as mineral deposits, was turned over to the Mongolian government. How soon active development, of these resources will begin, depends largely on the condition of state affairs and the interest of outside capital.

OAKLAND UNHURT BY MONK

Even a monkey can monkey around the Oakland's paint without doing any harm, says Harry L. Turton, Northern Orange co. distributor. The Golden Bros' animal, which escaped recently, hopped from one car to the other in the garage, without scratching up the enamel a bit.

43 CHEVS SOLD

Forty-three cars were sold by the Frank P. Taggart Co. during February, not counting sales on Thursday.

Closed and open models are in about equal demand, the firm reports.

OPINIONS DIVIDED ON BALLOON TIRES

The balloon tire craze is on.

What did it?

Lack of smooth, paved roads, of which even California has a few in the mountains.

But they are still a luxury, local tire men point out, who declared he would purchase them only on orders. The tubes, for example, cost many times as much as the ordinary tube, and in the casing strength appears to be sacrificed to flexibility. Repairs will be doubled or tripled if this tire comes into general use, one dealer declared.

Another point is that four or five must be purchased, this man asserted—balloon tires don't mix with others.

Altogether, opinion here appears to be divided, as to the merits of the tire, altho it is generally agreed that the loss by the use of it as compared with the ordinary tire will be made up, in large part at least, by saving in repair bills on the car.

SLUMP OVER, DEALERS REPORT

Small Low Priced Cars Sell Fastest In Past Month

The sales slump is rapidly vanishing.

Reports of business during February show a marked improvement over January in most cases.

As usual, the dealers in the cheaper cars fared best. Sid McGrew, for example, reported that he had sold 50 per cent more new vehicles during the month than in January. The Appleby Motor Co. sold approximately 25 Star cars and two or three Durants. The Frank P. Taggart Co. sold nearly 50 new cars. West Bros.' Gray car showed increasing popularity.

Harry D. Riley reported selling close to twice as many cars in the month, and used car sales averaged better than a car per day.

C. P. Hamm, manager of the Anaheim and Fullerton Certified Motor Car Markets, reported continued brisk demand for good reconditioned cars.

The Motor Sales Co. Buick distributors, declared January sales were a good dead better than had been anticipated.

February showed an appreciable improvement, Charley Mann, Dodge distributor declared.

Sales of Reo and Packard cars were "quite a little better" in February than in January, Dale and Co. reported.

Other dealers spoke in about the same vein.

Wouldn't you like to own a car with a beautiful and enduring automobile finish—not a delicate "piano finish"?

* * *

The special, permanent, Duco finish on the True Blue Oakland Six is striking in appearance and practically indestructible.

DODGE BROTHERS

TYPE-B SEDAN

A woman will usually admire one thing about a car and a man another, but there is one feature of the new Type-B Sedan which both admire equally and emphatically—its exceptional driving ease.

This is due to a combination of several important improvements—a roomier front compartment; a readier clutch response; a new steering wheel that offers a trim, firm grip; and control levers that are ideally accessible, yet conveniently out of the way of robes and luggage.

SPRING SHORTAGE WORSE THAN EVER

With spring now close at hand, automobile dealers handling cars of standard make are facing a demand that from every indication will eclipse any previous shortage in the history of the automobile industry.

"Practically every spring finds the automobile dealer body unable to meet the demand for immediate delivery," said E. H. McCarty, general sales manager of the Nash Motors Co. "The Nash retail selling organization, at this time, is carrying on its books more unfilled retail orders for spring delivery than at any time since this company was established.

"At the beginning of the year, Mr. Nash expressed the belief that good business generally would prevail throughout the first half of the year with favorable indications for the latter half also.

"This conviction is being borne out by reports on many great industries aside from automobile manufacturing. Unfilled orders on the books of the Steel Corporation as of January 31 show an increase of 353,090 tons, the piano manufacturing industry is experiencing one of the heaviest demands in history, the hide and leather market is emerging from a lengthy period of liquidation. Shoe manufacturers are busy and a tabulation of building permits issued in a group of 262 major cities shows the largest January volume known.

"Sales of Nash cars at automobiles shows held so far this season throughout the country are heavier by a wide margin than ever before in the history of the company. Reports received by the factory from distributors and dealers at points where shows have been held show in some instances of 200 and 300 per cent in show sales."

Russian caviar is again to grace America's board, for a revival of the manufacture and export of this delicacy, which during the war and Russian revolution suffered practically complete collapse, is to be undertaken. French agreements with the soviet government enable that country to prepare caviar on the Volga and to export the product.

BALLOON TIRES PUT ON DISPLAY

The balloon tire is here, and you don't need different rims for them.

S. R. Walter, exclusive distributor of the General and Kelly-Springfield tires, is displaying several sizes of the new comfort-bringing casing in the General.

For years the company made what it called the Jumbo cord in the 30 by 3½ size, for which a pressure of 30 pounds was recommended, or half the usual amount. Now this tire with certain changes is being offered still.

Even admitting that the balloon tire is an experiment, say Walter's men, admitting that it may possibly not be as durable as the old type of tire—and this isn't true of the General at least—the saving in the car by reason of less vibration more than makes up for the loss on the tire.

OAKLAND OFFICIAL SCORES AUTO TAX

Every man who owns a motor car and every man in the auto trade should protest for the repeal of the discriminatory tax on automotive products.

W. R. Tracy, assistant sales-manager of the Oakland Motor Car Co., thus urges a real fight by the 15,000,000 owners who have been ignored in the tentative schedule of the house ways and means committee which proposes to do away with the special war-time levies on bowling alleys and billiard tables; all sorts of amusement tickets up to 50 cents, jewelry and other items while motor cars, trucks and accessories are considered luxuries.

"Tentative agreements were passed by the committee reducing various excise taxes to a total aggregate of more than $103,000,000," explains Mr. Tracy, "yet approximately $57,000,000 of these reductions will be the taxes on entertainment, candy, jewelry and sports, all of which have been classified as essentials, while automobiles, trucks and accessories remain classified as luxuries.

"While it is commendable to reduces taxes on all the items included, it is highly unfair to give relief to many items and completely ignore the 5 per cent tax on motor cars, the 3 per cent tax on trucks and the 5 per cent on parts and accessories. Aggregating nearly $150,000,000 a year. It is easy to collect for the government but highly unfair to transportation.

"The government should not lose sight of the fact that motor car users frequently pay 4 to 10 federal, state and municipal taxes."

BRINGING UP FATHER

Of all the family, father is apt to be the most careless of a cough or cold, and it is the duty of mother or the girls to see that he takes FOLEY'S HONEY AND TAR COMPOUND at the first sign of a cough, cold or hoarseness. After he once tries it, finds out how effective and pleasant it is to take, he will not hesitate to use it always. Contains no opiates. Safe and sure. Has served three generations. Heying's Pharmacy. —Adv.

PHOENIX TO SAN DIEGO IN 15 HOURS

ROAD RECORD OF SO. AFRICA BROKEN

Old-timers of the Boer trek wagon trails thronged around a mud-daubed automobile, when it drew up at the curb on a main thoroughfare in Johannesburg, South Africa.

The machine, a Studebaker light six touring car, had just written a new page in the colorful history of the Union of South Africa. Without a pause in the motor's steady throb, it had set four records in retraveling the old settler routes, completely circling the Union, in less than 100 hours—a perilous trip that once took weeks for the bullock carts.

Not only did the Studebaker establish a new round-trip record around the Union, but it also shattered three other records between points along the course. Notable among these was the new running time of 35 hours and 57 minutes between this city and Cape Town. This was a distance of 996 miles.

A standard stock model was driven out of Johannesburg by H. F. Payne, Fred Scantlebury, L. O. Bright and W. B. du Preez. They drove over mountainous roads thick with mud to Cape Town, then through Port Elizabeth, East London, Kokstad, Durban and return. The car made a 2687-mile circle.

Running time from the start here and return was 99 hours, 46 minutes. Gasoline consumption averaged 21.5 miles per Imperial gallon. The gasoline mileage was unusually high, motorists agreed today, considering that an average speed of 26.75 miles an hour was maintained along roads broken by frequent streams, which compelled fording.

JORDAN NOW HAS 4-WHEEL BRAKES

And now the Jordan has those four-wheel brakes.

The J. E. Walter Co., local distributors, has several Jordans equipped with this new hydraulic device on the floor, and patrons can view them up to 9 o'clock tonight.

Here are the advantages of this brake, says the local concern:

Not a single part of the Jordan four wheel brake system requires lubrication.

There is nothing that can rattle, squeak or make a noise of any kind.

There are no cotter pins or clevis pins to drop out.

There is positively no interference with steering.

Possible accidents to the axles will in no way affect the brakes.

Adjustment of the brake bands is more simple than in any other system.

Skidding on slippery pavements is reduced to a minimum never before thought possible.

Rapid acceleration is now safely balanced by this simple device for rapid deceleration.

A glance at a Jordan chassis equipped with this system will impress you with its simplicity over any system requiring rods, equalizers and cables.

AUTOMOBILE USERS MULTIPLY ON COAST

(Continued From Page One)

lars a month to the Golden State's revenues.

Receipts for the last quarter of 1923 were $2,991,854.26. On this basis the state is consuming 598,370,852 gallons of gasoline a year, which at a price of 17 cents, tax included, costs motorists close to $36,000,000 yearly. This means on an average consumption of 540 gallons by each car in a year at an annual cost of $91.80 to its owner.

READ THE CLASSIFIED PAGE

Some people's idea of touring speeds seems to be a little different from the average, judging from the time it took Charles L. Tunity was foo fine to let pass un-Diego.

Leaving Phoenix at 5 o'clock one morning last week, he and his friend, Harry Looke, drove to San Diego at an average of 24½ miles an hour, through sand and mud, and over mountains. The total distance of 394 miles was covered in 16 hours actual time, counting all stops for lunch, supper and gasoline.

Just outside of Yuma, they had a puncture which consumed several minutes. They also had a hearty lunch in that city. According to Goldtrap, they had no idea of making a record. The car seemed to be working so perfectly that they "just let 'er go."

To quote from Mr. Goldtrap's letter to H. R. Grove, local dealer for the Essex: "We really were in no particular hurry. The trip was interesting from start to finish and we thoroughly enjoyed it, just traveling at touring speed.

"Outside of about 100 miles of bad going, we were able to hit a fairly fast clip. It was not so much the speed we made as it was the consistency that got us over the ground in quick time.

"The new Essex is a revelation in ease of handling. I have driven racing cars of all makes, in fact, the record I set in 1912 between San Diego and Phoenix still stands, but I have never encountered a car that could equal this one in responsiveness.

"The Mountain Springs grade cut of Imperial Valley is remarkably quite steep, but you will get an idea of the power of the new six when I tell you that we were never out of high gear at any time from the Valley, until we got to San Diego.

"We averaged 21 miles to the gallon of gasoline and outside of one tire change, we didn't have to stop once on account of the car. The hood was never lifted from time to time we left home until we drove into your distributor's garage, except to feed oil to the engine."

NO PENALTY IF PLATE APPLIED FOR

Paste this in your hat.

If you apply for your license plates today or have applied and can prove it, nothing can be done to you.

If you haven't you'll have to pay $6 instead of $3 for your license plates and double the weight fee, if you have a commercial vehicle.

The Auto Club of So. Calif. has distributed practically all of the 2000 plates it received. They comprised all the 551,000s and the 666,000s.

There's ice upon the water trough,
The wind of winter blows;
They naught but bluff
Who write that stuff
About the winter snows.

GOOD CASING IS COMPLEX ARTICLE

"How to combine the greatest possible resiliency with the greatest possible strength," that, according to the Para-Bell Tire Co., "is the problem of every manufacturer of high-grade tires." It is the problem which the makers of the Para-Bell believe they have solved most successfully, says Roy Mendoza of the Reliable Tire Co., local distributors.

"But," the company adds, "the maximum of both strength and resiliency cannot be secured, because one must be sacrificed to the other.

"In addition to the constant outward force exerted by the compressed air within the tires, there is the great weight of the car and its occupants; the pounding impact of every pebble or other inequality in the road; the transverse strains in rounding curves; the lateral scraping against curves and car tracks; the terrific strain when the breaks are suddenly set and the wheels locked—and, greatest of all, the great heat generated within the tire by the continual stretching and bending of its every part."

Unconquerable Grades Conquered

Willys-Overland dealers throughout the Pacific coast region celebrated "Overland Power Week" by staging no end of local hill-climbing stunts to demonstrate the ability of the new and larger engines that have been added to the present Overland models to carry heavy loads of passengers up the steepest grades.

When the reports of the results of these neighborhood tests reach the factory at Toledo they will no doubt add many remarkable accomplishments to Overland's already noteworthy hill climbing achievements.

Possibly no more spectacular feat of this sort has ever been staged than that of the Overland-Arizona Co., Phoenix, Ariz., in its conquest of Motorcycle Hill, which has since been renamed Overland Peak, says W. R. Schanhals, local distributor of Overland and Willys-Knights cars.

Motorcycle Hill, lying on the northerly nose of old Camelback Mountain, has long been regarded as insurmountable by motor car. It is a 42 per-cent grade and approximately a thousand feet long. There is scarcely any road and the course lies over jagged rocks that cut tires to ribbons; over it also are soft areas of fine loose rock and granite that attempt to strangle the motor that dares brave them.

Such is the hill over which a new Overland pulled seven people, weighing 1100 pounds, stopping in the middle of the hill, where all momentum was lost, then proceeding without undue effort and finished with such ease that it went over the top in second gear.

The accomplishment of this feat has since been the talk of Arizona.

STUDEBAKER SALES

New Studebaker cars sold the past week by Harry D. Riley, Northern Orange co. distributor, include a light six touring to John Bastian of Anaheim, special six roadster to Ralph L. Clark of Fullerton, light six roadster to A. J. Jessen of Yorba Linda and light six coupe to Peter Palm of Anaheim.

Others who have purchased cars are M. C. Heiser of Anaheim, H. J. Osborne of Fullerton, C. P. Hammond of Fullerton, Orcath Crew of Anaheim, Lovreau & Co. of Long Beach, Thomas Boats of La Habra, Earl McCall of Orange and Fred Van Hase of Anaheim.

Another Reason Why—

Buick Body Construction

In constructing its open car bodies, Buick uses bolts in fastening the metal braces to the wood, instead of ordinary screws. These bolts passing completely through the wooden frame prevent joints from loosening under driving strains. A more than usual number of bolts secure the Buick body to the chassis, holding it rigidly in position and entirely eliminating all squeaks and rattles.

When better automobiles are built Buick will build them

LADIES AND GENTLEMEN

Prospective Automobile Buyers:

You'd be surprised to know how often the statement is made to me, "Gee Mr. Riley, I wish I'd bought a Studebaker when I bought this car. The dealer who handles cars like mine carries no parts, has no real service department, and doesn't seem to care whether my car runs or not. When I have an accident and need some parts, I have to lay my car up until the dealer sends to Los Angeles, or San Francisco, or perhaps the factory for the parts before my car can be repaired. Never! Never! Again."

Buy a Studebaker!

Our stock of parts is nearly complete. We specialize on Studebaker repairs.

Why experiment and take chances? You're sure of getting as good cars, and reasonable, courteous, and prompt service if you buy a Studebaker.

A car to suit every need and all Sixes

HARRY D. RILEY

STUDEBAKER DEALER

"A SAFE PLACE TO BUY A USED CAR"

What is the Value of the Railroads?

400,000 Miles of Track at only $25,000 a Mile	$10,000,000,000
The Department of Agriculture estimates that the average cost of a mile of improved highway today, is about $36,000.	
60,000 Locomotives at only $20,000 each	1,380,000,000
Locomotives cost an average of about $60,000.	
2,400,000 Freight Cars at only $1,000 each	2,400,000,000
The average cost of a freight car today is about $2,500.	
57,000 Passenger-Train Cars at only $10,000 each	570,000,000
All steel passenger-train cars now cost from $30,000 to $25,000 each.	
Material and Supplies	500,000,000
Railroads have to keep on hand millions of tons of coal, railties, spikes, and all other material required in maintenance and operation.	
Working Capital	500,000,000
50,000 Stations and Terminals, Yards, Signals, Roundhouses, Shops, Machinery, Water Supply, Power Plants, Elevators, Docks, Coal Pits, and all other items pertaining administration in over 3,000 cities and towns. Stations and terminal facilities cost over a million dollars apiece.	7,000,000,000
Locomotives and machinery employed in the repair of equipment constitute an enormous industry in themselves, employing nearly 400,000 men.	
The above property is believed to be worth fully $10,000,000,000, and could not be duplicated anywhere near that amount today.	
This Totals	$22,350,000,000
And a valuation recognizing all the elements of value assured to the ordinary property-owner would be far in excess of this amount.	

The tentative minimum valuation of the railroads at the end of 1919 was found by the Interstate Commerce Commission to be $18,900,000,000. This valuation was based mainly on cost of labor, materials, equipment, etc., on June 30, 1914. The subsequent investment from January 1, 1920, to December 31, 1923, brings the Interstate Commerce Commission valuation for rate-making purposes as of December 31, 1923, up to about $21,200,000,000.

Each reader can judge for himself the fairness of the contention that the Interstate Commerce Commission valuation should be reduced by from $7,000,000,00 to $10,000,000,000. Such a confiscation of values would in effect be a denial to the railroads of their chief means of keeping pace with the development of the country.

Fair recognition of railroad property values is essential for adequate earning power and credit for further expansion.

C. R. GRAY,
President.

Omaha, Nebraska
March 1, 1924.

UNION PACIFIC SYSTEM

KENNEDY RADIO EASY TO OPERATE

Kennedy radio sets are becoming more popular every day, according to the increasing number of installations being made throughout the country.

This growing popularity is not based on the satisfaction of any one owner, but the increasing thousands of satisfied owners.

The popular radio set of today is not one that meets approval of a few, but one that is popular with the majority of radio fans. There are certain features which must be embodied in radio equipment to meet the approval of the general public. They are: Simplicity of design and manipulation, economical to maintain, efficiently balanced and popularly priced.

Having these distinctive features is the reason for Kennedy's widespread popularity and is why Kennedy quality is becoming better known every day, says A. Bevillard, local distributor.

12 MORE POINTS OF GRAY SUPERIORITY

Here are some more points of Gray superiority, according to West Bros. local distributors:

Driving pinion solid one-piece forging—not keyed on.

Lowest unsprung weight of any car—high tire mileage.

Gas tank under cowl—no pump, no vacuum tank, only one connection.

Rear axle shafts, chrome alloy steel.

Ten-inch service brakes on rear wheels, entirely enclosed.

Radiator of extra height and cooling capacity.

Ample leg room for tallest person, extra wide doors.

Enclosed cars — speedometer, dash light, dome light, visor, window lifts, windshield cleaner, door locks.

Fan belt instantly and easily adjustable with 2-inch adjustment.

Oil scrape ring at bottom of piston—no foul plugs or smoking.

Four cap screws on each crank shaft bearing instead of two.

Every bearing adjustable to dropping oil pan.

The present cereal crops in French North Africa amount to 4,000,000 tons.

CUT THIS OUT—IT IS WORTH MONEY

Send this ad and ten cents to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a ten-cent bottle of FOLEY'S HONEY AND TAR COMPOUND for coughs, colds and hoarseness, also free sample packages of FOLEY PILLS, a diuretic stimulant for the kidneys, and FOLEY CATHARTIC TABLETS for Constipation and Biliousness. These wonderful remedies have helped millions of people. Try them! Huying's Pharmacy.—Adv.

BREA NEWS

BREA, March 1.—(Spl.)—Mrs. Thompson has been ill for several days, she is some better today, her sister, Mrs. White, from El Modena is visiting her and helping to care for her.

Mr. and Mrs. Guzzy were Whittier visitors Wednesday afternoon.

Mrs. McCluse is spending the week in Los Angeles with relatives Mrs. Clark and daughter and other friends.

Mr. Wallace Mason leaves for Collingo today being transferred from the Columbia lease where he has been working in oil fields.

Mr. Tremain on S. Madrona is up and around after an illness.

Mrs. Murphy's little daughter returned home from the Fullerton hospital, a few days ago and her mother reports she is doing nicely.

Mrs. Jack Golden was a Whittier visitor Wednesday to her sister's, Mrs. A. P. Gentry home.

Mrs. Heartfield witnessed the "Ten Commendments" in Hollywood Wednesday afternoon.

The Christian missionary society meets at Mrs. Elmer Gurleys, home, on W. Ash-st. next Wednesday at 2 p. m. A splendid program has been arranged. Subject is a new day for Japan and the Philippines. Everybody welcome.

Mrs. Harry Bates will go to Coalingo Saturday to see about accepting a pumping job as they are wanting several men for that place.

Mr. Robert Thompson of San Pedro expects to spend the week end with his parents, Mr. and Mrs. Thompson.

Mesdames Schweitzer and Reynolds were in attendance at the Ebel music club in Fullerton Thursday afternoon.

The Episcopalians have purchased a lot on E. Birch-st. and expect to erect a church on it in the near future.

Mr. and Mrs. Branch of Fuente Lease, were dinner guests of Mrs. Jack Golden Friday evening on S. Walnut-st.

Mr. and Mrs. James Reynolds were South Pasadena visitors this week at the home of Mr. and Mrs. Tom McKeya.

The mission study class in progress at the Christian Church is quite a study and the folk are quite enthusiastic with their studies. Three more Wednesday evenings will end the class for this year.

LOCAL LEAP YEAR MAN

Alphonse Saleats, 817 N. Los Angeles, called the Plain Dealer this morning to say he, too, is denied birthdays except once in four years. Mr. Saleats doesn't mind, in the least, for in California a man is only as old as he feels, and to have a birthday but once in four years is in exact accord with his feelings.

Sinclair Lewis's "Main Street" sold 60,000 copies in Germany, and when Lewis received his royalty check in London he cashed it for 5 shillings—or about $1 American money.

BUICK SPELLS DEPENDABILITY

Why Buicks stand up so well under hard service and why they often serve several owners is easily understood, say the manufacturers. Durability and reliability have from the beginning been built into every part of the car. The Buick Valve-in-Head motor, tried and tested by more than twenty years' service, and steadily developed to its present efficient stage, insures power, speed and economy. It is correctly designed and carefully built to give one hundred per cent efficient service.

This has been true also of the other parts of the car: the sliding-gear transmission; the Buick multiple disc dry-plate clutch; the full-floating rear axle and the rigid third member. The sturdy Buick frame, constructed of pressed steel and held rigid by heavy cross members, contributes its share to the reliability and durability of the car.

ALTOONA DEALER HERE

L. E. Frey, president and general manager of the Penn-Overland Co., of Altoona, Pa., was in the city yesterday, interviewing C. P. Hamm, manager of the Anaheim and Fullerton Certified Motor Car Markets regarding its operation.

Altoona has concluded arrangements to install the Appleby Plan.

MONARCHISM WAS OPENLY DEFENDED

MUNICH, March 1.—Monarchism was openly defended at the Ludendorff-Hitler high treason trial today when Captain Ernest Roehm, one of the ten defendants took the witness stand in his own behalf.

Captain Roehm boasted of his "undying faith" in the crown.

Roehm a 56-year-old soldier, was to be one of the officers in the Hitler army which planned to march upon Berlin after the famous "beer cellar putsch" here last November.

"There is no reason why I should defend myself," he declared curtly from the stand. "I feel free from guilt. I would do the whole thing over again."

Forests cover a third of the entire area of Czecho-Slovakia and half of the forest area is made up of coniferous trees.

ROAD CLOSED 11 HOURS EVERY DAY

REDDING, March 1.—Commencing next Saturday, the state highway between Redding and Dunsmuir will be closed 16 hours out of every 24 hours thruout the summer and fall, perhaps till the end of the year.

The highway will be open every day from 11 o'clock in the morning until 7 o'clock in the evening. Tourist travelers will have to govern their movements accordingly.

The daily blockade is due to the construction work going on between Bayha and Halfway Creek a distance of ten miles. Blasting will be going on and steam shovels will be at work. The contractors will work two eight-hour shifts.

DAILY GREETING TO OUR READERS

The workman plodding to his task, the beggar tramping through the mire, is imbosomed in an infinite beauty which may lift his soul to rapture, if it is simple enough and pure enough to take the bright impression in.—James Baldwin Brown.

CONSERVE WATER, BUT—DO NOT EXAGGERATE

During this season of extraordinary light precipitation throughout California, urging comes to conserve water supply against waste. This is wise and timely. Suggestion comes that damaing of streams be effected, to impound surplus water. This, too, is wise and timely. It is recognized that this state must use good judgment and provident prudence in husbanding its available supplies of water. Well and good. These things should be understood thoroughly by Californians. Policies and courses of action should be shaped accordingly. But—

There should be no undue exaggeration of the situation. Alarmist reports should not be sent broadcast which might do this state and section irreparable harm. California is not going into a water famine. But hysterical exaggerations, spread beyond the borders of the state, easily might create the impression that California faces an actual dearth of water of calamitous proportions—an impression which would be very hurtfully and groundlessly mischievous in frightening homemakers and investors away from this state.

Abundance of water is available here. Even this season, uncommonly dry up to the present, may bring a generous downpour of late rains, extending throughout the spring and well into the summer. There is no basis for exaggerated alarm—no ground for alarm at all. Caution and judicious conservation are in order, but not silly, baseless and damaging fears and rumors which would cripple the progress of California, if spread abroad. Let's exercise good common sense in this thing.

True greatness is measured by usefulness and benevolence.

Good roads constitute an asset of almost inestimable value to the United States.

Relics of Abraham Lincoln and other illustrious Americans should be treated with respect.

The reckless driver who kills through his reckless driving is a potential murderer.

The home owner usually is contented and an excellent citizen. Ownership gives a dignity and a sense of responsibility and fixedness.

Reforestation should become a fixed policy in California, and replanting of forests should be upon a prodigious scale, to meet future requirements.

For every forest tree felled in California three trees should be planted. Unless scientific and systematic reforesting methods are adopted, this state will face a timber famine in the near future.

CARTOON MOVIES OF HOT NEWS EVENTS IN NINE REELS

PARAGRAPHS

By ROBERT QUILLEN

Oil, oil, everywhere, except in the well the nice man wishes to sell you stock in.

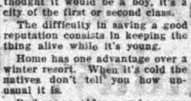

Books are things you write a check for every month following the visit of a charming young lady.

If only a few people say they thought it would be a boy, it's a girl of the first or second class.

The difficulty in saving a good reputation consists in keeping the thing alive while it's young.

Home has one advantage over a winter resort. When it's cold the natives don't tell you how unusual it is.

Perhaps an older man has more wisdom. In this day of gold-diggers he needs more.

Our grouchy opinion is that modern children are invited out to parties too often and out to the woodshed too seldom.

Humans are frail, and even a slight pat on the back may cause the chest to protrude alarmingly.

A sophisticated people is one that buys tickets and then says: "Now, darn you, entertain me."

A hick town is a place where there isn't anything exciting to do except watch a widower.

An open countenance is all right if it wouldn't overdo the matter when a sneeze is preparing to emigrate.

Any good town can establish a college. All that is necessary is to find vacant ground and a coach.

Still, saving up for a rainy day doesn't require as much will power as saving up for a dry day.

Altruism. In most men, never develops beyond the point of telling you what to do for a bad cold.

"Educational movies" haven't taught villages anything except that the human hide in itself isn't wicked.

A dentist says it is almost impossible to pull a jaw tooth without pulling some bone. He must have been an umpire.

Civilization doesn't change things much. One generation gets rich by developing natural resources, and the next by leasing them.

Opposition to rum running may mean you are a law-abiding citizen or only that you have found some patent medicine that will do the work.

Correct this sentence: "Please light it," said she, as she noted the outline of a ring in his waistcoat pocket; "I really like the smell of a pipe."

Armored pavements are being constructed in France by imbedding iron castings in concrete.

A great national network of high tension electric power lines is to be established in France.

Pig iron production in 1923 has attained the rate of 125,000 tons a day.

Miss Thelma Kite is havin' some prenuptial bridge work done. We'd like t' give Dame Fashion a yard instead of an inch jest t' see what she'd do.

DINNER STORIES

"We were bounding along," said a recent traveler on a local South African single-line railway, "at the rate of about seven miles an hour, and the whole train was shaking terribly. I expected every moment to see my bones protruding through my skin. Passengers were rolling from one end of the car to the other. I held on firmly to the arms of the seat. Presently we settled down a bit quieter; at least I could keep my hat on and my teeth didn't chatter.

"There was a quiet-looking man opposite me. I looked up with a ghastly smile, wishing to appear cheerful, and said:

"'We are going a bit smoother, I see.'

"'Yes,' he said, 'we're off the track now.'"

A professor of art whose absence of mind was remarkable had occasion to use a cab. Looking around, he espied one coming in his direction, drawn by a miserable specimen of horseflesh. The professor hailed the cabman and was about to enter the vehicle when, looking at the horse, he stopped, dumbfounded.

"What's this, driver?" said the teacher of drawing sternly.

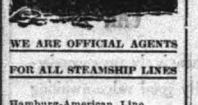

"A horse, of course, sir," replied the cabman.

"A horse, eh?" said the professor abstractedly. "Well, rub it out and do it over again."

The kiss of a friend with the grippe makes the Judas brand look like 30 cents.

(8 years experience)

200 So. Los Angeles St. Phone 366

WHO'S WHO IN THE DAY'S NEWS

An entirely different kind of individual than Dr. Otto Wiedfeldt is scheduled to succeed Dr. Wiedfeldt, the manufacturer, as German ambassador to the United States. Dr. Wilhelm Solf will, it is declared, be the next envoy of Berlin to this country.

Dr. Solf is a former member of the imperial cabinet, a deputy chancellor of the empire before the overthrow of the monarchy and a statesman in the best sense of the word. He was in terms of warm friendship with many statesmen before the war, especially Lord Grey of Fallodon, former British secretary of state for foreign affairs. It was largely owing to his labors that Germany obtained the right to enter and to trade on equal terms with England, the United States, France and Italy in all their and her own former colonies on the Dark Continent.

A strapping big fellow, considerably over six feet in height, broad in proportion, with a fair complexion, clean shaven and slightly bald, he is still on the sunny side of 60, and has a considerable private fortune of his own, inherited from his father, who was long a leading member of the city council of Berlin.

Having no need to work for a living, Wilhelm Solf took up in his youth the study of Sanskrit. His studies in connection therewith took him to India, and it was while there engaged in Sanskrit researches that the German consul-general at Bombay very suddenly died and he was requested by the Berlin government to take over the post, first of all temporarily, and then permanently. That is how he came to join the services of his government.

His official duties took him subsequently as governor to Germany's West African possessions, now embraced in the British South African Union. Then he spent nearly ten years as governor of Samoa, where he devoted himself to obtaining an intimate acquaintance with all the numerous and intricate problems of the Pacific ocean and of the countries bordering thereon.

After the Congress of Versailles his countrymen, aware of the necessity of restoring to the the sadly damaged prestige of Germany in the Far Orient and of the urgency or reorganizing their economic interests in that part of the world, induced him to accept the post of ambassador to Japan, where he was shrewd enough to make use of profound knowledge of Sanskrit and of the various forms of Buddhism.

ON THE SPUR OF THE MOMENT

L'ARBE ANCIENT

"They call me old," the palm tree said,
With a stately toss of his feathered head.

"What if I am? I have seen all of life
Battle and murder and sudden strife.

Seen great cities laid to waste
As the conquering hordes swept down in haste.

Watched the Nile with its flow and ebb,
Watched the spider weave his web.

I can see on the desert's flaming rim
Tombs that are opened for seekers' whim.

Countless moons which will climb the sky
Will be counted by me before I die."

Thus spoke the palm to the tourist crowd
With a calm disdain born of lineage proud.

—Jesamine Houston.

SOME PEOPLE STILL BELIEVE

That Croesus would not be worth a modern chorus girl's attention.

That Los Angeles is inhabited solely by movie heroes and heroines.

That it is possible to fool the public by going to church every Sunday.

That nobody wears bone-rimmed eyeglasses in order to see better.

That railroad sandwiches must be indigestible to be considered good.

That pie is strictly an American institution, known nowhere else.

That men never pay any attention at all to their complexions.

That favorite comedians get up their stuff on the spur of the moment.

That it is very difficult for a sea-going man to tell a story straight.

The French people spend all their time in frivolous entertainment.

* * * *

All is not quiet along the Teapotomac.

* * * *

Real love is inarticulate. The man who is always protesting he loves you, doesn't.

The New ESSEX

A SIX—Built by Hudson

We Ask This Simple Test

It is an easy way to tell if the new Essex Coach gives greater value than was ever provided at this price.

Take a ride. It has answered the question for thousands. Priced $170 lower, the new Essex Coach provides a larger, handsomer body, with even greater passenger comfort than the former Coach.

And its 6-cylinder motor, built by Hudson, gives the smoothness of performance for which the Super-Six is famous.

Has Qualities of Both Hudson and the Former Essex

Steering is as easy as guiding a bicycle. Note how comfortably and safely it holds even the roughest roads at all speeds.

Gasoline, oil and tire mileage are exceptional. A further satisfaction is the low cost at which all replacement parts are sold.

MORE U. S. MARINES LAND AT HONDURAS

WASHINGTON, March 1.—Additional American marines have been landed in Honduras to protect American lives, the state department announced today.

The marines landed at Ceiba, where fighting has taken place between Honduran federal troops and revolutionists and where new hostilities are anticipated.

Approximately seventy marines are now on Honduran soil, according to advices to the state department.

It was announced that another American destroyer has been ordered to Puerto Cortez, Honduras, to take part in the American military demonstration and to protect United States property.

One American has been wounded in the fighting at Ceiba, but his name has not been learned.

HARRY D. RILEY SAYS:

The time was not so very long ago when in buying a used or renewed car, you were required to pay cash for it and your savings account was depleted just the amount of the car purchased. Few progressive dealer realized that it would be better if it could be arranged so a customer could buy a car on the Monthly Payment Plan and pay for it out of his income instead of his savings.

We were one of the very first dealers to inaugurate a successful deferred payment plan, and it is available to responsible parties on any of the following cars:

GUARANTEED
1923 Studebaker Special "6" Touring, original finish, perfect.
1923 Studebaker Special "6" Club Roadster, refinished deep wine and black.
1922 Studebaker Special "6", 2 passenger roadster, refinished standard Studebaker blue and black.
1922 Studebaker Light "6" Touring, original finish, perfect.
1921 Studebaker Special "6" Touring, refinished Studebaker blue and black.
1920 Studebaker Special "6" Touring, refinished deep wine and black.

RECONDITIONED
1922 Durant Touring, refinished olive green and black.
1922 Buick Sedan, original finish perfect.
1922 Dodge Roadster, refinished standard black.
1919 Chev. Touring, $125.
And many others that you will like.

Note—We have buyers waiting for Light "6" Studebakers, Roadster, Touring car, Coupe and Sedan, also a Dodge Sedan.

COLLEEN ATTAINS SCREEN HEIGHTS

The fact that Coleen Moore is now a motion picture star is one of those things that just happen. Really, it was an mistake, for Colleen hadn't the slightest idea in the world when she left her home in Detroit that she was bound for fame via the silver-sheet.

In fact, Colleen was on her way to Europe to study for the concert stage. With her mother, she intended to spend some years in the musical centers perfecting her voice and then to begin her career.

But she stopped in Chicago to visit her uncle, a well known newspaper man and editor, and through him at a reception she met D. W. Griffith.

Mr. Griffith talked with her for some time and then told her she was making a mistake to follow a musical career. She should go on the screen, he said.

Immediately Colleen's fancy was intrigued and she persuaded her mother to reverse their journey and start for Hollywood. There Mr. Griffith gave her the first screen part she ever played and she has climbed steadily until in the Cosmopolitan's "Through the Dark," adapted by Frances Marion from Jack Boyle's story, "The Daughter of Mother McGinn," she reaches the heights of her dramatic art. "Through the Dark" will close its local engagement at the California tonight.

Sunday the California will present the first Orange County showing of Victor Seastrom's big feature picture "Name the Man." This is an adaptation of Sir Hall Caine's wonderful story, "The Master of Man" and to judge from the Los Angeles critics who viewed the picture during its two week run at Lowe's State theatre, the public of Anaheim is sure of a fine picture treat.

They say, after all, no one like Dr. Neth.

G. O. P. BREAKS UP RADICAL COMBINE

WASHINGTON, March 1.—The 1924 tax reduction bill was laid before the senate this afternoon.

Following its passage by the house the bill was transmitted to the senate and immediately referred to the finance committee, which will prepare the measure for the senate's consideration.

WASHINGTON, March 1.—Political leaders in the house were counting up their loses and gains today following the passage of the tax reduction bill.

Republican leaders admitted the defeat of the Mellon plan but they boasted they had broken the triumphant insurgent-demo ratic coalition and had passed a republican bill.

Democratic leaders assert they forced the Republicans to accept in principle their form of the tax reduction. They claim to have forced into the legislation a gift tax, increased inheritance taxes and other means to pay a soldier's bonus.

Insurgent leaders take to themselves credit for the defeat of the Mellon plan and adoption of a plan of income tax reduction directly contrary to that urged by Secretary Mellon including the 37 1-2 per cent maximum surtax instead of the 25 per cent and the lower rates on the smaller incomes.

Each of the groups working on the tax bill in the house succeeded in writing into the legislation particular provisions which they advocated. It is the first time that revenue legislation was thrown open to free amendment by the house. This was made possible by the liberalization of the rules forced by the insurgents at the opening of the present session of congress.

Similar legislation previously had been protested against general assault by a special rule limiting general amendments. Insurgent leaders say the reform proved its worth and need.

With the tax reduction legislation out of the way the soldiers bonus bill is now due to come before the house within two weeks.

35 MEET DEATH IN NITRATE EXPLOSION

(Continued from Page One)

many houses but those were shaken as by an earthquake. Windows were blown in and doors hurled from their hinges.

Officers at the Raritan arsenal had only to look thru their panelless windows to see what had happened. The commanding officer immediately sent all available men to the scene. They went in post automobiles and big army trucks.

Soon the scene took on an aspect reminiscent of France during the world war. There were officers in uniforms going about the ruins and soldiers were alleviating the distressed.

Mrs. E. E. Singer of Huntington Beach, was brought to Anaheim hospital yesterday in the Heddle ambulance. She is a surgical patient.

BROOKHART WILL HEAD COMMITTEE

(Continued from Page One)

Republican of New Hampshire; Ashurst, Democrat of Arizona, and Wheeler, Democrat of Montana, as the other members of the committee.

By KENNETH CLARK
(I. N. S. Staff Correspondent)

WASHINGTON, March 1.—William J. Burns, chief of the bureau of investigation of the department of justice, was drawn into the senate investigation of the great oil scandal today.

Code messages that passed between E. B. McLean, wealthy newspaper publisher, in Palm Beach, and his employee in Washington, revealed that Burns informed McLean concerning developments in the Teapot Dome investigation, members of the committee said.

Burns is the second department of justice official who was found to have "tipped off" McLean about the inquiry. In a previous telegram E. S. Rochester, publicity man at the department, informed McLean that the committee was going to examine bank records to determine whether McLean had $100,000 in the banks at the time he declared he made that famous "loan" to ex-secretary of the interior Fall.

As a result of the disclosures in the telegrams, both Burns and Rochester will be summoned to testify.

Several of the most important code messages have been deciphered by experts for the committee. In one, signed by Mary Quigley, chief telephone operator at McLean's Washington paper, the Post, Burns was shown to have instructed Miss Quigley to tell McLean that "investigation is under way by agents of the department of justice." Burns also said that he believed the "information is important."

Further study of the messages disclosed that the code is practically identical with that used by the department of justice. Apparently aware of the danger of using this code, McLean's advisers dropped it on January 11 and substituted a new secret code, in which references were made to "apples," "peaches," "apricots," "cherries" and other fruit.

In an effort to decipher this code the committee today summoned McLean's employes, who signed telegrams for examinations. Included were Ira Bennett, chief editorial writer of the Post; John J. Spurgeon, managing editor, and John Major, confidential agent, who was shown by the messages to have been particularly active in the efforts to keep the publisher from taking the stand.

The decoded message also revealed that Col. J. W. Zevely, personal attorney to Harry F. Sinclair, was active in McLean's behalf. In one message he is reported to have held the opinion that Senator Walsh, Dem. of Mont., wasn't much as a cross examiner" and in the same message William O. Duckstein, assured the publisher that "Zevely thinks you need not worry about the examination," apparently referring to the fact that Walsh was ordered to go to Palm Beach to question McLean.

H. F. Taff, manager of the Washington office of the Western Union, submitted to the committee today another batch of McLean's telegrams.

John J. Spurgeon, managing editor of the Washington Post, was the first witness today and was asked to tell of the installation of McLean's private wire from the Post to Palm Beach.

"I had nothing whatever to do with the installation," Spurgeon said in answer to questions by Senator Walsh.

BURNS CLAIMS IT'S LIE

WASHINGTON, March 1.—"It's a damned lie!"

This was the answer today of William J. Burns, chief of the bureau of investigation of the department of justice, to charges that Burns secret telegraphic code he had "tipped off" Edward B. McLean, wealthy publisher, to developments in the great oil scandal and particularly that McLean was being investigated by the department.

Burns was angry and indignant when seen in his office by International News Service.

"It's a damned lie," he repeated again. "The code messages which have been made public are not in the present cipher used by the department of justice. These messages are in an old code formerly used between United States district attorneys and United States district marshals and I had it abolished when I came into the department."

"I established a new code when I took over the department's investigation work and found this old code in work," continued Burns.

"These so-called disclosures are pure bunk. Wait till the senate committee calls me to testify—if they do. Those who are seeking to make a sensation out of this will be very much disappointed when they hear what I have to say.

"I had no communication at all, directly or indirectly, with McLean.

"We never investigated him and were never asked to. Had we been called upon to make such an investigation we should have done so but we were not. It makes no difference to this department who we investigate."

Burns declared he hoped he would be subpoenaed by the senate committee.

Burns declined to confirm or deny that McLean possessed a detective's shield and has an operative's rating in the bureau of investigation.

"I won't discuss that phase of the matter," he said, nor would he discuss how it was possible for a department of justice secret cipher, even an old one, to get into private channels.

Training Camps

PHILADELPHIA, March 1.—The headquarters squad of the the Phila Athletics numbering 10 players, augmented by two at Baltimore, were rattling toward Montgomery, Ala., today to begin training.

LESSBURG, Fla., March 1.—The Phillies are not finding spring training very much fun due to weather. Despite the cold the team yesterday played seven innings.

AVALON, March 1.—Eleven embryo Cubs arriving today reduced the list of absentees, unaccounted for the one—Charlie Hollocher. Thirty-three players are on hand.

WINTERHAVEN, Fla., March 1.—Kid Gleason will be missed in the White Sox camp, which also will be without Manager Frank Chance, who is ill in Los Angeles, ohnny Evers, head coach, will bring his crew in Sunday.

SARAZOTA, Fla., March 1.—The New York Giants were ready to get down to serious business today in their spring training operations.

The sudden appearance of Geo. Kelly, Emiel Meusel and Jimmy O'Connel have given the McGrawites nearly a complete team with many rookies on hand.

SAN ANTONIO, March 1.—The Red Sox hurling staff received their first mound work of the season, pitching to the batters. President Quinn and the regulars are expected to put in an appearance early next week.

ST. PETERSBURG, Fla., Mar. 1.—Manager Dave Bancroft today gave his Boston Braves a real workout and especially the pitchers. Rube Marquard and Tim McNamara showed up well.

CLEARWATER, Ala., March 1.—The expected signing today of Bernie Neis, outfielder, cleared up the hold-out situation with the Brooklyn Dodgers to some extent, leaving only a few regulars out of the fold.

WARFARE FLARES ANEW IN SENATE

(By William K. Hutchinson)
(I. N. S. Staff Correspondent)

WASHINGTON, March 1.—Partisan warfare flared anew in the senate today when debate was resumed on the Wheeler resolution authorizing a "public trial" of attorney general Harry M. Daugherty on a charge of malfeasance in office.

Final action on the resolution, delayed by the unexpected intensity of the fight, was expected before adjournment tonight. It developed the bitterest party controversy of the present congress and oratory battle that frequently swept beyond the control of party leaders.

The bone of contention was the proposal of Senator Wheeler, Dem. of Mont., author of the resolution for the direct election of the investigating committee by the senate.

Administration ranks, headed by Senator Lodge, Republican of Mass., and Senator Willis, Republican of Ohio, led an attack against this proposal as a violation of senatorial traditions. The demanded selection of the Daugherty "jury" by the senate's presiding officers as a customary.

ported by the almost solid Democratic strength and bloc of insurgent republicans. This coalition outnumbered the administration ranks and a ruling by International News Service clearly indicated adoption of Wheeler's plan.

The poll showed the "regular" Democrats would be joined by at least nine Republican insurgents besides the two farmer-laborites. These insurgents included Senators Capper, Brookhart, Johnson of California, Norbeck, Howell, Norriss, LaFollette, Ladd and Frazier.

With their support the Wheeler amendment was certain of adoption.

Under its terms the Daugherty "jury" will be composed of Senators Brookhart, an insurgent, as chairman; Jones, of Wash.; McLean, of Conn., nature, of Ariz., and Senator Wheeler himself.

Passage of the resolution itself was a foregone conclusion.

Expect Crowd at Homewood Sunday

Unless all signs fail, one of the largest subdivision sales ever held in Orange co will attract hundreds tomorrow to the grand opening sale of Homewood Tract at Buena Park. A big feature of the sale, announces the A. B. C. Sales Co., will be the announcement of the names of the five fortunate people who will take away $175 phonographs. It is necessary that the holders of tickets visit the tract in person in order to get their phonographs.

The A. B. C. Sales Co. announces contract has been awarded for electroliers to light Grand-ave. and Darlington-ave in Homewood and work is proceeding rapidly on the spacious thoroughfares. The company intends to plant lines of trees along their borders.

CALIF. HOTEL FULLERTON

SON BORN TODAY

Postponing his advent into the world until a "regular" day, the 7 pounds, 11 ounce son of Mr. and Mrs. L. S. Davis, of Buena Park was born this morning at 6:50 at the Anaheim Community hospital.

PLAIN DEALER CLASSIFIED ADS PRODUCE RESULTS

ANAHEIM B. V. D.'S BEAT MONTEBELLO

Anaheim H. S. scantily clad lads trimmed the Montebello 76 1-2 to 36 1-3 here yesterday afternoon. The tract was faster and the boys made better time in the majority of events. Montebello relay team won by a fraction. Anaheim's time was better by several seconds than in the last meet and the boys show signs of making a winning combination. Rees showed up well yesterday, grabbing several points. He took three firsts along with other places. Summary:

220 low hurdles—Adams, M., first; Rees, A., second; Barnett, A., third. Time 30:1.

Pole vault—Dahlman A., first; Snowten, M., second; Barnett, A., third. The Montebello lad failed to clear the bar at 8 feet 6 inches and Dahlman did not try to go higher.

Shot put—Cash, M., first; Dumpke, A., second; Wells, A., third. Distance 39 feet 7 inches.

Discus—Wells, A., first; Grauer, A., second; Steele, M. third. Distance, 103 feet 7 inches.

High jumps—Rees, A., Dahlman, A.; tied for first; Waters and Adams, M., tied for third. Heighth 5 feet 5 inches.

Powell of Montebello shone for the visitors.

Results of events:

880 yard dash—Powell, M., first; Lenz, A., second; Jayne, M., third. Time 2:7:2.

100 yard dash—Barnett, A., first; Adams, M., second; Rees, A., third. Time 10:4.

120 high hurdles—Rees, A., first Dahlman, A., second; Childs, M., third. Time 18:2.

440 yard dash—Wells, A., first; Lenz, A., second; Powell, M., third. Time 57:2.

220 dash—Adams, M., first; Rees, A., Barnett, A., third. Time 24.

Broad jump—Rees, A., and Barnett, A., tied for first; Harris, A. and Dumpke, A., tie for third. Distance 18 feet 4 inches.

Mile—Preston, A., first; Schumacher, M., second; Ochoa, A. third. Time 5:12:2.

Relay, Montebello. Time 1:42. This is the best time made on the track this season.

BOXER COLLAPSES

SAN FRANCISCO, March 1.—"Sailor" Hickok, principal in one of the bouts held here last night, was in Mount Zion Hospital today, following his collapse in his dressing room.

Denial was made by his physician that Hickok's condition was serious.

"We are just giving him a rest" the doctor stated.

However, it was reported that Hickok had sustained an injury to his stomach. Hickok was knocked out by Harry Wallace but quickly came to his senses. He walked from the ring, the crowd booing him. In his dressing room he collapsed and his removal to the hospital followed.

A. B. C. STANDINGS ARE REARRANGED

CHICAGO, March 1.—Standings in the A. B. C. pin tournament shivered and re-arranged themselves after the first assaults of the sharpshooters last night.

The Goldammer-Fisch quint jumped into first place with 2845; Shorty's Dugouts of Madison, the only visitors with a leading showing, taking second with 2830.

Samuelson's Arcades, former leaders, with 2823, were in third place.

BABE RUTH BETTER

HOT SPRINGS, Ark., March 1.—Babe Ruth, after a night of rest, showed continued improvement today. Dr. W. T. Wooten said no crisis would be reached late today in the famous slugger's fight against influenza and the threat of pneumonia.

Ruth's temperature today was 103, still high enough to be dangerous, tho a degree lower than last night. He took little nourishment.

HOT SPRINGS, Ark., March 1.—Babe Ruth was resting easily as early hour today. According to Dr. W. T. Wooton, attending physician, the champion slugger of the world champion New York Yankees, is making satisfactory progress against the attack of influenza with which he was stricken yesterday.

He was still asleep at 7 a. m. after sleeping most of the night ahd Dr. Wooten did not expect to make another examination until a later hour.

Miss Isabel Clayton, attending nurse, said his fever apparently had not risen since midnight, when his temperature was 103.

Danger of pneumonia developing was still present and would remain until the congestion of the lungs was relieved, the physician added.

LAST NIGHTS FIGHTS

SYACUSE—Jess Doctor, Syracuse, defeated Nick Volpetti, Wilkesbarre, six rounds.

OMAHA — Morrie Schlafer, Omaha, won decision over Joe Simonich, Butter Mont., 10 rounds; Battling Monroe, Omaha, knocked out Churck Lambert, St. Paul, first round of scheduled ten rounds. Ace Hudkins, Lincoln, knocked out Rusty Jones, St. Paul, in second round; Jack Shaeffer, Omaha, and Red Wilson, St. Paul, six round draw.

LOS MOINES—Earl Blue, St. Paul, won decision over Jack Ruddy, Chicago, eight rounds; Tuffy Connelly won decision over Mickey McNault, four rounds.

CALL OFF HOCKEY GAME

Riverside girls hockey team called off the game with Anaheim squad for last evening on the local field. There probably will be no more games as baseball takes up the time and the field is not large enough to accommodate the baseball players and track teams which are practicing regularly.

Acute disease. A quick relieve. Dr. Neth.

ROY BUSH, BALL PLAYER, IS DEAD

Ray Bush, for two seasons member of the championship Elks baseball team, passed away last evening at the home of his mother, at 225 No. Avenue 23, Los Angeles, after an illness of long duration.

Young Bush while up north last spring contracted a severe cold which stayed with him. He had been in Banning for several months and only recently was transferred to his mother's home.

Bush was a star at third base and was one of the main stays in Pete Hax's great Elk machine that took the championship title.

Bush was a member of the Elks lodge and popular among the young set. He is survived by his mother, two sisters and a host of friends.

Funeral services have not been arranged but the Elks lodge will probably have charge.

ORANGE PLAYS FOR BASKETBALL TITLE

Orange High school, winners of the varsity basketball title for the county, will play Santa Barbara cagemen at U. S. C. pavilion this evening. This game, with three others, constitutes the opening round of the play off for So. Calif. honors. Orange has been known for years as a great basketball centre and has won several titles, always getting into the semi-finals.

The four strongest teams will mingle on the Trojan floor again March 7 for the second clash.

The games tonight are thus arranged: Pasadena vs. Inglewood, at six o'clock; China vs. Sweetwater, seven; Orange vs. Santa Barbara, eight o'clock, and the winner up, Alhambra vs. Banning.

M. J. Herr, coach of the crew, is expecting great things from his followers and state they are in the best condition.

BOWLING DOPE

With only two more series in the Mercantile League, Roehm-Sylvester of Anaheim seems to have the top round cinched. The locals have won 57 and lost 23 games, which is seven full games ahead of Chesterfields in second. The locals would have to lose the six remaining games and 42 total pins. The Sweitzer-Alexanders from Dad Meek's alleys come Monday night. Karam has averaged 187, McGaugh 184 and Efker 178 in this league.

Anaheim will enter a team in the Pacific Coast Bowling Congress at Venice. A practice series is being arranged with the Harold Lloyds.

NOW WE CAN REST

WASHINGTON, March 1.—Senator Robert M. LaFolette, Republican of Wis., this afternoon announced he would not be a candidate for the presidential nomination.

La Follette made this announcement in a letter to C. J. Olson, chairman of the La Follette campaign committee of N. Dakota, explaining his action in withdrawing from the Republican primary in that state.

COLONEL FORBES CLAIMS CONSPIRACY ENGINEERED

(Continued From Page One)

had not courage nor the fairness to hear any defense who shirked the duty of formulating an honest report and who have attempted to escape deserved criticism by scurrilous blind the barrinade of O'Ryan's malignant verbosity and by meekly crying out, 'some of it we believe; some of it we don't believe. Please take your choice.' Gentlemen, I say that the charges against me are as false as hell's own brood."

Forbes said he was waiting service of the indictments here pass against Aloysius Lipman put for appearance in Chicago.

SAN FRANCISCO, March 1.—Department of justice officials declined to confirm a report today that John W. Grim, special prosecutor in the veterans bureau cases, will come here from Chicago upon completion of the government's case there, to lay before a federal grand jury here evidence in connection with the Livermore hospital deal. .

It was reported, however, that preparations were under way for his coming and that evidence assembled thru a special department of justice investigation following the congressional probe was ready for grand jury presentation.

Market Reports

STOCKS CLOSE STEADY

NEW YORK, March 1.—The stock market closed steady today, the indecisive trend giving way to a tendency to higher levels toward the close.

TOM MIX AT FAIRYLAND

Ingenious plot complications give "Mile-A-Minute Romeo" the William Fox production that opens today at the Fairyland Theater, unusual charm for a Tom Mix picture. By which we mean in addition to the breathless action and expected number of thrills, Tom Mix offers in this recent motion a story of considerable interest.

One of the uncommon situations presented is the Machivellian scheme of extermination of two rivals by contriving to get them to fly at each others throat.

The crafty lover informs both rivals, separately, that each has insulted the other. A gun fight ensues in which the rivals learn that they have been the dupe of the third rival, and that their fight was "framed" to kill either or both of them.

Lucky Bill, played admirably by Tom Mix is one of the dupes. Having wounded the other dupe in the "framed" fight he elects to compensate by helping the latter elope with the girl. He is double-crossed innumerable times and finally forgets his difference so far as to attempt to get the girl for himself.

In no previous production perhaps, does Tom Mix display his horsemanship so skillfully. Throughout the production he is almost entirely riding—wild. We do not believe this situation makes it easy to emote and for that reason declare Mr. Mix's performance extraordinary. Betty Jewel, leading lady, is very satisfactory, as is the entire supporting cast. Lambert Hillyer is responsible for the good direction.

You can't buy groceries from the Merchants of Smithville quotations from the Merchant of Venice.
