22 PERSONS LOST IN TENNESSEE CLOUDBURST

Current Week Has Been Marked By Almost Daily Increases in Prices of Oranges

CITY MOVES 142 CARS OF FRUIT

Union Pac. Makes New Record for Local Shipments

One hundred and forty-two cars of citrus fruit, including two cars of lemons, were shipped this week from the Anaheim district, within 11 cars of the best week of the season.

The Union Pacific shipped 11 cars, the best showing it has yet made since the present Fay Fruit Co. house was purchased from the Orange-co Valencia Co.

The week was marked by almost daily advances in the level of prices paid for fancy grades of valencias, altho ordinary grades were more stable. Navels and miscellaneous varieties still hung on in the auction market, but in steadily decreasing quantities.

BURIAL SERVICE TUESDAY MORNING

SAN PEDRO, June 14.—In the simple burial service of the U. S. Navy the 48 bluejackets, who died at their posts of duty in an explosion on the U. S. S. Mississippi during target practice, will be given Godspeed on their final cruise.

The service will be held here Tuesday morning on police athletic field, it was announced today.

The dead will receive full military honors. Each metal casket, shrouded in an American flag, will be covered with sweet-scented California blossoms sent as a last token of affection from the dead men's shipmates, the officers and boys of the Pacific battle fleet.

A Catholic priest and a protestant minister will officiate in the service. Shore leave will be given all sailors. Harbor schools and business houses will close and prominent persons will attend, as well as representatives of national and state officials.

Burial of the dead with no relatives will be made either in the military cemetery at San Francisco or in Arlington Cemetery, Washington, D. C.

C. A. MURCH HELD ON LIQUOR CHARGE

C. A. Murch was arrested by the local police yesterday afternoon on the charge of selling liquor, and was arraigned before Judge Kuchel, entering a plea of not guilty and demanded a jury trial. His hearing was set for June 26, and he was released on a bail of $300. He is alleged to have sold hard cider at his place of business, 133 N. Los Angeles-st., containing more than one and one-half per cent alcohol.

F. H. S. PLANS POOL

Plans for a swimming pool at Fullerton H. S. next year have been announced at the office of L. E. Plummer, principal. It will be located just back of the school garage off Pomona-ave., and will be 105x40 feet in size. The east wing of class buildings are also to be completed, and also the school cabin at Lake Arrowhead remodeled and improved.

The school budget calls for an expenditure of about $70,000 less this year than last year, it is said, making possible a considerable school tax reduction.

Angry Stockholders Threaten Leach

With an Anaheim woman in hysterics, calling upon F. M. L... to return to her the $7... which she alleged she and her husband had lost in the Leach-Biltwell Motor Car Co., a five-hour meeting of stockholders in Los Angeles was adjourned sine die without accomplishing anything. The meeting had been called to obtain authority to sell the assets. One man present told Leach he should be strung up to a lamp pole.

Anaheim citizens representing several hundred thousand dollars in investment were present, among whom were R. B. Beat, Theo Stolt, Louis Henning and Harry Shipkey, represented by Geo. Varnum as attorney, who held proxies representing with those present a substantial majority of over two to one of the shares present.

COOLIDGE HELPS 480,000 EMPLOYES

WASHINGTON, June 14.—President Coolidge today came to the relief of approximately 480,000 employes in the field service of the government by directing that beginning July 1, the increase in salary given them by the last congress shall become effective.

This action was taken because the bill granting the increase was not signed by the presiding officer of the house and senate because of congestion of business and was therefore not submitted to the president for approval.

ARREST FIVE FOR MAIL ROBBERY

CHICAGO, June 14.—J. H. Wayne, wounded man held under police guard at the county hospital following his arrest in company with two other men and a woman early today, was identified by members of the crew of the Milwaukee and St. Paul mail train as a member of the bandit band which Thursday night held up and looted the train of approximately a million dollars in cash and securities.

Five postal clerks viewed Wayne and one of them was positive in identification.

The postal clerks were to be taken to view Walter McComb and his wife, and Paul Wade, who also were arrested when police broke down the door of the McComb flat. Officers found Wayne in bed suffering from his wounds and he was taken to the county hospital. Police first said he was found by the roadside near Hammond, Ind. The two men and Mrs. McComb were placed under arrest and taken to the federal building.

Following identification of Wayne, police and federal operatives expressed confidence that the robber band would be in custody soon.

Another man was reported to have been arrested. He is said to have given the name of J. Mahoney and to have been identified as an aviator. He was hurried to an outlying police station for questioning as an airplane has been reported to have been used in the escape of the bandits.

Police also are investigating movements of a fast motor boat in which the men are believed to have fled from the Illinois shore and on which it is believed their loot was divided

A large amount of cash was found in the McComb apartment but police declined to say how much.

CHICAGO, June 14.—Five arrests early today were followed by announcement by Captain of Detectives William Schoemaker that solution of Thursday's million dollar mail robbery would be in hand before night.

J. H. Wayne, wounded in the jaw, chest, and right arm and with his body scared as if by a volley of shotgun slugs, was held under heavy guard in a ward in the county hospital. He said he was shot by a Margaret Ray, believed to be the woman police held at an outlying precinct station.

J. Mahoney, said to be an aviator, was arrested at the Chicago address given by Wayne.

Walter McComb and Paul Wade were seized in McComb's flat. Pending the roundup of the gang, police were not inclined to divulge the information on which the ... were made.

... were under close ... police were per... the ward where ... county hospital ... stated that with ... practically half ... in the gigantic robbe... recovered and that ar... the rest of the gang an... ry of the remainder of the loot were expected today.

The bandits, choosing only the most valuable mail sacks, got $100,00 in cash and bonds valued at between $1,000,000 and $1,500,000

Wayne was found on the roadside two miles south of Hammond, Ind., a distance from the robbery at Rondout that might easily have been traversed by the bandits between midnight and dawn yesterday.

Police search for the four auto loads of bandits who held up the

FLAG DAY IS CELEBRATED FITTINGLY

Impressive Ceremonies at Presentation of Flag Pole and Fountain

Ceremonies attending the presentation to the city of a handsome flag and staff by the American Legion Post and Auxiliary and of a fine fountain by the Lions' Club, both in City Park, made this year's celebration of Flag Day unusually significant. The mayor was present on both occasions and made the speeches of acceptance.

Last night, in the presence of hundreds of Anaheimers, the local lodge of Elks celebrated the day.

The ceremony at the presentation and dedication of the flag and staff was short. M. W. Martenet, Jr., presented the pole, and Mrs Prescott the flag, and Sam Snodgrass raised the flag. Mayor Metcalf in his speech, which was brief, declared that no public grounds nowadays were complete, or hardly started, without a flag to beautify them. The Mayor's remarks were especially applauded when he declared that patriotism should be measured by the day by day acts of citizens and not by emotion shown on special occasions of this sort. He complimented the Legionnaires and ladies.

The Whittier School band played both at the flag and fountain.

Rev. A. G. H. Bode delivered the invocation at the fountain and Cliff Lamb, president of the Lions' Club, introduced the speakers and voiced appreciation for aid rendered in bringing the fountain to pass. The services were acknowledged of Leslie Wilson, who superintended the erection, M. Eugene Durfee and his aides particularly Jim Hitchcock; Haggerty Tile Co.; Fred Garrison, Anaheim Metal Industries, the luncheon clubs including the ladies' club, and citizens.

Perry Schrock, Santa Ana Lion, delivered the principal address in the course of which he declared that his speech could be seen in the flag, park and fountain. The real disrespect to the flag, he averred, was not to stand for the things for which it stood. Schools, churches and even the clubs were patriotic institutions as well as the organizations usually called patriotic.

Bob White, past president of the local club, presented the fountain to Mayor Metcalf in a very brief speech, and the mayor accepted it, in a second happily worded speech.

At the Elks' Lodge exercises last night Walter Myers of the Fremont school received one prize and Henry Hodges of the High School the other in the prize essay competition. Joe Burke, U. S. District Attorney in Los Angeles and past district deputy of the Elks, made the principal speech, in the course of which he eulogized the flag and described the charitable works of the order. Exalted Ruler L. A. Lewis presided. The musical program was carried out practically as repeatedly published in the Plain Dealer, an orchestra of 25 from Santa Ana assisting. The usual altar services of the lodge followed. Evelyn Magathan recited the "History of the Flag," Dr. J. H. Coleman sang "The Story of Old Glory" and Otto Ploetz of Los Angeles "We'll Never Let the Old Flag Fall."

ANAHEIM CONCERN FUMIGATES SHIP

To an Anaheim concern, the Henley-Aspelin Co. has fallen one of the most important fumigating contracts yet announced here. This concern will fumigate Sunday the big liner Los Angeles, which plies between the metropolis and Honolulu.

With its numerous saloons, private cabins, etc., the task will be a difficult and prolonged one.

The fumigation is the regular one undertaken annually.

MAYER FINDS ADS PAY

Wm. A. Mayer who lives on a ranch on Cerritos-ave. affirms that Plain Dealer "ads" most certainly pay. He said that he had placed a large number of "ads" in the Plain Dealer and had never failed to sell what he advertised. It is better than a salesman, he said. He said that he recently advertised some potato slips, and sold them within an hour after the paper was out.

REMOVE EMBARGOES ON CAL. PRODUCTS

SALEM, Ore., June 14.—Existing embargoes on all California products, except animals and animal products from areas free from the hoof and mouth disease were ordered removed today by Governor Walter Pierce.

Under terms of the proclamation fruits and vegetables of all kinds are permitted entry into Oregon under fumigation and when certified to by a federal veterinarian as originating in disease-free areas of the southern state.

WILL NEVER KNOW CAUSE OF BLAST

LOS ANGELES, June 14.—Sensational testimony that the turret blast on the U. S. S. Mississippi, which killed 48 gunners, resulted from an attempt of the man-of-war's bluejackets to establish a new target practice record, was given today before the naval board of inquiry investigating the tragedy.

Lieut. Commander Reinecke, chief gunner officer of the Mississippi recalled today before the investigators contradicted his testimony of yesterday, when he referred to the explosion as a "flareback."

A "human" error rather than a fault in the mechanism of the 14-inch gun caused the blast when the No. 2 turret gunners strove to beat their own record as the navy's fastest turret crew, Reinecke testified.

The compressed air bore cleaner worked perfectly and the explosion could not have been caused by a tiny bit of flaming silk from a previous charge, the officer told the board.

Decision to forego an effort to obtain the official eye witness story of Chief Turret Captain F. J. Rynes, who is dying on the Hospital Ship Relief, was made late today by the navy probers after it was learned Rynes was too far in the shadow of death to be questioned.

LOS ANGELES, June 14.—Gased to death in an iron-clad turret was the fate of 48 bluejackets killed on the U. S. S. Mississippi, according to testimony presented the naval board of inquiry as it resumed its sessions here today.

As the officers of the U. S. S. New Mexico, and U. S. S. Mississippi, survivors of one of the greatest disasters in the history of the American navy, unfolded their stories before the inquiry board, it became more and more evident that the gunners were caught in a steel trap behind fused doors and without a chance to battle for their lives.

That they died bravely at their posts too, some with telephone instruments still hung over their burned heads, was the version of each witness

K. P. TEMPLE OPENED TONIGHT

Public Invited to Inspect Finest Building Order Owns in America

The beautiful $125,000 K. of P. temple will be thrown open to the public and formally presented to the city this evening at a gala affair. With Chancellor Commander Fred Davis presiding there will be a brief program beginning promptly at 8 p. m. Mayor E. M. Metcalf, who will be accompanied by councilmen, will respond on behalf of the city. The program has been arranged by Anaheim Co. No. 26 U. R. K. of P., Anaheim lodge No 105 and Pythian Sisters Temple No. 81.

The entire building will be open for inspection by Anaheimers. A big feature tonight will be the dancing on the large store room floor.

Visitors tonight will be impressed with the artistic and modern arrangement of the building and the richness of the furnishings. The building was constructed throughout by Anaheim men, most of them members of the K. of P. order. Materials and furnishings were provided almost exclusively thru local firms. Furnishings are thru Stroup-Barnes Furniture Co.

The ventilating system, declared the best in any California building, is the product of M. L. Manning, associated with H. H. Armbrust. Manning is one of the leading ventilating engineers of the country, having the system in the New York Central station, New York, and many other large installations to his credit. In addition to the two large exhaust fans on the roof of the temple, there is another in the basement where the air is washed. The fans have remote control in the lodge room. Monday evening with 350 people in the main lodge room, the greatest comfort was enjoyed. At that time, grand lodge officers declared the local temple the finest owned by the order in the United States

Going up the stairs from the street to the second floor the visitor will note the most intricate job of linoleum laying ever placed in the county. It is inlaid, tile pattern, with parquetry pattern, cemented on the steps and bound by brass guards.

The banquet hall on the second floor has color scheme of blue and gray with gold fringed velour drapes on French doors and velvet portieres. The Vienna chairs are walnut. The ladies' parlor has fibre furniture with plain blue velour cushions, large plate glass mirror and tiled retiring room.

The large kitchen is very completely and conveniently equipped with hotel range, steam table, butler's pantry and hallway af-

C. OF C. PLANS DRIVE FOR MEMBERS

By George Reed, C. of C. Secretary

Ministers of the city, different organizations including Rotary, Kiwanis, Realty Board, Business & Professional Women's club and Lions clubs, have discussed the work of the C. of C. during the week. Many excellent articles have been written by the leading business and professional men on what a chamber of commerce amounts to in an community.

We feel sure that some of you have received an inspiration from what has been done during the week and seen clearly that if Anaheim is to function in competition with our neighboring cities our C. of C. must be enlarged; the membership must be at least twice as much as it is now.

We are calling your attention to the dinner Monday evening at 6:30 p. m. at the Elks club.

If you have planned to do something else Monday evening, the interest of your city demand that you change your plans and attend this dinner to learn, if you do not already know, what has been done and is being accomplished by the only civic organization that functions for the entire people.

We consider that it is a duty that you ought not to neglect. The time is here when Anaheim must take its place with other cities in competition for the many people who are coming to our state to reside permanently.

The question resolves itself into just two things: Shall we sleep on peacefully, or, shall we join in a progressive move that would continue to enhance the value of property and make for contentment. This dinner is in your hands. A splendid program has been arranged. The speaker of the evening will be Rev. Walter Thornton of Fullerton. He is a man thoroughly alive to what a C. of C. does for a community. He is one of the ablest speakers in Orange-co. He will deliver a message at this dinner which will be of great benefit to the entire community. Again we state that it is your duty to be present.

Community singing will be in the hands of H. E. W. Barnes. You will have to go a long ways before you will find a more able leader. He knows how to sing and how to make others sing. It is a pleasure to be under his direction.

Miss Gladys Miller will add

(C... on page four)

WUNDERLICH KILLED AT ALTOONA

ALTOONA, Pa., June 14.—Driving a flashy race and only paced by the other drivers, Jimmy Murphy driving a Miller Special slid over the finish line a winner in the second annual 250 mile race at the Altoona speedway here today.

The race was a perfect classic with the exception of the 161st lap on the one mile and a quarter oval when Jerry Wunderlich, driving a Durant Special crashed off the track, his car flipped over three times killing him almost instantly.

Murphy flashed the distance in two hours, eleven minutes and two seconds and Antoinnet Mourrie in a Mourrie Special, third.

Tommy Milton, in a Miller Special, gave Murphy his only serious trouble early in the race when after the Irishman had gained the lead for a few laps, Milton flew by him to maintain the lead until near the 150 mile post Murphy tore by him, never losing the advantage.

MAKE LONG TOUR

Walter and Lloyd Ross of Anaheim will leave Monday on a long motor trip thru the northwest, which pleasure and business will be combined. They expect to stop at Twin Falls, Idaho, ...land, Seattle, etc. They ... by way of Sacramento and ... Nev. A good deal of the time they will spend fishing. They will go via the valley route and return via the coast route, taking along camping equipment to be used whenever they feel like stopping to fish.

COAST WEATHER

WASHINGTON, June 14.—The weather bureau issued the following forecast for next week.

Pacific states—generally fair in California and southern Oregon and probably showers elsewhere. Temperature near normal.

$1000 FIRE LOSS

A fire broke out this afternoon in the garage of F. B. Dickersen on East Center-st., outside the city limits and destroyed the garage and a new Ford sedan. The origin is a mystery. The local fire department answered but was unable to do much owing to the fact that there is no water pressure at that point it is said. The loss probably ...ched $1000.

3 VILLAGES COMPLETELY WASHED OUT

Large Number Reported Missing; Lowlands Inundated

ATLANTA, Ga., June 14.—Twenty-two persons were drowned and several are missing as the result of a terrific cloudburst which inundated the lowlands of northeastern Tennessee today, according to word received by the southern headquarters of the Red Cross here this afternoon.

The villages of Laurel Ford and Bramer were completely washed away, according to the meager dispatches. Special relief workers have been rushed to the scene.

... 16 persons were killed in a cloudburst which descended near Hampton, Tenn.

Because of the almost complete destruction of communications details are lacking but the d... is ... expected to be much heavier. Property ... be enormous.

At Carden's Bluff, Tenn., near Elizabethton, the body of 6-year-old ... was recovered, washed against a ... fence where it had been lodged. ... cloudburst was so ... force of the ... the neighborhood of ... near Bluff and Hunter, it carried ... a heavy concrete bridge.

Laurel Fork, Hampton and Bramer are three small villages situated in valleys thru which flow small streams. These creeks were suddenly transformed into great walls of water following the cloudburst, according to reports spelling death and destruction everything within their path. ... several places the narrow va... were almost filled with the ra...ing torrents.

A large number were reported missing.

DINNER PARTY ON OCCASION OF GRADUATION

MR. ALAN Rains, member of the '24 graduating class of A. U. H. S., was honored last evening by his brother and wife, Mr. and Mrs. George Lawrence Rains, with an elaborate dinner served in courses. Guests included only members of the two families, Rains and Herzler, and covers were marked by tiny diplomas, tied with white ribbon, for Mr. and Mrs. L. W. Rains, Mr. and Mrs. M. J. Herzler, Mr. and Mrs. George Rains, Miss Marjorie Rains, Clarence Rains and the honoree, Alan Rains.

Broiled steaks formed the "substantial" of the menu, with other goodies accompanying. Pink and white flowers adorned the table and other rooms and nut cups and favors furthered the dainty combination motif.

As the desert course was being served the guests were delighted and surprised as a large white birthday cake with pink candles atop was brought in. This was in honor of the anniversary of Mr. Herzler, father of the hostess, whose natal date is June 15, tomorrow.

Teacher Becomes Bride

The palatial Albert Sitton home on Hillcrest, Fullerton, was the scene of a pretty wedding yesterday, when Miss Miriam Jones became the bride of Walton Daniels. Miss Jones has been a teacher at the high school for a year, and for the three previous years at the grammar school.

The bride wore a lovely white georgette and carried a bouquet of gladioli and greenery. Mrs. Jack Horner played the wedding march. Rev. M. E. Bollen officiated.

An informal reception, to which 18 guests were bidden, was held after the services.

The couple will make their home at San Diego after the return from a honeymoon outing.

Honeymoon at Big Bear

Herman Hiltscher, son of Mr. and Mrs. A. J. Hiltscher of Ramona-dr., and Miss Dorothy King, Fullerton were quietly married Thursday evening at the Presbyterian Manse, by Rev. Graham C. ... attractive traveling gown.

Josephine Margre and Ralph Carhart attended the couple. The bride is the niece of Mr. and Mrs. Harry Shepherdson. The couple left shortly after ... will ... a week.

Steak Bake in Park

Mr. and Mrs. J. Fay accompanied a group of friends, motored to Orange-co park Thursday evening when they enjoyed a steak bake and a sumptuous meal.

In the party were Mr. and Mrs. Lyman Harpster, Mr. and Mrs. Ernest Braunlich and son, Misses Thelma Jones and Pearl Fay, Mrs. Sylvia Johnson and the host and hostess, Mr. and Mrs. Fay.

Visits Eastern Home

Mrs. Mary E. Fiscus, who has spent the past 18 months in California, leaves tomorrow for her home in Indiana. She is pleased with Anaheim and expects to return soon to make her home here.

Former Anaheimers Here

Mr. and Mrs. DeWitt Reese, of Hollywood, were guests yesterday of Mr. and Mrs. Dick Cole, of No. Clementine. The visitors much enjoyed shaking hands with their former town-people who so many times enjoyed their music at the organ in the California theatre, as both of them served as official accompanists there.

Bridal Pair Returns

Mr. and Mrs. Herbert Aelke returned from a honeymoon trip to Grand Canyon and are home at 407 South Indiana-st. ... stopped in Pasadena to attend ... Alumni reunion and dance ... Oaks school of which she is a graduate.

Cypress C. C. Program

Cypress Chamber of Commerce has arranged a very entertaining evening for Tuesday at 8 p. m., a box supper being the feature. The affair is for purpose of raising funds to buy equipment for the C. of C. and farm center, particularly kitchen needs.

The program will contain a number by the Cypress orchestra; reading by Clair Barnett; duet by Mrs. Hunt and Mrs. Williams; reading by Mrs. Hugh LaRue; violin duet, the Fortune sisters; reading, Mrs. Leonard White; song Cypress quartet, composed of Cuthbert Miller, W. J. Rennie, Mrs. Hugh LaRue and Mrs. G. G. Priddy, reading, Monty Inskeep; saxophone solo, DeOle Mosey, with Miss Mae Priddy at the piano; "Mixed Dates," Mrs. H. LaRue, and a closing selection by the orchestra.

Every lady is asked to bring a box which will be sold at auction.

SOCIAL AFFAIR HONORS GROUP OF GRADUATES

A LUNCHEON to the members of the graduating class of '24 who belong to the First Presbyterian church or its Sunday school was tendered yesterday noon at the spacious home of Dr. and Mrs. H. A. Johnston, 104 East Broadway. The tables were adorned with flowers in high school colors, blue and gold. The place cards were tiny diplomas tied with class colors, and the entire effect was more than pleasing. Baskets of nuts and candy were in the chosen colors.

An 'efficiency test' furnished a good deal of amusement in answering conundrums. Mrs. S. S. Collins, toastmistress, congratulated the young folks on the successful completion of this part of their educational program.

Mrs. Collins introduced Mr. F. N. Gibbs, who made some felicitous remarks and set before them a high goal of attainment, urging them to "take time" to make themselves thorough masters of whatever they undertook. Rev. T. H. Walker, pastor of the church, closed the speech making with the thought of the responsible relationship the boys and girls sustain to the progress of the future.

Miss Inez Morris, salutatorian of the class, responded for the honored graduates in well chosen words of appreciation.

After luncheon an ... hour was spent looking ... year since ... school annual ... particularly did the 1914 ... enjoy the groups of teachers in the "good old days."

Pictures of the luncheon group were taken, which, in the next decade, will bring the same amusement to the "grads" of that day as those of a decade ago do to the present class.

Covers were marked for the Misses Floma Schnider, Eileen Drew, Roma Tedford, Marjorie Pibel, Marjorie Lamb, Inez Morris, Thelma Lamb, Catherine Boege, and the Messrs Henry Hodges, Arthur Boege, Merlin Tobin, and Rev. and Mrs. Thomas H. Walker, Mr. and Mrs. F. N. Gibbs, Mr. and Mrs. M. E Beebe, Mrs. Collins and Mrs. Johnston.

Brave Unlucky Date

The Misses Garnita Lane, Eloise Bovee and Grace Bovee and Messrs John Bovee and Eugene Booth enjoyed Friday 13th at Orange-co park. The only misfortune incident to the date was the necessity of pushing the "Lizzie" up the hill.

Mrs. Pressel Gets Prize

A. B. Paul, W. R. C., the official name of the local organization, is more than patting itself on the back today since the reports of the convention in San Diego brought home by the delegates, the Mesdames Ida J. Hughes, Alma Pressel and Loneus, are most glowing. The corps was honored by its treasurer, Mrs. Pressel being presented with a gold fountain pen as the prize for securing the greatest number of new members of the 125 represented in convention. Mrs. Pressel was the only treasurer who won a prize.

As this corps is but one year old, its importance quite outgrows its years. Long Beach showed next largest growth.

The meeting was full of interest and the five days brought thoro benefit to the delegates, who, in turn, will give it to their corps.

Harry S. Miller and family, of 201 North Helena, will leave Sunday morning over the Southern Pacific for Mr. Miller's old home New Market, Tenn. He is buying round trip tickets and plans to return as soon as he can shape business matters to that point, as Mr. Miller is strong for Anaheim and every institution in it.

FAMILIES ENJOY TWO BIRTHDAYS IN SAME WEEK

BIRTHDAYS following closely together were inspirations for two family dinner parties during this week, one for Mrs. Kenneth Nagel, last night in Orange-co park, and the other on Sunday, for Mr. A. Nagel at his home, 146 E. Center-st. Mrs. Nagle and Mrs. Robert Hainlin were hostesses last evening and Mrs. Nagel, wife of Sunday's honoree, on that date.

Barbecued steaks tasted the more juicy for being prepared in the open over the huge grate at the charming resort, and with the other picnic dishes and the delicious birthday cake with the required number of candles a sumptuous meal was served. Mr. Nagle's celebration was also marked by a tasty cake, and on both occasions the honorees were generously remembered with gifts.

Covers were placed for Mr. and Mrs. A. Nagle, Mr. and Mrs. Robert Hainlin, Mr. and Mrs. C. E. Jones, Long Beach; Mr. and Mrs. Kenneth Nagel, Walnut Park; Mrs. George Hainlin, Alhambra; Mr. Owen and Mr. Tumm, Anaheim.

As both were family affairs the same guest list was present.

Golden West Plays Cards

Members of the Golden West club enjoyed the hospitality of Mrs. J. H. Garrison yesterday afternoon.

Five hundred was the chosen game. Prizes were awarded to Msr. Borth, first; Mrs. McCann, second.

A social hour and refreshments followed the games. Guests of Mrs. Garrison included the Mesdames Frank Borth, W. E. McCann, John Cook, Nellie Houts, L. Dahlman, C. B. Douglas, H. P. Campbell, William Houts, H. H. Hansen, F. M. Eden, M. W. Martenet.

Feature Writer to Talk

Mrs. Estelle Lawton Lindsay, who is a popular feature writer on one of the Los Angeles evening dailies, will speak Monday to the Woman's club of Orange on "Uniform Marriage and Divorce Laws." Special numbers of music also are arranged and this, the last meeting of the club year, is a promising one. Mrs. Lindsay appeared before the club several months ago and made a splendid impression.

Local News

Miss Wilytha Hayward will be the week-end guest of Mr. and Mrs. Har... Larsen, at Pasadena.

Paul Gr... and Henry Grussing arrived home last evening to spend the summer with their parents. They have been attending Concordia College at Oakland.

Mr. and Mrs. Warren Mercer, 536 So. Resh-st., are entertaining over the week end, Mrs. E. Scheunberger of Long Beach and Mr. and Mrs. E. E. Guy, Los Angeles.

Wm. Staley and party of three left yesterday over the U. P. for Hecla, So. Dak.

F. L. Andrews left yesterday over the U. P. for Pocatello, Ida.

George King of the local office of the Union Oil Co. was in Los Angeles yesterday.

H. O. Brecount and C. J. Stiff of Tecate, Mexico, are stopping at the Antlers Hotel.

Mr. and Mrs. John Lippett of Stroud, Okla., are visiting at the home of Mr. and Mrs. James E. Stewart on Kroeger-st.

Miss Nan Wilcox of Stanton has accepted a position as stenographer with the Stewart Realty Co.

Mrs. G. W. Carter of Garden Grove is a patient at the local sanitarium.

Park, Colo., and daughter, Mrs. A. E. Ritchie of Greeley, Colo., left today for their homes, after a visit with Mr. and Mrs. E. J. Van Dyke. They were all former friends in Cedar Rapids, Iowa.

Mrs. Charles Gleavis and daughter Gladys sailed today on the Harvard for their future home in Redwood City.

Mr. and Mrs. Welcome M. Ward and son of Santa Paula were guests today of Mrs. H. K. Boyd. Mr. Ward will return tomorrow but Mrs. Ward will be here the remainder of the week.

Miss Callye Sparks will pass the week end in Los Angeles.

FULLERTON BRIEFS

John Flenning of Brea and Mrs. F. W. Handel of Shafter are at Fullerton hospital.

Mrs. Victor E. Tenney leaves over the Santa Fe for St. Louis, next week. Other passengers over the Santa Fe: Mrs. Margaret Graham, and daughter Geraldine, and son, Raymond, Des Moines, Iowa; Mrs. Beulah Graham, Dallas; Mrs. Dewey Porter, Dallas.

Mrs. Lillian J. Miller and son left last night over the Santa Fe to accompany the body of husband and father, Frank Miller, to Genoa Junction, Wis., for burial.

Visitors are expected Tuesday from the Retailers convention at Los Angeles to inspect the Orangethorpe Citrus Ass'n packing house, and the Placentia Orange Growers Ass'n packing house in Fullerton. Other delegates from the convention plan to visit orange packing houses in Anaheim.

American Legion Auxiliary held a cooked food sale today at the Rialto theatre lobby for vets at Camp Kearny.

Mr. and Mrs. J. E. Seale have moved from 816 No. Spadra-rd to 129 East Chapman-ave, just west of the funeral parlors. This place was recently purchased from Argus Adams for $10,000.

"Girl Shy" Proves Versatility of Lloyd

Variety is the spice of life, and it is also the secret of success in making good motion pictures. Many stars fall into a rut because they insist upon making the same line of pictures and using the same kinds of characterizations. They never change because they feel the public is used to seeing them in a certain type of picture.

Such is not the case, however, with Harold Lloyd, whose latest feature Pathe-comedy, "Girl Shy" will be seen for 4 days starting tomorrow at the California theater. Harold has fortunately discovered that "mixing them up a bit" is the secret of success. He has never made two comedies even remotely alike, considering his big hits, "Dr. Jack," "Safety Last," "Why Worry?" and now "Girl Shy." He has jumped from small town situations to a South American revolution, from portraying a doctor to a ribbon clerk. Now in his latest, he has again striven for something different from anything he has ever made. He is seen in "Girl Shy" in an entirely novel characterization, as a bashful small town boy who is an apprentice to his uncle, a tailor. He makes a secret study of girls, although not a very accurate one, and the more he studies them, the more he fears them.

The cast of "Girl Shy" includes Jobyna Ralston, who plays opposite Lloyd. She made a big hit in her initial appearance with the comedian in "Why Worry?" which resulted in her being signed by Lloyd to a long term contract. Her excellent work in "Girl Shy" is said to be one of the contributing factors in its success. Others in the cast are Richard Daniels, who plays the role of Lloyd's uncle in the film, and Carlton Griffin, playing the part of a wealthy young idler. Fred Newmeyer and Sam Taylor, who co-directed "Why Worry?" also wielded the megaphone on this new mirth provoker, which was taken from a story by Taylor, Tommy Gray, Ted Wilde and Tim Whelan.

A Fable, "Good Old College Days," Kinograms and an organ solo by Arch B. Fritz, complete a very clever bill.

Last times tonight, Mae Murray in "Mademoiselle Midnight."

STARTLING COMEDY AT THE UNITED THEATER

Laura La Plante starring in "EXCITEMENT" A UNIVERSAL PICTURE

Laura La Plante's first starring vehicle, "Excitement," to be shown at the United Theater Sunday and Monday. Lives up to its title throughout, because of its incessant run of thrills.

You can't come to the United Theater and expect to steal a little sleep, because Miss La Plante's initial offering is a real sandman chaser. The picture relates the life of a girl whose dialy routine was crowded with all kinds of excitement from Fox hunting and motor cycle riding to daring airplane maneuvers. The airplane stunts are so daring and thrilling that they just simply take one's breath and hold you spell-bound in wonder. They are better than an airplane circus. But the airplane stunts are not the only thrillers, the picture is overflowing with them.

Miss La Plante is a beautiful new star and has a very pleasing personality, which is proven in this picture. She is well supported with an excellent cast, Bert Roach, Edward Hearn, William Welsh, Rolfe Sedan, and Albert Hart.

No Swim, Pool Dry

"The Sharks," members of the Business and Professional Women's swimming club, went to Long Beach last evening for a swim, but were cheated out of the pleasure as the plunge was dry.

A Chinese dinner was enjoyed at the Dragon Cafe, and later in the evening the amusements of the pike were visited. Dancing also was a pastime.

Miss Leora Healton is chairman of the swimming club and took the following on the trip: Misses Callye Sparks, Blanch Mickle, Stella Bastian, Lucille Bastian, Naomi Nenno, Lucille Nenno, Dorcas Jacques, Lucille Perry, Stella Jackson, Gladys Neff, Helen Melhorn, Helen Weber, Mrs. C. B. Goodson, Dr. Bessica Raische, Katherine Raische, Miss Johanna Erickson, Mrs. Agnes Saviers, and Sybil McGee, Fullerton and Ione Calkins, Wisconsin, guests of Miss Melhorn.

LOS ANGELES, June 14.—Atlantic City, N. J., was today selected as the meeting place of the biennial convention of the general federatoin of women's clubs in 1926.

The 1925 council of the federation will be held in Oklahoma City.

BILLY WHISKERS

BY FRANCES TREGO MONTGOMERY

Billy had just discovered a soft pile of black dust under the window.

"When I jumped, I'll land on that so it won't hurt me a bit even if the window is high from the ground. Besides, the dirt will soil my white coat so it will help to disguise me."

Listening to see if any one was astir, and hearing no one, he quickly climbed up on the manger and with a big spring went thru the window clean as a whistle, and landed splash! in the black, soft dirt, sinking in up to his stomach. Then to make himself still dirtier, he rolled over and over in it, until he was a black goat from head to foot. He waited until the sentinels tread was lost in the distance the other side of the stable. Then he crept out and, keeping in the shadows, he arrived at the back of the Red Cross hospital. Here he found an ambulance about ready to start for the front, and as before, he got in and lay down at the end opposite from the door, curling himself up in as tight a knot as he could. And presently he heard the doctor in charge of the ambulance give the order to start.

Over the cobblestones they went, thru the gates of the village and out into an inky black country road that turned and twisted so much that Billy thot the motion was exactly like a snake wriggling along on the ground. And he was beginning to get seasick from the peculiar motion when the ambulance stopped and the doctor got out and went to meet some stretcher bearers bringing in some wounded.

The minute Billy heard his steps growing fainter and fainter in the distance, he jumped out and ran in the opposite direction, little caring where he was going as long as he got away and they could not take him back to camp. And he laughed to himself to think how he had fooled them all and given them the slip.

"My! Won't the General be surprised when he finds I am gone? I think I will just wait here until morning, for it is so dark I might wander inside the enemy's lines and not know it.

"How I wonder where my master is! And how I wish he had not said he was going so far away! He said by horseback, train, boat, and foot. He must be going to Constantinople, Persia or some of those cities and countries away south of here. So I suppose the best thing I can do is to wait and be right here when he comes back. Or I could travel around and see the country at our rear and then when I think it is about time for him to return I could unexpectedly turn up at camp and surprise them all. I'll just take a good long sleep here in this clover and get a good rest and then I will feel fresh to begin my travels in the morning."

(Tomorrow Billy starts forth in search of new adventures.)

MAY NEVER KNOW CAUSE OF EXPLOSION

(Continued From Page One)

Greatest of the tributes paid the dead sailors came from the pale lips of the ill-fated man-of-war's commander, Captain W. D. Brotherton.

"They all did their duty as men and I have nothing but praise for them," Brotherton half sobbed on the witness stand.

In his recital of the great sea tragedy, Brotherton, as well as Ensign J. J. Levisseur of the New Mexico and Commander Joseph H. Trainer, chief medical officer of the Mississippi, could find nothing to aid in revealing the cause of the blast and it becomes apparent that probably the circumstances surrounding the explosion will never be known.

Nothing has been told either by witnesses to explain how a second explosion rocked Los Angeles harbor, sending a shell in the path of the Steamship Yale, after the stricken Mississippi had returned from sea, four hours after the first accident.

Testimony of the Mississippi's own officers was that the doors of turret No. 2, where they said "something went wrong" with a big 14-inch gun, were melted like wax, then fused to the floor.

Ensign Donald Smith, with a gas mask, entered the sealed cauldron first thru the one flame proof hatch on the turret and then the terribly gased and burned bodies were carried out one by one.

The first bodies found were jammed tight against the hatchway.

Long after the explosion it was impossible to breathe in the turret filled with lethal gas, which must have sent the gunners to their death almost instantly, the o... ers testified.

F. J. Rynes, turret captain, ... be the most important witness ... fore the inquiry, it was learned today. He is badly burned and may not be able to testify for days.

Rynes' story is particularly wanted by the investigators as he was directly in charge of the turret.

Captain Brotherton's testimony completely absolves the officers and men of any blame for the disaster.

The naval board, appointed by Vice Admiral Henry A. Wiley, is comprised of Captain Yates Sterling of the U. S. S. New Mexico, Captain W. S. Crosley of the Idaho and Lieut. Commander E. J. Foy of the New Mexico.

Lieut. Commander T. S. Boyd, judge advocate, is suestioning the witnesses.

As the exhaustive inquiry of the sea catastrophe continued today, Los Angeles prepared to pay a great tribute to the dead gunners Sunday. All societies, clubs and conventions have suspended programs and acting mayor Boyle Workman has declared the city in morning.

The hospital ship Relief still held its ghastly cargo of dead, dying and seared men early today. When the bodies will be removed and sent to their final voyages to their homes in every section of the country is not known.

CALIF. HOTEL FULLERTON

A. C. Hann, San Diego; H. J. Thompson, J. E. Hart, R. N. Brown, G. F. Brown, W. W. Starr, Los Angeles; and Wm. G. Lyon, Chicago.

Visiting Parents Here

Mrs. A. E. Klassen, of Ventura, has been the guest of her parents, Mr. and Mrs. A. Chapman, 131 Elm-st., since Thursday. She will be joined by Mr. Klassen this evening and together they will return home Sunday evening. Miss Lorraine Williams, who is making an extended visit at the Chapman home, her grandparents, is enjoying a two weeks visit in Oceanside with her father.

HUNDREDS OF CHAUFFEURS FAIL TO TAKE OUT LICENSES

REMOVAL OF CHALK MARK CRIME

Many Cases of It, Says City Marshal, Threatening Prosecutions

Drivers who remove the chalk marks from their cars so as to conceal the length of time during which the cars have been parked—and there are many instances of this being done here—will find themselves prosecuted one of these days, says Bert Moody, city marshal. In fact, Moody is itching to get the evidence required to teach one of these people a lesson, and when he does he will make an example of him, he declares.

It is a misdemeanor to remove the marks. In fact, some of the police believe it constitutes interference with an officer while enforcing the law, which is classed as a felony.

During the first few weeks when the new parking ordinance was in effect, Center and Los Angeles-sts were half deserted. Business probably has improved since then, but anyhow the two streets are becoming filled up again.

The law requires only that a car must not occupy the same position for more than two hours, Sundays and holidays excepted. This permits anybody, by moving his car even a few yards before the two hours are up, to continue parking indefinitely.

No distinction can be made between the man who really has occasion to drive out for a few minutes and then return, and the one who merely moves his car in order to retain a place and keep within the law.

The city marshal would prefer, he says, to leave it to the honor of the merchants and their employes to conform to the spirit of the law as well as the letter and help keep the streets clear for people who come to town or come downtown to trade.

Concrete Highway Costs to Be Cut

Orange county may be saved many thousands of dollars, to be made available for new construction, if a plan put into effect this week by the state highway commission works out satisfactorily. The scheme is to use calcium chloride—already successful in keeping down the dust on dirt roads—to draw water from the atmosphere in order to harden new concrete roads. Ordinarily these have to be flooded with water, which is kept in place by "cultivating the dirt placed upon the new paving. The present method is arduous, tedious and expensive.

ANNUAL PICNIC OF RILEY CLUB IS ON

Today's and tomorrow's picnic of the Harry D. Riley organization at Trabuco canyon will be marked as usual by a full program of games for the men, women and children employes, hikes, radio music, etc. There will be a score or two of events with prizes awarded in each.

The sports were scheduled to start this afternoon at 2 o'clock, continuing until supper time.

One of the hikes will lead to Trabuco Hot Springs.

The following committees of the Studebaker club, under whose auspices the picnic is to be held, arranged the program: Eats—C. A. Hammons, H. E. Black, Felton and Morton; entertainment and sports—Harry D. Riley, O. L. Dickenson, Torres and Garrick; grounds and conveniences—Hebderson and Payne; "K. P.s"—Ransom, Colean, Ballou and Wedge; lemonade and coffee—Bruce; cups, plates, etc.—Kluthe.

WITHERS GETS OAKLAND

Harvey Withers this week purchased a standard Oakland touring car of Harry L. Turton, Northern Orange-co distributor.

115000 SIGNS NOW ON ROADS

Spread Over 30,000 Miles Says A. C. S. C.; 1924 Cost $120,000

"By this sign ye shall know."

This was not written of the highway markers in Southern California, but it might well apply. This season, more than ever before, will the motorist have his pathway pointed out by enameled steel signs and his safety assured by warning of grades, railway crossings, slippery hills, fire stations, and dangerous corners.

A check shows that in the 30,000 miles of paved and secondary highways in this section there are placed nearly 115,000 signs of more than 30 classifications. The job of bringing this high state of efficiency has been going on for 10 years and is still going strong. The work is done by the sign-posting department of the Auto Club of So. Calif., which has 21 men and seven trucks in this service. During the past 12 months these trucks have covered 122,441 miles, or a distance equal to nearly five times around the world.

So completely has the work been done that today about 70 per cent of the effort is in maintenance and renewals. Last year there were placed 7000 signs looking to safety of drivers. Temporary signs denoting detours, closed roads, danger, etc., numbered 6,422 and direction signs 6566.

While this service, primarily began for the benefit of club members, the sign posting is one service that every resident motorist has cause to appreciate and it is especially valuable to the 250,000 visitors from other states who

(Continued on Page 3)

Underinflation of Balloon Tires Highly Injurious, Makers Say

Though balloon tires are made to be used at low air pressure, it does not follow that any old pressure will insure maximum mileage from the tire, engineers of the Goodyear Tire & Rubber Co. point out.

Owners of cars with balloon tires should never let the pressures drop more than 10 per cent below the recommended inflation for a normal load. For instance, if the recommended pressure is 30 pounds, the absolute minimum is 27 pounds of air, below which the tire is certain to suffer damage.

The accompanying table of pressures for a normal load with balloon tires is given for handy reference.

*Maximum desirable load.

Inflation Pressure	Cross Section Size and Load Per Wheel					
	4.40	4.95	5.25	5.77	6.20	6.60	7.30
22	500	.....	700	.....	900	.....	1150
24	550	.....	760	.....	980	.....	1260
26	600	725	820	880	1060	1160	1370
28	650	780	880	950	1140	1250	1480
30	700	835	940	1020	1220	1340	1590
32	*750	890	*1000	1090	*1300	1430	*1700
34	800	945	1060	1160	1380	1520	1810

FORD OPERATES OWN LAKE CRAFT

A new development in Ford industry came recently when the lake freighters Onandaga and Oneida sailed from the harbor at Toledo, the first Ford-owned vessels to carry Ford coal to Ford properties in the upper peninsula of Michigan.

The coal, brought up from the Kentucky mines on the Detroit, Toledo & Ironton R. R., was delivered to the dock at Toledo and there loaded into the vessels. The Onandaga sailed at 1 a. m. with 2800 tons of coal and the Oneida at 5:45 with 2900 tons.

The coal will be delivered at Menominee, Mich., for rail shipment to Ford Motor Co.'s plant at Iron Mountain, and returning, the boats will load lumber at Ford mills at Pequaming and Alanso, Mich., for delivery to the River Rouge plant, Dearborn.

The two vessels will be used principally for carrying coal north and lumber from the Ford mills to the Rouge plant. Coal will continue to be loaded at Toledo as all such time as boat loading facilities are complete at the River Rouge dock.

The Oneida and Onandaga were recently purchased by the Ford Motor Co. from the American Shipbuilding Co. The vessels are of steel, the same size, 261 feet over all with 43-foot, 6-inch beam, and each has a capacity of around 3800 tons.

The Oneida was conditioned in Detroit and the Onandaga at Buffalo, both being converted to oil burners.

These two vessels, with the big steel freighters, the Henry Ford II and the Benson Ford, both of which will enter service in July, form the first units in the Ford fleet on the Great Lakes.

BUICK IS BETTER; BUYERS PROVE IT

It isn't strictly new, says Bill Goodrum of the Motor Sales Co., Inc., but some Buick and non-Buick fans probably don't know that during April Buick stood first in sales among all cars selling at over $450 in two of the three most populous counties of the state, and in the four months led among sixes in the third.

In Los Angeles-co 399 Buicks were sold during the month, against 340 for the second car, 327 for the third and 216 for the fourth. In Alameda-co, where Oakland is located, 74 Buicks were sold against 67, 54 and 26, respectively, for the cars next in line; in San Francisco-co, Buick led in the first four months with sales of 425 cars against 343,225 and 211, respectively, for the others. The last figures given apply to six-cylinder cars only.

The Howard Automobile Co. has added something to the familiar legend "When better automobiles are built—Buick will build them." "And the public will buy them," says Howard.

PLENTY TO DO AT S.R. WALTER'S SHOP

The Anaheim Vulcanizing Works now has room for ten cars at one time, and with F. S. Dunlop on the job service as good as any available in the county may be had.

A lot of waste space has been cut out, including a long piece of counter that Dulop didn't find necessary. Last Sunday Dunlop worked from 7 a. m. to 6 p. m.—he couldn't get away from the shop, even tho he wasn't prepared fully. The repair machines have been lined up, materials and supplies arranged in a convenient way and all is ready for business. Sr. R. Walter personally is in charge of sales.

POWERFUL MOTOR ON SMALL CAR TOO

People usually think of only the large cars as possessing powerful motors, says Bill Hauser of the Frank C. Taggart Co. Yet the Chevrolet has always been pre-eminent for its engine, which is equal to any grade used.

Its efficiency is due to various features, chief among which are valve-in-head construction, modern distributor ignition, ample cooling system with honeycomb radiator and water pump, efficient carburetion, and pump circulation of oil.

A positive cone clutch insures that the full power of the motor gets to the rear axle.

To recive and handle this power without breakage the axle is fitted with spiral-bevel gears—strong and quiet.

Standard transmission is used—three speeds forward and one reverse. Gearshifting is easy and seldom necessary because the powerful, flexible motor operates perfectly in high gear at 10 miles per hour or less, and will usually carry a five-passenger load up steep grades on high.

Large brakes assure quick stopping ability. A 57 per cent increase in foot brake leverage with a 30 per cent increase in braking surface provides positive operation with less effort, long life and dependability.

GRAHAM CHASSIS HAS MANY USES

The chassis of the Graham Bros.' truck, which Charley Mann distributes along with the Dodge, is adapted to many different ends. Panel trucks, express trucks, tank trucks, bottlers' trucks stake trucks, dump trucks with or without hydraulic hoist, stock rack and farm trucks, furniture trucks and canopy trucks are only a few of these purposes.

The chassis is equally well-fitted for passenger bus bodies of many kinds.

Laundry and camping bodies, ambulance bodies, ice delivery bodies, and sample display bodies are among the special bodies that are put on this fine chassis.

The power of the Graham Bros.' truck under difficulties is becoming as well known as the economy of the Dodge. The truck also is economical, both in first cost and maintenance.

FREE WHEELS, RIMS GIVEN WITH TIRES

Anybody who really wants balloon tires is afforded a unique opportunity with the announcement by James, the Vulcanizer, that a complete set of four wheels and five rims will be given away free until further notice with every set of five Goodyear balloon tires and tubes purchased.

There isn't a better balloon tire made than these, says James, James also carries Hood, Horseshoe and Federal tires and tubes.

Motor travel has been steadily improving, he reports, since the relaxation of the foot and mouth quarantine regulations, and business has increased correspondingly.

INLAND WAY TO SOUTH PAVED NOW

The inland or valley road to San Diego now is open all the way to San Diego, excepting two short detours just south of Bonsall. These don't really amount to anything.

The route offers a pleasant circuit for those who don't want to take the coast route both ways. The latter has about 16 miles of pretty rough detour in three pieces but a 9 or 10-mile detour from Oceanside to Vista via the inland route enables the tourist to avoid the former bad spots, if he is willing to forget about the Torrey Pines grade and view.

FOREST FIRES IN STATE GROW

Campers Worst Offenders; 303 Blazes so Far During 1924

California is face to face with the most dangerous fire season in its history.

The forest fire menace to California's timber resources is more serious now than ever before in the history of the state.

Forest fires to date number 303 138 of which were caused by campers, 7,825 acres of National Forest land burned and 7,372 acres of private land adjacent thereto. These are the words of warning sent out by the Forest Service through the National Automobile Club Touring Bureau to the motorists of the state.

Extreme care is urged upon everyone who goes into the mountains to reduce the fire hazard to a minimum. Every single spark of burning matches, cigarettes, and tobacco should be thoroughly extinguished before being discarded and campfires should be deluged with water and covered with earth before being left.

The motor car owner is part owner of the National Forests as they were created by the Federal Government for the use and enjoyment of the public and for this reason, the co-operation of every visitor into the great vacation land of the National Forests is necessary in order to preserve for themselves and for succeeding generations, the treasury of beauty which nature has prepared.

The worst fire this year has been in the Klamath forest where 4710 acres have been devastated. The slight rains of last winter and the lack of snow have rendered the whole mountain district as dry during the spring months as it is usually in mid-summer.

Help prevent forest fires—it pays!

Fewer Accidents Per Car Is Claim

In spite of the fact that there has been an increase in the number of accidents from motor car operation every year this increase has not been by any means in proportion to the number of vehicles manufactured, says the National Automobile Club and Safety Bureau. This indicates that individuals are becoming more careful, and that automobile mishaps may be reduced in spite of increased congestion on the streets and highways. If the automobile of today was as deadly a weapon as it was twenty years ago, the death rate would be three times as great. A close study of the whole situation of motor car accidents brings out the following points:

Are eight "bad spots" in the motor car accident situation are:

1. Children playing in streets.
2. Blind crossings.
3. Big, slow moving trucks or buses on narrow highways.
4. Road surfaces that are slippery.
5. Sharp curves.
6. Grade crossings.
7. Reckless drivers.
8. Thoughtless pedestrians.

10 CARS SOLD AT TURTON'S MARKET

Harry L. Turton has sold ten more cars since he took over the Certified Motor Car Market, formerly controlled by the Orange-co Motor Car Dealers' Ass'n. Turton bought out the place on June 1, putting in Herb Davis, executive secretary of the association, as manager.

State Traffic Squad Finishes Drive in County on Monday

Hundreds of Orange-co chauffeurs have failed to take out their licenses, part of many thousands in the state, Captain H. S. Warner of the State Motorcycle squad declared today at Santa Ana, on the eve of the completion of a County-wide drive. Anaheim chauffeurs have been as lax as those in other points of the county, the proportion running pretty strong everywhere, according to Warner.

At the direction of Will H. Marsh, head of the State Division of Motor Vehicles, a State-wide investigation has been in progress following complaints which showed that chauffeur delinquents numbered 40 more than last year.

The headlights of more than 3,000 cars in the county were examined during the recent drive, Warner reported. Two weeks was spent off and on at the work, which was largely at night, two nights each being given to Anaheim, Fullerton and other points and five to Santa Ana.

A remarkable series of bulletins on camping, fishing, hunting, swimming and yachting has been issued by the Auto Club of So. Calif. The point in question is described, its attractions, the hotels, and how to reach it.

CHURCHES

Will the pastors or those in charge of the Sunday service church announcements kindly bring in the copy for their services by 2 o'clock Friday afternoon, as the church announcement column is made up at that hour and those brought in afterward are regretfully but necessarily left out. The Plain Dealer is anxious to print all church news possible and will appreciate this co-operation.

METHODIST WHITE TEMPLE —James Allen Gittinger, D. D., Minister. Sunday school 9:30, George H. Tedrick, Supt.

CHURCH OF JESUS CHRIST, THE LATTER DAY SAINTS—Woodman Hall, Corner Chestnut and Lemon-sts. Sunday school 10 o'clock. Preaching services 11:15.

NO VACATION FOR FORD EXECUTIVES

DETROIT, June 14.—Office employes and executives of the Ford Motor Co. will go without their customary two week's vacation this year under an order that went into effect today.

About 23,000 men and women are affected.

Beginning today the Ford offices are to go on a five day a week schedule. For the next 12 weeks these Saturdays off for the office employes are to be in lieu of the summer vacation each has received in the past.

If the five day week is continued in force after the end of 12 weeks, the pay of the employe is to be cut in proportion, they are notified.

Six weeks or so ago the factory employes were put on a five-day basis. They have never been given vacations.

Henry Ford's views, as expressed by some of the executives, is that if the factory can accomplish all the required production in five days a week, it should not take longer than that for the office personnel to supervise production.

ITALIAN DEPUTY KIDNAPED, SLAIN

ROME, June 14.—Giacomo Matteoti, rich socialist member of the chamber of deputies, who was mysteriously kidnaped while walking in the street with his wife four days ago, was stabbed and beaten to death in a woods 30 miles from Rome, according to information obtained from the gendarmerie.

It had previously been reported that Matteotti was in a hospital alive, but in a serious condition from the attack upon him.

Political adherents of Matteotti claim the kidnaping and assault was the work of Fascisti.

Premier Mussolini promises the most drastic punishment of the guilty.

Rademacher, a Bavarian, holds the world's 100-meter swim record, time 1 minute, 15 seconds.

BALLOON TIRE SEEN AS ANOTHER CREATION MEANT TO PLEASE "HER"

Women are not only the deciding factor in over 90 per cent of automobile sales, but they are also bringing the equipment and entire fittings of the automobile to a higher standard. They have been largely responsible for the development of the balloon tire.

During the past few years there has been a practice, more or less, of running the car on underinflated tires. Although the low pressure offered excellent riding comfort, the heavy side walls of cord or fabric would not stand up under this repeated practice. Thus it became necessary that tire men should produce a tire with lighter walls which would contain more air space and could, therefore, operate safely on lower pressure. Manufacturers then produced the balloon tire, which answered the demand for a low-pressure tire that would give long mileage.

"Many car owners would like to equip their cars with these husky tires, but do not feel as though they can afford the cost of changing the wheels and rims on their car," says K. M. Brown, local manager of the Western Auto Supply Co., so a number of the leading manufacturers have made balloon tires that fit the car's present equipment.

"Among the new arrivals in this field, is the Western Giant balloon tire, which is sold thru the chain of 100 Western Auto stores in the west. Although they fit the standard equipment of all cars, they produce the super riding qualities that the other balloons afford that are made for the small wheels. They have the same features; easy riding over rough roads, decreased vibration, give better traction and prevent skidding.

"Women are buying as many of these tires as the men, reports our tire manager, as they are quick to appreciate the easy riding qualities that only balloon tires offer."

RADICAL SOCIALIST PREMIER OF FRANCE

PARIS, June 14.—Edouard Harriot, radical Socialist and one of the commanding leaders of the left bloc which forced ex-president Alexandre Millerand from office, today accepted the premiership of France and agreed to form a cabinet.

Harriot was summoned to the Elysee Palace by President Doumergue. Upon leaving he said.

"I have agreed to form a new cabinet. I intend to hold the portfolio of foreign affairs as well as the premiership myself. I will go to London next Saturday for a conference with Premier Ramsay MacDonald of England."

The new cabinet will be composed of members of the Herriot wing of the left bloc parties. This will give the left bloc political group compete control of the government.

U. S. FLIERS WAIT FOR NEW MOTOR

HONGKONG, June 14.—The army round-the-world aviators are still delayed in French Indo-China and advices from Turano today said it was not known when they would be able to continue.

The airmen are waiting for a new motor for Lieut. Lowell Smith's plane which was forced down at Hue, sixty miles northwest of Turane.

Lieut. Erik Nelson and Lieut. Leigh Wade reached Turane, which is 450 miles down the Chinese coast from Taiphong.

10 DIE IN WRECK

BERLIN, June 14.—Ten persons were killed and scores wounded in a train collision at the Berlin railway station today.

Constantly Improved
But No Yearly Models

Dodge Brothers Motor Car retains its basic design year after year.

Improvements are made constantly, but there are no radical, annual changes.

This policy protects owners from the rapid depreciation-loss which invariably attends the periodic announcement of new types.

It also enables Dodge Brothers to effect an appreciable saving in manufacture; and this saving is faithfully returned to the buyer in the form of surplus value.

BLUEBIRD DEMAND MOUNTING IN SOUTH

If one-half of the people who have said that they have definitely decided on one, actually would go through with their purchases, there will be so many Overland Blue Birds in Southern California, in the next month or two that the boulevard will look like an exclusive Blue Bird parade, according to word from dealers all over the territory who simultaneously staged Blue Bird debuts last week.

With summer weather prevailing, the quarantine practically a thing of the past, and all the pent up urge for outdoor travel expressing itself all at once, the light, inexpensive, good-looking sport car is the favorite, the dealers say

The Overland Blue Bird designed especially to meet just that sort of demand arrived just at the psychological moment. And as it is the newest model of its kind to be presented, it is attracting an exceptional volume of atention, according to the dealers check of visitors to Willys-Knight show rooms, last week.

The new Overland Blue Bird is equipped with full balloon tire and disc wheels. It is said to be the lowest priced car on the market carrying balloon tires as standard equipment.

Those who have seen the car say that it is the most striking design yet evolved by the Willys-Overland engineers.

A new standard riding quality reached by coupling the patented triplex spring suspension with balloon tires the dealers say.

The power plant is identical with that which for several months past has been showing its stamina and power in the most difficult road and mountain tests all over the country.

"A ride in the Blue Bird will surprise you" is a slogan used by the local dealers.

OPEN SCHOOL FOR AUTO SALESMEN

The Willys-Overland factory has felt the necessity of having men in their organization in the capacity of salesmen, capable of going out to the public, prepared for any emergency.

They feel that the day has come, when a salesman goes out to sell a car that he must know thoroly the product he is selling and be able to answer any question that the prospective buyer may chance to ask.

To gain this point the Willys-Overland Factory, has sent a factory engineer to Los Angeles to train new men to sell the Willys-Overland products.

For the past week this course has been given to Willys-Overland dealers and sales managers. W. R. Schanhals, local dealer has attended.

Schanhals states that this training is the best that he has ever had the opportunity to attend. Because it deals directly with problems that confronts the automible dealer and salesmen, of this particular community.

Starting Monday evening, the salesmen's schol opens, for the purpose of training new automobile salesmen, as well as refreshing and helping some of the old salesmen.

This course is absolutely free, and is open to any one that wishes to attend.

To those who attend and pass the examinations, will be given a chance to sell Wellys-Knight and Overland cars if they wish to do so.

Get in touch with W. R. Schanhals, local Willys-Knight and Overland dealers by Monday evening if you wish to take up this course of instruction.

Franklin Camel Doesn't Mind 137 Degrees of Death Valley

Climbing sand dunes for pleasure when the mercury hovers around the 137-degree mark in the sun may sound far-fetched, but nevertheless that was the favorite sport of the Franklin party that invaded Death Valley recently.

As the picture shows the Franklin Camel II, air-cooled scout car, picked out some steep ones, but with the assistance of Goodyear balloon tires even 25-foot high dunes were conquered with comparative ease. However, anyone who anticipates that balloon tires alone will enable him to gallop all over the sand dunes in Mesquite Flat, Death Valley, is quite likely due for a shock when he tries it, for it is a matter of record that only three cars have ever crossed the six-mile stretch of dunes from Stovepipe Well west—and all of the three were Franklins.

The famous old Franklin Camel I, first of the line, conquered the shifting dunes from east to west in December, 1921, and this year two Franklins, including the Camel II, literally played leapfrog in them, crossing from west to east. And not only that but both these latter cars carried loads in excess of 1100 pounds. Being air-cooled they were not bothered by boiling, so high temperatures mean nothing to a Franklin.

INTERESTING "AD" OFFERS BEST CLUE

"Read the advertisements about garages. Pick the garage that rouses your interest, and see if they can still hold your interest."

This is some of the advice handed out to strangers who want to get good work done and don't know which place to patronize by E Vrooman of the Commercial Garage, at Olive and East Center streets.

Vrooman is constantly picking up new ideas with which to improve the service he gives patrons. He specializes on Overland, Willys-Knight and Jordan cars, but does general repair work.

NOTICE. INDIANANS!

All former residents of Indiana now living in Orange-co, Calif., will hold the annual picnic Thursday, June 26, in Orange-co park. Invite all your friends and bring baskets well filled and let us have a big time. A good program will be rendered on the occasion. Don't forget the day and date. Community dinner served promptly at 12 o'clock.

Your Car

Don't bark at the old bus. It isn't the car's fault They don't last forever, you know.

No self respecting owner of a classy car would think of starting out to his office in the morning without inspecting his shoes, hat and in fact his whole wardrobe Why neglect his car?

It is wise to carry along an extra gallon of oil on a trip these hot days. Often the unexpected happens. Springs also should be examined for broken leaves before taking a trip of any distance. Keep the front wheels in mind and remember they need to have grease and also to be properly adjusted. Otherwise you can ruin your front tires in a jiffy.

Keep your tools, including jack and pump, where they can be easily reached. Most motorists pack every thing on top of their tools and then have to dig and dig in case of trouble with a tire or part.

Tires should carry less pressure in warm weather than in the cooler months.

Dozens of letters are being received by the foreign trade bureau of the Los Angeles Chamber of Commerce from German firms seeking a market there for torchon laces, ribbons, braids, trimmings, plushes and velvets.

An increase of $8,154,337 in goods purchased in Los Angeles by Chinese firms is shown for 1923 as against figures for China purchases in 1922.

STUDEBAKER SECOND OVER TIOGA ROAD

CAMP CURRY, Yosemite, June 14—The second car to arrive in Yosemite via the Tioga road is now at Camp Curry. It is a Studebaker Big Six, driven by E. Holland and N. J. Kuglis of San Pedro, California. It only took the Studebaker two days to come from Meno to Yosemite, much of the obstructions on the road having been broken through by the first car over the road, which took 18 days to make this distance.

Motorists are cautioned against attempting this trip until the Tioga road is formally opened by W. B. Lewis, superintendent of Yosemite National Park. Weather conditions may melt the now solid snow at certain points of this road at any time, and no one should try to come into Yosemite by way of Tioga until the park superintendent declares it open and in good conditions.

Mr. Holland and Mr. Kuglis came from San Pedro via Los Angeles, Mojave and Bishop to Mono.

STUDEBAKER SALES

Sales of Harry D. Riley, Studebaker distributor, include this week a special six coupe to Miss Louise Backs and light six Golden State sedan to J. P. Varner of Fullerton vicinity. R. H. Fishering and L. G. Purdy, both of Anaheim, also have purchased cars.

CAMP ROKILI TO OPEN JUNE 25TH

According to announcement made at Scout Headquarters today, all plans are being rapidly completed for the opening of Camp RoKiLi, the Orange-co Boy Scout Camp, located in the San Bernardino Mountains, on June 25th.

Slight extension in the water line is being made this week-end by members of the Camping Committee, who journeyed to Camp today. Several truck loads of supplies have already gone to Camp, and on Wednesday of next week, Mr. Victor E. Teaney, who will act as Camp Director of the Camp, will take a group of boys in, who will make the final preparations to receive the larger delegation scheduled to arrive on the 25th.

The equipment of the Camp has been enlarged so that a larger capacity can be taken care of this year than ever before, and in order to make it possible for San Bernardino County Boys to have the advantage of Camping this summer, arrangements have been made to have San Bernardino join with Orange County at the Camp. The San Bernardino County Council has selected a site near by which they will have the boys work on at intervals during the summer, so as to be fully prepared for next year's Camp. This will make three large Boy's Camps within a very short distance of each other. The Orange County Y. M. C. A. is located just a short distance from Camp RoKiLi.

All Scouts expecting to go on the first period are urged to get their applications in immediately.

115,000 SIGNS NOW ON ROADS

(Continued From Page One)

come to Southern California to view the scenic beauties and for recreation.

The perfection of the system was aided by having one strong organization in charge of the work, enabling it to be standardized and kept up by experienced engineers constantly on the job. Although the investment reaches a large figure, more than $84,000 last year, the auto club bears the burden alone and does not call upon the state, counties or cities for financial aid. It is expected that the new signs, renewals and maintenance this year will cost $120,000, but it has been stated repeatedly that if the auto club had performed no other service than this, it would have amply justified its existence.

Re-employment of 500 to 600 men recently by the Buick Motor Co. indicated renewed manufacturing activity.

More than 1,000,000 people worship in New York's 1600 churches every week.

TUBBY — And Apple Pies Are Around — By WINNER

LEGAL NOTICE

NOTICE OF ELECTION FOR THE ANNEXATION TO THE CITY OF FULLERTON OF CERTAIN TERRITORY CONTIGUOUS THERETO WITHIN THE COUNTY OF ORANGE AND DESIGNATED AS "SOUTHWEST ADDITION."

WHEREAS, The Board of Trustees of the City of Fullerton which is the legislative body of the said City of Fullerton, did, on the 20th day of May, 1924, receive a written petition asking that certain new territory situate in the County of Orange, State of California, and contiguous to the said City of Fullerton, be annexed to said City, and which said territory in said petition described is more fully hereinafter in this notice described, and

WHEREAS, the said Board of Trustees of the City of Fullerton has found and determined that the said petition is signed by not less than One-fourth (¼), to-wit: Three (3) in number, of the qualified electors residing within the aforesaid new territory as shown on the Great Register of Voters of the said County of Orange, and

WHEREAS, the said new territory so proposed to be annexed to said City of Fullerton, does not form a part of any municipal corporation and said territory is inhabited, and the occupants and residents thereof are bona fide residents of said territory so proposed to be annexed, and

WHEREAS, said petition contains a request that the said Board of Trustees of the City of Fullerton call a special election in said territory so proposed to be annexed to said City of Fullerton, and submit to the electors residing therein the question whether the same shall be annexed to, incorporated in, and made a part of the said City of Fullerton, and

WHEREAS, on the 27th day of May, 1924, the Board of Trustees of the said City of Fullerton passed and adopted an Ordinance designated as Ordinance No. 316 entitled "An Ordinance of the City of Fullerton calling a special election to be held on Monday, the 30th day of June, 1924, in certain unincorporated territory in the County of Orange, State of California, and contiguous to the City of Fullerton, proposed to be annexed to said City: Providing for the holding of such election and submitting to the electors residing in said territory the question whether said territory shall be annexed to, incorporated in, and made a part of said City of Fullerton, and be required to pay its pro rata part of all bonded indebtedness authorized or incurred prior to the said annexation, designating said territory by the name of "Southwest Addition" establishing election precincts and polling places in the said territory, appointing the officers of election for said special election and providing for the publication of notice of said special election," which said Ordinance was on the 27th day of May, 1924, approved by the President of the said Board of Trustees of the said City of Fullerton.

NOW, THEREFORE, NOTICE IS HEREBY GIVEN that in pursuance of the provisions of said Ordinance No. 316 of the said City of Fullerton, and in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide for the alteration of the boundaries of and for the annexation of territory to municipal corporations, for the incorporation of such annexed territory in and as a part thereof, and for the districting, government and municipal control of such annexed territory," approved June 11, 1913, and all acts amendatory thereof and supplementary thereto, and designated and referred to as the "Annexation Act of 1913," a special election will be held in that certain territory hereinafter designated contiguous to the said City of Fullerton, on Monday, the 30th day of June, 1924, for the purpose of submitting to the qualified electors residing in said territory proposed to be annexed to the said City of Fullerton, the question of whether such new territory shall be annexed to, incorporated in, and made a part of said City of Fullerton, and after such annexation ly with the property within the said City of Fullerton to pay the following bonded indebtedness of said City now outstanding or heretofore authorized, to-wit:

(1) A bonded indebtedness of the said City of Fullerton incurred and outstanding of $80,000.00, for the purpose of building and constructing a water works system in the City of Fullerton, dated October 1, 1912, and bearing interest at the rate of 5% per annum.

(2) A bonded indebtedness of the said City of Fullerton incurred and outstanding of $132,000.00 for the purpose of paving certain roads and streets of said City of Fullerton, dated Oct. 1, 1912, bearing interest at the rate of 5% yer annum.

(3) A bonded indebtedness of the said City of Fullerton incurred and outstanding of $12,000.00 for the purpose of completing the water works system of said City of Fullerton, dated Dec. 15, 1913, and bearing interest at the rate of 6% per annum.

(4) A bonded indebtedness of the said City of Fullerton incurred and outstanding of $16,000.00 for the purpose of repaving certain street intersections in said City, dated 15th day of December, 1913, with interest at the rate of 6% per annum.

(5) A bonded indebtedness of the said City of Fullerton incurred and outstanding of $5,000.00 for the purpose of purchasing fire apparatus for said City of Fullerton dated First day of June, 1914, bearing interest at the rate of 6% per annum.

(6) A bonded indebtedness of said City of Fullerton incurred and outstanding of $36,000.00 for the purpose of making certain municipal improvements within said City, dated First day of March, 1915, with interest at the rate of 6% per annum.

(7) A bonded indebtedness of said City of Fullerton incurred and outstanding in the sum of $280,000.00 for the purpose of extending and rebuilding the water works system of said City, dated the First day of September, 1921, with interest at the rate of 6% per annum.

(8) A bonded indebtedness of the said City of Fullerton incurred and outstanding of $160,000.00 for the purpose of repaving certain streets located within the said City, dated the First day of December, 1922, with interest at the rate of 5% per annum.

(9) A bonded indebtedness of the said City of Fullerton amounting to $75,000.00 for the purpose of the construction and installation of a Joint Outfall Sewer for the said City of Fullerton with the Cities of Anaheim and Santa Ana, dated First day of February, 1922, with interest at the rate of 5% per annum.

(10) A bonded indebtedness of the said City of Fullerton incurred and outstanding of $175,000.00 for the purpose of building and constructing an Outfall Sewer to connect with the Joint Outfall Sewer of the Cities of Fullerton, Anaheim and Santa Ana, dated First day of March, 1922, with interest at the rate of 4½% for a part and 4¾% per annum for the remainder of said bonds.

That the territory proposed to be annexed to and made a part of the said City of Fullerton is situated in the County of Orange, State of California, and is specifically described as follows, to-wit:

That portion of the Southeast shall be subject to taxation equal-Quarter (SE.¼) of the Southeast Quarter (SE.¼) of Section Thirty-three (33), Township Three (3) South, Range Ten (10) West, S. B. B. & M. in the Rancho San Juan Cajon de Santa Ana, County of Orange, State of California, described as follows:

Commencing at a point in the East line of said Section, distant 580.14 feet North of the Southeast corner thereof; thence West 460 feet; thence North 409.86 feet; thence West 200 feet; thence North 330.59 feet to a point in the North line of the Southeast Quarter (SE.¼) of the Southeast Quarter (SE.¼) of said Section Thirty-three (33); thence East, along said line, 660 feet to the Northeast corner of the Southeast Quarter (SE¼) of the Southeast Quarter (SE.¼) of said Section 33; thence South along the East line of said Section 739.85 feet to the point of beginning, estimated to contain 9.331 acres.

That upon the ballots to be used for such special election and in addition to the other matter required by Law to be printed thereon, shall be printed the following proposition, to-wit:

Shall Southwest Addition be annexed to the City of Fullerton?	Yes
Shall Southwest Addition be annexed to the City of Fullerton?	No

And there shall be a voting square at the right and opposite each proposition.

That the qualified electors residing in such territory so proposed to be annexed to said City of Fullerton are hereby directed to vote upon the question of the annexation of the said territory to said City of Fullerton by stamping a cross (X) in the voting square after the printed word "Yes," or by stamping a cross (X) after the printed word "No." If an elector shall stamp a cross (X) in the voting square after the printed word "Yes" the vote of such elector shall be counted in favor of the annexation of said territory to the City of Fullerton; and if an elector shall stamp a cross (X) in the voting square after the printed word "No" the vote of such elector shall be counted against such annexation.

That for the purpose of holding and conducting such special election there shall be One (1) precinct, denominated as "Special Election Precinct No. 1," and the place at which the polls shall be opened in said new territory hereinbefore described and proposed to be annexed to the City of Fullerton has been established and designated and the following named election officers have been appointed, to-wit:

For Inspector, W. M. Knepp.

For Judges, Ida B. Knepp and Dorothy Knepp.

Special Election Precinct No. 1 comprises the whole of said territory proposed to be annexed and which is hereinbefore described and which forms a portion of East Anaheim Precinct as the same is fixed and designated by law. That the polling place in said Special Election precinct shall be at the dwelling house of W. M. Knepp, located on Spadra Road near the Northeast corner of the hereinbefore described tract of land.

The polls of said Election will be open at 6 o'clock A. M. on the day of said Election, to-wit: Monday, the 30th day of June, 1924, and will be kept open until 7 o'clock P. M. on the same day, when the polls will be closed, except as provided by Section 1164 of the Political Code of the State of California.

The ballots to be used at said special election, the opening and closing of the polls and the holding and conducting of said special election shall be in conformity, as near as may be, with the Laws of the State of California, concerning General Elections, except as otherwise provided, and that certain act of the Legislature entitled, "An Act to provide for alteration of the boundaries of and for the annexation of territory to municipal corporations, for the incorporation of such annexed territory in and as a part thereof, and for the districting, government and municipal control of such annexed territory," approved June 11, 1913, and all acts amendatory thereof and supplementary thereto.

Dated at the office of the City Clerk of the City of Fullerton, this 29th day of May. 1924.

F. C. HEZMALHALCH,

City Clerk of the City of Fullerton.

Publish May 31st; June 7-14-21.

NOTICE TO CONTRACTORS

Notice is hereby given that the Board of Trustees of the Placentia-Richfield School District of Orange County, California, will receive bids covering the plumbing in the south wing of the proposed 2 room annex to the present primary School building, located on property owned by the said School District at Placentia, California. Each bid is to be in accordance with plans and specifications prepared by Arthur W. Angel, Architect, now on file with H. S. Leavitt, clerk at the Santa Fe Depot, Placentia, California.

Each bid must be accompanied by a Certified or Cashier's check for five per cent. of the amount of the bid, made payable to H. S. Leavitt, Clerk of the Board of Trustees, and shall be sealed and filed with the said board on or before 7:30 p.m., June 16th, 1924, at Placentia, Calif., and will be opened in public soon after that hour at the Placentia Grammar School.

The Board reserves the right to reject any and all bids.

By order of the Board of Trustees of the Placentia-Richfield School District, Orange County, Calif.

H. S. LEAVITT, Clerk

1924 B[illegible] DECLARE[illegible]

Robert Jensen, well-[illegible] nition man, in an intervi[illegible] cerning the outlook for this [illegible] for business men, spoke optimistically.

"This year started out with more than a promise. All of the large manufacturers in their monthly reports thus far have shown a large gross return and a higher percentage of net profits than the same months during preceding years. The indices generally accepted as being sound and logical as a basis for forecasting business conditions point toward a year of prosperity for the country.

"And this means that the smaller manufacturer and dealer will share in the prosperity too. The dealer should prepare for this as well as the manufacturer. He must keep his stock well supplied and he must give the best service that his personal attention and the physical facilities of his store can offer. The dealer who does his preparing early will reap the harvest of the profits. Take our business for instance. We have Prest-O-Lite prestige, so we are trying hard to make that worth a great deal to us. We maintain a sufficient stock of all materials on hand, and Prest-O-Lite products are of the highest quality, so that we don't have to make excuses to our customers. We want them to know us personally so we try to give 'friendly service' and expert advice in order that they will have confidence in us. The year 1924 will be the biggest year that we have ever had."

SEE TIRES ARE IN SHAPE FOR TRIP

Don't go away on your vacation without replacing or having repaired tires that are likely to cause you trouble on the trip, advises Roy Mendoza of the Reliable Tire Co. Mendoza has stires to fit every purse and the "pay as you ride" plan to boot.

A small deposit down and so much a week suffices.

Michelins, Para-Bells, Halls and Apexes give prospects as wide a variety of choice as anybody could ask, says Mendoza.

DAILY GREETING TO OUR READERS

once out of it, and installed into the happiness of the We now call it death to leave this world, but were we next, we should think it were dying indeed to come into it again.—William Sherlock.

KEEP UP THE GRACES OF PUBLIC SPEECH

There perhaps is not the inspiration today to oratory that there once was, in this country. Oratory is the child of inspiration. It is born of conditions which have spontaneous impulse for eloquent speaking. There are so many distractions today that oratory is not rated as an essential of ultra-modern life.

This fine grace should not be permitted to perish from the earth. Boys and girls should be trained in public speaking. Those who have especial gift of speech should be given especial encouragement to develop their oratorical talents.

The competitive speaking, throughout the country, in laudation of the United States Constitution, has been of salutary influence in promoting oratorical gifts among the people. In various institutions of learning, throughout the country, there are attractive prizes for oratory. These things are helpful.

In every community, oratory should be prized and should be given public recognition and encouragement. Talents in this line should be praised and public appreciation should be given those who display exceptional forensic abilities. Whatever advancement may come, in any direction, there always will be need of eloquence in public speaking.

The man of small income is to be envied. He gets the biggest percentage of reduction in his taxes. He will appreciate this.

EARNESTNESS LIFE'S KEYNOTE

The person who lacks earnestness in life lacks the secret of real living. The inspired writer sets it down this way: "Not slothful in business, fervent in spirit." This is the need of modern life—freedom from slothfulness; fervency in business.

Fervency is reality. The fervent person is intense. Intensity betokens life. Sloth is slow death. Earnestness need not shut out all brightness and cheerfulness. Far from it. Some of the most earnest persons are notably cheerful and genial.

This sometimes is called the "jazz" age. Some think that in almost every walk of life there is frenzy of some form—that present day life is not normal and well-balanced. This, perhaps is an extreme view. But there is much frivolity and frenziedness in pursuit of pleasure to the exclusion of serious endeavors. In these things, life should be balanced. So much of earnest useful effort, so much of wholesome pastime. There should be neither extreme in working too hard and too incessantly, or in the other extreme—playing too much and shirking the serious work of life.

This session of Congress adjourns with the conviction strong upon the country that it has dallied inexcusably and has failed to accomplish, in good time, what it should have accomplished with reasonable promptitude.

PEN SNAPSHOTS AT G. O. P. CONVENTION

WHO'S WHO IN THE DAY'S NEWS

MRS. ALVIN T. HERT

Mrs. Alvin T. Hert of Louisville, Ky., who has been chosen to succeed Mrs. Harriet Taylor Upton of Ohio as vice-chairman of the Republican national executive committee, also carries the titles of associate national committee member, state chairman of the Kentucky Republican Woman's committee of arrangements for the Republican national convention, former fifth district chairman and delegate-at-large to the convention.

Mrs. Hert is the widow of Alvin T. Hert, who was active in national Republican politics for many years. Since his death, three years ago, she has carried on his work both in business and politics. She has large interests in the cresote business in Louisville and is chairman of the board of directors of the company of which Mr. Hert was president. She also manages several fine Kentucky farms.

Added to her ability to carry on all these varied activities Mrs. Hert is said by many of her associates to be one of the most beautiful and gracious women in American politics.

SUNSHINE PELLETS

Said Grandmother Duncan,
Adjusting her specs,
"I'd sure have it bobbed,
But Grand-dad objects."

A break involving the elbow joint invariably leaves a deformity.

When we wait for cancer to prove its nature, we've waited too long.

We say its our liver,
Though we shovel in food,
Then take "regulator"
That does us no good.

Storm Warning: "Dear Daddy: Mother has just discovered that note in your pocket."

"It's a wise mother who knows her own son," said the cannon cracker as it exploded in Willie's hand.

It is at this season of the year that the lockjaw germ and the toy pistol have designs on the small boy.

We work in old garments
That are heavy and hot
But we play on the beaches
In clothing that's not.

The order of Franciscan friars was instituted about 1209.

Comments of the Press

What Editors Are Saying

CHARACTER BEFORE RICHES—Sacramento Bee

The two murderers in the terrible Franks case of Chicago have confessed their crime in all its loathsomeness.

They are not old criminals with police records, but youths only 19 years old, exceedingly well educated from wealthy families.

Yet they nonchalantly tell how they planned their crime for nine months, carefully selected their victim, crushed in his skull, stripped the boy of clothes, choked him to death and tried to mar his features with hydrochloric acid.

This pair of murderers are college graduates, one with a post-graduate degree, speaking 13 languages, the youngest student ever to obtain that honor from the University of Chicago.

No ingenious defense attorney can sobbingly picture their youth in a filthy hovel, their bodies starved for food, their minds debauched by their surroundings, in an endeavor to blame society for their crime.

Instead, they had all the advantages that education, money and position could give.

What they are they made themselves.

The families of the murdered boy and of his two murderers possessed among them some $25,000,000 which are supposed to represent the acme of happiness in this world.

The fathers of the murders, like fathers the country over, worked, strove and saved, that upon their death they might leave their sons in affluence.

And like many families, intent upon gathering money, they probably forgot to give their boys character.

Between raising your children with character and leaving them a million dollars the wise parent chooses character every time, for money purchases evil as well as good, while character, like a rock, endures through all things.

Far better that your son have character; that he know there is a God in the heavens; that there is right on the earth, than that he speak 15 languages and earn ten thousand a year.

Probably no one in Chicago is more horribly shocked by the murders than the fathers of the two murderers, who awake too late to knowledge of the paths their sons have been traveling.

In this case the paths should lead to an ignoble and merited death on the gallows.

POEMS THAT LIVE

FOUR THINGS

Four things a man must learn to do
If he would make his record true;
To think without confusion clearly;
To love his fellow-men sincerely;
To act from honest motives purely;
To trust in God and Heaven securely.

—Henry Van Dyke.

ABE MARTIN

Have you not'ced th' beautiful bond o' friendship between th' owners o' cheap cars? Miss Fawn Lippincut did not attend "East Lynne" last night, as tears wash th' paint off.

To see only vulgarity in the problems of sex is morbid perversion to shirk problems on the ground of "delicacy" is prudish.

Every persistent scaly patch on the skin of the face or hands is a potential skin cancer and, in that stage, can be easily and permanently removed.

PARAGRAPHS

By ROBERT QUILLEN

If Hermes really tours America, he is happily equipped to escape hand-shaking.

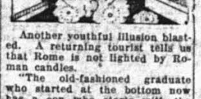

When the saleswoman calls it a "simple little thing," that generally means $10 more.

Every woman who isn't invited to a party got up to spite her knows how Japan feels.

The civilized countries are those in which women must pay more for the beads they wear.

The slow tottering of civilization seems to affect almost everything except the appropriation bills.

We are becoming so effeminate that less than 5 per cent of the boys you see have toes wrapped up.

Another youthful illusion blasted. A returning tourist tells us that Rome is not lighted by Roman candles.

"The old-fashioned graduate who started at the bottom now has a son who starts with the bushers.

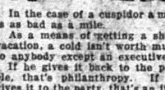

As a public enterprise Muscle Shoals should at least afford a nice reserve for lame ducks.

Among other things that have lost standing in recent years are an ultimatum and a veto.

No girl is really popular if she can have a birthday and get less than five manicure sets.

Human nature is funny; and if there was but one woman letf, doubtless Wales would fight to get her.

The method of selecting vice-presidents usually indicates a profound faith in the longevity of presidents.

In the case of a cuspidor a miss is as bad as a mile.

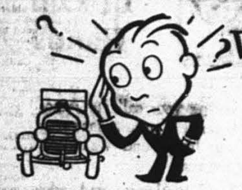

As a means of getting a short vacation, a cold isn't worth much to anybody except an executive.

If he gives it back to the people, that's philanthropy. If he gives it to the party, that's an itch to be an ambassador.

Our guess is that the house that Jack built showed evidence of too much jack and not enough knowledge of architecture.

We expected to see the Hindenburg line break, but it never entered our mind that party lines would get smashed up this way.

Correct this sentence: "You are kind to invite me," said the college girl, "but I wish to remain at home and help mamma this summer."

A history maker— and still the Leader!

Studebaker — The World's Largest Producer of Quality Automobiles

THE STUDEBAKER Light-Six—a history maker—the first fine six-cylinder car under 3,000 pounds at a four-cylinder price.

A car with followers, imitators and adapters by the score—but with no rival in quality, popularity or sales volume. It is still the Leader!

A car built to fulfill the ideal of producing the greatest automobile value in the $1,000 field—the car which started the stampede from fours to sixes.

A car with a specially designed offset valve motor of remarkable quietness, economy, freedom from vibration—and with tenacious resourcefulness of power on the hills, the straightaway and the pickup!

A car comfortable, roomy, good-looking, very easy to handle on the road, in traffic or in parking—long-lived, low in first cost and especially low in up-keep costs. The market's one best bargain for the man who wants all the car he can get at about $1,000.

A car that is an investment, not an expense, because it can be bought on very liberal terms, sold or traded in at a very high resale value on a market always ready and waiting for a used Light-Six Studebaker—its popularity and demand as a used car are the most convincing evidence of its goodness as an automobile.

Relation of C. of C. to City And Goverment Officials

Mayor E. H. Metcalf

In every municipality officials are elected whose duties are, to some extent, regulated by law. There are, however, many interests which vitally concern the development and upbuilding of every community, which are entirely beyond the control of the governing bodies. These things must be handled by organized effort thru those whose chief concern is the common good, rather than direct personal gain. Among all the organizations striving to serve along these lines, chambers of commerce are most essential. Boards of trustees or city councils are, in reality, the peoples'. business agents, entrusted with the expenditure of funds raised by taxation to provide public utilities. Streets must be kept in order, the public peace maintained, the laws enforced, and such regulations provided as are essential to every well ordered community. Centers of population are not the product of accident, but spring into being because of favorable environment or circumstance and their growth is stimulated when a proper balance is maintained through the development of agricultural resources, trade and commerce, and industrial activity of various kinds.

Because of the many things that make life attractive in a community such as ours, our past expansion has been rapid and our future growth seems assured, but to avoid the extremes of stimulation and depression, business activities of various sorts must be attracted and it is only through the sympathetic co-operation of our city government and the chamber of commerce that the desired results may be obtained and business stability secured.

These things can best be effectually accomplished through the co-ordinated efforts of city officials, chamber of commerce and every other organized body of citizens inspired with the idea of common good. We are proud of our city, its achievements, its present prosperity and its hopes for the future.

To assure our continued growth and development, we need only the get-together, the pull-together spirit which always overcomes obstacles and really does something. Our chamber of commerce is entitled the appreciative gratitude of our people for its past labors for its efforts to elevate our civic ideals, and should receive the active support of all to the end that Anaheim may retain the reputation which it has so long enjoyed of being the best little city in the Southland.

ALL WALNUTS TO BE STANDARDIZED

All walnuts sold in the United States will have to conform to a standard grade, cracking 80 per cent good, if recommendations to be made to the government by the Calif. Walnut Growers' Ass'n. are adopted. The Assn'. decided to urge the change at the annual meetings in Los Angeles.

The establishment of an A grade, nuts to crack 90 to 100 per cent, and of a B grade, 80 to 90, also will be recommended.

Secretary-Manager Walter Ross of the Anaheim Walnut Growers' Ass'n., a director, believes the recommendations will be adopted and that suitable labelling will be required also. The new regulations would work no hardship on member growers, who already have set up similar standards. But they would prevent foreign nuts from being sold as of equivalent grade or mixed with California diamond brand nuts.

Even peddlers would be under control.

The Ass'n. plans if practicable to brand all its nuts with a machine just invented. The machine will be tried out during the coming season.

The former officers were reelected at the meeting, including General Manager Carlyle Tjorpe, and all the directors also. Vice-president Ralph McNiece presided in the absence of President C. C. Teague.

The Forest of Arden

known also as

"MODJESKA'S HOME"

is now open to the public and an opportunity is available to visit this beautiful property. The Forest of Arden affords one of the most attractive mountain trips in all of Southern California with good roads of easy grade, attractive scenery, and so close in as to make it a very easy one-day trip with plenty of time to rest and enjoy the beautiful Forest of Arden.

The Modjeska Inn is open and affords free picnic tables and benches, free parking place, and the convenience of a little store, where you may procure picnic supplies, soft drinks, etc. Come out and spend the day at Modjeska Inn without charge or obligation.

An opportunity is also afforded to select a mountain home site in this beautiful environment, where wooded lots of good size with fine roads, water mains and a well-developed little community are now available. These home sites are to be purchased from $200 to $300 on very easy terms. Free booklets, price lists and maps will be sent on request to this office or to any of the following authorized brokers:

S. B. Edwards, 108 E. Chapman, Orange.

J. Hammerand, 354 East First St., Long Beach.

C. C. Latshaw Co., 121½ East Center St., Anaheim.

R. R. Pember, 1103 Lincoln Ave., Anaheim.

W. M. Whitney, 210 W. Chapman, Orange.

CHAS. S. MANN, 807 Loew State Bldg., Los Angeles Metro 3391.

MABEL FLEES FIRE

LOS ANGELES, June 14.—Shivering in a single garment of dark blue silk, Mabel Normand, film actress, ran from her apartment here today shouting "fire" at the top of her voice.

Firemen summoned by her cries failed to save the actress' auto which was burned with three others in a blaze which swept the buildings behind the apartment house, in an exclusive residential section.

The damage amounted to $20,000.

CHARGE RECKLESS DRIVING

J. A. Ramsler of Long Beach today entered a plea of guilty to reckless driving before Judge Kuchel, and was fined $25.

Charles Zehier, charged with cutting in ahead of another car, was fined $29.

LINCOLN SALES RECORD

Sales of the Ford Motor Co. in May almost equals the record figures of April, amounting to 209,601 cars and trucks against 211,000 the month previous. Sales of the Lincoln reached 868 cars, a new high record.

AT THE HOTEL VALENCIA

Appleby Motors Co.

119 N. Lemon-st., Anaheim

STOCKS TEND TO FURTHER ADVANCE

NEW YORK, June 14.—Stocks today showed a tendency to resume the advance which had been interrupted by the profit taking of the last few days.

The interests were greatly impressed by the indifference with which the news of the eastern crude oil cut was received and adopted this calmness as a sign that the process of digesting this week's advance had been about completed and that the market might again be tested on the upward side.

Oil shares, of course, in the initial dealings, were offered down by the professional element, which directed their guns against shares of companies operating in the mid-continent fields because of the price uncertainty surrounding the conditions in that territory. Selling by short operators found its was quickly into the hands of those who have been impressed by reports of increasing consumption of petroleum production and of a steady reduction in surplus stocks of gasoline in various parts of the country.

Consequently, short lines previously put out were called in and a better tone developed thruout the list.

Equipments, coppers, tobaccos and shipping were practically unchanged.

Motors, however, tended toward heaviness, Mallinson developed strength in connection with the recovery in the commodity.

Such old investment issues as Great Northern Pfd., Norfolk and Western and Pennsylvania were again affected by the current ease in credit conditions. Low priced rails were featured by Western Pacific common and Pfd.

The market closed firm. Bond trading was again in large volume. In the U. S. government group treasury 4¼s reached a fresh high record at 105.

Foreign exchanges were higher. Cotton was reactionary

Stock sales today 400,400 shares; bonds $11,090,000.

Stock sales for the week 4,487,900 shares; bonds $125,147,000.

LOS ANGELES PRODUCE

LOS ANGELES, June 14.—Butter 43. Eggs: Extras 32; case count 28; pullets 28. Poultry: Hens 14; broilers 30; fryers 32. Belgian hares: unchanged.

GRAIN CLOSES STRONG

CHICAGO, June 14.—Grains closed generally strong today, wheat leading the advancing and holding gains of 1¼ to 1½ at the close. Corn closed unchanged to ½ higher, oats ⅛ off to ¼ up.

Cable advices showed strength in what at Liverpool with moderate actual demand.

Satisfactory progress in the new wheat crop was reported from the Argentine.

DRIVING and PUTTING WITH GRUE

FAIRWAY

The third flight of the club championship was played over the week-end and resulted as follows:

R. B Wallace defeated W. E. Clement 7-5.

J. R. Porter defeated C. W. Post 6-4.

Clyde Newton defeated Roy Willis 3-2.

The Dolan-Collier match was postponed due to the failure of Dolan to appear. Collier was on hand early to go. He suspects Dolan of trying to default.

Clyde Newton will be unable to go thru to the finals, having left for a visit in Toronto, Canada.

The handicap sweepstakes last week resulted in two ties—Dr. Crawford and Joe Rowley tied with a 55 each and J. D. Spennitta tied with W. O. Hart 57.

The ringer tournament which has been in progress for several weeks with a beautiful pot of clubs and big as first prize is going good. C. W. Post has a 3 on No. 1 hole; W. O Hart is still best man on No. 5 hole with a 3; H. Garber a 2 on No. 10; L. A. Stevenson 3 on No. 12 and Clyde Newton a 2 on No. 13.

Pro Armstrong is making strenuous efforts to get the greens in perfect condition. Number three and four greens have been temporarily closed to play, undergoing repairs. Play is being "detoured" from No. 2 tee to No. 7 green and from No. 6 tee to No. 6 green for the regular No. 3 and 4 holes.

ORANGE COUNTY

Joe Szarfinski, who takes control of the old Orange County course at the harbor July 1, inaugurating Orange County's first public links, intends to put that sporty sand course in first class condition at once. He left for a business trip to San Diego Tuesday morning to secure the services of a greens-keeper who has been associated with the Szarfinski brothers for the past fifteen years or more.

The ball sweepstakes played Sunday was won by Livesey who shot the course in par, winning 7 balls. Van Dien and Low Wallace were each one down to par and won 2 balls each. Shattuck and Holcomb both two down to par and won one ball each.

Another ball sweepstakes will be played this week end.

UNOCO

Arthur Rigby, professional at Orange County club, who is relieving his nephew, Arthur Clarkson of the Rancho club, while the latter is visiting Bonnie Scotland and the auld folks, called on A. D. Walker, professional at the Unoco club Monday for a gabfest.

Rigby expects to open the first nine holes at the new Santa Ana course for play about September 1.

HACIENDA

The beautiful grass course is in excellent condition and the cool breeze and perfect greens make a delight.

Professional Harry Pressler and is capable wife report Ladies' day great success. The ladies' long driving with midiron contest was won by Mrs. L. A. Lewis. She drove 170 yards; Mrs. C. H. Johnson was second with a 165-yard shot.

Mrs. Seay won the approaching and putting contest for ladies; Miss Florence Swain, Mrs. Guy Tyler and Mrs. L. W. Murphy tied for second.

Ladies Day register: Mrs. McGee, Mrs. Wm. Cathriner, Miss Calmon, Miss Florence Swain, Miss S. B. Seay, Mrs. C. J. Caldwell, Mrs. L. W. Murphy, Mrs. L. W. Lewis, Miss S. Ross, Mrs. B. Ross, Mrs. E. R. Canterbury, Mrs. B. A. Edgington, Mrs. C. B. Johnson, Mrs. L. E. Smith, Mrs. B. F. Miller, Mrs. C. A. Carden, Mrs. M. E. Fletcher, Mrs. Guy Tyler and Mrs. A. R. Hixon.

Several new records have been made on this court this week Mr. Mike Farley made the best amateur score of the course with a 72 last Sunday. He had a 40 going out and 32 coming in.

E. R. Canterbury broke the course record with a 35-38—72.

Day by day, in every way etc., etc.—

Tagging All Bases

Detroit fans joined the players in fighting that ended in a riot, and the game was forfeited to the Yankees 9 to 0, who were leading 10 to 6 in the ninth inning when the trouble started.

The Red Sox clung to first place when the Yankees by defeating Cleveland, 8 to 2, scoring six runs in the eighth and ninth.

A ninth-inning rally netting three runs fell short and the White Sox lost to the Athletics, 7 to 6.

Walter Johnson got credit for another victory when the Senators won from the Browns, 6 to 4.

The Reds required ten innings to win from the Giants 4 to 1. Each side got a home run, the only scores, until the tenth.

The Cubs went into first place by trouncing the Braves 5 to 1.

Sotheron held the Dodgers in check and the Cardinals won easily, 8 to 2.

Rain stopped the Pirates at Philadelphia.

HEAVY TRACK AT OLYMPIC TRYOUTS

BOSTON, June 14.—The big moment for America's foremost athletes arrived today in a drizzle of rain and the prospect that the last day of the final and ultimate Olympic tryouts would feature a heavy track and sub-normal field conditions.

Only the first four place winners, barring extenuating circumstances, will be considered for places on the team in each event and even such an illustrious gent as Charley Paddock will be tendered no special consideration if he fails to run, according to expectations.

Paddock really was shut out in his semi-final heat of the 100-meter dash when he ran fourth behind Jackson Schoiz, Keith Lloyd and Chet Bowman, but the officials, remembering his past record, waived the regulations and permitted him to go on to the final today.

Two things were apparent in the race in question, to wit; That Paddock is hardly stepping at his best and that Schoiz is probably the greatest sprinter in America today. The writer will be immoderately surprised if Schoiz does not win the 100-meter final today. However, in spite of his 21 seconds world's record for his 200-meter heat, it is not so certain that Schoiz can and will outstep Paddock in this race. Charley had plenty to spare in winning his heat of the race in a fifth of a second worse than Schoiz and it was apparent that Paddock's recent leg injury does not interfere with his speed so greatly over the longer distances.

It is probably that some few of the topnotch sprinters will stay out of the race in order to give other men a chance to make the team. Otherwise there would be no quarter given or asked throout the afternoon.

There will also be the attempt of Glen Hartranft, believed to be the world's greatest weight man, to engineer a comeback. Hartranft yesterday lost but was not up to his usual form.

Many claim that Ray has slipped considerably and that Lloyd Hahn's drive thru the final quarter will find Ray without adequate reply. It is also believed that Jimmy Connolly and Ray Baker have a chance to step home in front of Joie.

At 800 meters, a head and head battle is looked for between "Soapy" Watters, Watson, Brown and Schuyler Enck, with Watters a strong pre-race favorite. A world's record is within the possibilities here, and it may be furnished by one of the dark horses, to-wit: Bill Richardson, Stanford; Harry Merrow of Iowa; Ray Dodge, Oregon Aggies, or Dick MacIntosh, another Stanford entry.

K. OF P. TEMPLE OPENED TO PUBLIC TONIGHT

(Continued From Page One)

ferding direct entrance from the rear.

There are two rooms for candidates, both strikingly finished and furnished.

The lodge room is especially rich. Walls are finished with figured southern gum wood and imitation walnut paper. There are 72 leather-seated opera chairs upon raised floor about the wall. The hall will seat a total of 350 comfortably. The walls are further decorated by nine oil paintings in oil by Charles Ferber. Lodge chairs and pedestals harmonize with the woodwork. The pure linen carpet may be readily rolled up for dancing on a smooth maple floor. There is a most complete indirect lighting system. The 18x40 foot stage has scenery symbolic of lodge work and a heavy plush curtain. On either side of the stage are dressing rooms, reached by a hallway outside the lodge room. There is also a check room at the head of the stairs.

The palatial clubrooms on the third floor are reached by a heavily carpeted stairway. The library and lounging rooms are especially exclusive, each with bachelor tile fireplace, mohair overstuffed chairs and lounges, solid walnut tables and writing desks. Of this period, plain colored toque carpet, fick wallpaper and full length draperies, mulberry shades, over gold frizzed curtains.

In the billard room are three tables. The linoleum is plain gray jaspe with black border. Arm chairs are finished to match the gray wood work. There are two card rooms with the tile pattern inlaid linoleum, black bordered.

On each floor are tiled lavatories.

SARGUM SPROUTINGS

(By Sargum Sprout)

Now they are talking about establishing a home for indigent and broken-down baseball players. Good idea alright for there are those who fall ill and a few who fail in business deals that really need help. Without any bad luck baseballers of today make enough dollars to take care of themselves.

Walter Edwards, who pitched a few games for the Elks when Loey were playing out on Commonwealth ave., played in the Northwestern League two or three seasons. He has been ill for almost two years. The little that he saved up while playing ball is gone and he is still unable to work and perhaps will never be able to play professional ball again. A home while he is getting his health back would be a great benefit to him.

Bert Colima, the Whittier Mex light heavy, is thinking of invading the East again. Bert fell down back there a year or so ago, but figures he has learned how to go over now. He has hopes of meeting Young Stribling and also has an idea that he can defeat the Georgia school boy. Bert is liable to return home a much wiser boy if he does get a chance at Ma Stribling's lad. Bert never did show signs of being any too game and it surely takes a game guy to face the Stribling heavy guns.

Jimmy Sacco, a light weight, who has been making a name for himself up Frisco way, tried his luck with Nat Goldman in Philadelphia Tuesday evening. His luck was not so good as he was knocked out in the first round.

Another of our coast boxers who failed to make the grade.

Seattle is baseball crazy. The fans are ready to give "Red" Killifer the town, clock if he wants it.

The Indians spurt toward the top has put many a dollar into the treasury of Killifer-Lockart and Co. With the home people urging them on the Indians are becoming a menace to the Seal owners' sleep. The Seals have lost two full games with the first two played this week, which has cut, their lead to about three games. A three game lead this time of the season does not spell much. The Seals have not had their firsts jump yet. They always have at least two during the season.

Tex Rickard has Mr. Wills on uneasy street just now. The foxy promotor is letting Mr. Wills stew while the public expresses its appetite for the Wills-Firpo dish. The insertion of the Madden flavor into the Wills part almost spoiled the concoction.

Tex can at least play for a cut in Mr. Wills share of the proceeds. It is said that he offered Wills $150,000, but this Madden garlic flavor should cost Mr. Wills at least $50,000. There are numerous critics who still figure Wills better than Firpo. I cannot see how they figure that way. Wills is an old man as fighters go. Five or six years ago he would have beaten Firpo but they do not come back in the fight game and Wills has been away for quite some time.

Golf is becoming more and more popular in our sunny California. We have everything that any other place has to offer for location of links and, man, we have them backed off the map for climate. The golf bug can don those cute little britches and scamper about on the green most any day in the year. The only drawback to golf is that it wrecks the hopes of many a baseball fan's "own a home" boosters. All of the golf courses are laid out over the most ideally located cities for subdivisions. It's a fact that many a really boosters and golf bugs haven't tangled ere this. Orangeco is getting the fever badly these days. Business men wives could not get up in time for breakfast till recently are now getting up in the wee hours and doing a nine hole appetizer and getting to work on time.

It must be a lot of fun to swing a crooked stick at a wee little ball, and after you hit said ball, walk a half mile to find it. The game may be alright but these pretty clothes you have to wear before you can be an expert, is what gets me. I have had a couple of invitations by an expert, a second Sarazan, to play but I haven't the clothes. Jimmy's perfect figure and my natural sozez one would be too much of a contrast, anyway, so Jimmy's honors are safe so far as I am concerned.

Manager Horwitz has arranged a wrestling show for next Wednesday, the 18th, that should make the fans sit up and take notice. The Little Giant of Brea, Orando Miller in tread lining with Pete Sour. This match should be enough to fill the house but Horwitz has lined up a semi-final that is almost as good.

The Fairyland has again been engaged for the show and a capacity house is looked for. Horwitz is attempting to give Anaheim real shows, and he will if the necessary backing is forthcoming. Anaheim has given her O. K. to up and above board wrestling, for she backed Roy Mabee to the limit. Horwitz promises that his shows will be of the same high class. It is pretty safe to say that Pete Sour and Miller will put on the best show their ability will admit, and Miller is up against a real wrestler and no fooling.

MISS RYAN WINS

LONDON, June 14.—An American today won the title in the British tennis championship, when Miss Elizabeth Ryan, former Californian, defeated Miss Kathleen McKane, England's best woman player, 6-3, 6-1, 4-1, in the final match of the Kent tournament.

COUNTY TITLE TO LOCAL SWIMMERS

Bob Jensen, Coach L. E. Sutherland's flash, stepped into the lead in the swimming meet at the city plunge this morning and grabbed three first places and then participated in the relay, helping Anaheim win. The home team made 53½ points, Huntington Beach, 20½, and Santa Ana, 2. Jensen is a positive winner when it comes to swimming, and is a marvel for a kid of his age. Bode made quick time in the 440-yard with a sensational sprint in the last 50 yards.

Anaheimers, interested in the meet, donated medals. Gold, silver and bronze medals, respectfully, were given for the first, second and third places. Gold medals were also given the participants in the relay team.

Jensen was awarded a small silver loving cup and the Anaheim team was given a large one.

The county meet was staged in the morning and representatives from Huntington Park, Huntington Beach, Los Angeles, Roosevelt, Pasadena, and Long Beach entered the afternoon's events.

The results this morning:

50-yard free style—Jensen, A, first; Fitzgibbons, A, second; Davis, H. B., third. Time, 28:4.

440-yard free style—Bode, A, first; Rundstrum, A, second; Richards, H. B., third. Time, 7.2.8.

Diving—Higgins, H. B., first; Howell, A, second; Grafton, A, third.

100-yard dash—Jensen, A, first; Davis, H. B., second; Beatty, S. A., third. Time, 1:4.7.

50-yard breast stroke—Bode A. and Jenks, H. B., tied for first. (Two were disqualified and the 9 points were divided.)

Plunge for distance—Rundstrum, A, first; Mann, A, second; Beatty, S. A., third. Distance 44 feet 2 inches.

220-yard free—Jensen, A, first; Bode, A, second; Davis, H. B., third. Time, 3:18.

5-yard back stroke—Richards, H. B., first; Fizgibbons, A, second.

Relay won by Anaheim—Bode, Jensen, Grafton and Fizgibbons.

Good time was made in all events and keen competition was anticipated in the afternoon's contests.

Results this afternoon are as follows:

Fifty-yard dash, Jackson, Anaheim, first; Novis, Pasadena, second; Fitzgibbons, Anaheim, third. Time, 2 minutes, 8 two-tenths seconds.

440-yard dash, Kendall, Pasadena, first; Bode, Anaheim, second; Novis, Pasadena, third, time, 6 minutes, 43 seconds.

BOB MEUSEL AND COLE SUSPENDED

DETROIT, June 14.—Bob Meusel, Yankee outfielder, and Bert Cole, Detroit, pitcher, have been suspended indefinitely for their part in the riot at Navin Field, which broke up yesterday's game.

Further punishment will follow according to president Ban Johnson, as soon as he can identify the persons guilty of perpetrating the second outbreak, the one that led to the staging of the riot on the field by 10,000 fans.

SUSPENSIONS MAY FOLLOW B. B. FUSS

DETROIT, June 14.—That suspensions would be handed out to quarrelsome members of the New York and Detroit American League teams was regarded as certain today, as the result of a riot which broke up the game in the ninth inning yesterday.

The game was awarded to the Yankees by a formal score of 9 to 0.

The trouble started after Bob Meusel had been tickled in the ribs by a pitched ball tossed by Bert Cole. Fights and near-fights started between members of the opposing teams and 10,000 fans rushed onto the field and staged many free for alls, one belligerent fan making the occasion an interesting one for two policemen.

Ty Cobb today charged that "Babe" Ruth and Bob Meusel inflamed the crowd.

"Both Ruth challenged me and several other players to fight him then and there," said Cobb. "He kept shooting these challenges and inflaming the crowd even when struggling with the police."

Forum Meetings

(By Herbert A. Johnston)

There is probably no organization in the city of Anaheim that should command more of the individual and collective interest of our citizens than the Chamber of Commerce. To enlist the support of the people is the earnest desire of the board of directors, and it has been decided that a regular monthly Forum meeting with a dinner would help to get more people interested in the development of the community.

At these meetings speakers will deal with important matters of great local interest which should mean that these gatherings would be well attended. The Chamber of Commerce belongs to the people and not to the board of directors and it is the hope of the board that interest be increased, suggestions be made, new projects be entered upon, and unfinished ones be brought to a successful termination. The Board cannot do this all alone. It needs the best help available and looks to the community to do more than simply subscribe a few dollars to the general or service funds. It expects you, property owners, business or professional men, citizens, to attend the meetings which are, after all, your meetings, and work together with it for the common good—Hence the forum meeting and dinner once a month.

If you are a member you should attend these meetings and see that the men in charge of investing your money in community affairs are doing it wisely. If you are not a member, come anyway; the meetings are always open to the public and your may learn something about the advancement of your city. You may become interested in the Chamber of Commerce itself, an organization which meets a community need in a unique and definite way.

pleasure to the guests with a group of songs. Miss Miller has only been in Anaheim a short time, but has won many friends with her pleasing voice. It is a real inspiration to hear her.

With such a program as this, everyone interested in the welfare of Anaheim should be present.

It is 6:30 p. m. at the Elks' club Monday evening, June 16th.

Six Sprayed With Acid By Band Of "Beauty Bandits" in Oakland

OAKLAND, June 14.—A band leveled a stream of acid, projected from ammonia pistols, at Mrs Town. It also struck the other occupants of the car.

Cause for the attack has not been determined.

Administration of Bonus Law Pushed

WASHINGTON, June 14.—Plans for administering the soldiers' bonus law are "going forward at full speed," Director Frank T. Hines of the U. S. Veterans' Bureau told President Coolidge today.

The president and Hines conferred on arrangements being made to use surplus moneys in the treasury to carry out the terms of the law, until congress appropriates funds.

SENTENCED TO HANG

CHICAGO, June 14.—Russell Scott, formerly of Detroit, where he had organized a million dollar business that later failed, today was sentenced to hang for the murder of Joseph Maurer, 19-year-old clerk in a drug store, who was shot when Scott and his brother held up the place.

Scott, Wednesday pleaded guilty and when the sentence was pronounced today his attorney hysterically begged permission to change the plea. He was referred to "He kept shooting these challeng-

NAME NAVAL BOARD

WASHINGTON, June 4.—The report of the naval selection board approved by President Coolidge, and naming six new admirals, 22 captains and 41 commanders, was made public today by Secretary of the Navy Wilbur.

The following six captains were selected by the board for promotion to the rank of rear admiral.

J. K. Robison, A. L. Willard, H. H. Hough, H. K. Christy, N. E. Irwin, F. J. Senn.
